HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(FORMED BY THE RT. HON. TONY BLAIR, MP, JUNE 2001)

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS—The Rt. Hon. Jack Straw, MP
SECRETARY OF STATE FOR THE HOME DEPARTMENT—The Rt. Hon. David Blunkett, MP
SECRETARY OF STATE FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS—The Rt. Hon. Margaret Beckett, MP
SECRETARY OF STATE FOR TRANSPORT AND SECRETARY OF STATE FOR SCOTLAND—The Rt. Hon. Alistair Darling, MP
SECRETARY OF STATE FOR HEALTH— The Rt. Hon. Dr. John Reid, MP
SECRETARY OF STATE FOR NORTHERN IRELAND—The Rt. Hon. Paul Murphy, MP
SECRETARY OF STATE FOR DEFENCE—The Rt. Hon. Geoffrey Hoon, MP
SECRETARY OF STATE FOR WORK AND PENSIONS—The Rt. Hon. Andrew Smith, MP
SECRETARY OF STATE FOR TRADE AND INDUSTRY—The Rt. Hon. Patricia Hewitt, MP
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
PARLIAMENTARY SECRETARY TO THE TREASURY—The Rt. Hon. Hilary Armstrong, MP
SECRETARY OF STATE FOR EDUCATION AND SKILLS—The Rt. Hon. Charles Clarke, MP
CHIEF SECRETARY TO THE TREASURY—The Rt. Hon. Paul Boateng, MP
LEADER OF THE HOUSE OF COMMONS, SECRETARY OF STATE FOR WALES AND LORD PRIVY SEAL—The Rt. Hon. Peter Hain, MP
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
LEADER OF THE HOUSE OF LORDS AND PRESIDENT OF THE COUNCIL—The Rt. Hon. The Baroness Amos
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS AND LORD CHANCELLOR (FOR THE TRANSITIONAL PERIOD) —The Rt. Hon. The Lord Falconer of Thoroton, QC
SECRETARY OF STATE FOR INTERNATIONAL DEVELOPMENT—The Rt. Hon. Hilary Benn, MP

DEPARTMENTS OF STATE AND MINISTERS

Office of the Deputy Prime Minister—
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
MINISTERS OF STATE—
Minister for Local and Regional Government—The Rt. Hon. Nick Raynsford, MP
Minister for Regeneration and the Regions—The Rt. Hon. The Lord Rooker
Minister for Housing and Planning— The Rt. Hon. Keith Hill, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Yvette Cooper, MP
Phil Hope, Esq, MP

Cabinet Office—
MINISTER FOR THE CABINET OFFICE AND CHANCELLOR OF THE DUCHY OF LANCASTER—Douglas Alexander, Esq, MP

Constitutional Affairs—
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS—The Rt. Hon. The Lord Falconer of Thoroton, QC
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Christopher Leslie, Esq, MP
David Lammy, Esq, MP
The Lord Filkin, CBE
Anne McGuire, MP (Parliamentary Under-Secretary of State for Scotland)
Don Touhig, Esq, MP (Parliamentary Under-Secretary of State for Wales)

Culture, Media and Sport—
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
MINISTERS OF STATE—
Minister for Sport and Tourism—The Rt. Hon. Richard Caborn, MP
Minister for the Arts—The Rt. Hon. Estelle Morris, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
The Rt. Hon. The Lord McIntosh of Haringey (Minister for Media and Heritage)

Defence—
SECRETARY OF STATE—The Rt. Hon. Geoffrey Hoon, MP
MINISTER OF STATE—
The Rt. Hon. Adam Ingram, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Bach (Minister for Defence Procurement)
Ivor Caplin, Esq, MP

Education and Skills—
SECRETARY OF STATE—The Rt. Hon. Charles Clarke, MP
MINISTERS OF STATE—
Minister for School Standards—David Miliband, Esq, MP
Minister for Children—The Rt. Hon. Margaret Hodge, MP
Minister for Lifelong Learning, Further and Higher Education—The Rt. Hon. Alan Johnson, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Ashton of Upholland
Ivan Lewis, Esq, MP
Stephen Twigg, Esq, MP

Environment, Food and Rural Affairs—
SECRETARY OF STATE—The Rt. Hon. Margaret Beckett, MP
MINISTERS OF STATE—
Minister for Rural Affairs and Local Environmental Quality—The Rt. Hon. Alun Michael, MP
Minister for the Environment— Elliot Morley, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Whitty
Ben Bradshaw, Esq, MP

Foreign and Commonwealth Affairs—
SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP
MINISTERS OF STATE—
Minister for the Middle East—The Rt. Hon. The Baroness Symons of Vernham Dean
Minister for Europe— Denis MacShane, Esq, MP
Minister for Trade and Investment—Mike O'Brien, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Bill Rammell, Esq, MP
Chris Mullin, Esq, MP

Health—
SECRETARY OF STATE—The Rt. Hon. Dr. John Reid, MP
MINISTERS OF STATE—
The Rt. Hon. John Hutton, MP
Rosie Winterton, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Miss Melanie Johnson, MP
Dr. Stephen Ladyman, MP
The Lord Warner

Home Office—
SECRETARY OF STATE—The Rt. Hon. David Blunkett, MP
MINISTERS OF STATE—
Minister for Crime Reduction, Policing and Community Safety— Ms Hazel Blears, MP
Minister for Criminal Justice System and Law Reform—The Baroness Scotland of Asthal, QC
Minister for Citizenship and Immigration— The Rt. Hon. Beverley Hughes, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Paul Goggins, Esq, MP
Caroline Flint, MP
Fiona Mactaggart, MP

International Development—
SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—Gareth Thomas, Esq, MP

Law Officers' Department—
ATTORNEY-GENERAL—The Rt. Hon. Lord Goldsmith, QC
SOLICITOR-GENERAL—The Rt. Hon. Harriet Harman, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—Dr. Lynda Clark, QC, MP

Leader of the House of Commons—
LEADER OF THE HOUSE OF COMMONS—The Rt. Hon. Peter Hain, MP
DEPUTY LEADER OF THE HOUSE OF COMMONS—Phil Woolas, Esq, MP

Northern Ireland Office—
SECRETARY OF STATE—The Rt. Hon. Paul Murphy, MP
MINISTERS OF STATE—
The Rt. Hon. Jane Kennedy, MP
The Rt. Hon. John Spellar, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Ian Pearson, Esq, MP
Angela Smith, MP

Paymaster General's Office—
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP

Privy Council Office—
LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS— The Rt. Hon. The Baroness Amos

Trade and Industry—
SECRETARY OF STATE AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Patricia Hewitt, MP
MINISTERS OF STATE—
Minister for Energy, E-Commerce and Postal Services—Stephen Timms, Esq, MP
Minister for Trade and Investment—Mike O'Brien, Esq, MP
Minister for Industry and the Regions and Deputy Minister for Women and Equality— The Rt. Hon. Jacqui Smith, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Sainsbury of Turville (Minister for Science and Innovation)
Nigel Griffiths, Esq, MP (Minister for Small Business and Enterprise)
Gerry Sutcliffe, Esq, MP (Minister for Employment Relations, Competition and Consumers)

Transport—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
MINISTER OF STATE—
Dr. Kim Howells, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
David Jamieson, Esq, MP
Tony McNulty, Esq, MP

Treasury—
PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
CHIEF SECRETARY—The Rt. Hon. Paul Boateng, MP
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP
FINANCIAL SECRETARY—Ms Ruth Kelly, MP
ECONOMIC SECRETARY—John Healey, Esq, MP
PARLIAMENTARY SECRETARY—The Rt. Hon. Hilary Armstrong, MP
LORDS COMMISSIONERS—
John Heppell, Esq, MP
Nick Ainger, Esq, MP
Jim Murphy, Esq, MP
Derek Twigg, Esq, MP
Joan Ryan, MP
ASSISTANT WHIPS—
Fraser Kemp, Esq, MP
Charlotte Atkins, MP
Gillian Merron, MP
Vernon Coaker, Esq, MP
Paul Clark, Esq, MP
Margaret Moran, MP
Bridget Prentice, MP

Work and Pensions—
SECRETARY OF STATE—The Rt. Hon. Andrew Smith, MP
MINISTERS OF STATE—
Minister for Work—Des Browne, Esq, MP
Minister for Pensions—Malcolm Wicks, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Baroness Hollis of Heigham
Maria Eagle, MP
Chris Pond, Esq, MP

Her Majesty's Household—
LORD CHAMBERLAIN—The Rt. Hon. The Lord Luce, GCVO
LORD STEWARD—The Duke of Abercorn, KG
MASTER OF THE HORSE—The Lord Vestey
TREASURER—Bob Ainsworth, Esq, MP
COMPTROLLER—Thomas McAvoy, Esq, MP
VICE-CHAMBERLAIN—Jim Fitzpatrick, Esq, MP
CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Rt. Hon. The Lord Grocott
CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Lord Davies of Oldham
LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Evans of Temple Guiting
BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Andrews, OBE, The Baroness Crawley

---

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL—
Mrs. Irene Adams, MP, David Amess, Esq, MP, Janet Anderson, MP, Nigel Beard, Esq, MP, Miss Anne Begg, MP, Joe Benton, Esq, MP, Sir John Butterfill, MP, Martin Caton, Esq, MP, David Chidgey, Esq, MP, Derek Conway, Esq, MP, Frank Cook, Esq, MP, James Cran, Esq, MP, John Cummings, Esq, MP, The Rt. Hon. Eric Forth, MP, Roger Gale, Esq, MP, Win Griffiths, Esq, MP, Mike Hancock, Esq, MP, Jimmy Hood, Esq, MP, Kevin Hughes, Esq, MP, Alan Hurst, Esq, MP, Eric Illsley, Esq, MP, John McWilliam, Esq, MP, Bill O'Brien, Esq, MP, Edward O'Hara, Esq, MP, Bill Olner, Esq, MP, Peter Pike, Esq, MP, Mrs. Marion Roe, MP, Jonathan Sayeed, Esq, MP, George Stevenson, Esq, MP, David Taylor, Esq, MP, The Rt. Hon. Miss Ann Widdecombe, MP, Sir Nicholas Winterton, MP

HOUSE OF COMMONS COMMISSION—
The Rt. Hon. The Speaker (Chairman), The Rt. Hon. Peter Hain, MP, Oliver Heald, Esq, MP, Sir Archy Kirkwood, MP, Sir Stuart Bell, MP, Sir Patrick Cormack, FSA, MP

SECRETARY OF THE COMMISSION—Robert Rogers

ASSISTANT SECRETARY —Shona McGlashan

AUDIT COMMITTEE—
Oliver Heald, Esq, MP (Chairman), Sir Archy Kirkwood, MP, Sir Thomas S. Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Dr. Mark Egan

BOARD OF MANAGEMENT—
Roger Sands, (Chief Executive), George Cubie, CB (Clerk of Committees, Department of the Clerk of the House), Sir Michael Cummins (Serjeant at Arms), Priscilla Baines (Librarian), Andrew Walker (Director of Finance and Administration), Bill Garland (Editor of the Official Report), Sue Harrison (Director of Catering Services)

SECRETARY OF THE BOARD OF MANAGEMENT—Richard Ware, DPhil

SPEAKER'S SECRETARY—Roger Daw

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

15 March 2004

Written Ministerial Statements

Monday 15 March 2004

HOME DEPARTMENT

Alcohol Harm Reduction Strategy

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): The Strategy Unit's report, alcohol harm reduction strategy for England, is published today. The strategy aims to reduce the harm caused by alcohol misuse by focusing on four areas for intervention:

- using more effective enforcement to tackle alcohol-related crime and anti-social behaviour;
- encouraging the alcoholic drinks industry to take a lead in promoting more responsible drinking and in reducing alcohol-related problems;
- enabling individual choice through improved and better targeted education and communication; and
- better support and treatment for those who suffer from the effects of alcohol misuse and their families.

Its findings will be implemented as Government policy. This is consistent with the commitment made in the NHS Plan to begin implementing an alcohol harm reduction strategy for England in 2004.

Copies of the report have been placed in the Library.

Disorder Penalty Notices

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): Home Office research findings summarising the main findings of the interim evaluation of pilots for penalty notices for disorder, which ran for 12 months from August and September 2002 to 2003, have been published today. The findings show that police officers have welcomed the scheme and are making good use of penalty notices for disorder. In particular, the pilots showed that the police find penalty notices for disorder a quick and effective tool for tackling the low-level drink-related nuisance offending that occurs late at night in city centres. Using a penalty notice for disorder saves police time and there has been a demonstrable switch from cautions and prosecutions in the pilot areas.

The issues raised by police officers about repeat offenders, "flagging" on PNC and taking of fingerprints and DNA have already been addressed. A programme is being developed that will identify repeat offenders on the computer database. A facility now exists to record penalty notices on PNC, and the Criminal Justice Act 2003 contains powers for the police to take DNA and fingerprints on arrest for recordable offences. These powers will be introduced on 5 April.

Copies of the research findings have been placed in the Library.

TREASURY

Public Sector Relocation

The Chancellor of the Exchequer (Mr. Gordon Brown): The report of Sir Michael Lyon's independent review of public sector relocation is published today. Copies are available in the Vote Office.

TRADE AND INDUSTRY

National Minimum Wage

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): In July 2003 I asked the independent Low Pay Commission to report on the national minimum wage by the end of February 2004.

The Government are today publishing the Commission's 2004 report and I would like to take this opportunity to thank the Chair of the Commission, Adair Turner, and its other members for their work on this very important issue.

We asked the Commission to consider two issues. We asked them to look at possible fine-tuning of the minimum wage rates proposed for October 2004, in the light of the latest economic position. And we asked them, following the recommendation in their fourth report last spring, to look at the possible introduction of a new minimum wage rate for 16 and 17-year-olds.

The Commission have concluded, first, that the overall economic outlook remains favourable, with growth being slightly higher than forecast last year and the labour market remaining robust with high employment and very low unemployment. In addition, employment across low-paying sectors as a whole is continuing to grow and there seems to be little or no evidence that the minimum wage is having an adverse impact on these sectors. On the basis that the Commission believe these recommendations are affordable for business and will not have any significant effect on levels of employment, the Government have accepted the recommended rate increases for 2004.

The Commission have also considered whether to introduce a new minimum wage rate for 16 and 17-year-old workers. They have found continued evidence that some jobs in this age group offer very low rates of pay and little or no training, and concluded that it is important to introduce a minimum wage for 16 and 17-year-old workers, in order to stop exploitative rates of pay.

However it is clearly important to set any rate for this group cautiously. Unemployment and employment levels for 16 and 17-year-old workers are substantially worse than those for those aged 18 to 21. The Commission believe that a rate of around £3.00 per hour would have negligible impact on young people's decisions on whether to remain in education, and the

national implementation of Education Maintenance Allowances this autumn will encourage young people to stay on in education after they have completed compulsory schooling. The Commission have therefore recommended that a rate should be introduced for 16 and 17-year-olds, at £3.00 in October 2004. The Government have accepted this recommendation.

The Commission have also considered the position of young apprentices. Many young apprentices earn less than £3.00 an hour at 16 and 17, and many 18-year-old apprentices earn less than the development rate of £4.10 an hour. We are very concerned to ensure that employers continue to offer apprenticeships and, recognising the need for caution, the Commission have recommended extending the current exemption for apprentices aged under 19 to cover 16 and 17-year-old apprentices as well. They have also recommended extending this exemption to cover participants on specified pre-apprenticeship programmes. The Government have accepted this recommendation.

I have placed copies of this statement, the Report from the Low Pay Commission and our Regulatory Impact Assessment in the Libraries of both Houses.

Summary of recommendations in the Low Pay Commission's 2004 report and the Government's response

NATIONAL MINIMUM WAGE RATES

The adult rate of the minimum wage should be increased from the present hourly rate of £4.50 to £4.85 in October 2004.

Accept. This increase will take place on 1 October 2004.

The youth rate (which applies to 18–21 year olds) should be increased from the present hourly rate of £3.80 to £4.10 in October 2004.

Accept. This increase will take place on 1 October 2004.

YOUNG PEOPLE

The Government should introduce a minimum wage for 16–17 year olds, set at an hourly rate of £3.00 in October 2004.

Accept. We will introduce a new minimum wage rate for 16–17 year olds on 1 October 2004.

Apprentices aged 16 and 17 and participants on specified pre-apprenticeship programmes should be exempt from the new rate.

Accept.

AWARENESS

The Government should consider specific channels to promote awareness of the minimum wage for young people.

Accept. We will consider this point when developing the publicity campaign to inform people of the new rates this autumn.

DEPUTY PRIME MINISTER

Sustainable Communities

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): In February last year my right hon. Friend the Deputy Prime Minister published the Communities Plan. That plan was not simply about housing: it was about creating sustainable communities in all parts of the country, and we are following it up with a detailed programme of implementation. In July last year the Office of the Deputy Prime Minister published "*Making it Happen—Thames Gateway and the Growth Areas*" and in February this year we set out our plans for the north in "*Making it Happen—The Northern Way*". I am now giving Members a further update on our plans for the growth areas.

One of our key objectives is to help tackle the long-term shortage of housing, and particularly affordable housing. Based on the potential set out in joint studies with partners, we are now working to deliver the additional 200,000 new homes identified in the Communities Plan for sustainable communities in the growth areas and London. This is in addition to the 930,000 already planned in the wider south-east by 2016, and subject to testing and examination through the Regional Planning Guidance (RPG) process.

These additional new homes are a key element in our response to the housing affordability problem which is seriously affecting the wider economy, business competitiveness, and the delivery of public services. Failure to respond to these pressures is directly harming communities and means that young people cannot live near their parents.

Constraining growth in order to divert it to other regions is not a solution. We are committed to enabling every region to perform to its full economic potential, and to narrow the gap in growth rates between them, but displacing investment in the south-east means it might well go abroad or not happen at all.

Later this week the Government intend to publish Kate Barker's review of housing supply which will consider the need for additional measures and on which we will consult. In the meantime we need to ensure that we and our regional and local partners are on course to deliver the full potential of the growth areas programme.

The regional Planning Framework

The growth areas will in part help meet demand close to London, and in part provide new opportunities in the north and east of the wider south-east, where there is substantial capacity for sustainable growth in new and expanded communities. The growth areas policy will also strengthen links between the south east and its adjoining regions, particularly the East Midlands, through Northamptonshire and the inclusion of Peterborough, and with Europe.

The areas that we are now taking forward were confirmed in RPG9 (for the wider south-east) published in 2001, because of their potential to take further sustainable growth, and to exploit major transport investment. The potential of Thames Gateway was established in RPG9a, and is being further developed in the Interregional Planning Statement which is being

prepared by the three Regional Planning Bodies which cover the Gateway. The potential for the newer growth areas has been independently assessed in studies which were published last year. These studies and supplementary local assessments have been key inputs to the preparation of proposals by regional partners for new Regional Planning Guidance for each area, which is then subject to public consultation and testing in public examination. The current position is tabled below:

Milton Keynes/ South Midlands	Mini RPG proposals published for public consultation July 2003; public examination starts 23 March 2004.
Ashford	Mini RPG proposals published July 2003, public examination held in December—Panel report submitted to the Office of the Deputy Prime Minister February 2004.
London—Stansted—Cambridge—Peterborough	Growth area proposals are included in draft RPG 14 for the East of England—proposals agreed by Regional Planning Panel February 2004 subject to further work on the Growth Area for completion by September 2004.
Thames Gateway	Interregional Planning Statement being draw up by Regional Planning bodies puts forward outline growth potential for confirmation by Regional planning Statements.

A more sustainable approach

The growth areas programme is about sustainable communities, not simply about housing. We are looking to create places where we integrate from the start a more sustainable approach to health, education, transport, the environment and natural resources. Jobs growth needs to balance housing rather than simply add to long distance commuting. Where there is an urban extension, growth should strengthen the existing town centre, enabling it to offer a wider range of services, and where there is to be a new settlement, it needs to complement, not weaken, its neighbouring centres. The challenge is to make the most of these opportunities to create communities which are better designed and more attractive to residents and investors and which will stand the test of time. There are good examples of this quality of development currently being delivered in Cambridge, Northampton, Milton Keynes and in the Abode scheme at Harlow, and in Thames Gateway in the Royal Docks and Kent Thameside. The Commission for Architecture and the Built Environment is working extensively with local partners across the Growth Areas to help realise this potential.

Infrastructure and services

One of the critical issues for new communities is ensuring that provision of infrastructure and services takes place in step with growth. Failure to do so places additional pressures on hard pressed existing facilities and will make the growth itself unattractive to investors, new arrivals and existing residents. Our task as Government is to put in place mechanisms with local and regional partners, and the private sector, to ensure that we tackle these issues together and give partners, investors and communities the reassurance they need. The approach we will follow is based on the following principles:

(i) that funding allocations for major services such as health and education respond effectively to rapid population growth;

(ii) that we will only support the development of individual growth locations which can be adequately supported by committed or planned transport services and infrastructure;

(iii) that for the major growth locations, we recognise the need for additional funding for local infrastructure services and environmental improvement to unlock key sites, alongside strengthened local delivery arrangements, established in consultation with local partners.

I can now report to the House on some of the early action which colleagues and I are taking to help deliver this approach.

Health

Creating new communities offers substantial potential for health benefits—through better design promoting healthier communities, responding to keyworker shortages in the health sector and providing health services more effectively from the outset. To support the development of Sustainable Communities, and reflect population growth, the department of Health is announcing a new funding package for the Growth Areas which will enable the NHS to increase local service capacity, including:

An additional £20 million of revenue funding per annum for 2004–05 and 2005–06, for those Primary Care Trusts (PCTs) that are already experiencing considerable population growth as a direct consequence of development of the four Growth Areas;

An additional £20 million of capital resources for allocation in 2005–06 to the 4 growth areas;

A Growth Areas Adjustment as part of future PCT allocations. This will apply from 2006–07. The detail of this adjustment will be worked through as part of Department of Health's review of its allocations policy which will take place later this year. It will ensure PCTs have the resources to put in place the additional capacity that planned population growth will require.

The aim will be to ensure that additional health and social care capacity (both primary and community and hospital-based services) is ready to open as new populations move into the areas. NHS and social care organisations will need to play a key role in each of the delivery vehicles being set up in the Growth Areas. Early engagement will ensure that they can respond positively to population growth; planning innovative services integrated where possible into other aspects of the public and civic infrastructure (e.g. health facilities with local libraries, schools, or shops) and to help design urban developments so that they promote healthy sustainable communities and tackle health inequalities. Staffing the extra service capacity required in the four Growth Areas will also be a major challenge for Health Service and other delivery partners. The optimal solution is to train and employ local people, both to aid

regeneration and promote healthy, sustainable communities, but also so as housing and travel difficulties are minimised.

Education

Improving education standards is a key objective of the Government, and of concern both for local communities and partners, and for prospective residents and investors in all the growth areas. The total capital funding available nationally for investment in school buildings has increased substantially—from less than £700 million in 1996–97 to £3.8 billion this year, and it will reach £5.1 billion in 2005–06. For example, just over £400 million (including £104 million Private Finance Initiative credits) has already been allocated to authorities and their schools covered by the Milton Keynes/South Midlands growth area over the period 2003–06. Within this over £200 million has been allocated largely by formula, and delivered through the Single Capital Pot, to meet modernisation and pupil needs. As part of the move to simplify the arrangements for allocating capital for pupil places, the Department for Education and Skills (DfES) are introducing a mechanism whereby Local Education Authorities can apply for additional capital support to meet exceptional circumstances, including unusually high levels of growth. DfES will be discussing with rapid growth authorities their plans and funding needs.

Within the total capital support a major component that will address capacity and help all four growth areas is the Building Schools for the Future programme. This is a programme of rebuilding and refurbishment to ensure that secondary education has facilities of 21st century standards. The aim is to deliver this goal successfully within 10–15 years from 2005–06, subject to future public spending decisions; £2 billion is available for the programme from 2005–06. An announcement on the first wave authorities was made on 12 February, and a further announcement about future waves will be made later this year.

Local government services

More generally, rapidly growing populations can place substantial additional demand on services provided by local government. My right hon. Friend the Minister for Local and Regional Government has agreed to consider the impact of ceilings on rapid growth areas in the local government revenue support grant system and to do this in advance of the 2005–06 allocations.

Transport

Planning for large scale growth also offers opportunities for a more sustainable approach to transport through integrated decisions on development—location, design, density and mix of uses, linking with policies on the environment, health and education to create more sustainable travel choices.

The Local Transport Settlement in December 2003 included approval for a number of important schemes in the newer Growth Areas including the Cambridge to Huntingdon Guided Bus £65 million, Luton-Dunstable guided bus (£78 million), Milton Keynes Integrated Transport £15 million (including ODPM funding) the Northampton Quality Bus network £8 million.

On strategic transport, the newer growth areas will benefit from major commitments on rail such as West Coast mainline and on strategic roads, such as the M11 Junctions 8 to 9 widening, and the A14 in London-Stansted–Cambridge. In Milton Keynes/South Midlands, the schemes added last year to the Highways Agency programme included M1 widening from Luton (Junctions 6a to 10) and Luton to Milton Keynes (Junctions 10 to 13), A421 dualling (M1 Junction 13 to Bedford) and the Dunstable Northern Bypass (A5 to M1 link) (in total over £820 million of investment), and also Ashford M20, Junction 10A on the M20—decision last December.

In terms of other possible transport infrastructure schemes, the Office of the Deputy Prime Minister is working closely with the Department for Transport on the interface between growth and transport capacity, as in the study commissioned to look at these issues in the London-Stansted-Cambridge-Peterborough area. Decisions on specific proposals and priorities clearly need to be informed by a robust evidence base. On the proposal for an East-West Rail link between Oxford and Bedford, we are carefully considering the business case developed by the Consortium and its potential in relation to future development and in supporting east-west strategic direction across the growth area. Future decisions on any new rail projects and announcements will be taken in the light of the results of the Department for Transport's review of rail industry structure and organisation and the outcome of this year's Spending Review announcement.

Significant progress has also been made over the past six months towards realising enhanced transport infrastructure to support growth in the Gateway. This includes consultation by the Strategic Rail Authority on an Integrated Kent Franchise that incorporates Channel Tunnel Rail Link domestic services to Stratford, Ebbsfleet, Medway, Sittingbourne and on to Ashford and East Kent; a provisional offer (subject to conditions) from the Department for Transport of £200 million of Private Finance Initiative credits towards the construction of the Thames Gateway Bridge; agreement between the Office of the Deputy Prime Minister and Transport for London to jointly fund the improvement of the A206 in Bexley; and the approval by the Department for Transport of a Transport and Works Act application to extend the Docklands Light Railway (DLR) from the Royal Docks under the River Thames to Woolwich. The first phase of the West Thurrock regeneration Ring Road will shortly be completed; the DLR extension to City Airport is on site and on programme; and the construction of the second Swale Crossing in Kent will commence this year.

Water and natural resources

We are committed to household growth that is located and designed in ways that respect the environment and minimise resource use. New homes and neighbourhoods should be built to new and exacting standards of resource efficiency as an investment for the future. The Sustainable Buildings Task Group has been asked to make recommendations to Government on how this can be done in new and existing homes.

The Government is committed to ensuring that the growth areas have the water they need and necessary sewerage infrastructure. The relevant water undertakers and environmental regulators have been involved in the development of the growth area proposals. Opportunities for developing sustainable new water resources in the south-east are very limited, so improving the management of water demand by improved conservation of existing resources will be crucial. Water companies will need to identify options for demand management, including better leakage control and higher levels of water efficiency. And we will support innovative solutions for water management. In Ashford, for example, the Office of the Deputy Prime Minister is providing funding for an Integrated Water Management Strategy (covering water supply, wastewater treatment, and flood defence and alleviation) by the Environment Agency.

Additional funding for local infrastructure

Through the Growth Areas Fund administered by the Office of the Deputy Prime Minister, Government has made £446 million available to the Thames Gateway and £164 million available to the three newer growth areas for the three financial years 2003–06. A key objective of the funding is to remove the barriers to implementation in the major growth sites.

In the newer growth areas examples of recent funding include £20 million to support infrastructure and site works for the new communities around Cambridge, £5 million to progress the Bedford western bypass which has the potential to unlock 3,500 dwellings and similar projects in Northampton, Wellingborough and other locations. We are also funding preparatory work to plan new services; for example £0.8 million has been awarded to plan local health care services and better health across the sub-region and funding has been provided for a range of master planning and economic visioning studies. We are improving the environment. Overall in the 4 growth areas, around £30 million has been allocated to 'greenspace' projects, to create new strategic green buffer areas and improve countryside access around key growth locations, e.g. Rainham Marshes, the new Nene Valley Regional Park in Northamptonshire, and extensions to the Forest of Marston Vale. Funding post 2005–06 will be determined through Government's expenditure review this year.

In the Thames Gateway, funding has been allocated towards land acquisition and site preparation in key brownfield areas including Lower Lea, and Rochester Riverside, and the completion of the A206 Thamesmead spine road in Bexley. Support has been provided for the renewal of key town centres at Barking, Dartford, and Gravesend, and to expand the University Campuses at Southend and Medway

Delivery Mechanisms

To deliver all this needs a concerted approach between partners. Within Government, a Cabinet Committee, chaired by the Prime Minister, brings all the key Departments together to consider issues around growth in the south east. In the newer growth areas we have established, at the sub regional level, a new Inter-Regional Board for the Milton Keynes/South Midlands growth area which brings together regional and local partners across the three regions to focus on strategic issues and implementation. At the local delivery level we are establishing six new vehicles after consultation with local partners—local authority led vehicles at Cambridge, Ashford, Bedford and Aylesbury and subject to consultation, an Urban Development Corporations (UDCs) for West Northamptonshire and a Urban Development Area for Milton Keynes. Further discussions are under way for other growth locations.

In the Thames Gateway we are establishing a new Gateway Delivery Office to manage the Office of the Deputy Prime Minister funding programme, and local partnerships which will focus on the key development and will co-ordinate partner inputs around an agreed framework. These include two Urban Development Corporations, one already established in Thurrock, and a second (subject to Parliamentary approval) in East London, a URC in Southend and partnerships in Kent Thameside, Basildon, Medway, and Swale.

For many key locations in the growth areas, development is already under way, implementing existing plans. We want to ensure early delivery and the measures we are taking will support this as well as laying the foundations for future growth. The scale, location and timing of that future growth will be determined through the Regional Planning Guidance process, including independent testing and examination, which will begin shortly for the Milton Keynes/South Midlands growth area and the Government will revise its plans as necessary to take account of that process.

CULTURE, MEDIA AND SPORT

Supplementary Estimates

The Secretary of State for Culture, Media and Sport (Tessa Jowell): Subject to Parliamentary approval of the necessary supplementary estimate, the Department for Culture, Media and Sport DEL will be increased by £24,367,000 from £1,545,936,000 to £1,570,303,000 and the administration costs limits will be decreased by £205,000 from £47,187,000 to £46,982,000.

Within the DEL change, the impact on resources and capital is as set out in the following table:

		New DEL		
	Change	*Voted*	*Non-voted*	*Total*
Resource	3,462,000	201,906,000	1,227,195,000	1,429,101,000
Capital	20,905,000	109,856,000	118,654,000	228,510,000
Depreciation*	0	−3,555,000	−83,753,000	−87,308,000
Total	24,367,000	308,207,000	1,262,096,000	1,570,303,000

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending, and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from increased expenditure offset by increased appropriations in aid of £9,000 to Sport, £15,000 to historic buildings, monuments and sites and £30,000 to administration and research; transfers to capital DEL of £200,000 from administration and research, of £40,000

from sport and £65,000 from VisitBritain; and transfers from non-voted spending for accruing superannuation liability contributions of £2,230,000 to the British Library, £52,000 to the public lending right, £104,000 to the Football Licensing Authority and £1,327,000 to English Heritage;

The decrease in the Department's administration costs limit arises from transfers of £5,000 to increase the Royal Household's grant in aid and £200,000 to capital DEL.

The change in the capital element of the DEL arises from transfers from sport and VisitBritain's grant in aid of £40,000 and £65,000 respectively to facilitate internal delivery programmes; utilisation of £20,800,000 non-voted DEL from the unused balance of the Department for Work and Pensions' end-year flexibility entitlement under the PES pool arrangement to increase European Development Fund expenditure borne on the Office of the Deputy Prime Minister's Estimate.

Written Ministerial Statements

Tuesday 16 March 2004

NORTHERN IRELAND

Water Cannon

The Minister of State, Northern Ireland Office (Jane Kennedy): I have today placed in the Library guidance developed by the Association of Chief Police Officers on the deployment and use of water cannon, together with a medical statement on the use of water cannon by the independent medical panel. Copies of these documents have been placed in the Library of the House.

With the publication of this guidance and the final medical statement, the water cannon purchased by the Police Service of Northern Ireland can now be deployed operationally for use in appropriate circumstances.

DEPUTY PRIME MINISTER

e-Innovations Fund

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Phil Hope): The Government will be announcing the first round of successful bids for matched funding to support e-Innovation in local councils. Some 34 councils will receive matched funding of £6.2m to deliver their innovative ideas by March 2005.

These projects complement the work of individual councils, pathfinders, national projects and partnerships that are already being carried out under the programme, in particular by driving forward "cutting edge" projects, which look beyond December 2005.

This round of support for e-innovations targets the following four themes:

E-Learning

This includes the internal sharing of information and good practice, staff development and better use of e-government to assist service transformation (i.e. not mainstream education/schools).

Bridging the Digital Divide

This includes using e-government in ways that help services to reach those socially excluded and in particular addressing the concern that e-government might lead to some people being further isolated from the support and services they need.

Emergent Technology for Better Government

Innovative use of information and communications technologies (ICT) to improve services.

Local Authority E-Business

Better use of ICT to improve internal business processes in councils, including service planning and performance management.

A full list of the councils receiving funding is tabled below:

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Annual Report on Progress towards Sustainable Development

The Minister for the Environment (Mr. Elliot Morley): I am pleased to announce that the 2003 UK Government annual report on progress towards sustainable development, "*Achieving a better quality of life*" was launched today. This is the fourth and last annual report of progress against the 1999 Sustainable Development Strategy for the UK.

The report sets out the progress and key developments made towards sustainable development since the 1999 strategy, and brings together the latest data on the 15 headline indicators which comprise the 'quality of life barometer'. It also provides an overview of many of the initiatives and mechanisms that the UK Government have put in place that help contribute to 'a better quality of life for everyone'.

The headline indicators show that overall we are making progress across the three pillars of sustainable development: the economy, society and the environment. However we are doing better in some areas than others. It recognises that much more remains to be done—by Government, business and the individual—to put the UK firmly on a path towards sustainable development.

The UK Government, in partnership with the Scottish Executive, Welsh Assembly Government and the Northern Ireland Administration, will soon be consulting to develop a new strategy for the UK to provide a strong basis for renewed action to deliver sustainable development.

The report will be placed in the Libraries of both Houses, and is also available on the UK Government's sustainable development website.

CABINET OFFICE

Referendum Guidance

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): The Government have today published guidance to civil servants and NDPB Board members and staff on their role and conduct during the referendum campaigns for elected regional assemblies and the accompanying referendums on local government structures.

The Government believe that people who serve in public life as members of public bodies should not be precluded from taking part in the referendum campaigns—whether for a yes or no vote—in their capacity as private citizens. However, where they decide to participate in such activity they should do so in accordance with the requirements of this guidance.

Copies of the guidance have been placed in the Libraries of the House.

EDUCATION AND SKILLS

Degree Awarding Powers and University Title Criteria

The Minister for Lifelong Learning, Further and Higher Education (Alan Johnson): I am today publishing the results of the consultation on proposed new criteria for degree awarding powers and university title, which ended on 12 December 2003. The consultation followed a commitment in the White Paper "The Future of Higher Education" to modernise the criteria governing the granting of degree awarding powers (DAP) and to allow university title (UT) to be granted on the basis of taught DAP and student numbers.

There were mixed views on the proposal to allow teaching-focused universities, with universities generally opposed and other higher education institutions (HEIs) in support. Most respondents felt the proposed criteria for taught DAP were both clearer than the current criteria and strengthen the requirements staff have to meet. Most universities supported retaining the current student number criterion for UT with other HEIs divided on whether the level should be maintained or lowered. More respondents than not were in favour of allowing specialist institutions to be eligible for UT.

The proposal for DAP in future to be granted for six year terms, renewable subject to a satisfactory audit was opposed by most respondents. Two-thirds of universities and virtually all other HEIs expressing an opinion were against the proposal. The Standing Committee of Principals cited legal difficulties with the proposed changes. In light of these concerns, we will issue a discussion paper on renewable DAP shortly. We want to balance the concerns expressed with the Government's desire to ensure that the quality and reputation of higher education in England and Wales is maintained. The moratorium on new applications for degree awarding powers will remain in place whilst this matter is discussed further with the higher education sector and others. In the meantime, the moratorium on new applications for university title under the current criteria is lifted.

The consultation report has been placed in the Libraries of both Houses and is available on the Department for Education and Skills website at: www.dfes.gov.uk/consultations/conResults.cfm?consultationId=1226.

School Teachers Review Body Recommendations

The Secretary of State for Education and Skills (Mr. Charles Clarke): The second part of the thirteenth report of the School Teachers' Review Body is being published today. It covers all matters related to the Rewards and Incentives Agreement and a range of residual matters not covered in the first part published in November 2003. Copies are available in the Vote Office and the Library of the House of Lords and at http://www.teachernet.gov.uk/management/payandperformance/pay/2004/STRBreportMarch2004.

In making their recommendations, the Review Body were required to have regard to the matters set out in the remit letters of 1 August 2002, 11 July 2003 and 9 January 2004. The STRB report deals with a wide range of weighty and complex issues and I particularly want to thank them for the exemplary way they have responded to the additional remit on issues related to the

upper pay scale. I remain indebted to both the Review Body and the other partners for the continued dedication and professionalism that they bring to this process. The STRB recommendations are set out below followed in each case by my response.

I am seeking consultation comments on the report and my response by 16 April 2004.

Upper Pay Scale

The STRB have recommended the following:

The content of Annexes A and B need to be reflected in pay legislation;

Annexes A and B are further clarified, strengthened and communicated in the way set out above;

The upper pay scale should now cease at UPS3;

(a) that a new excellent teacher scheme is established;

(b) that the scheme should be open only to classroom teachers who have reached UPS3 and who demonstrate that they have distinguished themselves at that level;

(c) that the period before a UPS3 teacher become eligible to attain the status of an excellent teacher should normally be three years and that the first awards under the scheme should be made in September 2007;

(d) that the scheme as developed should take into account the following considerations:

it should include a process for application and assessment as rigorous as the AST process, using the same concepts of national criteria and a national assessment model;

it should include an element of external assessment;

the criteria should ensure that only the very best teachers can achieve the new status provided by the scheme and should include a programme of study leading to an appropriate qualification;

the salary should reflect the quality of improvement in teaching and learning intended to result from the scheme.

I welcome the positive and helpful way the STRB have responded to the issues around the upper pay scale. The depth of their response indicates the seriousness with which they undertook this additional remit and I am grateful for this thoroughness.

The Rewards and Incentives Agreement I signed with our pay partners on 9 January affirmed two important principles. The first was that good classroom teachers should be able to aspire to a salary which reflects their important achievements in raising standards. The second was that the highest rewards for classroom teachers should be awarded for excellence.

I am particularly pleased that, through their recommendations that the upper pay scale should cease at UPS3 and that a new excellent teacher scheme be established, the STRB too recognise the importance of these principles, I therefore endorse these two proposals.

The STRB has made further recommendations concerning amplifying and clarifying the criteria for progression on the upper pay scale and putting them in the Pay Document; and further defining the detail of an excellent teacher scheme. I would welcome comments from all statutory consultees on these additional proposals.

Main Pay Scale and Threshold Assessment

The STRB recommend the following :

(a) on the basis of a teacher's performance and professional development over the past year the head teacher should decide and record in writing whether or not he or she has achieved at least the standard required to merit an increment on the main scale;

(b) where performance is judged to be outstanding and continues at that level for two years it should merit a double increment;

(c) where performance falls below the standard required, the increment should be deferred and an improvement plan should be put in place, with the appropriate support. The decision to defer should be reviewed in mid-year after which the increment would be backdated to the previous September, provided that the necessary progress had been made. A continuing unsatisfactory performance would result in the withholding of the increment.

During discussions on ways of ensuring appropriate rigour in performance management and related pay decisions, the parties give careful consideration to the development of a common system, building on the practices which already exist and taking into account the model employed in certain schools.

I am pleased that the STRB share my strong belief that,

a rigorous performance management system, robustly applied by school leaders should be the hub of all progression.

I further share their concerns that heads have difficulty distinguishing between the performance of individual teachers and agree that a more explicit linkage between performance, professional development and progression might go some way to address this issue. These STRB recommendations are a helpful step forward and I propose to press ahead with proposals to ensure that progression on the main pay scale is treated in this way from September 2005.

I too believe that these decisions about pay progression can best be made within a consistent framework for performance management in schools. Part of the rationale for my proposal, put forward jointly with the co-signatories to the Rewards and Incentives Agreement was the need to encourage fair and objective decisions on pay progression. I therefore also endorse the STRB's recommendation to consider carefully with parties the need to develop a common system.

Threshold Assessment

The STRB recommend the following: that, over the next 18 months:

(a) the Department and, where appropriate, the Welsh Assembly Government, take action to ensure that:

a. all heads have received appropriate training on linking pay and performance; and

b. a satisfactory appeal route for disputes over pay decisions, which includes an independent element,

(b) the Department and, where appropriate, the Welsh Assembly Government, work with the statutory consultees:

a. to maintain existing standards of decision-making on threshold applications; and

b. to establish a quality assurance system as envisaged in paragraph 12 of the joint proposal.

from September 2005, threshold assessments are made at school level in the context of the school's developed performance management system; and external validation of the threshold assessment decisions of the teacher is discontinued.

The STRB have made a number of strong recommendations about the future of threshold assessment arrangements, which I accept in principle. I note the STRB cites evidence from the PwC study, which shows that threshold assessment has largely bedded in and the important role external assessment is likely to have played in that process. I welcome their statement that subject to improvements to the performance management system and the maintenance of threshold standards, they,

"see no absolute need to retain the external assessment system."

I too am keen to ensure that we continue to maintain appropriate mechanisms for ensuring continued fairness and equity in threshold decisions and I am grateful for the Review Body's suggestions for securing that this is the case. As recommended by the STRB I propose to consult on the arrangements for the light touch validation of performance management systems and the best way to maintain threshold standards. As teacher appraisal is devolved, proposals regarding performance management systems in Wales are a matter for the Welsh Assembly Government. On the narrow issue of the timing of the ending of the current threshold assessment scheme, I can see considerable gains—including significant financial savings—from maintaining the end date of August 2004, but would welcome views from all statutory consultees.

I am pleased to endorse the STRB recommendation that heads should be trained on linking pay to performance. Work is already in hand to expand the existing range of flexible training materials for head teachers and governors to include a further element focusing on the links between performance and pay decisions. The recommendations of the Review Body are helpful to the development of this package which we hope to progress with the help of the other pay partners.

Local Approaches to Pay

The STRB have recommended the following (in bold):

The parties consider the proposal we have described and present us with their evidence and views by September 2004.

I welcome the rigorous and methodical way the STRB have approached the issues around local and regional pay. They have clearly set out a range of difficult issues which need to be looked at when considering how best one should tackle any residual barriers to recruitment and retention that may still exist within our current pay system of geographical banding. Whilst noting the importance of each school tackling any other barriers to their success—including clear leadership and management structures, appropriate and available CPD and other measures designed to promote a positive environment for staff—they have offered interesting proposals for resolving many of those hard core recruitment and retention issues which might remain.

I welcome the STRB's recommendation to consult with other parties on this proposal and provide evidence from the Department by September.

Additionally, I am clear that the implications of this proposal will need to be considered alongside recommendations forthcoming from the Adrian Smith review on mathematics post 14 where, here too, there were interesting proposals about how to tackle subject recruitment difficulties in specific schools and areas.

Teachers' Pay System and Career Structure

The STRB have recommended the following:

the AST spine is reduced to 18 points with values parallel to points 1 to 18 of the leadership group spine not later than September 2006;

clear record is made of their annual review and subsequent decision on salary progression.

I welcome the STRB's recognition of the importance and distinctiveness of the AST role. L

Leading excellent curriculum and teaching practice in schools and institutions beyond their own school . . . '

I agree that we must ensure that they are afforded the necessary status within the school structure as befits the very important role they play in so many schools. Therefore, I endorse their recommendation to reduce the AST spine to 18 points with values equivalent to the first 18 points of the leadership group spine.

Furthermore I believe, all teachers, irrespective of their role, should expect to have clear records from their annual review which would set out amongst other important issues such as objectives and professional development needs, any decisions made about salary progression. I therefore also endorse the STRB's proposals that ASTs be entitled to a clear record of their annual review and any subsequent pay decision.

I am grateful to the STRB for their consideration of the issues regarding Chartered London Teacher Status and I propose that an appropriate amendment is made to the STPCD in September 2004 to cover this.

Special Pay Arrangements

The STRB have recommended the following:

LEAs review their procedures during 2004 to ensure that unattached teachers are not at a disadvantage compared to attached teachers, and the National Employers' Organisation oversees the review and published the results so that they are available to the other parties.

the Department sets up a comprehensive database on unattached teachers, covering numbers, location and roles.

the Department draws up guidance, in consultation with the interested parties, including BATOD, on how the payment of SEN allowance 2 might take account of the enhancement of the teaching of SEN children brought about by such specialist qualifications.

the safeguarding of the social priority allowance and the inner London area supplement is removed with effect from 1 September 2004.

the Department considers the following navigation aids when revising the Document:

Adding a comprehensive index, with cross-references to other useful linked documents such as explanatory notes for heads, governors and LEAs and model school teachers pay policy;

Including a 3–4 summary at the beginning describing the teachers' career options and pay system using diagrams or; and

Consulting on areas for pay simplification, including the balance between guidance and formal provisions.

We also recommend the provision of more training for governors in the understanding of the teachers' pay system, the navigation around the document and its use in considering the school pay policy.

I am grateful to the STRB for their consideration of a range of further issues around the smooth and appropriate operation of the structures of the teacher's pay system.

The STRB is right to draw our attention to concerns about the position of unattached teachers. I too think it is important for all teachers, whether they are attached to a school or not, to be treated fairly and equitably and I welcome their recommendations.

I support the idea of a review of LEA procedures related to unattached teachers and I look to NEOST to take this forward as they see fit. On the further recommendation about the establishment of a comprehensive database on unattached teachers, it would not be practicable, for a number of reasons, to seek to develop a new database at this point. The best mechanism for delivering this will be through the adult common basic data set, which, from 2006, I anticipate being the key and most comprehensive source for information about the school workforce, including unattached teachers. I therefore accept this recommendation in the context of the developments on the adult common basic data set.

I am content to discuss with relevant parties how the payment of SEN allowance 2 might take into account of the enhancement of the teaching of SEN children brought about by specialist qualifications. The outcome of this exercise should be without prejudice to consideration of the wider allowance framework.

I appreciate the attention given by the STRB to the matter of safeguarding, particularly their exposition of the balance needed between the need to protect teachers salary and the potentially inhibitory effect safeguarding can have on necessary and desirable changes in school organisation. They remind us that their thinking on both management allowances and recruitment and retention allowances in part one to this report took into account their desire to avoid long term payments of increasing value for purposes which might no longer apply. I welcome their recognition that paragraph 48 to the STPCD contains sufficient flexibility to render the need to offer separate specific payments for both social priority allowance and the Inner London area supplement unnecessary. I hope this will be a welcome flexibility and simplification for schools. I am also grateful for their steer on the issues they believe should be discussed in our conversations with key parties on the issue of safeguarding. I am minded therefore to press ahead with the abolition of safeguarding for both the social priority allowance and the inner London area supplement from September 2004.

I also welcome the STRB's further comments on simplification of the existing pay system through looking at how we might better position the content of the document to make it accessible to the range of audiences that are required to use it. This is something of an iterative process for us but one which it is important that we press on with, a key part of which is making the pay system itself more streamlined. I therefore accept the STRB's recommendations around simplifying the document including the further need to consult on more substantive simplification of the pay systems. I wholeheartedly endorse the need to ensure governors are clear on the operation of the pay system and the flexibilities within it. As I have already mentioned, work has already begun on devising a toolkit for trainers on teachers' pay and pay policies, I propose that this training be disseminated to governors and head teachers together.

Written Ministerial Statements

Wednesday 17 March 2004

TREASURY

Debt and Reserves Management Report 2004–05

The Financial Secretary to the Treasury (Ruth Kelly): I am pleased to announce to the House that the *Debt and Reserves Management Report 2004–05* is being published today. Copies will be available in the House Library at the conclusion of the Chancellor of the Exchequer's Budget Statement.

Housing

The Chancellor of the Exchequer (Mr. Gordon Brown): Kate Barker's report *Review of Housing Supply, Final Report and Recommendations*, is published today. Copies are available in the Vote Office.

DEFENCE

Service Personnel Process Review

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): With effect from 1 April 2004 the three single service personnel agencies will cease to have agency status. This decision resulted from the service personnel process review that was conducted last year and referred to by my right hon. Friend the Member for East Kilbride (Mr. Ingram) on 17 July 2002, *Official Report*, column 277–78W.

The review also identified the fact that the career management and manpower planning work of the three service manning agencies did not wholly suit agency status, because they performed primarily support and enabling functions rather than being concerned with the provision of a clear and discrete deliverable service. I therefore concluded that agency status for the agencies (Naval Manning, Army Personnel and RAF Personnel Management Agency) should cease.

I am pleased to tell the House that a considerable amount of work continues in many other areas. It includes further reviews of tri-service recruiting and welfare and many of the review recommendations have been swept into a service personnel plan, parallel with and linked to the equipment programme and within the framework of the defence White Paper published last December.

I intend to report on further progress to the House later in the year.

Written Ministerial Statements

Thursday 18 March 2004

TRANSPORT

Road Haulage Modernisation Fund

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): On Wednesday 17 March my right hon. Friend the Chancellor of the Exchequer announced that the Department for Transport would be allocating resources to allow the more worthwhile road haulage modernisation fund (RHMF) projects to continue.

I am pleased to announce today that the Department will be allocating a budget of £3 million in 2004–05 so that more of the haulage industry can benefit from projects to help them apply the most up to date and efficient practices. The budget will also allow the completion of some projects started during the current financial year.

The list of projects includes:

(a) A further phase of the Driver Training programme to promote Safe and Fuel Efficient Driving (SAFED).

(b) A further phase of the Fuel Economy Advisor programme to encourage more fuel efficient operations, using regional seminars and site specific advice.

(c) A further phase of training using the truck driver simulator—more drivers will benefit from simulator training followed by a study to understand better the medium term benefits of simulator training.

(d) A further phase of the Respect for People project—to consolidate industry take-up of this project, which spreads best employment practice by encouraging the use of key performance indicators so that operators can benchmark their performance against the best companies.

(e) The development of a careers website—to raise the industry's profile and draw attention to its opportunities.

In addition, the Department will provide funding to complete the training of 1,200 existing candidates for licence acquisition, with over half of these being funded through to achievement of their Logistics Skills Award. We are also considering proposals made through the Road Haulage Forum to fund some research projects to help understand recruitment and training needs and how they can be met.

This programme reflects the Government's commitment to help the industry to help itself. I look forward to discussing this programme with industry stakeholders at the next meeting of the Road Haulage Forum.

NORTHERN IRELAND

Northern Ireland Housing Executive

The Minister of State, Northern Ireland Office (Mr. John Spellar): The accounts of the Northern Ireland Housing Executive (NIA 8/03) for the year ended 31 March 2003 incorporating the Reports of the Local Government Auditor and the Comptroller and Auditor General thereon will be laid before the NI Assembly on Thursday 18 March 2004.

Copies of the Northern Ireland Assembly Paper have been placed in the House of Commons Library at Westminster and in the NI Assembly Library at Stormont.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Fisheries

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): From 1 January 1999 all British registered fishing vessels over 10m in length and catching more than 2 tonnes of quota stocks have had to demonstrate an economic link with fisheries dependent communities in the United Kingdom. This link can be demonstrated in a number of ways—for example, by vessels landing at least 50 per cent. by weight of their quota catch into the UK or by employing a crew of whom at least 50 per cent. are normally resident in a UK coastal area.

In 2002, 1,362 vessels caught more than 2 tonnes of quota stocks and in each case achieved a satisfactory economic link, primarily through landings into the UK.

The arrangements have also resulted in UK registered but foreign-owned vessels continuing to land and incur expenditure at UK ports or making quota available for re-distribution to the inshore fleet. Compared with 1998, benefits have included:

a 40 per cent. increase in the volume of quota stocks landed into the UK by foreign owned UK registered vessels. This figure is proportionally higher when viewed against cuts in TACs since 1998;

a significant increase in the number of landings into the UK by Anglo-Spanish vessels, resulting in additional expenditure at our ports of some £3 million; and

the provision of almost 500 tonnes of quota for redistribution to our inshore fleet, notably nephrops, North Sea sole and North Sea cod.

A full report by the fisheries departments in the United Kingdom on the operation of the economic link measures in 2002 and their impact has been placed in the Library of the House.

WORK AND PENSIONS

Pension Protection Fund

The Minister for Pensions (Malcolm Wicks): Improving member protection is a Government priority. As outlined in the Pensions Bill, we intend to introduce the new pension protection fund, which will enhance protection for pension scheme members and improve confidence in pension provision.

It will protect members of defined benefit and hybrid schemes by paying compensation should their employer become unable to meet their pension obligations following insolvency.

Our intention, subject to parliamentary approval, is that we protect as many individuals as we can, from as early a date as possible. Therefore, although we have a

challenging timetable, our plans are to have the organisation up and running in April 2005. In order to do this we need to carry out essential activities, which will require some expenditure in advance of the legislation achieving Royal Assent.

Parliamentary approval for additional resources of £450,000 for this new service will be sought in a supplementary estimate for the Department for Work and Pensions. Pending that approval, this urgent expenditure will be met by a repayable cash advance from the contingencies fund.

Housing Benefit

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, I am announcing the publication of performance statistics for local authority administration of housing benefit and council tax benefit (HB and CTB) for the third quarter of 2003–04. A copy of the quarterly statistics for all local authorities in Great Britain has been placed in the Library and has been published on the Department for Work and Pensions website at http://www.dwp.gov.uk/asd/asd1/hb_ctb/performance.asp

Publishing these statistics is part of our strategy for reforming housing benefit and for ensuring that local authorities are accountable for their performance in administration of housing benefit and council tax benefit.

Housing benefit and council tax benefit performance statistics show that in the third quarter of 2003–04 for those authorities that submitted data:

155 authorities reported meeting the 36-day standard of processing new claims, compared with 134 authorities in the third quarter of 2002–03;

the average reported number of days to process new claims reduced from 53 days in the third quarter of 2002–03 to 47 days in the third quarter of 2003–04;

175 authorities reported the standard of processing changes in circumstances, on average within nine days, compared to 166 in the third quarter of 2002–03.

The statistics are un-audited and are provided quarterly by local authorities to my Department.

The audited Best Value performance information for English local authorities for 2002–03 was published by my right hon. Friend the Deputy Prime Minister on 18 December 2003 on the best value performance indicators website at: http://www.bvpi.gov.uk/home.asp.

A copy is available in the Library.

The most recent corresponding data for local authorities in Wales are also for 2002–03. These are published on the Audit Commission website at: http://www.lgdu-wales.gov.uk/eng/Project.asp?id=SX99A1-A77F4BA8

A paper copy of the relevant extract from this site is available in the Library.

The most recent corresponding data for local authorities in Scotland are also for 2002–03 and are in the Accounts Commission publication *"Performance Indicators 2002/2003: Benefits, Finance and Corporate Issues"* a copy of which is available in the Library.

DEFENCE

Armed Forces Personnel Administration Agency

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The key targets have been set for the chief executive of the Armed Forces Personnel Administration Agency (AFPAA) for the financial year 2004–05. The targets build upon progress made by the agency since it formed on 1 April 1997 and reflect the high level of service delivery required for pay, pensions and allowances, and a change programme to deliver new harmonised joint personnel administration for the Armed Forces.

To Deliver Pay

To make 99.9 per cent. of all pay payments by the due date (excluding late payments caused by events determined to be outside the control of the Agency).

To keep the monthly error rate of accuracy for the volume of payments within 0.1 per cent.

To Deliver Pension Services

To make 99 per cent. of all pension payments (including new awards) by the due date (excluding late payments caused by events determined to be outside the control of the Agency).

To keep the monthly error rate of accuracy for the volume of payments within 0.1 per cent.

To Support the Delivery of Joint Personnel Administration Programme

Subject to Main Gate approval, Joint Personnel Administration Partnering Agreement to be signed, by 30 September 2004 for the Manufacture, Roll Out and Delivery.

To commence the Roll Out of Joint Personnel Administration Core System for the Royal Air Force, Royal Navy and Army by October 2005, May 2006 and October 2006 respectively.

To transform the Agency to Deliver the full Potential of the Joint Personnel Administration Environment

To deliver Joint Personnel Administration Centre capability through six stages, commencing, June 2004 Stage 1 and March 2005 Stage 2.

To deliver 100 per cent. of Key critical path milestones in Agency Transition Plan.

To deliver a cost effective change programme in accordance with departmental priorities

To deliver 96 per cent. of major change to ensure individual development Projects are delivered to specification and schedule.

To deliver 96 per cent. of all minor change in accordance with Joint Change Management Team plans agreed by partner and customer.

To Develop targets for implementation in 2005–06 that will measure the delivery of Pay. Pensions and Personnel Services against Service Level Agreements

To achieve the agreed service levels of all Performance Assessment Indicators (levels 4 and 5 of current contract Schedule 2) not already included in Key Targets 1 and 2.

To meet approved efficiency targets for the delivery of core services

To reduce the unit cost by 6 per cent. in 2004–05 which will contribute to a 12 per cent. reduction over a 4-year period from 2002–03 for the delivery of core pay and personnel administration.

SOLICITOR-GENERAL

Crown Prosecutors

The Solicitor-General (Ms Harriet Harman): My right hon. Friend the Attorney-General has made the following ministerial statement.

"I wish to announce the start of a review of the Code for Crown Prosecutors following the recent developments in prosecutors' powers. Section 10 of the Prosecution of Offences Act 1985 requires the Director of Public Prosecutions to issue a Code for Crown Prosecutors in order to give guidance on the general principles to be applied in prosecutorial decision making. It enables casework decisions to be made fairly, consistently and independently.

The Code is an important public document, which allows everyone to see and understand the basis upon which prosecution decisions are made. The Code is kept under continual review to ensure that its principles remain appropriate. The current edition of the Code was published in October 2000, which involved an extensive internal, external and public consultation exercise.

Following the public consultation process last time, every aspect of the Code was reconsidered and the basic principles were acknowledged as being sound. Accordingly, this review will not extend to any reconsideration of the basic two-test principle of prosecuting on the basis of ensuring that the evidence provides a realistic prospect of conviction and that it is in the public interest to prosecute the case.

This review will therefore be limited in scope to the implications of a number of key recent developments, which have the potential to impact on decisions made within the framework of the Code. The most significant of these is the charging initiative under which prosecutors will assume responsibility from the police for determining appropriate charges to bring against alleged offenders, introduced by the Criminal Justice Act 2003. There are also other significant changes to be considered, such as conditional cautioning.

The Crown Prosecution Service, with appropriate consultation, is therefore to review the Code for Crown Prosecutors to take account of these recent developments. The review team has now been established and will be writing to organisations and individuals with an interest in the Code, asking for comments on the particular areas under consideration."

I welcome this review and will be taking a close interest in its progress.

HOME DEPARTMENT

Comprehensive Review of Parole and Lifer Processes

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): The right hon. Member for Brent, South, (Mr. Boateng), when Prisons Minister, announced the Comprehensive Review of Parole and Lifer Processes on 11 February 2000. Its remit was to examine the parole and lifer systems, identify the key issues to be faced over the next five years and recommend appropriate changes to improve the efficiency and effectiveness of the relevant procedures. The review also included a "Better Quality Services" review and the first quinquennial review of the Parole Board since it became an Executive Non-Departmental Public Body in 1996.

The review made 118 recommendations relating to a range of process and organisational improvements, which included: reducing the Discretionary Conditional Release (Parole) review timetable; Improving the efficiency of the mandatory lifer review process; Changing lifer oral hearing procedures to improve efficiency and quality of decision-making; Improving dossier content quality and reducing duplication and waste; Clarification of roles and possible efficiencies in decision making; Organisation of the Parole Board; some cross-cutting issues, including information for victims; Improving Secretary of State Directions for the release of determinate sentence prisoners.

Significant achievements have been made on a number of review recommendations. For example:

Lifer cases and oral hearings

A new scheme for the preparation and submission of mandatory lifer dossiers has considerably speeded up the review process. A new key performance target for lifer dossier production, requiring 80 per cent. of dossiers to be sent to the Parole Board on target, is now being achieved. Oral hearings to review the recall of extended sentence prisoners have been successfully introduced.

The Parole Board has developed a system for appraising judicial members of the Board, who currently chair most of the Board's oral hearings.

Recalls

New procedures to ensure timely processing of recall requests made by the Probation Service have been successfully introduced. New arrangements for handling representations against recall have been implemented and which provide for a greater input from the probation service. Furthermore, the Secretary of State has issued new Directions to the Board on considering of recalls and their representations against recall, which has clarified the Board's role and the basis on which it is asked to take decisions and make recommendations. The Directions are also now more in line with the Probation Service National Standards on licence enforcement and reflect that the aim of licence enforcement should be not only to reduce the risk of further offending, but also to make clear that the licence period is an integral part of the sentence and compliance with licence conditions is an important part of licence supervision.

Deportees

Improving the operational and working practices between the Prison Service and IND, which has resulted in a sharp increase in the number of parole notifications issued on target.

Parole Board Organisation

A Review of corporate governance, resulting in tighter terms of reference for management committees. The Board also achieved IiP status and has recently achieved re-accreditation. Members and staff development has become a greater priority for the Board, with systematic training needs analysis and evaluation mechanisms adopted. The Board is also in the process of developing a whole system approach with the Prison Service to implement change and has improved its focus upon communication, both internal and external.

The Parole Process

The Review provided an opportunity to raise the profile of the parole process which was achieved via the 42 area committees of the Criminal Justice Strategy Committees and the National Criminal Justice Consultative Council. A series of Parole Clerk Fora have been introduced to provide for training and topical issues to be discussed. This has given

parole clerks a much-needed voice to highlight areas of "best practice" and these suggestions are being taken forward in order to further improve parole performance. The Review has also led to Victim Personal Statements taken by the police at the time of the offence being included, where available, in parole dossiers. Victims are also generally more informed about the parole process.

Of the 118 recommendations, only 18 remain to be completed. The Review is being project managed by the Early Release and Recall Section of the Sentencing Policy and Penalties Unit of the Home Office, working in conjunction with the Probation Service, Prison Service, Immigration and Nationality Directorate and the Parole Board. Their progress is being monitored by a Programme Board (which is chaired by the Head of the Sentencing Policy and Penalties Unit), in which all the relevant criminal justice agencies are represented. I have decided that the time is right formally to draw the review to a close, although the work on the outstanding recommendations will continue and I will receive regular reports on its progress.

As a part of the Review, the Secretary of State's Directions to the Parole Board concerning the release of determinate sentence prisoners have been reviewed and a revised copy of these Directions has been served upon the Parole Board today. The purpose of the Directions is to structure the Board's discretion and require it to have regard to risk. The balance of the Directions is between public protection and the rehabilitative benefits of early release.

In reviewing the existing Directions, a number of considerations were taken into account.

We were concerned that the voice of the victim, when considering whether or not a determinate sentence prisoner is suitable for early release on parole, needed to be heard. The Victim's Charter and Victim Personal Statements have been in use for some time now, with the latter being a useful vehicle for victims to state how they have been affected by the offence. We were keen to build on this by requiring the Board to consider the impact of the offence upon the victim or the victim's family when assessing suitability for early release on parole.

The existing Directions make no reference to previous record (save in the case of violent and sexual offenders and then only to previous offences of three similar nature). Previous offending (and previous custodial penalties) is the most reliable predictor of future offending, and we were concerned that the new Directions should recognise this.

The existing Directions rightly draw attention to the relevance of previous breaches of trust. However, they fail to include the prisoner's likely compliance with the conditions of his licence, taking into account where there have been breaches of trust in the past and during the course of his present sentence. This omission has been rectified.

The new Directions require the Parole Board to take account of an actuarial risk predictor tool, where such a tool is available.

In conclusion, the new Directions provide a sharper focus on risk assessment and, for the first time, formally recognises the role of victims in the parole process. They will come into force on 1 May 2004.

Copies of the Directions are available in the House Library.

TRADE AND INDUSTRY

Equal Pay

The Minister for Industry and the Regions (Jacqui Smith): I have today published a consultation document on proposals to streamline equal value tribunal cases. Equal pay cases can be notoriously slow and complex, particularly the large-scale cases concerning questions of whether jobs are of equal value. Our proposals to speed up and simplify these cases form part of a package of measures to improve the way in which the Equal Pay Act 1970 works in practice. For example, last year we introduced the Equal Pay Questionnaire and lengthened the time limits for bringing cases and for making arrears payments.

The overall aim of our new proposals is to make the tribunal process work as effectively as possible and to tackle the lengthy delays that can occur in the more complex cases. Key features include: providing the Employment Tribunal Presidents of England and Wales, and of Scotland with the power to appoint tribunals with a specialist knowledge of equal value cases; promoting firmer case management, for example, through providing standard directions to ensure early exchange of information; streamlining complex rules of procedure; and ensuring more effective use of independent experts. The new provisions dovetail with the proposed new Employment Tribunal Regulations and Rules of Procedure. The intention is that, subject to Parliamentary approval, these measures should come into effect on 1 October 2004.

The consultation document will be placed on the DTI and Women and Equality Unit websites so that it is available to the wider public. The consultation period will run for 12 weeks, with a closing date for comments of 10 June 2004. Copies of the consultation document have been placed in the Libraries of both Houses.

Taxis/Private Hire Vehicles

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): We welcomed the Office of Fair Trading (OFT) report that was published on 11 November. It provides a useful analysis of the market impact of taxi regulations. The OFT made a number of recommendations to Government, aimed at improving services for consumers. The Government is committed to delivering better transport services and has carefully considered OFT's contribution to the debate. Taxis and private hire vehicles (PHVs) have an important role to play in the provision of public transport, especially when buses or trains are not available. As well as providing the connecting first or last trips of a journey, making it easier to use public transport, they can provide people in the lowest income groups with access to vital services and enhanced quality of life.

We strongly support the OFT's role in conducting analyses of this kind. They are useful in considering the economic effects of Government regulations.

That is why we have empowered the OFT and other economic regulators under the Enterprise Act 2002 to advise where laws and regulations may create barriers to entry and competition or channel markets in a particular direction, thereby holding back innovation and progress. The Government broadly accepted the conclusions of similar OFT and Competition

Commission investigations into the markets for pharmacies, private dentistry and prescription-only veterinary medicines.

In considering OFT's recommendations on taxis, the Government have consulted stakeholders and taken into account the many representations received. The Government has also taken into account the reports of the Transport Select Committee.

I attach below the Government's action plan responding to OFT's recommendations. This action plan relates to England and Wales. Legislation regarding the taxi market is devolved in Scotland and Northern Ireland and they have responded separately.

Restrictions on the numbers of taxis

In England and Wales outside London, local authorities (district/borough councils or unitary authorities) have been able to restrict the number of taxi licences that they issue since at least 1847. In practice, some 45 per cent. of authorities do so at present, but the legislation allows them to control numbers only if they are satisfied that there is no significant unmet demand.

Local authorities with quantity restrictions must be able to justify their policy in the event of an appeal by a taxi licence applicant who has had his application refused on the grounds of quantity controls. The usual method of ascertaining the level of demand is by means of a survey. The legislation does not stipulate any specific frequency for the surveys, but any licensing authority that controlled taxi numbers would want to ensure that its policy was based on up-to-date and sound information.

The OFT recommended that local authorities should not retain this power because they considered that such restrictions can:

reduce the availability of taxis

increase waiting times for consumers

reduce choice and safety for consumers

restrict those wanting to set up a taxi business.

The Government agree that consumers should enjoy the benefits of competition in the taxi market and considers that it is detrimental to those seeking entry to a market if it is restricted. The Government are therefore strongly encouraging all those local authorities who still maintain quantity restrictions to remove restrictions as soon as possible. Restrictions should be retained only if there is a strong justification that removal of the restrictions would lead to significant consumer detriment as a result of local conditions.

However, the Government received a significant number of representations expressing the view that ultimately local authorities remain best placed to determine local transport needs and to make the decisions about them in the light of local circumstances. The Government believe that local authorities should be given the opportunity to assess their own needs, in the light of the OFT findings, rather than moving to a legislative solution.

Nevertheless the Government believe that local authorities should publish and justify their reasons for restricting the number of taxi licences issued. The Government will therefore write shortly to each district/borough council or unitary authority maintaining quantity restrictions and ask them to review by 31 March 2005 the local case for such restrictions, and at least every three years thereafter, and make their conclusions available to the public.

The Government intend that the letter will include guidelines on quantity restrictions, including a review of the level of service available to consumers and consumer choice. The guidelines will cover:

effective surveys to measure demand, including latent demand, for taxi services;

consultation with:

all those working in the market;

consumer and passenger (including disabled) groups;

groups which represent those passengers with special needs;

the police;

a wide range of transport stakeholders e.g. rail/bus/coach providers and traffic managers.

publication of conclusions. This will include an explanation of the particular local circumstances that justify restrictions, what benefits they deliver to consumers and how decisions on numbers have been reached. Authorities will be encouraged to make all the evidence gathered to support the decision-making process available for public scrutiny.

This is to ensure that decisions to impose restrictions are based upon strong up-to-date evidence of benefits to consumers locally for their retention, and that the decision-making process is transparent and consultative. The Government consider that this would help local authorities with quantity restrictions to justify their policy if they were challenged about refusing to issue a taxi licence in the courts. If restrictions are not shown to be delivering clear benefits to consumers, it is the view of Government that local authorities should remove them.

The Government will review in association with the OFT the extent of quantity controls in three years' time to monitor progress towards the lifting of controls. If necessary, the Government will then explore further options through the RRO or legislative process if insufficient progress has been made.

The Local Transport Plan process requires local transport authorities to look holistically at how the transport provision for their area contributes to wider objectives such as economic growth, accessibility and the environment. Taxis and private hire vehicles are an integral part of local transport provision and should be properly taken into account in this process. The Government intends that the next five-year Local Transport Plans, due to be submitted by authorities in 2005, will include justification of any quantity restrictions in the wider local transport context[1].

[1] Those few authorities that will not be required to produce a Local Transport Plan will still be expected to justify their quantity restriction policy if any of the districts in their area have such restrictions.

The Government will also include guidelines on quantity restrictions in its best practice guidance on taxi licensing.

Maintaining quality in service provision

The OFT states that there is a strong case for regulating quality and safety both for taxis and PHVs as:

consumers cannot judge certain standards when getting into a taxi or PHV; and

taxi services can have a role to play in broader social welfare policy.

The OFT concludes that quality and safety standards should be maintained and supported by effective enforcement. The Government agree.

The OFT recognises that local authorities should be able to apply quality and safety regulations to suit their needs. In doing this, local authorities should ensure that any quality and safety specifications set do not go beyond what is required to achieve their policy aim. To help them, OFT recommended that the Department for Transport promote and disseminate local best practice in applying quality and safety regulations.

The Government agree with OFT that quality standards have an important role to play in securing the safety of the travelling public and ensuring that they are provided with a high level of service. The Government also agree that these decisions should continue to be made by local authorities, but considers that there is scope for more sharing of best practice, particularly in ensuring proportionality.

The Government will therefore consult local authorities and other stakeholders in order to develop and publish best practice guidance as OFT recommend. The Government intend that this will comprehensively cover licensing issues, including suitable criteria for licensed vehicles, drivers and PHV operators; driver training; safety; security and other topical issues. The draft guidance will also include sections on quantity controls; fares (see below); enforcement; taxi zones; flexible transport services; and a model taxi/PHV policy for the Local Transport Plan process.

The aim would be to consult on draft guidance later this year, with a view to publication by the end of the year.

Fares

The OFT recommends that local authorities should not set fixed or minimum fares. They should only set taxi fare tariffs which represent the maximum that can be charged:

to protect vulnerable consumers;

to address a lack of price competition; and

to allow consumers to negotiate lower fares in certain situations.

The Government agree that where taxi fares are set by local authorities they should be a maximum. As the OFT notes, this is already the case in England and Wales outside London. The Government agree that the situation in London should be clarified and is therefore grateful that the licensing authority for London has agreed to make clear through secondary measures that fares set in London are a maximum rather than mandatory as soon as it is feasible to do so.

The Government also note OFT's advice that consumers should be encouraged to negotiate for lower fares, particularly when booking taxi services over the telephone. In promoting more competition in the market, the Government will ask the OFT to advise on guidance as part of the Government's best practice guidance for local authorities (which will also encompass best practice on quality and quantity controls including unmet demand surveys as outlined above). The guidance will make clear that initiatives to promote greater competition should not jeopardise the safety of consumers or drivers, or create enforcement issues. There is scope to encourage some firms to differentiate their services thereby providing a greater range of choice for consumers (for example by providing a "happy hour" of lower cost journeys for, say, pensioners).

Further issues

The OFT also commented on several further issues that concern taxi and PHV licensing but which are outside the remit of the report:

Regulatory Reform Action Plan

The Government's Regulatory Reform Action Plan published in 2002 contained a number of proposals to use the streamlined order-making procedure in the Regulatory Reform Act 2001 to amend burdensome primary legislation. The plan included four proposals for taxi and PHV legislation in England and Wales outside London, which were subject to Ministerial decision. These were:

removing the requirement for Secretary of State approval of local authority resolutions to amalgamate taxi zones;

standardising driver and operator licence duration;

removing local authority powers to restrict taxi licence numbers in their area; and

clarifying/simplifying the position on PHV cross border hirings across the borders of different licensing authorities.

The OFT considered that these proposals represented areas of concern and recommended that they should be addressed. The issue of restrictions of taxi licences is covered earlier in this action plan. The Government are taking forward the repeal of the need for the Secretary of State to approve taxi zone amalgamation resolutions in the regulatory reform order that will repeal various local authority consent regimes. The Government will include the issues of driver and operator licence duration and cross border hirings of PHVs (and taxis) for consultation in the draft best practice guidance.

Taxi Licensing Zones

The OFT considers that where taxi licensing areas are divided into more than one zone, greater clarity would be brought to the market if local authorities removed the zones and established a single licensing area. The Government agree and will include a statement to this effect in the draft best practice guidance.

Cottam Power Station

The Minister for Energy, E-Commerce and Postal Services (Mr. Stephen Timms): I have today granted consent under Section 36 of the Electricity Act 1989 to EDF Energy (Cottam Power) Limited for the construction of flue gas desulphurisation plant at the 2,000 MW coal-fired power station at Cottam in Nottinghamshire. Planning permission for the plant has also been deemed to be granted, subject to 54 planning conditions agreed with the Nottinghamshire County Council and the Bassetlaw District Council.

The consent is for the final two units with the first two already obtaining consent in August 2002 and which are currently under construction.

EDUCATION AND SKILLS

Budget Statement

The Secretary of State for Education and Skills (Mr. Charles Clarke): In his Budget statement yesterday, my right hon. Friend the Chancellor of the Exchequer set out measures to ensure stability for education, children's services and skills and the continued progress across the Department's agenda that is crucial to the economic and social well-being of the country.

Education expenditure in England will grow by an average of 4.4 per cent. across the Spending Review period: that is by 6.0 per cent. in 2005–06; 3.6 per cent. in 2006–07 and 3.5 per cent. in 2007–08. The tables below show the plans for the Department's Expenditure Limit and local authority provision for education and children's social services; and plans for total education spending in England over the Spending Review period.

£million	*2005–06*	*2006–07*	*2007–08*
Departmental Expenditure Limit	31,105	32,905	35,153
Local Authority Formula Spending Share Education	27,963	29,863	31,663
Children's FSS	4,016	4,316	4,516

£million	*2005–06*	*2006–07*	*2007–08*
Total Education Spending (England)	56,529	60,122	63,910

As a result of this settlement, education spending in the UK will be 5.6 per cent. of GDP in 2007–08, up from 5.4 per cent. in 2004–05.

In every area, investment will be accompanied by reform.

Children

Over 1.6 million children have benefited from free part time nursery education for three and four year olds; and 400,000 children and their families in deprived area have been helped by 524 Sure Start centres.

As a result of this settlement, the number of children's centres will rise to 1,700 by 2008, covering all 20 per cent. of the country's most disadvantaged wards. We will also announce in due course an expansion of childcare places, family support services, and an expansion of extended schools, which bring together education, health, children's social services and childcare.

This settlement will provide the funding necessary to address the agenda set out in the "Every Child Matters: The Next Steps", including the establishment of Children's Trusts to develop in each locality integrated services for children and families and improved care and life chances for children in care.

Schools

As a result of the Government's class size pledge, 350,000 five, six and seven year olds are no longer in classes of 31 or more. There are around 25,000 more teachers and 80,000 more support staff than in 1997. In 1997, half of all 11 year olds went to secondary school unable to read, write and count well. Now it is a quarter. And the international PIRLS study in March 2003 showed that our 10 year olds are the third best readers in the world. This settlement will enable primary schools and teachers to continue to raise standards of literacy and numeracy supported by workforce reform and the recruitment of more teaching assistants.

In 1997, just 45.1 per cent. of pupils got five good grades at GCSE. Last year it was 52.9 per cent. And it is rising fastest in our toughest area—pupils in Excellence in Cities areas are improving at more than twice the rate of pupil everywhere else.

Half of all secondary pupils are now taught in specialist schools—there were just 257 specialist schools in 1997. And they are getting better results—56.7 per cent. of pupils in specialist schools get five good grades at GCSE. This settlement will continue the drive to achieve excellence and to narrow the gaps in attainment between schools and between pupils within individual schools. It will make a reality of our commitment that every school that meets the standard will have the opportunity to gain specialist status; and will allow a continued expansion in the number of academies.

The resources will also enable us to respond to the recommendations of the Tomlinson report, including ensuring that education equips young people for the world of work.

Over the spending review period total Departmental capital spending will rise from £3.85 billion in 2004–05 to £6.78 billion in 2007–08. This will ensure that, through our Building Schools for the Future programme, by 2015 every secondary school can be refurbished or rebuilt with world class technology in every school and the best state of the art learning in every classroom.

Accompanying this new investment, we will develop a new relationship with schools to help deliver personalised learning tailored to the talents and needs of every pupil, underpinned by a strengthened accountability framework, a simplified school improvement process and improved information and data management.

Higher Education

Publicly planned funding for higher education has risen dramatically under this government. Expenditure on science and research will have increased in 2005–06 by £1.25 billion a year compared to 2002–03—around 30 per cent. in real terms.

The settlement will allow investment in the sector to continue to grow in real terms. It will enable the Government to advance progress towards its target for 50 per cent. participation in higher education and at the same time maintain real terms student funding per head. It will provide the resources needed to deliver the reforms set out in our White Paper "The Future of Higher Education": improving and rewarding excellent teaching; increasing investment in science and research; enabling more people to enter higher education; and supporting those from disadvantaged backgrounds by restoring a grant worth up to £2,700 in 2006, and abolishing up-front tuition fees for all students.

Lifelong learning

In December 2003, 255,000 young people were studying Modern Apprenticeships, compared with just 75,800 in 1997. The number of working age people in England with no qualifications in 1985 was 10.5 million. In 2003 it was 4.6 million. Between 2001 and 2002 over 300,000 adults were helped to raise their numeracy and literacy skills.

The settlement will provide for new measures—through the New Deal for Skills—to tackle the UK's large number of adults with low skills in the workforce. It will offer, in job centres, for the employed and well as unemployed, a one-stop skills service with access to personal skills advisers and training. By 2007 1.5 million adults will have improved their basic skills as part of our longer term aim of ensuring that by 2010 that the number of adults in the workforce who lack NVQ2 or equivalent qualifications is reduced by at least 40 per cent.

We will take forward the measures set out in our Skills Strategy to meet the needs of employers, employees and individual learners; including a key role for the new Sector Skills Councils.

Efficiency

The front-line will also see resources freed up and cost pressures reduced through efficiency gains worth at least 2.5 per cent. each year over the Spending Review period. These will be delivered through reducing administration costs, reforming procurement and unlocking productivity gains from technology and workforce improvements. For example:

There will be a 31 per cent. reduction in Department for Education and Skills headquarters staff by 2008—1,460 fewer staff.

On procurement, we will take a more pro-active role to help schools and colleges achieve savings through collaboration and wider agreements—the recent agreement with Microsoft which reduces the cost of software to schools by £46 million over three years shows what is possible.

We will work with our partners in children's services, education and training to ensure that resources—people and money—can be used as effectively as possible, for example through reduced bureaucracy and workforce reform.

The Government's aim is to achieve excellence in standards of education and levels of skills, and to give everyone the opportunity to develop their learning. This settlement provides the necessary resources to support and deliver these objectives.

Written Ministerial Statements

Monday 22 March 2004

CONSTITUTIONAL AFFAIRS

Fine Enforcement

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie): Improving fine enforcement performance is an important part of maintaining public confidence in the criminal justice system. Justice must be done, and must be seen to be done.

To this end, we are launching a national initiative to target those who have defaulted on criminal penalties imposed by the courts. The initiative, called Operation Payback, will see magistrates courts across England and Wales conducting "blitzes" against serious fines defaulters in their areas.

The operation means that money owed to the court, and therefore the taxpayer, and compensation owed to victims, is collected. The Government is sending a clear message to those who have been fined that payment is not optional and that penalties must be paid.

The national operation is being co-ordinated by the Department for Constitutional Affairs with support from the Police and the Department for Work and Pensions.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Radioactive Waste Management

The Minister for the Environment (Mr. Elliot Morley): With the establishment of the new Committee on Radioactive Waste Management (CoRWM) during the course of 2003, UK Government and the devolved Administrations in Scotland and Wales have been reviewing the future of the Radioactive Waste Management Advisory Committee (RWMAC). This is as we said we would do in the September 2001 "Managing Radioactive Waste Safely" consultation document.

In light of this review, we have concluded that RWMAC should be put into abeyance for the two to three year period during which CoRWM will be compiling its recommendations on future policy for the long-term management of the UK's higher activity radioactive wastes. At the end of this period we shall carry out a further review of Government advisory machinery needs in the radioactive waste management policy area.

This has not been an easy decision to take given the quality of the past advice we have received from RWMAC. But the key factors that have swayed my colleagues and me in arriving at this decision are:

- we believe that in principle it would be wrong for Government to have two "independent" advisory committees operating in the radioactive waste management policy area;
- we believe this could create problems of perception of the respective roles and requirements of the two Committees;
- we are fully committed to the CoRWM process and the need to drive this forward over the next two to three years, to arrive at a decision on how best to manage the UK's higher activity radioactive wastes;
- the resources available to us must be focussed on this task.

During the course of our review work, we did receive a proposal from the committee for a reconfigured and slimmed down form of RWMAC operation. We considered this very carefully, but it did not solve the basic problem of having two independent advisory committees operating in the same policy area. And we felt that this could have potentially led to a lesser degree and standard of advice than we, and potentially the Committee itself, have come to expect.

We recognise that needs for review and advice could arise during the period that CoRWM is conducting work and RWMAC is in abeyance. Our proposal, for the period of CoRWM's work, is to consider and address these in a case by case manner through our Radioactive Waste Policy Group (RWPG). This is a Group made up of UK Government, devolved Administration and regulatory body representatives that meets regularly, several times a year, to discuss radioactive waste management policy and regulatory issues. The Group has the remit to carry out reviews, calling on external advice, as necessary.

I have written to the current RWMAC Chairman and his Committee members to inform them of this decision and to thank them for the hard effort, and sound advice, that they have provided in recent years. This advice will remain available for scrutiny and use on the Committee's website www.defra.gov.uk/rwmac/.

DEFENCE

Disturbances (Kosovo)

The Secretary of State for Defence (Mr. Geoffrey Hoon): Last week saw a deterioration of the security situation in Kosovo. Violence broke out between ethnic Serbs and Albanians in Mitrovica in northern Kosovo, which subsequently spread to other ethnic Serb populated areas in Kosovo. The violence has resulted in deaths within both communities, as well as hundreds injured, including some KFOR troops. The situation in Kosovo although still tense, now appears calmer.

The troops already in Kosovo were heavily committed in dealing with the situation. Commander KFOR therefore took the decision to authorise the deployment of his in-theatre tactical reserves to assist with the situation. NATO also issued instructions to reinforce KFOR with additional SFOR troops from Bosnia, including a UK company of 1st Royal Gurkha Rifles, a US company and a company from the Italian Multinational Support Unit (Carabineri).

In the early hours of Thursday 18 March, NATO called upon the Operational Reserve Force (ORF) Ready Battalion. The ready battalion role is one that the UK has responsibility for during the first six months of 2004. This means that, as part of our overall commitment to the Balkans, the UK provides NATO with a battalion that could, in circumstances such as these, be rapidly deployed into either Bosnia or Kosovo. The lead elements of the ORF, totalling approximately 150 men and 12 Land Rovers, departed from RAF Brize Norton on Thursday afternoon and landed in Kosovo late that evening. The vast majority of the ORF battalion of around 660 men has now deployed. 1st Battalion The Royal Gloucestershire Berkshire and Wiltshire Regiment is providing the core of the battalion group.

There are now around 1,100 UK armed forces personnel deployed in Kosovo.

The purpose of this deployment is to restore calm to the province and prevent unrest spreading to areas outside Kosovo, the type of task for which the Operational Reserve was designed. UK troops will conduct routine patrolling, the guarding of sites (such as the UN Mission) and public order duties, as tasked by Commander KFOR.

Further to the deployment of the UK battalion, NATO has requested that an element of the NATO Strategic Reserve Force, provided by a French battalion, also be deployed to Kosovo. NATO has also requested the deployment of the three standby battalions that make up the full Operational Reserve Force. These battalions are provided by the US, Germany and Italy. The German battalion has been deployed to Skopje, Macedonia, in the first instance.

It is for NATO to determine how long reserves will be required, but in terms of an initial estimate, and with the situation changing, we believe a sensible course of action is to plan initially for a deployment period of approximately 30 days.

DEPUTY PRIME MINISTER

"Tackling Social Exclusion"

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): Today I am launching a discussion document entitled "Tackling Social Exclusion: Taking Stock and Looking to the Future". The document is part of a programme of work being undertaken by the Social Exclusion Unit aiming to provide a clearer understanding of how Government policies have worked together to tackle social exclusion and identify future priorities. It aims to seek views and further evidence from a wide range of experts and stakeholders on the material presented.

The material within the discussion document will be used to stimulate discussion at a seminar for key stakeholders today. Written comments or feedback are invited by 18 April 2004. Copies of the discussion document are available at http://www.socialexclusionunit.gov.uk/ and in the Libraries of the House.

Draft Regional Transport Strategy (South-east)

The Minister for Housing and Planning (Keith Hill): My right hon. Friend the Deputy Prime Minister is today publishing for public consultation proposed changes to the draft regional transport strategy (RTS) for the south-east. They follow the public examination into the draft RTS in July 2003 and the panel report in October 2003.

RTS's are an integral part of regional planning guidance (RPG) and the draft RTS for the south-east represents a revision to RPG9, as published in March 2001. On commencement of the Planning and Compulsory Purchase Bill the RTS will be part of a statutory regional spatial strategy (RSS).

Other partial reviews of RPG9 are at various stages in the process. In particular, a public examination into the Milton Keynes and South Midlands sub-regional strategy is imminent, and the Secretary of State's proposed changes for the Ashford growth area will shortly be published.

The RTS aims to achieve a transport system that progressively reaches the standards of the best in north-west Europe, by promoting management of and investment in the system; rebalancing the structure and use of the transport system in favour of more sustainable modes; and supporting the regional spatial strategy, particularly managing and investing in interregional corridors and delivering urban renaissance and sub-regional objectives. This approach should also inform local authorities and other agencies in preparing relevant regional and local strategies.

Overall the panel considered the draft RTS to be broadly compatible with RPG9, with commendably focused policies. The panel did, however, recommend many changes. Aspects of the strategy which the panel proposed changes to include the selection of strategic corridors (the regional frame), the ranking of priority projects in the investment frameworks, car parking standards, community and demand based transport, and walking and cycling.

The panel supported the identification and development of regional transport hubs and connecting spokes as a core plank in the strategy. In place of the regional frame the panel identified the region's more important international gateways and inter-regional movement corridors. Alongside measures to facilitate urban renewal these elements were viewed as priorities for investment to deliver the spatial strategy.

Government support these aims, and are grateful for the recommendations of the panel. However, one change to the panel's recommendations is necessary to ensure the strategy and its components are more coherently focused and provide transparent direction for the future development of the regional strategy.

A key issue for the region is the treatment of priorities. The panel proposed a priority list of 15 schemes, made up of nine heavy rail, one light rail, two bus and three road schemes. While we view establishing regional priorities as a key element in a future RTS, we were unconvinced that the panel identified the most important regional priorities.

More specifically, the criteria used to identify priorities and the way in which the criteria were applied did not fully reflect the draft Government guidance,

which was published after the examination concluded. Furthermore, the application of the criteria was not transparent and resulted in a priority list that was largely focused on a single mode and failed to identify affordability issues.

The process of comprehensively reviewing RPG9 has already begun. As part of this work the regional assembly (RA) is intent on improving the evidence base by developing a robust approach to prioritisation, an activity that I am particularly keen to see progress on.

I have today written to the RA with the proposed changes indicating areas where views are particularly sought from interested parties. There will now be a public consultation period on the proposed changes, which will end on 21st May.

Copies of the relevant documents are available in the Libraries of both Houses and have been provided for all of the region's MPs, MEPs and local authorities.

TREASURY

Finance Bill

The Paymaster General (Dawn Primarolo): As I announced in the debate on the Budget resolutions on 18 March, *Official Report*, column 538, the Government intend to publish the Finance Bill on Thursday 8 April. Explanatory notes on the Bill's clauses will be available in the Vote Office and the Libraries of both Houses on that day. Members of the public will be able to obtain copies of the explanatory notes from the Treasury. These will also be available on the Treasury's website http://www.hm-treasury.gov.uk/.

HEALTH

Health Services for Prisoners

The Parliamentary Under-Secretary of State for Health (Dr. Stephen Ladyman): I am making this statement with the Minister with responsibility for correctional services and reducing reoffending, my hon. Friend the Member for Wythenshawe and Sale, East (Paul Goggins).

The prison population demonstrates high levels of morbidity, particularly in areas such as mental health and substance misuse. Historically, primary health care services to prisoners have been secured and delivered by the Prison Service independently of the NHS.

A formal partnership between the Prison Service and the NHS was launched in 2000 to modernise health services for prisoners. In 2002, the Government announced their intention to move this partnership on to a new phase, with the Department of Heath assuming overall financial responsibility for these services from April 2003 and the transfer of full commissioning responsibility for prison health services to NHS PCTs by April 2006. A Development Network of prisons and PCTs was established to provide a test-bed for this transfer at operational level.

We are today announcing the NHS Primary Care Trusts that will assume responsibility for commissioning primary healthcare services in their local prisons from April 2004. This is the initial phase of transfer of responsibility and involves 22 PCTs that have prisons within their boundaries. Of these 22, four have delegated commissioning responsibility to neighbouring PCTs, giving 18 PCTs the lead for local prison health partnerships.

Covering 34 prisons across England, the 18 lead Primary Care Trusts have demonstrated a clear understanding of the health needs of their local prison populations and have, in partnership with the prisons themselves, developed robust plans to improve health services for those populations. Funding for primary health services that was previously allocated through the Prison Service will be transferred to the relevant Primary Care Trusts from April 2004. Funding for NHS secondary care services provided to prisoners is already within the financial baselines of PCTs. Investment in health services for prisoners is set to increase by over £40 million a year over the three year period to March 2006. Responsibility for commissioning health services in all publicly run prisons in England will transfer to local Primary Care Trusts by 1 April 2006.

The 18 partnerships where commissioning responsibility will transfer from 1 April are:

PCT	*Prisons*
Castlepoint and Rochford	Bullwood Hall
Doncaster East	Lindholme Moorland
Durham and Chester-le Street	Frankland Durham Low Newton
Exeter	Channings Wood [1] Dartmoor [2] Exeter

[4] Managed by SW Dorsest on behalf of Mendip PCT

Written Ministerial Statements

Tuesday 23 March 2004

DEFENCE

Principal Service Museums

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The business process review of the six principal service museums has been completed. The review confirmed the value of the museums and recommended their continued support by the MOD. The review also recommended a number of measures to improve communication between the museums and their relevant sponsor branch, to provide assurance of value for money and to facilitate longer term planning. These will be taken forward by the Deputy Chief of the Defence Staff (personnel) in conjunction with the three service sponsor branches.

Estate Rationalisation (Presentation Strategy)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The 2003 defence estate stewardship report is published today. This report outlines the continuing progress that the Ministry of Defence is making in implementing the estate strategy that was launched in 2000.

The Ministry of Defence is continually examining ways of improving military capability and value for money for the taxpayer. As part of this approach, we want to keep the size and location of our bases under review. Building on initial work that has been done to identify the MOD's core sites, the Department is now undertaking further work to examine where estate rationalisation may be possible. This work is consistent with the Department's contribution to the Government's independent review of public sector rationalisation—the "Lyons Review".

The work now underway is looking at consolidating defence activity at a smaller number of more densely utilised locations in order to achieve the optimum use of land and facilities. This on-going review will necessarily involve the examination of a number of proposals for the potential collocation and relocation of units. It will also take into account existing relocation studies that have already been announced. It is important to recognise that any options that are considered will need to meet operational requirements as well as representing value for money.

The Department is currently at an early stage of this wider review and each proposal that emerges from this work will be subject to full consultation in the normal way. This consultation is essential to determine whether the options under consideration are viable in the widest sense, for instance, in relation to transport, education, health and the future use of potential surplus MOD sites.

No decisions have yet been reached on any site, but as this matter progresses I will ensure that right hon. and hon. Members are advised of progress where such an issue may affect their constituency.

A copy of the report is in the Library of the House.

CULTURE, MEDIA AND SPORT

Licensing Act 2003

The Secretary of State for Culture, Media and Sport (Tessa Jowell): I am today laying before Parliament a draft of the guidance to be issued by me under section 182 of the Licensing Act 2003. I am also placing copies in the Libraries of both Houses, the Vote Office, and the Printed Paper Office. Copies will be made available to the public on the DCMS website at:

http://www.culture.gov.uk/alcohol_and_entertainment/licensing_act_2003.

The guidance makes clear our determination to enable licensing authorities and the police to bring the minority of badly run premises into line with the best. The police and other responsible authorities should make full use of existing, and new powers under the Act, proactively tackling alcohol-related crime and disorder and badly run premises.

In carrying out their functions under the Act, licensing authorities have a clear responsibility to promote the prevention of crime and disorder, and the prevention of public nuisance, as well as promote public safety, and protect children from harm.

DEPUTY PRIME MINISTER

Planning and Compulsory Purchase Bill

The Minister for Housing and Planning (Keith Hill): On 15 December I issued a statement noting that I had received significant representations from organisations representing housebuilders and other major developers indicating their concerns about the potential removal from planning legislation of outline planning permission and its effect on proposed developments. I said that I would consider further the removal of the provision from the Planning and Compulsory Purchase Bill that abolishes outline planning permission.

My statement said that if outline planning permission were to be retained this could only be on the basis that it provided the opportunity for greater community involvement and a level of information which will enable local authorities to assess all the significant environmental impacts. I indicated my willingness to consider proposals on the scope and extent of the further information needed to achieve these objectives.

Discussions have been held with the Commission for Architecture and the Built Environment and representatives of developers. We have received letters from the British Property Federation (BPF) and the House Builders Federation (HBF) indicating their willingness for their members to provide sufficient information with applications for outline planning permission to satisfy our objectives. The information would meet the requirements of environmental impact assessments and would comprise elements to be included

in a design statement. These elements would be massing, layout, relationship to public space, density (as defined by units for residential developments or floorspace for commercial developments), building heights, access and movements, landscape strategy, mix of use and response to context. The level of information provided would be appropriate to the complexity of the scheme. We see this information as providing the foundation for greater community involvement.

Following the discussions with developers and the receipt of the letters from the BPF and the HBF I am pleased to announce that the Government are now prepared to retain outline planning permission as part of the Town and Country Planning Act 1990. We will table an amendment to achieve this for consideration on 25 March during third reading in the House of Lords of the Planning and Compulsory Purchase Bill.

We propose to use the standard application form proposed in the Bill as the means for the submission of the additional information to be required to accompany an application for outline planning permission. The details would be set out in secondary legislation, in an amendment to the General Permitted Development Order and in guidance accompanying the standard application form. We aim to consult on this package in June.

Written Ministerial Statements

Wednesday 24 March 2004

CABINET OFFICE

Central Office of Information Targets 2003–04

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): The targets set for the Central Office of Information for the 2003–04 financial year are:

Financial: To break even on an accruals basis.

Efficiency: To achieve a unit cost reduction of 2.5 per cent.

Quality: For the customer satisfaction system:

To achieve a customer satisfaction score of 8.25 out of 10;

To achieve 96 per cent. of customer satisfaction scores of 6 or higher;

To achieve a response rate of 62 per cent.

HEALTH

Dental Treatment Charges

The Minister of State, Department of Health (Ms Rosie Winterton): The written ministerial statement of 12 February 2004 covering national health service charges in England informed the House that we planned to raise the maximum patient charge for a course of dental treatment from £372 to £378 from 1 April 2004.

In order to minimise changes and to avoid any confusion for patients, dentists and their practice staff, we are deferring the increase in the maximum charge for a course of dental treatment from 1 April to 1 May 2004 so as to coincide with the implementation of the doctors and dentists review body recommendation for dentists' fees. The fees will be backdated to 1 April 2004 but the new charges will be effective from 1 May 2004 and there will be no retrospective increases to charges already paid by patients.

The chief dental officer will be writing to all dentists advising them of the 1 May 2004 implementation date for the statement of dental remuneration and the increase in the maximum charge for a course of dental treatment.

DEFENCE

Gulf Veterans' Illnesses

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): A key principle of the Government's approach to addressing the health concerns of veterans of the 1990–91 Gulf conflict is that there should be appropriate research into veterans' illnesses and factors that may have a bearing on these. Our current research programme is expected to cost at least £8.5 million.

As part of this research effort, the Ministry of Defence funded an independent study of the reproductive health of UK veterans of the 1990–91 Gulf conflict through the Medical Research Council (MRC). The main findings of this research have today been published in a paper entitled: "Miscarriage, stillbirth and congenital malformation in the offspring of UK veterans of the first Gulf war" in the "*International Journal of Epidemiology*".

The researchers have reported that for male veterans of the 1990–1991 Gulf conflict, they found no evidence for increased risk of stillbirth, chromosomal malformations, or congenital syndromes. Some associations were reported between fathers' service and increased risk of miscarriage and other less well-defined malformations. For female veterans, the number of stillbirths and malformations were too small to allow meaningful analysis and there was no effect on the risk of miscarriage.

The MOD welcomes publication of this important research. The MRC's military health research advisory group (MHRAG) has considered the paper. They agree with the researchers that overall, the lack of evidence to link reproductive health problems with Gulf service should be reassuring to veterans and that the apparent increased risk identified should be interpreted with caution. The MHRAG does not intend to recommend any additional research into this aspect of Gulf veterans' health at this time.

TREASURY

The UK/IMF (Annual Report)

The Chancellor of the Exchequer (Mr. Gordon Brown): I am today publishing the fifth annual report to Parliament on UK operations at the IMF, "*Growth For All—Towards a Stable and Fairer World: the UK and the IMF 2003*".

Copies are available in the Library of the House.

FOREIGN AND COMMONWEALTH AFFAIRS

E-diplomacy

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): In our last information and communications technology (ICT) strategy published in 2000 we set ourselves the goal of transforming the FCO from a headquarters with outstations to a single global online organisation. We have come a long way towards achieving that goal. The FCO telecommunications network (FTN) together with our desktop system (Firecrest) provides a dedicated global network that connects our UK offices with over 200 overseas Posts and to the rest of Whitehall. On it we send over 1 million e-mails and download gigabytes of data every day, and run a number of applications including Genie (for issuing passports).

Following publication of the FCO strategy in December last year, we have reviewed what we need from our ICT to enable the more flexible FCO envisaged in that strategy. *"e-diplomacy"* explains how we will introduce greater flexibility to our ICT infrastructure and enable more flexible use of information. This includes more use of mobile and remote-working technology and new applications to make information more accessible, whilst keeping it secure. We will continue to improve our project management skills and develop closer working partnerships with the private sector to ensure we provide the most cost-effective service to FCO users. We will also work with other Government Departments to achieve efficiency savings wherever possible.

The plans we have set out in *"e-diplomacy"* are challenging but achievable. We believe they are crucial to the overall effectiveness of the FCO.

Copies of *"e-diplomacy"* have been placed in the Library of the House. It is also available on the FCO's web-site www.fco.gov.uk.

WALES

Public Audit (Wales) Bill

The Parliamentary Under-Secretary of State for Wales (Mr. Don Touhig): Clause 54 was included in the Public Audit (Wales) Bill to ensure consistency in the criminal law across England and Wales. The Government have brought forward an amendment to Clause 54 to make clear the link with the present legislation that currently applies across England and Wales—section 49 of the Audit Commission Act 1998. It also ensures that any relaxation of the restrictions in the Audit Commission Act can be applied at the same time in England and Wales, following consultation with the National Assembly for Wales of course.

The Government acknowledge the concerns that have been raised about this clause. Indeed, section 49 of the Audit Commission Act is already being considered as part of a much wider review of statutory restrictions on disclosure that the Government are undertaking. This is the Department for Constitutional Affairs' review into existing statutory prohibitions on disclosure. Such restrictions can be removed by order under section 75 of the Freedom of Information Act 2000 in the case of Acts passed before or in the same session as that Act. The DCA's *"Second Report to Parliament on the Review of Legislation Governing the Disclosure of Information"* published in November 2002 is available at http://www.dca.gov.uk/foi/foidoirpt2.htm. Section 49 of the Audit Commission Act is specifically referred to in Part II of that report, *"Listing by Lead Department"* under the Office of the Deputy Prime Minister heading.

Following preliminary consideration and consultation, the Government's preferred treatment for section 49 is to amend it so that it is consistent with the spirit of the Freedom of Information Act, which has an overall presumption in favour of disclosure. The Department for Constitutional Affairs currently plans to publish a final report on its review in the autumn. The Department for Constitutional Affairs is also intending to bring forward the first order to be made under the freedom of information legislation later this year, and the Government will include the proposed amendment to section 49 in that order. When section 49 is amended, the Government amendment to clause 54 will allow the relaxation of the restriction on disclosure to apply also in Wales. The Government are therefore following the proper process to address this issue, and are already well advanced in doing this.

Written Ministerial Statements

Thursday 25 March 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Chemical, Biological, Radiological and Nuclear Decontamination

The Minister for the Environment (Mr. Elliot Morley): The strategic national guidance for the decontamination of the open environment exposed to chemical, biological, radiological or nuclear substances or material has today been published on the DEFRA website www.defra.gov.uk and the UK resilience website www.ukresilience.info. The guidance may be downloaded from those sites and I am also placing a copy in the Library of the House.

This guidance is designed to help local authorities, and others with responsibilities for protection of the public, to develop practical strategies for cleaning up the open environment in the event of the release of chemical, biological, radiological and nuclear (CBRN) substances or materials. It also provides an agreed set of basic recovery principles and a shared understanding of the key issues that may need to be addressed. The guidance was recently finalised and is not a response to any new or recent threat of an incident. It is sensible contingency planning and does not mean there is a further threat from CBRN terrorism. Up till now, guidance to local authorities was published in October 2001 and a revised version in August last year. Strategic national guidance on the decontamination of people was published in February 2003.

The guidance is part of a suite of CBRN documents developed under the CBRN resilience programme and led by the Home Office. It also refers to the Government's active consideration of establishment of a new service to be ready to provide advice and assistance in decontamination and clean-up after a CBRN incident. Further details will be given as soon as practicable.

This guidance will be updated periodically and updates will be available on the DEFRA and UK resilience websites. We welcome feedback on the guidance, which can be sent to cbrnenquiries@homeoffice.gsi.gov.uk.

Fisheries

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): The Prime Minister's Strategy Unit report *"Net Benefits: A Sustainable and Profitable Future for UK Fishing"* is published today.

The report concludes that the UK fishing industry can be profitable and sustainable in the long term, provided that it modernises to meet global competition.

The report offers an extremely valuable and detached analysis of the situation in British fishing, which we believe offers the Government, the industry and everyone else with an interest the catalyst for moving forward. The report's broad conclusions are:

> The Government should clearly define its economic, social, environmental and safety goals for the fishing industry and fishing communities.
>
> The aim should be to foster and support a competitive, profitable and sustainable UK fleet.
>
> Compliance with the rules by the UK fishing industry and other member states should be improved.
>
> UK fisheries management should be further modernised and be more decentralised and flexible.
>
> The fishing industry must be more fully incorporated into the broader marine management process, with a balanced set of rights and responsibilities.
>
> We should actively encourage and support progressive regionalisation of EU management under the CFP.
>
> Government policies should recognise and support vulnerable fishing dependent communities.
>
> Fisheries management should play a full and equal role in wider systems of managing the marine environment.

These are underpinned by a large number of more specific recommendations. They all demand a more developed partnership approach with the industry if implementation is to be successful.

The Government welcome publication of the report, supports all the report's broad conclusions and will now explore and discuss the report in depth. It is important that this is a fully inclusive process. Our aim is for the fisheries departments in the UK to work closely in partnership with each other, and in collaboration with the industry and other stakeholders, to work up practicable and deliverable solutions, building on the proposals and recommendations in the report. Defra have already set up a team to take this process forward, which will be consulting actively with stakeholders over the coming months. A strategy, and a timetable for delivering it, will be agreed by the end of 2004.

Landfill

The Minister for the Environment (Mr. Elliot Morley): The landfill directive represents an important step change in the way we dispose of waste. It will encourage waste minimisation and increased levels of recycling and recovery.

The council decision on waste acceptance criteria (WAC), agreed in Council in December 2002, sets out the standards that waste must meet to be accepted at one of the three classes of landfill—hazardous, non-hazardous or inert—prescribed by the landfill directive. It introduces criteria and sets limit values for a number of contaminants, so harmonising another aspect of landfill regulation across Europe. A consultation on how the WAC was to be implemented began on 24 September and closed on 17 December.

Following consultation we have decided that the implementation date for the WAC will be 16 July 2005 with the "interim year" between July 2004–July 2005 being managed using a site specific approach based on loading rates of new wastes, the types of new waste and the types of waste already in the landfill. This site-specific approach will continue post-2005. The option of

opening separate cells in hazardous sites for waste deposited after July 2005, which has been subject to the full WAC, will not be pursued.

The limit values for cadmium and mercury will remain those contained in the Council decision. However, this position will be reviewed two years after implementation following discussions between DEFRA and the Environment Agency to determine whether compliance with the groundwater directive requires adoption of limit values lower than those required by the landfill directive. Furthermore, the Government have decided to extend the ban on disposing gypsum-based wastes with biodegradable wastes to include any high sulphate wastes.

The risk assessment option will be adopted but given the difficulties for the agency in its regulation, the potential for greater environmental risk and the resultant risk of having to store hazardous waste pending agency checks, Government will restrict the option to only individual waste streams destined for specific mono-fill sites. While there will be no initial time limit to this approach, Government reserve the right to re-visit the issue within two years of implementation.

The consultation outcome is available in full on

http://www.defra.gov.uk/corporate/consult/landfill-regs/index.htm

The Landfill (England and Wales) (Amendment) Regulations to implement these decisions will be laid before Parliament in April. In addition, we expect the landfill directive interpretive guidance to be available to operators also in April.

The Government recognise that implementation of the landfill directive will have a significant impact on the disposal of hazardous waste. They continue to work with the Environment Agency, waste producers and waste managers to ensure that the transition period is as smooth as possible and that the environment and human health are fully protected.

Albatrosses and Petrels

The Minister for the Environment (Mr. Elliot Morley): The agreement on the conservation of albatrosses and petrels (ACAP) is the key international treaty, concluded under the convention on migratory species, which deals with the conservation of albatrosses and petrels in the southern hemisphere. The UK played a leading role in drawing up the agreement and was amongst the first to sign it, in June 2001. The agreement entered into force on 1 February as a result of ratification by the fifth party, South Africa, in November 2003.

In May 2003 I laid an explanatory memorandum before both Houses of Parliament relating to the ratification of ACAP (Command Paper no 5826) in respect of the UK and the British Antarctic territory.

Some of the legal issues raised by the treaty have required further consideration and analysis and the Government did not in fact proceed to ratification last year. In the meantime I am pleased to say that more UK Overseas territories in the range of the species covered by the Agreement have indicated their wish to be included in the UK's ratification and have ensured that their legislation can meet the agreement's requirements.

The Government recognises the urgent need to ratify this agreement as quickly as possible. We have long indicated our strong commitment to the conservation of these species, which are at serious risk from a range of human influences, and wish to play our full part in international efforts.

I am therefore tabling a revised explanatory memorandum today indicating that we propose to ratify the Agreement, without reservations and without further delay, for the UK and the British Antarctic territory, the Falkland Islands and South Georgia and the South Sandwich Islands. I intend that the instrument of ratification shall be deposited with the Australian Government on 2 April.

As the Government takes these urgent steps, we are conscious that Parliament will have less time than convention normally allows to consider the revised memorandum. However, we believe this to be a special case on the grounds that the agreement itself has been available to both Houses since May 2003. In fact a number of hon. Members have urged the Government recently to take urgent steps to ratify the agreement in the light of the serious conservation issues it addresses. In these circumstances the Government considers that a shortening of the normal scrutiny period is reasonable.

HEALTH

Standards Agency

The Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson): The Food Standards Agency's annual report and accounts 2002–03 were laid before Parliament today.

Copies will be placed in the Library.

HOME DEPARTMENT

Immigration and Nationality Directorate

The Minister for Citizenship and Immigration (Beverley Hughes): I have today placed in the Library several important documents on immigration and asylum matters:

- a report of the investigation by Ken Sutton into how guidance was issued to staff in the Sheffield office of the Immigration and Nationality Directorate (IND) on the handling of applications under the European Communities Association Agreements (ECAA);
- a response to the Home Affairs Select Committee report on "Asylum Applications";
- the full text of last year's report of the independent review into the operation of the National Asylum Support Service (NASS).

Investigation of ECAA guidance:

Mr. Sutton's main findings are that:

- two sets of guidance were developed in Sheffield, to reduce the extent of checking of ECAA applications, one set in September/October 2003, the other in January/February 2004;
- the decision to proceed with the new guidance was taken by middle ranking managers in charge of the Sheffield team. It was not cleared with senior officials at IND head office in Croydon or with ministers;

together with the deployment of additional staff, the guidance was intended to clear a backlog of ECAA applications which had built up;

the guidance had nothing to do with attempting to reduce the number of people from EU Accession States who might appear in published statistics after 1 May.

The vast majority of those approved under this guidance were already lawfully in the country. From internal management information, we estimate that around 36,000 decisions in the ECAA category have been made in this financial year of which 29,000 were from people already in the UK.

Mr. Sutton has also referred to the relevance of more general working guidance for staff on the clearance of backlogs of older cases. The volume of applications for extensions of stay means that all Governments at least as far back as the late 1980s, have had to address this problem. Over the years, it has been accepted that making decisions on the basis of the information already available to the caseworker can sometimes be justified as a means of tackling backlogs. This is because long backlogs make immigration controls less effective, as it becomes more difficult to take action against people whose applications have been stuck in the system. They are also unfair to legitimate applicants, most of whom are already in the country legally.

Mr. Sutton has found that managers in Sheffield believed that the approach they took was consistent with general guidance on the clearance of backlogs, but he concludes that it went further in extending the procedure to a broader range of cases including new as well as old cases and that it led staff to going too far in easing the application of the checks.

Mr. Sutton's report shows that mistakes were made. There is no suggestion that these were deliberate or the result of lack of effort. Rather there was an excess of zeal in pursuing the common objective of reducing backlogs. Mr. Sutton's inquiry was not a disciplinary investigation. The Director General of the Immigration and Nationality Directorate has therefore now initiated a disciplinary investigation (with all the safeguards necessary to ensure fairness to members of staff) which will decide what management action is required and whether the management in Sheffield needs further strengthening beyond that already announced.

We are determined to learn from this episode. I have accepted all the recommendations made by Mr. Sutton to address the management and other weaknesses identified in his report. This will make it clear who is responsible for determining caseworking practice, their level in the organisation and the respective roles of Ministers and civil service managers. Staff have a right to expect such clarity and for managers to have a defined measure of authority to manage the business in a sensible way. As part of the follow-up to Mr. Sutton's report and as he has recommended, there will be a major effort to standardise guidance for staff in each operational area, ensure that appropriately senior managers are clearly responsible for authorising that guidance, and lay down clearly the circumstances in which Ministers must be consulted.

I have also instructed the Director General to draw up proposals for an off-line audit and inspection unit, reporting directly to me and the Director General, to undertake inspections of working practices and performance in all parts of IND's business.

It is important that these events should not overshadow the great strides that have been made by IND in recent years, including through the excellent work of caseworking staff in Sheffield. The introduction of charging in August has enabled us to invest in additional general caseworking staff. The number of staff deployed on such work in Croydon and Sheffield has increased by 67 per cent., from 780 at the end of 2002 to around 1,300 now. As a result, we have set and are meeting service standards for charged work under which 70 per cent. of cases are decided within three weeks and virtually all of the rest within 13 weeks. Backlogs are low, and special measures to deal with them are no longer necessary.

There are, however, other areas of IND's business where backlogs remain a problem, including a number of older cases where a decision has been taken, but other issues have been raised by the applicant. I have put in hand a full analysis of the extent of this and steps to be taken to deal with it. Mr. Moxon's actions raised the question of how employees can raise matters of concern within IND. Existing Home Office instructions say concerns should be raised either with the Head of the Department or confidentially with a nominated official outside their line management chain and if still unresolved can be raised with the Civil Service Commissioners. I have ordered these procedures should be re-published to every employee today so they can be clear of the avenues open to them if they are concerned about what they are being asked to do. Separately, the Permanent Secretary is taking steps to strengthen my Private Office to enable it to deal better with the large volume of correspondence it receives which includes around 2,000 e-mails a week.

Response to the Home Affairs Committee report on asylum applications:

Also published today is the Government's response to the Home Affairs Committee's recent report on asylum applications. Here too a history of applications exceeding the capacity to deal with them has been reversed, by reducing intake and investing in extra caseworkers about 2,000 more applications are now being decided each month than are being received. At the end of December 2003 the number of asylum applications awaiting an initial decision had fallen to 24,500, the lowest level for a decade.

This has been achieved by the hard work of IND staff, underpinned by considerable Government investment and clear political leadership. As a result, the work is under control and IND is in a better shape than it has been for many years. I am determined to build on this by targeted, enhanced checks in areas that still concern us, such as the investigation of doubtful marriages, students and colleges. The Home Secretary and I have already been considering steps we should take in all these areas, and we will make a separate announcement soon.

Confidence in the immigration system is important so we can recognise the huge contribution legitimate migrants make to our economic prosperity and society. Migrants make up 8 per cent. of our population but generate 10 per cent. of our total wealth. They are net contributors to the Exchequer, and in all walks of life bring skills and energy that our society needs. I am today laying regulations in the House to give effect to

the new workers registration scheme for nationals of eight EU accession countries. These will be debated in both Houses next month.

Independent Review of the National Asylum Support Service:

Also published today in response to a recommendation in the Home Affairs Committee's report is the Report of the independent review of the operation of the National Asylum Support Service (NASS). The review was established in March last year to consider the ways in which NASS operated at that time and provide me with recommendations to improve its performance. I have already published the review's key findings on 15 July last year, and provided the House with a further report on 9 February on the progress we are making in NASS. The review was established as an internal management tool to ensure improvements could be made but I have decided to also place a copy in the library of the House and on the Home Office website.

In addition:

Since last summer NASS has suspended processing of claims for back-payments of asylum support while we clarified the legal position. I can now confirm that we will only make back-payments where the missing payments result from an error on the part of NASS and the claimant is still supported by NASS. A dedicated team will work through the outstanding claims resulting from the suspension;

I am abolishing single additional payments to asylum seekers;

I am tightening up on processes for providing support to single failed asylum seekers under section 4 of the Immigration and Asylum Act 1999 which provides for exceptional help to those asylum applicants whose claims have failed;

Iraqis will no longer be routinely eligible for section 4 support unless they are co-operating with voluntary returns. This is in line with our section 4 policy for other nationalities now that we will begin returning failed asylum seekers to Iraq from April, as previously announced;

Our contract with Landmark was terminated on 23 March this year. I am grateful to all our local authority and voluntary sector partners for working with us so closely to make this possible; and

I have laid draft Regulations to provide for routine annual increases in the levels of asylum support with effect from 12 April.

Finally, the Home Secretary has also today laid draft regulations to establish a workers' registration scheme for nationals of eight accession countries as the Home Secretary announced in his statement of 23 February.

Police Constable Gerald Walker

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): Today I am publishing and placing in the Library the report of the inquiry by Her Majesty's chief inspector of probation into the death of police constable Gerald Walker. In his report, the chief inspector makes a number of recommendations for changes to the way in which the probation, prison and police services manage the release on licence, supervision and revocation of licence of offenders who are serving part of their sentence under supervision in the community. The services have accepted those recommendations in full. I am therefore able to report that I am today also placing in the Library a copy of the detailed action plan which I have agreed with the key correctional services agencies to ensure that the lessons of PC Walker's tragic death are learned and appropriate changes are introduced.

Police constable Walker was a serving officer of the Nottinghamshire constabulary at the time of his death at the hands of David Parfitt in Nottingham following the tragic events of 7 January last year. Parfitt had been convicted of robbery on 16 May 2002 and sentenced to two years imprisonment. He was released into the supervision of staff of the Nottinghamshire probation area on 11 September 2002. His licence, which in the normal way would have run until 13 March 2003 included among other conditions, a requirement that Parfitt undergo regular testing for the presence of class A drugs as arranged by the probation service. He was also subject for the first 60 days of his period in the community to an electronically monitored home detention curfew condition which required that he remain at his approved address between 7.15 pm and 7.15 am.

At the time PC Walker was killed, Parfitt had completed his period of home detention curfew without breaking the conditions of that curfew, but had recorded a number of positive tests for the presence of class A drugs and had failed to attend a number of appointments with his supervising officer. As a consequence, his supervising officer had requested, and the Home Office approved, the revocation of Mr Parfitt's licence on 9 December 2002.

Parfitt was unlawfully at large from that date until 8 January 2003, when he was arrested by the Nottinghamshire police. During that time, Parfitt caused the injuries to PC Walker from which he subsequently died when the officer fell from a vehicle in which Parfitt was seeking to escape. Parfitt was subsequently convicted of manslaughter for the death of PC Walker and was sentenced to 12 years imprisonment.

PC Gerald Walker's attempts to arrest David Parfitt were the actions of a brave man and a dedicated police officer. They deserve the unreserved commendation of the House. His death as a consequence of Parfitt's actions was an irreparable loss to the Nottinghamshire police service and the people of Nottingham, but even more a personal tragedy for his wife and family. I know that I speak for the whole House in expressing my deepest sympathy and condolences to Mrs. Tracy Walker for her loss.

Following PC Walker's death, Mrs Walker was not satisfied that the correctional services agencies had been as open with her about the circumstances of her husband's death as they were required to be. She was concerned that failures in the way in which Parfitt's case had been handled had actually contributed to the situation which led to the death of her husband. She formally complained to the national probation service and on 13 December last year I, together with my hon. Friend the Minister for Crime Reduction, Policing and Community Safety, asked HM Chief Inspector of Probation, Professor Rod Morgan, to carry out an

inquiry into the actions of the prison service, Nottinghamshire probation area and Nottinghamshire constabulary in relation to the events which culminated in and followed the death of PC Walker.

I have now received the report of that inquiry. On behalf of myself and my hon. Friend I would like to take this opportunity to thank the chief inspector and his team for the scrupulous manner in which they have approached this important and sensitive inquiry.

Professor Morgan's report covers issues at both the local, operational level and in respect of the national policy which informed local practice. He reports that he found a number of failings in the handling of Parfitt's case which, if carried out differently, could have resulted in the earlier revocation of his licence and the possibility of his earlier arrest. He makes a number of recommendations for changes affecting all three services which he believes will reduce the risk of similar failings arising in future and which will contribute to the greater safety of the public.

Professor Morgan also identifies serious flaws in the way that the Probation Service dealt with Mrs Walker.

Professor Morgan has identified a number of areas in which our present practice for the safe management of offenders in the community can and should be improved. The Government and services accept Professor Morgan's analysis and will implement the changes he proposes. The action plan I have today placed in the Library sets out how we propose to take forward the implementation of the key recommendations outlined by the inquiry report.

Money Laundering Reporting System

The Parliamentary Under-Secretary of State for the Home Department (Caroline Flint): An important asset in our fight against crime is the system under which businesses report money laundering to the National Criminal Intelligence Service (NCIS) and that information is analysed for use in investigations. I am therefore pleased to report that substantial improvements to that system have been achieved over recent months. The reforms must continue and be built on but it is clear that new arrangements are being developed which have the potential to have a greater impact on crime.

The setting up of the Money Laundering Reporting Taskforce:

> In September 2003, my right hon. Friend the Home Secretary set up a Taskforce to follow up the findings of a review by the consultants KPMG, commissioned by the Home Office, on the regime for handling reports relating to money laundering. The Taskforce's membership is drawn from key interested parties in the public and private sectors and the Financial Services Authority. It has given me an interim report on the progress of follow-up and the key challenges which remain in delivering a better system.

Summary of the key findings of the Taskforce:

> The view of the Taskforce is that the money laundering reporting regime has an important role to play in the fight against crime and terrorism, but equally that the burden the system places on reporting institutions and the public purse must be proportionate. This requires a system that delivers, and is seen to deliver, value to law enforcement, and which must be robust from end to end (from reporting institution via NCIS to law enforcement and the criminal justice system). Considerable progress has been made since the publication in July 2003 of the KPMG report, but these improvements must be sustained and much still remains to be done. The Taskforce believes the Government should keep the reporting regime under review to ensure it is, and remains, effective and proportionate and that better systems are needed to measure its costs and benefits.

Key challenges identified by the Taskforce:

The Taskforce considered that the key challenges over the system are:

> All those involved in the reporting regime need to turn the closer co-operation of recent months into effective action and the system must be developed, not in isolation, but as a key element of the UK's wider anti- money laundering policy;
>
> NCIS need to ensure they can respond to the further increase in reports expected with the widening from 1 March of the range of institutions covered by the Money Laundering Regulations and related reporting obligations. A key element in this is successful operation of the new, differential, reporting system just introduced by NCIS which covers activities that will be of little intelligence value;
>
> NCIS and law enforcement agencies need to provide more support to those institutions reporting on money laundering, so as to improve the quality of those reports;
>
> Disclosing institutions need to continue to work to improve their staffs awareness of reporting obligations, compliance with the law and the production of good quality reports;
>
> The public sector needs to communicate better with disclosing institutions about the reporting regime and to recognise the diverse nature of the businesses in the regulated sector and the money laundering risks they face. To address this issue, the Taskforce has been working on developing and implementing a short-term and long-term communications strategy;

The Taskforce identified the limited capacity of police forces to follow up the intelligence derived from reports on money laundering as one of the main barriers to an effective system.

The Government's response to the interim report:

The Government welcome the improvements made to date to the reporting system to help fight crime. The Taskforce has found that information from reports on money laundering is now being analysed better and sent on to law enforcement agencies much more quickly; but also stressed that these improvements must be sustained and much still remains to be done. I have therefore asked for a further report in early summer, at which point I will consider how best we can continue to drive forward and monitor progress on this important task.

The reporting system is a key element in the United Kingdom's defences against money laundering and an important source of intelligence on all types of acquisitive crime (drugs trafficking, theft, fraud, and all other types of crime committed for financial gain). So it is crucial to ensure that it is effective but that the costs it imposes on the private sector are proportionate.

The Government recognise that the whole system is built on the work of the institutions making reports. It relies heavily on the part that the private sector play in this partnership to fight crime, and I would like here to pay tribute to the money laundering reporting officers and all the others in the private sector involved in the making of these reports.

The fight against money laundering is one element in the Government's wider strategy to take the profit out of crime. As part of this strategy I was delighted to announce on 24 February a new incentive scheme for the police. The scheme will give the police a direct

financial incentive to recover even more criminally acquired wealth, by giving them a stake in the assets they recover. They will receive a third of all assets above £40 million recovered next year, increasing to 50 per cent. in 2005–06. The maximum benefit available to the police will be £43 million in 2004–05, rising to £65 million in 2005–06.

I acknowledge that the Association of Chief Police Officers have expressly requested that money under the incentive scheme should not be ring-fenced for specific purposes and we have therefore not done that. However, at a time when police numbers in England and Wales have reached a record level and we are giving extra funding through the incentive scheme, I hope that the police will be investing more effort in working on intelligence derived from reports of money laundering. This would be in line with the National Policing Plan 2004–07, which encourages police forces to ensure that intelligence from the reporting system is used to the full.

The intelligence from the money laundering reporting system can be of great value in fighting all manner of acquisitive crime. The reporting system is a key element in our strategy, and it is crucial to ensure that we use the information from reports as effectively as possible to detect and deter criminals.

INTERNATIONAL DEVELOPMENT

Iraq (Reconstruction)

The Secretary of State for International Development (Hilary Benn): I visited Iraq from 22–23 March. In Baghdad I met the Iraqi Governing Council, Ministers and representatives of non-Government organisations, as well as Ambassador Bremer and other staff from the Coalition Provisional Authority. In Basra I visited two development projects, met leaders of women's groups and held discussions with CPA South staff.

Significant progress is being made. Iraq's economy is recovering with oil output now over 2.5 million barrels per day, and reconstruction projects are bringing results. I visited Al Faw, to see the installation of 5 x 2MW diesel generators, funded by DFID, which should provide the 45,000 citizens of Al Faw with 24 hours of electricity every day.

In Basra I visited the Rzero Water Treatment Plant. This is part of a major programme to renew the Basra water supply. The USA is providing most of the capital investment, alongside some money provided by the Development Fund for Iraq, to extend new water mains to the poorest areas of Basra, and in doing so create up to 2,000 jobs. The DFID-financed team in CPA South helps to coordinate the whole programme. It should provide a good model for future collaboration.

Successful reconstruction is bringing new challenges. Sustaining the improvements in infrastructure will require difficult political decisions by the new Iraqi Government about charging customers realistic rates for services such as electricity and water, and strengthening the Iraqi institutions that run these utilities. the public distribution system for food and Iraq's state owned enterprises will also need reform. The IMF and World Bank will have a significant role to play in this.

Security remains a major concern for the Iraqis and those who are helping them. But encouraging progress is being made in recruiting for the new Iraqi security forces, and training programmes are underway.

The transitional administrative law is a significant development in the political process. At the Governing Council's invitation the UN has agreed to play a major role in facilitating the formation of the interim Government and the preparation for elections. The handover on 30 June will be a big step. From 1 July Iraqis will have to address their concerns to their own Government. However, donors will still have a significant role, and we are working to make the transition as smooth as possible and to ensure that donors coordinate their programmes effectively.

The Minister for Municipalities and Public Works, Mrs Nasreen Berwari, joined me in Baghdad to launch DFID's interim Country Assistance Plan for Iraq, which I announced to the House in a written statement on 23 February (Col: 7WS), Copies of the plan are in the Libraries of both Houses. At the same time I was able to confirm that DFID is making an initial contribution of £70 million to the International Reconstruction Fund Facility for Iraq: £40 million of this will be spent through the World Bank's Trust Fund and £30 million through the UN's, We are also providing £8.5 million to the International Finance Corporation for its programme for small and medium enterprises in Iraq, which will enable it to start promoting much needed business activity and employment.

Recent events remind us to take nothing for granted in Iraq, but overall reconstruction is going better than many predicted. However, it will require a sustained effort from the Iraqis, with support from the international community, to ensure that it succeeds.

FOREIGN AND COMMONWEALTH AFFAIRS

Liberia

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): With the support of Her Majesty's Government, the United Nations Security Council on 12 March unanimously adopted UN Security Council Resolution 1532(2004). The resolution imposes an asset freeze against Charles Taylor, former President of Liberia, his wife Jewell Howard Taylor and his son Charles Taylor Jr. The asset freeze will also target senior officials of the former Taylor regime, and other close allies and associates of Taylor, as designated by the Committee established by UN Security Council Resolution 1521 (2004). The legal basis for the asset freeze is that Charles Taylor and others continue to use misappropriated funds to undermine peace and stability in Liberia and the region. The resolution includes humanitarian and other exemptions to the freeze, and states the intention to consider whether and how to make frozen assets available to the Government of Liberia.

Zimbabwe

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): With the support of Her Majesty's Government, Common Position 2002/145/CFSP and EC Regulation

310/2002 imposing EU sanctions against Zimbabwe were renewed and replaced by Common Position 2004/161/CFSP and EC Regulation 314/2004 on 19 February 2004. The measures include an arms embargo and ban on related technical assistance, with specific exemptions; an embargo on equipment that might be used for internal repression; a travel ban on listed Zimbabwean officials, who are undermining democracy, human rights and the rule of law, preventing them from entering the EU, with standard criteria for exemptions; and an assets freeze against the listed officials, with certain specific exemptions. The list of officials (in the Annex to the Common Position) has been increased from 79 to 95. The measures in the new Common Position and Regulation follow the EU Guidelines on Implementation and Evaluation of Restrictive Measures (Sanctions) in the Framework of the EU Common Foreign and Security Policy, which were adopted on 8 December 2003. The measures apply for 12 months from 21 February 2004. Amendments or renewal of the measures will be made if their stated objective has not been met.

TRANSPORT

Central Railway

The Minister of State, Department for Transport (Dr. Kim Howells): I have today written to the Chairman of Central Railway declining the company's request for the Government to promote a Hybrid Bill to seek powers for Central Railway's proposal to build a wholly privately financed dedicated rail freight line from North-West England to the Channel Tunnel.

The Government have carefully considered Central's proposals and has held extensive and constructive discussions with the company. While such a scheme could make a contribution to increasing the carriage of freight by rail, Central Railway has not substantiated the likely financeability of the proposals. The Government also have concerns about the operational effects on the existing rail network and on the capacity of the construction and financial markets, and the mitigation of the adverse environmental impacts.

The promoters have received expressions of interest from a number of possible debt providers but these are generally substantially caveated. Neither have they demonstrated that the significant amount of equity finance would be forthcoming.

Central Railway has claimed that no call would be made on the public purse. However, once the Government have agreed to promote a Bill, inescapably they would be taken to be backing the project. Should initial finance not be raised, or the project run into financial difficulty once work was under way, the Government of the day could not escape intense pressure to intervene. The Government have therefore concluded that it cannot promote a Bill against such risks.

The Government are supporting investment in enhancing the rail network, including capacity for rail freight, through other projects. In particular, the west coast main line upgrade and the channel tunnel rail link, together costing over £12 billion, will provide substantial extra capacity, including for freight.

Written Ministerial Statements

Friday 26 March 2004

DEPUTY PRIME MINISTER

Housing Market Renewal Pathfinders

The Deputy Prime Minister (Mr. John Prescott): I am delighted to announce the award of a total of £192.5 million to three more housing market renewal pathfinders over the next two years to implement their strategic schemes. The funding comes from the £500 million market renewal fund announced in February 2003 in "*Sustainable Communities: building for the future*".

The investment from the market renewal fund will be complemented by significant investment from other public programmes and the private sector. This will enable actions to be taken which will lead to the creation of long-term sustainable communities.

The allocation of resources to these schemes marks another key step in our commitment to deliver thriving sustainable communities in those areas devastated by low demand housing and abandonment.

I am announcing today that the South Yorkshire market renewal pathfinder will receive £71 million, that the East Lancashire market renewal pathfinder will receive £68 million and that Oldham and Rochdale market renewal pathfinder will receive £53.5 million until March 2006 to help to tackle the terrible problems caused by low demand. This is in addition to an allocation of £4 million each for an early action programme which they received in June 2003.

By March 2006 the pathfinders expect to deliver:

In South Yorkshire the demolition of over 1,600 homes; the refurbishment of over 2,000 homes; over 100 new homes built; significant improvements to housing environments affecting 21,000 homes; and additional management measures to over 16,000 homes.

In East Lancashire the demolition of almost 800 homes; the refurbishment of 1,100 homes; over 100 new homes built; significant improvements to housing environments affecting 43,000 homes; and additional management measures to over 73,000 homes.

In Oldham Rochdale the demolition of nearly 300 houses; the acquisition of over 400 homes; the refurbishment of over 350 homes; significant improvements to housing environments affecting over 3,000 homes; and additional management measures to over 11,000 homes.

Each of the pathfinder schemes has been independently scrutinised by the Audit Commission which has published a report on each scheme. The Audit Commission has looked at the evidence base and the proposed strategy to help ensure that the schemes are realistic, offer value for money and will deliver long-term housing market renewal. To meet this aim, the Audit Commission has made a number of recommendations about each scheme. The Office of the Deputy Prime Minister and each pathfinder have accepted all the recommendations and funding will depend on compliance.

TRADE AND INDUSTRY

Performance Targets 2004–05

The Parliamentary Under-Secretary of State for Trade and Industry (Mr. Gerry Sutcliffe): I have set Companies House the following targets for the year 2004–05:

A fully electronic operation

To achieve 15 per cent. take-up for electronic submission of documents by the end of 2004–05, 35 per cent. take-up by the end of 2005–06 and 55 per cent. take-up by the end of 2006–07.

Readily and freely accessible information

To ensure that products and services on Companies House Direct and WebCheck are available for 98 per cent. of the time between the core hours of 7 am and 8 pm, Monday to Friday.

To ensure that the web filing service is available to customers for a minimum 98 per cent. of the time between the core hours of 7 am and 8 pm, Monday to Friday.

An efficient reliable and up to date registry

To achieve, on average, a monthly compliance rate for accounts and annual returns submitted of 92 per cent.

To ensure that 96.5 per cent. of all forms submitted to Companies House are captured error-free.

To ensure that of 98 per cent. of images placed on the Companies House image system are legible.

To ensure that at least 99 per cent. of images to be placed on the image system are made available within three days.

To maintain a unit cost reduction of 3 per cent. in real terms on document registration

To achieve, taking one year with another, a 3.5 per cent. average rate of return based on the operating surplus expressed as a percentage of average net assets.

To pay all bills due within 30 days, or on other agreed credit terms, on receipt of goods or services or a valid invoice whichever is later.

Customers who are highly satisfied with our services

To resolve 97 per cent. of complaints within five days.

The Chief Executive to reply within 10 days to all letters from Members of Parliament delegated to her for reply.

To achieve a score of more than 82 per cent. in each quarterly Companies House customer satisfaction survey.

The Parliamentary Under-Secretary of State for Trade and Industry (Mr. Gerry Sutcliffe): I am pleased to announce that in the light of a strong performance by The Insolvency Service in 2003–04 I have been able to set it a series of challenging targets for 2004–05 and 2005–06 that reflect the general pressure on the public service to deliver increasing efficiency and value for money. Official Receivers and their staffs have a major role to play in delivering the personal insolvency reforms under the Enterprise Act 2002 which come into operation on 1 April 2004 and the new financial regime to which it moves on the same date will provide the flexibility it needs to respond to variations in caseloads within financial years and over longer periods. Under

this new financial regime the service is expected to generate sufficient income from fees and charges to defray the total cost of its case administration, estate banking and professional regulation activities. Improvement in its customer focus is reflected in high levels of customer satisfaction and I expect he service to build on this over the coming years. I have asked the chief executive to continue the development of a range of outcome-focused measures, particularly in the regulatory area. At the same time as ensuring that its enforcement action is proportionate and aligned to the policies that promote enterprise and the responsible use of credit, I have also asked the agency to pay particular attention to its role in ensuring high standards of commercial conduct.

The targets set out in the table below reflect the variety of the Service's operations.

It will reduce the cost of its policy work by 9 per cent. in 2004–05.

The Agency will reduce the average time for securing a disqualification from 24 months to 22 months.

It will reduce the 2004–05 cost of enforcement activity by 4 per cent.

It will establish a benchmark unit cost for enforcement activity during 2004–05 and then further reduce that cost by 25 per cent. by March 2006.

It will increase enforcement activity outputs by 41 per cent. in 2005–06 over the 2004–05 baseline.

It will action 90 per cent. of redundancy payment claims within six weeks and will increase the manpower productivity of processing such claims by 11 per cent. in 2004–05.

It will increase the percentage of user satisfaction as measured by the User Satisfaction Index from 86 per cent. to 88 per cent.

It will retain Charter Mark by Summer 2004 and will retain Investors in People accreditation in January 2006.

It will maintain the amount of open insolvency cases at no more than 12 months' input and by 1 April 2006 it will reduce the case administration fee from that prevailing at 1 April 2004 by 8.5 per cent. on a like for like basis.

It will action 100 per cent of invoices for payment within 30 days of receipt, and 97 per cent. within 20 days. It will also action 98 per cent. of Insolvency Service account payments within four days of their requisition.

Based on an expected reduction of 6.3 per cent. in 2003–04, it will further reduce the costs of the accommodation and procurement functions by 8 per cent. by April 2006.

British American Tobacco

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): In response to recommendations in a report dated 14 June 2000 on the tobacco industry and the health risks of smoking, which was published by the Health Select Committee, my predecessor launched an investigation under Section 447 of the Companies Act 1985 to look at allegations that British American Tobacco has been involved in smuggling.

The investigation has been completed. It has not uncovered material indicating a basis for launching a criminal investigation and the Department does not propose to take any further action.

Information obtained under section 447 of the Companies Act 1985 is confidential and may not be published or disclosed except in strictly defined circumstances under section 449 of the Companies Act 1985

TREASURY

Tax Avoidance

The Paymaster General (Dawn Primarolo): Legislation is to be included in the Finance Bill 2004 to prevent tax avoidance schemes which seek to work round the legislation announced on 10 February 2004. The new legislation will only apply to losses from a trade involving the exploitation of film, apart from a trade involving the production of a film or the acquisition of the master version of a film. It will not therefore affect partnerships which operate within the specific relief for qualifying films. For trading losses which arise in any of the first four years that a partner carries on a trade, relief for set-off against other income will be denied where a partner does not spend a significant amount of time in the partnership trade and is guaranteed to receive income from the partnership. The changes will have effect from today.

A copy of today's Inland Revenue news release giving the relevant background to this measure is being deposited in the Libraries of both Houses and is also accessible on the Inland Revenue website: http://www.inlandrevenue.gov.uk/.

Written Ministerial Statements

Monday 29 March 2004

DEPUTY PRIME MINISTER

Green Belt Statistics

The Minister for Housing and Planning (Keith Hill): In 2000, the Government published figures on the area of land designated as green belt in England, based on figures in plans that had been adopted by 1997. I am pleased to announce today the publication of statistics that show changes to the amount of green belt since then. In future, such figures will be published on an annual basis, and will be used to monitor the Government's target to maintain or increase the amount of green belt in each region.

The statistics show that since 1997 there has been an increase of around 25,000 hectares in the amount of green belt identified in adopted local and unitary development plans in England. In addition, there are proposals for an additional 12,000 hectares of green belt that are currently being taken forward in plans that have not yet reached adoption. This figure does not include changes to the green belt proposed in the New Forest, where land will be re-designated from green belt to national park once the national park has been formally designated. This comprises some 46,000 hectares of land in the area covered by New Forest district council. In view of this re-designation, the Government does not intend that these figures should be included in monitoring progress towards its target of maintaining or increasing the amount of green belt in each region.

Copies of the statistical release are available in the Libraries of both Houses.

High Hedges

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): We have today launched a public consultation on implementing Part 8 of the Antisocial Behaviour Act 2003 in England. This gives local authorities the powers to deal with complaints about high hedges that are having an adverse affect on a neighbour's amenity.

We are seeking views on draft regulations covering certain procedural details such as the fees that authorities should charge for this service and how appeals against their decisions should be dealt with. We are also seeking views on the draft guidance on how local authorities should administer the complaints system. This offers advice on how authorities should assess whether a hedge is having an adverse affect on a neighbour's amenity. Copies of the consultation paper and the draft guidance have been placed in the Libraries of both Houses.

The consultation papers have been sent to local authorities in England, specialist and other interested organisations. They have also been published on the Office of the Deputy Prime Minister's web site www.odpm.gov.uk. The closing date for responses is 30 June 2004.

This is another step towards tackling the misery that can be caused by high hedges and we are on course to have the system fully operational towards the end of this year.

TREASURY

Civil Registration Review

The Financial Secretary to the Treasury (Ruth Kelly): The House will wish to be aware of developments on the Government's plans for modernising civil registration.

On 10 July 2003 the Government published the consultation paper "*Civil Registration: Delivering Vital Change*". This set out our proposals to reform civil registration in England and Wales using powers in the Regulatory Reform Act 2001. The proposed changes will make it easier both for citizens to deal with Government at key points in their lives and in the lives of their families and for the Government to modernise this public service by exploiting improved information and communication technology. I am pleased to be able to tell the House that there were almost 3,400 responses to the consultation document. This indicates the very real interest amongst a wide range of stakeholders—registration practitioners and managers, the public and other interested organisations—in this area of reform.

Our intention was to introduce a regulatory reform order in this Session of Parliament. This remains the case in respect of provisions relating to registration of births and deaths and access to birth and death records. I have however decided to postpone the presentation of provisions relating to marriage till early in the next Session. The splitting of the proposals in this way will ensure that the momentum for reform is sustained whilst, at the same time, providing an opportunity for the second regulatory reform order to take account of Parliament's wishes on the civil partnership legislation.

This strategy will not hinder the Government's plans for implementation that will begin in 2005 with improved information technology to forward registration information to the Registrar General and the structural reform of the local registration service.

HOME DEPARTMENT

Government Co-operation Faith Communities

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): Today my right hon. Friend the Home Secretary and I launched "*Working Together—Co-operation between Government and Faith Communities*". The report is aimed at Government Departments and faith communities and includes recommendations on what each can do to engage more effectively in partnership working together.

The report is the result of a wide-ranging cross-Government review, led by the Home Office, involving Ministers, officials and senior faith community representatives working in partnership together. To ensure the report's recommendations are being acted on and progressed, review members will reconvene in a year to evaluate the impact of the review.

The report is entitled "*Working Together: Co-operation between Government and Faith Communities*". Copies have been placed in the Libraries of both Houses, and may be obtained from the Faith Communities Unit in my Department or through the Home Office website.

Special Branch

The Secretary of State for the Home Department (Mr. David Blunkett): Following a recommendation made by Her Majesty's Inspector of Constabulary in his report on special branch and ports policing in January 2003, I am today publishing redrafted guidelines for special branch work in the United Kingdom.

They have been redrafted in partnership with the Scottish Executive and the Northern Ireland Office. We have consulted fully with all interested parties, including the Association of Chief Police Officers, the National Co-ordinator of Special Branch, the National Co-ordinator of Ports Policing and the Security Service.

The new guidelines reflect that the current operational priority for special branch is counter terrorism work. They also detail the role roles and responsibilities of officers and the local, regional and national structure of special branch. They provide clarity on the work of special branch and make special branch duties more understandable and transparent.

Passport Service

The Minister for Citizenship and Immigration (Beverley Hughes): The United Kingdom Passport Service Corporate and Business plan for 2004–09 will be published tomorrow. Copies of the plan will be placed in the Library of the House.

DEFENCE

Bowman

The Minister of State, Ministry of Defence (Mr. Adam Ingram): On 19 July 2001, I informed the House that, after years of delay and forecast cost growth, we had selected a preferred supplier to take forward the BOWMAN programme. Although our approved in service date was December 2004, we set a demanding target to deliver by 30 March 2004. This target is just 30 months from the September 2001 contract awarded to General Dynamics United Kingdom Ltd, a challenge unprecedented on such a major and complex acquisition project. Our priority was to deliver a secure, reliable voice communications replacement for Clansman and I am pleased to report to the House that BOWMAN has achieved its in service date on this basis, ahead of the target. This achievement and the capability it provides will enable the programme to progress to its next key milestone, the delivery of war fighting capability in 2005.

Once fully implemented, BOWMAN will provide a secure tactical + voice and data communications system for our land forces and selected elements of the Royal Navy and Royal Air Force, until at least 2025. As well as being man-portable, it will be an integral part of the communications fit of major equipments such as warships, main battle tanks and helicopters. The provision of secure voice communications down to section level represents a step-change in capability for the armed forces as they migrate from Clansman to BOWMAN. Other functions which BOWMAN is designed to deliver, such as automatic position reporting and an ability to pass digital data around the battlefield have been demonstrated in principle on field trials and their development is on course.

At the end of 2002, nearly a year and a half into the BOWMAN contract, we extended it to further develop the battle management system and to enhance integration with systems and sensors on board our key armoured platforms—a programme known as CIP. A key advantage of aligning both programmes is that time and cost are saved through converting vehicles only once. There has been positive progress on CIP but the performance of the battle management system in recent field trials leads us to conclude that a few more months of work will be required to develop and fully demonstrate its effectiveness.

BOWMAN will provide a marked increase in operational tempo, firepower lethality and survivability across all our armed services and will be a key enabler for the UK's network-enabled capability. There is a widespread commitment to BOWMAN across the services and industry stakeholder community and it has already demonstrated greater military capability overall than Clansman. The first brigade converted to BOWMAN will undertake a further 15 months of unit and collective performance training, and as with the programme hitherto, the brigade will be closely involved in the development and proving of BOWMAN.

Achieving the BOWMAN in service date is an important step on the road to the ultimate goal, delivering a robust war fighting capability that fully meets the requirements of the user in service. It is a key milestone on the path to achieving war fighting operational readiness in 2005 and represents a huge success for smart acquisition as well as a big step forward for the British armed forces.

Nuclear Weapons (Safety Arrangements)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): In 1992, the then Chief Scientific Adviser to the Ministry of Defence, Sir Ronald Oxburgh, conducted a review of the safety of nuclear weapons. It was reported to Parliament House of Commons, 13 July 1992, *Official Report*, column 520, that he had recommended the inauguration of a safety "champion". A position entitled Nuclear Weapon Safety Adviser was subsequently created, and this has had two incumbents. More recently, further work has been done on safety management arrangements in the Department in general, and in the nuclear programmes in particular, to reflect policy and organisational developments. As a result, we have appointed a Nuclear Weapon Regulator to provide assurance about safety in the nuclear weapons programme. In so doing, it was recognised that the tasks of this official would be very similar to those of

the Nuclear Weapon Safety Adviser, and it was decided that, when the regulator was ready to conduct business, the safety adviser post should close. This has recently occurred.

Regional Prime Contract (South-West)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): Debut Services (South-West) Limited, a joint venture between Babcock International Group and Bovis Lend Lease, has been awarded the regional prime contract for the Ministry of Defence's estate in the south-west. This follows successful completion of the clarification phase.

The seven-year contract, worth in the order of £480 million, is the second in a series of five such arrangements covering the estate and will provide for capital works, property maintenance and facilities management services, throughout the south-west of England.

The MOD has undertaken to make significant improvements in the overall condition of its estate by changing its organisational structures and introducing prime contracting methods. Encouraging innovation and efficiency, Regional Prime Contracting is a key initiative that aims to provide a better quality of service and greater value for money through suitably incentivised contracts conforming to the principles of "Smart Acquisition".

WORK AND PENSIONS

Debt Management

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): I am today announcing that contracts have been signed with four private sector companies to provide debt collection services to the Department for Work and Pensions (DWP). The contractors are Commercial Collections Services, Eversheds, Legal and Trade Collections and the Lewis Group.

The contractors will provide support with two categories of debt: benefit debt and commercial debt. They will act as recovery agents, earning commission on amounts recovered and passed to DWP. The ownership of the debt will remain with DWP at all times.

The contracts will offer support to our existing debt management operations rather than replacing or outsourcing them. There will be no job reductions in DWP as a result of this announcement. So DWP will continue to handle negotiation and civil enforcement of debts in-house. The cases transferred will be those where DWP has been unsuccessful.

The contractors will adhere to strict contractual controls on their behaviour and DWP will put robust contract management processes in place to ensure compliance. Contractors will also have to adhere to the codes of conduct of their own supervising bodies (e.g. the Credit Services Association or the Law Society) and also the Office of Fair Trading (OFT).

Benefit debt includes overpaid benefits, where the overpayment is caused by customer error, and outstanding social fund loans. The debts transferred will be those where the debtor is not currently in receipt of a DWP benefit, they have refused to repay voluntarily and DWP has been unable to obtain full recovery. Each debtor will be given the opportunity to make an arrangement to repay their debt before their case is transferred to one of the contractors.

DWP has a number of categories of debts owed by commercial organisations including:

money owed by insurance companies by way of compensation for NHS costs following Road Traffic Accidents and repayment of Social Security benefits following compensation awards;

recoupment from employment tribunal awards—where employers are required to repay social security benefits paid to employees following, for example, unfair dismissal;

amount owed through contracts such as European social fund, training and general supplies.

As with benefit debt, the organisations owing money will be given the opportunity to make an arrangement to repay DWP before the case is transferred to the private sector for collection.

There are three main purposes to this exercise:

to reduce the debts outstanding to the Department;

to reinforce the message that debts have to be repaid, especially those that arose as a result of fraud;

to learn from the private sector and increase the efficiency and effectiveness of DWP's Debt Management organisation.

The contract will be for an initial two-year period to March 2006, with the possibility of extension. First cases will be transferred towards the end of April 2004 with each Contractor receiving an initial tranche of 50,000 cases. After this initial allocation there is no guarantee of additional cases being referred.

Business Plans

The Secretary of State for Work and Pensions (Mr. Andrew Smith): I am today able to announce the 2004–05 annual performance targets for three of the executive agencies of the Department for Work and Pensions: Jobcentre Plus, Child Support Agency and Appeals Service. The targets I have agreed are set out below.

Further information on the plans of each of the businesses in 2004–05 is contained in their individual business plans which have been published today. Copies have been placed in the Library.

Performance targets for The Pension Service, Disability and Carers Service and The Rent Service, responsibility for which transfers to my Department from 1 April 2004, will be announced in due course.

In line with the Department's Public Service Agreement, I will also be publishing unit cost targets that will be set to ensure that Jobcentre Plus, Child Support Agency and The Pension Service continue to deliver business efficiently.

Jobcentre Plus:

Helping people into work[1]: to achieve a total points score of 7,295,100 based on job entry outcomes.

Tackling fraud and error: by March 2005 to reduce losses from fraud and error in working age Income Support and Jobseeker's Allowance to no more than 6.0 per cent. of the monetary value of these benefits paid during the year.

Helping employers fill their vacancies: to ensure that at least 84 per cent. of employers placing their vacancies with Jobcentre Plus will have a positive outcome.

Business Delivery[2]: to ensure processes are delivered efficiently, accurately and to specified standards in 89.6 per cent. of cases checked.

Serving our customers well: to achieve an 81 per cent. customer service level in the delivery of the standards set out in the Jobcentre Plus Customer and Employer Charters.

Child Support Agency:

All targets refer to new scheme cases.

Case compliance: by 31 March 2005 to be collecting child maintenance and/or arrears from 78 per cent. of all cases with a maintenance liability using the collection service.

Cash compliance: by 31 March 2005 to be collecting 75 per cent. of child maintenance and/or arrears due to be paid through the collection service.

Cash and case collection: to develop for introduction from 1 April 2005 individual targets for case and cash compliance to measure the collection of current maintenance separately from the collection of arrears.

Accuracy: by 31 March 2005 accuracy on the last decision made for all maintenance calculations checked in the year to be correct to the nearest penny in at least 90 per cent. of cases.

Customer perception: to develop and introduce a client perception target by October 2004.

Debt: to develop and introduce a debt reduction target by October 2004.

Appeals Service:

The average waiting time for an appeal to be heard will be no more than 11 weeks from the time of receipt by the Appeals Service[3]

The number of cases over 20 weeks old as at 1 April 2004 will be reduced by at least 15 per cent. by 31 March 2005.

For cases returned by the Commissioner, the average waiting time for an appeal to be re-heard will be no more than eight weeks from the date of return to the Appeals Service[4].

Notes

1. This target is measured by a points score system which focuses efforts and resources on helping into work people in priority groups such as lone parents, disabled people and those in the most disadvantaged areas. For each person that Jobcentre Plus places in work it will earn a point score ranging from 12 points for, for example, a lone parent, to one point for someone who is already employed.

2. This target measures standards of delivery of five key Jobcentre Plus business processes: Income Support accuracy, Jobseeker's Allowance accuracy, Incapacity Benefit accuracy, Labour Market Interventions, and attendance at an independent assessment to identify basic skills needs.

3. Excludes stayed cases awaiting decision in lead cases in a higher court (the effective date will commence from withdrawal of stay being notified).

4. Excludes cases requiring further evidence.

Social Fund

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): I am pleased to announce that the gross discretionary social fund budget for 2004–05 will be £689 million. This includes a further increase in net treasury funding of £10 million, which is additional to last year's extra £20 million. This means that net funding is now £30 million higher than in 2002–03, and is the second of three annual increases from a £90 million boost for the discretionary social fund announced in the autumn 2002 pre-budget report.

After careful consideration, we have decided to allocate all the extra net funding to community care grant needs. We have therefore increased the community care grant (CCG) budget by £10 million. This is a further significant increase that will help the most vulnerable. It has been distributed so that every district benefits by an increase in their CCG budget and districts move closer to meeting the same proportion of demand nationally.

The gross loans budget for 2004–05 will be £560 million, which represents an increase of £2 million over the April 2003 allocation. The increase is owing to higher loan recoveries and setting a lower contingency reserve than 2003–04. To maintain fairness within the scheme, the loans budget will continue to be allocated to districts to support consistency of outcome for applicants wherever they live.

The sum of £1 million will be retained centrally as a contingency reserve, which, for example will provide additional help to districts facing unexpected and unplanned expenditure.

Details of individual district budget allocations have been placed in the Library.

The discretionary social fund budget is cash limited. Budgets are allocated to districts on 1 April each year.

The gross discretionary SF budget allocated for 2004–05 is £689 million made up of:

New money (AME)	£168.2 million
Forecast loan recovery	£520.8 million

This was allocated as follows:

Loans	£560 million
Grants	£128 million
Contingency reserve	£1 million

If the forecast for loan recoveries proves to be an underestimate, any additional recoveries can be allocated to districts during the year.

The contingency reserve is held centrally and allocations made from it reimburse districts for expenditure resulting from a local accident or disaster (eg, flooding).

Since April 1997, the gross discretionary social fund budget has increased by £221.5 million from £467.5 million to £689 million, an increase of more than 47 per cent.

Since April 1997, the community care grant budget has increased by £31 million from £97 million to £128 million, an increase of nearly 32 per cent.

My right hon. Friend the Secretary of State will be making a number of minor changes to the discretionary social fund, with effect from 5 April 2004. The changes to the fund are minor clarifications of guidance and directions, and, in the main, are consequential to legislative changes being made in respect of other social security benefits.

Details of the changes have been placed in the Library.

FOREIGN AND COMMONWEALTH AFFAIRS

Falklands Islands

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): On 15 and 16 March 2004 the Argentine naval Icebreaker, Almirante Irizar sailed through the Falklands outer conservation zone and the Falklands interim conservation zone. These are areas for which the Falkland Islands Government issues fishing licences. During the time that it was inside these zones, the Argentine vessel was challenging other vessels to identify themselves. While transit of the conservation zones is permissible, the policing of the zones by a foreign vessel contravenes the Falkland Islands exclusive jurisdiction.

We asked the Argentine Government for an explanation of the vessel's actions. Their response was not satisfactory. We have therefore made a formal protest to the Argentine Government concerning the actions of the Almirante Irizar, underlining the need to ensure that this type of incident does not happen again. This note also reiterated that HMG has no doubts about UK sovereignty over the Falkland Islands.

I have spoken to Falkland Island councillors about this incident. I share their concerns and I have briefed them on our response. I assured them of our continued firm support.

Written Ministerial Statements

Tuesday 30 March 2004

HEALTH

NHS Charges

The Minister of State, Department of Health (Ms Rosie Winterton): We have laid before the House regulations to increase the income level at which people are entitled to full remission of national health service charges, payment of travel costs, national health service sight tests and optical vouchers, that is full help through the national health service low-income scheme. Currently, people are entitled to full help through this scheme when their income is equal to, or less than, their requirements. From 6 April 2004, people will be entitled to full help if their income exceeds their requirements by up to 50 per cent. of the prescription charge. This will mean that people whose income is only marginally above income support level will now be entitled to full help.

Entitlement to income-based help with health costs in Scotland, Wales and Northern Ireland are a matter for the devolved administrations.

Arm's Length Bodies

The Secretary of State for Health (Dr. John Reid): Two new regulatory bodies, which will operate at arm's length from the Department, come into being on 1 April: the Commission for Healthcare Audit and Inspection (CHAI) and the Commission for Social Care Inspection (CSCI). A third regulatory Body, the Office of the Independent Regulator (OIR) came into being in January this year. The inception of these new bodies will change the Department's role in the provision and inspection of healthcare and social services. The effects that this will have on accountability arrangements are set out below.

The role of the OIR is to authorise, monitor and regulate National Health Service foundation trusts (NHSFTs). The Independent Regulator is directly accountable to Parliament, and the Department will not be able to comment on the details of the OIR's day to day management. For any questions that might arise in this area, we would provide information on the Independent Regulator's behalf, but not directly.

NHSFTs are themselves independent of the Department, and are directly accountable to their local populations and to Parliament. Because of this independent status, and NHSFTs' separate and local route of accountability, we will no longer be in a position to comment on, or provide information about, the detail of operational management within such trusts. Any such questions will be referred to the relevant NHSFT chairman.

Notwithstanding these changes, matters of national policy (including the statutory framework for the NHS, and its resources, standards and targets) will of course remain the responsibility of the Department. We will therefore continue to respond directly on these issues. We will also continue to respond directly on the services commissioned by the NHS locally, as these remain the responsibility of primary care trusts.

As with the OIR, CHAI and CSCI are independent of the Department. We will therefore provide information to Members on behalf of these bodies about their activities, but not directly. Two areas of their operations warrant particular notice. The Department has traditionally had much a closer involvement in the (performance) star ratings system. From 1 April, it will be CHAI's and CSCI's responsibility to devise the form of performance ratings, and their criteria and methodology. The Department will approve the criteria devised.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Service Charges

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): The Department has carried out a review of the basis for charging for a number of plant health, plant varieties and animal health services that it provides. Invoicing for the services concerned was suspended whilst the review was completed.

The review focused on whether the legislative basis for making charges for these services was adequate. The conclusion is that for the following services the legislative basis was not sufficient to allow the Department to impose a charge:

Plant Health

Export certificates for plants and plant products

Seed potatoes: approved stock scheme

Seed potatoes: fees for inspection of pre-basic seed potatoes

Seed potatoes: fees for investigation of complaints

Plant Varieties and Seeds

Provisional seed certification scheme

Seed samplers' and crop inspectors' examinations

Examination of seed analysts

Additional costs of meeting statutory consent conditions for GM crop varieties in national list trials

OECD /ISTA certification

Purity and germination tests

Special tests for distinctness, uniformity and stability

Animal Health

Certain aspects of the Poultry Health Scheme

Factory Inspection Scheme

Additional animal health certification issued in connection with the Classical Swine Fever outbreak in 2000.

A parallel review of Forestry Commission services has found that the legislative base for export charges of forest trees and forest products was not sufficient to impose a charge. Invoicing for this service was also suspended whilst the review was completed.

Action will now be taken to repay to customers some £2.4 million of charges that were levied over the six years prior to the suspension of charging. To take this forward, the Department and the Forestry Commission will be writing over the coming weeks to those organisations and individuals who are to be repaid.

Where required, work is underway to introduce the necessary legislation for future charging for the services affected.

The review concluded that the necessary legal base was in place to allow charging for plant health propagation scheme services provided by the Department. Charging for this service will recommence from this coming season.

TRANSPORT

Highways Agency

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): The Highways Agency's 2004–05 business plan is published today and contains seven key targets for the Agency to deliver by 31 March 2005. These are:

Indicator	*2004–05 Target*
1. Deliver the programme of improvements to the strategic road network.	Achieve: — At least 440 progress points for the M1, M6 and M25 schemes, compared to 2003–04 forecast score of 250. — At least 95 per cent. of the major schemes progress points required to reach the score of 6,500 compared to the 2003–04 forecast score of 4,590. — Complete 20 of 26 priority action sites at junctions.
2. Deliver a demonstrable reduction in incident-related congestion and minimisation of road works-related congestion.	In establishing the Regional Control Centres (RCCs), achieve: — West Midlands RCC and traffic officers commence service. Achieve 92 of 100 points. — 140 of 155 progress points for all other RCCs and traffic officers. Establish and implement a management system to monitor and report on incident-related congestion in the West Midlands.
3. Make information available to influence travel behaviour and inform decisions.	— Make publicly available by March 2005—and maintain thereafter—traffic information for the Agency's network through a website and a dedicated voice recognition interactive telephone service. — Provide by March 2005—and maintain thereafter—on the Agency's motorway network, strategic route advice using the variable message signs (VMS) available, for all incidents causing more than 15 minutes predicted delay, and monitor its accuracy.
4. Deliver the Agency's agreed proportion of the national target. By 2010 reduce by a third (i.e. to 3,327) the number of people killed/seriously injured on trunk roads compared with the 1994–98 average of 4,991.	Reduce by at least 832 to 4,159.
5. Maintain the network in a safe and serviceable condition.	Achieve a road surface condition index score of 100 ± 1
6. Mitigate the potentially adverse impact of strategic roads and take opportunities to enhance the environment taking into account value for money.	Achieve at least 95 per cent. across the five sub targets: — Air Quality: Improve quality of at least two air quality management areas (AQMA) sites. — Biodiversity: Achieve at least 5 per cent. of the Agency's Biodiversity Action Plan extending across 15 priority targets. — Landscape: Introduce no less than four planning schemes. — Noise: Treat at least 50 lane km of concrete road surface with lower noise surfacing. — Water: Treat at least five outfalls identified as posing a pollution risk to watercourses.
7. Deliver a high level of road user satisfaction.	Achieve from the road user satisfaction survey an average annual score of at least 85 per cent. for motorways and at least 80 per cent. for trunk roads.

Explanatory notes against each of these indicators are provided in the business plan, copies of which have been placed in the Libraries of both Houses.

NORTHERN IRELAND

Maghaberry Prison

The Secretary of State for Northern Ireland (Mr. Paul Murphy): I wish to announce that with effect from 31 March 2004, in accordance with the powers conferred on me by Rule 5(1) of the Prisons and Young Offenders Centre Rules (Northern Ireland) 1995, part of Maghaberry prison site, formerly the site of Maze prison, is removed from within the boundaries of Maghaberry prison. The area to be removed is indicated on the site map, which I have today placed in the Libraries of both Houses, by the words

"area to be removed from the site of Maghaberry prison".

Health and Safety Executive for Northern Ireland

The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Ian Pearson): The Health and Safety Executive for Northern Ireland Annual Report and statement of accounts for 2002–03 has been deposited in the Library of the House today.

DEFENCE

Business Process Review of Defence Housing

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): I announced in July 2003 that the Ministry of Defence was conducting a business process review of the management and delivery of Defence housing, 2 July 2003, *Official Report*, column 20WS. The Review has been completed and I have placed a copy of the final report in the Library of the House.

This work has been part of a coordinated approach to the future direction of defence housing. It supports detailed work to improve accommodation through the defence housing strategy that, as set out in the Defence White Paper: "Supporting Essays", will direct the future provision of housing for service personnel and their families worldwide. It also takes forward work from earlier internal and cross-departmental studies. The Review has focused primarily on delivery and management of Defence housing in mainland UK, but it includes recommendations on our living accommodation overseas that might be considered in the future.

The main conclusions were that some improvement could be made to the processes involved with the management and delivery of Defence housing. It was also recognised that we could benefit from the synergies within Defence Estates (DE) and the Defence Housing Executive (DHE). A number of recommendations have been made to improve the efficiency and effectiveness of the processes and organisations involved in delivery of Defence housing, the most significant of which are:

DHE and DE will merge from 1 April 2004. Initially DHE will be absorbed into DE as a self-contained business unit but over time Head Office processes will be merged.

The Chief Executive of DE will become responsible for the delivery of Defence housing in mainland UK.

To protect the interests of Service personnel and their families a dedicated housing customer care function will be maintained within DE with suitable governance arrangements.

Initiatives to improve customer care, particularly the housing prime contract for England and Wales, will continue.

WORK AND PENSIONS

Household Statistics

The Secretary of State for Work and Pensions (Mr. Andrew Smith): Today I have published households below average income for 1994–95 to 2002–03. This is a report published under national statistics arrangements with headline results that cover Great Britain. Copies have been placed in the Library.

The report shows that there has been strong growth across the whole income distribution, and comparing incomes between 1996–97 and 2002–03, the poorest fifth of households have kept up with the strong income growth of middle-income households.

Steady progress has been made towards the Government's target to reduce by a quarter the number of children living in low-income households by 2004–05.

Some 700,000 fewer children are living in relative low income compared to 1996–97.

There has been a more dramatic reduction in children in "absolute" low income and this has now halved since 1996–97, equating to 2.1 million fewer children growing up with their opportunities undermined by acute financial hardship.

For pensioners below the same fixed threshold, the decline has been around two-thirds, from 2.7 million in 1996–97 to fewer than 1 million in 2002–03, meaning enhanced dignity and security for 1.8 million people during their retirement.

Employers' Liability Compulsory Insurance

The Minister for Work (Mr. Desmond Browne): In a written statement on 4 December 2003, I announced the publication of the Department's second stage and final report of the review of ELCI.

The report described the work that had been undertaken since June 2003, identified the further actions we intended to take and set these in the context of a strategic approach aimed at improving the efficiency, sustainability and outcomes of the ELCI system.

A number of initiatives have been put in place to improve the functioning of the ELCI market. In addition we are working immediately to help business by a range of actions.

I am pleased to announce the publication today of a partial regulatory impact assessment on a proposal to remove the requirement for ELCI from limited companies that employ only their owner (incorporated owners/sole employees). It is estimated that there are about 300,000 such companies.

The partial assessment seeks the views of employers (in particular incorporated owners/sole traders) and insurers and their representative bodies and other stakeholders (e.g. employees, lawyers) and their representatives on the proposal. The views of the wider public are also welcome.

Copies of the partial assessment have been placed in the Library.

We will continue to take forward the initiatives and long-term proposals in the second stage report. We believe that they will continue to deliver significant, sustained improvements within the ELCI market.

Business Plan

The Secretary of State for Work and Pensions (Mr. Andrew Smith): I am today able to announce the 2004–05 annual performance targets for the rent service, responsibility for which transfers to my Department from 1 April 2004, and the disability and carers service. The targets I have agreed are set out below.

Further information on the plans of the businesses in 2004–05 is contained in their individual business plans that have been published today. Copies have been placed in the Library.

The Rent Service

Service Delivery

To process 87 per cent. of housing benefit determinations, with an inspection, within 15 working days.

To process 87 per cent. of housing benefit determinations, without an inspection, within 3 working days.

To process 87 per cent. of pre-tenancy determinations within 4 working days.

To process 87 per cent. of redeterminations within 15 working days.

To process 87 per cent. of fair rent determinations within 40 working days.

Value for Money

Productivity: To increase productivity by 1 per cent. by the end of the year compared to last year.

Costs: To reduce the cost per case by 1 per cent. in real terms by the end of the year.

Quality: 87 per cent. of local reference rent housing benefit determinations to be upheld on redetermination.

Quality: 87 per cent. of fair rent valuations to be upheld by judicial review.

Customer Satisfaction

To raise the customer satisfaction rating, of satisfactory or better, from 87 per cent. in 2003–04 to 90 per cent. in 2004–05.

Disability and Carers Service

Business Event	*Targets for 2004–05*
Decision Making Quality: DLA	90 per cent
Decision Making Quality: AA	90 per cent
Accuracy: CA	95 per cent
Claims—Normal Rules: DLA	39 days
Claims—Normal Rules: AA	24 days
Claims: CA	24 days
Claims—Special Rules: DLA	8 days
Claims—Special Rules: AA	8 days
Renewal claims: DLA	32 days
Renewal claims: AA	23 days
Appeals: DLA	40 days
Appeals: AA	40 days
Appeals: CA	38 days

Note:
DLA – Disability living allowance
AA – Attendance allowance
CA – Carer's allowance

Written Ministerial Statements

Wednesday 31 March 2004

HEALTH

NHS Purchasing and Supply Agency

The Minister of State, Department of Health (Mr. John Hutton): We are publishing today the NHS Purchasing and Supply Agency's annual business plan. Copies have been placed in the Library.

The business plan highlights the agency's achievements in 2003–04 and sets out the key tasks and targets for the coming year.

This comprehensive plan has been formulated within the context of the agency's ongoing remit to lead the modernisation of the NHS purchasing and supply function. The agency has a strategic role to set out a major development agenda for purchasing and supply in the NHS and working with the commercial directorate has developed a co-ordinated implementation plan for doing so. The business plan sets out clearly how the agency will achieve these aims.

Medicines and Healthcare Products Regulatory Agency

The Minister of State, Department of Health (Ms Rosie Winterton): The 2004–05 business plan for the Medicines And Healthcare Products Regulatory Agency has today been presented to Parliament. The plan contains the agency's key targets for the year.

Copies of the plan have been placed in the Library.

NHS Foundation Trusts

The Secretary of State for Health (Dr. John Reid): The Chairman of the Independent Regulator of NHS foundation trusts has today announced that, in accordance with section 6 of the Health and Social Care (Community Health and Standards) Act 2003, the Independent Regulator has authorised the following NHS trusts as NHS foundation trusts from 1 April 2004:

Basildon and Thurrock University Hospitals NHS Trust

Bradford Teaching Hospitals NHS Trust

Countess of Chester Hospital NHS Trust

Doncaster and Bassetlaw Hospitals NHS Trust

Homerton University Hospital NHS Trust

Moorfields Eye Hospital NHS Trust

Peterborough Hospitals NHS Trust

Royal Devon and Exeter NHS Trust

The Royal Marsden NHS Trust

Stockport NHS Trust

Decisions on the remaining 15 applications that I have approved will be made at a later date.

HOME DEPARTMENT

Immigration Rules

The Minister for Citizenship and Immigration (Beverley Hughes): Today I am making changes to the immigration rules that enable participants on the sectors based scheme (SBS) to extend their leave in the UK to those people whose original permit was for less than the maximum period of 12 months. Permits can be issued for a maximum of 12 months, but in many cases they are shorter. One of the key aspects of the SBS is that participants who have been granted leave for less than one year, and whom the employer wants to retain, can extend their leave, in country, for the remainder of the 12 months that the initial leave did not cover. As hon. Members already know, from 1 April there will also be a new charge of £121 for those who wish to extend their leave under the sectors based scheme. This charge may be picked up by the employer.

This procedure has been operating administratively since the launch of the scheme, and the changes to the immigration rules will simply put extensions of stay on SBS on a firmer footing within the rules.

Prisoner Suicide Prevention Strategy

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): The Home Secretary and I are determined to reduce the incidence of suicide within prisons. These tragic deaths devastate families and deeply distress both prisoners and staff. We are also committed to tackling the related but separate issues that arise from self-harm.

The ministerial roundtable on suicides, which I chair, includes representatives from the Prison Reform Trust, the Howard League for Penal Reform, Samaritans and Inquest; from HM Inspectorate of Prisons, the Independent Monitoring Boards and the Prisons and Probation Ombudsman; from the Prison Service, the National Probation Service and the Department of Health; and from prisoners themselves. The roundtable brings together a wide range of expertise that has helped to influence and support the current suicide prevention strategy launched in 2001. More recently, it has helped with the development of a strategy for the longer term and I am grateful for its important contributions.

I pay tribute to the relentless efforts of staff to save lives. Last year staff resuscitated over 211 prisoners who had made serious attempts at self-harm. In 87 of 138 prisons there were no self-inflicted deaths in 2003–04. The suicide rate (per 100,000 of average prisoner population) is 9 per cent lower than it was in 1999–2000, and the three-year rolling rate has stabilised at about 128 per 100,000.

Sadly, there are large numbers of people in prison with characteristics that contribute to a risk of suicide. These include problems with mental health, drugs and drink, troubled relationships and social exclusion, as well as a previous history of self-harm and suicidal thoughts or attempts. Identifying and caring for these prisoners is very challenging work, not least as they represent over half the prison population. It is important to note, however, that prisoners have similar rates of suicide to offenders in the community.

Central to the suicide prevention strategy that I am announcing today is the need to reduce the level of distress in prison and promote the well being of all staff and prisoners. This applies both to public and privately contracted prisons. We intend to build on current good practice and continue with the commitment of the Prison Service to treat prisoners with decency and dignity. This approach has strong support from Roundtable members and from other external organisations.

This approach forms part of the Government's national strategy for reducing suicides in the community, and is being developed in partnership with the Department of Health, which is increasingly responsible for improving health care standards in prisons. This includes the provision of mental health services as well as substance abuse interventions and maintenance programmes.

The approach is evidence based. The final evaluation of the safer local prisons programme is due in the summer. Emerging findings from the research undertaken by Dr. Alison Liebling of the Cambridge Institute of Criminology indicate that levels of distress in a prison correlate closely with suicide rates. The revised strategy will therefore concentrate on measures likely to reduce distress and promote the well-being of prisoners and staff. We will build on our existing programme which includes work on resettlement, drugs detoxification and continuing care and support, staff care and welfare, healthcare, purposeful activity, staff and managementoutlook, leadership and training.

Alongside our plans to improve the quality of prison life for both prisoners and staff, we will also target additional support for the most vulnerable. Research findings underline the importance and effectiveness of a number of specific measures. These include the appointment of suicide prevention co-ordinators in prisons; the development of in-reach mental health provision and day care centres; good case reviews; and appropriate first night centre and induction procedures.

Our strategy will include specific interventions to identify those most at risk. In January five establishments began to pilot a new assessment procedure that will be reviewed later in 2004. We will continue to put in place safer cells and other changes to the physical environment in order to minimise impulsive acts of self-harm and suicide.

This developing strategy will link existing programmes and planned investment in five broad areas of work across the Prison Service and Department of Health. These are:

Regime, activities and care planning for all prisoners;

Improved knowledge and outlooks of all staff at all levels;

Meeting the special needs of the most vulnerable prisoners;

Training and support for staff;

Design solutions to minimise impulsive acts.

The integration with the health agenda is crucial. Mental health in-reach to selected prisons and new triage-based, reception health screening arrangements have been linked to the suicide prevention strategy. Between now and March 2006 NHS mental health in-reach investment is expected to double to £20 million with in-reach services available in every prison. All local prisons are implementing the new screening system during 2004.

I attach great importance to the contribution that can be made to preventing suicides by learning from what has gone wrong in the past. From 1 April the Government have decided to transfer responsibility for investigating deaths in jails, probation hostels and Immigration and Nationality Directorate detention centres to the Prisons and Probation Ombudsman. Learning from deaths, and consistently applying those lessons, will be an important strand of the developed strategy.

The strategy that I have outlined above will continue to develop and expand. The National Offender Management Service, which becomes operative in June, will provide a focus on offender management and a wider organisational framework that will boost the work in prisons and facilitate its eventual expansion into offender management in the community.

NORTHERN IRELAND

Independent Commissioner for Detained Terrorist Suspects

The Minister of State, Northern Ireland Office (Jane Kennedy): I have today arranged for copies of Dr. Bill Norris's annual report for 2003 to be placed in the Libraries of both Houses.

I welcome Dr Norris's report and I will consider it carefully. I will respond as soon as possible.

FOREIGN AND COMMONWEALTH AFFAIRS

Iraq Survey Group

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): Charles Duelfer, the special adviser to the Director of Central Intelligence for Strategy regarding Iraqi weapons of mass destruction programs, presented a further report to US Congressional Oversight Committees on 30 March 2004. As with the previous report presented on 2 October 2003, this is a status report on work in progress. I have arranged for a copy of the unclassified text to be placed in the Library of the House.

Great Chagos Bank

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): The Great Chagos Bank, which lies within the waters adjacent to the outer islands of the British Indian Ocean Territory (BIOT), is an exceptional example of a submerged coral atoll, providing a valuable contribution to the marine ecology of the Indian Ocean. On 17 September 2003, in order to help to conserve the natural resources of the bank, the Commissioner for

BIOT proclaimed an area including the Great Chagos Bank to be an Environmental (Preservation and protection) Zone. A copy of the proclamation, together with the relevant chart and co-ordinates, has been deposited with the UN under Article 75 of UNCLOS, and will be published in the Law of the Sea Bulletin No. 54.

Guantanamo Bay Detainees

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): A team of FCO officials, RAF personnel, British police officers and independent observers visited Guantanamo Bay between 8 and 9 March 2004.

The purpose of the visit was to return five British detainees to the UK; and to check on the welfare of the four British detainees who remain there and to explain their position to them. The camp authorities were co-operative and helpful during the visit.

An FCO official, accompanied by a police officer, informed the five British detainees on 8 March that they would be returned to the UK. Their return took place the following day, 9 March.

An FCO official also met the other four British detainees individually. A US official observed the meetings. The FCO official delivered mail for the detainees personally and brought messages back to their families. Detainees are able to send and receive mail through the camp authorities and the ICRC. Delivery remains irregular. We are considering with the US Government ways for them to improve the mail arrangements.

The FCO official asked all the British detainees about their health, diet, accommodation, opportunities for exercise and other camp facilities.

The British detainees appeared to be in satisfactory physical health but are increasingly frustrated by their continued detention. Individual welfare issues are being pursued by British officials with the US Government.

The FCO official informed the four British detainees that:

> following discussions between the British and US Governments, five other British detainees were to be returned to the UK;
>
> discussions between the two Governments on their own future continued.

The FCO official also informed Mr Abbasi and Mr Begg, both of whom have been designated by the US authorities as eligible for trial by Military Commission, that:

> if they were to be tried, the British Government has told the US Government that the trial should be fair;
>
> the two Governments continued to explore this and other possible courses of action.

The legal proceedings against Mr Abbasi and Mr Begg were suspended in July 2003 pending discussions between the British and US. The British Government's position remains that the British detainees should either be tried in accordance with international standards or they should be returned to the UK. The British Government continues to work to resolve their position.

DEFENCE

International Security Assistance Force

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Since the inception of the International Security Assistance Force (ISAF) in December 2001, the United Kingdom has been a key contributor: we have maintained a continuous presence in Kabul where our troops have once again established a high reputation. That useful work has been complemented by our provincial reconstruction team (PRT) in Mazar-e Sharif, currently operating under the command of the coalition across the five provinces of Balkh, Faryab, Jowzjan, Samangan and Sar-e Pol. No-one should doubt the United Kingdom's commitment to Afghanistan.

The United Nations Security Council resolution 1510 authorized ISAF to expand beyond Kabul and offered the opportunity to start to bring the ISAF and the PRTs together. Since December 2003, NATO has operated its own PRT in the north-eastern city of Konduz as part of ISAF. Building on that experience, and that of coalition PRTs, NATO's detailed operational planning to expand the ISAF across Afghanistan is nearing completion. In view of the parliamentary recess I believe the House would wish to be informed of developments that are likely to occur shortly.

Within this planning, and in conjunction with our international partners, we have offered to NATO to lead the expansion process in the north of the country, where we already have a significant presence through our own PRT. As part of our expanded commitment, and once NATO has agreed its operational plan we shall lead a second multinational PRT that we intend to establish in the Northern city of Meymaneh. Again, in co-operation with our international partners, we shall establish and maintain facilities to support PRTs across the North of Afghanistan. Finally, we plan to transfer command of the PRT in Mazar-e Sharif from the coalition to the ISAF.

This will require some increase in the number of British troops routinely deployed in Afghanistan, although until negotiations with our international partners are complete I am not in a position to indicate what the precise total will be, but I will keep the House informed as this develops. I can confirm, however, that this commitment, which will utilise forces allocated to but not deployed forward in Afghanistan and some other enabling elements in the initial stages, is sustainable.

The expansion of the ISAF will be a major challenge. The United Kingdom, in line with our determination to help the Afghan people rebuild their country, is resolved to play its full part in meeting that challenge. By leading expansion in the north we shall do so in a sustainable and effective manner to the long-term benefit of Afghanistan and her people.

Chemical Protection Programme

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The UK's chemical protection programme is designed to protect against the use of chemical weapons. Such a programme is permitted by the chemical weapons convention, with which the United Kingdom is fully compliant. Under the terms of the convention, we

are required to provide information annually to the Organisation for the Prohibition of Chemical Weapons (OPCW). In accordance with the Government's commitment to openness, I am placing in the House of Commons Library a copy of the summary that has been provided to the organisation outlining the UK's chemical protection programme for 2004.

NATO Response Forces

The Minister of State, Ministry of Defence (Mr. Adam Ingram): From mid-July 2004, the United Kingdom's routine Destroyer or Frigate (DD/FF) contribution to the standing element of the NATO Response Force (NRF) will be a single ship. This replaces our previous commitment of two—one to Standing Force Atlantic and one to the Standing Force Mediterranean. We have also given greater priority to enduring additional commitments in the Arabian Gulf.

When, from July 2004 until June 2005, the UK fulfils the role of High Readiness Force Commander (Maritime), we will provide a broad range of maritime capability to the NRF. When this duty passes to another nation, UK will revert to our routine commitment of 1 DD/FF.

TREASURY

"Review of Statistics for Economic Policy Making"

The Chancellor of the Exchequer (Mr. Gordon Brown): Christopher Allsopp's final report "The Review of Statistics for Economic Policy Making" is published today. Copies are available in the Vote Office and the Library of the House.

Written Ministerial Statements

Thursday 1 April 2004

TRANSPORT

Road Safety Strategy

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): The Government's road safety strategy *"Tomorrow's roads—safer for everyone"* published in March 2000 included a commitment to evaluate every three years progress on delivery of the strategy and towards meeting the 2010 casuaity reduction targets.

The first three-year review has been conducted by the Department, in consultation with the Road Safety Advisory Panel, which includes many of the key stakeholders both within and outside Government. I intend to publish the outcome of the review on 7 April 2004 to coincide with World Health Day 2004, the theme of which is the global road safety challenge. Copies of the review report will be placed in the Library of the House.

Maritime and Coastguard Agency

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): I am pleased to announce the Ministerial Targets for the Maritime and Coastguard Agency for 2004–05. I will place in the House Library, shortly, a copy of the Agency's Business Plan and Forward Look, which includes its Ministerial targets for 2004–05. The Ministerial targets are:

In at least 96 per cent. of incidents, within 5 minutes of being alerted, take a decision on the appropriate search and rescue response and initiate action if necessary;

Deliver at least 97 per cent. of planned ship inspections, and ensure that 95 per cent. of mandatory expanded ship inspections are carried out;

Approve ship security plans and undertake verifications of all applicable UK registered cargo ships;

Establish a baseline for seafarer satisfaction levels;

Develop a robust statistical base and design a system, which will allow the Agency to measure accurately the impact of its incident prevention activity;

Ensure that no more than 3 per cent. of UK ships inspected under the Paris Memorandum of Understanding (MOU) arrangements are detained, and also ensure that the UK Shipping Register maintains a position on the Paris MOU White List which is comparable to registers of a similar size and reputation.

HOME DEPARTMENT

Independent Police Complaints Commission

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): I am pleased to announce the launch of the Independent Police Complaints Commission, which has now replaced the Police Complaints Authority. It will operate under the powers and duties provided to it by the Police Reform Act 2002. Under the Chairmanship of Nick Hardwick, it is responsible for the effective and efficient running of the police complaints system.

The IPCC has its headquarters in London, and also has a regional presence in Manchester, Leicester, and Cardiff.

As guardian of the complaints system, the IPCC alongside the police service and others will undertake a vital role in maintaining public confidence in the integrity and accountability of the police service.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Local Authority Fees 2004–05

The Minister for the Environment (Mr. Elliot Morley): Charges to cover the costs of local enforcing authorities in regulating processes which are subject to Part I of the Environmental Protection Act 1990 (Local Air Pollution Control (LAPC)) were introduced in April 1991. Interim charges for installations which are subject to the Pollution Prevention and Control Act 1999 (Local Air Pollution Prevention and Control (LAPPC) and Local Authority—Integrated Pollution Prevention and Control (LA-IPPC)) were introduced in August 2000.

With the approval of the Treasury to the extent required, and following consultation with local authority associations and industry, myself with my right hon. Friend, the Minister for Sustainable Food and Farming have made revised schemes in respect of the Environmental Protection Act England and Wales and in respect of the Pollution Prevention and Control Act. The schemes specify the scale of fees and charges to take effect from 1 April 2004.

There will be a 2.75 per cent. increase to the LAPC, LAPPC and the LA-IPPC fees and charges schemes for 2004–05. One of the factors taken into account was the take-up of cost accounting by local authorities which, when fully adopted, should provide the evidence of the adequacy or otherwise of current charging levels. According to my Department's statistics, 66 per cent. of local authorities had adopted cost accounting practices for LAPC by 31 March 2003, compared with 51 per cent. by the same date in 2002. A further 19 per cent. had said they intended to introduce cost accounting by the end of 2003–04, while the remaining 15 per cent. have no stated plans to do so.

There will also be an additional fee spread over the 18,000 regulated activities, amounting to approximately £2/3 per standard activity. This is required to cover the £40,000 necessary to recover the costs of the Environment Agency's technical unit which provides guidance notes for use by local authorities and operators and is funded under the scheme.

The schemes will be laid before both Houses and copies placed in the Libraries.

Farm Animal Welfare Report

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): In June 2003, the Farm Animal Welfare Council (FAWC) published its report and recommendations on the welfare of farmed animals at

slaughter. It was a valuable and comprehensive report and I am grateful to the council for the work they put into it.

The report contains 94 recommendations for improvements in the welfare of animals at the time of slaughter or killing and the Government are prepared to accept, or partially accept, the majority of them. But the Government also accept that FAWC's recommendation to ban the slaughter of animals without prior stunning on welfare grounds has been contentious for the Jewish and Muslim communities.

The Government also recognise that such a ban would be likely to result in kosher and halal meat being imported with no overall improvement in animal welfare. We also think that there is a strong possibility that a legal challenge to a ban on slaughter without prior stunning would succeed on the grounds that the practice is protected under the Human Rights Act 1998 and the European Convention on Human Rights.

While the Government therefore propose to reject the FAWC recommendation to ban slaughter without prior stunning, we recommend that cattle slaughtered by having their throats cut should receive an immediate post-cut stun because of the time it takes cattle to lose consciousness This should be progressed on a voluntary basis.

In addition to the issues identified by FAWC, the consultation provides an ideal opportunity for a debate on whether meat from animals slaughtered without prior stunning for the kosher and halal markets should be labelled voluntarily. Some meat that has been slaughtered without the animal previously being stunned finds its way onto the ordinary meat market. At present, such meat is not required to be labelled to indicate the method of slaughter.

We are today issuing our response to the FAWC report for consultation on all aspects including those identified in this statement.

CONSTITUTIONAL AFFAIRS

Land Registry

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy): My right hon. Friend, the Secretary of State and Lord Chancellor has today set the following key performance targets for Her Majesty's Land Registry for 2004–05.

HER MAJESTY'S LAND REGISTRY KEY PERFORMANCE INDICATORS AND TARGETS 2004–05*

KPI Target	*2003–04*	*KPI Achievement (@ 6/2/04)*	*2004–05*
Customer Service—Speed			
Percentage of office copy and official search applications processed within two working days.	98%	100%	98%
Percentage of all registrations processed within 20 working days.	80%	88%	80%
Accuracy			
Percentage of registrations processed free of any error.	98.5%	98.8%	98.5%
Overall Satisfaction			
Percentage of customers who, overall, are very satisfied/satisfied with the full range of services provided by Land Registry.	Better than 94	98.7%	Better than 95
Financial			
Percentage return on average capital employed.	6%	6%	3.5%
Efficiency			
Cost per unit in:			
cash terms	£29.08	£27.23	£28.98
(real terms)	(£22.17)	(£20.55)	(£21.43)

Critical Action Points

2003–04	*Outcome @ 6/2/2004*
Start pilot implementation for e-Discharges.	Achieved.
Make all key Land Registry information services available over the Internet.	Title Plans not yet available online.
Implement the Land Registration Act 2002.	Achieved.
Report to Ministers on proposals for e-conveyancing service and procurement strategy	Submission forwarded on 27 February 2004.
2004–05	
Customer Service: Enable printing of authenticated results of Official Searches and Copies in a customer's office.	
Land Registration: Carry out consultation on a standard form of lease.	
Electronic Service Delivery: Start the pilot for processing e-lodgement of forms.	
Make Land Registry data available to the EULIS demonstrator.	

DEFENCE

Reservists (Former Yugoslavia)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): A new call-out order has been made under Section 56 of the Reserve Forces Act 1996 so that reservists may continue to be called-out into permanent service to support military operations in the former Yugoslavia. The order will take effect from 1 April 2004.

At present, some 300 Reservists are serving in the former Yugoslavia. They are providing a wide range of individual skills as well as a composite signals squadron. We do not expect to have to mobilise any Reservists compulsorily for this particular deployment and we are most grateful for their continuing support to an important stabilisation operation.

Veterans Agency

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The key targets that have been set for the Chief Executive of the Veterans Agency (VA) for the financial year 2004–05 are as follows:

Service

Key Target 1: To issue decisions on claims to war pensions in an average of no more than 63 working days. This represents a cumulative improvement of 38 per cent. against our 2000–01 baseline level of 100 working days.

Key Target 2: To issue decisions on war widows claims in an average of no more than 25 working days. This represents a cumulative improvement of 31 per cent. against our 2000–01 baseline level of 36 working days.

Key Target 3: To achieve an externally validated claims accuracy rate of at least 97 per cent.

Key Target 4: To achieve an externally validated medical adjudication accuracy rate of at least 95 per cent.

Valuing our people

Key Target 5: To undergo a successful, externally managed IiP re-assessment exercise by June 2004.

Working in Partnership

Key Target 6: To work with the Department for Constitutional Affairs' Court Service to reduce the average time it takes an appeal to pass through the war pensions appeals process. By 31 March 2005 the average time should reduce to no more than 240 working days. This is an improvement of 10 working days on our 2003–04 target; and it represents a cumulative improvement of 57 per cent. against our 2000–01 baseline level of 565 working days.

Efficiency

Key Target 7: To use the Agency output costing methodology developed in 2002–03 to help identify and generate such administrative efficiencies and other savings as will enable the Agency to achieve a 3 per cent. reduction in 2004–05 against its 2003–04 final out-turn figure.

Deepcut (Surrey Police)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): On 4 March 2004 the Chief Constable of the Surrey Police published his final report following the completion of the investigation into the deaths of Privates Sean Benton, Cheryl James, Geoff Gray and James Collinson at Princess Royal Barracks, Deepcut between 1995 and 2002. At the Chief Constable's request placed copies of the report in the Libraries of both Houses on the same day.

In conducting background research for their report Surrey Police drew considerably on information provided by the Army. I recognise the interest of right hon. and hon. members in these cases placed and I am today arranging for a number of documents mentioned specifically in the report to be in the Library of the House shortly.

These documents have, where appropriate, been expurgated to remove security sensitive material and references to third parties.

We continue to give the Chief Constable's recommendations careful consideration. I expect to a further announcement after the Easter recess.

HEALTH

Clinical Trials Directive

The Minister of State, Department of Health (Ms Rosie Winterton): We are today laying before Parliament the Medicines for Human Use (Clinical Trials) Regulations 2004, which will implement into United Kingdom law directive 2001/20 of the European Parliament and of the Council of 4 April 2001 on the approximation of the laws, regulations and administrative provisions of the member states relating to the implementation of good clinical practice in the conduct of clinical trials on medicinal products for human use. The regulations will come into force on 1 May 2004, the date by which member states are required to implement the directive.

These regulations will ensure that the rights, safety and well-being of clinical trial subjects are protected by requiring sponsors of trials to be responsible for designing, conducting, recording and reporting clinical trials according to principles of good clinical practice derived from the principles set out in the amended 1964 Declaration of Helsinki. In addition, the regulations will further protect public health by ensuring that the results of clinical trials are collected, recorded and analysed in accordance with internationally recognised principles so that they can be audited and verified before being used to impact on public health, for example through a publication that changes medical prescribing practice or as evidence to support applications to place medicines on the market.

The Regulations will provide a statutory basis for:

standardisation of procedures for ethical and competent authority consideration and authorisation;

good clinical practice (GCP) standards for commencing and conducting clinical trials;

good manufacturing practice (GMP) standards for medicines used in clinical trials; and

inspections against internationally accepted principles and standards of GCP and GMP, supported by enforcement powers.

The Medicines and Healthcare products Regulatory Agency (MHRA) and the Department of Health will be publishing guidance on the new procedures which the regulations will implement from 1 May 2004. This will cover applications for clinical trial authorisations, inspections, ethics committee applications, informed consent for incapacitated adults and sponsorship of clinical trials.

The Government have undertaken extensive consultation with stakeholders in both the pharmaceutical industry and the non-commercial clinical trials sector on how to implement the Directive. Where possible, concerns expressed by the non-commercial sector, in particular, about the possible regulatory burden have been taken into account in the UK Regulations. Furthermore, the MHRA and Department of Health have been working with stakeholders to help them comply with the practical requirements of the regulations. The Government believe that the regulations achieve a proper balance by safeguarding the rights of patients involved in clinical trials while avoiding a disproportionate impact on those who carry out clinical trials.

WORK AND PENSIONS

Pathways to Work

The Secretary of State for Work and Pensions (Mr. Andrew Smith): The Department of Work and Pensions laid before the house on 18 November 2002 a consultation document entitled: "Pathways to Work—Helping People into Employment", (Cm 5690). This outlined a range of proposals to provide more effective support to people with health conditions and disabled people. The Pathways to Work are at the leading edge of international best practice on the help and support that is on offer for people whose job prospects are affected by a health condition or disability. In a recent economic survey by the OECD, Pathways to Work has been described as a "radically new approach to dealing with those on incapacity benefits".

On 27 October, I announced the launch of the first three pilots—Bridgend and Rhondda Cynon Taf; Renfrewshire, Inverclyde, Argyll & Bute; and Derbyshire. I know there has been considerable interest in these groundbreaking reforms and I wish to update colleagues on progress in the first three pilots.

To date, the specially trained personal advisers we have put in place have carried out over 3,000 Work Focused Interviews with promising results. Many customers are, as we believed; keen to actively consider a return to work and positive about the help on offer. They are keen to participate in the NDDP Programmes and NHS Condition Management Programmes. By mid-March, well over 400 customers had been referred to NDDP Programmes and in the first few weeks of operation, around 130 people had been referred to Condition Management Programmes. The Return to Work Credit of £40 a week is also proving a popular incentive, with approximately 700 awards made, helping incapacity benefits recipients make that final step back into work. Furthermore, there are over 700 longer-term recipients who have volunteered to work with an adviser to try and find a job. These figures are drawn from management reports and are provisional—validated statistics are expected to be available from May. With over 700 people helped back to work and off benefits, these pilots are already changing many people's lives. One such example is from Tonypandy, where a client who had been claiming Incapacity Benefit since 1978 due to a back problem and depression, with the support from her Personal Adviser, and help from Return to Work Credit, Adviser Discretion Fund, Tax Credits and New Deal 50+, started work as a Production Operator after 25 years on benefits.

On 5 June, I announced the locations of the final four pilots—East Lancashire, Essex, Gateshead & South Tyneside and Somerset.

My Department, together with the Department of Health have been preparing for the implementation of these pilots.

In the Budget we also announced the expansion of the specialist Personal Adviser service to more actively support some longer-term IB recipients. We will also be introducing a new financial incentive to support customers as they undertake return to work activity.

Today, I am pleased to announce that these pilots will be launched on 5 April.

The pilots are to run until 2006 and the impact of the extra support will be fully evaluated before decisions are made about extending the measures.

DEPUTY PRIME MINISTER

Arm's Length Management Organisations

The Minister for Housing and Planning (Keith Hill): I am today confirming funding of £473.4 million for 2004–05 and 2005–06 for the eight Arm's Length Management Organisations (ALMOs) set up under Round 1 of the ALMO programme. The ALMOs in Ashfield, Derby, Hounslow, Kirklees, Rochdale, Stockton-on-Tees, Westminster and Wigan have made excellent progress. Tenants are benefiting from improvements to their homes and an enhanced housing management service. All the Round 1 ALMOs have achieved ratings of at least two stars from the Housing Inspectorate, with three (Ashfield, Derby and Westminster) achieving three stars.

Following a detailed assessment of the ALMOs' costs and their other sources of income, and taking account of the need to maximise efficiency, I have approved the allocations for 2004–06 shown in the table below. This will keep the ALMOs on track to achieve the decent homes target.

Round 1 ALMO	*Number of tenanted units (2001)*	*ALMO allocation 2002–04*	*ALMO allocation 2004–06*
Ashfield	8,288	£24.0m	£22.1m
Derby	15,424	£31.1m	£66.0m
Hounslow	14,801	£35.0m	£64.7m
Kirklees	28,269	£62.5m	£87.3m
Rochdale	17,227	£24.2m	£82.1m
Stockton	14,060	£44.5m	£18.5m
Westminster	13,500	£20.3m	£53.7m
Wigan	26,446	£58.3m	£79.0m
TOTAL	137,619	£299.9m	£473.4m

TREASURY

EU Enlargement (Tobacco Products)

The Economic Secretary to the Treasury (John Healey): I am today laying regulations confirming the introduction of quantitative restrictions on travellers bringing tobacco products from those new EU member states taking advantage of a derogation allowing them to delay meeting minimum duty levels on certain tobacco products.

The restrictions will apply from 1 May to the following:

cigarettes bought duty-paid in the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia;

manufactured tobacco products[1] bought duty-paid in the Czech Republic; and

smoking tobacco[2] bought duty-paid in Estonia.

Where new member states take advantage of the derogation, existing member states are entitled to maintain the same restrictions on the import of cigarettes and some other tobacco products bought in those countries for a traveller's own use, as are currently applied to travellers arriving from third countries, including the new member states.

The Excise Duty Points (Etc.)(New Member States) Regulations 2004, the Customs and Excise Duties (Travellers' Allowances and Personal Reliefs) Order 2004 and the Channel Tunnel (Alcoholic Liquor and Tobacco Products)(Amendment) Order 2004 allow the UK to maintain these restrictions.

After Accession on May 1, travellers to the UK bringing in tobacco products from the countries covered by the regulations will be restricted, as they are currently, to a limit of 200 cigarettes, or, in the case of Estonia, to a limit of 200 cigarettes or 250 grams of smoking tobacco; or, in the case of the Czech Republic, to a limit of 200 cigarettes or 50 cigars or 100 cigarillos or 250 grams of smoking tobacco.

While the EU minimum duty rates are not met, uncertainties over the impact of EU Enlargement on excise smuggling and cross-border shopping are also heightened.

The Government will therefore review both the operational and principled justification for retention of quantitive restrictions after 12 months in light of developments in smuggling and shopping patterns, and in light of progress made by the new member states to comply with the minimum duty levels.

Customs and Excise has plans in place to explain the restrictions to the travel industry and general public.

[1] Manufactured tobacco products includes cigars, cigarillos and smoking tobacco.

[2] Smoking tobacco is hand rolling tobacco (HRT) and pipe tobacco.

FOREIGN AND COMMONWEALTH AFFAIRS

Cyprus

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): I would like to inform the House of developments in relation to Cyprus.

Following the breakdown of settlement negotiations in The Hague in March 2003, the UN Secretary-General made a report to the Security Council. In this report Kofi Annan announced that his proposal for a comprehensive Cyprus settlement (the Annan Plan) remained on the table. However, he added that he did not propose to take any further initiatives unless and until such time as he was given solid reason to believe that the Necessary political will existed for a successful outcome.

The Secretary-General went on to say that he believed it would be a great step Backward if the plan were simply to wither away. He believed that a solution on the basis of the plan could be achieved only if there was an unequivocally stated preparedness on the part of the leaders of both sides, fully and determinedly backed at the highest level in both motherlands, to commit themselves *(a)* to finalise the plan (without reopening its basic principles or essential trade-offs) by a specific date with United Nations assistance, and *(b)* to put it to separate simultaneous referendums as provided for in the plan on a date certain soon hereafter.

The United Kingdom shared this approach and continued to work with its EU and US partners in support of UN efforts to keep the plan on the table and to encourage the parties to Remonstrate the necessary political will to re-engage.

The elections in north Cyprus on 14 December 2003 marked a turning point. The Turkish Cypriots voiced their resounding support for the pro-settlement, pro-EU parties and in doing so gave popular expression to a growing desire from the Turkish Cypriot community to work for an early settlement of the Cyprus problem in order to allow a reunited Cyprus to join the EU on 1 May 2004. Encouraged by the attitude of the Turkish Cypriots and aware of the potential positive impact a Cyprus settlement would have on its own EU aspirations, the JVKP government in Ankara led by Prime Minister Erdogan signalled its own willingness to tje-engage and work constructively for a settlement.

The parties (the Greek and Turkish Cypriots, Greece and Turkey) were therefore invited to New York by the Secretary-General on 4 February 2004 in order to resume negotiations towards a settlement on the basis of the Annan Plan. On 13 February, following an initial round of discussions, the Secretary-General announced that the parties had agreed to resume talks on the basis of the Annan Plan and had committed themselves to a three phase process leading to a finalised plan being submitted to simultaneous, separate referendums on 24 April

The 13 February agreement was a landmark achievement. The parties had committed themselves to a strict timetable and a negotiation process which led inexorably towards simultaneous referendums on a pre-determined date on the basis of a settlement plan which, absent agreement between the parties (including, in the final stage, Greece and Turkey) would be finalised by the Secretary-General himself. Negotiations between the two sides resumed in Cyprus on 19 February. In parallel to the main political level negotiations between the leaders of the two communities, technical committees started to work through the whole range of laws and administrative texts and practical arrangements necessary to give effect to the new state of affairs.

During this phase of the negotiations, our High Commissioner in Nicosia informed the UN that the UK's earlier offer to the UN of giving up roughly half of the territory of the Sovereign Base Areas in Cyprus remained valid, subject to some small changes in the map. The land to be ceded to the United Cyprus Republic would not in any way compromise the operational capabilities of the bases themselves. The UN confirmed that the UK's offer would be very

valuable in taking forward the adjustments to the territory of the two new constituent states. The UK's offer has been incorporated in the UN's map for the new Cyprus.

On 24 March, the negotiations moved to Buergenstock, Switzerland, where the UN and the parties were joined by Greece and Turkey in a final push for a negotiated settlement agreed between the parties themselves. The UK attended in its capacity as a Guarantor Power in order to assist the efforts of the UN Secretary-General's Good Offices Mission. The European Commissioner for Enlargement, Gunter Verheugen, also attended for the final days.

On 29 March the Secretary-General presented the parties with a revised plan. This revision was produced following extensive consultation and aimed to strike a balanced compromise, building on the earlier version of the Annan Plan which had been presented to the parties in February 2003, and taking subsequent developments and both sides' views carefully into account. Following a further final round of meetings between the Secretary-General, the parties and Greece and Turkey, Kofi Annan called the parties together late on 31 March. Announcing that the time for negotiation and consultation was over, and that the time for decision and action had arrived, the Secretary-General presented the parties and the Guarantor Powers (Greece, Turkey and the United Kingdom) with his finalised plan—Annan IV—for a comprehensive settlement of the Cyprus problem.

In his remarks, Kofi Annan said that the Plan was inevitably a compromise. It did not satisfy everyone's demands. But he believed that it met the core interests, and addressed the key concerns, of people on both sides. He added that the choice was not between the Plan and some other mythical solution. In reality, the choice was between the settlement on offer or no settlement at all. The Government shares this view.

No one is under any illusion about what remains to be done. No one is saying that reunification will be easy. But the plan is balanced and fair, and offers all Cypriots the chance of a better future as citizens of a United Cyprus Republic within the European Union. The Government believes strongly that this is a chance that must not be squandered.

The final decision will now be taken by the Cypriots themselves in separate, simultaneous referendums to be held on 24 April.

Written Answers to Questions

Monday 15 March 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Community Transport Fund (Essex)

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many passenger journeys were delivered in a typical month for each of the Community Transport Fund's projects in Essex [160105]

Alun Michael: The purpose of these projects is to test out a variety of approaches to improving access to transport in rural areas. Passenger journeys per month from the four schemes able to provide information are as follows:

Family Support Clacton—average 200 passenger journeys per month

Chelmsford Dial A Ride—average 209 passenger journeys per month

Family Support Brightlingsea—average 460 passenger journeys per month

Epping Forest CVS Project—average of 470 passenger journeys per month.

The other projects are a mixture of research work, driver and volunteer recruitment and lift sharing schemes, or have not yet made any passenger journey figures available to the Countryside Agency.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what options are open to *(a)* Essex County Council and *(b)* Castle Point Borough Council for the provision of community and welfare transport for (i) disabled and (ii) elderly people in Castle Point when the current funding scheme expires in April 2005. [160106]

Alun Michael: Following changes to the regulations which will be complete by 1 April 2004, local authorities will be able to support the full range of community and other transport schemes for the disabled and elderly from their own resources, for example, revenue support grant, rural bus subsidy grants and Local Transport Plan funding.

The Countryside Agency's Rural Transport Partnership scheme has proved very successful in showing what can be achieved through local engagement. In the short space of three years it has raised the profile of rural transport issues and shown how much can be achieved by taking an innovative and flexible approach. We look to local authorities to build on this from their mainstream resources.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many bids under the Community Transport Fund in Essex have been *(a)* granted and *(b)* rejected; and if she will make a statement. [160107]

Alun Michael: The Rural Transport Partnership grant scheme is run by the Countryside Agency on behalf of Defra. In Essex 10 bids were awarded grants and one bid was rejected between April 2001 to February 2004.

Unsurfaced Roads

Mr. Laxton: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions she has had with Her Majesty's Royal Engineers on the maintenance of unsurfaced roads when drafting the consultation paper Use of Mechanically Propelled Vehicles on Rights of Way; and what plans she has to do so during the consultation; [159714]

(2) on what basis her Department decided to reduce the time for the classification of highways to one year; [159715]

(3) how much the Highways Agency has spent on the maintenance of unsurfaced byways *(a)* in 2003–04 and *(b)* over the last decade; [159716]

(4) how much recreational traffic on unsurfaced roads has changed in the last decade; [159717]

(5) what *(a)* evidence her Department has collated and *(b)* investigations it has carried out, on (i) the level of motorcycle use of unsealed roads and (ii) the extent of the damage this has caused; [159718]

(6) whether her Department examined the Hierarchy of Trail Routes in the Lake District National Park and how the scheme could apply to the maintenance of unsurfaced roads when drafting the consultation paper Use of Mechanically Propelled Vehicles on Rights of Way. [159719]

Alun Michael: As set out in the recent consultation paper "The use of mechanically propelled vehicles on rights of way," I consider it inappropriate and unsustainable that historic evidence of use by horse-drawn vehicles or dedications for vehicular use at a time before the internal combustion engine existed can give rise to rights to use modern mechanically propelled vehicles. I have proposed that this should no longer be the case, but that a period of one year might be allowed for the recording of byways open to all traffic based on such evidence. I will consider carefully the responses to these proposals.

As explained in the consultation paper, we intend to revise the advice andguidance on managing the different sorts of traffic on vehicular rights of way in the publication "Making the Best of Byways (1997)". In doing so, we will examine the Hierarchy of Trail Routes in the Lake District National Park and how a similar approach might improve the management of unsurfaced roads elsewhere. We will also look at various techniques for maintaining unsurfaced roads, including those used by Her Majesty's Royal Engineers, which have been applied with some success on the Ridgeway National Trail. The consultation paper invites views on any other ways in which "Making the Best of Byways" might be revised.

Local highway authorities are responsible for maintaining rights of way, not the Highways Agency. Information on how much these authorities have spent on the maintenance of unsurfaced byways could only be obtained at disproportionate cost.

We are currently conducting a year-long study of a representative sample of byways open to all traffic, to collect evidence of the level of use of these ways by mechanically propelled vehicles and their surface condition. What is important and what we want to establish, is not how much the volume of traffic has changed, but what it is now and whether it is sustainable.

Batteries

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of used batteries was recycled in the UK in 2003. [159097]

Mr. Morley *[holding answer 9 March 2004]:* Latest figures (2002) show that 87 per cent. of automotive lead acid batteries in the UK were sent for recycling. The UK has one recycling plant for automotive lead acid batteries. Around 1 per cent. of portable batteries collected in UK are sent to France for recycling.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department is working to ensure that the UK fulfils its obligation under EU law to recycle 45 per cent.of batteries each year. [159098]

Mr. Morley *[holding answer 9 March 2004]:* Proposals for a new Batteries Directive have only recently been seen and are yet to be negotiated in Europe. As a result, there is currently no EU law that stipulates a target for the collection of batteries. The proposals outline targets for collection of portable batteries of 160 grams per inhabitant per annum. For the UK, this equates to around 45 per cent. of batteries put on the market.

At present, the UK is collecting less than 1 per cent. of household batteries. In anticipation of a collection target, both Defra and the DTI are in talks with those stakeholders affected by the proposal and are looking at ways to secure early participation. This will enable the UK to successfully meet a target for collection within a given timeframe. In addition, both Departments are fully involved in discussions with the European Commission and the European Parliament, to ensure that targets for the collection and recycling of household batteries are challenging but achievable.

GM Crops

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what provision she has made to ensure that Chardon LL maize will not be added to the National Seed List before arrangements have been made to restrict herbicide use on this crop in accordance with the advice of the Advisory Committee on Releases to the Environment and English Nature. [160226]

Mr. Bradshaw *[holding answer 9 March 2004]:* I refer the hon. Member to the statement made to the House by my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs on Tuesday 9 March 2004.

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs whether Chardon LL fodder maize has a greater value for cultivation and use than the conventional varieties from which it was bred. [160571]

Mr. Morley: The value for cultivation and use of Chardon LL has not been compared with that of its parental lines or the equivalent non-GM variety. The criterion for addition to the UK National List is that it should, taking its qualities as a whole, represent a clear improvement compared with other forage maize varieties already on the UK List. Chardon has been assessed on this basis and found to meet the performance standards set to indicate a clear improvement.

Nappies

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department is working with the *(a)* Department of Trade and Industry and *(b)* retail industry in order to promote the stocking of cotton nappies in order to give parents the choice of types. [159095]

Mr. Morley *[holding answer 9 March 2004]:* It is for individual retailers to decide on the products that they stock.

I believe there is a wide range of re-usable nappies available both from local suppliers and through the internet. National retailers also stock re-usable nappies.

Non-departmental Public Bodies

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff were employed in *(a)* her Department and *(b)* each of the non-departmental public bodies for which her Department is responsible in each of the last 10 years. [160589]

Alun Michael: Defra was created on 8 June 2001 so I can only respond in respect of the period since that date. The figures given refer to that period.

(a) The number of permanent staff in the core department and each Agency is set out in the following table:

	October 2001	*April 2002*	*April 2003*
Defra	7,970	6,980	6,690
Centre for Environment, Fisheries and Aquaculture Science	480	500	530
Central Science Laboratory	580	610	650
Pesticides Safety Directorate	190	180	170
Rural Payments Agency[1]	—	2,940	2,870
Veterinary Laboratories Agency	1,160	1,230	1,290
Veterinary Medicines Directorate	110	120	120
Intervention Board Executive Agency	1,080	—	—
Total	11,570	12,560	12,320

[1] The Rural Payments Agency (RPA) was created on 16 October 2001, and took over the functions and staff of the IBEA on 15 November 2001.

(b) Defra currently has responsibility for 18 executive non-departmental public bodies, 32 advisory bodies, 4 tribunals and 2 public corporations. The following table shows the number of staff employed in the public corporations and executive NDPBs; the advisory and tribunal NDPBs do not employ their own staff.

	2001	*2002*	*2003*
Public corporations			
British Waterways Board	1,929	1,929	2,063
Covent Garden Market Authority	39	39	40
Executive NDPBs			
Agricultural Wages Board for England and Wales	0	0	0
Agricultural Wages Committees for England and Wales	0	0	0
Apple and Pear Research Council[1]	0.5	1	—
British Potato Council	62	63	63
Countryside Agency	509.15	631.5	625.4
English Nature	783.5	825	1,030
Environment Agency	10,476	10,595	10,595
Food from Britain	26	26	26
Home-Grown Cereals Authority	43.5	47.3	50
Horticultural Development Council	15	13.5	12
Horticulture Research International	567	502.5	484
Joint Nature Conservation Committee	82	100	101
Meat and Livestock Commission	678	666	666
Milk Development Council	9	14	14
National Forest Company	15.5	17	17
Regional Flood Defence Committees	0	0	0
Royal Botanic Gardens Kew	551	601	601
Sea Fish Industry Authority	147	145	145
United Kingdom Register of Organic Food Standards[2]	7	7	7
Wine Standards Board	10.5	10.5	10.5
Total	15,951	16,233	16,550

[1] Wound up 31 March 2003.
[2] Wound up 18 July 2003.

SOLICITOR-GENERAL

Anti-Social Behaviour Orders

Mrs. Curtis-Thomas: To ask the Solicitor-General how many prosecutions have been brought by the Crown Prosecution Service for breach of an anti-social behaviour order in each of the last five years. [159689]

The Solicitor-General: Information on anti-social behaviour orders is collated by the Home Office, and is available for the period from June 2000 to December 2002. During this period, 329 persons were prosecuted for breach of an anti-social behaviour order, 305 of whom were found guilty.

Law Officers' Advice

Llew Smith: To ask the Solicitor-General for what reasons it is Government policy never to make public legal advice prepared by the Attorney-General for Ministers. [158111]

The Solicitor-General: There is a long-standing convention, adhered to by successive governments, and reflected in paragraph 24 of the Ministerial Code, that neither the fact that the Law Officers have advised on a particular matter, nor the substance of any advice they may have given is publicly disclosed. As I explained to the hon. Member in my reply to him of 26 March 2003, *Official Report*, column 236W, the purpose of the convention is to enable the Government to obtain frank and full legal advice in confidence. This is in the public interest so that governments take full and frank legal advice and act in accordance with the rule of law.

Discontinued Prosecutions

Mr. Battle: To ask the Solicitor-General how many cases brought before the Crown Prosecution Service by the police were dropped and not proceeded with, and for what reasons, in each year since 1997; and if she will make a statement. [159506]

The Solicitor-General: The relevant figures are summarised in the following two tables.

Table 1 shows the number of cases not proceeded with in the magistrates' courts. These comprise both cases discontinued by the Crown Prosecution Service and those written off because the defendant could not be traced by the police, had died or been found unfit to plead. Table 1 also shows the number of cases in which a prosecution proceeded and was completed in the magistrates' courts. These comprise cases in which the defendant: was convicted after trial; convicted after a guilty plea; or convicted in their absence. It also consists of cases dismissed by the magistrates after a full trial or a submission of no case to answer; or cases discharged during the course of a committal hearing.

The table also shows the number and proportion of cases resulting in a conviction and the number and proportion resulting in an unsuccessful outcome. Unsuccessful outcomes comprise cases which did not proceed, and those cases which did proceed but which resulted in a dismissal or discharge.

Table 2 shows the number of cases not proceeded with in the crown court. These comprise cases dropped by the Crown Prosecution Service before a jury was sworn and written off because the defendant could not be traced by the police, had died, or been found unfit to plead.

Table 2 also shows the number of cases in which a prosecution proceeded. These comprise cases in which the defendant was convicted after trial or guilty plea; and cases which resulted in an acquittal by the jury, or on the judge's direction.

Table 2 also shows the number and proportion of cases resulting in a conviction at the crown court and those cases which resulted in an unsuccessful outcome, including cases that did not proceed and those which resulted in an acquittal.

The Crown Prosecution Service holds no historical records showing why cases did not proceed: the information is held on individual case files, and could be retrieved only by examining every relevant file in each Crown Prosecution Service office.

The decision whether to proceed with a case is taken in accordance with the criteria set out in the Code for Crown Prosecutors. The code states that a case should only start or continue if there is sufficient evidence to provide a realistic prospect of conviction and, if there is sufficient evidence, where it is in the public interest to proceed. Where there is sufficient evidence, a prosecution will usually take place unless public interest considerations against prosecution clearly outweigh those in favour. The code is applied in every case. Where the criteria are not met, then the decision to discontinue is in the interests of justice.

Together with its criminal justice partners, the Crown Prosecution Service is subject to a Public Service Agreement target of increasing the number of offences for which an offender is brought to justice. The service, therefore, seeks to reduce both cases which do not proceed and those which result in an unsuccessful outcome.

A number of initiatives contribute towards this aim. The Crown Prosecution Service has re-structured its front line operations by establishing co-located units in which prosecutors and caseworkers work in partnership with the police to prepare and strengthen cases, focusing resources on more serious cases and providing better support to victims and witnesses. In addition, the service is implementing the recommendations of Sir Robin Auld that they should assume responsibility for determining charges from the outset of the case. The implementation of the Compass Case Management system will provide the Crown Prosecution Service with better information on the progress and outcome of proceedings, allowing managers to identify areas of excellence and areas in which performance requires remedial action. Over time this will include information about the reasons underlying case failures.

Table 1: Cases dropped and cases proceeded with: magistrates' courts

	1997		1998		1999		2000

Katharine Gun

Llew Smith: To ask the Solicitor-General for what reasons the prosecution against Katharine Gun, in respect of alleged actions she took while employed at GCHQ, was dropped by the Crown Prosecution Service. [157497]

The Solicitor-General: I would refer my hon. Friend to my statement of 26 February 2004, *Official Report*, columns 426–29.

WALES

Business Output

Mr. Martyn Jones: To ask the Secretary of State for Wales what the level of Welsh business output was for each month of 2003. [157665]

Mr. Touhig: Information on business output is published quarterly.

The latest available figures for 2003 are as follows:

	Figures
QTR 1	92.4
QTR 2	92.3
QTR 3	90.1

Source:
From the Index of Production and Construction. Jointly produced by Statistical Directorate National Assembly for Wales and the ONS.

Ministerial Speeches

Keith Vaz: To ask the Secretary of State for Wales how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156106]

Mr. Hain: I have made some 20 speeches during the period in question. These include keynote speeches to the Institute of Welsh Affairs[1], Cardiff Business Club, Wales Industry Forum, Alstom UK Annual Dinner, the Italian Ambassadors luncheon and the State of the Nations[1] lecture for the Constitution Unit.

In addition I have spoken at a number of events such as IPPR breakfast, International Eisteddfod, Salvation Army presentation, British Telecom Broadband presentation and most recently at reception for Japanese business people.

[1] These speeches are on the Wales Office website—www.walesoffice.gov.uk/report.html

TRANSPORT

Computerised MOT Tests

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answers of 8 March 2004, *Official Report*, columns 1237–38W, on computerised MOT tests, what benefits were expected prior to tendering, of computerisation of the MOT test; and if he will make a statement on the disadvantages consequent on late delivery of the ordered system. [161497]

Mr. Jamieson: The main benefits of computerising MOT testing are expected to be:

Improved road safety and environmental protection by raising testing standards and enabling increased motorists' compliance with annual testing requirements.

Increased consumer protection by improving the consistency of testing, reducing unnecessary MOT test failures and related repairs.

Reduced crime and fraud by preventing fraudulent or unauthorised issue of test certificates and eliminating forgeries.

Modernised and more efficient administration of the scheme through networking communications enabling real time access to testing information and results, reducing the compliance burden on MOT stations, and enabling delivery of an electronic vehicle relicensing service to motorists.

Late delivery of the computerised service will mean that the current manual procedures will need to be retained for longer than envisaged.

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answers of 8 March 2004, *Official Report*, columns 1237–38W, on computerised MOT tests, under what circumstances the Vehicle and Operator Services Agency could terminate the contract. [161498]

Mr. Jamieson: VOSA could seek to terminate its contract with Siemens Business Services (SBS):

1. for material default by SBS which is either not capable of remedy or is not remedied within a specified period depending on the breach;

2. if SBS is or is near being insolvent;

3. if SBS undergoes a change of control which is not in VOSA's or DfT's interest;

4. if there are prolonged serious problems as a result of events outside VOSA's or SBS's control and alternative arrangements cannot be agreed.

VOSA may also terminate without cause. In this case it would have to pay compensation to SBS covering its legitimate costs and for some loss of profit.

Rural Bus Services (Chorley)

Mr. Hoyle: To ask the Secretary of State for Transport how many rural bus services in Chorley are funded by rural bus grants. [161533]

Mr. McNulty: Rural Bus Subsidy Grant (RBSG) is paid to local transport authorities. In the case of Chorley this is Lancashire county council. It is for the authority to decide which services should be supported with the grant. We understand from the county council that four rural bus services in Chorley are currently supported by RBSG.

Goods Vehicles

Lembit Öpik: To ask the Secretary of State for Transport how many closed container vehicles and trailers, including curtain sided ones, are *(a)* registered in and *(b)* operate from the UK; and if he will make a statement. [160326]

Mr. Jamieson: At the end of 2002, there were in total 433,000 goods vehicles over 3.5 tonnes gross weight licensed in Great Britain. 101,000 vehicles were specified on standard international licences authorising operators to carry goods on international journeys.

Lembit Öpik: To ask the Secretary of State for Transport if he will estimate how many closed container vehicles and trailers, including curtain sided ones, travelled to mainland Europe through *(a)* the Channel tunnel and *(b)* ferry ports in each of the last three years; and if he will make a statement. [160327]

Mr. Jamieson: Information is not available in the form requested. The available information is as follows:

Roads goods vehicles travelling to mainland Europe: powered goods vehicles and trailers

	Thousand[1]
2001	2,398
2002	2,528
2003	2,593

[1] Number of one-way vehicle trips.

Source:
Roll-on Roll-off goods vehicle survey: DfT.

Rail Capacity (West Yorkshire)

Mr. Truswell: To ask the Secretary of State for Transport (1) what plans he has to increase rail capacity *(a)* in West Yorkshire, *(b)* on the Wharfedale Line, *(c)* on the Harrogate Line and *(d)* on the Airedale Line; [160932]

(2) what representations he has received on increasing rail capacity in West Yorkshire; and if he will make a statement. [160933]

Mr. McNulty: The Strategic Rail Authority (SRA) has published a Capacity Utilisation Policy and has also developed a new planning framework. A key aspect of this includes Regional Planning Assessments (RPA) which will form a basis for planning rail services over the medium to long term at a more detailed level. The SRA will produce the RPA for Yorkshire and Humberside in 2005, at which time specific capacity issues for the lines in question will be taken into account. I am not aware of any representations specifically on increasing rail capacity in West Yorkshire.

Road Safety

Mr. Marsden: To ask the Secretary of State for Transport how many pedestrians were *(a)* killed and *(b)* injured in road traffic accidents in each year since 1997. [161553]

Mr. Jamieson: The following table shows, for Great Britain, how many pedestrians were *(a)* killed and *(b)* injured in road traffic accidents reported to the police, in each year from 1997 to 2002. This information has been published in "Road Casualties Great Britain 2002—Annual Report", a copy of which is in the Library.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*
Killed	973	906	870	857	826	775
Injured	44,628	43,980	42,018	41,176	39,751	38,009
Total	45,601	44,886	42,888	42,033	40,577	38,784

Mr. Marsden: To ask the Secretary of State for Transport if he will place in the Library a copy of all assessments carried out by his Department of road accidents involving each car type. [161554]

Mr. Jamieson: The latest assessment of the risk of driver injury when different models of car are involved in an accident, was published in the Statistical Bulletin "Cars: Make and Model: The Risk of Driver Injury in Great Britain: 1996–2000", published on 15 May 2003. Copies have been placed in the House of Commons Library.

Mr. Green: To ask the Secretary of State for Transport if he will list the *(a)* research projects and *(b)* campaign groups connected with road safety to which his Department gave money, listing the amounts given to each in 2003–04. [160994]

Mr. Jamieson: We provide financial assistance to organisations other than local authorities, who successfully bid under Challenge Fund arrangements, for grant towards the costs of initiatives which promote road safety. Details of the organisations assisted and the nature of their initiatives are provided in the table. We also commission research from a number of research organisations, universities and consultants. Details of the road safety research programme are available at: www.rmd.dft.gov.uk

Applicant	*Proposals*	*Grant (£)*
Ape Theatre Company	*Pills Thrills and automobiles*. The project is for funding of a drug/drive play aimed at 16 to 18-year-olds to reduce drug related accidents, through interaction and provocation of thought/consequences.	20,000.00
Brake	*Schools action packs*. The project is for the funding of Road Safety Week "action packs" for school teachers, nursery leaders and youth club leaders. Two action packs will be produced: one for teachers of nursery and primary age children (x10,000); the other for teachers of secondary school children (x3,000).	10,000
Brake	*Getting the road safety message across–a communications strategy for road safety professionals*. This project would provide a communications strategy for Road Safety Professionals and has the support of the Local Authority Road Safety Officers Association (LARSOA).	4,190.00
CAPT	*Child Safety Week* aims to raise awareness levels within local communities through those, at local level, best able to influence children and their parents/carers about avoiding accidents. The theme for Child Safety Week 2003 was "One moment can change everything". The message to participants was "Accidents happen in seconds but the effects can last a lifetime". Take action now for child safety. Road accidents, in particular pedestrian and cycling accidents, were one of the four accident topics highlighted.	10,000.00
Oxford Brookes University	*Pedestrian visibility: improving children's understanding and behaviour*. The project aims to develop a computer based tool to improve children's awareness of pedestrian visibility. This is a one off project which would take place at a purpose built Lifeskills centre in Bristol. A final report would be produced and the lessons learned will be incorporated into Lifeskills permanent training, which reaches 8,500 children per year (over 50 per cent. of year six children in Bristol and adjacent educational authorities).	10,000.00
RAC	*Grass Routes: investigating safer journeys*. The project aims to raise awareness of road safety and road hazards among one of the most at risk groups of road users, 11 to14-year-olds, by the production of a schools resource pack, which will be made available to all secondary schools in the UK. The pack will focus on safer journeys to school. The proposal would expand the project which took place last year (2002–03) and was a continuation of an earlier Grass Routes project which focused on the environmental impact of the school run.	18,447.63
RoSPA	*Child restraints video*. The purpose of the project is to produce a video and DVD of approximately 15 minutes duration to provide advice on choosing and using child car restraints and to give practical demonstrations of how to properly fit them. It will be designed to be used as a training aid by Road Safety Officers and health professionals, but also to be used by parents.	20,000.00
RoSPA	*Redevelopment of the ORSA website*. This project is to redevelop and manage (for the first year) the temporary website established by the Occupational Road Safety Alliance. The funding is to produce a professional and useful/useable resource for those involved in, or wanting information about, at-work road safety.	16,807.50
RoSPA	*Resource for parents (and other non-professional trainers) who supervise L drivers*. The purpose of this project is to produce advice for parents, including practical tips, on helping their children learn to drive.	12,007.00
RoSPA	*Presenting Road Safety: A guide for the media*. The purpose of this project is to revise and re-publish RoSPA's Guide for the media, "Presenting Road safety". Free copies of the Guide would be distributed to all Local Authorities, other road safety related organisations, the main media organisations and Regulatory bodies.	10,868.00
RoSPA	*Education resource for Key stage 1 children with English as second language*. This project would produce a spiral bound, stand up book for use with Key Stage 1 children whose first language is not English. The book would feature clear and simple road safety messages about crossing the road, cycling (away from traffic) and travelling in a car. It would also include an introduction to road signs within these topics. The messages to be in Bengali, Urdu and Punjabi, as they are the most common ethnic minority languages, as well as English.	19,835.00

Applicant	Proposals	Grant (£)
RoSPA	*Road safety resource file: Key stage 4 citizenship.* The purpose of this project is to produce a resource for use by teachers in schools to allow students to develop the skills, knowledge and understanding outlined in the Key stage 4 (KS4) Citizenship programme of study by using road safety issues. The resource will include facts and figures, details of the law and legislative instruments, newspaper articles and links to websites. There will be questions and discussion points, which will draw out key issues. In addition to a printed version, the resource will be produced in an electronic format suitable for downloading from the internet.	16,598.00
RoSPA	*Driving for work: safer journey planner.* This application is to fund the production and distribution of a leaflet Driving for Work: Safer Journey Planner" (a work-related version of the "Safer Journey Planner" which RoSPA produced in 2001). The target audience would be employers, managers and staff who drive (or ride) for work. The leaflet would set this issue in the context of the employer's (and individual driver's) duty to risk assess their work related road journeys.	7,712.00
RoSPSA	*Reprint of the Guidelines for the Management and Operation of Practical Child Cyclist Schemes.*	2,676.00
The Portman Group	*"I'll be Des" campaign packs.* The project will produce 1,000 "I'll be Des" campaign packs for Road Safety Officers.	10,318.00
University of Newcastle upon Tyne	*Kerbcraft road safety training video.* The proposed video complements the ongoing management and evaluation of the National Network of Child Pedestrian Training Schemes. The Department for Transport is currently funding100 road safety training schemes between 2002–2006. Each scheme is based around the "Kerbcraft" Model. The video will provide reference material for Kerbcraft co-ordinators, reinforcing the key objectives and methods for training each Kerbcraft skill at the roadside.	19,800.00
West Yorkshire Police Community Trust	*R.O.A.D.S. (Reduce our accidents decrease speed).* This project will fund 50 Young Citizen Panels to influence road users in West Yorkshire to decrease their speed. Each panel will identify a section of road where they consider that drivers speed is dangerous and invite their local Road Safety Officer and a police officer to assess the location. The panel will accompany the Police Officer when a driver is stopped to explain who they represent, why they are conducting the exercise and that they will be reporting on the project. Each driver will be given a copy of The Highway Code and appropriate literature. In January-April 2004 each panel will develop a further road safety project around child pedestrian safety.	7,000.00
	Successful projects	216,259.13

School Buses

Ian Lucas: To ask the Secretary of State for Transport if he will carry out an assessment of the safety implications of allowing three children to travel on seats designed for two on school buses. [159860]

Mr. Jamieson: I have no plans to carry out an assessment of the safety implications of the three for two allowance as I have no evidence or data to support an argument that it represents a risk to child safety. Three for two is a concession, which local authorities may apply if they wish, and not a requirement.

I also refer my hon. Friend to my answer of 14 January 2004, *Official Report,* column 746W to my hon. Friend the Member for Monmouth (Mr. Edwards), concerning the carriage of children in buses and the three for two allowance.

Severn Bridge

Diana Organ: To ask the Secretary of State for Transport what assessment he has made of the effect on economic activity of the Forest of Dean of the closures of the first Severn crossing bridge to vehicles in the past three months. [160781]

Mr. Jamieson: Closures of the first Severn crossing bridge during high winds are done to ensure the safety of the road user. No specific assessment has been made of the economic effect of closing the first Severn bridge. The second Severn crossing provides an alternative route and this reduces the impact on the local economy of any closures of the first bridge.

Diana Organ: To ask the Secretary of State for Transport whether, when the Highways Agency makes the decision to close the first Severn crossing bridge, it differentiates between high-sided vehicles and saloon cars. [160782]

Mr. Jamieson: When the first Severn bridge is closed for reasons of safety, the Highways Agency makes no differentiation between high-sided vehicles and saloon cars. There is no infrastructure at present to filter vehicles. The agency has commissioned a report on the viability of 'filtering out' high-sided vehicles, using enforcement cameras in conjunction with traffic signing. This report is expected to be completed this spring.

Diana Organ: To ask the Secretary of State for Transport how the Highways Agency informs the public of the instances of closure of the first Severn crossing bridge; and if he will review the adequacy of this process. [160783]

Mr. Jamieson: The Highways Agency informs the public of bridge closures using advance traffic signing on the approaches to the M48 at Magor in the west and Almondsbury in the east. The agency's information line is also notified, together with other media sources. The effectiveness of this process is monitored regularly by the agency and other interested organisations.

Diana Organ: To ask the Secretary of State for Transport how many times, and for how long on each occasion, the first Severn crossing bridge has been closed to vehicles since the responsibility for doing so was transferred from the police to the Highways Agency. [160784]

Mr. Jamieson: There have been eight closures of the bridge due to high winds since the Highways Agency assumed responsibility from the police on 16 October 2003. Details are set out as follows.

Dates	*Times*
2–3 November 2003	05.10 (Sunday)–15.55 (Monday)
14–15 November 2003	11.15 (Friday)–02.30 (Saturday)
26 December 2003	16.20–21.00
8 January 2004	08.45–17.10
15–16 January 2004	18.40(Thursday)–10.00 (Friday)
31 January–1 February 2004	06.00 (Saturday)–02.00 (Sunday)
3 February 2004	09.55–19.40
7–8 February 2004	21.25 (Saturday)–07.00 (Sunday)

Diana Organ: To ask the Secretary of State for Transport what criteria are used by the Highways Agency in determining when and for how long the first Severn crossing bridge should be closed to vehicles. [160785]

Mr. Jamieson: A protocol has been developed over several years to determine when and for how long the first Severn bridge should be closed to traffic. It is continually reviewed to explore ways of minimising the closures while ensuring the safety of road users.

The following criteria are currently applied:

Gust wind speed (knots)	*Threshold requirement (i.e. criteria set within the monitoring equipment)*	*Response (i.e. action to be taken)*
30	30 knots exceeded six times within any 10 minute period	All matrix signs to be set to indicate 40 mph
35	35 knots exceeded three times in any 10 minute period. Leeward lane identified by wind direction	Alternate matrix signs to be amended to indicate leeward lane closed in each direction
40	40 knots exceeded six times in any 10 minute period	Close crossing to all traffic
60	Any gust exceeds 60 knots	Close crossing to all traffic
70	Any gust exceeds 70 knots	Crossing not to be re-opened until confirmed by Severn River Crossings plc to ensure no damage sustained
Decreasing	No gust has exceeded 30 knots within 30 minute period	Seek authority to remove the imposed restrictions

Diana Organ: To ask the Secretary of State for Transport for what reasons responsibility for decisions on when to close the first Severn crossing bridge was transferred from the police to the Highways Agency. [160786]

Mr. Jamieson: The police were concerned that individual police officers were required to be accountable for making the decision to close the first Severn bridge. They were unwilling to continue to be the primary decision maker in the closure process. The agency has taken responsibility for this role and ownership of the operating protocol.

Speed Cameras

Mr. Goodman: To ask the Secretary of State for Transport what his policy is on the siting of *(a)* fixed and *(b)* mobile speed cameras; and if he will make a statement. [160651]

Mr. Jamieson: The "Handbook of rules and guidance for the operation of the national road safety camera programme for England and Wales" deals with the siting of fixed and mobile speed cameras in those areas participating in the safety camera cost recovery scheme. Copies were placed in the Libraries of the House on 5 December 2003. Guidance for those areas outside the scheme is contained in Circular Roads 1/92.

Mr. Goodman: To ask the Secretary of State for Transport what revenues were raised from speed cameras in the Wycombe district council area in 2002–03. [160653]

Mr. Jamieson: Wycombe district council is part of the Thames Valley Safety Camera Partnership. Information on fine receipts for 2002–03 will be contained in the third year report of the safety camera programme, to be published shortly.

Mr. Goodman: To ask the Secretary of State for Transport how revenues raised from speed cameras in Wycombe district council area are spent. [160654]

Mr. Jamieson: Wycombe district council is part of the Thames Valley Safety Camera Partnership. Receipts from fines are made available to the partnerships for the approved costs of purchasing and operating its cameras. Any additional fine receipts are passed to the Consolidated Fund.

Waterways Improvements

Mr. Wiggin: To ask the Secretary of State for Transport how many programmes have been undertaken to improve *(a)* harbours, *(b)* docks and *(c)* inland waterways since 1997. [160876]

Mr. Jamieson: This information is not available centrally. Harbour and navigation authorities are responsible for programmes of improvement in their areas and, although some harbour and dock projects require Government consent, there is no requirement for reporting of programmes.

INTERNATIONAL DEVELOPMENT

Civil Society Organisations

Annabelle Ewing: To ask the Secretary of State for International Development what funds were contributed

by his Department to UK-based civil society organisations in 2002, broken down by nation of the United Kingdom. [161403]

Mr. Gareth Thomas: DFID support to Civil Society Organisations is predominantly targeted at UK organisations and with a UK wide base. We do not differentiate between the nations of the UK and do not collate figures on this basis.

Conferences

Mr. Bercow: To ask the Secretary of State for International Development how many conferences were hosted by his Department *(a)* at home and *(b)* abroad, in the year to 29 February; and what the cost was of attending these conferences, broken down by (i) travel costs, (ii) food and drink costs, (iii) accommodation costs and (iv) miscellaneous costs. [161691]

Hilary Benn: This information is not held centrally and to collate it would incur disproportionate cost.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for International Development how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158156]

Mr. Gareth Thomas: The Department for International Development employs the following numbers of staff in the communications field:

	Number
(a) Government Information and Communication Service	4
(b) Others	
(i) Press officers	6
(ii) Special advisers	2
(iii) Others	17

Matthew Taylor: To ask the Secretary of State for International Development what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158192]

Mr. Gareth Thomas: The total expenditure on communications for the Department for International Development in 2003–04 has been as follows:

	£
(a) Government Information and Communication Service staff	130,724
(b) Other staff	
(i) Press officers	270,504
(ii) Special advisers	132,184
(iii) Others	493,232

EU Development Finance

Mr. Bercow: To ask the Secretary of State for International Development what the objectives were of the *(a)* environment and tropical forests and *(b)* training and public awareness projects financed by the General Commission Budget in 2002; what his Department's involvement in the projects was; what the outcome was; and what assessment he has made of their value for money. [160704]

Mr. Gareth Thomas: The objectives of the Environment and tropical forests projects were to support the conservation and sustainable management of forests. DFID was consulted during the drafting of strategic guidelines and priorities for funding for the Environment and Forestry Budget Line. The Department also participated in committee meetings that reviewed proposals.

The training and public awareness projects aim to provide support for public awareness projects that increase European awareness of international development. There is an EC NGO co-financing management committee, which in 2002 consisted of delegates drawn from all 15 EU member states. The UK was represented on the committee by DFID staff.

There are a multitude of individual projects in both sectors, each with different objectives and outcomes and many of which run over the course of several years and therefore have not been completed yet. I refer the hon. Member to the information available in the "2003 Annual Report from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002" and the European Commission's website http://europa.eu.int for further details.

When considering Commission funding proposals, the Department took a wide range of factors into consideration, including likely cost-effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 are in the early stages of implementation. An assessment of the value for money will only be possible once the projects have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the value for money provided by EU Official Development Assistance on *(a)* production sectors, *(b)* social infrastructure and services, *(c)* economic infrastructure and services and *(d)* multisector/cross-cutting projects in 2002 that was financed by the General Commission Budget and the European Development Fund; and on what criteria his assessment is based. [160709]

Mr. Gareth Thomas: There are a multitude of individual projects in the areas cited by the hon. Member, each with different objectives and outcomes and many of which run over the course of several years and therefore have not been completed yet. I refer the hon. Gentleman to the information available in the "2003 Annual Report from the European Commission

to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002" and the European Commission's website http://europa.eu.int for further details.

When considering Commission funding proposals, DFID took a wide range of factors into consideration, including likely cost effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 are in the early stages of implementation. An assessment of the value for money will only be possible once the projects have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development what his Department's involvement was in the *(a)* humanitarian aid, *(b)* food aid and *(c)* pre-accession, Malta, Cyprus, Turkey projects financed under the General Commission Budget in 2002; and what the outcome was in each case. [160710]

Mr. Gareth Thomas: DFID was consulted during the drafting of strategic guidelines and priorities for funding in all three areas. The UK also participated in committee meetings that reviewed specific proposals. For example, DFID was represented at the Humanitarian Aid Committee which met monthly in 2002 to consider European Community Humanitarian Office (ECHO)'s draft funding decisions. Relevant DFID staff were consulted about individual proposals. Member states agreed ECHO'S overall 2002 strategy in late 2001.

There are a multitude of individual projects in the areas cited by the hon. Member, each with different objectives and outcomes and many of which run over the course of several years and therefore have not been completed yet. I refer the hon. Gentleman to the information available in the "2003 Annual Report from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002" and the European Commission's website http:// europa.eu.int for further details.

Mr. Bercow: To ask the Secretary of State for International Development what the objectives were of the *(a)* Latin America, *(b)* Asia and *(c)* pre-accession PHARE projects financed under the General Commission Budget in 2002; what his Department's involvement in each project was; what the outcome was; and what assessment he has made of value for money in each case. [160711]

Mr. Gareth Thomas: The overall objective of the many individual projects financed in Latin America and Asia is to promote human development. The objective of the PHARE programme is to help candidate countries' preparations to accede to the European Union. This consists of technical assistance with the implementation of the aquis communautaire, and the building of institutional capacity.

DFID was consulted during the drafting of strategic guidelines and priorities for funding in all three areas. DFID and/or other Government Departments also participated in committee meetings that reviewed specific proposals.

There are a multitude of individual projects in Asia, Latin America and the PHARE countries, each with different objectives and outcomes and many of which run over the course of several years and therefore have not been completed yet. I refer the hon. Member to the information available in the "2003 Annual Report from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002" and the European Commission's website http:// europa.eu.int for further details.

When considering Commission funding proposals, the Department took a wide range of factors into consideration, including likely cost-effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 are in the early stages of implementation. An assessment of the value for money will only be possible once the projects have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development what the objectives were of the European Bank for Reconstruction and Development *(a)* near and Middle East, *(b)* Mediterranean and *(c)* South Africa projects financed under the General Commission Budget in 2002; what his Department's involvement in each project was; what the outcome was; and what assessment he has made of value for money in each case. [160712]

Mr. Gareth Thomas: The European Bank for Reconstruction and Development (EBRD) was established to foster the transition towards open market-oriented economies, and to promote private and entrepreneurial initiative, in the countries of Central and Eastern Europe and the Former Soviet Union. EBRD does not cover any of the regions identified in the hon. Gentleman's question.

Mr. Bercow: To ask the Secretary of State for International Development what the objectives were of the *(a)* Western Balkans, *(b)* NIS and Mongolia/ CEECS and *(c)* NIS and Mongolia/TACIS projects financed under the General Commission Budget in 2002; what his Department's involvement in them was; what the outcome was; and what assessment he has made of their value for money. [160713]

Mr. Gareth Thomas: The objective of the Commission's programme of assistance to the Western Balkans (the CARDS programme) is to support the Stabilisation and Association Process in the region through reconstruction, work on democracy, human rights and the rule of law, economic and social development and promoting closer relations between recipient countries and between those countries and the EU. The objectives of the TACIS programme are to

promote the transition to a market economy and to reinforce democracy and the rule of law in the CIS countries.

Representatives of DFID sit on the Management Committees that oversee the Commission's implementation of these programmes. In addition proposals for spending in Serbia, Montenegro, Kosovo, Albania and FYROM are approved by the Governing Board of the European Agency for Reconstruction, on which DFID is also represented.

In both CARDS and TACIS, programmes funded under the 2002 Budget will typically last for at least three years. There are a multitude of individual projects in the areas cited by the hon. Member, each with different objectives and outcomes. I refer the hon. Member to the information available in the "2003 Annual Report from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002" and the European Commission's website http://europa.eu.int for further details.

When considering Commission funding proposals, DFID took a wide range of factors into consideration, including likely cost-effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 are in the early stages of implementation. An assessment of the value for money will only be possible once the projects have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development what the outcome was of the *(a)* anti-personnel mines and *(b)* pre-accession ISPA projects financed from the General Commission Budget in 2002; and what his Department's involvement in each project was. [160714]

Mr. Gareth Thomas: DFID was represented at the working groups that considered the projects presented by the European Commission to member states. There are a multitude of individual projects in the areas cited by the hon. Member each with different objectives and outcomes and many of which run over the course of several years and therefore have not been completed yet. I refer the hon. Gentleman to the information available in the "2003 Annual Report from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002" and the European Commission's website http://europa.eu.int for further details.

Mr. Bercow: To ask the Secretary of State for International Development what the objectives were of the *(a)* co-ordination and evaluation, *(b)* social infrastructure and services and *(c)* global health fund projects financed under the General Commission Budget in 2002; what his Department's involvement in the projects was; what the outcome was; and what assessment he has made of their value for money. [160715]

Mr. Gareth Thomas: The overall objective of the co-ordination and evaluation projects is to improve the long-term effectiveness of EC aid. Projects under the social infrastructure and services focus on reducing drug abuse. Global Health Fund projects support the Global Health Fund's aim to fight HIV/AIDS, malaria and tuberculosis.

When considering Commission funding proposals, DFID took a wide range of factors into consideration, including likely cost-effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 are in the early stages of implementation. An assessment of the value for money will only be possible once the projects have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development in respect of which projects financed under the General Commission Budget co-financing of non-governmental organisations took place in 2002. [160716]

Mr. Gareth Thomas: A multitude of individual projects under the co-financing of non-governmental organisations budget line were implemented in 2002. I refer the hon. Gentleman to the information available in the "2003 Annual Report from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002" and the European Commission's website http://europa.eu.int for further details.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the value for money provided by EU Official Development Assistance on *(a)* Action Relating to Debt and *(b)* Commodity Aid and the General Programme in 2002 financed by the General Commission Budget and the European Development Fund; and on what criteria his assessment is based. [160719]

Mr. Gareth Thomas: When considering Commission funding proposals, DFID took a wide range of factors into consideration, including likely cost-effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 are in the early stages of implementation. An assessment of the value for money will only be possible once the projects have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the value for money provided by EU Official Development Assistance devoted to emergency and distress relief in 2002; and on what criteria his assessment is based. [160720]

Hilary Benn: When considering Commission funding proposals, DFID took a wide range of factors into consideration, including likely cost-effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 have only recently been completed.

The EC's results-orientated management system and strengthened evaluation systems will enable it to assess their value for money in due course.

Mr. Bercow: To ask the Secretary of State for International Development what the objectives were of the pre-accession SAPARD project financed under the General Commission budget in 2002 and referred to as Item B7–01 in the financial tables on page 257 of the Annual Report 2003 from the European Commission to the Council and the European Parliament on the EC Development Policy and the implementation of external assistance in 2002; what his Department's involvement in the project was; what the outcome was; and what assessment he has made of its value for money. [161487]

Mr. Gareth Thomas: The Special Accession Programme for Agricultural and Rural Development (SAPARD) aims to help candidate countries deal with the problems of the structural adjustment in their agricultural sectors and rural areas, as well as in the implementation of the acquis communautaire concerning the Common Agricultural Policy (CAP) and related legislation. DFID was consulted during the drafting of strategic guidelines and priorities for funding. DFID was also represented at committee meetings that reviewed proposals.

When considering Commission funding proposals, the Department took a wide range of factors into consideration, including likely cost-effectiveness and value for money. Any concerns about value for money were raised with the Commission. Many of the projects approved in 2002 are in the early stages of implementation. An assessment of the value for money will only be possible once the projects have been completed. The European Commission (EC), through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Haiti

Mr. Roy: To ask the Secretary of State for International Development what aid the Government plans to send to Haiti. [160255]

Mr. Gareth Thomas: DFID has sent a two-person team to Haiti to assess the humanitarian situation and discuss needs with humanitarian agencies, including the United Nations agencies that will shortly be launching a consolidated Flash Appeal. Decisions on what humanitarian assistance the UK will give to Haiti will be made after this mission and appeal.

The European Communities Humanitarian Office (ECHO) is providing Euros 1.8 million for emergency health care. The UK share (19 per cent.) of this EC assistance is approximately £240,000. Following the UN Appeal, ECHO are considering further support.

DFID will continue to fund Non-Governmental Organisations and Civil Society Groups through the Small Grants Scheme and the Civil Society Challenge Fund. DFID will also continue to provide funds through international agencies which work in Haiti, including the European Union (DFID provides approximately 13 per cent. of the European Development Fund budget).

Iraq

Sue Doughty: To ask the Secretary of State for International Development what programmes his Department has introduced to involve Iraqi women in *(a)* government and *(b)* other areas of public life in Iraq; and if he will list the (i) personnel and (ii) funding that have been committed. [161475]

Hilary Benn: Gender equality is an integral part of DFID's work in Iraq. We are working specifically to support Iraqi women in their involvement in political processes and reconstruction. A £500,000 grant to the United Nations Development Fund for Women (UNIFEM) strategy for empowering women in Iraq is strengthening women's groups at a governorate level and encouraging government to take proper account of the needs of women. Two DFID-funded advisers provide support and expertise to the Iraqi Governing Council, the Coalition Provisional Authority and to the newly forming women's groups. We have also recently established a £5 million fund to promote political representation and participation by all Iraqi people, which will include support to achieving the goal of 25 per cent. women's representation in the National Assembly.

Middle East

Mr. Bercow: To ask the Secretary of State for International Development what plans he has for the provision of technical assistance to the Palestinian civil police in the West Bank and Gaza. [160145]

Hilary Benn: DFID is considering a programme of assistance to the Palestinian Ministry of Interior to help establish a more legitimate, effective and accountable civil and public order police force. We plan to second a police adviser for a period of six months. He will provide short-term technical support, and make an assessment of how best a longer-term programme could be delivered in co-ordination with other donor partners and other security sector reform activities.

Mr. Bercow: To ask the Secretary of State for International Development what steps he has taken to ensure complete transparency in the use by the Palestinian Authority of development aid provided by his Department. [160146]

Hilary Benn: The vast majority of DFID's assistance to Palestinians has not been provided directly to the Palestinian Authority, but goes through UN agencies, NGOs, and consultancy contracts, all of which have a high degree of transparency; but greater transparency in the PA's use of its resources is a priority for all donors.

Substantial progress has been made since 2002 in improving the Palestinian Authority's financial management, the oversight of public spending and accountability. This has largely been the result of efforts by the Palestinian Finance Minister. We have helped the World Bank carry out a thorough Country Financial Accountability Assessment, which has set out an agenda for further improvements in these areas. The continuing need for donors to support the PA budget directly will ensure that these areas remain under close scrutiny. We are ready to provide further support if needed.

Mr. Bercow: To ask the Secretary of State for International Development if he will visit the West Bank and Gaza to assess the requirements for *(a)* humanitarian and *(b)* development assistance. [160148]

Hilary Benn: I visited the West Bank and Gaza Strip in July 2003 to see at first hand the conditions on the ground, and hold discussions with a wide range of partners including Government, civil society, and other donors, about humanitarian and development needs. We plan to publish a Country Assistance Plan for Palestinians in April, which sets out DFID's strategy for the next two years. I have no immediate plans to visit again, but will consider a further visit depending on progress with the Middle East Peace Process.

Mr. Bercow: To ask the Secretary of State for International Development how many people in the West Bank and Gaza are dependent upon non-governmental organisations or international relief organisations for employment. [160149]

Hilary Benn: These data are not readily available. Job creation programmes, established by both Government and NGOs, have played an important role in helping sustain the livelihoods of thousands of families during the last three years. As part of its emergency relief activities, the United Nations Relief and Works Agency (UNRWA) provide temporary jobs for unemployed refugees. In 2004 it plans to provide over two million workdays of employment.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the effect of development assistance provided by his Department on levels of poverty in the West Bank and Gaza. [160151]

Hilary Benn: DFID regularly monitors the impact of its projects against their objectives. Some have a specific poverty alleviation focus; others support longer-term Palestinian institutional development needs where the impact on poverty is less direct, and is more difficult to measure. But without peace the prospects for economic growth and poverty reduction are not sustainable. Only a political solution will solve these problems.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the effect of *(a)* movement restrictions and *(b)* land confiscation on agriculture in the West Bank and Gaza. [160152]

Hilary Benn: Movement restriction and land confiscation have led to a severe decline in agricultural production in the West Bank and Gaza, and an increased and unsustainable dependence on food aid. Palestinians, supported by donors, continue to seek innovative ways to maintain agricultural production.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the *(a)* level of food aid provided by his Department for residents of the West Bank and Gaza and *(b)* the effectiveness of its distribution. [160153]

Hilary Benn: DFID have provided a £500,000 contribution to the World Food Programme food aid appeal in 2002, and have contributed over £25 million to the United Nations Relief and Works Agency's Emergency Appeals since the start of the Intifada in 2000.

The United Nations Relief and Works Agency (UNRWA)'s Emergency Appeals support job creation programmes, health, education, and shelter programmes as well as food aid. Our support is not earmarked for food aid alone. Effective targeting and distribution have improved with better co-ordination between the main food providers.

Mr. Bercow: To ask the Secretary of State for International Development if he will assess the effectiveness of the work of his Department in enhancing Palestinian access to water in the West Bank and Gaza. [160154]

Hilary Benn: DFID has worked with the Palestinian Water Authority and NGOs for several years supporting the effective delivery of water services in the West Bank and Gaza Strip. Four projects that have improved access to potable water, sanitation and environmental health in some of the poorest communities have recently been brought to a successful conclusion. We currently fund two projects.

Support for the Sustainable Management of the West Bank and Gaza Strip Aquifers project is enhancing the Palestinian Water Authority's understanding of the western aquifer, which is an essential source of water in the West Bank and Gaza Strip. We also support a Water Access and Storage project to enable villages in the south Hebron district of the West Bank that do not have access to the networked water supply to obtain more secure access to drinking water and sustainable improved sanitation. Both projects are making good progress.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the need for a revision of water access arrangements in the West Bank and Gaza. [160155]

Hilary Benn: Early progress on securing Palestinian water rights would benefit the Palestinian people. DFID has supported the Palestinian Negotiations Affairs Department to research their position in preparation for negotiations on water access. While it would be possible to advance discussions immediately, the link between water rights and other issues such as borders and the separation barrier has so far led to a reluctance on both sides to engage on the issue outside the framework of overall final status negotiations.

Mr. Bercow: To ask the Secretary of State for International Development what information he has of rates of malnutrition in *(a)* the West Bank and *(b)* Gaza in (i) 2000, (ii) 2001, (iii) 2002 and (iv) 2003. [160157]

Hilary Benn: Information about nutritional status in the West Bank and Gaza is uncertain, and no systematic monitoring has taken place. Various organisations have carried out surveys using different methodologies. There are no readily available data to compare the incidence of malnutrition across years.

One of the most authoritative recent studies is the Nutritional Assessment and Sentinel Surveillance System, done in 2002 by Johns Hopkins and Al-Quds

Universities. Looking at children 6–59 months, they found in the West Bank, 4.3 per cent. with acute malnutrition (wasting), and 7.9 per cent. with chronic malnutrition (stunting). In the Gaza strip these figures were 13.3 per cent. and 17.5 per cent. respectively. They found that 7.8 per cent. of children aged 6–59 months in the Palestinian Territory suffer from acute malnutrition, and 11.7 per cent. from chronic malnutrition. A normally nourished reference population would have 2.28 per cent. of population with global malnutrition, and 0.13 per cent. with severe malnutrition.

Mr. Bercow: To ask the Secretary of State for International Development what assistance his Department is providing to the Palestinian Authority in developing poverty alleviation policies. [160159]

Hilary Benn: DFID supported the United Nations Development Programme (UNDP) to carry out a national Participatory Poverty Assessment for the Palestinian Authority (PA) in 2002. We are now exploring with the PA, the World Bank and other donors the potential for a medium-term, comprehensive poverty reduction strategy for the Palestinian Territory. Continued DFID and other donor support to the Palestinian Central Bureau of Statistics, and a proposed new Pro-poor Participatory Planning programme, will help develop the PA's ability to monitor and assess poverty both quantitatively and qualitatively, and respond appropriately. Fiscal crisis is the major constraint on the PA's ability to alleviate poverty.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the results achieved by the Task Force on Project Implementation in the West Bank and Gaza. [160160]

Hilary Benn: The Task Force on Project Implementation (TFPI) was established as a representative mechanism of the international community for ensuring effective implementation of donor-funded projects in the West Bank and Gaza Strip. DFID believe that lobbying Israel on humanitarian access is most effectively handled through such co-ordinated donor mechanisms. The TFPI has had some success, but not all agreements reached have been implemented in practice.

Mr. Bercow: To ask the Secretary of State for International Development what steps he is taking to achieve donor harmonisation in the West Bank and Gaza. [160161]

Hilary Benn: DFID works increasingly with other donors to help mobilise resources in support of agreed Palestinian Authority priorities. We have contributed to a number of multi-donor World Bank led initiatives, and have formed alliances with other bilateral donors and Palestinian partners to ensure that funding is better harmonised. More effective delivery of humanitarian and development assistance is one of three objectives in our draft Country Assistance Plan for Palestinians.

Mr. Bercow: To ask the Secretary of State for International Development what steps he is taking to encourage a process of development planning in the West Bank and Gaza led by the Palestinian Authority. [160162]

Hilary Benn: The Palestinian Authority's capacity to lead on strategic planning and donor co-ordination has been constrained during the "intifada". With support from international partners it is now starting to play a more proactive role. DFID's proposed support to the Participatory Poverty Planning initiative would focus on the Ministry of Planning and could advance this process. When the time is right, we plan to support the Palestinian Authority in its desire to develop a priority-based, transparent national development framework which sets out the Authority's priorities.

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with the Israeli Government about freedom of movement for humanitarian goods and personnel in the West Bank and Gaza. [160163]

Hilary Benn: The Government frequently makes representations to the Israeli government about these issues, both bilaterally and with international partners.

Mr. Dhanda: To ask the Secretary of State for International Development what provisions have been made for aid to the Palestinian territories. [159810]

Hilary Benn: At the start of the current financial year our agreed budget for support to Palestinians was £24.5 million. This includes funding for both the Palestinian territory and for the United Nations Relief and Works Agency for Palestinian Refugees (UNRWA), which provides services to Palestinian refugees in Jordan, Lebanon, and Syria as well as the West Bank and Gaza Strip. Planned allocations for 2004–05 and 2005–06 are £26.5 million, an increase of £2 million over the budgeted figures for the current year. In 2003–04 and previous years since the intifada started in 2000, spending plans for the Palestinian territory and UNRWA have been supplemented by additional resources made available in-year in response to unpredictable events.

We have increased our expenditure in 2003–04 to £40.2 million in response to emergency needs and Middle East peace process opportunities. The 2003–04 figure also includes £0.7 million allocated to DFID from the Global Conflict Prevention Pool (GCPP), which is managed by the FCO on behalf of FCO, MOD and DFID. Figures for future years make no assumptions about additional resources from within DFID or the GCPP.

Mr. Blunt: To ask the Secretary of State for International Development what *(a)* UK and *(b)* EU development assistance was given to (i) the Palestinian National Authority and (ii) other institutions or organisations representing Palestinian civil society in each year from 2000–01 to 2002–03. [160242]

Hilary Benn: The UK figures are in the following table. The European Commission does not record detailed programme expenditure in the format requested. Information on the Commission's programme of support to Palestinians is on the website www.europa.eu.int/comm/external_relations

£ million

	UK bilateral programme	
	Support through PA institutions	Support through civil society organisations
2000–01	2	6.3
2001–02	2.4	11.6
2002–03	6.7	7.5

Mr. Clappison: To ask the Secretary of State for International Development how much financial support the UK has given to the Palestine Liberation Organisation negotiation support unit since 1998; what conditions were attached to such funding; what arrangements have been put in place to monitor such funding; whether the results of such monitoring have been published; and whether any of the funding has been used for the presentation of the Palestinian case relating to Israel's Security Force at the International Court of Justice at the Hague. [159670]

Hilary Benn: The UK has committed £9.2 million for support to the Palestinian Negotiations Support Unit (NSU). This covers funding from 1998 until 2006. £5.6 million has been disbursed to date. Our support is delivered through a contract with ASI Ltd, who are accountable to us for the use of our funding. There are no specific conditions attached to the funding. We monitor the assistance NSU provides against an agreed budget and objectives. The governments of Norway, Sweden, Netherlands and Denmark provide complementary funding, and we are integrating our monitoring with theirs. Project monitoring reports are not normally published unless there is a reason to do so. UK funds have supported the NSU's advice to the Palestinian Authority in presenting their case on the Israeli separation barrier at the International Court of Justice. It is not unusual for the UK to give funding to developing countries to help them negotiate more effectively in international fora, for example the WTO, where they make take positions that run counter to those of the EU and individual member states.

Nile Conference

Mr. Drew: To ask the Secretary of State for International Development if he will make a statement on the recent conference on the future of the Nile; and what bilateral discussions he has had with each of the participating countries involved in the conference. [160942]

Hilary Benn: Officials and Ministers from the Nile Basin countries meet frequently within the framework of the Nile Basin Initiative to discuss co-operation on the complex issues relating to the Nile.

The annual Nile Council of Ministers meeting begins on 18 March 2004 in Nairobi, and will continue previous discussions on how best to use the Nile basin for poverty alleviation, resource protection, and mutually beneficial gains including promoting regional integration and reducing potential conflict.

The UK has taken part in technical and political discussions in the region and will be participating in the Nile Basin Trust Fund committee meeting in Nairobi from 16–18 March, which precedes the Council of Ministers meeting, and includes a session with them on the final day of the conference.

The UK is providing some financial support to the Eastern Nile Technical Regional Office in Addis Ababa for capacity building, and will be providing additional funding through the Nile Basin Trust Fund, to assist with water resources management and socio-economic development across the basin.

Procurement Policy

Mr. Sheerman: To ask the Secretary of State for International Development in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159151]

Hilary Benn: I refer my hon. Friend to the answer given by my hon. Friend the Minister for the Environment on 10 March 2004, *Official Report*, column 1543W.

Rwanda

Tom Brake: To ask the Secretary of State for International Development if he will make a statement on the November 2003 agreement between Rwanda and the Democratic Republic of Congo to repatriate Rwandan Hutus from the east of Congo. [159842]

Hilary Benn: The agreement in November 2003 between Rwanda and Democratic Republic of Congo (DRC) was part of a follow-up process to the Pretoria Agreement signed between the two countries on 30 July 2002. That agreement provided for the Government of Rwanda to withdraw all its forces from the DRC. It did this by October 2002 and the withdrawal was verified by MONUC (the UN Mission to the DRC). It also provided for the Government of DRC to cease all support for ex-FAR/Interhamwe and to encourage the voluntary repatriation of Rwandans from DRC, particularly combatants. The Government of DRC issued a declaration stating that the FDLR (Forces Democratiques de Liberation du Rwanda) were unwelcome in its territory and arrested two senior genocidaires in 2002. The UK Government fully supports this process as an important means of ending conflict in the region and achieving greater stability.

The UN Security Council has tasked MONUC with the voluntary repatriation of non-Congolese combatants. It has established bases in eastern DRC to effect this. MONUC estimates that, so far, 6,600 Rwandans ex-combatants and their dependants have been repatriated (not all these repatriations have been facilitated directly by MONUC).

Tom Brake: To ask the Secretary of State for International Development what his Department's position is on the Rwandan Government's use of retraining camps known as solidarity camps for former members of the Forces Armées Rwandaises ahead of their reintegration into Rwandan society. [159848]

Hilary Benn: Since 2002, DFID has supported the Rwanda Demobilisation and Reintegration Programme (RDRP) with a grant of £5.5 million. The RDRP's mission statement is

"to support successful social and economic reintegration of ex-combatants in their respective communities so as to realize national security, reconciliation, and development. This will be achieved through demobilizing ex-combatants and supporting their social and economic reintegration into communities of their own choice for a fresh start, thereby saving economic resources for investment in social and economic development."

DFID judge that the RDRP has been well managed by the Government of Rwanda's Demobilisation and Reintegration Commission (RDRC).

The DFID office in Rwanda has been engaged in working with the RDRC to ensure successful reintegration of ex-combatants. DFID has been particularly active in working to ensure that the RDRP addresses practical social and economic issues; including the perception and acceptance by communities of ex-combatants, the opportunities for skills training and employment of ex-combatants, access to counselling and medical services, and the particular needs of female and child ex-combatants in the reintegration process.

The re-integration sessions that ex-Force Armées Rwandaise (ex-FAR) attend last up to two weeks. These sessions are voluntary and are the same as those attended by those demobilised from the Rwandan Defence Forces (RDF). The sessions are focused on explaining the benefits available to the ex-FAR and ex-RDF under the RDRP, such as the recognition of service allowance, available medical services and counselling as well as whether they are eligible for extra funds if they are assessed as being particularly vulnerable. They are also given advice on how they can best utilise the allowances they receive, for example in how to establish income generating co-operatives and how to prepare project proposals to access loans and grants.

It should be noted that the majority of ex-FAR soldiers have already settled in communities before they attend the RDRP sessions, sometimes for a number of years. Accordingly, their reintegration needs are often not as acute as other ex-combatants and the two week sessions are felt to be sufficient to help them access and utilise their benefits. When back in their communities, ex-FAR, like other demobilised ex-combatants, are able to use the services of the RDRP's Provincial Programme Officers to follow-up on advice and information on the benefits and services available under the RDRP and through other community-wide programmes of support.

Uganda

Tom Brake: To ask the Secretary of State for International Development what his Department's policy is on helping Ugandan crop growers share the benefits of that country's economic growth. [159843]

Hilary Benn: In rural Uganda the main constraint on the farming community's ability to share the benefits of economic growth is the failure of markets to provide good information, farm inputs, and outlets for increased farm production. DFID's policy is to address this market failure by supporting public investment in the provision of the goods and services that underpin agricultural development.

The UK supports the Uganda Government's Plan for Modernisation of Agriculture (PMA). The PMA is a framework for Government action in support of smallholder farming households. It directs public resources to ensure that markets operate effectively and provides farmers with access to both agricultural inputs and markets for agricultural produce. Government institutions charged with agricultural service provision have been restructured to ensure they respond effectively to the demands of farmers. PMA priorities include the provision of better information through agricultural research and advice from Government extension workers; the provision of financial services; and physical investment, for example on rural feeder roads, to improve access to markets. Smallholders are supported in accessing regional and international markets. DFID has been closely involved in the design and implementation of the PMA.

Improved export opportunities will be particularly important in the development of Uganda's agricultural sector. We have funded a number of initiatives aimed at strengthening Uganda's trade policy and access to wider international markets.

Westminster Hall

Bob Spink: To ask the Secretary of State for International Development if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159610]

Hilary Benn: I refer the hon. Member for Castle Point to the answer given by the Leader of the House on 8 March 2004, *Official Report,* column 1234W.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the level of assistance provided by the World Food Programme to urban areas of Zimbabwe in *(a)* 2002, *(b)* 2003 and *(c)* 2004. [160722]

Hilary Benn: The humanitarian and economic situation in Zimbabwe continues to deteriorate, fuelled by the Government of Zimbabwe's poorly implemented fast track land programme and economic policies, as well as the effects of the HIV/AIDS epidemic and erratic rainfall.

World Food Programme (WFP) emergency operations in Zimbabwe since 2002 have focused principally on rural areas, where food security is most closely related to agricultural production. General food distribution is rarely the most appropriate intervention in urban environments, where commercial availability and affordability are the principal factors affecting access to food. However, DFID are working with WFP in Bulawayo and Harare to provide targeted feeding to growth-faltering children under five. Recent vulnerability assessments indicate a sharp rise in urban vulnerability levels. The humanitarian community are

currently discussing the most appropriate interventions. WFP are extending their school feeding programme in urban areas.

Mr. Bercow: To ask the Secretary of State for International Development if he will provide *(a)* chemicals and *(b)* personnel to the local authority in Harare to improve its water treatment capacity. [160723]

Hilary Benn: DFID recently committed £200,000 to United Nations Development Programme (UNDP) for the procurement of water purification chemicals for use by the Harare and Bulawayo city councils. This emergency intervention responds to the lack of foreign currency available to the local authorities in the current economic crisis, preventing them from procuring the necessary chemicals and resulting in the high risk of water-borne disease outbreaks, particularly in the overcrowded suburbs and public institutions, such as hospitals and schools. Technical assistance is being provided by other agencies, notably UNICEF.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the effect on the value of the EU humanitarian aid to Zimbabwe of the method of its conversion into local currency. [160724]

Hilary Benn: Concerns about the exchange rate used by the European Commission were raised in a report of the European Court of Auditors. Our understanding is that those concerns were limited to part of the spending of the European Development Fund (EDF) that was converted into Zimbabwe dollars during 2002. Humanitarian aid, which is largely funded from the EU budget rather than the EDF, was therefore not affected. Humanitarian aid is in any case very largely used to procure food and other goods outside Zimbabwe and would not be converted into Zimbabwe dollars.

Mr. Bercow: To ask the Secretary of State for International Development what representations he has received on the need for pharmaceutical supplies in hospitals in Zimbabwe. [160725]

Hilary Benn: Along with the humanitarian programme, Health and HIV/AIDS is a priority for DFID support in Zimbabwe. DFID recently provided £1.8 million for UNICEF to procure vaccines and other essential immunisation programme commodities for use in routine childhood immunisation. DFID has just granted £590,000 to the National Blood Transfusion Services (NBTS) in Zimbabwe for import of test kits and reagents to allow continued provision of safe blood in hospitals, with particular reference to specialised testing for HIV and hepatitis. The European Commission is also providing essential drugs to the health sector. DFID is funding very substantial HIV/AIDS prevention programmes that include provision of hormonal contraceptives in addition to condoms.

Mr. Bercow: To ask the Secretary of State for International Development if his Department will provide financial assistance to the George VI School and Rehabilitation Centre in Bulawayo to assist its work with disabled and orphaned children. [160727]

Hilary Benn: The George VI School and Rehabilitation Centre can apply for a grant through the UK Government's Small Grant Scheme, administered by the British embassy in Harare. Information on the scheme is available on the internet http://www.britainzw.org or from the British embassy at 8th Floor, Corner House, Samora Machel Avenue/Leopold Takawira Street, PO Box 1030, Harare.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the work of the Legal Resources Foundation in Zimbabwe; and if his Department will contribute funds to it. [160731]

Hilary Benn: Our assessment is that the work of the Legal Resources Foundation is excellent and makes an important contribution to civil society in Zimbabwe. At present, DFID's programme in Zimbabwe is focused on humanitarian relief and support to tackling HIV/AIDS, and we therefore do not support the Legal Resources Foundation. Should this change we would be happy to consider providing funding.

Mr. Bercow: To ask the Secretary of State for International Development what steps he is taking to ensure that credit is not claimed by the Zimbabwean Government for aid provided to Zimbabwe by his Department. [160732]

Hilary Benn: British aid to Zimbabwe is channelled through UN agencies and non-governmental organisations (NGOs) to provide humanitarian assistance to vulnerable sections of society. In collaboration with our development partners, we operate a policy of zero tolerance towards political interference—including claiming credit for donor food distribution—in humanitarian operations. Procedures in place to reduce the risk of political interference have proved generally effective to date. Any such incidents are quickly identified, reported and followed up, including suspending food distribution where appropriate. We and other donors and agencies also use the media when appropriate to publicise our activities and to explain the extent of donor support to Zimbabwe during the present crisis. Looking ahead to the parliamentary elections anticipated early next year, monitoring of any political interference will be given even higher attention in coming months.

NORTHERN IRELAND

School Meals

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland, what steps he has taken to promote healthy eating in schools in Northern Ireland. [148764]

Jane Kennedy: When providing school meals, school authorities are currently required to comply with the nutritional standards produced by the Caroline Walker Trust. These aim to contribute to a better-balanced diet which contains more bread, cereals, other starchy foods, fruit and vegetables and which is rich in minerals and vitamins, and which has less fat, sugar and salty foods. Also, the Department of Education is about to initiate a pilot study for one calendar year from next March to determine how best to introduce new compulsory nutritional standards for school meals and ensure the best chance of success.

Health education is a compulsory element of the curriculum for all pupils. They are taught to make responsible decisions about their diet, and to know and understand the contribution of food to growth, energy and health.

Funding has also been obtained to develop Health Promoting Schools Schemes with particular attention to schools in areas of social need.

PRIME MINISTER

Law Officers' Advice Advice

Llew Smith: To ask the Prime Minister if he will list the *(a)* Ministers, *(b)* hon. Members other than Ministers and *(c)* other authorised persons who were provided with a full version of the Attorney-General's advice to Government on the legality of the military action against Iraq in March 2003. [161190]

The Prime Minister: I refer my hon. Friend to the answer I gave him on 9 March 2004, *Official Report*, column 1431W.

Departmental Staff

Mr. Letwin: To ask the Prime Minister what the *(a)* job titles and *(b)* salaries are of (i) Mr. Geoff Mulgan and (ii) Mr. Matthew Taylor; and whether they attended the launch of the book Growth Fetish by Mr. Clive Hamilton in an official capacity. [161236]

The Prime Minister: Geoff Mulgan is the Head of Policy at No. 10. Matthew Taylor is a senior special adviser.

In accordance with exemption 12 of Part 2 of the Code of Practice on Access to Government Information, details of individual salaries are not disclosed in order to protect the privacy of the individuals concerned.

Geoff Mulgan attended the book launch in a personal capacity. Matthew Taylor did not attend the event.

Agricultural Subsidies

Bob Spink: To ask the Prime Minister if he will make it his policy during the United Kingdom's presidency of the EU, to remove agricultural protectionism from Europe as a means of promoting international development; and if he will make a statement. [161942]

The Prime Minister: The Government fully supports the aims of the World Trade Organisation's Doha Declaration aimed at substantial reductions in trade distorting agricultural subsidies and protection, and placing particular emphasis on the need to help developing countries.

Last June the EU agreed a major reform of the Common Agricultural Policy. One of the key aims of our Presidency will be to work towards agreement in the WTO which would significantly reduce barriers to agricultural trade and bring economic benefits to developing and developed countries alike.

Global Security

Llew Smith: To ask the Prime Minister when he was first informed of the covert nuclear proliferation activities of Abdul Qadir Khan, to which he made reference in his speech on global security issues on 5 March. [161753]

The Prime Minister: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Linlithgow (Mr. Dalyell), on 1 March 2004, *Official Report*, column 757W.

Llew Smith: To ask the Prime Minister whether he has discussed with the other four permanent members of the United Nations Security Council the proposals for reform of the role of the United Nations set out in his speech on global security threats in Sedgefield on 5 March. [161754]

The Prime Minister: My discussions with the leaders of other permanent Members of the Security Council regularly deal with the need for effective collective action to address all threats to international peace and security. The Government are a long-standing supporter of reform in this area, for example through the principles I set out in 1999 to clarify the circumstances in which the international community can intervene to avert an overwhelming humanitarian catastrophe. I welcome the UN Secretary-General's decision to set up a High Level Panel to review how the UN can respond more effectively to threats to international peace and security. We will continue to promote this debate in discussions with our partners within and outside the Security Council.

Middle East

Llew Smith: To ask the Prime Minister what matters in respect of *(a)* Israel's weapons of mass destruction and *(b)* the deployment of weapons of mass destruction in the Middle East were discussed with the Palestinian Prime Minister on 8 March. [161179]

The Prime Minister: None. The priority of the meeting was to discuss with the Palestinian Prime Minister the Middle East Peace Process and efforts to move it forward.

Welsh Assembly

Mr. Wiggin: To ask the Prime Minister what recent assessment he has made of the implications of giving additional powers to the Welsh Assembly. [161194]

The Prime Minister: Since devolution on 1 July 1999, the Government have agreed to transfer additional functions to the National Assembly for Wales, including this past year responsibility for the fire service, student support and the Children and Family Courts Advisory and Support Service (CAFCASS). They are also considering a request from the Assembly Government for the transfer of responsibility for Animal Health.

The Richard Commission established by the National Assembly for Wales to consider its powers and electoral arrangements is due to report to the Welsh Assembly Government soon. The Government will consider any representations which the Assembly Government may make in response to the Richard Commission's report.

FOREIGN AND COMMONWEALTH AFFAIRS

Conferences

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how many conferences were hosted by the Department in the UK and abroad in the year to 29 February; and what the cost was of these conferences, broken down by *(a)* travel costs, *(b)* food and drink, *(c)* accommodation and *(d)* miscellaneous costs. [160796]

Mr. Straw: Foreign and Commonwealth Office (FCO) Services (Conferences and Events) has organised 14 conferences for the FCO in the period in question, one of which was held overseas. Total costs were: travel: £126,981.94; catering: £71,818.69; accommodation: £207,442.46; miscellaneous: £320,742.21.

The FCO's Executive Agency, Wilton Park, held 43 conferences in the UK on a wide range of international themes from March 2003 to February 2004. Costs are offset by conference sponsorship, both from FCO departments and from outside organisations. Total costs were: travel for speakers and participants £324,112; catering £125,000; accommodation £265,000; miscellaneous (running costs of staff and premises) £2,238,000.

Additionally, five Wilton Park conferences were held abroad in that period. Local conference partners meet the in-country costs for food, accommodation and miscellaneous costs.

FCO Directorates may opt to manage events from their own resources rather than ask FCO Services (Conferences and Events) to do so, but details of these events are not held centrally and can be collated only at disproportionate cost.

Israel

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the scale of the benefits to Israel of its preferential terms of trade with the European Union. [160164]

Mr. Mike O'Brien: I have been asked to reply.

None.

Under the terms of the EU-Israel Association Agreement, goods originating in the State of Israel may be imported into the European Union at preferential rates of duty, including zero rates. Israeli exports to the UK were worth £911 million in 2002.

This agreement forms part of the broader relationship between the EU and 12 Mediterranean countries, known as the Euro-Mediterranean Partnership. Through a series of Association Agreements, each country will gain access to the EU market on an equal and non-discriminatory basis.

Cote d'Ivoire

Mr. Roy: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had concerning the disarmament of rebel opposition forces in the Ivory Coast. [160267]

Mr. Mullin: UK officials and Ministers have regular discussions with key partners on a range of issues related to the peace process.

The UK fully supports the Linas Marcoussis Agreement (LMA) as the basis for sustainable peace in Cote d'Ivoire. The LMA provides for a disarmament process, as well as a programme of legislation to address the underlying causes of the crisis. We welcome the steps that have been taken in recent months on both these issues. It is important that disarmament, demobilisation and re-integration, and progress in the wider peace process, continue in parallel. We urge all parties concerned to make early progress.

Caribbean

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs how many representations he has received on the implications for British posts in the Caribbean region of his Department's paper on UK International Priorities, a Strategy for the FCO. [160562]

Mr. Rammell: I understand that we have received one such representation since the publication of the White Paper, UK International Priorities: A Strategy for the FCO on 2 December 2003.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what deadline he has set for responses to his paper on UK International Priorities, a Strategy for the FCO; and whether the paper will be discussed at the Caribbean Foreign Ministers forum in May. [160563]

Mr. Rammell: No deadline has been set for responses to the White Paper, UK International Priorities: A Strategy for the FCO. The Foreign and Commonwealth Office will review the strategy every two years, inviting external contributions.

Discussion at the UK/Caribbean forum in May will focus on key areas of mutual interest, including security cooperation, trade policy and HIV/AIDS.

United Nations

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanisms exist to establish a forum at United Nations level facilitating dialogue between aid representatives and representatives of governments. [160737]

Mr. Rammell: The United Nations organises many fora where aid representatives and representatives of government can hold a dialogue. We do not believe there is a need to establish new fora. Various UN funds and programmes and specialised agencies work in the development area; the regular meetings of their governing bodies allow a dialogue between the organisations concerned and member states. The General Assembly and Economic and Social Council of the UN frequently discuss development issues. At a country level, regular exchanges between aid representatives and donor governments take place on a bilateral and multilateral basis.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the level of public expenditure by the Office of the President of Zimbabwe. [160721]

Mr. Mullin: Comparison of the Zimbabwe state budget for 2004 with the original and supplementary budgets of 2003 shows a significant increase in provision for the Office of the President. We have not made an analysis of how this money is actually spent.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Zimbabwe Government about its *(a)* Public Order and Security Act and *(b)* Access to Information and Protection of Privacy Act. [160726]

Mr. Mullin: We have made the Government of Zimbabwe aware of our concerns about legislation, which is being used to suppress basic human rights such as freedom of speech and association, and freedom of the press.

EU Foreign Ministers, including my right hon. Friend the Foreign Secretary, met on 23 February, and issued a strong statement condemning human rights abuses in Zimbabwe which drew specific attention to these Acts.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterparts in *(a)* the European Union, *(b)* the United Nations and *(c)* the Commonwealth on the activities of the youth militia in Zimbabwe. [160730]

Mr. Mullin: The use by the Zimbabwe Government of youth militias (the so called "Green Bombers") for violence and intimidation of government opponents is well documented. We and our EU partners have called for the immediate closure of the youth training camps.

With our EU partners, we are discussing the tabling of a resolution on Zimbabwe at the UN Commission on Human Rights when it meets later this month. The intent is to highlight the level of human rights abuses in Zimbabwe and to call on the Government of Zimbabwe to take action.

Violence and human rights in Zimbabwe was a major theme of discussion at the Commonwealth Heads of Government meeting in Abuja in December, which decided to maintain Zimbabwe's suspension from the Councils of the Commonwealth.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the European Union about the list of persons from Zimbabwe banned from travelling to member states in the European Union. [160733]

Mr. Mullin: I refer the hon. Member to the answer my right hon. Friend the Foreign Secretary gave to the right hon. and learned Member for Devizes (Mr. Ancram) on 23 February 2004, *Official Report*, column 96W.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the list published in the *Daily News* in Zimbabwe in 2003 of *(a)* police and *(b)* others who are suspected of human rights abuses. [160736]

Mr. Mullin: We take seriously information on reported human rights abusers in Zimbabwe such as those on the *Daily News* list. We will continue to make our concerns about the abuse of human rights clear to the Zimbabwe authorities.

CABINET OFFICE

Asbestos

Malcolm Bruce: To ask the Minister for the Cabinet Office if he will list the buildings occupied by his staff which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159362]

Mr. Alexander: None of the buildings occupied by Cabinet Office staff including the Government Car and Despatch Agency and Central Office of Information require remedial work in relation to the presence of asbestos. The Emergency Planning College in Easingwold has one residential building that requires the removal of asbestos and it is due to be demolished in September 2004. £10,500 has been set aside for the removal of asbestos from this building.

Future asbestos surveys will be funded as required from the estates maintenance budget.

Responsibility for buildings occupied but not controlled by Cabinet Office rests with the respective landlords.

Official Publications

Mr. Heald: To ask the Minister for the Cabinet Office how much the Department spent on official publications in each year since 1999. [159331]

Mr. Alexander: The details of my Department's spend on the production and purchase of all publications in each year from 1998–99 to 2003–04 can be found in the following table:

	Total (£000)
1998–99	2,013
1999–2000	2,815
2000–01	2,834
2001–02	2,751
2002–03	3,236
2003–04 (Estimated)	1,330

Public Service (Disqualification)

Mr. Heald: To ask the Minister for the Cabinet Office in which areas of public service and activity *(a)* illiteracy and *(b)* mental ill health are a disqualification from participation. [159341]

Mr. Alexander: Recruitment to the Civil Service and for public appointments is based on merit. Within the framework laid down by the Civil Service Order in Council 1995 and the Civil Service Commissioner's Recruitment Code, departments and agencies have the authority to prescribe qualifications for appointment to positions in their organisations in relation to age,

knowledge, ability, professional attainment, aptitude, potential, health and coping with the demands of the job.

Under the Civil Service Management Code, departments and agencies must ensure that their recruitment systems deliver recruits who are appropriate to their needs and who are able to do the work required subject to reasonable adjustments under the terms of the Disability Discrimination Act 1995.

When making public appointments, departments are required to follow the Commissioner for Public Appointments' Code of Practice to ensure appointment on merit. Criteria for selection can take account of the need to appoint boards that include a balance of skills and background.

Regulatory Impact Assessments

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office what guidance his Department has issued on the provision of *(a)* an estimate of the cost of enforcement of regulation and *(b)* a description of how the regulation is to be monitored in regulatory impact assessments. [160130]

Mr. Alexander: In January 2003, the Cabinet Office issued 'Better Policy Making: A Guide to Regulatory Impact Assessment' detailed guidance on the regulatory impact assessment(RIA) process. This recommends that all RIAs should include analysis of the costs and benefits of proposals and set out the necessary monitoring and evaluation processes. Copies are available in the Libraries of the House. Revised web-based guidance, building on the January version, was issued by the Cabinet Office in November 2003. This can be found at www.cabinet-office.gov.uk/regulation/ria-guidance/

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office how many regulatory impact statements were issued by the Small Business Service in each year since 1998; and if he will make a statement. [160131]

Nigel Griffiths: I have been asked to reply.

The Small Business Service does not issue regulatory impact assessments.

DEFENCE

Airfield Support Services Project

Mr. Hancock: To ask the Secretary of State for Defence what the original expected date was for announcing a decision on the Airfield Support Services Project; what the current expected date is; and what the reasons are for the delay. [160771]

Mr. Ingram: The Main Gate approval decision for the Airfield Support Services Project was originally envisaged for the first quarter of 2003. Although we are now moving towards this major decision stage, no decision has been made and I am not yet in a position to say exactly when this will be. The evaluation of this complex project has taken longer than anticipated. The time taken reflects the need to ensure that a fully informed decision is made.

Anti-Terrorism, Crime and Security Act

Malcolm Bruce: To ask the Secretary of State for Defence (1) what guidance his Department has issued to companies on Part 12 of the Anti-Terrorism, Crime and Security Act 2001; [158309]

(2) what meetings his Department has held with companies to discuss *(a)* Part 12 of the Anti-Terrorism, Crime and Security Act 2001 and *(b)* corruption laws in the UK; and on what dates. [158310]

Mr. Ingram: Guidance in this area is a matter for the Department of Trade and Industry. I refer the hon. Member to the answer given by my noble Friend Lord Sainsbury of Turville on 4 March 2004, *Official Report*, column 120WA, in another place. The Ministry of Defence has not issued guidance or held meetings with United Kingdom companies in respect of the Act.

Arms Dealers

Angus Robertson: To ask the Secretary of State for Defence whether arms dealers whose commodities do not *(a)* originate in and *(b)* enter the UK are subject to end user certificate legislation; and if he will make a statement. [160192]

Nigel Griffiths: I have been asked to reply.

From 1 May 2004, controls will apply in certain cases in respect of military goods traded between countries outside the UK (controls on such trade to embargoed destinations came into force on 3 March 2004). End-user documentation requirements under the new trafficking and brokering controls will be similar to those currently in place under existing export controls.

Asbestos

Malcolm Bruce: To ask the Secretary of State for Defence what proportion of buildings occupied by *(a)* his Department's staff and *(b)* staff of his Department's executive agencies have been surveyed to date for the purpose of identifying the presence of asbestos prior to implementation of the Control of Asbestos at Work Regulations 2002. [159353]

Mr. Caplin: The Ministry of Defence complies fully with the Control of Asbestos at Work Regulation 2002, but there is no central register of surveyed buildings in which asbestos is known to be present belonging to the department or its agencies. Such a register or list could be compiled only at disproportionate cost. Once surveys have been undertaken, however, a management plan is produced by each establishment to ensure appropriate action is taken.

Malcolm Bruce: To ask the Secretary of State for Defence if he will list the buildings occupied by his departmental staff, including agencies, which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159360]

Mr. Caplin: There is no central register of surveyed buildings occupied by Departmental staff including agencies, which require either remedial work on or the removal of asbestos. Such a register or list could be compiled only at disproportionate cost.

Continuous Attitudes Survey

Angus Robertson: To ask the Secretary of State for Defence how many times per annum the Continuous Attitudes Survey is distributed among *(a)* Royal Navy, *(b)* Army and *(c)* RAF personnel; how long assessment of the answers took on average for each round in each of the last four years; what the participation rate was in each of the last four years (i) in total numbers and (ii) as a percentage of distributed surveys each year for each of the three branches; and if he will make a statement. [160120]

Mr. Caplin: The Continuous Attitude Surveys (CAS) are run differently in the three Services.

Royal Navy

The RN CAS was distributed four times in the year 2000, three times in 2001 and twice in 2002 and 2003. The average time taken to process answers and conduct initial analysis of raw data is three months.

	Issues	*Number of questionnaires distributed*	*Number of responses received*	*Response rate (%)*
2000	January, April, July November	8,022	3,417	42.5
2001	March, July, December	6,000	2,713	45.2
2002	June, September	4,000	1,898	47.4
2003	January, September	5,027	2,321	46.1

Army

The Army CAS is distributed bi-annually. It takes approximately seven-eight months to collate the questionnaires, and complete the analysis.

The timing of survey distributions over the last four years has not been standardised. The following table shows response-rate figures by each survey distributed over the last four years.

Survey number	*Number of responses received*	*Response rate (%)*
SP1	2,634	57
SP2	2,110	53
SP3	2,037	51
SP4	1,753	44
SP5	2,324	48

RAF

The RAF CAS is issued four times per year, on the first working day of each February, May, August and November. A database of responses is prepared within three to four months of the survey's distribution. Analyses can be carried out at any time once the database is available. Response-rate statistics are set out in the following.

	Issues	*Number of questionnaires distributed*	*Number of responses received*	*Response rate (%)*
2000	February, May, August, November	8,000	4,691	58.6
2001	February, May, August, November	8,000	4,678	58.5
2002	February, May, August, November	8,000	4,528	56.6
2003	February, May, August[1]	6,000	3,090	51.5

[1] November data not yet available .

Defence Bills Agency

Angus Robertson: To ask the Secretary of State for Defence how many bills were processed by the Defence Bills Agency in fiscal year 2002–03; what the total value of the bills was; and what the total amount paid out was in *(a)* 2002–03, *(b)* 2001–02 and *(c)* 2000–01. [159243]

Mr. Caplin: In 2002–03, the Defence Bills Agency processed 4,537,462 bills. The value of the bills processed by DBA in each of the last three years was as follows:

	£ million
2002–03	17,462
2001–02	16,986
2000–01	15,914

Angus Robertson: To ask the Secretary of State for Defence how many bills pertaining to *(a)* companies based in Scotland and *(b)* procurement projects relating to bases in Scotland were processed by the Defence Bills Agency in fiscal year 2002–03; what the total value of the bills was; and what the total amount paid out was in (i) 2002–03, (ii) 2001–02 and (iii) 2000–01. [159244]

Mr. Caplin: The information is not held centrally and could be provided only at disproportionate cost.

Defence-related Industries

Angus Robertson: To ask the Secretary of State for Defence how his Department calculates the number of people employed in and by defence related industries in the regions of the UK; what multiplier is used; and what the *(a)* regional and *(b)* national totals are. [159306]

Mr. Caplin: I refer the hon. Member to the answer given to him on 12 December 2002, *Official Report*, column 418W in which the methodology was described. As indicated in this answer, a detailed report was being prepared. This is now available as Defence Statistics Bulletin 5. It has been published on the Defence Analytical Services Agency's website: www.dasa.mod.uk/statbulletin/bulletin5.pdf.

The latest estimate of the number of full time jobs supported in the UK by MOD expenditure and defence exports is around 295,000 in 2001–02. No estimate is currently available on the breakdown of employment numbers by region.

Eurofighter Typhoon

Mr. Jack: To ask the Secretary of State for Defence what studies he has conducted on the impact on BAE *(a)* workflows and *(b)* employment prospects of the delay in agreeing the Tranche II order for Eurofighter Typhoons. [159498]

Mr. Ingram: As part of our approach defined in the Defence Industrial Policy Paper, we continually monitor with industry the effects of defence expenditure on the industrial base. However the direct impact on BAE systems of workflows and employment prospects are a matter for the company. Negotiations with our partner nations and industry on the Tranche II order for Typhoons are ongoing.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence which Royal Navy ships will visit Gibraltar for the tercentenary celebrations. [160484]

Mr. Ingram: Plans have been made for the Royal Navy to support the tercentenary commemorations. I am withholding details of future ship programmes, under Exemption 1 of the Code of Practice on Access to Government Information for security reasons.

Mr. Hoyle: To ask the Secretary of State for Defence if he will visit Gibraltar in 2004. [160487]

Mr. Ingram: I refer my hon. Friend to the statement made to the House on 27 November 2003, *Official Report*, columns 224–25 by my right hon. Friend the Secretary of State for Defence.

Iraq

Mr. Andrew Turner: To ask the Secretary of State for Defence pursuant to his oral answer of 26 January 2003, *Official Report*, column 8, on Iraq, to the hon. Member for Stockton, South (Ms Taylor), what resources were in theatre but did not reach front-line forces in time for deployment. [151711]

Mr. Hoon *[holding answer 29 January 2004]:* A full report on Operation TELIC entitled "Operations in Iraq: Lessons for the Future" can be found on the MOD's website (www.mod.uk in the "Publications and Reports" section). The report identifies several factors as being responsible for delivery problems that occurred in theatre. These include the asset tracking systems in place and the short period of time available for preparation and planning of deployment. Specific items that suffered from delivery problems in theatre include some vehicle spares and personal kit such as, desert combat clothing and Enhanced Combat Body Armour plates. Where there was a lack of equipment, priority was given to those personnel on the ground whom commanders judged to have the greatest need. We have drawn lessons from this and other recent operations, such as improving our asset tracking capability, and are always looking for ways in which to enhance our logistics performance.

Adam Price: To ask the Secretary of State for Defence what his latest estimate is of civilian deaths arising from attacks by insurgents in the British zone in Southern Iraq since the official cessation of hostilities. [153872]

Mr. Ingram: It is not possible to estimate the number of civilian deaths which might be attributable to insurgent attacks.

Mr. Keetch: To ask the Secretary of State for Defence pursuant to the answer of 2 March 2004, *Official Report*, column 790W, on Iraq, how many rounds were issued to the Royal Military Police Personnel who lost their lives in Al Majarr Al Kabir on 24 June 2003; and if he will make a statement. [160227]

Mr. Ingram: A Board of Inquiry (BOI) is being convened today, to examine the circumstances in which the 6 Royal Military Policemen died. The BOI will address a wide-ranging series of questions including the issue of equipment to the men prior to their departure for Al Majarr Al Kabir. I would not wish to speculate on the BOFs conclusions.

Mr. Amess: To ask the Secretary of State for Defence how many civil servants are searching for weapons of mass destruction in Iraq. [160604]

Mr. Ingram: On 9 March 2004 there were 22 UK civil servants attached to the Iraq Survey Group, which is responsible for the search for weapons of mass destruction in Iraq.

Llew Smith: To ask the Secretary of State for Defence for what reasons the British members of the Iraq Survey Group have not been provided with direct access to the Iraqi Government declaration on its weapons of mass destruction programme dated 8 December 2002. [161188]

Mr. Hoon: The Iraqi Declaration on WMD programmes consists of 12,093 pages, some 3,500 of which are written in Arabic. The declaration covers Chemical Weapons, Biological Weapons, Nuclear and Missile activities. The full document is available in hard copy in London and Washington, with supporting documents and translations of relevant pages of Arabic available in soft copy. Although the ISG do not have immediate access to a full copy of the declaration, British members can access relevant parts through London, whenever they wish.

Met Office

Mr. Laws: To ask the Secretary of State for Defence what his estimate is of the asset value of the Meterological Office; what the cost in 2003–04 to his Department is of this organisation; and if he will make a statement. [156603]

Mr. Caplin: The Met Office operates as a Trading Fund and is self-financing.

The only direct cost of the Met Office to the Ministry of Defence as owner is a cost of capital charge which is made by the Treasury on all assets held by the MOD. The published accounts of the Met Office show that at 31 March 2003 its net assets were £159,498,000.

RAF St. Athan

Mr. John Smith: To ask the Secretary of State for Defence what progress is being made on the joint provision of leisure facilities at RAF St. Athan by the Ministry of Defence and the local authority for use by military and civilian personnel; and if he will make a statement. [160744]

Mr. Ingram: In December 2003, following discussions between MOD, the Welsh Development Agency and Vale of Glamorgan council officials, a firm of external consultants was appointed to undertake a study into the feasibility of a leisure centre that could be used by both Service personnel and the local community. They are due to report in April 2004.

Regimental Artefacts

Andrew Mackinlay: To ask the Secretary of State for Defence apart from the colours displayed in Windsor

Castle, where the regimental silver and other artefacts of the Irish regiments disbanded in 1922 are held; and if he will make a statement. [158838]

Mr. Caplin: When the five Irish Infantry Regiments, together with the South Irish Horse, were disbanded in 1922, some items of Regimental memorabilia were reclaimed by donors or dispersed among former officers and NCOs. Some Regimental books were deposited at the Public Record Office, now the National Archives. Otherwise, the greater part of Mess silver and artefacts now belongs to the National Army Museum, which is the Regimental Museum for the disbanded Irish Regiments. Canadian silver and artefacts of the 1st Battalion Leinster Regiment (Royal Canadian) are now in the Museum of the Royal Military College, Kingston, Ontario.

Territorial Army

Mr. Keetch: To ask the Secretary of State for Defence how many personnel *(a)* joined and *(b)* left the Territorial Army in each month during (i) 2002 and (ii) 2003, and what the reason for departure was in each case. [157149]

Mr. Caplin *[holding answer 5 March 2004]:* Reliable inflow and outflow data for the TA are not currently available and for the same reason it is not possible to provide reasons for departure.

Warships

Dr. Julian Lewis: To ask the Secretary of State for Defence what increase in capability would result from the upgrading of the gun turret on a Type 45 destroyer to house *(a)* a 127 mm and *(b)* a 155 mm gun, instead of a standard 115mm gun. [158141]

Mr. Ingram *[holding answer 4 March 2004]:* The overall capability offered by the Type 45 destroyer's gun is not related simply to the calibre of the barrel, but to the ammunition which could be used.

The standard 115 mm (4.5") gun is capable of delivering conventional munitions to a range of up to 27 km. 127 mm and 155 mm guns would be capable of firing munitions to a range of 75–80 km. They would also be capable of firing modern guided munitions and, in the case of the 155 mm gun, these would be considerably heavier than the 115 mm gun's conventional munitions.

The design of the Type 45 includes space and weight margins which would allow for the fitting of an improved Medium Range Gun, should such a requirement emerge. There is no such requirement at present. In the case of a 155 mm gun, this would also depend on the maturity of its technology, as there are no such naval guns yet in service world-wide.

Mr. Hancock: To ask the Secretary of State for Defence what the expected decommissioning dates are of *(a)* HMS Newcastle, *(b)* HMS Cardiff, *(c)* HMS Glasgow, *(d)* HMS Liverpool, *(e)* HMS Norfolk and *(f)* HMS Iron Duke. [160772]

Mr. Ingram: The present decommissioning dates for each ship are as follows.

	Decommissioning dates
HMS Newcastle	2007
HMS Cardiff	2008
HMS Glasgow	2009
HMS Liverpool	2009
HMS Norfolk	2014
HMS Iron Duke	2020

Mr. Hancock: To ask the Secretary of State for Defence if he will list the Type-42 destroyers to be fitted with the Warship Electronic Chart Display and Information System. [160773]

Mr. Ingram: The Warship Electronic Chart Display and Information System (WECDIS) will be fitted to the following Type 42 Destroyers: HMS Exeter, HMS Liverpool, HMS Nottingham, HMS Southampton, HMS Edinburgh, HMS Gloucester, HMS Manchester and HMS York.

Wind Farms

Adam Price: To ask the Secretary of State for Defence (1) if he will make a statement on the holding of low flying military exercises near renewable wind developments; [160259]

(2) if he will make a statement on the effect of renewable wind developments on military low flying exercises. [160268]

Mr. Caplin: The presence of wind farms in most areas of the UK presents no difficulty to low flying training providing pilots are aware of the existence and position of the developments. They are treated the same as any other obstruction; displayed on military low flying charts and published in the Military Aeronautical Planning Document Volume 3 Part 1. They are then taken into account during route planning and avoided by standard separation criteria, these vary according to the type of aircraft.

The Tactical Training Areas and the Electronic Warfare Training Range at Spadeadam in the English/Scottish border region are critical to low flying training because aircraft are allowed to fly at much lower levels. Within these areas an accumulation of wind turbines, particularly if combined with other obstacles, could give rise to concerns and could affect our ability to conduct operational flying training effectively. We are therefore more likely to raise objections to proposals for developments in these areas.

CONSTITUTIONAL AFFAIRS

Census Returns

Mr. John Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the financial consequences of reducing the 100-year closure period for decennial population census records for England. [160430]

Mr. Leslie: Under Lord Chancellor's Instrument no.12 of 1966 the decennial census returns are closed for 100 years, on the grounds that they contain information

supplied in confidence. It would not, therefore, be appropriate to estimate the financial impact of earlier release dates.

Departmental Communications

Matthew Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158173]

Mr. Lammy: The Department for Constitutional Affairs (DCA), which includes its agencies—the Court Service and the Public Guardianship Office (PGO)—employs 60 staff in communications work. This figure comprises 24 staff of the Government Information and Communication Service (GICS) and 36 others.

	Number
Department for Constitutional Affairs HQ:	
(a) GICS staff:	
(i) Press Officers	13
(ii) Special Advisers	0
(iii) Others	11
(b) Other staff:	
(i) Press Officers	1
(ii) Special Advisers	2
(iii) Others	10
Court Service:	
(a) GICS staff:	
(i) Press Officers	0
(ii) Special Advisers	0
(iii) Others	0
(b) Other staff:	
(i) Press Officers	0
(ii) Special Advisers	0
(iii) Others	20
Public Guardianship Office:	
(a) GICS staff:	
(i) Press Officers	0
(ii) Special Advisers	0
(iii) Others	0
(b) Other staff:	
(i) Press Officers	1
(ii) Special Advisers	0
(iii) Others	2

Note:
'Others' includes staff working on publications, publicity, internal communications, websites and administration.

Court Buildings (Disabled Access)

Mr. Lidington: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the court buildings that are not yet compliant with the Disability Discrimination Act 1995; and, for each such court, when his Department plans to comply with the Act. [160473]

Mr. Leslie: Taking the 1 April of 2004 as a baseline, the court buildings scheduled in the list will not be compliant with the Disability Discrimination Act 1995 on that date. A plan of works is in hand to ensure that, with one exception, all these buildings will comply with the Act, in so far as is reasonable, by 30 September 2004. The one exception is the Crown court at Cardiff where it is not anticipated that the necessary works will be completed until 30 November 2004.

Parliamentary Questions

Norman Baker: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many Parliamentary Questions have been tabled to the Department or its predecessors since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157520]

Mr. Leslie: During the period 1 January 2003 to 24 February 2004, my Department has answered 963 ordinary written Parliamentary Questions of which 89 per cent. were answered within 10 days and 122 named day Parliamentary Questions of which 82 per cent. were answered on the specified date. My Department endeavours to answer all Parliamentary Questions within their deadlines.

Westminster Hall

Bob Spink: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make it the policy of the Department to have senior Ministers reply to debates in Westminster Hall. [159609]

Mr. Lammy: I refer the hon. Member to the answer given to him by the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

CULTURE, MEDIA AND SPORT

Television Licence Fees

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport what *(a)* amount and *(b)* proportion of BBC licensing revenue was lost as a result of evasion in the last year for which figures are available. [160683]

Estelle Morris: As at March 2003, the estimated television licence evasion rate was 7.2 per cent., representing approximately £205 million in lost television licence fee revenue.

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport for what proportion of television licence-holders the cost of their licence exceeded 2 per cent. of annual income in the last year for which figures are available. [160686]

Estelle Morris: The information requested is not available since TV Licensing, who administer the television licensing system for the BBC, do not maintain statistics on the income of licence fee payers.

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport how many persons were *(a)* fined and *(b)* imprisoned for not having a television licence in 2003. [160687]

Estelle Morris: Home Office figures show that 94,590 defendants were fined for offences under the Wireless Telegraphy Act 1949 to 1967 (mainly television licence evasion) in England-and Wales in 2002. Figures for 2003 will be published in late Autumn.

Custodial sentences are not available for television licence evasion, the maximum penalty being a fine. However, custodial sentences can be imposed for non-payment of such a fine. In 2003, 17 males and three females received custodial sentences for defaulting on the payment of a fine for TV Licence evasion.

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport how many prosecutions there were for offences connected with television licensing in 2003. [160684]

Estelle Morris: TV Licensing, who administer the television licensing system for the BBC, gather these figures on a financial year basis. 149,000 people were prosecuted during 2002–03.

Cultural Programmes

Mr. Denis Murphy: To ask the Secretary of State for Culture, Media and Sport if she will list the UK bodies that have benefited from funding under *(a)* the Kaleidoscope Programme, *(b)* the Ariane Programme and *(c)* the Raphael Programme. [160940]

Estelle Morris: Neither this Department nor the European Commission maintain an electronic database of awards that were made under the Kaleidoscope, Ariane and Raphael cultural funding programmes. We have, however, asked Euclid, the UK's Cultural Contact Point, who maintain paper records of all awards made under the aforementioned programmes to compile a list of UK recipients.

The list is likely to be too extensive to be printed in full in the *Official Report* and therefore will be placed in the Libraries of both Houses by 19 March 2004. Euclid has already started work on compiling an electronic database for UK recipients of awards under the current Culture 2000 funding programme.

Edgworth Cricket and Recreation Club

Janet Anderson: To ask the Secretary of State for Culture, Media and Sport when the North West Regional Sports Board will reach a decision on the application from the Edgworth Cricket and Recreation Club for support for pavilion development. [161124]

Mr. Caborn: Sport England have advised that following the first meeting of the North West Regional Sports Board they wrote to Edgworth Cricket and Recreation Club on 5 February 2004 setting out the three funding options available to the Club in light of the current funding streams in the North West Region.

Entertainment Costs

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the costs to public funds was of parties held for the private offices of Ministers in her Department in the last five years. [157774]

Mr. Caborn: Since 2001 no parties have been held solely for the benefit of private office staff. From time to time private office staff are invited to attend certain functions held for external people.

No information is held for the period prior to 2001.

Libraries (Digitisation)

Mrs. Curtis-Thomas: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on the digitisation of content in libraries in Crosby since 1997. [160451]

Estelle Morris: Sefton borough council is a partner in the Merseyside Gateway Project which received £370,000 from the New Opportunities Fund to create a website depicting the history and growth of the Port of Liverpool and its environs. Crosby library supplied around two-thirds of the local images supplied by Sefton to the website. The Council's contribution to the project was £5,000.

New Opportunities Fund (Buckingham)

Mr. Bercow: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Buckingham in each year since 1997. [161323]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to the Buckingham constituency are shown in the table which is derived from information supplied by the New Opportunities Fund.

	£
1999	26,850
2000	73,109
2001	5,000
2002	9,130
2003	128,658
To February 2004	0

Project Funding

Mr. Colman: To ask the Secretary of State for Culture, Media and Sport how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which her Department is responsible have been launched in each region in each of the last 10 years. [160947]

Mr. Caborn: I refer my hon. Friend to HM Treasury's website which contains details of all signed PFI projects: <http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm>. The list can be searched by Department and by region and it contains details of all PFI deals signed over the last 10 years, including the capital value of each project.

The information concerning solely state financed projects, and all public-private partnerships could be provided only at disproportionate cost.

Mr. Colman: To ask the Secretary of State for Culture, Media and Sport how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which her Department is responsible, in each of the last 10 years, broken down by region. [160948]

Mr. Caborn: I refer my hon. Friend to HM Treasury's website which contains details of all signed PFI projects: <http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm>. The list can be searched by Department and by region and it contains details of all PFI deals signed over the last 10 years.

The information concerning solely state financed projects, and all public-private partnerships could be provided only at disproportionate cost.

Television Ownership

Mr. Carmichael: To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the number of households who do not own a television in *(a)* Scotland, *(b)* England, *(c)* Wales and *(d)* Northern Ireland. [160703]

Estelle Morris: The information requested is not available since TV Licensing, who administer the television licensing system for the BBC, do not maintain statistics on television ownership in the individual nations of the United Kingdom. However, in the UK as a whole, an estimated 2 per cent. of households do not have a television set.

Tourism (Regional Development Agencies)

Mrs. Curtis-Thomas: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the work of regional development agencies in developing tourism in Crosby. [160564]

Mr. Caborn: The North West Development Agency (NWDA) is working closely with The Mersey Partnership (TMP), the nominated Destination Management Organisation (DMQ) for Merseyside.

During 2003–04 TMP received £320,000 from NWDA's Marketing Image Budget for tourism and investment campaigns to promote Merseyside, including Crosby. In addition, £419,000 was provided from NWDA's Tourism budget for a variety of projects. However, NWDA does not have a specific breakdown of funding provided to the area at this stage.

NWDA has also supported a programme for the Mersey Waterfront Regional Park, which covers an area from Southport to Wirral, including Crosby. The programme is aimed at transforming and energising the Mersey Waterfront to produce a unique sense of place for people to live, work, visit and invest in Merseyside.

Weymouth Transmitter

Jim Knight: To ask the Secretary of State for Culture, Media and Sport whether planned upgrades to the Weymouth transmitter will enable the broadcast of digital signal prior to turning off the analogue signal. [161056]

Estelle Morris: The Weymouth site has recently been updated to transmit digital radio. However, until analogue signals are switched off there will be no frequencies available to broadcast digital television services from the Weymouth transmitter without causing interference to viewers' existing analogue signals.

Jim Knight: To ask the Secretary of State for Culture, Media and Sport which broadcasters are responsible for the upgrading of the Weymouth transmitter to enable digital broadcasting. [161057]

Estelle Morris: The Weymouth site is owned by Crown Castle but ntl also use the transmitter. Upgrading is therefore their joint responsibility on behalf of the multiplex operators (BBC, Digital 3/4, SDN and Crown Castle International) under Ofcom's regulation.

DEPUTY PRIME MINISTER

Casinos

Sue Doughty: To ask the Deputy Prime Minister what account regional development agencies take of the prevention of proliferation in problem gambling when assessing proposed large regional casino schemes. [158314]

Jacqui Smith: I have been asked to reply.

The consideration of where large regional casino schemes should be encouraged falls to regional planning bodies (RPBs) rather than regional development agencies (RDAs), as it is RPBs that prepare regional planning guidance.

Child Poverty

Mrs. Roche: To ask the Deputy Prime Minister what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if he will make a statement. [154370]

Yvette Cooper: I refer my right hon. Friend to the answer given by the Parliamentary Under-Secretary of State for Work and Pensions my hon. Friend the Member for Gravesham (Mr. Pond) on 12 February 2004, *Official Report*, column 1590W.

Civil Servants

Dr. Cable: To ask the Deputy Prime Minister how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150266]

Yvette Cooper: I refer the hon. Member to the answer given by my hon. Friend the Minister for the Cabinet Office on 9 February 2004, *Official Report*, column 1294W.

Care Homes (Gloucestershire)

Mr. Clifton-Brown: To ask the Deputy Prime Minister (1) whether his Department sanctioned Gloucestershire county council's accumulation of uncollected rents from Coverage Care (Gloucestershire) Ltd.; and what steps his Department is taking in the matter; [155230]

(2) what financial guarantees he has approved Gloucestershire county council to make in order for *(a)* Coverage Care (Gloucestershire) Ltd. and *(b)* a successor body to continue to operate elderly care homes; [155231]

(3) what contingency arrangements his Department has made to prevent closure of care homes run by Coverage Care (Gloucestershire) Ltd.; what liabilities will be undertaken by Gloucestershire county council; and whether any liabilities will be funded by council tax revenues. [155232]

Yvette Cooper: Section 25 of the Local Government Act 1988 requires the consent of the Secretary of State to be obtained if a local authority decides to give financial assistance in connection with elderly persons' residential accommodation.

The Secretary of State consented to Gloucestershire county council giving financial assistance in 1994 when the current arrangements with Coverage Care (Gloucestershire) Ltd were entered into. In 1999, my right hon. Friend the Deputy Prime Minister granted a general consent to all local authorities in England to give financial assistance in various circumstances. No other consent has been sought by the Council or granted. The Office of the Deputy Prime Minister has not sanctioned the accumulation of uncollected rents from Coverage Care.

Powers to make arrangements for residential care are vested in local authorities and therefore it is the responsibility of Gloucestershire county council to deliver this service to the public. Consequently, it is not for Government to make contingency arrangements.

Housing (Buckingham)

Mr. Bercow: To ask the Deputy Prime Minister if he will make a statement on how the change in the level of central Government funding for local authority financed housing has affected the residents of Buckingham since 1997. [161468]

Keith Hill: Buckingham is within the district of Aylesbury Vale. Aylesbury Vale district council received housing capital allocations of £1.7 million in 1997–98, rising to £6.1 million in 2004–05. This is an increase of 250 per cent. over the period.

How these allocations have been spent in relation to the residents of Buckingham is a matter for Aylesbury Vale district council.

Quality Parish and Town Council Scheme

Mr. Steen: To ask the Deputy Prime Minister how public participation is implemented in the Quality Parish and Town Council Scheme; and if he will make a statement on how the scheme is progressing. [161192]

Mr. Raynsford: Decisions to award Quality parish status are taken by county accreditation panels established through the National Association of Local Councils and approved by Government. To gain Quality status a parish or town council must demonstrate that they effectively communicate and actively engage with the electorate they represent, including having a majority of their seats filled through election.

There has been considerable interest in the scheme since its launch last year, and so far 36 councils have been granted Quality status.

Radon Tests

Mr. Donaldson: To ask the Deputy Prime Minister if he will make legislative provision for *(a)* radon tests to be carried out on (i) old and (ii) new homes and *(b)* to require a radon test certificate to be furnished at the time of conveyancing. [161517]

Phil Hope: There are no plans for legislation to require radon testing of homes.

(i) In the case of homes built without radon protection, successive governments have run a radon measurement programme to identify the extent of the radon problem. In the last eight years it has mainly focused on homes likely to be at most risk. In England, where the problem is estimated to be greatest, and in Northern Ireland, that has meant every home with a greater than 5 per cent. probability of having radon concentrations at or above the National Radiological Protection Board recommended level of 200 becquerels per cubic metre of air, has been offered a free radon test. The Government's current programme continues to

offer free tests to the homes at most at risk. This targeting has encouraged the more at risk householders to undertake radon remediation. This is an approach that has been tested and shown that it can double the amount of remediation in homes where there is greatest risk from this naturally occurring radioactive gas.

Under the Office of the Deputy Prime Minister's proposals for home information packs, the pack is likely to include information on whether the property is located within a radon affected area. Issues of practicality and cost suggest that it would not be appropriate to require radon testing as part of a statutory home information pack scheme. However, this will be considered further by specialist working groups that are being set up to consider the contents of the pack before any final decisions are taken.

(ii) Post completion tests of houses that include radon measures had demonstrated that the level of protection is adequate and it would be uneconomic to test every house. Of the few houses where the radon levels have risen after occupation all but one were due to alterations to the house and the increase level in the remaining house was due to the use of a method of protection that is not recommended in official guidance.

(b) The revised questions in the searches form used in conveyancing are much more pointed in relation to radon and ask about radon tests and radon proofing. As the standardised procedures relating to house purchases address radon much more effectively than was the case in the past, there is no case to require test certificates through legislation.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister what representations he has received from the Electoral Commission concerning the publication of information by the Government during the period prior to the referendums on the proposed elected regional assemblies. [159825]

Mr. Raynsford: Sam Younger, Chairman of the Electoral Commission, wrote to the Office of the Deputy Prime Minister in January about the timing of the Government's information campaign about elected regional assemblies. He suggested that the Government's information campaign should stop once the referendum period begins.

In my reply, I have pointed out that during the course of the Regional Assemblies (Preparations) Bill, the Office of the Deputy Prime Minister undertook to deliver a leaflet providing information about the referendum issues to every household in the regions affected. It is not feasible for us to print or deliver that leaflet before the referendums have been called and the date of those referendums is settled. This commitment to Parliament could not be honoured if Mr. Younger's suggestion was followed.

Section 125 of the Political Parties, Elections and Referendums Act 2000 (PPERA) requires the Government to stop providing information 28 days before the close of poll. However, we intend these referendums to be conducted by all-postal ballot, which means that voters will receive their ballot papers, and be able to vote, up to three weeks before close of poll. We have therefore indicated to the Chairman of the Electoral Commission our intention to stop our information campaign 28 days before the first day that ballot papers can be dispatched. This complies with both the letter and the spirit of the PPERA and enables our commitment to Parliament to be honoured.

Mr. Jenkin: To ask the Deputy Prime Minister what steps he is taking to ensure that arguments *(a)* in favour of and *(b)* against elected regional assemblies will be put to the public at the regional hearings he is conducting in the next two months. [159829]

Mr. Raynsford: The regional hearings are to enable Ministers to hear views from members of the public, and others, about the proposed powers of elected regional assemblies. They are not about presenting arguments in favour of or against elected assemblies. However, representatives from both the yes and no campaigns have been invited to attend the hearings as they are key stakeholders in the regions.

Ann Winterton: To ask the Deputy Prime Minister whether the proposed Government grants of £780 million for the North West Region, £350 million for the North East Region and £570 million for Yorkshire and the Humber Region are subject to financial restraints for allocation and use; and by whom they are controlled. [160755]

Mr. Raynsford: The finance powers of elected regional assemblies were set out in Chapter 5 of the White Paper "Your Region, Your Choice: Revitalising the English Regions" (Cm. 5511).

The Government want to give elected regional assemblies the maximum flexibility over how they spend the money allocated to them. It would constrain an assembly unduly if grants were to be ear-marked by central Government for specific purposes. The Office of the Deputy Prime Minister therefore proposes to give regional assemblies a single block grant with freedom to spend money as they judge best.

In return, the Office of the Deputy Prime Minister will expect each assembly to help achieve in their region a small number of targets agreed with the Government and relevant to an assembly's responsibilities. Some additional money will be available to reward elected assemblies which achieve or exceed the targets.

Local Councillors (Anonymous Complaints)

Mr. Cummings: To ask the Deputy Prime Minister how many anonymous complaints have been made against local government councillors to the Standards Board for England since its inception; how many of these have been investigated; and which councils were involved. [155170]

Mr. Raynsford: Out of 5,819 allegations received by the Standards Board for England up to January 2004, 14 have been anonymous. Of these, three were referred for investigation. Two of these related to Councillors in Sedgefield borough council and the third to a Councillor in Selatynn and Gobowan Parish Council.

TRADE AND INDUSTRY

Working Time Directive

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many residents of Crosby have benefited from a reduction of the working week to 48 hours. [160542]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right not to work more than 48 hours if they want to. Numbers for Crosby are not available, however it has been estimated that around 50,000 workers resident in Merseyside stood to benefit from the introduction of the weekly working time limits in 1998.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits to residents of Crosby of new rights for night-shift workers. [160527]

Mr. Sutcliffe: The Working Time Regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than 6 hours.

All night workers should be offered a free health assessment before they start working night and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night, should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There are no specific data available for night shift workers in Crosby.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many residents of Crosby benefit from the right to four weeks' paid holiday. [160540]

Mr. Sutcliffe: All workers resident in Crosby benefit from the right to four weeks paid holiday set out in the Working Time Regulations.

Disciplinary and Grievance Hearings

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many residents of Crosby have benefited from new rights to representation at *(a)* disciplinary and *(b)* grievance hearings. [160541]

Mr. Sutcliffe: A worker has the right to be accompanied by a fellow worker or trade union official when asked by his or her employer to attend a disciplinary or grievance hearing. There are no estimates of the number of Crosby residents who have exercised this right since it came into force in September 2000.

Employment Rights Advice

Lynne Jones: To ask the Secretary of State for Trade and Industry what the cost in 2003–04 is to her Department of producing, in *(a)* internet and *(b)* paper format, advice on individual employment rights. [159684]

Mr. Sutcliffe: Figures are not available on the cost of providing advice on individual employment rights on the internet and could not be provided cost-effectively.

DTI anticipate costs for producing employment rights booklets for 2003–04 in paper format in the region of £460,000. Acas estimate that it will cost £265,000 for their employment rights publications. This does not include the cost of advice on new or changed rights.

Renewable Energy Initiative

Mr. Hancock: To ask the Secretary of State for Trade and Industry pursuant to her answer of 8 March 2004, *Official Report*, column 1285W, on renewable energy, how much the Renewable Energy Initiative has cost to date; and how much is budgeted to be spent in the future. [160995]

Mr. Timms: As indicated in my previous answer, the Renewable Energy Initiative focuses on raising awareness. The costs are subsumed within existing administration budgets and are not separately identifiable.

Once any business is underwritten by ECGD it would be logged as a contingent liability rather than expenditure.

EU Structural Funds

Mr. Flook: To ask the Secretary of State for Trade and Industry how much funding has been *(a)* applied for and *(b)* paid out to each region from European Union Structural Funds to date; and how much it is planned that each region will get in total from these funds. [161126]

Jacqui Smith *[holding answer 12 March 2004]:* Details of the amounts of European Structural Funds applied for and paid out to each region since the Funds first became available in the United Kingdom are not kept centrally. Compiling these figures now could be done only disproportionate cost.

However, I can provide the allocation by region of Structural Funds for the period 2000–06, which is shown in the following table:

UK Structural Funds Allocations—Including Community Initiatives 2000–06

Manufacturing

Simon Hughes: To ask the Secretary of State for Trade and Industry what the levels of *(a)* manufacturing output and *(b)* employment in the manufacturing sector were in (i) Greater London and (ii) each London borough in each of the last five years. [158452]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Simon Hughes dated 15 March 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question on levels of *(a)* manufacturing output and *(b)* employment in the manufacturing sector in (i) Greater London and (ii) each London Borough in each of the last five years. I am replying in his absence. (158452)

The information given in the attached tables on employment and Gross Value Added (GVA) in the manufacturing sector is taken from the Annual Business Inquiry (ABI). Data on GVA are provided from 1998 to 2001, the most recent year for which estimates are available. Data on employment are provided from 1998 to 2002, although estimates for 2002 are provisional. Data have not been supplied prior to 1998 since this was the first year in which the ABI was carried out; 1997 data would be from a different data collection exercise and would therefore not be comparable. The Annual Business Inquiry samples businesses on a national level stratified by country (England, Wales, Scotland and Northern Ireland) as well as by industrial classification and size band. Outputs are primarily produced at national level, with sub-national outputs (as shown in the tables) produced subsequently using a regression model to apportion the data to local units. All sub-national data should therefore be treated with caution. This particularly applies to borough-level data since small area estimates have greater sampling and modelling uncertainty.

Approximate Gross Value Added represents the income generated by businesses, encompassing wages and salaries, the cost of capital investment and financial charges, and profit. It includes taxes on production (e.g. business rates) net of subsidies but excludes subsidies and taxes on products (e.g. VAT and excise duty). The estimates shown are at current prices and hence are not adjusted for inflation The estimates for the number of employees by area are based on the location of the employing company, but it must be emphasised that they are derived from a regression model and are not actual counts of employees.

Gross Value Added (GVA)[1] at current[2] basic prices by the manufacturing sector[3] in Greater London and in London boroughs, 1998–2001

£ million

ONS Annual Business Inquiry

[1] Gross Value Added (GVA) was used as the most appropriate measure of manufacturing output as it excludes intermediate consumption that could lead to double counting
[2] Current price estimates are not adjusted to take account of inflation
[3] The data provided are for the manufacturing sector defined as sector D (Manufacturing) in the Standard Industrial Classification 1992 (SIC92)

Employment

Adam Price: To ask the Secretary of State for Trade and Industry how many manufacturing jobs have been lost so far in 2004 in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland. [160258]

Jacqui Smith: Estimates of the change in the number of workforce jobs in manufacturing are not yet available for 2004. The Office for National Statistics will publish workforce jobs estimates for March 2004 for manufacturing by region in July 2004.

Mark Gilbert Morse Solicitors

Mr. Kevan Jones: To ask the Secretary of State for Trade and Industry how many chronic obstructive pulmonary disease claims have been settled with her Department by Mark Gilbert Morse Solicitors of Newcastle. [159468]

Nigel Griffiths: As of 31 January 2004 the Department had settled 5,227 claims with Mark Gilbert Morse solicitors.

Maternity Leave

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Crosby have taken 26 weeks maternity leave since 1997. [160521]

Mr. Sutcliffe: Take-up of maternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). However, figures for the take-up of SMP are not available on a regional basis.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

Miners' Compensation

Mr. Denis Murphy: To ask the Secretary of State for Trade and Industry how much compensation has been paid to claimants in the Wansbeck constituency for *(a)* vibration white finger and *(b)* chronic bronchitis and emphysema. [159584]

Nigel Griffiths: Figures as of 31 January 2004 are:

£ million

	Total amount paid
Respiratory disease	11.9
Vibration white finger (VWF)	26.7

Constituency figures can be found on the DTI website www.dti.gov.uk/coalhealth. The information is compiled in the middle of the month and shows the figures for the end of the previous month.

Mr. Todd: To ask the Secretary of State for Trade and Industry how many mining compensation claims have reached full and final settlement using the interim pensions spreadsheet. [159591]

Nigel Griffiths: As at 7 March 2004, 23,438 respiratory disease claims had received a full and final settlement in respect of pension loss. The Department does not distinguish between claims settled using the pension calculator and claims settled using the pension loss speadsheet. However, claimants who accept a pension loss payment using the spreadsheet have the option of accepting that payment in full and final settlement of pension loss, or accepting that payment as an interim award and claiming a top-up payment if appropriate once the pension calculator has been finalised.

Mr. Denis Murphy: To ask the Secretary of State for Trade and Industry how many claims have been received for chronic bronchitis and emphysema. [159692]

Nigel Griffiths: As of 29 February 2004, the Department had received nearly 463,000 claims for respiratory disease.

Nuclear Industry

Mr. Watson: To ask the Secretary of State for Trade and Industry what recent discussions her Department has had about the future of nuclear power generation in the UK. [161003]

Mr. Timms: The Department has many discussions with the nuclear industry and with other interested groups, in some of which the future of nuclear power generation in the UK has been raised. The Government's policy on new nuclear build remains as set out in the Energy White Paper.

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry how much revenue has been received by BNFL for dealing with imported nuclear waste; and if she will make a statement. [153372]

Mr. Timms: The UK does not import nuclear waste.

As far as spent nuclear fuel is concerned, THORP's order book amounts to some £12 billion. Details of payments for BNFL's reprocessing services are commercial matters for BNFL and its customers.

Mr. Watson: To ask the Secretary of State for Trade and Industry what discussions she has had with *(a)* the Scottish Executive and *(b)* Members of the Scottish Parliament about the future management of Scotland's nuclear waste. [161005]

Mr. Timms: There is regular contact between my Department and the Scottish Executive on a range of issues relating to radioactive waste management policy.

Mr. Watson: To ask the Secretary of State for Trade and Industry what provision will be made in the Nuclear Decommissioning Authority's Segregated Account for the very long-term management of radioactive waste. [160656]

Mr. Timms: The Nuclear Decommissioning Authority (NDA) will be a Non-Departmental Public Body (NDPB) financed by the Government in the usual way.

The Nuclear Decommissioning Funding Account (NDFA) will record all the income and expenditure associated with the discharge of the NDA's responsibilities as set out in the Energy Bill and be maintained at a sufficient level to support NDA activity over the long-term. This includes securing the treatment, storage, transportation and disposal of radioactive waste.

Skills Base

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what her assessment is of employers' demand for employees with *(a)* high, *(b)* intermediate and *(c)* lower level qualifications, broken down as a percentage of the UK workforce. [158853]

Mr. Sutcliffe: I refer to my right hon. Friend, the Secretary of State's reply to the hon. Member's Question No. 155288 answered on 24 February, *Official Report*, column 396W, which set out how we seek to understand and raise employer demand for skills by working with the Sector Skills Development Agency and the Skills for Business Network to ensure that employers have the skills they require both now and in the future.

My right hon. Friend Secretary of State for Education and Skills may be able to offer further evidence on demand for qualifications but I refer you to the publication "Skills in England—2002" and the following table 6.11 gives the projected change in employment by qualifications from 1999 to 2010.

Table 6.11 Projected Employment by Qualification, 1999–2010

	Level 5		Level 4		Level 3	
Region	*1999 (Thousand)*	*Percentage ch.*	*1999 (Thousand)*	*Per cent. ch.*	*1999 (Thousand)*	*Percentage. ch.*

Wilson (2001b) Table 14, Page 19.

Small Business

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what her estimate is of the *(a)* number and *(b)* economic input of small businesses employing fewer than 10 people in the United Kingdom in the last year for which figures are available. [160133]

Nigel Griffiths: At the start of 2002 there were an estimated 3,596,855 businesses in the private sector (including public corporations and nationalised bodies) in the United Kingdom employing fewer than 10 people. This was 95 per cent. of the total number of UK private sector businesses.

These businesses employing fewer than 10 people had an estimated combined turnover of £482,984 million. This was 22 per cent. of the total turnover in UK private sector businesses.

These are the latest figures available.

EU Telecoms Council

Mr. Hood: To ask the Secretary of State for Trade and Industry what the outcome was of the Telecommunications Council held on 8 March; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [161443]

Mr. Timms: I attended the Telecoms Council held on 8 March 2004 in Brussels. There was a round-table debate on the state of the telecoms sector, in particular on two areas for action by governments; the transposition of the new regulatory framework and implementing national broadband strategies. There was broad consensus that the sector was recovering, that compelling content would be key in driving take-up of broadband and that e-Government was important as driver and exemplar in services. The rollout of broadband in under served areas was also discussed, including the importance of applying structural funding in a technology-neutral, market-led and competition-based way.

I pointed out that in the face of increasingly stiffer international competition it was vital for the EU to make the most of its competitive edge from creating the largest single coherent telecoms market by implementing the new regulatory package in a timely, consistent and effective way. I emphasised the need for a vision and specific planning beyond 2005 to meet the Lisbon goal by 2010 of Europe becoming the world's knowledge-based leader. To achieve this, I stressed the importance of intensifying dialogue with industry across the whole value chain. The Presidency will submit the Conclusions of this Council discussion to the Spring European Council on 25–26 March.

The Presidency will also submit to the Spring European Council the Council Conclusions on the following items, which were agreed without substantial debate; the e-Europe 2005 Mid-Term, unsolicited communications for direct marketing purposes, or "spam" and on the following-up to the World Summit on the Information Society.

Ukraine

Tom Cox: To ask the Secretary of State for Trade and Industry what discussions she *(a)* has had and *(b)* plans with the government of Ukraine concerning opportunities to sell Ukrainian products within the European Union; and if she will make a statement. [159543]

Ms Hewitt: The Secretary of State for Trade and Industry has had no recent discussions with members of the Ukraine Government concerning opportunities to sell their products within the European Union. However my right hon. Friend, Minister of State for Industry and the Regions, met with Valery Khoroshivskiy, Minister for Economy and European Integration, Ukraine, on 15 September 2003, and discussed a number of issues including trade.

EU relations with Ukraine are to a large extent based on the Partnership and Co-operation Agreement, which entered into force in 1998. The agreement regulates the political, economic and cultural relations between the EU and Ukraine and is the current legal basis for the EU's bilateral trade with Ukraine.

Unfair Dismissal Compensation

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many residents of Crosby have benefited from the increase in unfair dismissal compensation to £50,000. [160543]

Mr. Sutcliffe: I regret that I am unable to provide any statistics for the Crosby area. However, in common with the rest of Great Britain, all Crosby residents have had the potential to benefit from the increase in unfair dismissal compensation in the appropriate circumstances.

Welsh Manufacturing Exports

Mr. Wiggin: To ask the Secretary of State for Trade and Industry how much revenue has been generated from exports of goods manufactured in Wales in each year since 1997. [161202]

Mr. Mike O'Brien: According to figures published by HM Customs and Excise the information is as follows:

Welsh exports of goods 1997 to 2002

	£ million
	Amount
1997	5,764
1998	5,805
1999	6,312
2000	7,172
2001	7,099
2002	6,619

Source:
HM Customs and Excise

EDUCATION AND SKILLS

Behavioural Problems

David Taylor: To ask the Secretary of State for Education and Skills what guidance the Government provide to children and their families seeking assistance from local authority social services departments to address children's behavioural problems in the home. [153295]

Margaret Hodge: Under section 17 of the Children Act 1989, local authorities are expected to provide a range of services that are appropriate to safeguard and provide welfare for children in need in their area.

Once a child, who is or who may be a child in need, has been referred to social services, the responsible local authority is expected to assess the child using the "Framework for the Assessment of Children in Need and Their Families" (2000). Following that assessment, the local authority should then determine what services or support are needed, including those that may be provided by the local authority. For children with behavioural problems, the local Child and Adolescent Mental Health Services (CAMHS) team may be identified as an appropriate way to assist the child.

Best Practice Research Scholarships

Mr. Hoban: To ask the Secretary of State for Education and Skills what the cost was of the school-based research programme on best practice; what the outputs were of this programme; and to what use they were put. [161473]

Mr. Miliband: The Department has invested £8.03 million in the Best Practice Research Scholarships programme since it began in May 2000.

The scholarships have enabled over 4,000 teachers to engage in supported, school-focused research to develop their professional knowledge, understanding and confidence, enhance their skills as practitioners and share effective practice and experience within their own schools and across the wider educational community.

Details of research undertaken so far can be found on the Teachernet website, at the following address: www.teachernet.gov.uk/professionaldevelopment/opportunities/bprs/search

Chesterfield High School, Sefton

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much has been made available to Chesterfield High School in Sefton for developing sporting facilities since 1997; how the funding has been spent; and what *(a)* capital and *(b)* revenue schemes are pending. [160180]

Mr. Miliband *[holding answer 9 March 2004]:* Upon designation as a specialist Sports College in September 2000, Chesterfield High School received a capital grant of £100,000. The school also receives recurrent annual funding based on pupil numbers to meet the costs of implementing the specialist school development plan. This is currently around £145,000 per year, of which the school is required to spend at least one third on the community element of the development plan.

The school is also receiving an award of a total of £314,328 over three years as a result of a successful School Sport partnership bid, to support the infrastructure and funding for a Partnership Development Manager. A further award to extend the Central Sefton School Sport Partnership has also been confirmed. This will mean total funding of £616,866 over three years from September 2004.

Chesterfield High School is also part of a New Opportunities Fund application by Sefton LEA. If formally approved, the funding will be used to enhance changing facilities at the school.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills if he will list the schools that have used the sports facilities in the Chesterfield High School Specialist Sports College in Sefton since the school was awarded specialist status; and for what percentage of the total time available the facilities have been used by this group of schools. [160181]

Mr. Miliband *[holding answer 9 March 2004]:* Chesterfield High School currently works with four partner secondary schools (St. Wilfrid's Catholic High School, Savio High School, Bootle High School, and Manor High School) and 20 primary schools. Sports facilities are made available to these schools as part of Chesterfield High School's specialist school community development plan and its School Sport partnership plan. The DfES does not hold data centrally about the amount of time their facilities are used by these schools.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how schools in Sefton access the facilities of Chesterfield High School; and what steps are being taken to make the facilities better known to groups that have right of access. [160182]

Mr. Miliband *[holding answer 9 March 2004]:* Schools in Sefton access facilities at Chesterfield High School as part of the specialist school community plan, the School Sport partnership programme, and local administrative arrangements. A Community Sport Development Officer has been appointed to help with this process.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what charges are levied on schools that use the Chesterfield High School Specialist Sports College in Sefton. [160183]

Mr. Miliband *[holding answer 9 March 2004]:* Schools are not charged for using facilities at Chesterfield High School during the school day. At evenings and weekends charging is in line with the local authority's charging policy.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what facilities and services at Chesterfield High School in Sefton are available to members of the public; what mechanisms are used to inform the public about the facilities and service available; whether facilities are available to *(a)* individual members of the public and *(b)* sporting groups; and on what basis in each case. [160184]

Mr. Miliband *[holding answer 9 March 2004]:* Management of sports facilities at Chesterfield High School has recently transferred from the local authority to the school. At present, facilities are open to the public seven days a week under a lettings arrangement, with some exceptions during examination periods. A range of sporting groups including a number of football and badminton clubs and the Merseyside County Netball Association currently use facilities at the school, and the school runs activities during school holidays. Precise details of the future availability of facilities and the mechanisms used to inform the public will be decided locally as part of the transition, by the school, its partners, and the local authority.

Computers within Reach Programme

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Crosby have benefited from the Computers within Reach programme. [160447]

Mr. Charles Clarke: The Computers Within Reach scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a state pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Of the 24,000 computers delivered through the Computers within Reach scheme, approximately 3,000 were for people in the Liverpool area which included those in and around Crosby.

Connexions

Charles Hendry: To ask the Secretary of State for Education and Skills what amount of money has been spent on voluntary and community services by each Connexions partnership since 2001. [161031]

Margaret Hodge *[holding answer 12 March 2004]*: The amount spent on voluntary and community services by each Connexions Partnership is collected via management accounts which are commercially confidential. The total amount spent by Partnerships on the voluntary and community sector in each year is as follows:

	£ million
2001–02	2.6
2002–03	10.1
2003–04	[1]16.0

[1] Based on latest data to December 2003.

Charles Hendry: To ask the Secretary of State for Education and Skills what the total budget is of Connexions Direct in 2003–04. [161034]

Margaret Hodge *[holding answer 12 March 2004]*: The total budget of Connexions Direct, a telephone helpline and internet service for 13–19 year olds, is £3.36 million for 2003–04.

Charles Hendry: To ask the Secretary of State for Education and Skills how many *(a)* personal advisers and *(b)* staff are employed by Connexions Direct. [161035]

Margaret Hodge *[holding answer 12 March 2004]*: 40 Connexions Direct advisers (28.3 Full Time Equivalent) and seven managerial and support staff (6.75 Full Time Equivalent) are employed by Connexions Direct. Separately, three staff are employed by the contractor (Ufl) in a management role.

Charles Hendry: To ask the Secretary of State for Education and Skills whether it is his Department's policy to make local authorities act as lead bodies for the receipt of Connexions partnerships grants; and if he will make a statement. [161069]

Margaret Hodge: It is not our policy to compel Connexions partnerships to adopt any particular arrangements for the receipt of Connexions grant. However we are encouraging partnerships to improve their tax efficiency. Connexions partnerships which have a local authority acting as a lead body are more tax efficient than other structural models. Where local authorities act as the lead body for receipt of the grant they do so voluntarily and with the agreement of the Board of the Connexions Partnership.

Charles Hendry: To ask the Secretary of State for Education and Skills which is the lead body for receipt of grant for the London Central Connexions Partnership. [161071]

Margaret Hodge: The Royal borough of Kensington and Chelsea is the lead body for receipt of the grant for the London Central Connexions Partnership.

Charles Hendry: To ask the Secretary of State for Education and Skills what proportion of the total Connexions budget in 2003–04 is spent on providing careers guidance. [161073]

Margaret Hodge: Details of the amount spent by Connexions partnerships on providing careers guidance are not collected. We provide broad guidance to partnerships about their statutory duties and it is for them to decide how best to meet the needs of their area.

Charles Hendry: To ask the Secretary of State for Education and Skills what the total budget was of the Careers Service, prior to the establishment of the Connexions Service, in each year since 1997. [161074]

Margaret Hodge: Total annual expenditure on the Careers Service from 1998 onwards was as follows:

	£ million
1998–99	[1]198
1999–2000	228
2000–01	239
2001–02	174
2002–03	52

[1] Estimated

Data for the years prior to 1998–99 are not available. Decreasing expenditure from 2001–02 reflects the gradual introduction of the Connexions service across England.

Charles Hendry: To ask the Secretary of State for Education and Skills what proportion of Connexions partnerships' VAT liability his Department will meet in 2004–05. [161076]

Margaret Hodge: Based on estimated VAT costs provided by Connexions Partnerships, we will be able to meet around 30 per cent. of these costs in 2004–05.

Charles Hendry: To ask the Secretary of State for Education and Skills how many schools *(a)* have a Connexions resource centre, *(b)* are being fitted with a Connexions resource centre and *(c)* have no Connexions resource centre in each Connexions partnership area. [161087]

Margaret Hodge: My department does not collect information on the number of Connexions resource centres in schools.

In our guidance to Partnerships we require them to use part of their grant to provide financial support for setting up and maintaining Connexions resource centres in schools. Connexions Partnerships are responsible for ensuring that this requirement is met.

Charles Hendry: To ask the Secretary of State for Education and Skills what guidelines are provided for the staffing of Connexions resource centres in schools. [161088]

Margaret Hodge: No specific guidelines have been issued to Connexions Partnerships in relation to the staffing of Connexions resource centres in schools.

Charles Hendry: To ask the Secretary of State for Education and Skills what assessment he has made of the proportion of parents who have been aware of the services offered by Connexions in each Connexions partnership area in each year since 2001. [161090]

Margaret Hodge: Information on the proportion of parents who are aware of the services offered by Connexions is not collected centrally.

Publicity campaigns and selected publications, including the recently published Parents and Carers of Year 9 Students' booklet, are raising awareness of Connexions among parents. Connexions partnerships supplement nationally produced publicity material with their own publications targeted at young people, parents and carers.

Charles Hendry: To ask the Secretary of State for Education and Skills what guidelines are given to Connexions partnerships regarding the monitoring and supervision of personal advisers who are working towards an NVQ level 4 equivalent in a relevant professional discipline. [161092]

Margaret Hodge: All Connexions partnerships are required to have a clear, written supervision policy; a training and development policy; and appropriate processes in place to support them. In line with these policies, individual partnerships assess the level of supervision required for personal advisers depending on their level of experience, and their duties.

Charles Hendry: To ask the Secretary of State for Education and Skills how long a young person has had to wait on average to speak to a Connexions personal adviser in each Connexions partnership; and what the target waiting time is for a young person to talk to a Connexions personal adviser in person. [161094]

Margaret Hodge: Information on how long a young person has to wait to see a Connexions personal adviser is not collected centrally.

Connexions Partnerships are required to publish a Youth Charter, prepared in collaboration with young people, which sets out minimum standards for accessing personal advisers, including outside normal office hours. In addition, from April 2004, Connexions Direct the telephone and web based help line, will be available nationally to all young people 18 hours a day, 365 days a year.

Charles Hendry: To ask the Secretary of State for Education and Skills how many under-18 conceptions there were in each of the Connexions partnership areas in each year since 2001. [161096]

Margaret Hodge: The numbers of under-18 conceptions in each Connexions partnership area for 2001 and 2002, the latest years for which this information is available, are set out in the table. It must be noted that this data predates the launch of the majority of Connexions Partnerships.

The figures for 2001 and 2002 are provisional. They are taken from National Statistics, 'Conception statistics for local authorities 1998–2002'. Data should be considered in light of increases in population between 2001 and 2002.

[1] Conceptions for 2001 are provisional.

[2] Provisional estimates based on incomplete abortions data.

Charles Hendry: To ask the Secretary of State for Education and Skills what assessment he has made of the level of awareness of the Connexions service among those young people not in education, employment or training. [161099]

Margaret Hodge: A survey of over 16,000 young people by my Department in 2003 showed that 93 per cent. of young people in need of intensive support, including those who were not in education, employment or training, were aware of the Connexions Service.

Charles Hendry: To ask the Secretary of State for Education and Skills what assessment he has made of the proportion of careers guidance provided by the private sector. [161072]

Margaret Hodge: 21 out of the 47 Connexions partnerships operate a subcontracted delivery model, where private companies deliver the Connexions service, including careers advice and guidance, to young people in that Partnership area.

Charles Hendry: To ask the Secretary of State for Education and Skills what plans he has to reduce the running costs of the Connexions service in 2004–05; and if he will make a statement. [157512]

Margaret Hodge *[holding answer 1 March 2004]:* There are no plans to reduce the grant to Connexions Partnerships in 2004–05. In addition to the grant, we had set aside funds to support Connexions Partnerships' VAT commitments on a temporary basis. In 2004–05, this will be less than had been originally planned but will still amount to some £12 million.

Education Funding

Mr. Beggs: To ask the Secretary of State for Education and Skills how much money was spent on education in England *(a)* in total and *(b)* per pupil for each of the last five years. [160993]

Mr. Miliband: I refer the hon. Member to the Department's Departmental Report 2003, a copy of which has been placed in the Library.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many children in Crosby have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [160406]

Mr. Miliband: Chesterfield High School, Manor High School and Sacred Heart Catholic High School in Crosby have been included in Excellence in Cities since September 2001. The following table shows the number of children in Crosby benefiting, and the annual spend per pupil for the years in question.

Crosby excellence in cities programme

	Number of children	*Total EiC expenditure*	*Spend per pupil (£)*
2001–02	3,524	208,846	59.26
2002–03	3,531	453,655	128.48
2003–04	3,629	497,246	137.02

EiC funding includes Leadership Incentive Grant and Behaviour Improvement Programme money. In addition, Manor High School also receives some funding from the Statutory Education Action Zone.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much money has been allocated to schools in Crosby for information and communications technologies since 2001. [160413]

Mr. Charles Clarke: My Department does not hold information on funding allocations for ICT at town level. However, Crosby is in Sefton local education authority and since 2001, including LEA match funding, schools in Sefton have received £5,167,125.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Crosby in each of the last seven years. [160445]

Mr. Charles Clarke: My Department does not hold information on funding allocations for ICT at town level. However, Crosby is in Sefton local education authority and, including match funding, allocations for the LEA are as follows:

	Allocation to Sefton LEA (£)
1998–99[1]	587,146
1999–2000	813,934
2000–01	955,931
2001–02	1,350,818
2002–03	1,890,315
2003–04	1,925,992

[1] Specific funding for ICT in schools was not available in 1997–98.

Opportunity Bursaries

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many students in Crosby have benefited from New Opportunity bursaries. [160412]

Alan Johnson: Information about Opportunity Bursaries is held at the level of institutions that provide higher education provision. It is not possible to extract from that data the number of awards for students in any given area.

Education Standards

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Crosby reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [160408]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11 year olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 per cent. points in English and 11 per cent. points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The following table shows the number and percentage of pupils in Crosby who have achieved level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Crosby are well above the national average, with improvements since 1997 in English and 1998 in mathematics in line with the improvement in the national figures:

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
English—Number of pupils[1]	703	721	779	787	789	833	823
Mathematics—Number of pupils[1]	729	677	785	746	755	826	822
English—Percentage of pupils	77	80	83	85	84	85	86
Mathematics—Percentage of pupils	80	75	84	80	80	84	86

[1] The number of eligible pupils for the Key Stage 2 tests varies slightly from year to year.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many and what percentage of 11 year old pupils in Crosby reached level four in *(a)* mathematics and *(b)* English in each of the last seven years. [160409]

Mr. Miliband: The percentage and number of pupils in Crosby who reached Level 4 or above at Key Stage 2 in *(a)* mathematics and *(b)* English in the last seven years are:

	Mathematics			*English*		
	Crosby[1]	*Crosby*[2]	*England*[2]	*Crosby*[1]	*Crosby*[2]	*England*[2]
2003[3]	822	86	73	823	86	75
2002	826	84	73	833	84	75
2001	755	80	71	789	84	75
2000	746	80	72	787	85	75
1999	785	84	69	779	83	71
1998	677	75	59	721	80	65
1997	729	80	62	703	77	63

[1] Number of pupils achieving level 4+.
[2] Percentage of pupils achieving level 4+.
[3] Provisional.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what percentage of 15 and 16-year-olds in Crosby achieved five or more GCSEs at grade A*-C or GNVQ equivalent in each of the last seven years. [160410]

Mr. Miliband: The statistical information requested is detailed in the following table:

Percentage of 15-year-old pupils[1] achieving five or more grades A-C*

Academic year	*Crosby parliamentary constituency*	*England*
1997	47.9	45.1
1998	49.5	46.3
1999	55.2	47.9
2000	57.5	49.2
2001	57.2	50.0
2002	57.0	51.6
2003	55.0	52.9

[1] Pupils are aged 15 at the start of the academic year, i.e. 31 August.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many schools in Crosby deemed to be failing since 1997 have since reached satisfactory standards. [160407]

Mr. Miliband: No schools in Crosby have been found to be failing since 1997.

Educational Databases

Mr. Chaytor: To ask the Secretary of State for Education and Skills whether information collected by the Connexions Service can be matched with the National Pupil Database at pupil level; and whether the two databases can be used to produce information matching the later destinations of young people with their achievements on National Curriculum Tests, secondary school they attended and other pupil characteristics. [155569]

Margaret Hodge *[holding answer 1 March 2004]:* Information collected by the Connexions Service cannot be accurately matched with data held by the National Pupil Database.

Currently there is no national Connexions Service database as in the case of the National Pupil Database and without a commonly agreed identifier, linking records to the 47 different partnership databases would be extremely difficult.

However, as part of work to improve systems for young people and learners as well as providers, my Department is currently exploring the feasibility of establishing systems which would enable information held by different organisations to be shared and analysed more effectively. The results of the feasibility work should be available in the summer.

Homeless Young People

Charles Hendry: To ask the Secretary of State for Education and Skills what *(a)* financial and *(b)* other support services are available to a young person between 16 and 18-years-old who has been refused a home by his or her family but has not been made ward of court. [155642]

Margaret Hodge: The information is as follows.

Financial assistance available to 16 to 18-year-olds

Financial assistance is available to young people aged 16 or over but under 19, who are undertaking full time non-advanced education, and out of necessity have to live away from their parents or any person acting as their parents because:

They are estranged from their parents or that person(s) acting as their parents

They are in physical or moral danger: or

There is a serious risk to his physical or mental health.

They have ceased to live in accommodation provided for them by a local authority (Part III of the Children Act 1989) and are living away from their parents or persons acting as their parents

Their parent is unable to financially support them and are either chronically sick, mentally ill, detained in custody or prevented from entering or re-entering Great Britain they will be entitled to income support.

The rule is that young people must be in full time non-advanced education. If they are not and do not satisfy any other condition of entitlement, they must claim job seekers allowance if they need benefit.

Other support service provision for 16 to 17-year-olds

Local authority social service departments have a range of powers and duties under the Children Act 1989 to provide services for children in need (0 to 18-years-old) in their area.

A general duty is placed on local authorities by section 17 of the Children Act 1989 to safeguard and promote the welfare of children under 18 in their area who are in need by providing a range of services appropriate to meeting those needs. The definition of a child in need is set out in section 17(10) of the Act, which applies to all children, regardless of whether or not they reside with their family.

There is also a duty under section 20 of the Children Act 1989 to provide accommodation for children in need if necessary.

Special Educational Needs

Bob Spink: To ask the Secretary of State for Education and Skills what assessment he has made of outreach programmes carried out by moderate learning difficulty schools in mainstream secondary and primary schools; and if he will make a statement. [159382]

Margaret Hodge: The Department for Education and Skills has not conducted an assessment of special school outreach programmes which support pupils with moderate learning difficulties based in mainstream schools. Ofsted has responsibility for school inspections, including an assessment of any support that schools offer to other schools. In his annual report for 2002–03, Her Majesty's Chief Inspector of Schools noted that 'good support is provided by the special schools for pupils attending mainstream schools and colleges and this contributes significantly to the quality of the programmes. A small number of schools also provide outreach support and advice to staff in mainstream schools. However, the role of special schools in this respect is weak and developing slowly.'

The Government's new SEN Strategy—Removing Barriers to Achievement—launched in February 2004, encourages special schools to do more to share their expertise with mainstream schools in support of greater inclusion. While there is clearly scope for them to develop this aspect of their role, it is important that the quality of advice and support they offer is of a high standard. Some special schools already achieve this, but it is clear from HMCI's report that the quality overall is variable. The SEN strategy therefore includes the development of generic minimum standards for SEN support services which would extend to outreach offered by special schools. It is envisaged that these will be used for self-evaluation by local authorities and schools and in Ofsted inspections and will be a form of quality assurance for schools obtaining support from external sources.

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) how many area special educational needs co-ordinators have been created to support non-maintained schools; [157836]

(2) what the Government's target for training for each special educational needs co-ordinator is; when this target is scheduled to be met; and what progress has been made in meeting it; [157837]

(3) what proportion of registered early years settings have special educational needs co-ordinators. [157838]

Margaret Hodge *[holding answer 1 March 2004]:* All SENCOs based in early years settings will have benefited from three days relevant training by 2004. We are currently in the process of evaluating how local authorities are delivering the new SEN training materials. We are also asking local authorities how they are ensuring that SENCOs based in yearly years settings receive the appropriate training to be able to deliver services to meet local needs.

SENCOs are based in private, voluntary and independent sector early years settings. It is a requirement that all publicly funded early years provision has a SENCO. These SENCOs are supported by approximately 850 Area SENCOs who have been employed to support early years settings. Encouragingly the assessment of LEA/EYDCP plans for 2002/03 revealed that 90 per cent. of local authorities had Area SENCOs in place. Figures for 2003/04 will be available later this year.

Pre-school Education

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills (1) how many new nurseries have been established in Crosby since 1997; [160401]

(2) how many *(a)* Sure Start centres and *(b)* early excellence centres have been created in Crosby. [160400]

Margaret Hodge: There are no Early Excellence Centres in Crosby. However, part of the catchment area for the Sure Start Seaforth and Bootle local programme is located in the church ward within the Crosby constituency. Since 1997, five new nurseries have been established in the constituency creating 189 additional places. A neighbourhood nursery attached to the Sure Start local programme is due to open in June 2004. and will deliver 65 new childcare places.

School Sports

Mr. Reed: To ask the Secretary of State for Education and Skills what action his Department is taking to encourage local education authorities to work with primary care trusts to improve delivery of sports and physical activity. [159949]

Mr. Stephen Twigg: Encouraging local education authorities and primary care trusts to work together to support the improved delivery of sports and physical activity opportunities is central to the work of the Government's Activity Co-ordination Team. The Department for Education and Skills is a full and active member of this group and is responsible for developing the education strand.

In developing the education strand and in taking forward new action to support local education authorities and primary care trusts, we will seek to build and maximise the impact of:

the national PE, School Sport and Club Links Strategy;

the 'Healthy Living Blueprint'—announced by the Secretary of State while speaking at the Institute of Public health last autumn. The blueprint will cover all areas of nutrition and how schools can make changes that will improve the health and lifestyle of their pupils;

the National Healthy Schools Standard (NHSS)—a joint initiative between the Department for Education and Skills and the Department of Health where one of the key strands of the programme is physical activity.

The Activity Co-ordination Team will publish proposals later this year.

Specialist Sports Colleges (Out-of-hours Provision)

James Purnell: To ask the Secretary of State for Education and Skills if he will publish the progress reports the Department receives from specialist sports

colleges monitoring their commitment to the provision of out-of-hours community use of their sports facilities. [160503]

Mr. Miliband: It would be disproportionately costly to provide the progress reports received from all specialist sports colleges. However, it may be useful to refer to the report template filled in by specialist schools after two years of each four year designation phase. This is available on the specialist schools website http://www.standards.dfes.gov.uk/specialistschools/progress/?version = 1.

The Department funds the Youth Sport Trust (YST) to work with sports colleges locally, with, for example. regular visits which include a specific focus on developing the community dimension and challenging the school about their practice. Where appropriate, the YST also works with key local stakeholders (e.g. local authority) on issues relating to community provision.

There is further information about out-of-hours access to sports college facilities in Section E of the Youth Sport Trust's 2003 National Survey of Specialist Sports Colleges, available at http://www.youthsporttrust.org/scnational/YST%20Documents/Forms/Allltems.htm.

Streaming

Mr. Gibb: To ask the Secretary of State for Education and Skills what percentage of lessons inspected by Ofsted in 2002–03 in *(a)* year 7, *(b)* year 8, *(c)* year 9, *(d)* year 10 and *(e)* year 11 were set by ability in (i) grammar schools, (ii) secondary modern schools and (iii) comprehensive schools. [160778]

Mr. Miliband: This is a matter for Ofsted. HM Chief Inspector, David Bell, will write to the hon. Member and place a copy of his letter in the Library.

Student Loans

Chris Grayling: To ask the Secretary of State for Education and Skills (1) what proportion of student loans he estimates will not be paid off after 25 years following the introduction of top-up fees; [161137]

(2) what estimate of *(a)* the proportion of the overall student loan book, *(b)* the total value of loans and *(c)* the total number of individual loans that would remain outstanding after 25 years he used in calculating the level of cost to the Government of his proposal to write off all loans after that period. [161138]

Alan Johnson: Estimates of the cost of subsidising both maintenance and fee loans in 2006/07 were set out in the Regulatory Impact Assessment (RIA) published on 8 January alongside the Higher Education Bill.

We estimate that about 5 per cent. of borrowers, starting from 2006/07, may benefit from the proposal to write off loan balances after 25 years; the corresponding cost to the public purse is estimated at £30 million in steady state.

Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

Teachers (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many and what percentage of teachers in Crosby have received computer training. [160444]

Mr. Charles Clarke: Statistics on teacher training in ICT are not compiled on a constituency basis, but all teachers are expected to be able to use ICT effectively in the classroom. In-service training was largely addressed by the UK-wide National Lottery-funded New Opportunities Fund (NOF) ICT training, which ran between 1999 and 2003, and to which some 96 per cent. of teachers in England signed-up.

Training in the effective use of ICT in teaching is also a mandatory part of teacher training institute courses.

Further training opportunities to address teachers' continuing professional development needs (CPD) in embedding ICT in classroom teaching are now being developed across a range of subjects, and teachers are able to buy into this training using Standards Fund monies.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Crosby on the latest date for which figures are available; and what steps he is taking to reduce them. [160396]

Mr. Miliband: The information is not available in the form requested. In January 2003, there were 10 vacancies for full-time teachers in maintained schools in the Sefton local education authority (LEA) area, which includes Crosby.

Like other areas, since 1997 Sefton has benefited from the initiatives that the Government have put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in Sefton LEA has risen by 120, from 2,540 to 2,660 in 2003. Over the same period, the number of full-time equivalent school support staff in the LEA has grown by 540, from 780 to 1,320.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Crosby in *(a)* each of the last seven years and *(b)* on the latest date for which figures are available. [160397]

Mr. Miliband: In Crosby constituency there were 148 full-time equivalent teaching assistants in service in maintained schools in 2003. This is the latest information available. The table gives the corresponding numbers since 1997.

	Number of teaching assistants
1997	89
1998	92
1999	103
2000	123
2001	145
2002	131

Source:
Annual Schools' Census.

University Title

Dr. Whitehead: To ask the Secretary of State for Education and Skills when he expects to publish the criteria for the award of university title to colleges primarily engaged in teaching. [161001]

Alan Johnson: I expect to make an announcement in the week commencing 15 March on the results of the consultation on new criteria for degree awarding powers and university title.

Voluntary Sector Funding

Charles Hendry: To ask the Secretary of State for Education and Skills what funding has been provided to the voluntary and community sector from the *(a)* Neighbourhood Support Fund and *(b)* New Opportunities Fund in each year since 2001. [161089]

Margaret Hodge: The Neighbourhood Support Fund has provided the voluntary and community sector with a total of £54.9 million since 2001 to deliver a programme of informal learning and self development for hard to reach young people through neighbourhood projects.

The amounts paid for each of the financial years covered by this period are as follows:

	£ million
2001–02	19.2
2002–03	21.7
2003–04	14

The new opportunities fund is the responsibility of the Secretary of State for Culture, Media and Sport (DCMS). DCMS have explained that the new opportunities fund do not collect data on whether the organisations they fund are from the voluntary and community sector, but they estimate that around 40 per cent. of the £2.4 billion they have committed has gone to this sector.

WORK AND PENSIONS

Savings Ratio

19. **Mr. Ruffley:** To ask the Secretary of State for Work and Pensions what recent representations he has received on changes to the savings ratio. [160855]

Malcolm Wicks: Government continues to work with all its partners to build confidence in pension saving and make available the information that can empower individuals to take control of their retirement planning. The savings ratio is one part of the evidence base available.

However, it is a measure of current household saving (including pensioners), not a measure of saving for retirement. As such it is not an accurate predictor of long term pension savings.

Pensioner Benefits

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many and what percentage of pensioners in the Tamworth constituency are in receipt of *(a)* winter fuel payments and *(b)* pension credit. [160084]

Malcolm Wicks: As at winter 2002–03, the last full year for which figures are available, there were 15,225 winter fuel payments made to people aged over 60 in the Tamworth constituency. We cannot provide an estimate of the percentage of eligible people in receipt of a winter fuel payment, since payments are based on household composition and complete information on household circumstances is not available.

At 29 February 2004 there were 3,165 households (3,930 individuals) in receipt of pension credit in the Tamworth constituency. It is not possible to express these figures as percentages of pensioners, since relevant population estimates are not held at constituency level.

Notes:

1. Figures are rounded to the nearest five.
2. Pension credit recipients include a small number of partners under age 60.
3. Pension credit figures exclude a small number of clerical cases.

Tom Brake: To ask the Secretary of State for Work and Pensions how many pensioners are not receiving their pension credit entitlement. [160845]

Malcolm Wicks: There is no reliable estimate of the number of pensioners not currently receiving their pension credit entitlement.

We estimate that there are approximately 3.8 million pensioner households in Great Britain likely to be eligible for Pension Credit. Estimates of entitlement are known only with a significant margin of error as they are based on survey data, published after a time lag.

My right hon. Friend, the Secretary of State for Work and Pensions today announced latest progress on take up of Pension Credit. I am pleased to report that as at 29 February, there were 2.26 million households in Great Britain, comprising approximately 2.73 million individuals, receiving Pension Credit. This number increased by 83,000 households or 110,000 individuals in the last month alone and the number continues to grow.

The hon. Member will be interested to learn that 2,653 households now receive Pension Credit in his constituency with an average award of £44.08.

Mrs. Brooke: To ask the Secretary of State for Work and Pensions if he will make a statement on pension credit. [160853]

Malcolm Wicks: Pension Credit is making a real difference to the lives of millions of pensioners. As the progress report published today shows, there are 2.26 million pensioner households, comprising some 2.73 million individuals, now receiving Pension Credit.

Some 1.61 million households, comprising approximately 1.93 million individuals, are now receiving more money than they did under the old Minimum Income Guarantee system.

In the hon. Member's constituency some 2,661 households are now receiving Pension Credit, with an average award of £35.60.

Carers Allowance

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the cost to the Exchequer of abolishing the overlapping benefits rule in respect of carers' allowance for *(a)* all carers and *(b)* carers aged under 75. [155891]

Maria Eagle *[holding answer 25 February 2004]:* The gross cost of abolishing the overlapping benefits rule for carers allowance is estimated at about £330 million a year, or £195 million after allowing for reduced payments in the income-related benefits[1]. Abolishing the rule only for those aged under 75 would be about £270 million or £160 million after offsetting adjustments. These figures do not take account of the behavioural effect of carers presently not claiming carers allowance who would be induced to do so by a change in the rules.

[1] Estimates use benefit rates for 2003–04 and are based on a 100 per cent. extract of carers allowance claims on the carer's allowance computer system for May 2003, a 5 per cent. extract from the claims on the income support computer system in 2003 and a 1 per cent. extract of the housing benefit/council tax benefit claims of May 2002.

Child Support Agency

Mr. Viggers: To ask the Secretary of State for Work and Pensions when he expects to finalise plans for existing payments under the Child Support Agency to be transferred to the new system of calculating payments. [160110]

Mr. Pond: I refer the hon. Member to the written answer I gave my hon. Friend the Member for Dartford (Howard Stoate) on 27 January 2004, *Official Report*, column 341W.

Parliamentary Questions

Mr. Webb: To ask the Secretary of State for Work and Pensions when he will answer question reference 151019, tabled by the hon. Member for Northavon on 21 January. [161625]

Mr. Pond: An answer was given on 12 March 2004, *Official Report*, column 1796W.

Departmental Website

Mr. Dhanda: To ask the Secretary of State for Work and Pensions how often his Department updates the section on its website containing details of local Jobcentre Plus and Pension Service offices. [156826]

Mr. Browne: Information about Job Centre Plus and the Pension Service local offices is updated at least once a month.

Employment Development Fund

Mr. Laws: To ask the Secretary of State for Work and Pensions what the cost of the Employment Development Fund was for each year from 1997–98 to 2005–06 (planned); what its purpose is; and if he will make a statement. [156703]

Mr. Browne: The Employment Development Fund (EDF) was created in autumn 2001 to provide funds for the continued development of our Welfare to Work agenda, which has been successful in helping to reduce unemployment to its lowest level since 1975.

EDF funds were primarily allocated to part-fund the national roll out of Jobcentre Plus, which delivers an enhanced work-focused service to all working age people. Remaining EDF funds were allocated to fund wider Welfare to Work policies.

The EDF provided funds of £86 million in 2001–02; £577 million in 2002–03 and £564 million in 2003–04. The use of funds available from the EDF have now been agreed and the fund no longer exists.

Health and Safety

Mr. Hancock: To ask the Secretary of State for Work and Pensions what plans he has to increase penalties for breaches of health and safety legislation. [155940]

Mr. Browne: The Government are committed to raising maximum penalties for health and safety breaches, as parliamentary time allows. We welcome the Health and Safety at Work (Offences) Bill, introduced by my hon. Friend the Member for Edmonton (Mr. Love), which introduces the changes the Government are seeking to make.

Maintenance (Non-Resident Parents)

Mr. Bill O'Brien: To ask the Secretary of State for Work and Pensions for what reason working tax credit payments are taken into account in assessment of maintenance payments in respect of non-resident parents; and if he will make a statement. [160841]

Mr. Pond: The amount a non-resident parent pays to support his child should reflect his income whether or not that income includes working tax credit.

In the new scheme working tax credit is taken into account as income for the non-resident parent's maintenance calculation. This carries forward the arrangements in the old scheme which also treated family credit (and then tax credits) as income.

Pension Protection Fund

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his Statement on 2 March 2004, *Official Report*, column 763, if he will place in the Library a copy of the actuarial simulations that have been produced for the projected finances of the pension protection fund on a range of different assumptions. [161622]

Malcolm Wicks: The original cost of £340 million to £375 million is the difference between the assets and the liabilities of the schemes taken over by the PPF in a year. We used the following assumptions to arrive at that cost:

(i) Data on the MFR funding levels of just over 1,000 schemes that had an MFR valuation with an effective date between April 1997 and April 2000 were used. Adjustments were made for each scheme in the sample in order to estimate the up-to-date funding position. The results were scaled up to the total for all private sector occupational pension schemes.

(ii) The value of the liabilities if such schemes were to fall within the responsibility of the pensions protection fund were estimated on a basis equivalent to midway between the current MFR basis and the full insurance buyout costs for the liabilities.

(iii) The cost will obviously depend on the number of firms going insolvent. Allowance was made for the possibility of normal, poor and extreme years as far as bankruptcies are concerned, but on average over a 20-year period, the probabilities of a scheme becoming a liability of the PPF were assumed to be between about 0.3 per cent. a year for large schemes and 1 per cent. a year for small schemes. This assumed level of bankruptcy is cautious, especially given that it is very rare for large companies to go bankrupt.

(iv) Allowance was made for the impact of the suggested salary cap using data on the earnings of occupational schemes members from the Family Resources Survey.

These costs were recently recalculated at £300 million using the same methodology, but updated to take account of current market conditions and the decisions taken on the precise nature of the PPF compensation payable.

Remploy

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions how his Department is working to help Remploy provide more opportunities for learning and employment to disabled people. [159426]

Maria Eagle: The Government agree Remploy's annual business plan, and set the targets for the employment and development of disabled people through the company's Workstep programme. Remploy are supported by the Government through investment of grant-in-aid each year; in 2003–04, this was set at £115 million.

Remploy supports around 9,000 people on the Workstep programme nationally. During 2002–03, 1,610 disabled people progressed into unsupported employment with their help. At a local level, Jobcentre Plus Disability Employment Advisers work closely with Remploy to ensure disabled people are referred appropriately for support from the company. In addition, Remploy recruit to the Workstep programme directly.

Remploy is separately contracted to deliver other Jobcentre Plus programmes, including New Deal for Disabled People, Work Preparation and Work Based Learning for Adults. These contracts are paid for and organised separately from the grant-in-aid given to Remploy for delivery of the Workstep programme.

In 2003–04, Remploy's target is that each employee should spend 5 per cent. of their time on learning and development activities; they are currently on course to exceed this. In addition, Remploy is currently developing a network of learning centres, to provide all their employees with access to learning opportunities.

Small Business Support

Brian Cotter: To ask the Secretary of State for Work and Pensions if he will list the support programmes for small businesses that *(a)* his Department and *(b)* its agencies have financed in each of the last five years; how much money was allocated for each scheme in each year; how much money has gone unclaimed under each scheme; and how many small businesses have benefited from each scheme. [161257]

Maria Eagle: As a result of the cross-cutting review of Government services for small business, Jobcentre Plus' employer strategy is developing services to make them more responsive to the diverse characteristics and recruitment needs of smaller businesses.

Jobcentre Plus is undertaking an ongoing programme of research to understand the characteristics and needs of small businesses; developing a proactive and co-ordinated approach towards raising awareness of some of the services offered through the local office network; introducing Small and Medium Enterprise (SME) specialists in each region to support local office delivery; and continuing to build on strategic partnerships with the National Employment Panel SME Board, Business Link, Learning and Skills Councils and others at local level to deliver more coherent services to small businesses.

However this Department does not have any financial support programmes for small businesses. This is an area for the Department of Trade and Industry.

Pensions Uprating (European Union Residents)

Mr. Roger Williams: To ask the Secretary of State for Work and Pensions what the Department's policy is on up-rating pensions for British pensioners living in *(a)* EU countries and *(b)* EU accession countries. [160752]

Mr. Pond: Uprating of State Pension is currently paid to pensioners in the European Economic Area and Switzerland under the provisions of the European Community's social security legislation (Regulation (EEC) No 1408/71). These provisions will apply equally to accession countries.

TREASURY

Birth Defects

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer how many birth defects there were in each of the last five years in England. [160624]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Iris Robinson, dated 15 March 2004:

As National Statistician, I have been asked to reply to your recent question asking for the number of birth defects in each of the last five years in England. (160624)

The Office for National Statistics (ONS) is responsible for maintaining the National Congenital Anomaly System (NCAS) notifications in England and Wales. These notifications are collected only for live and stillbirths (e.g. terminations are excluded) and are provided by NHS Trusts on a voluntary basis either directly to ONS or via local congenital anomaly registers that exchange data with ONS.

In 1997 there were no registers exchanging information with NCAS. By 2001, NCAS received more complete information from four local congenital anomaly registers through multi-source

ascertainment. As a result, numbers of notifications in England and Wales have increased since 1997. These registers cover all births in Wales and 24 per cent. of births in England. For the remaining areas NCAS relies solely on SD56 notification forms and is likely to be less complete. Up to eight malformations can be recorded on the system for each baby.

Estimates of the figures requested, covering the latest five year period are shown in the attached table.

Estimated numbers of malformations recorded, 1997–2001, England

	Estimated number of malformations notified
1997	6,753
1998	6,516
1999	8,575
2000	9,273
2001	8,027

Source:
Estimates based on numbers of babies notified to National Congenital Anomaly System at 31 July 2002 (Health Statistics Quarterly no. 16 Annual update: Congenital anomaly statistics—notifications 2001) and the number of malformations recorded for each notified case.

Charities

Mr. Burstow: To ask the Chancellor of the Exchequer how he will monitor compliance with the 2006 full cost recovery commitment for the charitable sector. [158028]

Fiona Mactaggart: I have been asked to reply.

"The Role of the Voluntary and Community Sector: a cross cutting review" recommends that all Government Departments will implement the principle of full cost recovery by April 2006.

This recommendation is being taken forward through two main strands of work:

Guidance to government departments, as reflected in the HM Treasury 'Guidance to Funders' and forthcoming procurement guidance from the Office for Government Commerce and the Home Office Active Community Unit. This will be reinforced by a revised Compact Code of Good Practice on Funding.

Guidance to voluntary and community organisations on identifying costs. This guidance is being taken forward by the Association of Chief Executives in Voluntary Organisations (ACEVO) with the aid of a grant from the ACU and advice from a range of government department as well from the National Audit Office.

However, it not intended to introduce a new layer of bureaucracy by monitoring all contracting and grant agreements with the voluntary and community sector. Instead, the Active Community Unit will work with departments to help review existing practice and make changes whenever the opportunity arises. The Active Community Unit will remain in dialogue with the sector booth through a longitudinal study of voluntary and community organisations through the State of the Sector Panel and through general dialogue with the sector.

Mr. Dhanda: To ask the Chancellor of the Exchequer what estimate Her Majesty's Treasury has made of the number of charities that will be affected by the changes to Gift Aid announced in the pre-Budget report; and what cross-departmental steps can be taken to assist charities adversely affected by the changes. [156814]

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer if he will make a statement on changes he proposes to the Gift Aid scheme. [157313]

John Healey: I refer the hon. Gentlemen to the answer I gave to the hon. Member for Leominster (Mr. Wiggin) on 15 January 2004, *Official Report*, columns 865–66W. The Government have consulted closely with charities on this issue.

Child Tax Credit

Mr. Webb: To ask the Chancellor of the Exchequer what correspondence his Department has sent to families relating to the transfer of the child elements of Jobseeker's Allowance and Income Support to Child Tax Credit payments; and if he will place copies in the Library. [159703]

Dawn Primarolo: The Inland Revenue has not entered into general correspondence with families about the transfer from child allowances in Income Support and income-based Jobseekers Allowance to Child Tax Credit. I understand however that my right hon. Friend the Secretary of State for Work and Pensions has written to all IS/JSA(IB) families to notify them of the change. A copy has been placed in the Library of the House.

Economic Statistics

Mr. Bercow: To ask the Chancellor of the Exchequer how many families in Buckingham have received Child Tax Credit. [161318]

Dawn Primarolo: I refer the hon. Member to my answer to the hon. Member for Chorley (Mr. Hoyle) on 25 February 2004, *Official Report*, column 407W.

Mr. Bercow: To ask the Chancellor of the Exchequer how many senior citizens in Buckingham qualified for the 10 pence rate of income tax in each year since its introduction. [161324]

Dawn Primarolo: All income taxpayers benefit from the 10 pence starting rate. The Survey of Personal Incomes estimates there are about 6,000 state retirement pension age taxpayers in the Buckingham constituency in 2000–01. Figures for 1999–2000 are currently not available.

Mr. Bercow: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change in full-time permanent jobs in Buckingham was from 1 May 1997 to 31 December 2003; [161325]

(2) how many new jobs have been created in Buckingham since 1997. [161326]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. John Bercow, dated 15 March 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions about full time jobs, and jobs created in Buckingham. (161325, 161326)

The attached table shows the information requested for 1997 and 2002, which is the latest year available.

No information is available about numbers of new jobs created during this period.

Number of full-time and part-time employees[1] in Buckingham Parliamentary Constituency: 1997 and 2002

	Full-time	*Part-time*	*Total*
Number of employees			
1997	15,600	7,600	23,200
2002	16,000	7,700	23,800
Change from 1997 to 2002			
Absolute	400	100	600
Percentage	2.8	2.3	2.6

[1] Employee jobs only, not self-employed jobs.

Source:

1997: Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI).

Mr. Bercow: To ask the Chancellor of the Exchequer what the level of unemployment was in Buckingham in each year since 1997. [161327]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. John Bercow, dated 15 March 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in Buckingham.

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Buckingham Parliamentary Constituency.

ONS does also compile statistics of those claiming Jobseeker's Allowance (ISA) for local areas including parliamentary constituencies.

The table below gives the annual average number of ISA claimants for the Buckingham Parliamentary Constituency for each year since 1997.

Average annual number of JSA claimants in the Buckingham parliamentary constituency

	Average number of claimants
1997	677
1998	508
1999	473
2000	382
2001	377
2002	416
2003	429

Mr. Bercow: To ask the Chancellor of the Exchequer how many businesses in Buckingham have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [161328]

Mr. Hoyle: To ask the Chancellor of the Exchequer how many businesses in *(a)* the North West, *(b)* Lancashire and *(c)* Chorley have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [161446]

Dawn Primarolo: We regret that the information is not available to estimate the number of businesses in the areas mentioned which have benefited from the 100 per cent. first year capital allowances for the purchase of information and communication equipment.

Mr. Hoyle: To ask the Chancellor of the Exchequer how many senior citizens in *(a)* Lancashire and *(b)* Chorley qualified for the 10 per cent. rate of income tax in each year since its introduction. [161448]

Dawn Primarolo: All income taxpayers benefit from the 10 pence starting rate. The Survey of Personal Incomes estimates there are about *(a)* 90,000 state retirement pension age taxpayers in Lancashire and *(b)* 8,000 state retirement pension age taxpayers in the Chorley constituency in 2000–01. Figures for 1999–2000 are currently not available.

Mrs. Dean: To ask the Chancellor of the Exchequer (1) how many families in Burton constituency are in receipt of child tax credit; [161835]

(2) how many households in Burton constituency are receiving *(a)* working tax credit and *(b)* the child care element of the working tax credit. [161836]

Dawn Primarolo: Estimates of the number of in-work families receiving the child tax credit, and of the number receiving child or working tax credit, in each constituency appear in "Child and Working Tax Credit Statistics. Geographical analyses. January 2004." This can be found on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm. The estimates are based on a sample of cases, and are subject to sampling uncertainty. No reliable estimates are available of the number receiving the childcare element of working tax credit due to the small number of sample cases.

Mrs. Dean: To ask the Chancellor of the Exchequer how many senior citizens in *(a)* Burton constituency and *(b)* Staffordshire qualified for the 10 per cent. rate of income tax in each year since its introduction. [161838]

Dawn Primarolo: All income tax payers benefit from the 10 pence starting rate. The Survey of Personal Incomes estimates there are about *(a)* 9,000 state retirement pension age taxpayers in the Burton constituency and *(b)* 70,000 state retirement pension age taxpayers in Staffordshire in 2000–01. Figures for 1999–2000 are currently not available.

Family Gifts (Taxation)

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer (1) what steps he is taking to protect elderly people from tax liabilities arising from gifts made to their children for property purchases; [160501]

(2) what plans he has to levy income tax on gifts between family members. [160502]

Dawn Primarolo: The Government made clear in the pre-Budget report that it intends to combat the use of trust structures and other vehicles used for tax avoidance purposes. It has also made clear that it will not tax legitimate transactions between family members. The details of these proposals have been

subject to consultation, and further announcements on how these objectives will be secured will be made in the Budget.

Employment (Crosby)

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Crosby from 1997 to 31 December 2003; [160532]

(2) how many new jobs have been created in Crosby since 1997. [160533]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mrs. Curtis-Thomas, dated 15 March 2004:

The National Statistician has been asked to reply to your recent Parliamentary Questions about full time jobs, and jobs created in Crosby. I am replying in his absence. (160532, 160533)

The attached table shows the information requested for 1997 and 2002, which is the latest year available.

No information is available about numbers of new jobs created during this period.

Number of full-time and Part-time employees[1] in Crosby parliamentary constituency: 1997 and 2002

Number, per cent.

	Full-Time	*Part-Time*	*Total*
Number of employees			
1997	10,500	6,200	16,700
2002	10,800	6,700	17,500
Change from 1997 to 2002			
Absolute	300	500	800
Percentage	3.3	7.3	4.8

[1] Employee jobs only, not self-employed jobs.

Source:

1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI).

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Crosby on the latest date for which figures are available. [160565]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mrs. Curtis-Thomas, dated 15 March 2004:

The National Statistician has been asked to reply to your Parliamentary Question about tourism-related jobs in Crosby. I am replying in his absence. (160565)

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of people employed in tourism related jobs in Crosby was 1,600. This total is obtained by combining estimates of those working in the following industries, as identified by the Standard Industrial Classification 2003:

hotels

restaurants

bars

activities of travel agencies

libraries, archives, museums etc.

sporting activities

other recreational activities.

EU Budget

Mr. Spring: To ask the Chancellor of the Exchequer if he will list *(a)* EU member states' gross contributions to the EU budget, *(b)* EU member states' net contributions to the EU budget and *(c)* the United Kingdom's abatement, for the last two financial years. [161463]

Ruth Kelly: Based on the most recent information published by the European Commission the gross and net contributions of member states for the years 2001 and 2002 are set out in the following tables.

Gross contributions, after taking account of the UK abatement

€ million

EU15	*2001*	*2002*
Belgium	3,532	3,018
Denmark	1,778	1,688
Germany	19,727	17,582
Greece	1,350	1,338
Spain	6,592	6,551
France	14,471	14,152
Ireland	1,211	1,019
Italy	11,613	11,280
Luxembourg	257	184
Netherlands	5,517	4,467
Austria	2,091	1,809
Portugal	1,266	1,187
Finland	1,233	1,185
Sweden	2,338	2,086
United Kingdom	7,743	10,153

Net contributions[1]

€ million

EU15	*2001*	*2002*
Belgium	-518	-1,475
Denmark	429	216
Germany	9,380	5,897
Greece	-4,391	-3,357
Spain	-7,057	-8,666
France	2,720	1,929
Ireland	-1,108	-1,581
Italy	2,920	3,039
Luxembourg	-644	-791
Netherlands	3,830	2,876
Austria	688	255
Portugal	-1,681	-2,686
Finland	213	-18
Sweden	1,245	841
United Kingdom	1,805	3,985

[1] Minus sign denotes net recipient.

The figures for the UK Abatement, which are included within the figures in the tables, are:

	€ million
	United Kingdom
2001	7,343
2002	4,934

The UK abatement for the financial years 2001–02 and 2002–03 was:

	£ million
2001–02	4,427
2002–03	3,234

Mr. Spring: To ask the Chancellor of the Exchequer what the value of the EU rebate to the UK has been since its agreement in 1984. [161461]

Ruth Kelly: By the end of financial year 2002–03 the UK abatement has been worth around £37 billion since its introduction.

Customs and Excise

Mr. Alan Reid: To ask the Chancellor of the Exchequer how many detector dogs are engaged in detecting illegal imports of *(a)* meat and *(b)* other animal products. [161407]

John Healey: I refer the hon. Gentleman to the answer I gave to the hon. Member for East Worthing and Shoreham (Tim Loughton) on 3 December 2003, *Official Report*, column 60W. The six dogs trained to detect meat and other products of animal origin are now deployed in operational use.

Mr. Whittingdale: To ask the Chancellor of the Exchequer how many Customs and Excise staff are employed to tackle illegal imports of meat; and if he will make a statement. [160631]

John Healey: Customs has over 3,000 front-line detection staff, all of whom have responsibility for detecting illegal imports, including meat and other products of animal origin, as part of their normal duties. In addition, the £4 million funding for 2003–04 provides for four new specialist detection teams and allows the detector dog complement to be increased from two to six.

These staff are also supported by others who work on intelligence, analysis, publicity and overall policy development.

Mr. Whittingdale: To ask the Chancellor of the Exchequer how many prosecutions for illegal import of meat have taken place in each of the last 10 years. [160632]

John Healey: I refer the hon. Gentleman to the answers I gave to the hon. Member for East Worthing and Shoreham (Tim Loughton) on 3 December 2003, *Official Report*, columns 58–61W. Customs brought no prosecutions between 1994 and 2000.

Dr. Cable: To ask the Chancellor of the Exchequer (1) what national standards apply to time limits for the handling by Her Majesty's Customs and Excise of recoverable debt cases; and what the performance of debt management units in meeting these standards was in *(a)* 2001–02 and *(b)* 2002–03; [160863]

(2) how many staff were employed in Her Majesty's Customs and Excise debt management units in *(a)* 2001–02 and *(b)* 2002–03; and how many new staff were recruited to the units in each of those financial years; [160864]

(3) what the cost was of the specialist asset recovery teams set up to pursue the recovery of assets from directors involved in fraudulent companies in *(a)* 2001–02 and *(b)* 2002–03; how many staff were deployed in these teams in each of those financial years; and what assets were realised by these teams in each case; [160865]

(4) how much missing trader fraud debt owed to Her Majesty's Customs and Excise was outstanding at the end of 2002–03; [160867]

(5) what the value of new debt owed to Her Majesty's Customs and Excise notified to the debt management units in 2002–03 was; and how much of that new debt was represented by VAT missing trader fraud; [160868]

(6) how much debt was owed to Her Majesty's Customs and Excise on 31 March 2003 *(a)* in total and *(b)* broken down by type of debt; what percentage that total formed of the total amount of taxes and duties collected by Her Majesty's Customs and Excise in 2002–03; and what the change in the number of unresolved debts since 31 March 2002 was. [160869]

John Healey: I refer the hon. Member to the answer I gave him on 20 November 2003, *Official Report*, columns 1328–29W.

Iraq

Dr. Cable: To ask the Chancellor of the Exchequer what contributions were made after 2 December 1992 by overseas Governments in respect of costs incurred by the UK during the Gulf War. [158652]

Mr. Boateng *[holding answer 4 March 2004]:* None are recorded.

Project Funding

Mr. Colman: To ask the Chancellor of the Exchequer (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years; [160973]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible in each of the last 10 years, broken down by region. [160974]

Mr. Boateng: Information on signed private finance initiative projects is submitted to the Treasury by Departments. A spreadsheet of these data, which were

last submitted in July 2003, is available from the HM Treasury website at http://www.hm-treasury.gov.uk/documents/public_private_partnerships/pop_pfi_stats.cfm. The spreadsheet can be searched by sponsoring Department, capital value and region.

Information on individual conventionally procured capital projects is not held centrally and is a matter for individual Departments.

The Treasury itself has not launched any conventionally procured capital projects in the last 10 years.

Business Regulation

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer pursuant to the answer of 5 March 2004, *Official Report*, column 1209W, on the EU regulatory burden, whether he has received a copy of the CBI's top 10 regulatory threats; and how many of these regulations derive from the EU. [161514]

Dawn Primarolo: The Treasury is aware that the CBI has published a list of 10 "regulatory threats". These include six European regulations, one issue of UK application of EU law, two cases of UK policy, and one issue relating to United States legislation.

Small Business

Brian Cotter: To ask the Chancellor of the Exchequer if he will list the support programmes for small businesses that *(a)* his Department and *(b)* its agencies have directly financed, including lower rate tax reliefs, in each of the last five years; how much money was allocated for each scheme in each year; how much money has gone unclaimed under each scheme; and how many small businesses have benefited from each scheme. [161256]

John Healey: The cross-cutting review of Government services for small business was published by the Government in December 2002, and outlines the services provided to small businesses from Departments and agencies across Government. A copy is available in the Library of the House.

Further details of Government expenditure allocated by the Treasury, incorporating expenditure upon small business support, are set out within departmental estimates, which are also available in the Library of the House. Details of the tax treatment of small business are set out annually in the Chancellor's Budget statement.

Sugar Tax

Diana Organ: To ask the Chancellor of the Exchequer if he will introduce a sugar tax on soft drinks; and if he will make a statement on the use of new taxes to promote healthy eating. [160905]

Dawn Primarolo: The Government keeps all aspects of the tax system under review. There are no current plans to introduce a 'sugar tax'.

As the Wanless Review "Securing Good Health for the Whole Population" discusses, there are difficulties of principle and practice with using tax instruments to promote public health. In particular, unlike with smoking where any consumption can have damaging effects, the consumption in moderation of most foodstuffs can be to the benefit rather than the detriment of an individual's health.

Suicides

Charles Hendry: To ask the Chancellor of the Exchequer how many suicides of people under 30-years-old there have been in each year since 1997, broken down by *(a)* age and *(b)* sex. [161083]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Charles Hendry, dated 15 March 2004:

As National Statistician, I have been asked to reply to your recent question concerning how many suicides of people under 30 years old there have been in each year since 1997, broken down by *(a)* age and *(b)* sex. (161083)

The most recent available figures on suicide mortality are for the calendar year 2002. Figures for each year are given in the table below for the calendar years 1997 to 2002.

Number of deaths from suicide[1] and injury undetermined whether accidentally or purposely inflicted[2], among people aged under 30 by (a) age and (b) sex: England and Wales, 1997 to 2002[3]

	Males				Females			
	13–19	*20–24*	*25–29*	*Total*	*13–19*	*20–24*	*25–29*	*Total*
1997	139	371	454	964	41	70	106	217
1998	149	315	501	965	42	84	101	227
1999	128	311	435	874	44	70	105	219
2000	140	265	405	810	47	68	96	211
2001	129	257	323	709	32	64	83	179
2002	116	236	327	679	41	59	97	197

[1] The cause of death for intentional self harm was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E950-E959for the years 1997 to 2000, and, for the years 2001 and 2002, the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84.

[2] The cause of death for injury undetermined whether accidentally or purposely inflicted was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E980-E989 excluding E988.8 for the years 1997 to 2000, and, for the years 2001 and 2002, the International Classification of Diseases, Tenth Revision (ICD-10) codes Y10-Y34 excluding Y33.9 where the Coroner's verdict was pending. It is assumed likely that most of these deaths at ages over 13 are cases where the harm is self-inflicted but there was insufficient evidence to prove that the deceased deliberately intended to kill themselves. As there were no intentional self harm deaths in children under the age of 13, data for undetermined whether accidentally or purposely inflicted have not been included.

[3] Figures are for deaths occurring in each calendar year from 1997 to 2002.

Tax Credits

Mr. George Osborne: To ask the Chancellor of the Exchequer what he estimates the cost would be for each of the next seven years of *(a)* increasing child and Working Tax Credits in line with (i) prices and (ii) earnings, *(b)* increasing the family element of the Child Tax Credit in line with prices and other elements and the thresholds in line with earnings and *(c)* increasing the family element of the Child Tax Credit in line with prices, the thresholds in line with prices, and the other elements in line with earnings. [160792]

Dawn Primarolo: A reliable estimate could be provided only at disproportionate cost.

Unemployment (Crosby)

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer what the level of unemployment was in each year since 1997 in Crosby. [160531]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Curtis-Thomas dated 15 March 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in Crosby. (160531)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Crosby Parliamentary Constituency.

ONS does also compile statistics of those claiming Jobseeker's Allowance (ISA) for local areas including parliamentary constituencies.

The table below gives the annual average number of JSA claimants for the Crosby Parliamentary Constituency for each year since 1997.

Average annual number of JSA claimants in the Crosby parliamentary constituency, 1997–2003

	Average number of claimants
1997	2,151
1998	1,804
1999	1,645
2000	1,452
2001	1,243
2002	1,155
2003	1,142

VAT

Dr. Cable: To ask the Chancellor of the Exchequer if he will make a statement on Her Majesty's Customs and Excise's strategy to tackle VAT missing trader fraud; how many staff were deployed to tackle this type of fraud in *(a)* 2001–02 and *(b)* 2002–03; what the cost of deploying staff to tackle this type of fraud was in each case; and what additional costs were attached to the strategy in (i) 2001–02 and (ii) 2002–03. [160866]

John Healey: I refer the hon. Gentleman to the answer I gave him on 20 November 2003, *Official Report*, column 1330W.

Details of Customs' strategy and progress in tackling VAT missing trader fraud are contained in their Annual Report and Accounts 2002–03 published in December 2003 (HC 52).

Information on the number of staff deployed to tackle VAT missing trader fraud in 2001–02 is contained in Tackling Indirect Tax Fraud (November 2001) and for 2002–03 in Measuring and Tackling Indirect Tax Losses (December 2003). Copies of which are available in the Libraries of the House.

Customs does not maintain information about costs in the format requested and it could be produced only at disproportionate cost to produce.

Diana Organ: To ask the Chancellor of the Exchequer (1) whether there are regional targets for collection of VAT on *(a)* new educational buildings and *(b)* new annexes to educational buildings; [160906]

(2) if he will make a statement on the collection of VAT on *(a)* new educational buildings and *(b)* extensions and annexes to existing buildings used for education purposes, in the further education sector. [160907]

John Healey: In accordance with the European Union Directives which govern the UK VAT rules, new buildings and annexes to existing buildings constructed by charities for non-business use can be zero-rated in certain circumstances. Educational establishments which meet the tests for zero-rating can benefit from this relief. Extensions, on the other hand, are always standard-rated, except those that qualify as approved alterations to protected buildings.

There are no regional targets for the collection of VAT on new educational buildings or new annexes to educational buildings. Customs and Excise aims to collect the correct amount of VAT at the right time across the whole country, regardless of the region.

Charles Hendry: To ask the Chancellor of the Exchequer under what circumstances local authorities are unable to recover VAT incurred by activities and transactions relating to the delivery of services. [161070]

John Healey: Local authorities are able to recover the VAT incurred in connection with their statutory activities and in connection with much of their trading. The legal basis for this is in section 33 of the VAT Act 1994.

Under sub-section 33(2), they cannot recover VAT incurred in connection with business activities which are exempt from VAT, unless the amount is insignificant. An amount would be insignificant if it were less than 5 per cent. of the total VAT incurred by an authority in a year.

Under sub-section 33(6) local authorities cannot recover any VAT that would be irrecoverable by all other VAT registered persons.

Welsh Industries

Mr. Wiggin: To ask the Chancellor of the Exchequer how much money was spent in each of the last five years on assistance to industries in Wales. [160922]

Mr. Boateng: Devolved funding decisions are a matter for the Welsh Assembly Government.

Windfall Profits (Banks)

Mr. Drew: To ask the Chancellor of the Exchequer what plans he has to tax the windfall profits of the main clearing banks. [161042]

Dawn Primarolo *[holding answer 12 March 2004]:* Tax policy is reviewed as part of the annual Budget process. There are no current plans to introduce a windfall tax on banks.

HEALTH

Alcohol Advertising

Mr. Burstow: To ask the Secretary of State for Health pursuant to the Answer of 5 February 2004, *Official Report*, column 1061W, on alcohol advertising, what judgement the Chief Medical Officer has formed on the studies. [159153]

Miss Melanie Johnson: The Chief Medical Officer has read and considered evidence in the interim analytical report produced by Prime Minister's Strategy Unit and awaits the publication of the Government's Alcohol Harm Reduction Strategy for England. The strategy is due to be published shortly in accordance with the timetable set out in the NHS Plan.

The public health white paper, "Choosing Health?", was launched at the beginning of March, with a consultation on improving people's health to run for 12 weeks. This offers the opportunity to have a wide-ranging national debate about improving the health of the whole population, including issues associated with alcohol misuse. We will ensure that the Alcohol Harm Reduction Strategy for England feeds into this consultation.

Allergies

Llew Smith: To ask the Secretary of State for Health what recent medical breakthroughs he has assessed in the *(a)* identification and *(b)* treatment of allergies. [159935]

Dr. Ladyman: We are not aware of any specific recent medical breakthroughs.

Amantadine

Mr. Hurst: To ask the Secretary of State for Health if he will make a statement on the *(a)* use and *(b)* effectiveness of amantadine in the treatment of multiple sclerosis in the national health service. [161125]

Dr. Ladyman: Products containing amantadine are not currently licensed for the treatment of multiple sclerosis (MS) in the United Kingdom. In order to determine whether amantadine is safe and effective in the treating multiple sclerosis, the product would need to be assessed by the Medicines and Healthcare products Regulatory Agency and the new indication approved by the Committee on Safety of Medicines. To date, no such application has been made.

A Cochrane Review to determine the effectiveness and safety of amantadine in reducing fatigue in people with multiple sclerosis was published in *The Cochrane Library, Issue 1, 2004*. The reviewers concluded that the efficacy of amantadine treatment in reducing fatigue in people with MS is poorly documented and that there is insufficient evidence to make recommendations to guide prescribing.

Continence Services

Dr. Tonge: To ask the Secretary of State for Health (1) what assessment has been made of the facilities available in schools to manage children who have *(a)* bladder and *(b)* bowel conditions; [159837]

(2) what assessment he has made of the cost-effectiveness of dedicated specialist paediatric continence services; [159838]

(3) what assessment has been made of the services available to children with continence problems since February 2000; [159839]

(4) how many paediatric specialist continence nurses are practising; and what plans he has to increase their number. [159841]

Dr. Ladyman: The effects of bladder and bowel conditions and other causes of continence problems in children can be of serious concern in schools. All schools in England were made aware of the Department's "Good Practice in Continence Services" guidance (2000), which addresses measures for effective management. I understand the Department for Education and Skills requires schools to have toilet and medical facilities in accordance with the Education (School Premises) Regulations 1999. It is for local assessment of need, on a case by case basis, to determine what additional facilities may be needed in schools. Individual provision in schools is not assessed centrally.

"Good Practice in Continence Services" indicates cost-effectiveness associated with specialist continence services and advises that each national health service primary care trust (PCT) should have specialist continence services in place which provide an individual assessment of needs. PCTs are also encouraged to use the Modernisation Agency's publication, "Good practice in paediatric continence services—benchmarking in action", when ensuring levels of quality and provision.

PCTs are responsible for assessing and providing continence services in accordance with need, and for determining the number of nurses necessary for this activity. An assessment of services and the number of paediatric specialist continence nurses practising, is not undertaken centrally.

NHS Dentists

Bob Spink: To ask the Secretary of State for Health how many NHS dentists are accepting new NHS patients; and if he will make a statement. [157830]

Ms Rosie Winterton: Information on dental practices which are accepting new National Health Service patients can be found on the www.nhs.uk website.

Under current arrangements, dentists are able to vary their NHS commitment and so the number of practices accepting patients is subject to change in the light of such decisions by dentists to vary their NHS commitment.

On the basis of the most recent information, out of the total number of 8,587 practices in England, on 2 March there were:

4,022 practices accepting children;

2,817 practices accepting charge paying adults;

3,164 practices accepting charge exempt adults;

1,545 practices that carry out occasional NHS treatment to non-registered patients.

Overall, 93 per cent. of callers to NHS Direct are being directed to dentists within locally agreed distance standards who are accepting NHS patients.

Mr. Burstow: To ask the Secretary of State for Health what percentage of the population was registered with an NHS dentist in each primary care trust in each year since PCTs were established. [156648]

Ms Rosie Winterton: The information available is for general dental service (GDS) dentist registration rates for adults and children in England at 30 September 2002 and 2003. The registration rates for each primary care trust area has been placed in the Library.

Registrations lapse if patients do not return to their dentists within 15 months. Registration rates therefore exclude patients who have not been to their GDS dentist within the past 15 months. They also exclude patients who receive dental treatment from other National Health Service dental services such as personal dental services (PDS) and community dental services (CDS) as patients do not need to be registered to access these services.

Registrations are included in the area of the dentist. The registration rates for some areas may be affected by some patients receiving their dental treatment in a different area from the one in which they live.

Patients wishing to see a GDS dentist can obtain details of dentists accepting patients in their area by contacting NHS Direct. 93 per cent. of callers to NHS Direct in the first 10 months of 2003 were given details of dentists accepting new NHS patients within local distance standards.

Mr. Burns: To ask the Secretary of State for Health what proportion of *(a)* adults and *(b)* children in the West Chelmsford parliamentary constituency were registered with an NHS dentist in 1997; and how many were registered with an NHS dentist at the most recent date for which figures are available. [160274]

Dr. Ladyman *[holding answer 11 March 2004]:* The information available is for general dental service (GDS) dentist registration rates for adults and children in North Essex health authority at 30 September 1997 and at 30 September 2002 and for Chelmsford Primary Care Trust for 30 September 2002 and 30 September 2003, and is shown in the table.

Registration will lapse if a patient does not return to their dentist within 15 months. Registration rates represent the proportion of the population who have attended a dentist under GDS arrangements in the previous 15 months. The registration period was changed for new registrations and registration renewals from September 1996. Previously the period for adults was 24 months and for children registration lapsed at the end of the following calendar year. The change caused registration numbers to fall between November 1997 and August 1998.

Registrations are included in the area of the dentist. The registration rates for some areas may be affected by some patients receiving their dental treatment in a different area from the one in which they live.

National health service dental services are also provided by the community dental service, personal dental service, salaried service of the GDS and hospital dental service. These services do not require the patient to be registered with a dentist before treatment.

National health service: Number of registered patients as a proportion of the population September each year

	30 September 1997		*30 September 2002*		*30 September 2003*	
Health Authority/Primary Care Trust	*Child*	*Adult*	*Child*	*Adult*	*Child*	*Adult*
North Essex Health authority	0.66	0.51	0.64	0.46	—	—
Chelmsford PCT			0.64	0.50	0.64	0.51

Breast Feeding

Mrs. Brooke: To ask the Secretary of State for Health whether the National Service Framework for Children will include a national breast feeding strategy. [161346]

Dr. Ladyman: The national service framework for children, young people and maternity services will set out standards for a wide range of health and social care services and the interface with education.

Rather than address specific conditions or issues, the standards are likely to set out what support should be available to children, young people and pregnant women in managing a range of conditions and issues.

Cosmetic Surgery

Mr. Gordon Prentice: To ask the Secretary of State for Health what steps he is taking to monitor the competence of doctors practising cosmetic surgery; and if he will make a statement. [156720]

Dr. Ladyman: I refer my hon. Friend to the response given by my right hon. Friend, the Secretary of State for Health to the hon. Member for South Suffolk (Mr. Yeo) on Monday 1 March 2004, *Official Report*, column 699W.

Epilepsy

Mr. Peter Ainsworth: To ask the Secretary of State for Health what the cost to the NHS of drugs associated with the treatment of epilepsy was in each of the last five years. [161040]

Dr. Ladyman *[holding answer 12 March 2004]:* The table shows the number of prescription items and cost of anti-epilepsy drugs dispensed in the community in England over five years from 1998 to 2002.

Number of prescription items (millions) and net ingredient cost (£ million) of all Antiepilepsy drugs (British National Formulary, section 4.8) that were dispensed in the community in England, 1998 to 2002

	1998	1999	2000	2001	2002
Number of items (million)	6.12	6.40	6.70	7.20	7.60
Net ingredient cost (million)	74.86	86.47	99.11	120.45	142.22

Notes:
1. Epilepsy drugs are included in British National Formulary (BNF) section 4.8 (Antiepileptics)
2. The data is based on prescription items dispensed in the community in England, i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England.
3. The data do not cover drugs dispensed in hospital or private prescriptions.
4. The net ingredient cost refers to the cost of the drug before discounts and does not include any dispensing costs or fees. It does not include any adjustment for income obtained where a prescription charge is paid at the time the prescription is dispensed or where the patient has purchased a pre-payment certificate.
Source:
Prescription Cost Analysis (PCA) data from the Prescription Pricing Authority

EU Enlargement

Miss McIntosh: To ask the Secretary of State for Health what assessment he has made of the impact of the free movement of *(a)* doctors, *(b)* nurses and *(c)* dentists from the EU accession countries on the national health service after 1 May. [159201]

Mr. Hutton: Under the Accession Treaty of 16 April 2003, the new States must ensure that the qualifications they award to doctors, general nurses, midwives and dentists, in respect of training begun on or after 1 May 2004, meet specific minimum requirements.

The qualifications they award in respect of training begun before then and which do not meet those requirements are also eligible for recognition but subject to certification from their national authorities of recent and substantial practice experience—normally three out of the five years preceding the date of certification. These "acquired rights" provisions are on the lines adopted on previous accessions.

Decisions about whether to offer employment to doctors, nurses and dentists from European Union accession countries are matters for local national health service bodies, taking into account the need to ensure the highest possible standards of public safety.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 3 March 2004, *Official Report*, column 1022W, on EU accession states, what safeguards will be put in place to ensure that patients are not put at risk if there are accession states that are not compliant with EU minimum requirements on medical training by 1 May. [161220]

Mr. Hutton: It is for the European Commission, which is closely monitoring the progress of Acceding States; to see that their obligations are met, The EC intends to update member states shortly. It is open to the regulatory bodies to require confirmation that applicants' qualifications meet minimum training standards or, if not, that they have had recent and substantial practice experience.

General Practitioners (Greater London)

Simon Hughes: To ask the Secretary of State for Health how many general practitioners there are per head of population in *(a)* Greater London and *(b)* each London borough. [158438]

Mr. Hutton *[holding answer 3 March 2004]:* Information on number of general practitioners per head of population is not collected by London borough. Information by primary care trust within the five London strategic health authority areas is shown in the table.

All practitioners[1] per 100,000 of weighted population[2] for London by PCT as at 31 March 2003

Child Protection

Dr. Tonge: To ask the Secretary of State for Health what steps he is taking to improve liaison between health and social services, with special reference to measures arising from the death of Victoria Climbié. [159840]

Dr. Ladyman: The children's national service framework will set out a vision for services that are integrated around the needs of the child and will emphasise the importance of joint working across the fields of education, health and social services.

I also refer the hon. Member to the publication, by my hon. Friend the Minister for Children, on Tuesday 4 March of "Every Child Matters: Next Steps" and the Children Bill. These include a range of measures, which will transform relationships between frontline professionals, including doctors, nurses, teachers and social workers.

Intermediate Care

Mr. Burstow: To ask the Secretary of State for Health what plans his Department has to extend the provision of intermediate care services; and if he will make a statement. [159779]

Dr. Ladyman: We have exceeded the provision of 1,700 additional intermediate care places. We will be continuing the current programme to deliver the 5,000 additional intermediate care beds and this is likely to be achieved during 2004.

Nursing Care

Mr. Burstow: To ask the Secretary of State for Health with reference to the increase in nursing care funding announced by his Department on 27 February, what he estimates the average cost per resident will be of free nursing care for older people. [158517]

Dr. Ladyman: The average cost for the just over 128,000 care home residents who receive National Health Service Funded Nursing Care is estimated at £87 per week from 1 April 2004.

Information Technology

Mr. Burstow: To ask the Secretary of State for Health if he will list each information technology project being undertaken by his Department and its agencies including the *(a)* start date, *(b)* planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost; and if he will make a statement. [154680]

Mr. Hutton: Information technology projects costing £100,000 or more currently underway within the Department of Health and its agencies are shown in the table.

Project name	Start	Planned end date	Current expected end date	Planned cost (£000)	Current estimated cost (£000)

[1] This project is part of an area of work being transferred to DEFS

Dr. Pugh: To ask the Secretary of State for Health how many meetings the Director-General of NHS IT has had with *(a)* Mr. Bill Gates and *(b)* Microsoft executives in the last year. [156893]

Mr. Hutton: Bill Gates routinely visits England every two years to maintain contact and meet with a range of key private and public sector bodies, including Government Departments.

Bill Gates visited London on 26 January 2004 and amongst a full day of meetings and engagements, he met with my right hon. Friend the Secretary of State for Health and myself and several senior Departmental and National Health Service officials, including Richard Granger, the Director General of NHS IT.

Richard Granger also met Steve Ballmer, Microsoft chief operating officer, on 23 February 2004.

Dr. Pugh: To ask the Secretary of State for Health if, prior to placing an order for a bespoke software office suite, the NHS will publish the details and results of the tendering process. [156896]

Mr. Hutton: The Official Journal of the European Community notice on the national programme for information technology (NPfIT) in the National Health Service was published at the beginning of February 2003. This has led to a range of applications and software that will now be provided by the local service providers and contractors recently appointed by the NPfIT.

There are also existing suppliers of software to the NHS covered by framework agreements and licensing arrangements. Developments and renegotiations for the framework agreements may be required over time.

People with Learning Disabilities

Mr. Jenkins: To ask the Secretary of State for Health what steps his Department is taking to ensure that people with learning disabilities have access to health services. [160076]

Dr. Ladyman: People with learning disabilities have the same right of access to medical treatment as everyone else. The NHS Plan emphasised the Government's commitment to a person-centred health service that challenges discrimination on all grounds.

"Valuing People—A New Strategy for Learning Disability for the 21st Century", includes an important chapter on improving health for people with learning disabilities. In July 2002, the Department issued good practice guidance on health action plans and health facilitation, two key elements of the "Valuing People" strategy for improving the health of people with learning disabilities. A health action plan is a personal plan detailing the actions needed to maintain and improve the health of an individual and any help needed to achieve this. The plan will usually be co-produced with them. Health facilitation involves casework to help people with learning disabilities access mainstream services. It also involves helping mainstream national health service services to respond to the needs of people with learning disabilities.

The "Valuing People" support team produced "All Means All" in 2003. This explains how "Improvement Expansion and Reform", the Department's planning and performance framework, relates to people with learning disabilities. "All Means All" discusses access to health care and identifies that primary care staff, for

example, can ensure that all people with a learning disability are identified and known to all members of primary care teams.

"Discharge from Hospital: Pathway, Process and Practice", published by the health and social care joint unit and change agents team in January 2003 contains good practice guidance and guidelines for the acute sector when caring for someone with a learning disability. It talks about health action plans and emphasises the importance of liaison with the health or social care professional supporting the individual when making preparations for discharge from hospital.

We have undertaken to look into the possibility of annual health checks for people with learning disabilities during 2004 in our response to the recent choice consultation exercise, "Building on the Best—Choice, Responsiveness and Equity in the NHS", which was published on 9 December 2003.

NHS Trusts

John Austin: To ask the Secretary of State for Health (1) what assessment he has made of the possible impact of recent changes to rules on revenue and capital for Queen Mary's Hospital NHS Trust and Oxleas NHS Trust; and if he will make a statement; [154923]

(2) when he intends to reply to the letter of 17 November 2003 from the hon. Member for Erith and Thamesmead concerning Queen Mary's Hospital, Sidcup and Oxleas NHS Trust; [154925]

(3) what assessment he has made of the *(a)* revenue consequences for Oxleas NHS Trust of accounting changes affecting capital charges on PFI assets, and *(b)* possible impact on patient care; [154926]

(4) if he will agree to the meeting with hon. Members representing Bexley and Greenwich constituencies and representatives of Queen Mary's NHS Trust, Oxleas NHS Trust and Bexley Care Trust requested by the hon. Member for Erith and Thamesmead in his letter of 6 October 2003. [154927]

Mr. Hutton: I have responded to the concerns raised about Queen Mary's Hospital, Sidcup and Oxleas national health service trust in my letter to the hon. Member of 28 February.

Hormone Replacement Therapy

Mr. Roy: To ask the Secretary of State for Health what discussions he has had concerning the dangers of oestrogen to women. [160256]

Dr. Ladyman: When the findings from the recently terminated oestrogen-only hormone replacement therapy (HRT) arm of the Women's Health Initiative (WHI) trial are published, they will be carefully considered by the Committee on Safety of Medicines (CSM) and its expert working group on HRT. When its review is complete, any necessary action, including updating the current product information will be taken and women and doctors will be clearly informed of the advice. The Medicines and Healthcare products Regulatory Agency (MHRA) has copied in the Scottish Executive in all their communications. Further briefing can be found on the MHRA website at www.mhra.gov.uk.

Organ Donation

Mrs. Dean: To ask the Secretary of State for Health (1) if his Department will introduce a monitoring system to assess whether *(a)* intensive care and *(b)* accident and emergency staff routinely (i) check the Organ Donor Register whenever a new patient is admitted and (ii) approach patients and relatives about organ donation; [159599]

(2) how many organs he estimates were missed, in intensive care units and accident and emergency wards, which could have been used for transplantation in the last three years; [159600]

(3) what measures his Department is taking to introduce training so that intensive care and accident and emergency staff *(a)* routinely check the Organ Donor Register whenever a new patient is admitted and *(b)* approach patients and relatives about organ donations. [159601]

Ms Rosie Winterton: An audit of potential donors has been undertaken by UK Transplant since April 2003. It captures information about every death in every intensive care unit in the United Kingdom and records whether the organ donor register was contacted to check the wishes of the deceased.

A recent analysis of the audit data carried out by UK Transplant shows that 250 out of 545, suitable for donation became donors, 25 were contraindicated for medical reasons, 206 relatives refused and for 64 families there was no record of any discussion about donation. In total there were 270 suitable donors who for different reasons did not donate. For physiological reasons not all donors can donate all organs.

UK Transplant will employ an education and training manager to follow up the best practice guidance issued in 2003. A national health service education programme will provide expert education advice on the training needs associated with organ donation and transplantation and produce an education strategy, including the development of an education pack for pre and post graduate use, to deliver raised awareness and knowledge among all relevant NHS staff.

Orthopaedic Surgery (Greater London)

Simon Hughes: To ask the Secretary of State for Health how many patients in Greater London have been waiting for *(a)* less than six months, *(b)* six to 12 months, *(c)* one to two years, *(d)* two to three years and *(e)* more than three years for an (i) in-patient admission and (ii) initial out-patient assessment in orthopaedic surgery. [158437]

Mr. Hutton *[holding answer 3 March 2004]:* Figures are collected by specialty. Orthopaedic surgery is included in the speciality Trauma and Orthopaedics. As at December 2003, for Trauma and Orthopaedics in the primary care trusts (PCTs) within the five London strategic health authorities (SHAs), there were:

22,086 patients who had been waiting less then six months for inpatient admission.

6,536 patients who had been waiting between six and 12 months for inpatient admission.

No patients were waiting more than 12 months for inpatient admission.

Figures for outpatients are not collected by monthly waiting time. As at December 2003, for Trauma and Orthopaedics in the PCTs within the five London SHAs there were:

3,094 patients who had been waiting between 13 and 17 weeks after a general practitioner referral.

969 patients who had been waiting between 17 and 21 weeks after a GP referral.

Three patients who had been waiting between 21 and 26 weeks after a GP referral.

No patients were waiting longer than 26 weeks after a GP referral.

Osteoporosis

Linda Gilroy: To ask the Secretary of State for Health what assessment he has made of NHS progress with respect to *(a)* prevention of osteoporosis and *(b)* treatment of women who are (i) at high risk of osteoporotic fracture and (ii) have sustained a fragility fracture. [158868]

Dr. Ladyman: The prevention, treatment, care and support of those at risk of osteoporosis are important components in the delivery of the integrated falls services that the national service framework for older people requires to be in place locally by April 2005. The Department will be monitoring formally the 2005 milestone as this is included as one of the key targets in "Improvement, Expansion and Reform", the priorities and planning framework for 2003–2006. All strategic health authorities (SHAs) except one currently report that the April 2005 target will be achieved in their area. The Department has offered support to the SHA that may have difficulty meeting the target across the whole of its area.

Linda Gilroy: To ask the Secretary of State for Health what he assesses will be the effect of National Institute for Clinical Excellence guidance proposed in the osteoporosis appraisal consultation document on standard six of the National Service Framework for Older People. [158869]

Dr. Ladyman: Standard six of the national service framework for older people sets out clear milestones for the National Health Service, working in partnership with councils, to take action to prevent falls and reduce resultant fractures or other injuries in their populations of older people.

The National Institute for Clinical Excellence's technology appraisal will give doctors the latest evidence-based information on the most effective treatments for osteoporosis. This will ensure that patients have access to dear, authoritative advice on the sort of treatment that might be best for them.

Waiting Lists/Times

Simon Hughes: To ask the Secretary of State for Health (1) what the average length of time a patient was on the waiting list for treatment for *(a)* cancer and *(b)* heart disease in each London strategic health authority in each year since 1992; [159271]

(2) how many *(a)* cancer and *(b)* heart disease patients resident in each London strategic health authority were on a waiting list for treatment in each year since 1992. [159272]

Mr. Hutton *[holding answer 5 March 2004]:* The five London strategic health authorities (SHAs) were established in April 2002. Figures are available only from this date.

The tables show the average waiting times and the number of patients waiting for treatment for heart disease in London SHAs.

Average waiting list times

Months

SHA	*March 2003*	*December 2003*
North Central London	2.3	1.7
North East London	2.9	3.0
North West London	2.8	2.2
South East London	2.2	1.9
South West London	2.1	2.1

Number of patients on waiting list

Months

SHA	*March 2003*	*December 2003*
North Central London	82	118
North East London	731	760
North West London	939	790
South East London	626	521
South West London	353	355

Information on the average waiting times and number of patients waiting for cancer treatment in London SHAs is not available centrally. The NHS Cancer Plan sets out our strategy to reduce waiting times for cancer patients. The ultimate goal is that no one should wait longer that one month from an urgent referral for suspected cancer to the beginning of treatment except for a good clinical reason or through patient choice; it is planned to achieve this by 2008.

There is a series of staged milestones towards this goal: from 2001 new targets of a maximum one month wait from diagnosis to treatment for breast cancer and a maximum one month wait from urgent general practitioner referral to treatment for acute leukaemia, children's cancer and testicular cancer were introduced. From 2002, the target of a maximum wait of two months from urgent referral to treatment for breast cancer was introduced. By 2005, there will be targets of a maximum one month wait from diagnosis to treatment and a maximum two month wait from urgent GP referral to treatment for all cancers. Data on current targets are published quarterly on the Department's website for SHAs and trusts, at: http://www.performance.doh.gov.uk/cancerwaits.

Mr. Burns: To ask the Secretary of State for Health how many people were waiting for in-patient hospital treatment in the mid-Essex Hospital Trust area for each of the last two months. [159424]

Dr. Ladyman *[holding answer 10 March 2004]:* The information requested is shown in the table. This is the latest data that is available.

	Month	Number waiting for in-patient hospital treatment
Mid-Essex Hospital Services NHS Trust	December 2003	8,093
Mid-Essex Hospital Services NHS Trust	January 2004	7,895

Figures for February 2004 will be available on 2 April.

Working Time Directive

Mr. Yeo: To ask the Secretary of State for Health what assessment he has made of the impact of the European working time directive on the number of hours a trainee surgeon will complete between senior house officer grade and obtaining a consultant post; and if he will make a statement. [160659]

Mr. Hutton: The minimum length of time for each higher specialist training programme is governed by the European Specialist Medical Qualifications Order 1995. These minima are expressed in terms of years rather than hours. The shortest minimum is three years and the longest five. Training in the United Kingdom complies with them in all cases and exceeds them significantly in many instances.

We have in place 20 European working time directive pilot projects, four hospital at night pilots, as well as a significant development programme linked to reform of postgraduate medical training. A vital element of this on-going work is to assess the inter-relationship between implementation of the directive and current proposals to reform medical training to ensure that it is better managed, structured and able to respond to the needs of patients and the service.

HOME DEPARTMENT

Sentencing

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of the reasons for changes in average sentence lengths since 1991. [158736]

Paul Goggins: The average length of sentence passed in a magistrates' court increased from 2.9 months in 1991 to 3.1 months in 2002, the last year for which information is available.

The average length of sentence passed in the Crown Court increased from 18.3 months in 1991 to 25.9 months in 2002.

While it is for the courts to determine the sentence passed in individual cases the Government believes that prison should be reserved for serious, dangerous and seriously persistent offenders.

It is the role of the recently appointed Sentencing Guidelines Council to publish robust and comprehensive sentencing guidelines to assist the courts in their task of ensuring consistent and just disposals in all cases.

Asylum and Immigration

Mr. Jim Cousins: To ask the Secretary of State for the Home Department what the vacancy rate in accommodation contracted for by the National Asylum Support Service (NASS) was on the latest date for which figures are available, distinguishing between direct contracts and contracts placed with agencies such as local authorities, broken down by local authority area where NASS has such contracts. [157043]

Beverley Hughes: The information is not available in the format requested. With the reduction in the number of asylum applicants, work is underway to reduce the number of unoccupied places and further information will be provided about that in due course.

Jeremy Corbyn: To ask the Secretary of State for the Home Department what monitoring of returned unsuccessful asylum applicants is undertaken by UK representatives in *(a)* Congo, *(b)* Ivory Coast and *(c)* Cameroon; and if he will make a statement on his assessment of the safety of those individuals. [153940]

Beverley Hughes: All asylum (and human rights) claims are considered on their individual merits in accordance with our obligations under the 1951 United Nations' Refugee Convention and the European Convention on Human Rights (ECHR). Should a Claim be refused and any appeal before the independent Immigration Appellate Authority be unsuccessful, it means that for that individual it is safe to return.

In making decisions about removing failed asylum seekers, the Home Office takes full account of up to date information from a wide range of sources about the situation in the country of origin. These sources include intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example Amnesty International and Human Rights Watch).

If an individual asylum seeker establishes a need for international protection they would not be returned.

Mr. Keith Bradley: To ask the Secretary of State for the Home Department what the estimated annual cost to Manchester City Council is of the implementation of the provisions within the Asylum and Immigration (Treatment of Claimants, etc.) Bill as they affect local authorities. [159423]

Beverley Hughes *[holding answer 8 March 2004]:* Measures in the Asylum and Immigration (Treatment of Claimants, etc.) Bill are designed to reduce abuse of the United Kingdom asylum system. We would therefore expect implementation of its provisions to reduce costs for central and local government in the long-term. Concerns have been raised over the potential impact of clause 8 of the Bill which proposes to withdraw support from failed asylum-seeking families if they refuse to co-operate with efforts to return them home. If, by putting themselves in this position, parents put their children at risk, it would be for the local authority to decide how the interests of their children should be protected under existing child protection legislation. The Bill does not change the grounds on which children may be taken into care. We do not believe that many, if any, parents would put their children in this position. We have made clear

that local authorities would be reimbursed for costs incurred if a child did require assistance from a local authority as a consequence of the withdrawal of support.

Bail (Offences)

Stephen Hesford: To ask the Secretary of State for the Home Department what measures he is taking to prevent offences being committed by individuals released on bail. [156340]

Paul Goggins: The Government are determined to ensure that the courts give proper and careful consideration before exercising their discretion to grant bail where defendants who are already on bail commit an offence. The Criminal Justice Act 2003 provides that a defendant who applies for bail in respect of an offence that appears to have been committed while he was on bail for another offence may not be granted bail unless the court is satisfied that there is no significant risk of his offending again.

Coroners

Mr. Fabian Hamilton: To ask the Secretary of State for the Home Department whether coroners have powers to prevent burials taking place in private land. [159969]

Paul Goggins: Coroners do not have specific powers that allow them to prevent burials taking place in private land.

Correspondence

David Winnick: To ask the Secretary of State for the Home Department when he will reply to the hon. Member for Walsall, North's letter of 3 February regarding a constituent, Home Office ref. PO1274/4. [159634]

Beverley Hughes *[holding answer 8 March 2004]:* I wrote to my hon. Friend on 10 March 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter to him dated 26 January from the right hon. Member for Manchester, Gorton with regard to Mrs. Abdo. [159985]

Mr. Blunkett: I wrote to my right hon. Friend on 9 March 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter to him dated 26 January from the right hon. Member for Manchester, Gorton with regard to Mr. A. Mboob. [159986]

Mr. Blunkett: I wrote to my right hon. Friend on 4 March 2004.

Prosecutions (Romford/Havering)

Mr. Rosindell: To ask the Secretary of State for the Home Department (1) how many *(a)* successful and *(b)* unsuccessful criminal prosecutions were brought for crimes perpetrated in the Romford area of the London borough of Havering during *(a)* 1995, *(b)* 1997, *(c)* 1999, *(d)* 2001 and *(e)* 2003; [157010]

(2) how many criminal charges were pressed for crimes perpetrated in the Romford area of the London borough of Havering during *(a)* 1995, *(b)* 1997, *(c)* 1999, *(d)* 2001 and *(e)* 2003. [157011]

Paul Goggins: The available information is contained in the table and relates to *(a)* defendants convicted and *(b)* defendants not convicted in the Havering Petty Sessional Area, the magistrates court within which sits at Romford, in 1995, 1997, 1999, 2001 and 2002.

Statistics of defendants charged with offences are not collected centrally.

Defendants convicted and those not convicted of offences of all types in the Havering Petty Sessional Area

	Defendants convicted	*Defendants not convicted*[1]
1995	4,101	1,243
1997	3,711	965
1999	3,695	933
2001	3,112	970
2002	4,973	1,239

[1] Includes defendants whose proceedings were discontinued, those discharged under Sec 6 MCA 1980, and those whose charges were withdrawn or dismissed.

Statistics for 2003 will available in the autumn.

Deaths in Custody

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will list the people in custody who have committed suicide since 1 January including their name, date of birth, date of death, prison in which they died, the reason for imprisonment, date of sentencing and length of sentence they were serving. [161183]

Paul Goggins: As publishing such details can cause distress to the families of those bereaved by a self-inflicted death in prison, I will write to the hon. Member with this information in full.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many suicides in custody have been referred to the Prison Ombudsman in 2004 for investigation. [161184]

Paul Goggins: Since 1 January 2004, one apparently self-inflicted death has been referred to the Prison and Probation Ombudsman (PPO) for investigation. From 1 April 2004 the PPO will investigate all deaths of prisoners and probation hostel residents and any deaths of those held in immigration detention accommodation.

Adam Price: To ask the Secretary of State for the Home Department how many deaths in custody have occurred in the last 10 years as a result of a heart attack to which harsh treatment has been found to be a contributory factor. [158863]

Paul Goggins: With one possible exception in police custody in 1999 (in respect of which two inquests have failed to establish the exact cause of death), no heart-related death during the last 10 years in Police, Immigration or Prison Service custody has been related to "harsh treatment".

Detention and Removal Centres

Mr. Gerrard: To ask the Secretary of State for the Home Department what arrangements are in place for medical examinations of immigration and asylum detainees who allege assault by members of staff of detention and removal centres, escorts, or other detainees. [157449]

Beverley Hughes: There is medical provision at all immigration removal centres. Initial medical examinations of immigration detainees who allege assault would be carried out by the centre's own medical staff. Detainees, or their representatives, can request access to independent medical advice should they so wish. In such circumstances the centres would provide facilities for these examinations.

Ms. Drown: To ask the Secretary of State for the Home Department whether Group 4 received a copy of the report completed by Steven Shaw on Yarl's Wood. [159900]

Beverley Hughes: I can confirm that Group 4 have been provided with a copy of Stephen Shaw's report concerning allegations of racism at Yarl's Wood as covered in the *Daily Mirror* article of 8 December 2003.

The investigation by Stephen Shaw into the fire at Yarl's Wood on 14/15 February 2002 is still ongoing.

Ms. Drown: To ask the Secretary of State for the Home Department how many detainees and ex-detainees were interviewed by Steven Shaw for each of his reports; and how many detainees in total were present on the day of the fire. [159901]

Beverley Hughes: With regard to Stephen Shaw's inquiry into allegations of racism at Yarl's Wood, I understand that 30 detainees were interviewed by members of the inquiry team. The Ombudsman also received written notes from some detainees regarding this matter.

The inquiry into the fire at the centre on 14/15 February 2002 is ongoing. I understand that Mr. Shaw's team has so far spoken directly to some detainees, received signed statements from others, and has reviewed all the statements taken by police during their investigation of the incident, which includes a large number provided by detainees.

On the day of the fire there were 385 detainees in Yarl's Wood.

Disorder Penalty Notices

Mr. Jenkins: To ask the Secretary of State for the Home Department what assessment he has made of the penalty notice for disorder pilot. [160062]

Ms Blears: Home Office Research Findings summarising the findings of the interim evaluation report of the pilots of penalty notices for disorder scheme, which ran in four police force areas between August 2002 and September 2003, was published today. I have today issued a written statement welcoming the positive findings and placed copies of the findings in the Library.

DNA Testing

Mr. Oaten: To ask the Secretary of State for the Home Department whether the DNA testing of *(a)* prisoners and *(b)* mentally disordered offenders conducted between February and September 2003 was on a (i) voluntary and (ii) compulsory basis; and if he will make a statement. [160204]

Paul Goggins: The DNA Prisoner Sampling Exercise between February and September 2003 aimed to take a DNA sample from all convicted offenders held in Prison or Mental Health Establishments, who did not have a DNA profile on the National DNA Database. Persons held in mental hospitals who had been found unfit to plead or acquitted of an offence on grounds of insanity were also included, if their DNA was not already held on the Database.

Sections 63(3B) and (9A) of the Police and Criminal Evidence Act 1984 (as amended) provide that a police officer may take a non-intimate body sample from a person who is convicted of a recordable offence on or after 10 April 1995. If the prisoner was convicted prior to 10 April 1995, there is no power to take a non-intimate sample unless he is a person to whom Section 1 of the Criminal Evidence (Amendment) Act 1997 applies. Section 63(3C) of the 1984 Act also provides that a non-intimate sample may be taken from persons who were detained on the order of the court, following their acquittal on the grounds of insanity or a finding of unfitness to plead.

Sections 63(3B) and (3C) of the 1984 Act provide the power to take a DNA sample whether a prisoner or patient volunteers to give one or not. If a prisoner or patient refuses to give a sample voluntarily, then the police can take one using reasonable force if necessary. Of the 3,772 prisoners and patients sampled, 87 prisoners initially refused to be sampled. 77 of these prisoners subsequently agreed and only 10 had a head hair sample taken non-voluntarily. Patients were only sampled if their doctor gave consent and the patient agreed to provide a DNA sample.

Drug Rehabilitation Schemes (Portsmouth)

Mr. Hancock: To ask the Secretary of State for the Home Department how many people have been in drug rehabilitation schemes in the area covered by the Portsmouth Drug Action Team, in each year since 2001–02. [144499]

Ms Rosie Winterton *[pursuant to her reply, 18 December 2003, Official Report, c. 1056W]:* I have been asked to reply.

I regret that my previous response was incorrect, and the first paragraph should have read as follows.

Information on people in drug treatment services at drug action team level is collected centrally from the National Drug Treatment Monitoring System (NDTMS). However, data broken down by drug action team areas for 2001–02 and 2002–03 have not yet been finalised and published.

Drug Treatment and Testing Orders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what plans he has to extend drug treatment and testing orders. [159804]

Caroline Flint: Drug Treatment and Testing Orders (DTTOs) have been available to courts in England and Wales since October 2000. The commencement target has been increased from 6,000 orders per year between 2001–03 to 9,000 orders in 2003–04. This will increase again to 13,000 orders, including 1,000 of the new lower intensity variant, in 2004–05 and 16,000 orders, including 4,000 of a lower intensity, in 2005–06.

The DTTO will be replaced by the drug rehabilitation requirement of the new Community Order, when the relevant provisions of the Criminal Justice Act 2003 are implemented.

Eastern European Arrivals

Mr. Malins: To ask the Secretary of State for the Home Department how many Eastern Europeans have been granted *(a)* leave to enter the United Kingdom and *(b)* leave to remain in the United Kingdom pursuant to European Community Association agreements in each of the last 12 months. [161617]

Beverley Hughes: This information is not available in the format requested. However, I would refer the hon. Member to the Written Ministerial Statement I made on 12 March 2004, *Official Report*, column 112WS.

Mr. Malins: To ask the Secretary of State for the Home Department what ministerial instructions have been issued to his departmental staff on changes to requirements on Eastern Europeans seeking to enter the United Kingdom pursuant to European Community Association agreements. [161618]

Beverley Hughes: I would refer the hon. Member to the Written Ministerial Statement I made on 12 March 2004, *Official Report*, column 112WS.

Mr. Malins: To ask the Secretary of State for the Home Department if he will list the type of businesses in respect of which permission was granted in relation to Eastern Europeans for *(a)* leave to remain in the United Kingdom and *(b)* leave to enter the United Kingdom in the last 12 months pursuant to European Community Association agreements, broken down by number of each type of business. [161621]

Beverley Hughes: This information is not routinely collected. However, I would refer the hon. Member to the Written Ministerial Statement I made on 12 March 2004, *Official Report*, column 112WS.

Electronic Tagging

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department what assessment he has made of the case for using electronic tagging for sex offenders; and if he will make a statement. [157347]

Paul Goggins: Electronic tagging is already used with some sex offenders to monitor compliance with a curfew requirement, as part of an intensive supervision package. It does not, however, monitor their location as they move from one place to another. We are now actively considering the use of satellite tracking technology, which does monitor location, with a range of offender categories. Subject to the outcome of equipment testing, we hope to start a number of pilot schemes shortly.

Court Escort Contractors

Mr. Oaten: To ask the Secretary of State for the Home Department how many miles were driven by prison and court escort contractors in 2003. [160555]

Paul Goggins: Vehicles operated by the court escort contractors and Prison Service vehicles covered a combined total of approximately 22,700,000 miles in 2003. This figure covers the movement of prisoners from police stations and prisons to courts; from courts to prisons; and the transfer of prisoners between prisons.

EU Enlargement (Worker Registration)

Keith Vaz: To ask the Secretary of State for the Home Department what the procedure will be for a citizen coming from one of the accession countries to work in the UK on 1 May; and when and how he or she would register with the workers' registration scheme. [157349]

Beverley Hughes: Nationals of the new accession countries will need to apply to register with the Home Office as soon as they find and start a job. Applications will be made by post and they will be accepted from 1 May 2004 onwards. Those applying will need to provide information about what job they are doing, for whom, at what wage and where in the country it is.

Keith Vaz: To ask the Secretary of State for the Home Department when and how citizens of EU accession countries currently resident in the UK should register on the workers' registration scheme. [157350]

Beverley Hughes: The workers registration scheme will be effective from 1 May 2004. Nationals of A-8 countries who are already working legally in the UK will not be required to register with the scheme.

Extraditions (Russia)

Mr. Banks: To ask the Secretary of State for the Home Department pursuant to his answer of 12 February 2004, *Official Report*, column 1715W, on Extraditions (Russia), if he will name the four Russian citizens or ex-citizens who were the subject of an extradition request by the Russian Federation authorities; and whether a decision has been made on the case outstanding as at 12 February. [160247]

Caroline Flint: It is not the policy or practice to list the names of those who are or who have been the subject of extradition proceedings. A decision will be taken as soon as possible in the one Russian extradition request which is currently outstanding.

Female Prisoners

Mr. Godsiff: To ask the Secretary of State for the Home Department how many incidents of self-harm were recorded for female prisoners for the last three years for which complete data is available. [158061]

Paul Goggins: The figures requested are provided in the following table.

	Number of incidents of self-harm recorded for women prisoners
2001	2,034
2002	2,493
2003	[1]7,408

[1] In December 2002 new procedures for reporting self-injury were introduced in prisons in England and Wales, and much of the increase in reported self-harm in 2003 may result from this rather than reflect an actual increase in incidence of self-harm.

The prison population, and particularly the women's estate, contains a substantial number of individuals who have experienced negative life events, all of which are identified as significant risk factors for suicide and self-harm. These include psychiatric disorders, alcohol and drug dependency, family background and relationship problems, as well as histories of self-harm and previous abuse.

The Prison Service recognises that self-harm is a particular problem among women prisoners, and is currently developing a range of interventions including: individual crisis counselling for women prisoners who self-harm; the continued development and evaluation of Dialectical Behaviour Therapy, which is currently being trialled at Durham, Bullwood Hall and Holloway prisons; investment and planning to ensure progress on the detoxification strategy in the Women's Estate; the development of a new, three-stage screening process to more effectively detect mental health problems; and the introduction of a new training pack for all staff working with women in custody, which includes a module on the health and well being of women prisoners.

One million pounds from the Department of Health has been allocated to the Women's Estate to be spent on the recruitment of psychiatric nurses, and 11 out of the 17 prisons for women now have mental health in-reach facilities. A network of establishments (both male and female) has been set up to develop interventions, facilitate evaluation and share good practice on the subject of self-harm, and guidance to staff on managing people who self-harm has been circulated to all establishments.

Holocaust Memorial Day

Mrs. Ellman: To ask the Secretary of State for the Home Department what plans he has to consult stakeholders on proposed changes in the remit of National Holocaust Memorial Day. [160641]

Fiona Mactaggart *[holding answer 11 March 2004]*: There are no plans to change the remit of Holocaust Memorial Day. Had the Home Office plans to change the remit of the Day, stakeholders would be consulted via the existing advisory group structures.

Mrs. Ellman: To ask the Secretary of State for the Home Department how many Holocaust Memorial Day local activities guidelines packs were sent out in 2004; and how many local authorities commemorated Holocaust Memorial Day. [160642]

Fiona Mactaggart *[holding answer 11 March 2004]*: 7,500 local activities guidelines packs, of the version produced specifically for Holocaust Memorial Day 2004, have been distributed in hard copy. The pack was available online at the official Holocaust Memorial Day website and has been downloaded 8,740 times.

2,083 copies of guidance prepared in conjunction with Churches Together in Britain and Ireland were distributed in hard copy or downloaded.

We are aware of 146 events organised or part-organised by 99 different local authorities for Holocaust Memorial Day 2004, with a further 194 organised by other groups or individuals outside central or local Government. This total of 340 compares to 244 for Holocaust Memorial Day 2003.

However, both this year and last the number of local events is likely to have exceeded this number as feedback and monitoring are not comprehensive. These figures also exclude the range of events around Northern Ireland making up the national commemoration, and much activity in schools.

Mrs. Ellman: To ask the Secretary of State for the Home Department what the remit for Holocaust Memorial Day is. [160644]

Fiona Mactaggart *[holding answer 11 March 2004]*: The key aims of Holocaust Memorial Day are to remember all victims of the Holocaust and Nazi persecution, to raise awareness and understanding of the Holocaust and to promote the continuing importance of its messages (that it should never be forgotten or repeated) by considering those affected by more recent atrocities that raise similar issues. It is also to educate about the dangers of anti-Semitism, racism and all forms of discrimination.

The 13-point Statement of Purpose, which expands on these aims, can be obtained in full from the Home Office or from the Holocaust Memorial Day website at www.holocaustmemorialday.gov.uk.

Mrs. Ellman: To ask the Secretary of State for the Home Department what plans he has to meet the National Association of British Arabs concerning Holocaust Memorial Day; and if he will make a statement. [160645]

Fiona Mactaggart *[holding answer 11 March 2004]*: I met with representatives of the National Association of British Arabs and the Council for the Advancement of Arab-British Understanding on 8 March. The meeting was to discuss issues of domestic concern to British Arabs. Holocaust Memorial Day was not discussed.

The National Association of British Arabs have not requested a meeting with my right hon. Friend the Secretary of State to discuss Holocaust Memorial Day and no such meeting is arranged.

The Home Office would encourage all communities to participate in Holocaust Memorial Day, which raises issues that are relevant to all.

Home Detention Curfew Scheme

Mrs. Gillan: To ask the Secretary of State for the Home Department how many offenders placed on the home detention curfew scheme between January 1999 and 31 January 2004 *(a)* have been (i) cautioned and (ii) convicted and *(b)* are awaiting prosecution, broken down by (A) sex and (B) police authority. [159277]

Paul Goggins *[holding answer 5 March 2004]:* Between the commencement of the home detention curfew scheme in January 1999 and 31 January 2004, 87,250 offenders were placed on the scheme. During that period, the Home Office has been notified of a total of 1,126 offenders who have been either cautioned, convicted or who are awaiting prosecution for an offence committed whilst they were subject to the Home Detention Curfew scheme. Our records do not provide a breakdown of how many of these cases resulted in a caution or conviction or are still awaiting trial. To provide such information would incur a disproportionate cost.

Of those offenders, 115 were female and 1,011 were male. The table gives the number of offenders for each police authority.. The table gives the number of offenders for each police authority.

Identity Cards

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of the effect that identity cards have had on the level of identity fraud in other European countries. [155341]

Beverley Hughes: The incorporation of advanced biometric information into identity documents and the development of an electronic national identity register were announced by my right hon. Friend, the Home Secretary, in his statement on a national identity cards scheme. These measures would provide a unique link between the identity card and the person to whom it was issued and help to ensure that fraudsters could not set up multiple identities. This should have a significant impact in reducing identity fraud.

Home Office officials have had detailed discussions with colleagues involved in the operation of identity card schemes in Italy, Sweden, Germany and the Netherlands and comprehensive information has been supplied by each of the EU member states on the operation of their card schemes. Lessons have been learned and where appropriate they have informed the development of our policy for an identity cards scheme.

Many EU identity card schemes were developed with other specific aims and objectives in mind such as population registration and not specifically implemented for countering identity fraud. As such, many identity cards are issued locally after checking available information e.g. birth certificates, information relating to an applicant's parents. In most EU countries, it is not necessary to give biometric information when applying for an identity card or accessing services.

The 'Identity Cards: The Next Steps' document (CM 6020) states that applications for one of the family of identity cards will require checks against other databases. These checks would confirm that a person had been known by a certain identity and lived at known addresses for a number of years. This information is more difficult to forge than e.g. birth certificates and follows recommendations made in 'Identity Fraud: A Study' conducted by the Cabinet Office and published in July 2002.

Many card schemes in other countries have been in place for many years and use mainly paper cards, which do not hold biometric data. With the passage of time, there is an increasing risk that fraudsters could obtain access to modern printing technology and use it to produce forged paper cards for the purpose of committing identity fraud. The absence of a central electronic identity register in many EU countries, increases the risks as an identity card (or biometric data) cannot be checked against a centrally held record of that information. As such organisations checking a card are only able to make visual checks e.g. to check that the photograph on an identity card looks like the person presenting the card and to check for no obvious alterations to the card itself.

In 'Identity Cards: The Next Steps' the Government stated that the National Identity Register will link each individual record to a biometric. This will prevent multiple identities being established and allow organisations to check a card at a level appropriate for that service.

The National Identity Register will be a single highly reliable record of a person's identity and will provide a secure means to verify identity where a registered person consents that their information can be verified by that held on the National Identity Register.

While a modern and effective card scheme would help to combat identity fraud, it does not mean that every card scheme, especially those that have been implemented some time ago, would have a similar or significant effect on countering this type of crime unless they have been regularly updated to stay one step ahead of fraudsters. It is therefore not possible to assess the effect that card schemes in other European countries have had on identity fraud.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what penalties or deterrents are proposed under the identity card scheme for employers who employ people illegally; and how this will differ from the current system. [156093]

Beverley Hughes: A common format identification card, able to verify identity to a high standard for all legal residents, would provide employers with a more reliable, quick and easy method of verifying identity and employment eligibility of potential employees. By so doing, it would ensure that employers are able to comply more easily with any requirements of legislation preventing illegal working. These requirements and the associated penalties are contained in immigration legislation, currently section 8 of the Asylum and Immigration Act 1996.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how an identity card will aid the police; and how this improves on tools and methods they already have in place. [156094]

Beverley Hughes: Identity fraud costs the economy at least £1.3 billion every year. Terrorists use false and multiple identities to help undertake and finance their activities in the United Kingdom and abroad. False and multiple identities are also essential "tools of the trade" for organised crime to facilitate money laundering and also other crimes such as people-trafficking and drug-trafficking. The development of unique identifiers linked to the National Identity Register will help tackle these problems allowing the police and other organisations greater certainty in the identification of individuals and helping prevent multiple identities being used for such purposes.

There is the potential for an identity cards scheme to assist shops owners and licensees control the sale of age-related products. The Government's plans for a national identity cards scheme would provide a nationally accepted and secure way of proving and determining age. Our current best cost estimates would fund the issuing of cards free to all 16-year-olds.

We would also expect that improvements in identity verification through the use of the card and central database will free up police time and resources. For example, the police would be able to check the biometric/card of an arrested person where no match is found on police records. There would be no need to require a card to be carried or produced because of the ability to check biometric information directly with National Identity Register. There are also cases where people may voluntarily show a card or allow biometric information to be checked, for instance after a road traffic incident.

Finally, while the police and other organisations will not have routine access to data stored on the National Identity Register, such access would be authorised in certain specific circumstances, for example the investigation of serious crime.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what *(a)* mechanisms and *(b)* compensation schemes are proposed under the identity card scheme for individuals whose biometric data is compromised. [157030]

Beverley Hughes: It is too early at present to specify the exact procedures that will need to be in place if an individual's biometric data is compromised. However, as with any database of personal information, there will be a legal obligation under the Data Protection Act 1998 for the controller of the National Identity Register to ensure that the information held is accurate and secure and an avenue of complaint to the Information Commissioner is open in cases where any complaint cannot be resolved by the controller. Biometric information is no different from other types of personal information with regard to this obligation.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of the advantages gained by other countries after the introduction of identity cards. [157258]

Beverley Hughes: Identity card schemes have existed in all EU countries for many years, with the exception of Denmark and Ireland.

Home Office officials have had detailed discussions with colleagues involved in the operation of identity card schemes in Italy, Sweden, the Netherlands and Germany and lessons learned have informed the development of policy where appropriate.

In addition, comprehensive information has been supplied by each of the EU member states on the operation of their card schemes, including the benefits associated with the card scheme.

Identity cards in most EU countries are used widely in dealings with central and local government and private sector organisations to establish identity and entitlement to services more securely. Databases of identity card holders are often used to help plan for, and administer, services more efficiently, and ensure that services are accessed by those entitled to receive them.

Many EU countries consider identity cards to be an important way of tackling illegal immigration and illegal working by reducing the 'pull factors' which attract illegal immigrants to their countries.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what research has been conducted to establish the level of security threats in countries that have ID cards. [158708]

Beverley Hughes: There are very many factors which affect the level of security threats and it would not be possible to correlate the level of threat in different countries with their use of ID cards.

Terrorists use false and multiple identities to help undertake and finance their activities in the UK and abroad. The development of unique identifiers linked to the National Identity Register will help to disrupt terrorist activity and protect the public.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what the consequences will be for refusal to identify oneself by the production of an identity card; [158711]

(2) if he will specify that organisations should not rely solely on an identity card to establish a person's identity. [158722]

Beverley Hughes: There will be no new power for the police to stop someone and demand them to produce their identity card. There will be no new sanctions against a person who refuses to identify themselves to the police either by means of an identity card or otherwise. However, the police do have powers to take steps to identify a person who has been arrested.

One of the key aims of the identity cards scheme is to ensure that free public services are only used by those entitled to them. As set out in "Identity Cards: the next steps" Cm 6020, production of a card to access public services will be in ways defined by those services. In the case of those services for which the devolved Administrations have responsibility, decisions on production of a card to access those services would be a matter for them. We are clear however that the use of the card for access to free public services would not prevent people without cards from accessing emergency services and a card would not be mandatory for verification of entitlement to other services until the appropriate further parliamentary decision on a move to compulsion.

There is also the potential to check identity against the National Identity Register without the production of a card since each individual's record is linked to a biometric that is unique to that person. This means that even without a card being produced, it will be possible to check someone's biometric information directly with the National Identity Register to establish his or her identity. This could be done with the person's consent or without consent in certain limited circumstances such as establishing the identity of arrested persons.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what consultations his Department has held with members of minority groups regarding identity cards. [160453]

Beverley Hughes: During the consultation process on what were then called "entitlement cards" the Home Office carried out quantitative research among the general public. A separate study was carried out among members of black and minority ethnic groups. The results of these surveys can be found in "Identity Cards: A Summary of Findings from the Consultation Exercise on Entitlement Cards and Identity Fraud" (CM6019) published in November 2003. Discussions continue between the Home Office and representative organisations like the Commission for Racial Equality and members of the Race Equality Advisory Panel.

The consultation also included qualitative research in focus groups and submissions were received from representatives of special interest groups, for example, the homeless, travellers, people living in rural areas and transgendered people. Full details can be found in the publication referred to above.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) under what circumstances local authorities check a person's identity; what difficulties in making such checks have been reported to him by local authorities; and how he expects the introduction of a national identity card to remedy these problems; [159753]

(2) what consultation he *(a)* has held and *(b)* plans to hold with local authorities regarding the national identity card scheme. [159754]

Beverley Hughes: Copies of the Government's Consultation Paper on the proposals for what were then called entitlement cards were sent to all local authorities in England and Wales and to all 32 councils in Scotland. Responses were received from 45 individual councils and from the Local Government Association (LGA). A summary of their comments can be found in the document "Identity Cards: A Summary of Findings from the Consultation Exercise on Entitlement Cards and Identity Fraud" (CM 6019 of November 2003). During the consultation period officials gave presentations to the LGA, the Welsh Local Authorities Forum, Local Authority Fraud Investigators and Local Authority Policy Officers. Contacts are maintained between the Home Office officials and the LGA.

Local authorities, like other organisations which interface with the public and provide services, are responsible for deciding how, and in what circumstances, they need to check someone's identity. While we have no record of any problems connected with identity checks by local authorities being reported to the Home Office, many local authorities welcomed the more reliable identity checks which would be facilitated by our scheme. A national identity card would help all service providers, including local authorities, by providing a single, secure and verifiable identity for all citizens and for foreign nationals legally resident here for more than three months. It will be for service providers to decide how they will use the card in the context of access to their services.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what powers police officers have to establish a person's identity; [159755]

(2) if he will make a statement on how identity cards will assist the police in stop and searches if carrying a card is to be voluntary. [159756]

Beverley Hughes: The police have powers to take steps to identify a person who has been arrested including checking biometric information. There are also classes of criminal offences which are non-arrestable and are enforced by sending a summons. In these situations, the police have to be certain of a person's name and address. If a person refuses to identify themselves in these circumstances or the police are not satisfied with the information given, they have a power of arrest after which biometric checks can be made.

Sections 9 and 10 of the Criminal Justice Act 2003 has extended the circumstances in which the police may record biometric information without consent to

include recording from a person arrested for a recordable offence and detained in a police station. This addition to s61 and 63 of the Police and Criminal Evidence Act (PACE) 1984 will prevent persons who come into police custody and who may be wanted on a warrant or for questioning on other matters from avoiding detection by giving the police a false name and address. These provisions come into effect on 5 April 2004.

The National Identity Register will link each individual's record to a biometric that is unique to that person. This means that even without a card being produced, it will be possible to check someone's biometric information directly with the National Identity Register to establish his or her identity. This could be done with the person's consent or without consent in certain limited circumstances such as establishing the identity of arrested persons in line with the powers set out above.

Internet

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what steps he is taking to prevent the circulation of offensive material through the internet; and if he will make a statement. [157314]

Paul Goggins: We continue to seek ways to disrupt the circulation of obscene and other illegal material on the internet through the criminal law and by co-operation with the authorities in other countries such as the United States of America, and with industry partners.

Jim Stephens

Tony Baldry: To ask the Secretary of State for the Home Department when he expects the application of Mr. Jim Stephens, Ref. 51178115, to remain in the United Kingdom to be determined. [159414]

Beverley Hughes: Mr. Stephens' appeal against the refusal of leave to remain in the United Kingdom was forwarded to the Immigration Appellate Authority (IAA) on 9 March. The IAA will notify Mr. Stephens of an appeal hearing date in due course.

Neighbourhood Watch Schemes

John Mann: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of *(a)* resident groups and *(b)* community watch schemes in preventing crime. [159667]

Ms Blears: There has been no formal Home Office assessment of the effectiveness of residents' groups and watch schemes in reducing crime, although some individual projects have been evaluated.

Anecdotal evidence suggests that both resident groups and community watch schemes are effective in bringing communities together to prevent crime and reduce fear of crime.

Tenants' and residents' groups are particularly successful at building community spirit and articulating local needs and concerns resulting in enhanced trust and co-operation with Police.

Neighbourhood watch schemes are also regarded as one of the most effective examples in preventing crime and reducing the fear of crime. Over 155,000 Neighbourhood Watch schemes operate throughout the United Kingdom covering up to 27 per cent. of all households. 75 per cent. of the respondents to the 2000 British Crime Survey felt that Neighbourhood Watch schemes were effective in preventing crimes such as burglary.

The Home Office are in the process developing an Active Citizenship Centre, a virtual resource, to provide an overarching framework to assess systematically the evidence of the impact of citizens giving up their time to help their local community.

Prisoners (Accommodation on Release)

Mr. McCabe: To ask the Secretary of State for the Home Department how many prisoners were released from custodial sentence in the *(a)* most recent year for which figures are available, *(b)* previous three years and *(c)* previous five years; how many prisoners gave no fixed abode (NFA) as their address on release from custodial sentence; how many paedophiles were released from custodial sentence within these periods; and how many paedophiles gave NFA as their address within these periods on release from custodial sentence. [158064]

Paul Goggins: Information on the number of prisoners released from determinate sentences is given in the table.

Persons discharged from determinate sentences[1]: 1998–2003

1998	84,693
1999	89,765
2000	89,154
2001	85,290
2002	88,330
2003	86,995

[1] Excludes discharges following recall after release on licence, civil prisoners and fine defaulters

The Prison Service undertook a large-scale survey in March and April 2003 of sentenced prisoners nearing release. 29 per cent. said they did not have accommodation arranged on release, compared to 33 per cent. in a similar survey undertaken in November and December 2001. These surveys did not look separately at prisoners convicted of sex offences. However, Multi-Agency Public Protection Arrangements (MAPPA) provide a framework within which different agencies work together to manage the risks posed by sex offenders living in the community, including those arising from the absence of stable accommodation. The resettlement of sex offenders posing a serious risk of harm to the public is jointly managed by the police and the National Probation Service within these arrangements.

Registered sex offenders are also subject to the notification requirements of the Sex Offenders Act 1997. They are required to provide the police with their home address within three days of their release from prison. Where an offender does not have a home address (which is his sole or main residence in the United Kingdom), he is required to provide the police with an address of premises in the UK that he regularly visits.

Provisions in the Criminal Justice Act 2003 will formalise this multi-agency engagement by imposing a duty to co-operate with the MAPPA on a number of agencies, including local housing authorities and relevant registered social landlords.

National Offender Management Service

Mrs. Gillan: To ask the Secretary of State for the Home Department whether the police *(a)* have been and *(b)* will be consulted about supervision arrangements under the proposed National Offender Management Service structure. [159813]

Paul Goggins: The National Offender Management Service (NOMS) implementation team has had discussions with members of the Police Service regarding the proposed NOMS structure and this will continue. The Association of Chief Police Officers have also received copies of the "Reducing Crime—Changing Lives" document which sets out the Government's proposals for the reform of correctional services and sought views on implementation issues for the new National Offender Management Service.

Operation Safeguard

Mr. Oaten: To ask the Secretary of State for the Home Department what the cost per prisoner per night of detention in a police cell under Operation Safeguard is, broken down by police force area. [160193]

Paul Goggins: There are currently no prisoners being held under Operation Safeguard in England and Wales, therefore there are no costs associated with the arrangement. For the average daily cost the last time Operation Safeguard was employed, I refer the hon. Member to the answer I gave on 8 December 2003, column 237W and 19 January 2004, column. 982W.

Persistent Offenders

Mr. Evans: To ask the Secretary of State for the Home Department what steps he has taken to reduce persistent offending through targeting prolific offenders in *(a)* Ribble Valley and Fulwood and *(b)* Lancashire in each of the last five years; and whether such schemes are being trialled. [156636]

Paul Goggins: There are a number of initiatives to tackle persistent offenders in Ribble Valley, Fulwood and throughout Lancashire, which support the aims of the national Persistent Offender Scheme.

One such initiative is Operation Outmost. This is a trial cross-border police operation involving staff from Lancashire, North Yorkshire and British Transport Police. It targets persistent offenders who operate in rural areas such as Ribble Valley.

The Preston Tower Project, which covers Fullwood, was launched in 2002. It is an initiative targeting prolific offenders with drug addiction. In the area covered by the project there has been a 19 per cent. reduction in burglary (dwellings) and a 42 per cent. reduction in vehicle crime in the last 11 months. Other areas of Lancashire already have or are developing similar projects.

The Jigsaw Project, is a resettlement project that engages with 100 persistent offenders in Lancashire aged between 18 and 20-years-old. The project aids resettlement by linking into local drug treatment services.

In October 2003, Lord Falconer launched the North West's Prisoner Resettlement Strategy. The central purpose of the Strategy, which concentrates on persistent offenders, is to reduce crime and prevent re-offending through a co-ordinated and integrated Resettlement and Rehabilitation Strategy. Preston City Council, which covers Fulwood, is engaged in this work along with Blackburn and Darwen Councils.

An Intensive Control and Change Programme (ICCP) targeting persistent offenders aged 18 to 20-year-olds is running throughout Lancashire. Offenders are tagged and undergo intensive supervision during the day. They are kept off the streets by an overnight curfew.

All the other schemes except Operation Outmost are fully operational.

Police Cells

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will list police station cells which have been certified in the manner required by section 14 of the Prison Act 1952. [160699]

Paul Goggins: The requirement in the Prison Act 1952 for the certification of cells does not apply to police cells. Under section 6 of the Imprisonment (Temporary Provisions) Act 1980, persons who may lawfully be detained in penal institutions in England and Wales, may be detained in police cells under the custody of a constable.

Prison Buildings

Mr. Laws: To ask the Secretary of State for the Home Department what estimate he has made of the value of prison buildings in central *(a)* London, *(b)* Liverpool, *(c)* Leeds, *(d)* Manchester, *(e)* Sheffield and *(f)* Birmingham; and if he will make a statement. [156705]

Paul Goggins: The value of prison buildings used in the accounts calculated on a depreciated replacement cost basis which does not necessarily represent their disposal value. On this basis the current values of prisons in central city areas are:

Prisons in central city areas

	£
London	281,846,103
Liverpool	36,258,996
Leeds	27,264,606
Manchester	95,164,527
Sheffield	none
Birmingham	58,721,713

Prisoner Discharge Grants

Mrs. Gillan: To ask the Secretary of State for the Home Department how much the current prisoner discharge grant amounts to; when it was last revised; and what plans he has to re-examine the level of grant. [160636]

Paul Goggins *[holding answer 11 March 2004]*: The standard rates of discharge grant paid are £46.75 (for prisoners aged 25 and older) or £37 (for prisoners aged 18 to 24). A higher rate of discharge grant (£94.40) is paid to prisoners on release only if there is a need to seek, obtain and pay for accommodation. It is only paid to prisoners with no accommodation arranged in advance if this arises through no fault of the prisoner. The current rates were set in 1995.

The Government are drawing up a National Rehabilitation Action Plan responding to the July 2002 Social Exclusion Unit report on reducing re-offending by released prisoners. The discharge grant is being reviewed as a part of this work.

Prisoner Statistics

Mrs. Gillan: To ask the Secretary of State for the Home Department how many *(a)* women and *(b)* men were being held in prison on 8 March. [160637]

Paul Goggins *[holding answer 11 March 2004]*: On 8 March 2004 there were 4,560 women and 70,447 men being held in Prison Service establishments in England and Wales.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were eligible on 8 March for early release. [160638]

Paul Goggins *[holding answer 11 March 2004]*: Information on the number of prisoners who were eligible for early release on 8 March 2004 is not yet available.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were released on 8 March on early release. [160639]

Paul Goggins *[holding answer 1i March 2004]*: Information on the number of prisoners who were released on 8 March 2004 on early release is not yet available.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were eligible for early release on 9 March. [161049]

Paul Goggins *[holding answer 12 March 2004]*: I refer the hon. Member to my answer to her previous question (160638].

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were released on early release on 9 March. [161050]

Paul Goggins *[holding answer 12 March 2004]*: I refer the hon. Member to my answer to her previous question (160639).

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were released on *(a)* 8 March and *(b)* 9 March. [161051]

Paul Goggins *[holding answer 12 March 2004]*: Information on the number of prisoners who were released on 8 March 2004 and 9 March 2004 is not yet available.

Mr. David Laws: To ask the Secretary of State for the Home Department how many prisoners there are in English prisons; and how many of these are in privately run prisons. [156704]

Paul Goggins: On 30 November 2003, there were 71,706 prisoners in English prisons. Of these, 5,709 were in privately run prisons.

Sandra Gidley: To ask the Secretary of State for the Home Department when the new prison wing for elderly prisoners in HMP Norwich will open; and what facilities will be provided in this wing that are unique to the care of the elderly. [157374]

Paul Goggins: The Elderly Life Sentence Prisoner unit at HMP/YOI Norwich is scheduled to open in late June 2004. Upon completion, this residential unit will provide accommodation to 15 elderly prisoners.

The design of the unit is sympathetic to the needs of the elderly. It is being built in a discrete area of the prison and all facilities are situated at ground floor level. The unit will fully comply with the Disability Discrimination Act.

Sandra Gidley: To ask the Secretary of State for the Home Department what the most recent average cost per year is of *(a)* keeping a prisoner in a general prison and *(b)* keeping a prisoner aged 65 years or over in HMP Kingston's specialised wing. [157375]

Paul Goggins: The average cost across all establishments of keeping a prisoner during the financial year 2002–03 was £24,241. This figure is expressed in resource terms, excluding headquarters costs, but including items such as the cost of capital and the cost of depreciation on Prison Service assets.

The Prison Service does not hold information on the costs of keeping individual groups of prisoners in particular prisons. The costs of keeping prisoners over the age of 65 in HMP Kingston are embedded in the broader costs of running the whole establishment and cannot be disaggregated.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners absconded from category D prisons in each year since 1997. [159280]

Paul Goggins *[holding answer 5 March 2004]*: Categorisation relates to prisoners not prisons. Category D prisoners are those who it is assessed can be reasonably trusted in open conditions and the majority are held in open or semi-open prisons. Absconds from semi-open prisons are very few. The table shows the numbers of absconds in each year reported by open prisons.

	Number of absconds
1997	1,012
1998	880
1999	840

	Number of absconds
2000	781
2001	743
2002	825
2003	1,224

Mr. Oaten: To ask the Secretary of State for the Home Department how many failed suicide attempts took place in prisons in England and Wales in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [160208]

Paul Goggins: Suicidal intent is difficult to establish. Data recording incidents of 'attempted suicide' are subsumed within those for self-harm, which covers all acts of self-injury.

Good care and support from staff saves many lives; 154 prisoners were resuscitated following self-harm incidents in 2002, and a further 211 prisoners were resuscitated in 2003. Reducing the number of self-inflicted deaths and instances of self-harm in prison establishments is a priority for Ministers and the Prison Service. A three-year programme to develop policies and practices to reduce prisoner suicide and manage self-harm in prisons is currently drawing to a close. The results of this programme and complementary research will inform future suicide prevention and self-harm management strategy.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) why prison is becoming a more common form of punishment; [148888]

(2) if he will make a statement on changes in *(a)* custody rates and *(b)* sentence lengths. [148893]

Paul Goggins: The main reason for the increased use of prison is the increased severity of sentencing. At magistrates courts the custody rate for indictable offences was 15 per cent. in 2002. This compares with 14 per cent. in 2001, ten per cent. in 1997 and five per cent. in 1992.

At the Crown court the custody rate for indictable offences was 63 per cent. in 2002, the same as in 2001. This compares with 60 per cent. in 1997 and 44 per cent. in 1992. For males aged 21 or over the average custodial sentence length was 27.8 months in 2002. This compares with 26.0 months in 2001, 24.2 months in 1997 and 21.1 months in 1992.

The new Sentencing Guidelines Council met for the first time on 5 March 2004 and will provide a comprehensive set of sentencing guidelines for all offences. This will enable all courts and practitioners to adopt a consistent approach to sentencing.

Probation Cases

Mr. Oaten: To ask the Secretary of State for the Home Department how many cases were dealt with on average per probation officer in the last year for which figures are available; and what the projected caseload is in the next three years. [155960]

Paul Goggins: The average number of offenders on supervision per officer[1] as at 31 December 2002 was 21.0.

The projected probation service caseload for the next three years for England and Wales is as follows:

	Total
2003–04	225,000
2004–05	233,500
2005–06	248,800

Figures for projected caseload per officer are not available.

[1] This includes Maingrade Probation Officers, Senior Probation Officers, temporary Probation Officers, Senior Practitioners and Probation Services Officers, all of whom are involved with the supervision of offenders.

Re-offending

Mr. Keith Bradley: To ask the Secretary of State for the Home Department if he will publish his latest action plan following the recommendations contained in the Social Exclusion Unit report on Reducing Re-offending by Ex-prisoners. [157507]

Paul Goggins *[holding answer 1 March 2004]:* The Home Office will shortly publish a National Rehabilitation Action Plan which will form the Government's initial response to the Social Exclusion Unit's report.

Restorative Justice

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) whether restorative justice is used within the justice system; [155338]

(2) what research he has conducted into the *(a)* effectiveness and *(b)* viability of restorative justice. [155337]

Paul Goggins: Restorative justice brings victims (who wish it) and offenders into a process of managed communication in order to repair the harm caused by the offence.

It is an integral part of a number of interventions in the youth justice system. Final Warnings are increasingly administered restoratively and Referral Orders, rolled out nationally in April 2002, are based on restorative principles.

In the adult justice system, several police forces facilitate restorative cautions and the Criminal Justice Act 2003 will introduce the new conditional caution, planned for use later this year, which police will be able to administer restoratively. Work has also been carried out in a number of probation areas and in several prisons.

The Government are keen to build on these developments.

There is already strong evidence that victims benefit; studies suggest that at least 75 per cent. of victims who take part in restorative justice are glad they did so. Research into the Referral Order has shown that victims' experiences were "overwhelmingly positive".

International studies and early evidence from the United Kingdom about the effects on re-offending is encouraging but inconclusive. There is a need for further research, in particular regarding the effects for different offence types. This is why, as part of the Crime Reduction Programme, the Home Office funded three pilot schemes to test the effectiveness of restorative

justice for adults at various stages of the criminal justice system. The first report of an independent evaluation of these schemes is planned for Autumn 2004 with a final report in 2007.

The Home Office is also developing a research project to evaluate restorative justice as a diversion from prosecution. This is planned to commence in 2004.

Robert Dymond

Mr. Swayne: To ask the Secretary of State for the Home Department when transport will be provided to convey Robert Dymond from HMP Altcourse to HMP Guys Marsh; and if he will make a statement. [157401]

Paul Goggins *[holding answer 1 March 2004]:* I have been assured that Mr. Dymond will be transferred to HMP Guys Marsh during week commencing 8 March 2004.

Arrangements had been made to transfer Mr. Dymond to HMP Guys Marsh week commencing 9 February, however due to continuing population pressures and the need to redirect transport to help ease these pressures in the north west the transfer was postponed.

Sentencing Guidelines Council

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how the *(a)* work and *(b)* effectiveness of the Sentencing Guidelines Council will be assessed. [159807]

Paul Goggins: The Sentencing Guidelines Council has only just been established. In the longer term we expect to see evidence of its effectiveness in terms of greater consistency in sentencing.

The Government believes that prison should be reserved for serious, dangerous and seriously persistent offenders, and that others are better punished in the community. The Council's work will lead to greater consistency in sentencing , and to a rebalancing between the use of custody and community sentences. As early priorities, the Council will formulate guidelines on sexual offences and on the new generic community sentence. More consistent and effective sentencing should in turn lead to a reduction in re-offending.

Shaw Inquiry Reports

Mr. Patrick Hall: To ask the Secretary of State for the Home Department when he will publish the reports of the inquiries by Steven Shaw into *(a)* allegations of racism among Group 4/Global Solutions staff at the Yarl's Wood detention centre and *(b)* the lessons learned from the Yarl's Wood fire. [159608]

Beverley Hughes: I refer my hon. Friend to the answer I gave to the hon. Member for North-East Bedfordshire (Alistair Burt) on 2 March 2004, *Official Report*, column 906W.

Supervision and Monitoring Schemes

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department in what areas intensive supervision and monitoring schemes will be implemented. [159805]

Paul Goggins: Currently there are 14 Intensive Supervision and Monitoring Schemes (ISMs) running in Birmingham, Bristol, Cambridge, Cardiff, Grimsby, Hastings, Leicester, Liverpool, London, Manchester, Middlesbrough, Newcastle, Nottingham and Stoke funded or part-funded by the National Probation Service until March 2004.

The proposals contained in Reducing Crime—Changing Lives and the provisions contained in the Criminal Justice Act 2003 will shape the way work with persistent offenders is developed in the future. Many elements of the ISMs will satisfy the requirements of the new generic sentence, and will also contribute to Custody Minus, Intermittent Custody and other intensive interventions such as the Intensive Control and Change Programme.

Future plans to work with persistent offenders will also be incorporated into the regional resettlement strategies which are currently being developed.

Travellers (Photographic Images)

Mr. Wilshire: To ask the Secretary of State for the Home Department (1) for how long and where photographic images of travellers using *(a)* Dover Docks and *(b)* other ports are stored; and to what purpose they are put; [157698]

(2) if he will make a statement on the use of cameras to photograph travellers using *(a)* Dover Docks and *(b)* other ports; [157699]

(3) how many people are employed in taking, processing, reviewing and storing photographic images stored of travellers using *(a)* Dover Docks and *(b)* other ports; and by whom they are employed; [157700]

(4) when he expects to reply to the letter of 15 January from the hon. Member for Spelthorne, (Home Office reference: PO2079/4) regarding the use of cameras to photograph travellers at Dover Docks. [157701]

Beverley Hughes: The police and Her Majesty's Customs and Excise (HMCE) have a key role in combating organised crime at ports, including terrorism. Kent Police and HMCE jointly operate a frontier control Automatic Number Plate Reader (ANPR) system at some Kent ports. This system "reads" the vehicle registrations of passing vehicles, and, at various key locations within the port, captures passing vehicles and drivers on camera. The system is automatic and entails no physical human intervention.

The system is operated with due regard to the Association of Chief Police Officers (ACPO) guidance on the operation of ANPR, and within the terms of the Data Protection Act 1998, the Human Rights Act 1998 and the Regulation of Investigatory Powers Act 2000. Images are retained for one year. In the interest of operational security I am unable to release information about where the images are stored.

The ANPR system is administered by three dedicated staff: (two from Her Majesty Customs and one from Kent Police). Two other Kent Police staff are dedicated to the technical maintenance of the system. In addition to the ANPR system, Her Majesty's Customs and

Excise use Closed Circuit Television to assist in cases of complaint against the actions of officers and in cases of assault on their officers.

Images of travellers are kept for a limited period only, normally a week, unless there is reason to keep them for evidential purposes.

Westminster Hall

Bob Spink: To ask the Secretary of State for the Home Department if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159623]

Mr. Blunkett: I refer the hon. Member to the answer given by the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

Young Offenders

Mr. Battle: To ask the Secretary of State for the Home Department what the most recent figures are for the proportion of 16 to 18-year-olds who have *(a)* been in custody and *(b)* served a period of community service who subsequently (i) re-offend and (ii) are reconvicted. [159511]

Paul Goggins: Data on reoffending are not available.

78 per cent. of 16, 17 and 18-year-olds discharged from custody in 1999 were reconvicted of a standard list offence within two years.

76 per cent. of 16, 17 and 18-year-olds commencing community sentences in 1999 were reconvicted of a standard list offence within two years.

The reconviction rates supplied are not adjusted to take out convictions for offences committed prior to either discharge from custody or commencement of the community sentence. Hence some of these reconvictions may not represent reoffending subsequent to custodial discharge or commencement of community sentence.

Reconviction rates should not be used to compare effectiveness between different sentences. This is because the characteristics of offenders receiving different types of sentences may be quite different.

Charles Hendry: To ask the Secretary of State for the Home Department if he will make a statement on the place of education within young offenders' institutions. [158730]

Paul Goggins: In order to have an impact on reducing re-offending, the disproportionately low skills and exclusion from learning among young people coming into custody must be addressed. The Prison Service aims to equip all offenders with the skills to enhance their employability—providing them with an alternative to crime—and to enable them to make a positive contribution to society.

Additional money has been invested this year in learning for young offenders aged 18. The Prison Service is looking to Heads of Learning and Skills in each establishment to promote a culture of learning so that we can continue to widen access and improve quality.

Charles Hendry: To ask the Secretary of State for the Home Department what opportunities exist for young offenders to obtain educational *(a)* qualifications and *(b)* accreditation. [158731]

Paul Goggins: Every Young Offender Institution has an education department which is required to offer mainstream qualifications as delivered in community settings. Most of these are divided into modules enabling short-term prisoners to work towards a full qualification, which can then be completed upon their release. Literacy and numeracy are assessed using a national test that is available weekly.

This year, additional funding of over £4 million has been provided to enable the Young Offender and female estate to buy in and support more teaching hours. Heads of Learning and Skills in each Young Offender Institute are helping to increase accredited learning opportunities across the range of activities such as vocational training, supported by £20 million of capital investment through our "learning to earning" programme.

Sue Doughty: To ask the Secretary of State for the Home Department what plans he has made to *(a)* assess the extent of and *(b)* treat gambling among offenders, with particular reference to young offenders. [158346]

Paul Goggins: The new adult Offender Assessment System, (OASys,) developed jointly by the Prison and Probation Services and currently being rolled-out, contains a question on budgeting that provides offenders with an opportunity to raise matters about financial difficulties related to gambling. In addition, OASys contains a self-assessment questionnaire for offenders that includes a question asking whether gambling is a problem for them and, if so, whether it is linked to their offending. Analysis of a sample of self-assessments in 2003 for 711 prisoners showed that 2 per cent. said that gambling was a problem and 0.4 per cent. said it was linked to their offending. A sample of about 2,200 offenders under probation showed that 2.3 per cent. said that gambling was a problem and 0.7 per cent. said it was linked to their offending.

The Youth Justice Board uses a separate assessment system for juvenile offenders (aged under 18 years) called ASSET, which provides an opportunity to detail any problems that should be highlighted and this could include gambling.

Treatment for offenders with gambling problems, whether adults, young offenders or juveniles, is left to the discretion of individual prisons, young offender institutions, probation areas and youth offending teams. A number have established links with organisations such as Gamblers Anonymous and GamCare to provide assistance for offenders with gambling addiction problems, by individual referrals or through groups. Probation areas may also make referrals to Gordon House, a specialist hostel for gamblers.

Written Answers to Questions

Tuesday 16 March 2004

SCOTLAND

Gourock Transport Interchange

6. **David Cairns:** To ask the Secretary of State for Scotland what recent discussions he has had with Network Rail Scotland on the Gourock Transport Interchange. [160306]

Mr. Darling: I have regular discussions with Network Rail about various topics. However, the proposed Gourock Interchange is a matter for the Scottish Executive and Inverclyde Council.

Economic Inactivity

7. **Bob Spink:** To ask the Secretary of State for Scotland if he will make a statement on the level of economic inactivity in Scotland. [160307]

Mrs. McGuire: The latest Labour Market statistics published show 680,000 people in Scotland aged between 16 and 64 economically inactive.

Employment

8. **Miss Begg:** To ask the Secretary of State for Scotland if he will make a statement on employment levels in Scotland. [160308]

Mr. Darling: Employment in Scotland is at historic high levels. The number employed has risen by 119,000 since spring 1997 and the employment rate is close to the UK average, comparing favourably with the rates of our main competitors.

Electoral Arrangements

9. **Mr. Gray:** To ask the Secretary of State for Scotland when he expects to announce the chairman of his commission on boundary differences and voting systems in Scotland. [160309]

14. **Andrew Selous:** To ask the Secretary of State for Scotland when he expects to announce the chairman of his commission on boundary differences and voting systems in Scotland. [160315]

Mr. Andrew Turner: To ask the Secretary of State for Scotland when he expects to announce the chairmanship of his commission on boundary differences and voting systems in Scotland. [160313]

Mr. Darling: I refer the hon. Member to my answer of earlier today to my right hon. Friend the Member for Carrick, Cumnock and Doon Valley (Mr. Foulkes).

10. **Mr. Tynan:** To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive regarding the introduction of new election systems. [160310]

Mr. Darling: As I indicated during Second Reading of the Scottish Parliament (Constituencies) Bill on 9 February, in setting out the proposals for a commission to review boundary differences and voting systems, I consulted the First Minister, who welcomed taking the debate forward.

Affordable Housing

11. **Mr. Lazarowicz:** To ask the Secretary of State for Scotland what discussions he has had with the Chancellor of the Exchequer regarding fiscal measures to encourage the provision of affordable housing in Scotland. [160311]

Mrs. McGuire: My right hon. Friend has discussions from time to time with the Chancellor on a range of matters. The Government look forward to Kate Barker's final report on the issues affecting housing supply and proposals for addressing these constraints. This will be issued shortly and it would be unwise for me to make any comment in advance.

Financial Sector

12. **Mr. David Marshall:** To ask the Secretary of State for Scotland what recent discussions he has had with the Scottish Executive on the performance of the financial sector in Scotland. [160312]

Mr. Darling: I regularly meet Scottish Executive colleagues to discuss matters relating to the Scottish economy. The financial services sector in Scotland remains of crucial importance to the health of the Scottish economy. Output has continued to grow in recent years and the sector currently employs over 100,000 people in Scotland.

Common Agricultural Policy

13. **Sir Nicholas Winterton:** To ask the Secretary of State for Scotland what plans he has to visit the Scottish Parliament to discuss the implications of common agricultural policy reform. [160314]

Mr. Darling: I have no plans to visit the Scottish Parliament to discuss the implications of common agricultural policy reform.

ADVOCATE-GENERAL

Devolution

Mr. Carmichael: To ask the Advocate-General what devolution issues have been raised with her since 10 February. [160316]

The Advocate-General for Scotland: I refer the hon. Member to the answer I gave earlier today to the hon. Member for Argyll and Bute (Mr. Reid).

Human Rights

Mr. Dalyell: To ask the Advocate-General what European Convention on Human Rights issues she has scrutinised in the past month. [160370]

The Advocate-General for Scotland: Since 10 February I received intimation of, and scrutinised, 39 devolution issues, all of which concerned Convention rights. They related to matters such as pre-trial delay, the system for setting the punishment part of life sentences, failure to communicate information required by sea fishing measures and self-incrimination. In the civil sphere, the issues of refusal of scheduled monument consent and breach of prison rules were considered. I also routinely consider Convention rights in the context of my other ministerial functions.

CONSTITUTIONAL AFFAIRS

House of Lords Reform

25. **Tony Wright:** To ask the Parliamentary Secretary, Department for Constitutional Affairs, he will make a statement on reform of the second chamber. [161265]

30. **David Taylor:** To ask the Parliamentary Secretary, Department for Constitutional Affairs, when proposals for completing the reform of the House of Lords will be published; and if he will make a statement. [161271]

Mr. Andrew Turner: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the functions of the upper House. [161268]

Mr. Leslie: The Government set out proposals to remove the remaining hereditary peers from the House of Lords in the consultation paper issued in September. Without a consensus in Parliament on other issues, such as the wider composition of the second chamber, the Government will make progress where we can, keeping an open mind on proposals for further reform.

Lord Chancellor

27. **Mr. Rosindell:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the continued existence of the office of Lord Chancellor. [161267]

Mr. Leslie: The Government have announced their intention to abolish the Office of Lord Chancellor, and introduced legislation to do so on 24 February. The Government believe that it is no longer tenable for a Cabinet Minister to head the judiciary. The Government see this, together with setting up a Supreme Court for the UK independent of the legislature and a new Judicial Appointments Commission, as important steps in the modernisation of our constitution and our judicial system.

28. **Mr. George Osborne:** To ask the Parliamentary Secretary, Department for Constitutional Affairs when Ministers in the Department last met the Lord Chief Justice to discuss plans to abolish the position of Lord Chancellor. [161269]

Mr. Leslie: My noble Friend the Secretary of State for Constitutional Affairs and Lord Chancellor and the Lord Chief Justice regularly discuss judicial issues and constitutional reform.

They last met to discuss constitutional reform on the 18 December 2003. Subsequent to this meeting, they have also had several telephone and other conversations in which constitutional reform formed a part.

Witness Protection

29. **Jane Griffiths:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what measures he plans to encourage witnesses and victims to come forward and give evidence in court. [161270]

Mr. Leslie: Last July, the Government published a National Strategy setting out the steps we are taking to deliver improved services to victims and witnesses in the criminal justice system.

At its heart is the Domestic Violence, Crime and Victims Bill, introduced last November and containing a number of measures aimed at encouraging more witnesses to come to court and give evidence.

Supreme Court

31. **Chris Grayling:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the proposed supreme court. [161272]

Mr. Burns: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the establishment of a supreme court. [161266]

Mr. Leslie: The Government are committed to the objective of the Constitutional Reform Bill being enacted in this Parliament.

Bail (Northern Ireland)

Mr. Dodds: To ask the Parliamentary Secretary, Department for Constitutional Affairs what representations he has received on the law regarding access to bail in Northern Ireland. [159555]

Mr. Spellar: I have been asked to reply.

During the course of the Government's public consultation on (what were then) proposals for a Criminal Justice (Northern Ireland) Order 2003, several responses were received which included comments on the legislative proposals in respect of bail. In its recent report, 'The Illegal Drugs Trade and Drug Culture in Northern Ireland', the Northern Ireland Affairs Committee made recommendations in respect of the granting of bail in cases of drug trafficking and in cases where representations have been made against bail being granted. The Government have also been working closely with criminal justice agencies on the law and the operation of the bail process.

In recognising that bail is an important issue, the Government have brought forward a number of new measures including the creation of new offences of failing to surrender to bail, and a new power of arrest for breach of bail conditions in the aforementioned Criminal Justice (Northern Ireland) Order 2003.

Further provisions are being created under the Justice (NI) Bill to facilitate the police in bail enforcement. These new measures will provide the prosecution with a right of appeal against the granting of bail by a magistrates court, as well as the creation of new offences of failing to surrender to bail in Scheduled cases and an increased maximum sentence for the same offences in non-scheduled cases.

Magistrates Courts (Wales)

Mr. Wiggin: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many magistrates courts have been closed in Wales since 1997. [160909]

Mr. Leslie: MCCs are not required by statute to inform my Department of proposed courthouse closures that are not subject to an appeal. The following table shows that there have been 10 magistrates court closures in Wales since 1997, compiled from the information that is available to my Department.

Magistrates court	*Date of closure*
Machynlleth	31 March 2003
Lampeter	9 June 2003
Tenby	30 June 2003
Bridgenorth	31 January 2002
Abergele	31 December 2000
Corwen	31 December 1998
Bargoed	31 December 1997
Monmouth	31 December 1997
Pontlottyn	31 December 1997
Pontypool	31 December 1997

Recruitment

Matthew Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the cost of recruitment of civil servants for the Department or its predecessors was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158184]

Mr. Lammy: Information about recruitment costs is not held centrally and could be obtained only at disproportionate costs.

HOUSE OF COMMONS

Smoking Room

Michael Fabricant: To ask the Chairman of the Catering Committee when the Smoking Room was renamed Members' Smoke Room as set out on the survey card for that room. [160914]

Mr. Dennis Turner: I am happy to be able to reassure the hon. Member for Lichfield that the Members' Smoking Room has not been renamed. Reference to the "Members' Smoke Room" was an error and the customer feedback cards bearing this title have been withdrawn. I thank the hon. Member for pointing out this mistake.

CHURCH COMMISSIONERS

Parliamentary Questions

Miss McIntosh: To ask the hon. Member for Middlesbrough, representing the Church Commissioners when he will reply to the question tabled for oral answer by the hon. Member for Vale of York, reference 158945. [161394]

Sir Stuart Bell: My answer was submitted on 8 March.

In that answer, I said that in 1996 the total stipend cost for parochial clergy (not including Employer's National Insurance contributions) was approximately £130.5 million. In 2003 the figure was approximately £151.8 million.

St. Giles, Imber

Dr. Murrison: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what plans the Commissioners have for the future of St. Giles's Church, Imber. [161304]

Sir Stuart Bell: The Commissioners had a helpful meeting on 19 January about the future of this church with Ministers from the Department for Culture, Media and Sport and the Ministry of Defence. In particular the possibility of an endowment to facilitate the vesting of the church in the Churches Conservation Trust was discussed. There will be further discussions between the Ministers and the Commissioners are waiting to hear the outcome.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abattoirs

Mr. O'Hara: To ask the Secretary of State for Environment, Food and Rural Affairs where information is held about the number of charges brought against abattoirs for breaches of meat hygiene and animal welfare regulations which are withdrawn before they come to court. [160416]

Mr. Bradshaw *[holding answer 11 March 2004]:* Information about the number of charges brought against abattoirs that are withdrawn before they come to court is recorded on individual case files.

Animal Welfare

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs if she will undertake a welfare study on deer at the Baronsdown deer sanctuary. [160172]

Mr. Bradshaw: The Department is not intending to undertake a survey on the welfare of wild deer at Baronsdown deer sanctuary

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs whether any deer carcases from the Baronsdown deer sanctuary, suspected of being infected with bovine tuberculosis, will be disposed of at an appropriate plant under the EU Animal By-Products Regulation. [160173]

Mr. Bradshaw: The Animal By-Products Regulation (EC) No 1774/2002 requires, among other things, that wild animals suspected of being infected with diseases communicable to animals and humans, such as bovine TB, are disposed of using one of the following methods:

Incineration;

Rendering in an approved plant followed by incineration; or

Pressure rendering in an approved plant followed by landfill.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to use the proposed Animal Welfare Bill to ban the sale and use of electronic shock collars. [160908]

Mr. Bradshaw: We do not expect the proposed Animal Welfare Bill to set out detail on what equipment may or may not be used on animals. But we anticipate that the Bill will provide powers for the Secretary of State to make regulations or issue codes of practice on such points, in order to improve animal welfare. Whether these powers will be used in respect of electronic dog collars has yet to be decided.

Carbon Emissions

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the annual level of carbon emissions resulting from electrical appliances being left in standby mode. [156342]

Mr. Morley: The estimate of the Government's Market Transformation Programme is that consumer electronics, home computing equipment, domestic cooking equipment and office equipment left in stand-by mode accounted for approximately 600,000 tonnes of carbon (6.4TWh) in the UK in 2002.

There is further energy consumption, for which we do not have firm estimates at present, from washing machines, dishwashers and other white goods which have a stand-by mode; from consumer electronic equipment using an external power supply that continues to consume energy when plugged in but not in use; and from domestic personal computer equipment where the stand-by facilities are not properly enabled. Taken together, these sources of consumption may bring the overall figure to around one million tonnes of carbon.

In order to try to tackle this problem the Market Transformation Programme (www.mtprog.com) has been encouraging manufacturers to reduce both the "on" and the stand-by power consumption of household appliances through the adoption of design improvements, voluntary codes of conduct, and best practice guidelines and targets. This approach has been fairly successful in respect of televisions: an EU-wide voluntary agreement will mean that the majority of new televisions sold in the UK will soon consume around 1 watt of power in stand-by mode rather than the 3–8 watts consumed by older models. We expect this agreement to be extended to cover DVD players shortly. A similar agreement for external power supplies aims to encourage new power supplies consuming around half a watt in stand-by mode compared to the present average of just over 2 watts.

In addition, the Government's initiative on sustainable procurement, announced last autumn, includes a requirement for government departments which purchase computers and televisions to specify low stand-by power requirements.

Cetaceans

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to prevent the accidental deaths of *(a)* dolphins and *(b)* porpoises in UK fishing activities. [160237]

Mr. Bradshaw: The Government have funded a number of research projects to identify fisheries in which accidental deaths of dolphin and porpoise bycatch occurs and to develop and trial measures to reduce this bycatch. This work has identified in particular a dolphin bycatch problem in the offshore pair trawl fishery for bass. Trials of an escape grid mechanism to reduce this bycatch are currently taking place. Work has also identified that acoustic devices known as pingers are effective in reducing bycatch of harbour porpoises in fixed gear fisheries.

Building on this and other research work this Department, along with Devolved Administrations, published in March 2003 the UK Small Cetacean Bycatch Response Strategy which made a number of recommendations for measures to reduce bycatch. As EU measures will be most effective in reducing bycatch in community waters, the implementation of this strategy will need to take account of the outcome of current discussions on European Commission proposals to reduce bycatch. I welcome the Commission proposals and I am looking for their early implementation.

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to support the work of the Natural History Museum in monitoring *(a)* porpoise and *(b)* dolphin deaths. [160238]

Mr. Bradshaw: The Department provides funding for the Natural History Museum's Cetacean (and Turtle) Strandings Scheme, which monitors and investigates porpoise and dolphin strandings around the UK. The work is carried out in partnership with the Institute of Zoology and the Scottish Agricultural College.

Defra and its predecessors have supported this work since 1990 and my Department is currently providing the Natural History Museum with funding of £1,610,966.00 for the scheme (for the period 2000–01 to 2005–06). This brings our total support over the last 10 years to over £2.7 million.

The work provides valuable information on causes of, and trends in, cetacean mortality around the British Isles. It involves maintaining records of stranded cetaceans and analysing tissue and bone samples to enable their physiology and reaction to various pollutants and chemicals to be assessed. The work has developed a number of methodologies which have

provided significant advances in the study of cetaceans. The maintenance of a tissue bank provides a useful source of material for many other organisations and individuals undertaking research into marine mammals. Data gleaned from this research have also been used within Defra to examine the impact on marine life of agricultural pesticides run-off, and to examine the impacts of pollutants on marine mammals.

Investigation of cetacean strandings under this scheme contributes towards the UK's systems of monitoring bycatch under the requirements of the EC Habitats Directive, and to our commitments to study cetacean strandings under the Agreement on the Conservation of Small Cetaceans of the Baltic and North Seas (ASCOBANS).

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to implement the EU Habitats Directive in respect of preventing fishing fleets from killing *(a)* dolphins and *(b)* porpoises. [160239]

Mr. Bradshaw: The Habitats Directive (Council Directive 92/43/EEC) requires member states to undertake surveillance of the conservation status of cetaceans, to monitor the incidental capture and killing of cetaceans and, in the light of information gathered, to take further research or conservation measures as required to ensure incidental capture and killing does not have a significant negative impact on the species. The Department implements these requirements through support for numerous research, data collection and surveillance projects.

The UK was one of several EU member states that provided funding for the collaborative Small Cetacean Abundance in the North Sea (SCANS) survey in 1994. The Department is now committing further funds (£275,000) to support another such survey (entitled SCANS II) to repeat and extend the work carried out in 1994.

We have also provided funding amounting to over £2.7 million over 10 years for the Natural History Museum's long-term research into cetacean strandings in the UK. In addition, we have commissioned a number of specific research projects during the last decade monitoring bycatch levels in specific fisheries and researching potential measures to reduce bycatch. Last year the Department committed a further £1 million to more research in this area.

In 2003 the Department also produced the UK Small Cetacean Bycatch Response Strategy consultation paper. One of the recommendations contained in the Strategy in respect of the Habitats Directive is for the UK to develop an expanded bycatch monitoring scheme to assess levels of bycatch in UK fisheries at a statistically valid level. We shall now consider how best to develop such a scheme to also take into account recent European Commission proposals for the reduction of cetacean bycatch, including requirements for monitoring.

Dairy Farming

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her Department's response to the Colman Report on the dairy industry. [156443]

Alun Michael: The Dairy Supply Chain Forum, commissioned this report with funding from Defra, the Dairy Industry Association and the Milk Development Council, together with project advice from the NFU, in order to help inform decision making on the dairy aspects of CAP reform. The conclusions of the report were considered, along with a number of other factors, in our decision on the implementation of the Single Farm Payment in England.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what account she took of the impact on milk prices of moving to a dynamic hybrid system of Common Agricultural Policy reform. [156444]

Alun Michael: The model of decoupled payment instituted in England should not impact on milk prices, if farmers treat their payments as decoupled. Decoupled payments are by their nature not linked to production and should not therefore be used to offset the cost of production. If some farmers treat their payments as coupled and use them to subsidise production, this will tend to reduce prices for all dairy farmers. We believe that the transition to an area based payment will result in a purer form of decoupling that will more completely break the link between production and subsidy.

Fishermen's Compensation

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many boats qualify for compensation as a result of the loss of fishing owing to the development of the Shellhaven Port facility; [159671]

(2) what compensation is available in respect of the loss of the Hole Haven fishery in the Thames Estuary as a result of the development of Shellhaven Port; [159672]

(3) if she will make a statement on the impact of the Thames Estuary P&O Shellhaven Port development application on *(a)* the local fishing industry and *(b)* the viability of the fisheries and spawning grounds. [159680]

Mr. Bradshaw: Proposals for development of a new container port at London Gateway/Shellhaven are still subject to the statutory planning approvals process. Although I understand that no decisions have yet been taken, these are matters for the First Secretary of State and the Secretary of State for Transport. The developer will also require a FEPA licence from my Department but no application has yet been received.

The Centre for Environment, Fisheries and Aquaculture Science (CEFAS), an Executive Agency of Defra, provides expert scientific advice on marine and freshwater issues. It has contributed to the recent public inquiry into the Shellhaven scheme given the international importance of the Thames Estuary as an area for sole spawning and juvenile sole. CEFAS has recommended that further survey work be carried out and assessment made of whether seasonal restrictions on dredging may be necessary to mitigate any adverse impact.

Compensation for the possible loss of fishing is a matter for the developer and the various fisheries organisations to reach agreement on.

Foot and Mouth

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the decision by a State Veterinary officer to renew Mr. Bobby Waugh's swill feeding licence 14 days before the foot and mouth disease outbreak began. [159013]

Mr. Bradshaw: The inspection carried out at Bobby Waugh's swill feeding premises 26 days before the foot and mouth disease outbreak began was the latest in a series of routine visits that were carried out to such premises to ensure compliance with the licensing conditions. The visits that the SVS carry out were aimed at trying to ensure maintenance of acceptable standards, heightened awareness of the risks associated with this procedure and the need for these standards to be maintained, and early detection of any problems that occur.

As no evidence was found at the time of the visit to indicate that the licensing conditions were not being complied with, the licence was renewed. I am satisfied that the visit was carried out to the standards required at the time and that the inspecting officer did everything that would reasonably have been expected to ensure compliance with the conditions.

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs what action she has taken as a consequence of the recommendations contained within the EU report DG (SANCO)/3367/2001-MR Final regarding the outbreak of foot and mouth disease in the United Kingdom. [159029]

Mr. Bradshaw: The recommendations in DG (SANCO) 3367/2001 were: to improve official controls over the disposal of waste food from catering establishments, and, to improve official controls over the disposal of waste food from prohibited sources at point of entry and the safe destruction of seized products.

The report recognised that the action already taken to ban the feeding of swill to livestock that the UK introduced in May 2001, "greatly" reduced the risk of introducing and spreading FMD or CSF from waste food. Following the introduction of the ban former swill feeders and processors of waste from catering establishments were monitored. For the 12 month period after the ban visits were made to former swill feeder premises to check compliance with the new requirements. The visits took place after approximately 2 weeks, 1 month, 2 months, 6 months and 12 months from the date of the ban. Where pigs were being kept on former swill feeding premises feed samples were taken if there was reason to consider that meat or meat products were being fed. Where non-compliance was found the local authorities have taken enforcement action.

Additionally we have instigated a rolling action plan to maintain awareness of the importance of disposing of food waste safely. We consider that we have in place all the necessary controls but also, as part of our action plan, we write annually to the enforcement authorities that visit catering establishments reminding them of the provisions of the Animal By-Products legislation. We have also had assistance from the Environment Agency concerning disposal at landfill sites and inspections of these by the State Veterinary Service have been instigated. These actions will be repeated as part of our rolling plan. Other actions include providing advice to new pig keepers on restrictions on what may be fed to their pigs and the identification of new pig keepers. We are also concerned about the disposal of waste food by the general public and are considering a general awareness campaign. This is a matter of the utmost concern and we shall not cease in our actions aimed at ensuring that the risks from waste food are minimised.

Forestry Commission

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Forestry Commission as to the advisability of issuing *(a)* restoration agreements and *(b)* fines for those who unwittingly offend. [160231]

Mr. Bradshaw: I have not had any discussions with the Forestry Commission on restoration agreements as the Forestry Commission do not issue such agreements.

GM Crops

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the results of the GM herbicide review undertaken by the Swedish herbicide authorities on behalf of the EU; and whether these results will inform her decision on the granting of herbicide approval for Liberty herbicide to be used in the management of Chardon LL fodder maize. [160580]

Alun Michael: The EU review of glufosinate ammonium is ongoing. Officials in the Pesticides Safety Directorate received a copy of the Swedish Authorities' draft assessment report in December 2003 and a series of EU expert working groups are due to meet over the summer to discuss various aspects of the report. Any information arising from the report that might be relevant to the scientific evaluation of any application for the approval for the commercial use of Liberty on Chardon LL fodder maize will be taken into account along with the data submitted in support of the application itself. Only if Ministers are satisfied, on the basis of the expert advice of the independent Advisory Committee on Pesticides, that the use proposed by the applicant is safe to people and the environment will approval be granted.

Ligula Tapeworm

Mr. Peter Atkinson: To ask the Secretary of State for Environment, Food and Rural Affairs if her Department will carry out research into the spread of ligula tapeworm in fish by cormorants wintering in the UK. [160899]

Mr. Bradshaw: The Department has no plans to carry out research into the spread of ligula tapeworm in fish.

Operation Artemis

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the police with regard to Operation Artemis; when she last met the Chief Constable of North Wales to discuss Operation Artemis; and if she will make a statement on her policy on Operation Artemis. [160085]

Mr. Bradshaw: The Secretary of State for Environment, Food and Rural Affairs has had no direct discussions with the Chief Constable of North Wales concerning Operation Artemis. This Government warmly welcomes the launch of Operation Artemis by the police and other partners to combat the illegal persecution of hen harriers, which face extinction in England as a result of illegal killing.

Pesticides

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the results have been of the consultation on no crop spray buffer zones; and whether she proposes to introduce no crop spray buffer zones. [162027]

Alun Michael: There has been a substantial response to the no-spray buffer zone consultation and all the responses are currently being assessed. A range of opinions was expressed and the practical options are currently being evaluated. Once this work has been completed Ministers will be in a position to consider the way forward and take decisions.

Rights of Way (Motorcyclists)

Mr. Dhanda: To ask the Secretary of State for Environment, Food and Rural Affairs if she will meet interest groups representing motorcyclists as part of the consultation on the use of mechanically propelled vehicles on rights of way. [161123]

Alun Michael: I met representatives of motor vehicle user groups last year and I expect to meet them again in future. I have decided to wait until all responses to the consultation have been received and analysed before meeting any of the interested parties to discuss the proposals.

TREASURY

Civil Servants (Relocation)

Mr. Heald: To ask the Chancellor of the Exchequer what estimate he has made of the greatest number of civil servants that could be moved from central London to other parts of the country; and if he will make a statement. [161953]

Mr. Boateng: Sir Michael Lyons' Independent Review of Public Sector Relocation published its final report on 15 March. The report includes an assessment of the scope for relocating public sector activity from London and the South East. Copies are available in the Library of the House.

Mr. Heald: To ask the Chancellor of the Exchequer what estimate he has made of the initial set-up costs of relocating 20,000 civil servants away from the South East. [161954]

Mr. Boateng: Sir Michael Lyons' Independent Review of Public Sector Relocation published its final report on 15 March. The report provides an estimate of the costs and savings associated with relocating public sector activity. Copies are available in the House of Commons Library.

Mr. Heald: To ask the Chancellor of the Exchequer when he expects to make an announcement about the relocation of civil servants away from London and the South East. [161955]

Mr. Boateng: Sir Michael Lyons' Independent Review of Public Sector Relocation published its final report on 15 March. Copies are available in the Library of the House.

Job Vacancies (Crosby)

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer how many job vacancies there were in Crosby in *(a)* 1997 and *(b)* 2003. [160528]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Claire Curtis-Thomas, dated March 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about job vacancies in Crosby. (160528)

According to Jobcentre Plus administrative records the number of unfilled vacancies in the Crosby area was 148 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figure for vacancies in Crosby in 2003 are therefore unavailable.

Correspondence

Mr. Burns: To ask the Chancellor of the Exchequer when the hon. Member for West Chelmsford will receive a reply to his letter of 21 November 2003, PO Ref: 4/17287/2003. [160369]

John Healey: I have done so.

Computer Equipment (Tax Exemption)

Mrs. Dean: To ask the Chancellor of the Exchequer how many businesses in *(a)* Burton constituency and *(b)* Staffordshire have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [161839]

Dawn Primarolo: Information is not available to enable reliable estimates to be made.

Housing Stock Transfers

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer whether large-scale voluntary transfers of council housing are liable for VAT. [161511]

John Healey: There is no VAT due on large-scale voluntary transfers of council housing.

National Insurance

Ms Drown: To ask the Chancellor of the Exchequer pursuant to the answer of 23 February 2004, *Official Report*, columns 112–13W, on National Insurance, what the cost to the Treasury would be in each case. [161544]

Dawn Primarolo: A reduction in the lower earnings limit would not increase revenue from contributions, but would increase the future cost of paying contributory benefits and the cost of contracted-out rebates. I regret that it would be possible to quantify this only at disproportionate cost.

Mr. Denham: To ask the Chancellor of the Exchequer how many individuals pay self-employed National Insurance contributions. [161633]

Dawn Primarolo: I refer my right hon. Friend to table 10.2 of the Annual Abstract, which can be found on the ONS website www.statistics.gov.uk/downloads/theme_compendia/Aa2004/AA20Q 4.pdf.

Mr. Denham: To ask the Chancellor of the Exchequer if he will estimate the change in payments to the National Insurance Fund that would accrue if all those paying self-employed National Insurance contributions paid at the employed rate in 2003–04. [161634]

Dawn Primarolo: The Government Actuary's Department estimates that if Class 4 contributions were paid at the Class 1 employee rate of 11 per cent. on profits, between the Lower Profits Limit and the Upper Profits Limit, and 1 per cent. on profits above the Upper Profits Limit, that the increase in National Insurance contribution accruals for the UK in 2003–04 would be

£590 million. This estimate assumes that Class 1 contributions paid by the employer and Class 2 would not be paid.

Paddington Basin Hospital Project

Mr. Wilkinson: To ask the Chancellor of the Exchequer what response he has received from the promoters of the NHS Paddington Basin project to his request for a new business plan; and if he will make a statement. [161465]

Mr. Boateng: The project team is carrying out a review of the outline business case for the Paddington Health Campus scheme. When this is complete, the outcome of the review will be submitted to the Department of Health.

Parliamentary Questions

Annabelle Ewing: To ask the Chancellor of the Exchequer when he will provide a substantive answer to the questions tabled for written answer by the hon. Member for Perth, reference 157866 to 157868. [161665]

John Healey: I have done so.

Scottish Transport Group

Annabelle Ewing: To ask the Chancellor of the Exchequer pursuant to his answer of 9 March 2004, *Official Report*, column 1481W, on Scottish Transport Group Dissolution Order, what sums in addition to the £50 million reduction in the 2001–02 Scottish Departmental Expenditure limit have been received by the Treasury with respect to the Scottish Transport Group pension fund. [161428]

Mr. Boateng: I refer the hon. Member to the reply which my right hon. Friend the then Chief Secretary to the Treasury gave to her on 11 April 2002, *Official Report*, column 577W, which described the tax treatment in relation to the pension fund.

Secondees

Norman Baker: To ask the Chancellor of the Exchequer if he will list the secondees from outside organisations working in his Department, stating in each case *(a)* the name of the person, *(b)* the name of the organisation, *(c)* the post held and *(d)* the start and finish dates of the secondment; and which are involved in drafting parliamentary answers. [160602]

Ruth Kelly *[holding answer 11 March 2004]:* Information relating to secondees is given as follows:

Name	*Organisation*	*Employee job title*	*Date start*	*Expected return date*
Lalitha Colaco-Henry	Financial Service Association	Financial Service Legislation	23 September 2002	22 September 2003
Clare Wilson-Thomas	Christian Action Research and Education	Public Policy Manager	28 November 2001	27 November 2004
Geoffrey Spence	Partnerships UK	PFI Adviser	14 January 2002	13 January 2004
Andy Graham	BP	Team Leader Workforce, Innovation and Reward	8 April 2002	7 April 2004
Liz Corrin	Pannell Kerr Foster	Leading Policy Analyst	22 July 2002	21 July 2004
Victoria Creed	National Audit Office	Accountancy Adviser	6 January 2003	5 January 2005
Paul Lloyd	City of London Police	Fraud Investigation Officer	6 January 2003	5 January 2004
Rowena Weir	Australian Department of Finance	Budget Officer	23 January 2003	22 January 2005
Jeremy Baines	HM Forces	Policy Analyst	6 January 2003	5 January 2006
Kate Bellamy	Womens Budget Group	Policy Analyst Gender	6 March 2003	30 November 2003
Dan Lambeth	Local Government Management Board	Emergency Control Range E	24 February 2003	30 September 2005
Shrupti Shah	Ernst &Young	Leading Policy Analyst	1 April 2003	31 August 2004
Paul Sanderson	Bank of England	Head of Financial Stability Branch	2 June 2003	1 June 2005
Ana Lasaosa	Bank of England	Leading Policy Analyst	23 June 2003	22 November 2003
Hideki Takada	Japan Finance Ministry	Policy Analyst	24 July 2003	23 July 2004
Bhashkaran Naidoo	Health Development Agency	Policy Analyst	1 September 2003	31 March 2004
Charlotte Armstrong	Deloitte Touche	General Business Tax	8 September 2003	8 September 2005
Richard Weaver	Price Waterhouse	Specialist in Accounting Matters	6 October 2003	31 December 2004
Kerrie Quirk	London School of Economics	Senior Personal Assistant	3 November 2003	2 November 2004
Susan Bickham	Partnerships UK	Personal Assistant	3 November 2003	2 November 2004
Hilary Brown	Bank of England	Graham Review of Small Firm Loan Guarantee	21 January 2004	15 October 2004

Treasury staff are routinely involved in drafting parliamentary answers as the occasion demands.

Self-assessment Tax Returns

Norman Lamb: To ask the Chancellor of the Exchequer if he will make a statement on progress with processing self-assessment tax returns. [161382]

Dawn Primarolo: The Inland Revenue have met their target to process 99 per cent. of returns received by 31 January by 31 March every year since self-assessment was introduced and fully expect to do so again this year.

Norman Lamb: To ask the Chancellor of the Exchequer how many self-assessment tax returns due by 31 January have been received by the Inland Revenue; how many are outstanding; and how many remain outstanding in relation to each of the last five tax years. [161383]

Dawn Primarolo: Details of the results for this year will be published with the Budget documentation on 17 March.

The following table gives details for the previous five years of returns still outstanding at the end of February 2004.

Tax year	*Returns still outstanding at end of February 2004*
1997–98	48,392
1998–99	74,313
1999–2000	120,833
2000–01	190,966
2001–02	326,703

South Yorkshire Electorate

Jeff Ennis: To ask the Chancellor of the Exchequer what the change in size of electorate for each South Yorkshire parliamentary constituency was between 2001 and 2003. [161336]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from John Pullinger to Mr. Jeff Ennis, dated 16 March 2004:

The National Statistician has been asked to reply to your question concerning the change in size of parliamentary electorate for each South Yorkshire parliamentary constituency between 2001 and 2003. I am replying in his absence. (161336)

Attached is a table showing the total and percentage change of the number of registered parliamentary electors in South Yorkshire over the period 1 December 2001 to 1 December 2003.

It should be noted that these figures represent the number of registered electors. In many cases, larger decreases may be due to 'cleaning' the registers to ensure that they accurately reflect the electorate, rather than 'real' decreases in the number of electors.

Parliamentary electors on the 2001, 2002 and 2003 electoral registers: South Yorkshire

	Total parliamentary electors as at 1 December:			*Change 2001–03*	*Percentage change 2001–03*
	2001	*2002*	*2003*		
Barnsley Central	60,861	60,588	60,578	-283	-0.5
Barnsley East and Mexborough	66,389	66,821	67,042	653	1.0
Barnsley West and Penistone	66,498	66,988	66,886	388	0.6
Don Valley	67,431	67,537	67,369	-62	-0.1
Doncaster Central	65,902	65,745	65,916	14	0.0
Doncaster North	62,101	61,773	61,886	-215	-0.3
Rother Valley	70,350	69,202	67,682	-2,668	-3.8
Rotherham	58,892	56,955	54,827	-4,065	-6.9
Sheffield Central	60,169	59,979	58,708	-1,461	-2.4
Sheffield, Attercliffe	68,205	67,938	67,382	-823	-1.2
Sheffield, Brightside	53,601	52,781	51,031	-2,570	-4.8
Sheffield, Hallam	59,110	59,274	58,236	-874	-1.5
Sheffield, Heeley	61,374	60,472	59,428	-1,946	-3.2
Sheffield, Hillsborough	74,771	74,820	74,595	-176	-0.2
Wentworth	65,365	64,480	63,104	-2,261	-3.5

Office for National Statistics.

Suspicious Transaction Reports

Mr. Oaten: To ask the Chancellor of the Exchequer how many *(a)* suspicious transaction reports and *(b)* suspicious activity reports relating to financial matters have been made in each of the last five years; and what proportion of each resulted in (i) prosecution and (ii) conviction in each year. [160200]

Caroline Flint: I have been asked to reply.

Under the Proceeds of Crime Act 2002 (PoCA) individuals and businesses have various obligations to make disclosures to the National Criminal Intelligence Service (NCIS) if they have grounds to believe that money laundering is taking place. These disclosure reports are usually now referred to as "Suspicious Activity Reports", but until recently were known as "Suspicious Transaction Reports".

The number of disclosures made to NCIS in each of the last five years was as follows:

	Number
1999	15,115
2000	18,447
2001	29,976
2002	56,023
2003	94,708

The information provided by disclosures is used by law enforcement agencies in a range of ways to detect crime and trace the proceeds of crime. For example, such information may contribute to an ongoing investigation or be the trigger for a new one, or may be held on the relevant intelligence databases for use in future cases.

Given the variety of ways in which this information is used, it is not possible to link particular disclosures with particular prosecutions and convictions. But the reporting system is a key element of the UK's defences against money laundering. In their 2003 review for the Government of the system, the consultants KPMG examined a sample of disclosures. Of those whose impact could be specifically identified, one-third were found to have contributed to a positive law enforcement outcome such as prosecution, confiscation of criminal proceeds or cash seizure. More recent analysis by NCIS in relation to the impact of one category of disclosures (those where an institution has sought consent to proceed with a transaction) suggests that in the last year £25 million of assets have been seized, restrained or returned to the victim.

Mr. Oaten: To ask the Chancellor of the Exchequer what recent discussions and representations he has had on the *(a)* effectiveness and *(b)* benefit of (i) suspicious transaction and (ii) suspicious activity reports; and what plans he has to change the reporting system. [160201]

Caroline Flint: I have been asked to reply.

Under the Proceeds of Crime Act 2002 individuals and businesses have various obligations to make disclosures to the National Criminal Intelligence Service (NCIS) if they have grounds to believe that money laundering is taking place. These disclosure reports

are usually now referred to as "Suspicious Activity Reports", but until recently were known as "Suspicious Transaction Reports".

The reporting system is a key element in the United Kingdom's defences against money laundering and an important source of intelligence on all types of acquisitive crime (drugs trafficking, theft, fraud, and all other types of crime committed for financial gain). It is crucial to ensure that the system is effective and that the costs it places on the private sector are proportionate. It was against this background that the Government commissioned the consultants KPMG to examine the reporting system and to make recommendations as to how it could be improved. The Home Office published KPMG's report on 8 July 2003, and set up a Taskforce to support the process of modernising and streamlining the reporting system, as recommended in the report. The Taskforce's membership is drawn from key interested parties in the public and private sectors and the Financial Services Authority.

A major programme to improve the reporting system has been under way in recent months, which has led to substantial improvements in the timeliness and quality of the information NCIS provide to law enforcement agencies. We have received a number of representations from private sector institutions about ways in which the reporting system should be improved. These have been taken into consideration as part of the reform programme.

The success of the reporting system relies heavily on the contribution of reporting institutions. To help build a healthy partnership and to benefit from the input of all those involved in the system we are in regular dialogue with these institutions.

Tax Credits

Mr. Simmonds: To ask the Chancellor of the Exchequer how many parents have claimed Child Care Credit as part of the Working Families Tax Credit in each year since 1998; and how many are entitled to claim who have not done so. [161014]

Dawn Primarolo: Working Families Tax Credit (WFTC) was introduced in October 1999. A time series of the number of families claiming the Child Care Tax Credit as part of WFTC is shown in Table 1.3 of "Working Families Tax Credit Statistics. Quarterly Enquiry. November 2002".

WFTC was replaced by working tax credit (WTC) at April 2003. The number of families benefiting from the child care element of WTC is shown in Table 4.4 of each issue of "Child and Working Tax Credits. Quarterly Statistics". The introduction of WTC has resulted in a large increase in the number of families benefiting from this help with their child care costs.

Overall take-up rates for WFTC for 2000–01 and 2001–02 are shown in "Working Families Tax Credit Estimates of Take-up rates". Separate estimates for families entitled to the child care tax credit are not available.

All the documents referred to appear on the Inland Revenue website, at www/inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm.

TRANSPORT

Aviation Industry

Mr. Lazarowicz: To ask the Secretary of State for Transport what representations the Government has made in the last year to the *(a)* International Civil Aviation Organisation and *(b)* its other member states regarding the possible removal of the exemption of aviation fuel from taxation. [158954]

Mr. McNulty: At a meeting of ICAO's Committee on Aviation Environmental Protection in February 2004 the UK supported the use of economic instruments like emissions trading or charging to tackle the climate change impact of aviation. When the matter was raised formally at the ICAO 33rd Assembly in Autumn 2001, the overwhelming majority of states spoke out against the introduction of a tax on aviation fuel. The Government remains committed to finding alternative ways of applying the 'polluter pays' principle to civil aviation. Specific proposals were set out in the Future of Air Transport White Paper published on 16 December 2003.

Mr. Alan Reid: To ask the Secretary of State for Transport when he expects his Department to *(a)* commence and *(b)* complete its review of the security regime tailored for smaller and lighter aircraft and the airports from which they operate. [161978]

Mr. McNulty: We keep our aviation security regime under regular review, consulting with the industry as necessary. Indeed officials are meeting with Highlands and Islands Airports Ltd. and the aircraft operators in Glasgow today. As I said to the hon. Gentleman in my answer to his oral question on 9 March we shall consult the industry fully on proposals for a tailored regime for lighter and smaller aircraft.

Computerised MOT Test

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answers of 8 March 2004, *Official Report,* columns 1237–38W, on computerised MOT test, what assessment his Department has made of the effects of succession planning of this project. [161555]

Mr. Jamieson: In the event of termination, the contract with SBS provides a variety of options for transfer of key elements of the system to VOSA or a new contractor including, outright purchase, lease, replacement or alternative source. In summary these include:

access to system hardware and accommodation;

access to software or other licences and to sub-contracted services;

transfer of staff.

The approach, in the event, will depend whether the affected elements are used solely for MOT Computerisation or whether as a whole, or in part, they are used to provide other services. It will also depend on the extent to which they are critical to computerisation and cannot be obtained elsewhere. Where an item itself cannot be provided, SBS has to provide replacements or appropriate alternatives.

Container Vehicles

Lembit Öpik: To ask the Secretary of State for Transport if he will estimate how many closed container vehicles and trailers, including curtain-sided ones, *(a)* operating from the UK travelled to Europe and *(b)* operating in mainland Europe travelled to the UK in each of the last three years; and if he will make a statement. [160328]

Mr. Jamieson: Information is not available in the form requested. The available information is as follows.

Road goods vehicles travelling to mainland Europe: powered goods vehicles (excluding trailers)

Thousand[1]

	UK registered	*Foreign registered*
2001	518	1,174
2002	493	1,290
2003	471	1,322

[1] Number of one-way vehicle trips.

Source:
Roll-on Roll-off goods vehicle survey: DfT.

Carbon Emissions

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will estimate the amount of carbon that will be produced by cars in each year up to 2010. [161551]

Mr. Jamieson: We estimate that in 2000, cars in England emitted 15.44 million tonnes of carbon (MtC). We expect emissions to be between 14.85 and 15.64 MtC in 2010. We do not estimate carbon emissions for each year and do not estimate emissions for the UK as a whole.

Cycle Lanes

Mrs. Curtis-Thomas: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Crosby since 1997. [160545]

Mr. McNulty: The Department's figures extend back only as far as 1998 and cover the whole of the Sefton metropolitan borough area. Figures are set out in the following table.

Sefton

	Number
1998–99	1
1999–2000	1
2000–01	5
2001–02	5
2002–03 (Forecast outturn)	4
2003–04 (Forecast)	15
Total	31

Mr. Hoyle: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided in Chorley since 1997. [161534]

Mr. McNulty: The Department does not hold this information for Chorley borough council or for the 1997 financial year. The following table lists cycle lanes in kilometres constructed by Lancashire county council for subsequent years.

Number of cycle lanes in Lancashire county council from 1998–99 to 2002–03

	Cycle lanes (Kilometres)
1998–99	0
1999–2000	0
2000–01	30
2001–02	6
2002–03	1

Lime Street Station

Mrs. Ellman: To ask the Secretary of State for Transport if he will make a statement on the latest position on improvements at Lime Street station. [161661]

Mr. McNulty: Network Rail is working with Mersey Travel and Liverpool Vision on plans to develop the station. However, since it took over responsibility for the station on 16 November 2003, Network Rail has made several improvements already, and is looking to make a number of others: these include refurbishment of the toilet facilities, improved security, including plans for a new CCTV system, and improvements to passenger announcement equipment and signage.

Railways

Mr. Hoyle: To ask the Secretary of State for Transport how much Government grant is being allocated to improve *(a)* Chorley and *(b)* Adlington railway stations. [161532]

Mr. McNulty: I refer my hon. Friend to the answer I gave him on 3 March 2004, *Official Report*, column 922W, about Chorley. There are currently no grant payments being made for improvements at Adlington station.

Mr. Hoyle: To ask the Secretary of State for Transport what Government grants are available to fund *(a)* a footbridge and *(b)* an underpass on railway line crossing Adlington. [161535]

Mr. McNulty: There are no Government grants available to fund a footbridge and an underpass in Adlington. However, Local Transport Plan funding may be appropriate for these proposals. The local transport authority is Lancashire county council who should be approached in the first instance with these proposals.

Road Safety

Lembit Öpik: To ask the Secretary of State for Transport how many motorcyclists were *(a)* killed and *(b)* seriously injured where (i) no other vehicle was involved, (ii) the motorcyclist was on a bend in the road when the accident happened and (iii) the motorcyclist was categorised as inexperienced in 2002–03; and if he will make a statement. [159469]

Mr. Jamieson: In accidents during 2002 where (i) no other vehicle was involved, 167 motorcyclists were killed and 1,614 were seriously injured, and (ii) in accidents where the motorcyclist was on the bend of a road when the accident happened, 230 motorcyclists were killed and 1,374 were seriously injured.

The information regarding driver/rider inexperience is not available as routine accident reports do not currently record contributory factors to accidents. But under a pilot scheme, the incidence of rider inexperience was recorded as a contributory factor in about 5 per cent. of injury accidents in 2002 where the factor which precipitated the accident was attributed to the motorcyclist.

Mr. Paul Marsden: To ask the Secretary of State for Transport in how many road traffic accidents drug taking was a contributory factor in the accident in each year since 1997. [159035]

Mr. Jamieson: The information is not available as routine accident reports do not currently record contributory factors to accidents. But under a pilot scheme, information on contributory factors to road accidents has been collected by 15 police forces. The influence of drugs was recorded as a contributory factor in about 1 per cent. of injury accidents recorded under this pilot scheme in both 2001 and 2002.

Taxis

Huw Irranca-Davies: To ask the Secretary of State for Transport what estimate he has made of the effect of abolishing the quantity regulation of taxi numbers on *(a)* the safety of the general public, *(b)* access to safe and convenient transport for disabled people, *(c)* the quality of service received by the public, *(d)* access to convenient transport for people on low incomes and *(e)* the earning power of taxi drivers. [161363]

Mr. McNulty: The Government have been considering the Office of Fair Trading's report on the UK taxi market and the representations received about it. The Government intend to respond to the OFT report shortly.

Thames Bridges

John Austin: To ask the Secretary of State for Transport what representations he has received on the installation of grab chains on the buttresses of Thames bridges in central London; what consideration he has given to *(a)* this and *(b)* other safety measures; which body is responsible for authorising such provision; and which body is responsible for installation of safety measures on bridges. [161526]

Mr. Jamieson: I have not received any recent representations on the matter of grab chains on the buttresses of bridges in central London.

However the London Coastguard officers liaise with the relevant local authorities and riparian landowners giving advice on the provision of safety equipment along the Thames.

Transport Council

Mr. Hood: To ask the Secretary of State for Transport what the outcome was of the Transport Council held in Brussels on 9 March; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [161442]

Mr. Darling: The transport session of the Transport, Telecommunications and Energy Council met in Brussels on 9 March. I represented the UK.

The Council was unable to reach a General Approach on the proposed amendment to Directive 1999/62/EC on the charging of lorries for the use of certain roads (the 'Eurovignette' Directive). The Presidency tabled a compromise package in an attempt to reach agreement. Following some debate, there was a general willingness to accept most aspects of the compromise. However, the Commissioner insisted that compulsory hypothecation of toll revenues be part of the package. While some Ministers supported this, the UK was among a majority of member states which opposed it. The Presidency concluded that the Council would have to return to the subject at a future date.

The Commission presented a third rail package, comprising proposals on: liberalisation of international passenger transport; train driver licensing and crew certification; passenger rights for international services; and minimum standards for freight transport. These proposals will now be considered in detail, with a view to agreement at a later Council.

The Commission gave a progress report on air transport negotiations with the US, which aim to achieve a Transatlantic Open Aviation Area (OAA). The Presidency invited comments from Ministers, which would provide guidance for the next stage. In the Commission's view, the present US offer was inadequate and balanced in the US's favour. Nevertheless, the Commission believed that it would be appropriate to try to reach a partial agreement by the end of the year, accompanied by a strong commitment by the US to negotiate a further stage. I agreed that the present offer was unbalanced and argued that if it were agreed there would be no incentive for the US to engage in further negotiations. It would also set a bad precedent for the EU's aviation relations with other third countries. A genuine OAA offered enormous opportunities for both EU and US airlines and should be pursued with determination. Most member states agreed that the current offer was not balanced and that the Commission should continue negotiating for a better outcome. The Presidency concluded that COREPER and the Special Committee should monitor developments in the next round of negotiations.

The Commission reported further on external relations in aviation. Discussions continued with Romania and Bulgaria on entry into the European Common Aviation Area, and would be extended to the Western Balkans. Contacts with other neighbouring countries were being undertaken. The Commission was talking to Australia, New Zealand and Singapore under its restricted horizontal mandate for negotiations with third countries, and other countries would follow. The Council took note, and referred the issue to COREPER and working groups for consideration.

The Commission reported on the agreement reached with the US on cooperation in satellite navigation systems, key elements being compatibility and interoperability between GPS and Galileo. Council Conclusions on Galileo were adopted, welcoming progress, and looking forward to expected decisions by the end of the year on the deployment and operational phases of the project.

Under AOB, there were a number of maritime items. France presented its two sea motorway projects. The Commission indicated its support for sea motorway schemes to facilitate links between ports. Belgium underlined the significance of the recent agreement in the IMO of a Convention on ballast water. The Commission noted that the Convention was a major step forward, and said it would push for member states to ratify it as soon as possible. Spain raised its concerns over the 6-month indicative ratification for the Protocol to the International Oil Pollution Compensation Fund (IOPC). Spain also noted that not all member states had yet transposed Vessel Traffic monitoring Directive 2002/59/EC, and that the lack of a uniform approach endangered maritime safety. Spain further insisted that a common approach was needed towards parties responsible for oil pollution, including owners.

The Commission reported on digital tachographs. The deadline for installation to relevant vehicles is August this year. As it is accepted that this cannot be met, a co-decision proposal for revision of the date is needed. In the interim, the Commission will be issuing a letter confirming that a moratorium of between eight and 12 months would be granted.

Also under AOB, the Commission reported on the revised Commission proposal on harmonised operational safety standards and administrative procedures in civil aviation. The Presidency concluded that work would start at the technical level with a report expected at the next Transport Council.

No votes were taken at this Council.

HOUSE OF COMMONS COMMISSION

Big Ben

35. **Norman Baker**: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission, if he will make a statement on the maintenance of the great Westminster clock, popularly known as Big Ben. [161276]

Sir Archy Kirkwood: 'Big Ben' is actually the nickname of the hour bell rather than the Great Clock itself. On Monday, Wednesday and Friday each week clockmakers attend the Clock to inspect it and wind it, and to check the time adjustment. Twice a year the fly fans, brakes and the associated bearings are disassembled and inspected. Metallurgists test the mechanical parts annually.

In addition, a specialist clockmaker is preparing a plan for clock maintenance over the next three years.

Line of Route Tours

39. **Sir Nicholas Winterton:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission, what plans he has to improve the availability of tours of the House by constituents. [161280]

Sir Archy Kirkwood: A detailed report on the first year of operations since the introduction of the Central Tours Office and the new sitting hours in January last year is being considered by the Administration Committee this week. The Committee will consider the report and then advise the Commission.

TRADE AND INDUSTRY

Energy Supplies

Mr. Watson: To ask the Secretary of State for Trade and Industry what plans she has to increase the target of energy generated from renewable sources. [161004]

Mr. Timms: The Government remain firmly committed to the 10 per cent. target of electricity from renewable sources by 2010 and an aspiration to double this by 2020. We plan to review the Renewables Obligation (which is the main vehicle for achieving our target) during 2005, and to set out the scope of that review later this year. In December I announced that the Renewables Obligation will be extended from 2010 to a level of 15.4 per cent. in 2015–16.

Mr. Evans: To ask the Secretary of State for Trade and Industry what recent estimates she has made of the change in demand for electricity over the next decade. [161813]

Mr. Timms: In August 2003 the Department published for consultation new projections to 2010 of electricity generation from different sources. These are available at: www.dti.gov.uk/energy/sepn/projections.pdf.

Work to update these projections is continuing and revised projections should be available shortly.

Mr. Evans: To ask the Secretary of State for Trade and Industry what the change in demand for electricity over the past decade was in *(a)* the North West and *(b)* the United Kingdom. [161817]

Mr. Timms: Data for electricity demand in the UK are contained in the long term trends annex to the Digest of United Kingdom Energy Statistics 2003 (table 5.1.2) available at: www.dti.gov.uk/energy/inform/energy_stats/electricity/index.shtml.

Data for the North West region were published for the period 2000–02 only in the December 2003 issue of Energy Trends available at: www.dti.gov.uk/energy/inform/energy_trends/2003/dec_03.pdf.

EU Social Chapter (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits of the EU Social Chapter for the residents of Crosby. [160522]

Mr. Sutcliffe: The residents of Crosby have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them and;

in addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Flexible Working

Julie Morgan: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of requests for flexible working following the birth of a child that were received in the six months following the April 2003 implementation of the flexible working legislation; and what proportion of these requests were granted. [161460]

Mr. Sutcliffe: The Government have commissioned questions in the monthly Office for National Statistics Omnibus Survey to help make an assessment of the number of flexible working requests in the first year of the new flexible working law coming into effect. The results should be published shortly.

Last October the Chartered Institute of Personnel and Development and Lovells published the results of a survey looking at the impact of the new law in its first six months and reported:

Over a quarter (28 per cent.) of employers have seen an increase in the total number of requests for flexible working since the right was introduced in April 2003.

Of those organisations that have received statutory requests since then, nearly two-thirds (62 per cent.) have approved at least half of all such requests, either in the form submitted by the employee or in modified form.

A large majority of employers say they generally have little difficulty with the new right—76 per cent. say that the impact of the legislation on their organisation has been negligible and 90 per cent. report no significant problems complying with the new requirements.

Answers to common questions put to advisers on the ACAS helpline during the first six months of the law being into effect are available on the DTI's website at www.dti.gov.uk/er/flexible.htm.

Julie Morgan: To ask the Secretary of State for Trade and Industry what plans she has to extend the right to request flexible working to carers of elderly and disabled people. [161466]

Mr. Sutcliffe: The right to request flexible working and duty on employers to consider such requests seriously is already wider in scope for parents of disabled children, who can make a request up to their child's 18th birthday. For other parents, the right applies while their children are under six.

The Government are committed to commencing a review of the law in 2006. Issues such as whether it is appropriate to extend its scope, and to whom, could be considered at this time.

The Government's Work-Life Balance Campaign seeks to persuade employers of the benefits of adopting work-life balance policies and to offer these opportunities to all employees to help meet caring responsibilities, as well as pursue personal interests, wherever it makes business sense.

Insulation Costs

Brian White: To ask the Secretary of State for Trade and Industry what the average cost of installing *(a)* photovoltaic cells and *(b)* external wall insulation on a house was in the last year for which figures are available; and what public subsidies are available for this work. [160098]

Mr. Timms: PV average cost based on a three-bed semi detached household system of 2kWp capacity.

Depending on the type of system specified, total average costs for a 2kWp system are between £13,000 and £17,000. Under the Major Photovoltaic Demonstration Programme 50 per cent. is available in grant.

External wall insulation costs:

The marginal cost for externally insulating a three-bed semi detached house is approx 1500. The costs vary greatly according to house type and building height. Public subsidies are not available for this technology.

British Nuclear Fuels Ltd.

Mr. Watson: To ask the Secretary of State for Trade and Industry what discussions her Department has had about BNFL liabilities in the USA; and if she will make a statement. [161122]

Mr. Timms: The Department has had many discussions with BNFL about its' business in the USA. These discussions have broadly been about BNFL seeking routes to significantly reduce its exposure to the US clean-up market. In relation to Westinghouse we have had discussions with BNFL about the steps that need to be taken to enable the business to operate with greater financial independence, so that possibilities for private sector participation are opened up. I have recently spoken to Spencer Abraham, US Energy Secretary, on these issues.

Paid Leave (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many residents of Crosby qualify for paid leave entitlements. [160539]

Mr. Sutcliffe: All workers resident in Crosby qualify for paid annual leave entitlements—at least four weeks as set out in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be to claim statutory maternity pay for that period.

All employees in Crosby who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Recruitment

Matthew Taylor: To ask the Secretary of State for Trade and Industry what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158174]

Ms Hewitt: The Department has information on the total costs of recruiting civil servants, but it is not possible to provide a breakdown as required without occurring disproportionate cost. The figures are as follows:

	£000
1998–99	433
1999–2000	944
2000–01	655
2001–02	229
2002–03	662

Shredded Tyres

Dr. Whitehead: To ask the Secretary of State for Trade and Industry what arrangements she is making to ensure that shredded tyres going to landfill are usable in shredded form for other purposes once they are no longer permitted to be placed in landfill sites. [161782]

Mr. Timms: There are a range of applications for used tyres in both whole and shredded form, including engineering uses, incorporation into sports and safety surfaces and energy recovery in cement kilns. The number of tyres being put to such use is growing strongly as the industry anticipates the July 2006 ban on their disposal to landfill. There is legislation in place covering the handling and movement of used tyres, as with other wastes, but the Government are currently considering whether this existing framework needs to be strengthened in any way while the adjustment away from landfill disposal takes place. We continue to discuss these issues with the tyre industry and other interested parties.

Worker Registration Certificates

Glenda Jackson: To ask the Secretary of State for Trade and Industry whether a worker's registration certificate guarantees its holder protection under minimum wage legislation. [156936]

Mr. Sutcliffe: We have announced that individuals from the accession states will be entitled to work in the UK provided they meet certain conditions. These will include registering with the Home Office under its workers' registration scheme, which was announced on 23 February.

Most of these individuals will then be entitled to the national minimum wage, although it is possible that some may fall within exemption categories in the minimum wage legislation or instead be covered by the agricultural minimum wage. We will ensure that there is effective enforcement in this area.

HOME DEPARTMENT

Child Abuse

Ms Shipley: To ask the Secretary of State for the Home Department if he will make a statement on the findings of the survey from the British Educational Communications and Technology Agency on the proportion of primary school children who regularly chat over computer software and admit that they have had face-to-face meetings with people they met on-line. [158989]

Mr. Charles Clarke: I have been asked to reply.

The evaluation report, "Emerging Trends Amongst Primary School Children's Use of The Internet" was published by the Cyberspace Research Unit (CRU) of the University of Central Lancashire, under contract to the British Educational Communications and Technology Agency (Becta). The evaluation was commissioned to evaluate the Internet Proficiency Scheme which was designed to help Key Stage 2 pupils learn how to use the internet and other technologies safely and responsibly.

The CRU evaluation found that the number of children aged 8 to 11 years using chatrooms was decreasing. When questioned by researchers in 2002, two in 10 children of a group of 1,331 admitted to using chatrooms on more than one occasion. In 2003, the figure dropped to one in ten, when 330 children were asked the same question. Also in 2002, two out of a group of 100 children admitted to attending face-to-face meetings with people that they had met online. This number increased to three out of a group of 100 children in the same age range in 2003.

The evaluation suggests that over 90 per cent. of primary schools did not let their students use internet chat facilities on their premises and that all schools had taken some action to keep children using the internet safe. This included using technology, such as content filtering software, and creating clear written policies that outline how children should use the internet at school.

There was also evidence from the evaluation that schools were the most commonly reported sources of internet safety advice and that there had been an increase in the proportion of children that were aware of general internet safety guidelines.

Community Sentences

Mr. Oaten: To ask the Secretary of State for the Home Department in how many cases in the last 12 months for which figures are available magistrates have been unable to issue community sentences as a result of not being in possession of pre-sentencing reports; and what sentencing options are not available where there is no pre-sentencing report. [158635]

Paul Goggins: Information is not collected centrally on the number of requests for pre-sentence reports made by magistrates which are not met. Non-production of reports does not prevent the court from issuing a community sentence or any other sentence. It is for

sentencers to decide if they wish to request a pre-sentence report, if the court is of the opinion that it is unnecessary to obtain a pre-sentence report it need not do so.

Credit References

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether police forces may have access to the credit reference agency database *(a)* with and *(b)* without the knowledge of the individual concerned. [160454]

Caroline Flint: The principal means by which police forces access the information held by credit reference agencies is through making a request under section 29 of the Data Protection Act 1998. The Act allows data to be accessed without the knowledge of the individuals concerned where this is

"for the purpose of the prevention or detection of crime, the apprehension or prosecution of offenders, or the assessment or collection of any tax or duty or of any imposition of a similar nature"

, and where a failure to disclose this information would be likely to prejudice any of these matters. Use of this power is limited by a number of safeguards, notably that applications are approved by senior officers and the reasons for the application documented. The Information Commissioner also monitors the use by law enforcement of these databases.

Crime Reduction

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will publish all the responses his Department receives to Reducing Crime-Changing Lives. [147434]

Paul Goggins: Responses to the "Reducing Crime—Changing Lives" document will be made available to anyone who asks for them. Where respondents have sought confidentiality this will be respected.

Criminal Assets

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 2 March 2004, *Official Report*, column 899W, on criminal assets, in how many of the 1,219 cases cited an order made was under section 295(2) of the Proceeds of Crime Act 2003 to extend the period for which the seized cash was detained. [160195]

Caroline Flint: An order was made under section 295(2) of the Proceeds of Crime Act 2002 in 1,218 cases, to extend the period for which the seized cash was detained.

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 2 March 2004, *Official Report*, column 899W, on criminal assets (1) what quantity of cash seized during this period was paid into a bank account under the terms of section 296 of the Proceeds of Crime Act 2003, broken down by relevant bank and building society; [160196]

(2) what proportion of cash seized has subsequently been released; [160197]

(3) in how many of the 1,219 cases cited compensation has been paid *(a)* for loss of interest which would have been earned and *(b)* for additional loss under section 302(4) of the Proceeds of Crime Act 2003. [160198]

Caroline Flint: The information requested is not readily available and could be obtained only at disproportionate cost.

Mr. Jenkins: To ask the Secretary of State for the Home Department what the total value of assets recovered by the Assets Recovery Agency is since its establishment. [160067]

Caroline Flint: Since the agency became operational on 24 February 2003, the total value of assets under its investigation is over £50 million of which over £13.5 million is currently frozen under court orders, pending hearings for recovery orders. In addition, four tax assessments have been issued under the Proceeds of Crime Act 2002 with a total value of £728,000. Tax receipts with a total value of £2,000 have so far been recovered. The agency has also provided assistance to law enforcement agencies in 19 confiscation order cases in which assets with a total value of £4.4 million have been restrained.

Drugs Testing and Treatment

Miss McIntosh: To ask the Secretary of State for the Home Department what the procedure is for applying for a drugs testing and treatment order; and what the maximum distance is that a person subject to a drugs testing and treatment order is expected to travel in order to comply with such an order. [156871]

Paul Goggins: Drug Treatment and Testing Orders (DTTOs) can be made by magistrates courts and the Crown court where the court is satisfied that an offender aged 16 or over is dependent on or has a propensity to misuse drugs, and requires and may be susceptible to treatment. A court shall not make a DTTO unless it is satisfied that arrangements have been or can be made for the treatment intended to be specified in the order, and the offender expresses his willingness to comply with its requirements. To determine an offender's suitability for the order, the Probation Service will carry out an assessment in conjunction with treatment services, usually during an adjournment for a Pre Sentence Report.

There is no maximum distance within which offenders are expected to travel to comply with a DTTO. Arrangements for supervision by the Probation Service and treatment provision are made as practicably as possible, taking into account not only the distance offenders have to travel (often on a daily basis) but the complexity of the transportation system and the availability of any specific treatment needed.

Football

Bob Russell: To ask the Secretary of State for the Home Department (1) who makes the decision to impose a football banning order on an individual under the Football Spectators Act 1989, as amended by the Football (Disorder) Act 2000; [160507]

(2) whether he has advised the Football Association that the provisions of the Football Spectators Act 1989, as amended by the Football (Disorder) Act 2000, apply to players and officials as well as to football supporters; [160508]

(3) how many *(a)* football players and *(b)* officials have been subject to a football banning order under the Football Spectators Act 1989, as amended by the Football (Disorder) Act 2000. [160509]

Ms Blears: In accordance with the provisions of Football Spectators Act 1989 (as amended by the Football (Disorder) Act 2000), it is for the court to determine whether or not to impose a football banning order following a conviction of a football-related offence or a complaint laid by the police. The football authorities are aware of the relevant legislation. No senior player or official has been subject to a football banning order. The imposition of such an order would be a matter for the courts.

Holocaust Memorial Day

Mrs. Ellman: To ask the Secretary of State for the Home Department what consultations his Department has held with the Department for Education and Skills on future production of education materials for Holocaust Memorial Day. [160643]

Fiona Mactaggart *[holding answer 11 March 2004]:* Officials from the Departments have a close working relationship around all aspects of Holocaust Memorial Day and have discussed the future production of educational materials.

The Department for Education and Skills will be producing education resources in support of Holocaust Memorial Day 2005. Both the Home Office and the Department for Education and Skills will continue to support fully the aims and objectives of Holocaust Memorial Day.

Identity Cards

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what estimate he has made of the cost of providing *(a)* mobile and *(b)* fixed local reader systems for national identity cards; [160452]

(2) if he will make a statement on the trials which have been conducted into mobile devices to check biometrics. [160455]

Beverley Hughes: The cost assumptions and cost estimates which have been used in the preparation of the Home Office's business case have not been placed in the public domain for reasons of commercial confidentiality. These estimates are based on extensive research and consultation with stakeholders both within and outside Government, and will be the subject of further refinement as the programme progresses.

Biometric checks known as quick checks are used to search an individual's fingerprint against the Immigration Asylum Fingerprint System (IAFS) in order to identify if that individual is known to the Immigration and Nationality Directorate (IND). Quick checks searches can be conducted by immigration officers anywhere and a result known within three minutes.

There are around 300 quick checks facilities within the Immigration Service including local enforcement offices around the country. Approximately 20 quick checks facilities have been placed in police stations to check identities of suspects if the Police think IND may have an interest in them.

Quick checks have also been used in a pilot visa application process in Sri Lanka, which is now being repeated in several east African countries in order to collect fingerprints of individuals requesting visas. These data are held on IAFS.

Some police forces use readers to check fingerprints in joint working with the Immigration Service. Finger print readers will also be used by Northamptonshire police in a pilot later this year involving automated number plate recognition. When there is some reason to stop a particular vehicle the fingerprints of the driver, and passengers, can be taken and checked.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how long it will take to register an individual for a national identity card. [159757]

Beverley Hughes: The Home Office is working on designing a process which enables an individual to be registered in a convenient and timely manner. However, it is too early at present to specify the exact registration times that will be taken. Projects such as the UK Passport Service biometric trial will help to inform the estimates of the registration time.

Mr. Tynan: To ask the Secretary of State for the Home Department what assessment he has made of how DNA information might be used alongside other biometric data when identity cards are introduced. [161223]

Beverley Hughes: DNA has well-known applications in identification of people in a law enforcement context and is both universal and able to discriminate among a very large number of individuals. However, the requirements of an identity card scheme are for high-volume, real-time identity verification and so DNA would be unsuitable because of the specialist expertise and length of time needed in taking and analysing samples.

Internet Child Pornography

Ms Shipley: To ask the Secretary of State for the Home Department what assessment he has made of whether a hard drive amnesty should be introduced for people who have child pornography downloaded on their systems, in return for a caution and agreement that they undertake a course of treatment. [159482]

Paul Goggins: We have no plans to take forward such an amnesty.

Ms Shipley: To ask the Secretary of State for the Home Department what guidance he has issued to the *(a)* police and *(b)* Crown Prosecution Service on the investigation of individuals suspected of (i) making and (ii) possessing illegal images of children. [159483]

Paul Goggins: The criminal offences relating to taking, making distributing and possessing indecent photographs of children are contained in the Protection of Children Act 1978, as amended, and no central guidance has been issued.

However, section 46 of the sexual Offences Act 2003 provides a defence to a charge of "making" indecent photographs of children under section 1 of the 1978 Act, and we are working with representatives of the Association of Chief Police Officers and the Crown Prosecution Service on a Memorandum of Understanding concerning its interpretation. This will provide guidance to those working in the field on the issues that need to be considered in determining whether acts of "making" fall within the scope of the defence. We have consulted bodies representing internet service providers and other interested parties on the content of the document. It is intended that the final document will be published on the Crown Prosecution Service website when the Sexual Offences Act comes into force.

Judicial Responsibility

Mr. Grieve: To ask the Secretary of State for the Home Department if he will make a statement on the extent of his responsibility for *(a)* magistrates and *(b)* district judges. [159298]

Paul Goggins: Responsibility for magistrates and district judges rests with the Department for Constitutional Affairs. The Home Office has certain responsibilities in relation to magistrates courts, including the legislation governing the procedures and sentencing powers of those courts.

Justice and Home Affairs Council

Mr. Ancram: To ask the Secretary of State for the Home Department how many meetings of the Justice and Home Affairs Council he has attended since being appointed Secretary of State for the Home Department. [156487]

Paul Goggins *[holding answer 1 March 2004]:* Eight.

Police Officers (Early Retirement)

Mr. Oaten: To ask the Secretary of State for the Home Department how many police officers have retired early owing to ill-health in each year since 1997. [151416]

Ms Blears *[pursuant to her reply, 28 January 2004, Official Report, c. 444W]:* The information that was given in the answer was not accurate due to an administrative error; the correct version of the answer is as follows: The requested figures, including the figure for 2002–03 published by Her Majesty's Chief Inspector of Constabulary last year, are given in the table.

	Medical Retirements
1996–97	2,012
1997–98	1,811
1998–99	1,642
1990–2000	1,232
2000–01	1,209
2001–02	1,114
2002–03	821

Prisoners

Charles Hendry: To ask the Secretary of State for the Home Department (1) what the average proportion of prisoners who were *(a)* illiterate and *(b)* innumerate on (i) entering and (ii) leaving prison was in each year since 1997; [158733]

(2) what the average proportion of young offenders who were *(a)* illiterate and *(b)* innumerate on (i) entering and (ii) leaving young offenders institutions was in each year since 1997. [158735]

Paul Goggins: The following table shows the proportion of young offenders and other prisoners assessed on reception into prison as having literacy and numeracy skills at or below level 1.

	Percentage at or below level 1	
	Literacy	*Numeracy*
2002–03		
Young offenders	81.7	78.1
Prisoners[1]	69.9	70.7
2001–02		
Young offenders	78.1	72.9
Prisoners[1]	73.9	67.2
2000–01		
Young offenders	72.7	75.0
Prisoners	61.6	65.5
1999–2000		
Young offenders	72.0	80.8
Prisoners	74.3	64.0
1998–99		
Young offenders	70.0	77.6
Prisoners	68.5	66.4
1997–98		
Young offenders	68.5	82.4
Prisoners	55.9	66.8

The Prison Service does not currently have systems for tracking individual prisoner progress. The following table sets out prisoner achievement against our literacy and numeracy targets since 2000–01.

	Target	*Achievement*
2000–01	14,500 (level 2)	12,500 (86%)
2001–02	18,000 (level 2)	16,000
2002–03	28,800 (all levels)	41,518 (144%)
Of which:		
	6,000 (entry)	9,120
	12,000 (level 1)	17,208
	10,800 (level 2)	15,190
2003–04[1]	36,676 (all levels)	38,464 (105%)
Of which:		
	8,117 (entry)	11,223
	14,501 (level 1)	15,694
	14,058 (level 2)	11,547
2004–05	60,000 (all levels)	

[1] To January 2004.

Probation Service

Mrs. Gillan: To ask the Secretary of State for the Home Department whether there has been an evaluation of the effectiveness of the reorganisation of the Probation Service in April 2001. [159814]

Paul Goggins: I refer the hon. Member to the answer given on 9 February 2004, *Official Report*, column 1285W.

Sentencing Powers

Vera Baird: To ask the Secretary of State for the Home Department whether the Court of Appeal has powers to reduce a sentence if the sentence is not considered to be wrong in principle. [156313]

Paul Goggins: Sections 9(1) and 11(3) of the Criminal Appeal Act 1968 grant the Court of Appeal a very wide discretion to deal with appeals against sentence as it thinks fit, subject only to the proviso that it must not increase the sentence imposed by the Crown court. However, the criminal division of the Court of Appeal is generally bound by its own precedents. When considering an appeal against sentence on the ground that the sentence is manifestly excessive or wrong in principle, the Court of Appeal has traditionally made it clear that it will not interfere with the Crown court's sentence if that sentence is right in principle (i.e. within the general reach of the Crown court's discretion and not manifestly excessive). The interpretation of legislation is, however, a matter for the courts.

LEADER OF THE HOUSE

Legislative Process

38. **Hugh Bayley**: To ask the Leader of the House, how the Government decides into which House to introduce a Bill. [161279]

Mr. Woolas: When deciding into which House to introduce a Bill, the Government considers a range of factors, including the nature of the Bill and the need to maintain a balanced programme in both Houses throughout the Session.

Pre-legislative Scrutiny

Mr. Allen: To ask the Leader of the House, what recent steps he has taken to promote the use of pre-legislative scrutiny on-line for all proposals for legislation; and if he will make a statement. [161277]

Mr. Hain: Whether to consult on-line—as part of pre-legislative scrutiny or another form of inquiry—is a matter for decision by the individual committee concerned. The Modernisation Committee, which I chair, is currently conducting an on-line consultation as part of our inquiry into connecting Parliament with the public. I commend this approach to other Committees.

Sitting Hours

Mr. Burns: To ask the Leader of the House, what studies he has conducted on the impact of the changes in the working hours of the House on the efficiency of the work of the House. [161278]

Mr. Hain: I wrote to all Members in January asking for views on the sitting hours, including the impact of the change on the efficiency of the work of the House. Such factors will form part of the forthcoming review by the Modernisation Committee.

CULTURE, MEDIA AND SPORT

Cinema-goers

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what her Department's policy is on improving facilities for cinema-goers with impaired *(a)* hearing and *(b)* sight; and what funding has been made available to improve services. [160814]

Estelle Morris: The UK Film Council announced on 15 September 2003 the launch of a Cinema Access Programme to improve access to cinemas by people with hearing and sight impairments. £500,000 of lottery money has been allocated to this programme, of which £350,000 is being used to supply up to 75 local cinemas across England with subtitling and audio-description equipment; £60,000 is funding the provision of sub-titled and audio-described film prints for use in cinemas; £50,000 is funding the development of a website providing information on when and where subtitled or audio-described films will be seen; and £40,000 is supporting research and development into a personal captioning device to work alongside existing digital systems.

Gambling

Mr. Simon Thomas: To ask the Secretary of State for Culture, Media and Sport how much public funding has been spent by the Government on *(a)* publicising the dangers of gambling among under 18-year-olds and *(b)* rehabilitation for gambling addicts in each year since 1997. [161340]

Mr. Caborn: There is no public funding for *(a)* It is not possible to provide a specific estimate of the amount spent on *(b)* within total NHS provision for mental health services, bearing in mind the frequent co-morbidity of pathological gambling with other forms or manifestations of mental disorder.

Mr. Simon Thomas: To ask the Secretary of State for Culture, Media and Sport (1) what research her Department has *(a)* commissioned and *(b)* evaluated into the likely effects on repeat play by children of reducing the legal maximum stake for redemption-style gaming machines from 30 pence to 10 pence per game; [161303]

(2) what research has been carried out on behalf of her Department on the extent to which *(a)* redemption style machines offering exchangeable goods and *(b)* other category D machines affect the likelihood of repetitive play among children. [161341]

Mr. Caborn: The report of the Gambling Review Body (CM 5206) identifies a number of research studies dealing with gaming machine play by children. These include machines which would be classified as Category D machines under the draft Gambling Bill proposals.

But the Department is not aware of any studies which relate specifically to redemption style machines, and has not commissioned any.

Libraries (Digitisation)

Mr. Bercow: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on the digitisation of content in libraries in Buckingham since 1997. [161322]

Estelle Morris: The information requested is not held centrally. However, Buckinghamshire county council is a partner in the Thames Pilot Project, which received £328,000 from the New Opportunities Fund to help establish a website depicting the history of the River Thames and the communities which lie along its length. Separately, in 2003 Buckinghamshire digitised over 500 images of Victorian prisoners held at Aylesbury Gaol to be displayed on the council website at a cost of approximately £2,000. This was in addition to the previous digitisation of over 23,000 historic images of Buckinghamshire in 1994, of which 425 relate directly to Buckingham.

Museums/Libraries (Funding)

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what written representations she has *(a)* requested and *(b)* received regarding local authority financial support for (i) museums, (ii) libraries and (iii) archives in the forthcoming financial year under the local authority financial settlement; and if she will make a statement. [158463]

Estelle Morris: The information requested is as follows.

(a) To date, the Department for Culture, Media and Sport has not requested any written representations regarding local authority financial support for museums, libraries or archives in the forthcoming financial year under the local authority financial settlement.

(b) To date, the Department has received:

i. Three written representations regarding local authority financial support for museums, relating to Worthing borough council, Eastbourne borough council and Daventry district council.

ii. Three written representations about potential service reductions in library services from London borough of Barnet, Cambridgeshire county council and Telford and Wrekin borough council following the announcement of the local authority financial settlement for the forthcoming financial year. The Department has received no other written representations regarding local authority financial support in relation to libraries.

iii. One written representation regarding local authority financial support for archives, relating to Essex county council.

National Lottery

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport what the cost of administering the National Lottery as a proportion of each ticket sold was in 2003–04. [161437]

Estelle Morris: Information for 2003–04 is not yet available. In 2002–03 the operator of the National Lottery retained 6.3 per cent.

Television Licence

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport what proportion of television licence fee defaulters fell into each socio-economic category in the last year for which figures are available. [160685]

Estelle Morris: The table shows how, according to figures obtained from the BBC, evasion is spread across all socio-economic groups.

Percentage

Group	*UK Population Distribution by socio-economic group of chief income earner, according to National Readership Survey between July 2000 and June 2001*	*TV Licence Evaders Distribution of socio-economic group of 1,108,787 who have evaded for up to two years*
2003		
AB	23.7	23.4
C1	27.7	27.2
C2	20.9	19.8
DE	27.7	29.6
2002		
AB	23.8	22.4
C1	27.3	26.6
C2	21.2	20.3
DE	27.7	30.7

Sports (Participation)

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport how many people *(a)* over and *(b)* under the age of 16 take part in sporting activity in (i) the north west, (ii) Lancashire and (iii) Chorley. [161445]

Mr. Caborn: The Health Survey for England 1998 indicated that 14.0 per cent. of people aged 16 and over in the north west participated in sport and walking for a minimum of 30 minutes at least five times a week and that 21.4 per cent. did so at least three times a week. Disaggregated information for Lancashire and Chorley is not available and could be provided only at disproportionate cost.

The information requested on people under the age of 16 is not held in the format requested and could be provided only at disproportionate cost. Data on the number of pupils who spend a minimum of two hours each week on high-quality PE and school sport within and beyond the curriculum are now being collected for the first time and will be published in April.

INTERNATIONAL DEVELOPMENT

Common Agricultural Policy

Mr. Wills: To ask the Secretary of State for International Development what assessment he has made of the impact of Common Agricultural Policy export subsidies on poverty in developing countries; and if he will make a statement. [160590]

Hilary Benn: The Government acknowledge the damaging impact that export subsidies have on the poor in developing countries by depressing world market prices and distorting trade. Evidence suggests that with elimination of all agricultural export subsidies from the expected levels in 2005, it is estimated that annual global incomes would be US$3.6 billion a year higher by 2010, than if expected levels of export subsidies persisted and there were no further reforms.

It is for this reason we have pressed for reductions in the use of export subsidies in Europe. We fully support the commitment made at the Doha ministerial meeting in 2001, which agreed that agriculture negotiations would aim to achieve: substantial improvements in market access; reductions of, with a view to phasing out, all forms of export subsidies; and substantial reductions in trade-distorting domestic support.

However, export subsidies cannot be tackled in isolation, as they are a consequence of high internal support prices and restricted access to the EU market for developing country exporters. While the Common Agricultural Policy reforms agreed in June last year don't deal explicitly with export subsidies, they will result in the de-linking of domestic support from production and this is expected to lead to real changes in output, by gradually reducing the incentives for EU farmers to over-produce. This in turn will reduce the need to dispose of surpluses onto the world market through the use of export subsidies. The reforms that have been made to the CAP mean that the EU is now able to reduce its export subsidies to about 25 per cent. of the level that was paid 10 years ago.

EU Aid

Mr. Bercow: To ask the Secretary of State for International Development (1) what the explanation is for the €72.73 million excess of payment over funds committed in respect of Mediterranean projects that were financed from the Commission Budget in 2002; [161118]

(2) what the destination was of the difference between the €574.87 million committed and the €454.25 million euros paid on Asia projects that were financed from the General Commission Budget in 2002; [161112]

(3) what the destination was of the difference between the €520.32 million committed and the €474.25 million paid on Humanitarian Aid projects that were financed from the General Commission Budget in 2002; [161113]

(4) what the destination was of the €430.69 million difference between the funds committed and funds paid to the pre-accession from the General Commission Budget in 2002; [161107]

(5) what the destination was of the difference between the €333.22 million committed and the €181.79 million paid on Latin American projects that were financed from the General Commission Budget in 2002; [161115]

(6) what the destination was of the €710.65 million difference between funds committed and funds paid to the pre-accession-ISPA project that was financed from the General Commission Budget in 2002; [161109]

(7) what the destination was of the difference between the 505.96 million euros committed and the €417.31 million paid on Food Aid projects that were financed from the General Commission Budget in 2002; [161110]

(8) what the destination was of the €581.48 million difference between funds committed and funds paid to the pre-accession-PHARE project that was financed from the General Commission Budget in 2002; [161108]

(9) what the destination was of the difference between the €147.95 million committed and the €18.87 million paid on the pre-accession projects for Malta, Cyprus and Turkey that were financed from the General Commission Budget in 2002; [161111]

(10) what the destination was of the difference between the €124.18 million committed and the €119.26 million paid on South African projects that were financed from the General Commission Budget in 2002. [161105]

Mr. Gareth Thomas: The European Commission budget is approved annually. This approval process sets two distinct budget figures. The first is for commitments adopted and reflects the total value of all operations which the Commission expects to be approved over the financial year. The payments budget line on the other hand represents the aggregated spending forecast for the year, based on various approvals from previous years. There is therefore no one single identifiable country or thematic destination for the sum to which the questions refer.

There is no direct causal or operational linkage between the commitments and payments appropriations figures in external action or pre-accession budget lines. Individual projects or programmes may span several years from the date of commitment, stretching the spending horizon accordingly. In addition the actual rate of forecasted spend can be affected by project or programme-specific or wider external factors.

EU Development Finance

Mr. Bercow: To ask the Secretary of State for International Development if he will break down by main category the €104.25 million classified as unallocated/unspecified in the financial tables on page 256 of the Annual Report 2003 from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance in 2002. [160717]

Mr. Gareth Thomas: The information requested is not available. Unallocated/unspecified ODA refers to expenditure that cannot easily be placed within a sector. This may be because a project covers a number of sectors and cannot easily be divided up between them or because expenditure does not fit within any sectoral definition.

Mr. Bercow: To ask the Secretary of State for International Development if he will break down by main category the 141.86 million euros of administrative costs of donors in the EU's Official Development Assistance in 2002, as referred to in the financial tables on page 256 of the Annual Report 2003 from the European

Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance in 2002. [160718]

Mr. Gareth Thomas: The information requested is not available. Each year the Commission publishes details of its expenditure along with plans for the current year in the Official Journal in February. This includes details of "Expenditure on administrative management" for the budget lines along with the way in which the commission organises its expenditure. The commission does not routinely publish administrative expenditure by sector.

Project Funding

Mr. Colman: To ask the Secretary of State for International Development (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each of the last 10 years; [160955]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible in each of the last 10 years. [160956]

Hilary Benn: DFID does not record its projects or spending solely under the categories indicated in the questions and the information could not be obtained without incurring a disproportionate cost.

DFID regards building a healthy private sector in developing countries as essential for poverty reduction. Successful private firms are the principal engines of growth in productivity, employment and income needed to eliminate poverty. DFID's work to encourage private sector development includes but goes well beyond projects directly with the private sector. In summary, DFID works with the public sector to improve the environment for investment and business; with the private sector to expand its access to finance and markets, and to improve its impact on the poor; and with public private partnerships to improve the delivery of public services and technology for the poor.

For information on PFI projects, the Signed Projects List can be found on the Treasury website. This is at http://www.hm-treasury.gov.uk/documents/public private partnerships/ppp pfi stats.cfm.

Sugar Regime

Mr. Gummer: To ask the Secretary of State for International Development what plans he has to ensure that the needs of smaller developing sugar producing countries are taken into account when his right hon. Friend negotiates reform of the Common Agricultural Policy. [160766]

Hilary Benn: The European Union (EU) Common Market Organisation for sugar is highly distorted and discriminatory and is unsustainable in its current form. Using a system of quotas and prohibitively high tariffs access has been denied to the EU market for all but a handful of developing country suppliers for more than 30 years. In addition, those developing countries without preferential access to the EU sugar market struggle to compete in third markets with the highly subsidised EU sugar exports. The price of sugar on the EU market is kept artificially high with the consumer ultimately paying through the high end price for sugar and products containing sugar. Estimates vary but put the cost to taxpayers at approximately $2 billion each year. Reform is much needed and long overdue.

The European Commission has not yet tabled any proposals but has set out three options for reform. The Government are still considering which of these specific options represents the best way ahead. Any change to such a highly distorted regime will bring some losers as well as winners. Some of the less efficient traditional preferential suppliers will be affected and may need some sort of transitional assistance to help them adapt. The precise nature and scale of this assistance will depend on the nature and scale of the reform itself. DFID is working closely with other Government Departments to look at the implications of these options for developing countries and identify what assistance might be necessary.

Zambia

Mr. Nigel Jones: To ask the Secretary of State for International Development what assessment he has made of *(a)* the quality of HIV treatment available in Zambia and *(b)* the extent to which treatment has improved in recent years; and how many people have died from HIV/AIDS in Zambia in each of the last five years. [161795]

Hilary Benn: Treatment of HIV is understood to mean treatment of AIDS retroviral infection, through Anti-Retroviral Therapy (ART), as well as treatment of the opportunistic infections it causes.

The number of people who have died of AIDS in Zambia in the last five years is not known; because of stigma and limited diagnostic capacity, AIDS is often not stated or acknowledged as a cause of death. However, from official Government of Zambia figures it is estimated that an average of 100,000 people have died from AIDS in the last five years.

ART was provided by provincial hospitals in Zambia for the first time in 2003. Over 1,000 clients are accessing this treatment at present. The quality of ART has yet to be assessed. However, while the health sector is under funded (with a resource gap of £94 million per year, or 50 per cent. of the health funding needed), and numbers of health workers are falling (at an estimated 10 per cent. per year) due to emigration and health problems, the quality of AIDS treatment is likely to remain poor.

Part of DFID's £20 million HIV/AIDS programme in Zambia provides monitoring and evaluation consultancy services in support of monitoring treatment quality. A further £20 million programme is supporting the strengthening of Zambia's health systems and financing the delivery of public health services, including to people living with HIV/AIDS and those affected by associated opportunistic infections.

Recent efforts to direct limited resources to where they are most needed have resulted in modest improvements. For the first time in many years, and with DFID's support, Zambia had sufficient drugs in 2003 to treat the range of common diseases which afflict poor people,

including opportunistic infections due to AIDS. Disease control measures have also improved. For example, the cure rate for TB, a common AIDS opportunistic infection, improved from 50 per cent. to 55 per cent. between 2000 and 2003.

DEFENCE

Afghanistan

Mr. Ancram: To ask the Secretary of State for Defence what discussions he has had regarding the establishment of European Union provincial reconstruction teams in Afghanistan. [160244]

Mr. Ingram: NATO is developing plans to extend ISAF's influence beyond Kabul. The United Kingdom has offered to lead a second Provincial Reconstruction Team.

Parliamentary Questions

Mr. Hancock: To ask the Secretary of State for Defence when he will answer the Question, Ref:146515, tabled by the hon. Member for Portsmouth, South on 5 January, on the death in British custody of Baha Mousa. [160912]

Mr. Ingram: I replied to the hon. Member on 12 March 2004, *Official Report*, column 1773W.

Royal Air Force

Angus Robertson: To ask the Secretary of State for Defence how many responses the RAF Continuous Attitudes Survey received for the consultation round launched in September 2003; and if he will make a statement. [160116]

Mr. Caplin: The RAF Continuous General Attitude Survey is issued in February, May, August and November each year. On 1 August 2003 (the last date for which information is available), 2,000 surveys were issued and 1,057 replies were received, giving a response rate of 52.9 per cent.

Departmental Buildings

Mr. Laws: To ask the Secretary of State for Defence if he will list the *(a)* land and *(b)* buildings in central London owned by (i) his Department, (ii) its agencies and (iii) the UK armed forces, giving the value in each case. [156709]

Mr. Caplin: The National Asset Register, (NAR), published by HM Treasury, provides a comprehensive list and valuation of all of the assets owned by every Government department and their sponsored bodies. A copy of the 2001 NAR has been placed in the Library of the House and can be accessed on the HM Treasury website at http://www.hm-treasury.gov.uk. It should be noted that these are asset valuations and do not represent the disposal value of these assets.

In central London the MoD, (including Agencies and Service personnel), holds a number of major properties. Those which have a realisable value to the Department have been valued and included in the NAR.

Such properties are listed in the table with the NAR values shown comprising the sum of the land value and the value of the various buildings. Service Families Accommodation and properties used solely by Visiting Forces and Reserve Forces have been excluded.

Property	*Location*	*Use*	*NAR Value (£)*
Chelsea Barracks	Chelsea	Barracks	58,530,000
DCSA St Vincent	Whitehall	Communications	14,918,000
Great Scotland Yard	Whitehall	Offices	2,557,000
Horse Guards	Whitehall	Barracks	6,130,000
Hyde Park Barracks	Knightsbridge	Barracks	72,170,000
Main Building	Whitehall	Offices	65,909,000
Northumberland House	Whitehall	Offices	11,736,000
Old War Office	Whitehall	Offices	63,370,000
RCDS Seaford House	Westminster	College	1,667,000
Regents Park Barracks	Regents Park	Barracks	29,190,000
Wellington Barracks	Petty France	Barracks	106,210,000

Following the Chief Secretary's letter of 10 September, there is an automatic presumption against locating new and reconstituted activity in London and the South-East and a moratorium against all Government Departments renewing, creating new leases or purchasing freehold property for office-based activities over 2000 sq. m. The Lyons Review reported to the Chancellor of the Exchequer on 15 March.

Disposal Services Agency

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) how many *(a)* vehicles, *(b)* display systems, radios and televisions, *(c)* small generators, *(d)* plant and machinery items, *(e)* tyres and *(f)* uniforms disposed of by the Disposal Services Agency since 1997 were acquired as Urgent Operational Requirements; and what the value of each of these categories was when (i) purchased and (ii) when sold; [161153]

(2) how many *(a)* vehicles, *(b)* display systems, radios and televisions, *(c)* small generators, *(d)* plant and machinery items, *(e)* tyres and *(f)* uniforms disposed of by the Disposal Services Agency since 1997 were un-used at the time of sale; and what the value was of each of these categories (i) when purchased and (ii) when sold; [161152]

(3) how much *(a)* IT equipment, *(b)* office furniture, *(c)* telecommunications equipment, *(d)* electrical equipment, *(e)* scientific equipment, *(f)* unwanted warehouse stocks and *(g)* clothing and fabrics disposed of by the Disposal Services Agency since 1997 was unused at the time of sale; and what the value was of each category of equipment (i) when purchased and (ii) when sold; [161150]

(4) how much *(a)* IT equipment, *(b)* telecommunications equipment, *(c)* electrical equipment, *(d)* scientific equipment, *(e)* unwanted warehouse stocks and *(f)* clothing and fabrics disposed of by the Disposal Services Agency since 1997 were acquired as Urgent Operational Requirements; and what the value was of each category of equipment (i) when purchased and (ii) when sold. [161151]

Mr. Ingram: This information is not held centrally and could be provided only at disproportionate cost.

Drugs

Dr. Murrison: To ask the Secretary of State for Defence how many convictions there were for drug-related offences among armed forces personnel in calendar year 2003. [161306]

Mr. Caplin: The number of convictions under the Service Discipline Acts for drug related offences in each of the three Services for the calendar year 2003 is as follows:

Armed forces	*Number of convictions*
Naval Service	9
Army	10
RAF	2

Drugs misuse may also be an aggravating factor in other offences.

Environmentally Sustainable Procurement

Mr. Sheerman: To ask the Secretary of State for Defence in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159100]

Mr. Ingram: I refer my hon. Friend to the answer given to him by my hon. Friend the Minister for the Environment on 10 March 2004, *Official Report*, columns 1542–43W.

The Ministry of Defence is fully involved in the work of the interdepartmental Sustainable Procurement Group (SPG), and is also contributing to the development of the procurement section of the Framework for Sustainable Development on the Government Estate.

To address all aspects of sustainable procurement across the Ministry of Defence, we established in 2003 a Sustainable Procurement Working Group (SPWG). To date, the SPWG's primary focus has been on the environmental aspects of equipment procurement and reviewing progress on departmental compliance with policies for procuring sustainable timber, food and construction.

Future Rapid Effects System

Peter Bradley: To ask the Secretary of State for Defence when he will make a decision on the Future Rapid Effects System; and if he will make a statement. [157443]

Mr. Ingram: I refer my hon. Friend to the answer I gave on 27 January 2004, *Official Report*, column 245W to the hon. Member for Aldershot (Mr. Howarth).

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence (1) which military bands will visit Gibraltar in 2004; [160483]

(2) which regiments will visit Gibraltar for the Tercentenary celebrations; [160485]

(3) what role the Royal Air Force will play in the Tercentenary celebrations of Gibraltar; [160486]

(4) what part the Royal Marines will play in the Tercentenary celebrations in Gibraltar. [160517]

Mr. Ingram: Plans are in hand for the following regiments to visit Gibraltar as part of the Tercentenary commemorations:

On 20 March, 60 Support Squadron Royal Engineers (on exercise in Gibraltar) will exercise the right of the Corps of Royal Engineers to march through Gibraltar. The Band of the Royal Engineers will provide marching music.

19/5 (Gibraltar 1779–83) Battery Royal Artillery will fire the Royal Gun Salute in Gibraltar on 21 April on the occasion of HM the Queen's Birthday.

Detachments from 19/5 Battery, 23 Commando HQ Battery, 22 Battery and 21 Battery, together with a detachment from the Royal Engineers and the band of the Prince of Wales Division, will take part in the Queen's Birthday Parade on 10 June.

Small detachments from the following regiments will take part in the following military ceremonial events:

	Ceremonial events
The Royal Anglian Regiment	Ceremonial Guards on 8 May and 12 June
The Devonshire and Dorset Regiment	Ceremony of the Keys on 13 May
The Light Infantry	Ceremony of the Keys on 13 May
The Queen's Lancashire Regiment	Ceremonial Guard on 17 July
The King's Own Royal Border Regiment	Ceremonial Guard on 31 July
Coldstream Guards	Ceremonial Guard on 18 September
Grenadier Guards	Ceremony of the Keys on 14 October

A small detachment from Royal Air Force Gibraltar will take part in the Queen's Birthday Parade on 10 June.

In early autumn and over the weekend 3–5 September, Royal Air Force Gibraltar will commemorate Battle of Britain Day with a series of private and public events. The Band of the Royal Air Force College will perform in public.

The Royal Marines will be taking part in two important ceremonial Tercentenary events: the Queens Birthday Parade which will be held on 10 June 2004 and the Granting of the Freedom of the City to the Royal Navy on 4 August 2004.

Queens Birthday Parade (10 June 2004)

For this parade the Commando Logistic Regiment RM will be providing a guard which will consist of 40 all ranks. The services and regiments taking part in this parade are those that hold the Freedom of the City of Gibraltar; that is the Royal Marines, the Royal Regiment of Artillery, the Corps of Royal Engineers and the Royal Gibraltar Regiment whose colour will be trooped.

Granting of the Freedom of the City of Gibraltar to the Royal Navy (4 August 2004)

The Royal Marines will provide an element of service personnel who will receive the Freedom. Specifically, a Band of the Royal Marines and a troop of 30 will be on parade on this important and historic event.

Military Bases (Contamination)

Norman Baker: To ask the Secretary of State for Defence pursuant to his answer of 10 March, *Official Report*, columns 1490–91W, on military bases (contamination),

(1) if he will place in the Library a list of the land quality assessments prepared across the defence estate since 1995; [161905]

(2) for what regional areas within the defence estate this information is gathered; and whether the data is collected by the Defence Estates Agency. [161981]

Mr. Caplin: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Ministerial Speeches

Keith Vaz: To ask the Secretary of State for Defence how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156156]

Mr. Caplin: Between 9 June 2003 and 1 February 2004, my right hon. Friend the Secretary of State for Defence made 11 speeches. This figure does not include speeches in the House nor addresses to the internal Ministry of Defence audience. Copies of three of these speeches are currently available on the departmental website, at: www.news.mod.uk/news/press/news_speeches.asp. The page is currently in the process of being updated, and all 11 will be available there shortly.

Defence Contracts (Wales)

Mr. Llwyd: To ask the Secretary of State for Defence if he will list Welsh firms that have contracts with the Ministry of Defence; and how much departmental expenditure has been with these firms in each year since 1997. [158897]

Mr. Ingram: The Department's records show that the suppliers listed have received MOD contracts under which some or all of the work involved will have been performed in Wales. All these suppliers have received payments on these contracts exceeding £1 million in the financial year 2002–03:

Aircraft Maintenance Support
Alenia Marconi Systems
BAe Systems
Brama Brown and Root and Marshall
Cogent Defence and Security
Cowlin Construction Enersys
Dara
General Dynamics UK
Golley Slater and Partners
Irvin-GQ
Ilanelec Precision Engineering
North Midland Construction
Qinetiq
Sodexho Defence Services
Thales Air Defence
Thales Optics
The Royal Mint
Watkin Jones and Son
WS Atkins Facilities

The value of the contracts where some or all of the work will have been performed in Wales during the period 1997–98 to 2002–03 is as follows.

	£ million
1997–98	100
1998–99	Not available
1999–2000	125
2000–01	141
2001–02	252
2002–03	227

Defence Staff (Wales)

Mr. Llwyd: To ask the Secretary of State for Defence if he will list the changes in Ministry of Defence staff in Wales for the November 2003 to January 2004 quarter. [158895]

Mr. Caplin: Staffing levels and changes for Ministry of Defence civilian staff in Wales (full-time equivalent figures for industrial and non-industrial, permanent staff, excluding Royal Fleet Auxiliaries and those on career breaks, long term sick leave, secondments etc.) are as follows:

Date	*Civilian staff*
January 2004	3,880
December 2003	3,900
November 2003	3,940
October 2003	3,950

This includes Trading Fund staff.

Full time equivalent is a measure of the size of the workforce that takes account of the fact that some people work part-time.

When rounding civilian staff numbers to the nearest ten, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

Changes are calculated from unrounded data, and then rounded to the nearest 10.

Naval Personnel (Asbestos)

Mr. Swire: To ask the Secretary of State for Defence if his Department will review the disabled pension paid to ex-Naval servicemen suffering lung problems resulting from asbestos insulation in ships. [147851]

Mr. Caplin: Ex-Naval servicemen suffering as a result of their service from lung problems resulting from asbestos insulation in ships have the same entitlement to disablement pensions as any other ex-Servicemen suffering from injury or illness due to service. We have no plan to change these entitlements retrospectively. The House will be aware that for the future we have recognised the need to review our arrangements to bring them into line with modern good practice as part of the Armed Forces Pensions and Compensation Bill currently before the House.

Officer Numbers

Mr. Breed: To ask the Secretary of State for Defence if he will list the expected retirement dates of all officers above the rank of OF 2 in the *(a)* Army, *(b)* Royal Navy and *(c)* RAF, broken down by rank; and if he will make a statement. [161058]

Mr. Caplin: It is not possible to provide meaningful aggregated information due to the complexity of service conditions relating to retirement. Each of the services has its individual regulations and, indeed, within each service retirement criteria can vary considerably depending on factors such as length of service, rank and professional speciality.

Procurement

Angus Robertson: To ask the Secretary of State for Defence what the total expenditure was on procurement by each of the services in the last year for which figures are available; and how much of the procurement budget for each was spent in Scotland. [159304]

Mr. Ingram: Details of procurement expenditure are not available broken down by service. Up to 1998–99 United Kingdom Defence Statistics, published annually by the Defence Analytical Services Agency in UK Defence Statistics (available in the Library of the House), identified expenditure on equipment for the "Sea", "Land" and "Air" environments together with "other" equipment not specific to an environment. This division does not necessarily match the end destination of the equipment. For example not all aerospace equipment is used solely by the RAF. Since 1998–99 the format for recording expenditure has changed following the introduction of Smart Acquisition and the move from cash to Resource Accounting and Budgeting (RAB). Expenditure on procurement is now subsumed within the Principal Headings of the Defence Budget (Table 1.3 of the 2003 UK Defence Statistics). The Government's most recent expenditure plans for Defence (Cm 5912) published in May 2003 also identify procurement expenditure under the RAB regime. The 2002–03 accounts of the Defence Procurement Agency, HC2, are available in the Library of the House, and provide a summary of its expenditure on equipment procurement against the major Defence capability areas. Detail of equipment expenditure by region has not been included in the UK Defence Statistics since 2001.

Regimental Unit Designations

Mr. Tynan: To ask the Secretary of State for Defence if he will use the opportunity of unit re-organisations consequent to the Defence White Paper better to reflect and recognise the lineage of current regiments, including regiments disbanded under previous re-organisations, in the designation of companies and other units below regiment level. [161221]

Mr. Caplin: Any re-organisation would be based on the need to ensure that the Army is able to respond to the changing strategic environment and meet the operational challenges of the future. This is vital if the armed forces are to be prepared for the broad range of operational tasks that they are likely to be engaged in. However, history and tradition are, of course, also important and are always considered.

Unmanned Aerial Vehicles

Mr. Hoyle: To ask the Secretary of State for Defence (1) what requirement has been established for unmanned aerial vehicles; and what timetable has been set for the requirement; [158512]

(2) what plans there are for unmanned aerial vehicles to operate from aircraft carriers. [158513]

Mr. Ingram: We currently have a requirement to provide for the land environment accurate, timely and high quality imagery to UK commanders. To meet this requirement the Watchkeeper programme is on track to deliver from 2006 an intelligence, surveillance, target acquisition and reconnaissance (ISTAR) system using tactical Unmanned Aerial Vehicles (UAVs). Watchkeeper will subsume the in-service Phoenix UAV capability. In response to an urgent operational requirement arising in Iraq, we have acquired Desert Hawk mini-UAVs from the United States. I am withholding details about their use in accordance with Exemption 1 of the Code of Practice on Access to Government Information for reasons of operational security.

There are currently no plans to procure other operational UAVs. We have established the Joint UAV Experimentation Programme (JUEP) to explore the wider operational utility of UAV systems in the joint battlespace, including an investigation into the utility of UAVs for maritime operations. Under the Future Offensive Air System programme we expect to look at a potential mix of platforms, including Unmanned Combat Aerial Vehicles (UCAVs), to meet our future strike capability from around the end of the next decade.

Wind Farms

Mr. Carmichael: To ask the Secretary of State for Defence how many formal applications for wind power projects were opposed by his Department in each of the last five years. [159734]

Mr. Caplin: The number of formal applications for wind power projects objected to by the MOD is detailed as follows:

	Number of objections
2001	2
2002	3
2003	4

Note:
1. No figures available prior to 2001.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for Defence what estimate he has made of the number of people living in Zimbabwe who are entitled to a British Army pension. [160729]

Mr. Caplin: This information is not held centrally and could be provided only at disproportionate cost.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on elections in Afghanistan. [157466]

Mr. Mike O'Brien: The UK supports the efforts being taken by the UN and the Afghan Transitional Administration to prepare for elections later this year.

The UK has contributed £3 million to these preparations to date, and DFID are considering committing further funds. We encourage the international community to fully support the Afghan Government and the UN in their preparations for the elections. This will be one of the issues covered at the Berlin Conference on Afghanistan on 31 March—1 April, which I will attend.

Bangladesh

Mr. Gerrard: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Bangladesh about the protection of human rights of members of the Ahmadiyya community. [160764]

Mr. Mike O'Brien: I refer my hon. Friend to the answer I gave to the hon. Member for Portsmouth, South (Mr. Hancock) on 10 February 2004, *Official Report*, column 1302W.

Beef

Annabelle Ewing: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 5 March 2004, *Official Report*, column 1188W, on beef, what the monetary value of the contract with the principal supplier is in relation to beef. [161418]

Mr. Rammell: The supplier spends approximately £20,000 per annum on beef bought in relation to its contract with the Foreign and Commonwealth Office.

Burma

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his European counterparts regarding economic sanctions on Burma. [161333]

Mr. Mike O'Brien: The EU Common Position aims to target the military regime and its associates while avoiding measures that hurt, as far as possible, the Burmese people. We have regular discussions with our EU partners on this.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Burmese Government regarding human rights in that country. [161379]

Mr. Mike O'Brien: I regularly raise the Government's concerns on human rights in Burma with the Burmese authorities, most recently when I met the Burmese Ambassador on 23 February. We co-sponsored the UN General Assembly Human Rights Resolution on Burma last December and will play an active role in the forthcoming UN Commission on Human Rights in Geneva. We strongly support the efforts of Sergio Pinheiro the UN Special Rapporteur for Human Rights.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Burmese Government on the prolonged detention under Article 10a of the 1975 State Protection Act of political prisoners who have already served their sentences; [161491]

(2) what representations he has made to the Government of Burma on the *(a)* detention and *(b)* imprisonment of 52 persons after 30 May 2003. [161492]

Mr. Mike O'Brien: We have repeatedly called on the Burmese regime to release fully all political prisoners and to allow them to play an active role in national reconciliation in Burma.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he received on the construction of a new road by the Burma Army south-east from Mawchi. [161494]

Mr. Mike O'Brien: I am aware of a report from Christian Solidarity Worldwide, compiled on the basis of information from Karenni groups, of a road being built by the Burmese army to access a mine south east of Mawchi in Kayah State. Security restrictions prevent staff from our embassy from travelling to this area to verify this information.

Mr. Simon Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Myanmar regarding the *(a)* civil and *(b)* political rights of the Karen people. [161648]

Mr. Mike O'Brien: We are concerned by the issue of ethnic minority rights and the abuses suffered by ethnic groups in Burma including the Karen people. The UK has repeatedly called on the Burmese military regime to enter into genuine and substantive dialogue with all political parties and ethnic groups in Burma leading to national reconciliation.

Butler Committee

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Butler Committee Inquiry will post original submissions made to the inquiry on its website; and whether he has placed any restrictions on publication of information provided to the committee. [161160]

Mr. Rammell: The Butler Committee's news release of 12 February states that the review will be carried out in private. Given the nature of much of the material the Committee will receive, normal national security rules will apply.

Cyprus

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of the possible reunification of Cyprus for British interests on the island; and if he will make a statement. [161283]

Mr. Rammell: The UK has a very strong, indirect interest in a successful Cyprus settlement, which has informed our support for the UN Secretary-General's good offices mission.

A possible Cyprus settlement will have little impact on the day to day operations of the Sovereign Base Areas (SBAs).

The UK has made an offer to the UN Secretary-General to cede part of the SBAs to the new United Cyprus Republic in order to facilitate a settlement. The

land offer will only come in to effect if there is a settlement and the island unites under the terms of the UN Secretary-General's proposals. The operational effectiveness of the SBAs will not be affected.

EU Constitution

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the United Kingdom red lines in respect of the EU Constitutional Treaty; whether the draft Treaty meets these conditions; and if he will make a statement on progress that has been made in negotiating on each of these issues. [161211]

Mr. Rammell: I refer my hon. Friend to Cm. 5934, the Government's White Paper on its approach to the IGC, which sets out the UK's position on the draft Constitutional Treaty.

As my right hon. Friend the Prime Minister told the House in December, with regard to the IGC,

"nothing is agreed until everything is agreed".—[Official Report, 15 December 2003; Vol. 415. c. 1320.]

There has been no formal agreement on any single point of the draft Treaty. It is for the Irish Presidency to build on the progress made under the Italians.

The Irish Presidency are currently consulting all member states on the prospects for resuming negotiations on the Constitutional Treaty for the EU. They will report to the European Council on 25–26 March with their conclusions.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's position is with regard to the new draft proposals of an EU constitution presented by the Irish Presidency. [161371]

Mr. Rammell: The Irish Presidency has not presented any draft proposals on the EU Constitutional Treaty. The Irish Presidency are currently consulting all member states on the prospects for resuming negotiations on the Constitutional Treaty for the EU. They will report to the European Council on 25–26 March with their conclusions.

Gender Equality

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to ratify and implement the UN Convention on the Elimination of All Forms of Discrimination Against Women Optional Protocol. [160903]

Mr. Rammell: The Government are currently reviewing the United Kingdom's position in relation to a number of international human rights instruments. This review includes the Optional Protocol to the UN Convention on the Elimination of All Forms of Discrimination Against Women which allows the right of individual petition. We will announce the outcomes of the review to Parliament as soon as is reasonably possible.

Haiti

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the role played by small arms provided by other states during recent violence in Haiti. [161212]

Mr. Rammell: The proliferation of small arms is of particular concern in Haiti. However, it is difficult to assess the extent of the problem of proliferation and the source of the weapons as the quality of record keeping and standards of import controls in Haiti is very poor. Furthermore with no British embassy in Port-au-Prince our assessments are limited.

Regionally, the UK is providing relevant support to the CARICOM Task Force on Crime and Security, of which Haiti is a member. Last year we commissioned a report on the problem, which highlighted a series of recommendations to help address the issue. This report was presented to the CARICOM in February 2004.

Iraq

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people have been detained by coalition forces in Iraq since major hostilities ceased; how many are in custody; and how many of these are non-Iraqis, broken down by nationality. [154278]

Mr. Ingram: I have been asked to reply.

We do not hold data on the number of people detained by coalition forces as a whole. As at 8 March 2004, 83 individuals are being held by UK forces at the Divisional Temporary Detention Facility in Multinational Division (SE) in Iraq. Of these, three are non-Iraqi—one Sudanese, one Saudi Arabian and one Egyptian.

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps *(a)* he is taking and *(b)* he plans to take to ensure that British companies involve Iraqi people in the management of and employment in their operations in Iraq. [159000]

Mr. Mike O'Brien: It is important that UK companies play their part in developing Iraq, through the creation of joint business ventures, transfer of skills and technology and working with Iraqi partners in providing jobs and prosperity for the Iraqi people. UK Trade and Investment (UKTI) has been working with a number of stakeholders such as the Coalition Provisional Authority, Iraqi ministries and both the Iraqi and UK private sector to help facilitate contacts. UKTI has also arranged a number of events in London, and in neighbouring countries, aimed at explaining the modalities of doing business in Iraq and bidding for reconstruction contracts. The British Reconstruction Office in Baghdad helps UK firms to identify potential Iraqi partners.

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs what guarantees he offers to British companies wanting to assist in the reconstruction of Iraq regarding the safety of their *(a)* employees and *(b)* assets. [159001]

Mr. Mike O'Brien: We do not offer guarantees to British companies regarding the safety of employees and company assets while working in Iraq. British companies considering sending staff to Iraq are advised to consult the current travel advice, published on the Foreign and Commonwealth Office website, www.fco.gov.uk, which advises against visits to Iraq unless there is a strong commercial or professional reason to visit. Companies

with planned involvement in reconstruction projects are also advised to contact the Iraq Unit in UK Trade and Investment for further information.

We do provide general advice and information on a range of issues to British companies wanting to assist in the reconstruction process in Iraq but it is for the companies themselves to assess the risks of and take the necessary measures to ensure the safety of their employees and assets.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to work with the other occupying powers in Iraq to ensure that *(a)* those Iraqi workers who were dismissed for trade union activities under Saddam Hussein are reinstated and *(b)* the International Labour Organisation is invited to assist the framing of Iraq's new labour and employment laws. [159645]

Mr. Rammell *[holding answer of 10 March 2004]:* Judging the claims for reinstatement of Iraqi workers dismissed under the former regime is a matter for Iraqis. We attach great importance to the establishment of free trade unions to prevent similar abouses in the future. The Government have called on the International Labour Organisation (ILO) and the International Confederation of Free Trade Unions (ICFTU) to assist in the creation of democratic trades unions in Iraq. To this end, the ICFTU organised a fact-finding mission to Iraq in February, with support from British officials. We also used our influence in favour of the Transitional Administrative Law, signed by the Iraqi Governing Council on 8 March 2004, including guarantees of 'free peaceable assembly and the right to join associations freely, as well as the right to form and join unions and political parties freely, in accordance with the law'.

The Coalition Provisional Authority, in conjunction with other organisations, is working on a revised draft of the labour law. They are utilising the skills of not only the ILO, but also the Iraqi Ministry of Labour and Social Affairs and the US Department of Labor, as well as several other professionals.

Maldives

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of respect for human rights in the Maldives. [160668]

Mr. Mike O'Brien: In December 2003, the Maldives established a Human Rights Commission to protect, promote and preserve human rights in the Maldives. Officials from our high commission in Colombo called on the chair of the commission in January, and expressed to him our concern about reports of human rights abuses in the Maldives. We will continue to monitor the situation closely, and are considering with our European partners what further action we might take.

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on relations between the EU and the Maldives. [160670]

Mr. Mike O'Brien: EU Heads of Mission in Colombo maintain a close interest in the Maldives and many visit regularly. Interest has been heightened in the light of recent events and the reports of human rights abuses.

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the current *(a)* bilateral treaties, *(b)* agreements and *(c)* protocols between the British Government and the government of the Maldives. [160671]

Mr. Mike O'Brien: The UK has three such agreements with the Maldives: a 1953 Agreement on the Protection of the Islands; a 1976 Exchange of Notes terminating a 1965 agreement relating to military access; and a 1996 Agreement concerning air services.

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs what the current Government advice is to British citizens in respect of *(a)* bilateral trade with and *(b)* tourism in the Maldives. [160672]

Mr. Mike O'Brien: Advice on trade issues is usually tailored to meet particular needs of individual British companies considering business in the Maldives. Travel advice for the Maldives, produced by the Foreign and Commonwealth Office (FCO), is available on the FCO website: www.fco.gov.uk. Tourists are advised that while most visits are trouble free, they should take care of their valuables and other personnel possessions. We also draw attention to the fact that possession of drugs carries severe penalties and that public observance of a religion other than Islam is prohibited.

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens visited the Maldives in 2003 *(a)* on official business, *(b)* on commercial missions and *(c)* on holiday. [160673]

Mr. Mike O'Brien: The total number of foreign visitors to the Maldives in 2003 was 563,593, according to Maldivian Government Statistics. We do not have figures either for British visitors, or for the purposes of visit.

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on behalf of prisoners at Maafushi Island Prison in the Maldives. [160675]

Mr. Mike O'Brien: Since their formation in exile in November 2003, the Maldivian Democratic Party has raised, with Foreign and Commonwealth Office officials, human rights issues, including the condition and treatment of prisoners in Maafushi Island Prison.

Project Funding

Mr. Colman: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each of the last 10 years; [160975]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) the Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible, in each of the last 10 years. [160976]

Mr. Rammell: The Foreign and Commonwealth Office's (FCO) major capital investment projects cover Information and Communications Technology (ICT) and our Estate. The value of these, and details of major new contracts let on the estate are captured in the FCO annual Departmental Reports. Copies of which are available in the Library of the House. The values are summarised in the following table.

Long term capital projects

	Nominal costs	*Estimated provision*
2003–04	ICT	36,240
2003–04	Estate Building Projects	35,900
	Total	72,140
2002–03	ICT	49,447
2002–03	Estate Building Projects	50,500
	Total	99,947
2001–02	ICT	42,400
2001–02	Estate Building Projects	54,600
	Total	97,000
2000–01	ICT	32,730
2000–01	Estate Building Projects	72,886
	Total	105,616
1999–2000	ICT	31,799
1999–2000	Estate Building Projects	65,494
	Total	97,293
1998–99	ICT	29,601
1998–99	Estate Building Projects	46,080
	Total	75,681
1997–98	ICT	24,285
1997–98	Estate Building Projects	51,045
	Total	75,330
1996–97	ICT	10,947
1996–97	Estate Building Projects	57,761
	Total	68,708
1995–96	ICT	18,337
1995–96	Estate Building Projects	94,436
	Total	112,773
1994–95	ICT	[1]—
1994–95	Estate Building Projects	[1]—
	Total	[1]—

[1] Data not available

Appendix—Departmental Report

We have had only two PFI projects in the last 10 years:

(i) The construction of a new Embassy in Berlin in 2000, with a capital value of £17.1 million,

(ii) The FCO Telecommunications Network in 2001, with a capital value of £73.9 million.

Data by region and numbers of projects can be provided only at disproportionate costs.

Serbia and Montenegro

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports of claims by the UN War Crimes Tribunal that indicted Bosnian Serbs may be resident in Belgrade; what steps he has taken to establish the veracity of these claims; and what representations the UK has made to the Government of Serbia and Montenegro on this issue. [161209]

Mr. Rammell: We cannot confirm that Karadzic and Mladic are in Belgrade. It is essential that all countries in the region co-operate with the International Criminal Tribunal for the former Yugoslavia, and that Serbia and Montenegro do more to help bring indictees to justice.

The UK, with the international community, continues to press for the transfer of Karadzic, Mladic (and Gotovina) to the Hague. They should surrender or the countries of the region should find and arrest them.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Sudan on the effects of its military action on civilians in Darfur. [160927]

Mr. Mullin: We are in almost daily contact with the Government of Sudan and the various Darfur groups about the situation in Darfur and the effects of military action on civilians there. We have raised our concerns at the highest levels in Khartoum, and both our ambassador and the UK special representative for Sudan have recently discussed the matter with the First Vice-President. We are urging the government to negotiate a cease-fire, facilitate humanitarian access to all those in need, and resume talks to find a peaceful solution to Darfur's problems.

Venezuela

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what communications his Department has had with the Government of Venezuela following the recent violence in Caracas. [161017]

Mr. Rammell: Following the demonstrations in Caracas on 27 February 2004, the British Ambassador has called on the President of the Supreme Court, Dr. Ivan Rincon, the Minister of Energy and Mines, Mr. Rafael Ramirez and the Fiscal General, Dr. Isaias Rodriguez. The United Kingdom is fully aligned with the EU statement on Venezuela issued on 4 March 2004, calling on all parties involved in the Venezuelan political process to work towards a democratic and peaceful solution to the crisis.

Western Sahara

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make an assessment of fishing in the Western Sahara; and what discussions he has had with the Moroccan authorities on the threat of over-fishing. [160124]

Mr. Rammell: The EU has on several occasions held discussions with Morocco on fishing since the expiry of the EU Morocco Fisheries Agreement on 30 November 1999.

We have had no recent bilateral discussions with Morocco regarding fishing.

WORK AND PENSIONS

Sure Start Maternity Grant

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many mothers in Crosby have taken up the Sure Start maternity grant. [160523]

Mr. Pond: Sure Start Maternity Grants (SSMGs) replaced Social Fund Maternity Payments from March 2000 at the rate of £200 per child, this was increased to £300 in September 2000 and to £500 for children born on or after 16 June 2002. Sure Start Maternity Grants are single payments that are paid to either the mother of a child or their partner.

The information is not available in the format requested; the available information is in the table.

Applications and awards for Sure Start Maternity Grants for Knowsley and Sefton Jobcentre Plus District.

	SSMG applications	*SSMG awards*
2000–01	2,076	1,867
2001–02	2,270	2,002
2002–03	2,714	2,254
2003–04[1]	2,634	2,129

[1] Data for 2003–04 is for April 2003 to February 2004 only. *Note:* Crosby Parliamentary Constituency is part of the Knowsley and Sefton Jobcentre Plus District which was formed by merging Knowsley Social Fund District and Sefton Social Fund District in October 2003. For comparison purposes, data before the merger is given for Knowsley Social Fund District and Sefton Social Fund District
combined.
Source:
DWP Social Fund Policy, Budget and Management Information System.

Child Support Agency

Chris Grayling: To ask the Secretary of State for Work and Pensions if he will make a statement on the handling of the case of Mr. Graeme Lester of West Ewell by the Child Support Agency. [160240]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. As individual cases are confidential he will write to the hon. Member privately about Mr. Lester's case.

Council Tax Benefit

Vera Baird: To ask the Secretary of State for Work and Pensions (1) what the take-up rate of council tax benefit was in the borough of Redcar and Cleveland in *(a)* 2002 and *(b)* 2003; [161692]

(2) what the average rate is of council tax benefit take-up. [161693]

Mr. Pond: The information requested is not available. National estimates of take-up of council tax benefit are presented in the DWP report series 'Income Related Benefits Estimates of Take-Up'. Latest estimates relate to financial year 2001–02 and copies of the published report are held in the Library.

Estimates of council tax benefit take-up cover private households in Great Britain; sub-national estimates cannot be reliably produced.

Employers' Liability Insurance

Mr. Edward Davey: To ask the Secretary of State for Work and Pensions what steps are being taken to deal with employers who operate without compulsory employers' liability insurance. [160870]

Mr. Browne: Enforcement is undertaken on a day to day basis by Health and Safety Executive (HSE) inspectors. Recent HSE research indicates a high level of compliance, over 99 per cent.

Nevertheless, the Government's recent report of the review of Employers' Liability Compulsory Insurance (ELCI) sets out a range of actions to improve enforcement. These include commitments to monitor the take-up and ensure ELCI compliance from bodies that contract with the public sector, following publication of new guidance.

A copy of the report is available in the Library.

Mr. Edward Davey: To ask the Secretary of State for Work and Pensions what steps he is taking to ensure enforcement of compulsory employers' liability insurance at local level; and if he will make a statement. [160871]

Mr. Browne: Enforcement of employers' liability compulsory insurance at local level is undertaken by the Health and Safety Executive. Recent research indicates a high level of compliance, over 99 per cent.

Employment, Social Policy, Health and Consumer Affairs Council

Mr. Hood: To ask the Secretary of State for Work and Pensions what the outcome of the Employment, Social Policy, Health and Consumer Affairs Council held on 4 March was; what the Government's stance on the issues discussed was, including its voting record; and if he will make a statement. [160101]

Mr. Pond: I represented the UK at this Council, accompanied by my hon. friend, the Parliamentary Under Secretary for Employment Relations, Competition and Consumers (Mr. Sutcliffe).

The main business was agreement of a package of ESPHCA Council contributions to the forthcoming Spring European Council meeting. There was a public debate on the 'key issues' paper summarising priorities in employment policy, social protection and inclusion.

The UK welcomed the key issues paper, particularly the single set of key messages that covered both the employment and social aspects of the Lisbon agenda. We highlighted the need to focus on creating more and better jobs in line with the employment targets set out at Lisbon in 2000 and refined at Stockholm in 2001 and Barcelona in 2002.

All member states welcomed the forthcoming tripartite social summit as a useful vehicle for social partners' contribution to achieving the Lisbon goals.

The Council also noted without comment: the work programmes for the Social Protection Committee and the Employment Committee; a series of reports on Presidency events; and a report by the World Commission on the Social Dimension of Globalisation.

The Council discussed the Commission's review of the working time directive informally over lunch.

There were no votes taken at this council.

Ethnic Minorities Policies

Keith Vaz: To ask the Secretary of State for Work and Pensions what *(a)* advice and *(b)* support he receives in ensuring that policies he implements in regard to ethnic minorities reach their target. [156125]

Mr. Browne: The policy initiatives we implement are generally subject to performance monitoring processes. The data that we gather allows month by month monitoring of performance against targets if these have been set. We also monitor our own services to ensure that ethnic minority customers receive equal treatment and benefit equally from our provision.

The Department for Work and Pensions leads on the work of the Ethnic Minority Employment Task Force, created in response to the recommendations made by the Prime Minister's Strategy Unit. The Task Force comprises Ministers from Departments responsible for implementing the recommendations—DWP, DTI, DfES, Home Office and ODPM—as well as representatives from external stakeholders such as the Commission for Racial Equality (CRE), the Confederation of British Industry and the Trades Union Congress. The Task Force is an important body, offering advice and helping to steer our policies.

We realise that partnership—at national, regional and local levels—is fundamental to the success of our diversity policies. As such, we are in a constant state of engagement with our partners, stakeholders and relevant pressure groups, seeking advice on current and future initiatives. As part of this we are in the process of setting up a stakeholder group, the chair of which will become a member of the Task Force itself.

New Deal

Paul Holmes: To ask the Secretary of State for Work and Pensions (1) pursuant to the answer to the hon. Member for Tatton (Mr. Osborne) on 10 February 2004, *Official Report*, column 1342W, on the New Deal for Young People, what the projected cost is for the unit costing system to be operational in April; and if he will make a statement; [156657]

(2) pursuant to the answer to the hon. Member for Tatton (Mr. Osborne) on 10 February 2004, *Official Report*, column 1342W, on the New Deal for Young People, what the original projected date of completion was for the Resource Management System; what the current projected completion date is for the system; what the original projected cost of the system was; what the current projected cost of the system is; what the reasons are for the delays in introducing the system on time; and if he will make a statement. [156658]

Mr. Browne: Our initial aim was for the Department's Resource Management System (RMS) to become operational from April 2003, with costs estimated at £144 million[1]. However, initial negotiations with suppliers resulted in proposals that did not meet the Department's requirements, both in terms of value for money and management of the system.

Competition for the contract for Resource Management Systems operations work is in progress under EU rules. We have advertised for the provision of operational services through the *Official Journal* of the European Union and a small number of potential bidders have qualified. A statement of requirements is being drawn up with the aim of issuing an Invitation to Tender in April 2004, and awarding a contract in August 2004.

Costs and completion dates will be determined during the tendering process but planning assumptions are that roll out of the new system will commence from September 2005 for 12 months, with likely costs estimated at £151 million[1].

Information on the projected cost of the unit costing system, scheduled to be operational in April, is not separately available.

[1] Figures are rounded to nearest million.

Unemployment (Jarrow)

Mr. Hepburn: To ask the Secretary of State for Work and Pensions (1) what further measures are being taken to reduce youth unemployment in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear and *(d)* the United Kingdom; [159507]

(2) what action the Government have taken to help reduce unemployment in the Jarrow constituency since 1997. [159509]

Mr. Browne: Through a combination of economic stability and radical labour market reforms, more than 1.7 million more people are in work now than in 1997 and unemployment is at its lowest level since 1975. Despite a period of global economic insecurity the UK has prospered so that both the UK employment rate and ILO unemployment rate are the best of the major industrialised (G7) countries.

Through Jobcentre Plus, we are providing everyone of working age—the unemployed, lone parents, sick and disabled people—with advice, guidance and a full range of support to help them move into work.

Jarrow has shared in this success. As well as the reductions in claimant unemployment in Jarrow since 1997, long term youth unemployment has been cut by 85 per cent. The local Jobcentre has played an important part in these achievements, helping clients move into work and working closely with employers. By the end of December 2003, the New Deal, had helped over 479,500 young people move from welfare into work in the UK, including over 7,500 in the South Tyneside and Gateshead District and over 1,200 in Jarrow.

From April 2004 New Deal for Partners will be re-introduced throughout the South Tyneside and Gateshead district running alongside Work Focused Interviews for Partners as part of the Government's initiative to encourage partners of benefit claimants to become economically active and thereby reduce the number of households where currently no-one works.

We have now introduced Progress 2 Work/LinkUp, a support programme to help the most disadvantaged take up training provision and ultimately move into

employment. These client groups include people with drugs and alcohol problems, homeless people and ex-offenders.

Winter Fuel Allowance

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many senior citizens in Crosby have benefited from the winter fuel allowance since 1997. [160583]

Malcolm Wicks: The requested information is only available from 1999–2000.This is in the following table. Details for this winter are not yet available because applications can be made up to 30 March.

	Payments made
1999–2000	14,965
2000–01	16,615
2001–02	16,835
2002–03	17,020

Notes:

1. Figures are rounded to the nearest five.
2. Figures taken from the Matching Intelligence Data Analysis Service Winter Fuel Payments exercise.

Source:

IAD Information Centre, 100 per cent. samples.

John Thurso: To ask the Secretary of State for Work and Pensions how many eligible Scottish pensioners had applied for and had not received winter fuel payments by *(a)* 1 December 2003, *(b)* 1 January and *(c)* 1 February. [159852]

Malcolm Wicks: It is not possible to say how many pensioners living in Scotland are eligible for a winter fuel payment this winter. The great majority of pensioners who were eligible were paid before Christmas without having to apply. It is not possible at present to say how many payments have been made to pensioners in Scotland but the information will be placed in the Library later in the year.

Mr. Goodman: To ask the Secretary of State for Work and Pensions what criteria are used to decide claims by *(a)* refugees and *(b)* asylum seekers for winter fuel payment. [161820]

Malcolm Wicks: The Immigration and Asylum Act 1999 excludes persons subject to immigration control (mainly asylum seekers) from income-related and other non-contributory social security benefits, from 3 April 2000 the Home Office is responsible for supporting and accommodating asylum seekers awaiting a determination of their case. Therefore, asylum seekers would not be eligible for a Social Fund Winter Fuel Payment. However, those asylum seekers in receipt of income-related benefits prior to 3 April 2000 continue to be entitled to social security benefits, including a Social Fund Winter Fuel Payment provided they have attained the age of 60 in the qualifying week.

Asylum seekers granted refugee status are no longer subject to immigration control and are entitled to social security benefits on the same basis as UK nationals. A person granted refugee status would therefore qualify for a winter fuel payment in the same way as other UK residents aged 60 or over.

CABINET OFFICE

Regulatory Impact Assessments

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office if he will make a statement on the monitoring of the *(a)* quality and *(b)* thoroughness of regulatory impact assessments. [160135]

Mr. Alexander: Cabinet Office Regulatory Impact Unit (CORIU) continues to work with departments to ensure that Regulatory Impact Assessments (RIAs) are consistent with the most recent guidance. From April this year departments will have to provide information on better regulation, including their compliance with the RIA process and their use of RIAs, as part of their annual reporting requirements,

The National Audit Office (NAO) has undertaken an ongoing role to evaluate the quality and thoroughness of a sample of RIAs each year. The recently published NAO Compendium Report on the Evaluation of RIAs for 2003–04 noted that the CORIU has achieved significant progress in increasing the quality of RIAs.

Telephones

Mr. Heald: To ask the Minister for the Cabinet Office what estimate he has made of the annual telephone costs of *(a)* his Department, *(b)* their agencies and *(c)* the Government Information and Communication Service in (i) 1996–97 and (ii) the latest period for which figures are available. [159336]

Mr. Alexander: Annual telephone costs for the year ended 31 March 2003 for the Cabinet Office were £3,881,192.

Government Information and Communication Service costs were £19,168 for 2002–03.

Government Car and Despatch Agency costs were £76,100 for 2002–03.

Information for 1996–97 is not readily available andcould only be obtained at disproportionate costs.

DEPUTY PRIME MINISTER

Correspondence

Sir Michael Spicer: To ask the Deputy Prime Minister when the hon. Member for West Worcestershire will receive a response to his letter of 4 February to the Minister of State. [161659]

Phil Hope: A reply was sent to the hon. Member on 9 March 2004.

Departmental Staff

Mr. Prosser: To ask the Deputy Prime Minister how many sick days were taken on average in 2003 by staff in *(a)* his Department's headquarters and *(b)* each agency for which his Department is responsible. [161478]

Yvette Cooper: The Office of the Deputy Prime Minister was established following the machinery of Government changes in May 2002.

The most recent "Analysis of Sickness Absence in the Civil Service" was published by the Cabinet Office on 1 December 2003. This covered the calendar year 2002 for the Cabinet Office, the predecessor Department of Transport, Local Government and the Regions and its executive agencies.

Figures for 2003 will be announced in due course.

Housing

Mrs. Curtis-Thomas: To ask the Deputy Prime Minister if he will make a statement on how the change in the level of council funding for housing has affected the residents of Crosby since 1997. [160567]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance the Office of the Deputy Prime Minister introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Sefton's allocations in the period 1997 to 2003–04 have risen by over 200 per cent.. In addition to this welcome increase there is support through the Community Housing Task Force and Government Office for the North West to help the Local Authority and its tenants to choose the best strategy for long term improvement.

Mr. Bercow: To ask the Deputy Prime Minister if he will make a statement on how the *(a)* Starter Homes Initiative and *(b)* Abandoned Homes Initiative have affected the residents of Buckingham. [161321]

Keith Hill: Since September 2001, the Starter Home Initiative has been helping key workers into home ownership in areas where the high cost of housing is undermining the recruitment and retention of skilled staff in our key public services. By the end of February 2004, 86 key workers employed in the Aylesbury Vale District Council area, in which Buckingham is located, had bought homes under the Starter Home Initiative.

The Office of the Deputy Prime Minister is not aware of an "Abandoned Homes Initiative". The Market Renewal Pathfinders programme tackles low demand and abandonment in a number of areas where this is a significant problem. This programme is not providing funding in Buckingham.

Mr. Hoyle: To ask the Deputy Prime Minister what assistance his Department provides for people wishing to get onto the property ladder in Chorley. [161399]

Keith Hill: The Housing Corporation's Approved Development Programme provides funding for schemes, such as shared ownership (part buy/part rent), to assist people into home ownership in line with regional strategies and investment priorities.

In the current financial year (2003–04) £0.9 million of Housing Corporation funding has been allocated to provide 30 shared ownership dwellings in Chorley, and to date 107 social housing tenants in Chorley have purchased their rented home under the Right to Buy scheme.

Local Authorities (Members' Allowances)

Mr. Swire: To ask the Deputy Prime Minister what correspondence he has received concerning the definition of a member in the Local Authorities (Members' Allowances) (England) Regulations 2003; and what steps he is taking to amend the definition. [161515]

Mr. Raynsford: The Office of the Deputy Prime Minister has received a number of letters from Parish Councils in recent weeks, many sent via their local Member of Parliament, in respect of the definition of a member in the Local Authorities (Members' Allowances) (England) Regulations.

This definition excludes un-elected parish councillors who are not therefore entitled to receive allowances for travel and subsistence. The Office of the Deputy Prime Minister will be amending the regulations governing councillors' allowances shortly so that all parish councillors are eligible to receive such allowances.

Local Authority Housing

Mr. Drew: To ask the Deputy Prime Minister what representations he has received from *(a)* local authorities and *(b)* others in support of the fourth option of keeping council housing stock in the hands of local government. [161011]

Keith Hill: In the last twelve months, the Office of the Deputy Prime Minister has received eleven representations regarding support or suggestions for a fourth option. Two of these are from a local authority, while a further two were received from a tenant protest group expressing their wish for councils to keep control of their housing stock. The remainder were from concerned tenants and their representatives, including four MPs.

The Office of the Deputy Prime Minister has also received six parliamentary questions, including this one, on whether a fourth option would be developed and funded by the Government.

Local Government Finance

Mr. Pickles: To ask the Deputy Prime Minister what the level of council tax receipts in England collected in each year since 1997 was; and what the forecast figures are for the coming year. [161500]

Mr. Raynsford: The amounts of council tax collected by English local authorities during each financial year since 1996–97, irrespective of the year to which they related, are tabled as follows. They exclude amounts paid for through council tax benefit.

Amounts of council tax collected, England

	£ million
1996–97	8,799
1997–98	9,570
1998–99	10,579
1999–2000	11,457
2000–01	12,242
2001–02	13,208
2002–03	14,510

Figures for the amounts of council tax collected are not requested from local authorities until after the end of the relevant financial year. The amounts received during 2003–04 and 2004–05 will depend upon the council tax levels set for each year, changes in the tax base, the collection rates achieved, amounts of council tax benefit expenditure incurred, and amounts collected in respect of earlier years.

Mr. Pickles: To ask the Deputy Prime Minister what the revenue expenditure of each local authority in England has been since 1993–94. [161502]

Mr. Raynsford: A table with the relevant information has been made available in the Library of the House.

Project Funding

Mr. Colman: To ask the Deputy Prime Minister how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years. [160971]

Mr. Raynsford: Since the creation of the Office of the Deputy Prime Minister in May 2002 there has been no new Public Private Partnerships (PPP) projects signed. However, seven Private Finance Initiative (PFI) projects have been signed and these are broken down as follows:

In the North West region, two projects were launched in 2002 and one in 2003;

In the North East region, one project was launched in 2003;

In London and the South East region, one project was launched in 2002 and two in 2003.

The information on solely state-financed projects is not held centrally and could only be provided at disproportionate cost.

Mr. Colman: To ask the Deputy Prime Minister how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible, in each of the last 10 years, broken down by region. [160972]

Mr. Raynsford: Since the establishment of the Office of the Deputy Prime Minister in May 2002 a total of seven Private Finance Initiative projects have been signed with a total capital value of £233.18 million, the capital value of these projects, which the Government are supporting is as follows:

In the North West region, the capital value of two projects signed in 2002 is £16.56 million and the one signed in 2003 is £61.55 million;

In the North East region, the capital value of one project signed in 2003 is £29.77 million;

In London and the South East region, the capital value of one project signed in 2002 is £9.3 million and two projects signed in 2003 is £116 million.

The information on solely state-financed projects is not held centrally and could be provided only at disproportionate cost.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister what discussions he has had with the Electoral Commission concerning the method of voting to be used in the referendums for elected regional assemblies; and what advice he has received from the Commission on this issue. [159823]

Mr. Raynsford: The Office of the Deputy Prime Minister published consultation papers and draft Orders on 18 December 2003 on the detailed procedures by which the all-postal referendums would be governed. The Electoral Commission has published its response to that consultation, which is available from www.electoralcommission.org.uk.

The Office of the Deputy Prime Minister is in the process of consulting the Electoral Commission, as required by the Regional Assemblies (Preparations) Act 2003, before the Orders governing the referendums are laid in Parliament.

Regional Government

Mr. Keith Bradley: To ask the Deputy Prime Minister (1) what areas of policy will be *(a)* devolved from central Government to regional government and *(b)* transferred from local authorities to regional government; [158906]

(2) when he will publish the details of the policy areas that will be transferred to regional government. [158907]

Mr. Raynsford: The vast majority of elected regional assembly powers will be devolved from central Government. These were set out in the Regional Governance White Paper, "Your Region, Your Choice Revitalising the English Regions". Assemblies will take over responsibility for areas of economic development, housing, planning, transport, culture, the environment, public health and sustainable development.

As my hon. Friend the Member for Corby (Phil Hope) has made clear previously, responsibility for fire will pass to elected assemblies as announced in the Fire White Paper, "Our Fire and Rescue Service".

Regional Housing Boards

Mr. Hancock: To ask the Deputy Prime Minister what guidance he has issued to ensure that Regional Housing Boards and supporting people teams work in partnership. [158782]

Yvette Cooper: To date the Office of the Deputy Prime Minister has not issued any guidance in respect of Supporting People to the Regional Housing Boards and will be considering the role of Regional Bodies in Supporting People as part of the work following on from the Independent Review.

Supporting People Initiative

Mr. Kidney: To ask the Deputy Prime Minister what contingency funding he has retained centrally for Supporting People in 2004–05; and what criteria he will apply in deciding how to allocate such funding. [159933]

Yvette Cooper: One of the main objectives of the Supporting People programme has been to devolve the responsibility for commissioning support services to local Supporting People teams. All Supporting People programme grant is allocated to the 149 administering authorities.

Mr. Hancock: To ask the Deputy Prime Minister if he will make it his policy to increase the funding to those Supporting People teams where the late announcement of pipeline funding has led to a delay in the utilisation of properties purchased through the Housing Corporation. [156885]

Yvette Cooper: The Government commissioned the Independent Review of Supporting People after the resources required by local authorities increased substantially during the course of last year. Resources for 2004–05 were not allocated until the Independent Review was complete. The Independent Review found that £1.8 billion is too much to pay for legacy provision.

Local authorities have seen a substantial increase in their resources for services covered by Supporting People in the last few years. It is a matter for Supporting People teams to manage their budgets and improve value for money.

The Office of the Deputy Prime Minister will not be increasing the grant awards to authorities affected by pipeline funding in 2004–05. Equally where there has been the inevitable slippage in pipeline schemes the Office of the Deputy Prime Minister will not be reducing grants to reflect this change in circumstance.

Mr. Drew: To ask the Deputy Prime Minister if he will make a statement on the implications for the Supporting People programme in Gloucestershire of a stand-still budget. [159387]

Yvette Cooper: The recent Independent Review which was carried out on the Supporting People Programme concluded that £1.8 billion was too much to pay for legacy provision. Work is being undertaken, following the recommendations of the Review, to inform the Spending Review 2004 funding decisions.

Future years funding for the programme will be announced once the outcome of the Spending Review 2004 is known.

Administering authorities have been asked to look closely at their costs and services to ensure that better value for money is achieved.

Mr. Drew: To ask the Deputy Prime Minister what the current budget for Supporting People in Gloucestershire is; and what the projected budget is for each of the next three years. [159388]

Yvette Cooper: The Supporting People budget for Gloucestershire in 2003–04 is £28.1 million and in 2004–05 will be £27.8 million. Future years' funding for the programme will be decided in the Spending Review 2004.

EDUCATION

Free School Meals

Ms Walley: To ask the Secretary of State for Education and Skills if he will make families whose income is below the £13,230 threshold and who receive working tax credit eligible for free school meals for their children. [160787]

Mr. Stephen Twigg: The Department for Education and Skills has no plans to extend the eligibility criteria for free school meals.

Alcohol Education

Mr. Todd: To ask the Secretary of State for Education and Skills what steps he is taking to ensure that children are given information in school on the risks of alcohol. [161655]

Mr. Stephen Twigg: There is a statutory requirement for drug education, including alcohol education in the National Curriculum Science Order. This represents the statutory minimum. In addition, schools are expected to use the non-statutory frameworks for Personal Social Health Education (PSHE) and Citizenship at key stages 1 and 2, PSHE at key stages 3 and 4 and the Citizenship programme of study at key stages 3 and 4 as the context for developing drug and alcohol education. We believe drug education in schools has an essential role to play in enabling pupils to develop their knowledge, skills, attitudes and understanding about drugs.

Since 1997, we have made over £70 million available to local education authorities to support drug alcohol and tobacco education and prevention in schools. For the last three years, we have supported the development of training packages to support professionals deliver effective drug and alcohol education. From April, we will be supporting up to 3,000 teachers in the PSHE certificate which sets standards in the teaching of drug and alcohol education.

Together with the Home Office and Department of Health, we are supporting a national five-year research programme called "Blueprint" to test the effectiveness of drug education initiatives in schools. It will make a significant contribution to developing a UK evidence base for drug, alcohol and tobacco education.

Mr. Carmichael: To ask the Secretary of State for Education and Skills how much has been spent on programmes explaining the dangers of alcohol misuse in *(a)* primary and *(b)* secondary schools in each year since 1997. [161068]

Mr. Stephen Twigg: The funding that the Department has allocated to local education authorities to support drug education and prevention in all schools in England since 1997 is provided in the following table. This would include education about the effects of alcohol; a statutory requirement at key stages 1–4. We have not directed the proportion of this funding that should be spent on alcohol education or on schools in different sectors.

	£ million
1997–98	5.8
1998–99	6.9
1999–2000	7.4
2000–01	[1]7.4
2001–02	13.1
2002–03	15.2
2003–04	14.3
Total	70.1

[1] Allocated as part of Social Inclusion Grant.

Capital Modernisation Fund

Mr. Bercow: To ask the Secretary of State for Education and Skills how much money was allocated to Buckingham from the Capital Modernisation Fund. [161567]

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much money was allocated to Crosby from the Capital Modernisation Fund. [160448]

Mr. Miliband: The Department for Education and Skills does not hold this information centrally. Capital Modernisation Fund is allocated by projects and not by area.

Class Sizes

Mr. Lidington: To ask the Secretary of State for Education and Skills what the average class size in *(a)* primary schools and *(b)* secondary schools was in each year since 1997. [160476]

Mr. Stephen Twigg: The data requested are shown in the table.

Maintained primary and secondary schools: average class size[1]—England

Position in January each year

	Primary	*Secondary*
1997	27.5	21.7
1998	27.7	21.7
1999	27.5	21.9
2000	27.1	22.0
2001	26.7	22.0
2002	26.3	21.9
2003	26.3	21.9

[1] Classes taught by one teacher

Source:

Annual Schools' Census

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many children in Crosby were taught in classes of more than 30 on the latest date for which figures are available. [160404]

Mr. Stephen Twigg: The data requested are shown in the table.

Maintained primary and secondary schools: Classes of more than 30[1]—Crosby parliamentary constituency January 2003

	Number
Primary schools	
Key Stage 1	
Total number of classes	86
Total number of pupils	2,113
Number of classes with more than 30 pupils	0
Number of pupils in classes of more than 30	0
Key Stage 2	
Total number of classes	109
Total number of pupils	3,032
Number of classes with more than 30 pupils	42
Number of pupils in classes of more than 30	1,371

Maintained primary and secondary schools: Classes of more than 30[1]—Crosby parliamentary constituency January 2003

	Number
Secondary schools	
All secondary classes	
Total number of classes	264
Total number of pupils	5,356
Number of classes with more than 30 pupils	22
Number of pupils in classes of more than 30	699

Annual Schools' Census.

Computers

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Chorley in each of the past seven years. [161558]

Mr. Charles Clarke: My Department does not collect information on school spend on computers. However funding for information and communications technologies (ICT) in schools is allocated to local education authorities through the Standards Fund and began in 1998–99.

Since 1998–99 schools in Lancashire have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

£

	Allocation to Lancashire LEA
1998–99	2,500,000
1999–2000	1,627,867
2000–01	5,576,036
2001–02	6,483,142
2002–03	8,983,493
2003–04	9,169,124

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many pupils per computer there are in schools in Chorley. [161559]

Mr. Charles Clarke: The information requested is not available centrally.

Figures for England, which were derived from a sample of schools, are shown in the table.

Average number of pupils[1] per computer (used solely or mainly for teaching and learning purposes) by type of school—England year end March 2003

	Number of pupils
Maintained primary schools	7.9
Maintained secondary schools	5.4
Maintained special schools	3.0

[1] Full-time equivalent numbers of pupils.

The latest information on ICT in schools was published in Statistical Bulletin "Survey of Information and Communications Technology in Schools 2003", which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Mr. Bercow: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Buckingham have benefited from the Computers Within Reach programme. [161569]

Mr. Charles Clarke: The Computers within Reach (CWR) scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a state pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Buckingham was not one of the pilot areas for the CWR scheme.

Mrs. Dean: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in the Burton constituency for each of the last seven years. [161846]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However Burton is in Staffordshire LEA and since 1998–99 schools in Staffordshire have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

Allocation to Staffordshire LEA

	£
1998–99	2,500,000
1999–2000	3,000,000
2000–01	3,000,000
2001–02	4,383,181
2002–03	6,303,997
2003–04	6,257,291

School Building (Sports)

Mr. Doug Henderson: To ask the Secretary of State for Education and Skills what guidance Partnership for Schools has been given on delivering sports and physical activity resources as part of the Building Schools for the Future programme. [159863]

Mr. Miliband: The Department is currently developing material to assist with the development of the local vision, including how best to deliver sports and physical activity resources, for first wave projects under the Building Schools for the Future programme, which will be shared with Partnership for Schools.

Drinking Water (Schools)

Ms Walley: To ask the Secretary of State for Education and Skills what discussions he has had with the building contractors for the Building Schools for the Future programme on the provision of drinking water in schools; and if he will make a statement. [161356]

Mr. Miliband: No contractors have yet been appointed for the Building Schools for the Future programme but the provision of drinking water will be the subject of design advice to the local contractors.

Ms Walley: To ask the Secretary of State for Education and Skills (1) what assessment his Department has made of the *(a)* behaviour, *(b)* achievement and *(c)* health of pupils in schools with all-day access to drinking water; and if he will make a statement; [161353]

(2) what assessment his Department has made of the uptake of free drinking water in schools when water fountains are placed in *(a)* toilets, *(b)* dining rooms, *(c)* classrooms and *(d)* school corridors; and if he will make a statement. [161358]

Mr. Stephen Twigg: The Department for Education and Skills has made no assessments concerning drinking water.

Education Funding (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much public money has been spent on repairing schools in Crosby in each year since 1997. [160403]

Mr. Miliband: We do not hold information in the form requested. Capital allocations are now largely made by formulae to local authorities and schools, linked to Asset Management Plans. In addition, all schools have, since 2000–01, received Devolved Formula capital to use on their most urgent capital needs. The following table shows capital funding allocated to Sefton local education authority and its schools since 1997–98.

Capital allocations to Sefton LEA

	Allocation (£000)
1997–98	1,630
1998–99	1,802
1999–2000	4,562
2000–01	9,388
2001–02	11,146
2002–03	15,980
2003–04	16,930

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much funding each school in Crosby has received from the New Deal for Schools. [160405]

Mr. Miliband: The following table shows the schools in the Crosby constituency that benefited from investment through the New Deal for Schools programme, which commenced in 1997–98. From 2000–01, capital allocations have largely been made by formulae linked to Asset Management Plans. In addition, all schools have, since 2000–01, received Devolved Formula capital to use on their most urgent capital needs.

New Deal for schools—Allocations to schools in the Crosby constituency

	School	Project details	Grant awarded (£)
	Included in LEA wide package:		
1997/98	Sacred Heart Catholic High School	Refit of three science laboratories	[1]836,000
	Range High School	Refit of three science laboratories	
1998/99	Holy Trinity Primary School	Rewiring	55,850
	Holy Trinity Primary School	Heating repairs	44,680
2000/01	Forefield Infant School	Replace temporary classrooms	513,231
	Waterloo Primary School	Replacement of dining room	398,079
	St. Luke's Church of England Primary School	Replace temporary classrooms	605,594
	Forefield Junior School	Replacement of temporary accommodation	393,539

[1] For NDS 1 the £836,000 grant allocated was for Sefton LEA wide projects, part of which was used to refit three science laboratories at each of two schools. The LEA will be able to say how much was allocated to each school.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what the percentage change in the science budget in schools has been in Crosby since 2000. [160414]

Mr. Miliband: My Department does not collect this information.

Excellence in Cities Programme

Mr. Bercow: To ask the Secretary of State for Education and Skills how many children in Buckingham have benefited from the Excellence in Cities Programme; and what the per pupil spending was in each year since the programme's inception. [161584]

Mr. Miliband: No schools in Buckingham itself are in the Excellence in Cities programme as the authority does not meet the inclusion criteria. However, there is an Excellence Cluster in High Wycombe which serves a small pocket of deprivation within the authority. This has been in operation since September 2002.

The average spend per pupil in the High Wycombe cluster was £62.50 in 2002–03 and £106 in 2003–04.

Extended Schools

Mr. Denham: To ask the Secretary of State for Education and Skills if he will make it his policy to enable local education authorities which are experiencing falling school rolls to use surplus capacity to develop *(a)* extended schools under the Government's extended schools programme and *(b)* the co-location of health, social services and parenting support provided by local agencies. [161135]

Mr. Stephen Twigg *[holding answer 15 March 2004]:* Yes, schools can use surplus school places to provide capacity for extended services which can include the co-location of services provided by other agencies such as health, social services and parenting support. Schools are being encouraged to do this.

Mr. Denham: To ask the Secretary of State for Education and Skills what progress has been made on the implementation of the extended schools programme; and if he will make a statement. [161136]

Mr. Stephen Twigg *[holding answer 15 March 204]:* The Department for Education and Skills has made considerable progress on the implementation of the extended schools programme. The Education Act 2002 includes a new power for school governors to provide family and community services. In October 2002 we issued guidance on setting up extended services along with related guidance on developing child care facilities. 25 LEAs were funded in 2002–03 as pathfinders. The aim of the pathfinders was to test out a variety of approaches used by schools and authorities in the development of family and community facilities and services on school premises. Evaluation findings will be made available shortly.

Over the period 2003–06, the Department for Education and Skills is making funding available to create up to 240 full service extended schools, with at least one in each LEA area. 60 full service extended schools are being created this year. We are also making funding available over the same period for the planning, development and management of extended services in other schools. By 2006 this funding will cover all LEAs.

Mr. Denham: To ask the Secretary of State for Education and Skills (1) what funds he has made available to develop extended schools in Southampton; [161133]

(2) what opportunities there are for Southampton local education authority to bid for funds for extended schools. [161134]

Mr. Stephen Twigg *[holding answer 15 March 2004]:* Southampton LEA will receive £168,480 through the Standards Fund in 2004–05 to develop one full service extended school providing a prescribed core set of services, with further funding available in 2005–06. In addition, £26,000 in 2004–05 and £26,500 in 2005–06 has been allocated to Southampton local authority as part of its general Sure Start Grant for the development of child care services in the full service extended school. The LEA will also receive funding in 2005–06 for the co-ordination and management of extended services in other schools, with additional funding allocated to the authority at the same time to develop child care services in extended schools. There is no bidding process involved in the allocation of extended schools funding.

Failing Schools (Buckinghamshire)

Mr. Bercow: To ask the Secretary of State for Education and Skills how many schools in Buckinghamshire deemed to be failing since 1997 have since reached satisfactory standards. [161582]

Mr. Miliband: Since January 1997, 11 schools (six primary, four secondary, one special) in Buckinghamshire have been deemed to be failing. Of those, seven recovered sufficiently to have the special measures designation removed, one had a successful Fresh Start, and three closed altogether.

Information and Communications Technology

Mr. Bercow: To ask the Secretary of State for Education and Skills how much has been allocated to schools in Buckingham for information and communications technologies in each of the past seven years. [161583]

Mr. Charles Clarke: Funding for information and communications technologies (ICT) in schools is allocated to local education authorities through the Standards Fund and began in 1998–99. Since 1998–99 schools in Buckinghamshire have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

£

	Allocation to Buckinghamshire LEA
1998–99	1,250,000
1999–2000	1,125,000
2000–01	1,755,443
2001–02	2,568,797
2002–03	3,646,484
2003–04	3,728,097

Mr. Bercow: To ask the Secretary of State for Education and Skills how many and what percentage of teachers in Buckingham have received computer training. [161575]

Mr. Charles Clarke: Statistics on teacher training in ICT are not compiled on a constituency basis, but all teachers are expected to be able to use ICT effectively in the classroom. In-service training was largely addressed by the UK-wide National Lottery-funded New Opportunities Fund (NOF) ICT training, which ran between 1999 and 2003, and to which some 96 per cent. of teachers in England signed up.

Training in the effective use of ICT in teaching is also a mandatory part of Teacher Training Institute courses.

Further training opportunities to address teachers' continuing professional development needs (CPD) in embedding ICT in classroom teaching are now being developed across a range of subjects, and teachers are able to buy into this training using Standards Fund monies.

Mathematics/English

Mr. Bercow: To ask the Secretary of State for Education and Skills how many and what percentage of 11-year-old pupils in Buckingham reached level four in *(a)* mathematics and *(b)* English in each of the past seven years. [161578]

Mr. Miliband: The information requested is as follows:

Number and percentage of pupils achieving Level 4+

	Mathematics			*English*		
	Buckingham		*England*	*Buckingham*		*England*
	Number	*Percentage*	*Percentage*	*Number*	*Percentage*	*Percentage*
2003[1]	883	81	73	839	82	75
2002	824	80	73	849	83	75
2001	886	79	71	942	84	75
2000	832	80	72	866	83	75
1999	749	76	69	777	79	71
1998	663	68	59	748	77	65
1997	686	70	62	731	74	63

[1] Provisional.

Mr. Bercow: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Buckingham reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [161580]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The following table shows the number and percentage of pupils in Buckingham who have achieved level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Buckingham are above the national average, with improvements that have been broadly maintained since 2000:

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Number of pupils							
English[1]	731	748	777	866	942	849	893
Mathematics[1]	686	663	749	832	886	824	883
Percentage of pupils							
English	74	77	79	83	84	83	82
Mathematics	70	68	76	80	79	80	81

[1] The number of eligible pupils for the Key Stage 2 tests varies slightly from year-to-year.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Chorley reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [161600]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The following table shows the number and percentage of pupils in Chorley who have achieved level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Chorley are above the national average, and show a considerable improvement since 1997:

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Number of pupils							
English	920	953	1,024	1,017	1,106	1,086	1,098
Mathematics	951	882	1,048	1,021	1,059	1,077	1,049
Percentage of pupils							
English	71	74	78	78	77	81	80
Mathematics	73	68	80	78	74	80	77

Note:
The number of eligible pupils for the Key Stage 2 tests varies slightly from year-to-year.

Mr. Hoyle: To ask the Secretary of State for Education and Skills what percentage of 11-year-old pupils in Chorley reached level 4 in *(a)* mathematics and *(b)* English in each of the past seven years. [161601]

Mr. Miliband: The information requested is as follows:

Percentage of pupils achieving Level 4+

	Mathematics		*English*	
	Chorley	*England*	*Chorley*	*England*
2003[1]	77	73	80	75
2002	80	73	81	75
2001	74	71	77	75
2000	78	72	78	75
1999	80	69	78	71
1998	68	59	74	65
1997	73	62	71	63

[1] Provisional.

Munchausen Syndrome by Proxy

Mr. Hinchliffe: To ask the Secretary of State for Education and Skills how many children have been removed from parents on the basis of a diagnosis of myalgic encephalomyelitis in children for which parents have been classed as having Munchausen Syndrome by Proxy; and if he will make a statement. [160650]

Margaret Hodge *[holding answer 15 March 2004]:* The information requested is not held centrally.

National Childcare Strategy

Mr. Bercow: To ask the Secretary of State for Education and Skills (1) how many children in Buckingham have gained from the National Childcare Strategy; and if he will make a statement; [161311]

(2) how many child care places have been created in Buckingham since 1997. [161563]

Margaret Hodge: Information on the number of new child care places created in an individual constituency is available only from 1999. Buckinghamshire local authority reported that between April 1999 and December 2003, 1,166 new child care places opened in Buckingham constituency. A place typically helps more than one child, as not all children take up places full-time, and we estimate these places will help some 2,200 children. During the same period, Buckinghamshire reported that 100 child care places closed in Buckingham, so that the stock of child care places rose by 1,066.

New Deal for Schools

Mr. Bercow: To ask the Secretary of State for Education and Skills how much funding each school in Buckingham has received from the New Deal for Schools. [161585]

Mr. Miliband: The table shows the schools in the Buckingham constituency that benefited from investment through the New Deal for Schools (NDS) programme, which commenced in 1997–98. From 2000–01, capital allocations to local authorities and schools have largely been made by formulae linked to Asset Management Plans. In addition, all schools have, since 2000–01, received Devolved Formula capital to use on their most urgent capital needs.

NDS allocations to schools in the Buckingham constituency

	School	*Project details*	*Grant awarded (£)*
1997/98	East Claydon School	Building repairs	[1]564,000
	Grendon Underwood Combined School	Building repairs	[1]564,000
1998/99	Akeley C of E infant School	Replacement of 20-year-old boiler plant	23,000
2000/01	Haddenham Community Junior School	Re-roofing	138,000
	Long Crendon School	Replacement curtain walling to link block	92,000

[1] For NDS 1 the £564,000 grant allocated was for Buckinghamshire local education authority (LEA) wide projects, part of which was used for building repairs at each of two schools in the Buckingham constituency. The LEA will be able to say how much was allocated to each school.

Qualified Teacher Status

Llew Smith: To ask the Secretary of State for Education and Skills if he will make a statement on the availability of qualified teacher status training for Welsh residents in English teacher training colleges located close to the Welsh border. [161760]

Mr. Miliband: In 2004/05, 35,800 places on courses of initial teacher training will be available at institutions located in England, more than at any time since the 1980s. This has allowed the number of places allocated to providers in the three Government Office Regions which border Wales to grow from 12,700 in the current year to 13,337 in 2004/05. Students from Wales who take up places on a Postgraduate Certificate in Education course in England are eligible to receive a £6,000 training bursary from the Government on the same basis as those who are normally resident in England.

Random Drug Testing

Glenda Jackson: To ask the Secretary of State for Education and Skills (1) whether all schools are subject to random drug testing; [157803]

(2) whether parental permission for random drug testing will be a requirement before a child can obtain a place in a *(a)* junior and *(b)* secondary school; [157808]

(3) what estimate he has made of the costs incurred by schools in obtaining parental permission for random drug testing; [157811]

(4) whether random drug testing in schools includes *(a)* pupils, *(b)* teachers, *(c)* classroom assistants, *(d)* supply teachers, *(e)* school grounds staff, *(f)* maintenance staff and *(g)* kitchen staff; [157816]

(5) whether a child can be expelled if parental permission for random drug testing is not granted; [157813]

(6) whether random drug testing will take place in *(a)* primary schools, *(b)* secondary schools, *(c)* breakfast school clubs and *(d)* after-school clubs; [157815]

(7) who will carry out the random drug tests in schools. [157817]

Mr. Stephen Twigg: "Drugs: Guidance to Schools" will be sent to all schools this month. The guidance highlights the option for schools to employ drug testing. The guidance applies to all maintained schools and pupil referral units in England. It is for headteachers to decide whether to employ drug testing—random or not.

A school's governing body decides on its behaviour policy. The head teacher has discretion to exclude pupils in response to serious breaches of this policy, taking individual circumstances into account.

Local education authorities and school governing bodies are responsible for deciding local school admission arrangements, but cannot make admission dependent on parents signing any form of parental declaration, which would include parental permission for random drug testing. Parental permission could form part of a home- school agreement between parents and schools. Home-school agreements cannot be made a condition of entry to any maintained school. Procedures on testing and sanctions should be contained in the school's drug policy and be developed through wide consultation with members of the school community.

Any costs of obtaining parental permission will of course depend on the decisions of individual heads as to how often, how and when to seek such permissions. For example if done through an existing system such as existing home-school contracts the costs will be close to zero. If a separate exercise were undertaken the costs would be likely to be higher. These will be matters for heads to consider in the light of their local circumstances.

It will be for schools to decide on the scope of drug testing taking into account the school's drug policy and the employment contracts of those working in the school. A school's drug policy should make clear to which activities the policy applies, including after school and out of school activities, and the scope of any drug testing strategy contained in the policy.

In cases where the carrying out of drug testing is considered appropriate, it will be for schools to decide how and by whom this should be done.

School Repairs

Mr. Bercow: To ask the Secretary of State for Education and Skills how much public funding has been spent on repairing schools in Buckingham in each year since 1997. [161310]

Mr. Miliband: The following table shows capital funding allocated to Buckinghamshire local education authority (LEA) and its schools since 1997–98. The majority of capital funding is now allocated by formulae, linked to Asset Management Plans. In addition, all schools have, since 2000–01, received Devolved Formula capital to use on their most urgent capital needs.

Capital allocations to Buckinghamshire LEA

	Allocation (£000)
1997–98	5,493
1998–99	8,068
1999–2000	11,947
2000–01	19,422
2001–02	11,510
2002–03	16,981
2003–04	27,460

Note:
The above allocations include the Voluntary Aided sector.

School Sports Facilities

Jim Knight: To ask the Secretary of State for Education and Skills what his Department is doing to ensure that the timescales for Private Finance Initiative school developments allow time for consideration of community use of sports facilities. [160938]

Mr. Miliband: PFI contracts are usually between the local authority and a private contractor. It is therefore for the authority to ensure that negotiations include the use of sports facilities by community groups. My Department does not have a direct role in the negotiations themselves. The authority's Outline Business Case, which requires approval by the Treasury-chaired Project Review Group, must include a timetable which allows sufficient time for the consideration of key issues such as the community use of facilities. Projects which involve community use are encouraged; not only does the community benefit, but the annual fee payable by the local authority may be reduced, in recognition of the revenue that is generated by the facilities.

PFI projects provide high quality teaching accommodation along with excellent sports facilities which are a significant asset to the local community.

Jim Knight: To ask the Secretary of State for Education and Skills what assessment he has made of the success of extended schools in opening up schools sports facilities for use by the general public; and if he will make a statement. [160929]

Mr. Stephen Twigg: The roll out of extended schools across the country began in 2003, so no specific assessment has yet been made. We are, however, funding the development of full service extended schools, which will offer a prescribed core set of services for pupils, families and the wider community, including sports and arts facilities. By 2006 every LEA in England will be given funding to create at least one school. The development of these schools will be evaluated, and among the main aims of the study will be to assess the impact on indicators such as sport, health and youth crime.

Jim Knight: To ask the Secretary of State for Education and Skills if he will take steps to ensure that, in pricing access to educational establishments' sports and leisure facilities, local education authorities budget for long-term costs, including replacement costs. [161213]

Mr. Miliband: The pricing of access to sports facilities at educational establishments is a matter for local decision.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much money has been invested in sports halls in schools in Chorley in each year since 1996, broken down by school. [161560]

Mr. Miliband: The Department does not hold information on how much has been spent on sports halls. Schools premises investment decisions are based on local education authority asset management planning processes and this information should therefore be available locally.

Mr. Bercow: To ask the Secretary of State for Education and Skills if he will make a statement on the effects on schools of changes in the level of investment in school sports in Buckingham since 1997. [161562]

Mr. Stephen Twigg: The Government are investing more than £1 billion in England to transform physical education (PE), school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of 5–16 year olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

Spearheading delivery are School Sport Partnerships, which provide for groups of schools to work together to increase sports opportunities for all young people. Latest research, published by the Departments on 4 March shows that 68 per cent. of pupils in schools that have been in a Partnership for three years, are taking up the two hour entitlement, rising to 90 per cent. at Key Stage 3. Data are currently being collected from remaining Partnerships and will be published in April. Disaggregated results will be available at that time.

Significant funding is also being provided to specifically enhance PE and school sport facilities, with £2,599,000 being allocated from the New Opportunities Fund to schools in the Buckinghamshire LEA area.

School Year (Tourism)

Jim Knight: To ask the Secretary of State for Education and Skills if his Department will issue guidance to local education authorities on the economic impact on tourism of adopting a six-term school year. [161214]

Mr. Miliband: Proposals for a standard six-term school year have been developed by an Independent Commission on the School Year which was established by the Local Government Association. The commission included representation from the tourism industry. My right hon. Friend sees merit in the argument for standardising the length of school terms. Decisions on school term dates and holidays however continue to be the responsibility of individual local education authorities or school governing bodies, depending on the category of school.

Schools (Lockers)

Lady Hermon: To ask the Secretary of State for Education and Skills what percentage of schools in England provide full locker facilities for all pupils attending school. [161380]

Mr. Miliband: The Department does not have these figures, nor figures for other types of personal storage in schools. However, the Education (School Premises) Regulations 1999 require that the buildings provided for a school shall be adequate to allow for the storing and drying of pupils' outdoor clothing, and for the storing of their other belongings. Local education authorities are responsible for ensuring that the premises of maintained schools conform to these regulations.

Schools Science Budgets

Mr. Bercow: To ask the Secretary of State for Education and Skills what the percentage change in the science budget in schools has been in Buckingham in each year since 1997. [161581]

Mr. Miliband: My Department does not collect this information.

Sixth Forms

Mr. Drew: To ask the Secretary of State for Education and Skills if he will make a statement on the procedure for closing a school sixth form; whether such a decision is accountable to the whole local education authority; and whether there is a statutory appeal process. [160926]

Mr. Miliband: Proposals to close a school sixth form may be published by the LEA or Governing Body depending on the category of school. Proposals to close a school sixth form after two poor Ofsted reports may also be published by the Learning and Skills Council (LSC). For both types of proposals the five stages in the process are consultation; publication; a six week representation period (one month in the case of LSC proposals); decision and implementation. LEAs may determine their own proposals to close schools sixth forms provided there are no objections to the proposals. Where there are objections—including from the school concerned—proposals fall to be considered by the School Organisation Committee (SOC) or schools adjudicator if the SOC cannot reach a unanimous decision. LEAs and LSCs are represented on SOCs along with other key groups.

As part of a reorganisation of 16–19 provision, the LSC can also publish a proposal to close a school sixth form following recommendations in an Ofsted Area Inspection report, or where they can demonstrate that the proposals will improve participation, raise standards or broaden the range of provision. The steps in this process are to publish a preliminary notice and consult for at least two months; publish formal proposals with a further two-month objections period; and submit the proposals to the Secretary of State one month later for a decision.

Neither the SOC nor the school adjudicator is accountable to the LEA. Apart from judicial review, there is no statutory appeals process following decisions by the SOC, the adjudicator or Secretary of State.

Mr. Hoyle: To ask the Secretary of State for Education and Skills if he will make a statement on the procedure for opening a new school sixth form; and whether such a decision is made by the local education authority. [161388]

Mr. Charles Clarke: Proposals to open a new school sixth form may be published by the LEA, or the Governing Body of the school. The five stages in the process are consultation; publication; a six week representation period; decision and implementation. LEAs may determine their own proposals to open school sixth forms provided there are no objections to the proposals. All other proposals are determined by the School Organisation Committee (SOC) or schools adjudicator if the SOC cannot reach a unanimous decision.

As part of a reorganisation of 16–19 provision, the LSC can also publish proposals to open a school sixth form following recommendations of an Ofsted area inspection report or where they can demonstrate that the proposals will improve participation, raise standards or broaden the range of provision. The steps in this process are to publish a preliminary notice and consult for at least two months; publish formal proposals with a further two-month objections and comments period; and submit the proposals to the Secretary of State one month later for a decision.

Teacher Numbers/Vacancies

Mr. Lidington: To ask the Secretary of State for Education and Skills how many *(a)* primary school and *(b)* secondary school teachers there were per pupil of the relevant age-group in each year since 1997. [160478]

Mr. Miliband: The data requested are shown in the table.

Maintained primary and secondary schools: pupil:teacher ratios—England

	Position in January each year	
	Primary	*Secondary*
1997	23.4	16.7
1998	23.7	16.9
1999	23.5	17.0
2000	23.3	17.2
2001	22.9	17.1
2002	22.5	16.9
2003	22.6	17.0

Source:
Annual Schools' Census.

The underlying pupil and teacher figures were published on 25 September 2003 in the statistical volume, "Statistics of Education, Schools in England 2003", a copy of which has been placed in the Library. The table is also available on the statistics section of the DfES website at: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000417/index.shtml

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Chorley on the latest date for which figures are available; and what steps he is taking to reduce them. [161451]

Mr. Miliband: The information is not available in the form requested. In January 2003, there were 40 vacancies for full-time teachers in maintained schools in the Lancashire local education authority (LEA) area, which includes Chorley.

Like other areas, since 1997 Chorley has benefited from the initiatives that the Government have put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in the former Lancashire LEA area has risen by 390, from 11,870 to 12,260 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 2,870 from 3,620 to 6,490 in 2003.

Matthew Taylor: To ask the Secretary of State for Education and Skills how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158252]

Mr. Charles Clarke: The following table gives the figures for the past three financial years since the Department for Education and Skills was established in 2001.

The significant increase in 2002–2003 was largely due to the implementation of a new range of policy development in Schools Directorate and the general establishment of the new Department.

	Number of agency staff	*Financial year*	*Agency spend of the financial year (£)*	*Percentage of total staffing budget*
2002	1,614	June 2001 to March 2002[1]	1,780,629.70	1.46
2003	1,746	April 2002 to March 2003	2,688,149.33	2.12
2004	117 (Jan.)	April 2003 to January 2004	1,456,921.04	1.12

[1] DfES was created following Machinery of Government changes in June 2001.

University Bursaries

Mr. Clappison: To ask the Secretary of State for Education and Skills which universities have indicated that they will commence bursary schemes from 2006–07 for students from families with incomes *(a)* between £15,970 and £22,270 and *(b)* between £22,270 and £33,533; and how much money is being given in each case. [161436]

Alan Johnson: I am placing today in the Library a copy of a letter from Universities UK to me, which outlines these details as currently known. Individual universities are responsible for their own bursary schemes.

Websites

Matthew Taylor: To ask the Secretary of State for Education and Skills what the cost in *(a)* financial and *(b)* other terms was in (i) each financial year since 1997

and (ii) 2003–04 until the latest date for which figures are available of (A) developing and (B) maintaining (1) his Department's website and (2) each website for which his Department is responsible; and how many (C) unique hosts and (D) hits there were in each month for each website in (iii) each financial year since 1997 and (iv) 2003–04 until the latest date for which numbers are available. [155850]

Mr. Charles Clarke: The information requested is as follows.

(a) (A and B; 1 and 2) Core programme costs, for developing and maintaining the Department for Education and Skills central website www.dfes.gov.uk and the other sites it is responsible (our six customer portals and Curriculum Online (from 2003)) are as follows:

	Central website www.dfes.gov.uk [1]	*Customer facing portals (six sites)*	*Curriculum online www.curriculumonline.gov.uk*
1997–98	43,200	—	—
1998–99	84,200	—	—
1999–2000	140,300	—	—
2000–01	266,600	—	—
2001–02	654,800	—	—
2002–03	1,747,000	—	2,753,875
2003–04	1,900,000	978,000	2,394,598

[1] From 2002 costs include hosting for other online services provided by the Department Figures for agencies and non-departmental public bodies are not included as collection of this information represents disproportionate costs.

(b) We have assumed that cost in 'other terms' refers to staff overheads. Collection of this information represents a disproportionate cost.

(C) Unique hosts—We have considered this to mean the number of 'hosting services' (virtual and dedicated) that we are contracted to use. We are contracted with one supplier.

(D) (iii and iv)—Our site traffic figures are collected according the standards laid down in the Office of the e-Envoy's Guidelines for UK Government Websites which recommends that web teams should give more importance to unique visitors and page impressions than to hits.

Historical figures are only available for 2000 onwards Site traffic figures are as follows:

	2001	*2002*	*2003*
DfES: www.dfes.gov.uk			
Visits		5,479,049	13,037,249
Unique visitors	1,293,000	1,148,743	4,189,925
Page impressions	43,700,000	74,491,274	160,164,079

	2003
Customer portals	
Visits	4,390,139
Unique visitors	1,572,963
Page impressions	53,744,094

	2003
Curriculum online: www.curriculumonline.gov.uk	
Visits	495,408
Unique visitors	429,804
Page impressions	4,100,100

Youth Services (Funding)

Mr. Wyatt: To ask the Secretary of State for Education and Skills what plans he has to centralise funding for services for young people. [161101]

Margaret Hodge: The response to the Green Paper 'Every Child Matters' consultation sets out our aims for funding services for young people. We intend to rationalise funding streams and grant programmes at local level in order to avoid duplication. As Children's Trusts become operational this will involve the pooling of appropriate budgets.

HEALTH

Ashford (Middlesex) Hospital

Mr. Wilshire: To ask the Secretary of State for Health how many *(a)* intensive care beds, *(b)* high dependence beds, *(c)* medical beds and *(d)* acute surgery beds there were at Ashford (Middlesex) Hospital on 31 December of each year from 1997. [160368]

Mr. Hutton: Information on beds is collected on a trust basis from national health service organisations. Ashford and St. Peter's Hospitals NHS Trust (RTK) opened in April 1998.

Information on critical care beds is collected at two census points during the year. The number of intensive care and high dependency beds on the census day for Ashford and St. Peter's Hospitals NHS Trust is shown in table 1.

Table 1: Number of critical care beds on census day, Ashford and St. Peter's Hospitals NHS Trust

Census date	*Intensive care*	*High dependency*	*Total*
31 March 1999	10	0	10
30 September 1999	10	0	10
15 January 2000	10	0	10
14 July 2000	7	3	10
15 January 2001	8	9	17
16 July 2001	7	9	16
15 January 2002	7	9	16
16 July 2002	8	9	17
15 January 2003	7	9	16
16 July 2003	8	9	17
15 January 2004	7	9	16

Source:
Department of Health form KH03a.

Information on beds is collected annually. The average daily number of available beds for Ashford and St. Peter's Hospitals NHS Trust is shown in table 2.

Table 2: Average daily number of available beds, by sector, Ashford and St. Peter's Hospitals NHS Trust, 1997–98 to 2002–03

	All specialties (excluding day only)	*General and Acute*	*Acute*	*Geriatric*	*Mental illness*	*Learning disability*	*Maternity*	*Day only*
1997–98	—	—	—	—	—	—	—	—
1998–99	612	549	549	0	0	0	63	43
1999–2000	612	549	549	0	0	0	63	46

Commission for Healthcare Audit and Inspection

Mr. Burstow: To ask the Secretary of State for Health if he will set out the *(a)* statutory and *(b)* regulatory requirements to consult placed upon the Commission for Healthcare Audit and Inspection; and how the Commission will discharge its duty to consult in respect of the inclusion or exclusion of performance indicators from the star rating system. [158638]

Ms Rosie Winterton: With respect to its annual reviews of English national health service bodies and cross-border strategic health authorities there is no statutory duty on the Commission for Healthcare Audit and Inspection (CHAI) to consult in relation to the criteria it devises under section 50 of the Act. However, we anticipate that CHAI will consult NHS bodies in relation to those criteria, continuing the current practice of the Commission for Health Improvement.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Health when the Parliamentary Under-Secretary of State will respond to the letter of 4 February from the hon. Member for West Worcestershire. [161658]

Dr. Ladyman: A reply was sent to the hon. Member on 15 March 2004.

Mr. Kaufman: To ask the Secretary of State for Health when he will reply to the letter to him from the right hon. Member for Manchester, Gorton dated 12 February with regard to Dr. Lieberman. [161803]

Dr. John Reid: A reply was sent to my right hon. Friend on 4 March 2004.

Delayed Discharges

Mr. Lidington: To ask the Secretary of State for Health how many patients had their hospital discharge delayed while awaiting community care packages in each year since 1997. [160513]

Dr. Ladyman: Data on delayed discharges are not collected on the basis of awaiting community care services. All available information on delayed transfers of care since 1997 is available in the Library, including the latest figures for 2003–04, Quarter 3 (December 2003).

Dentistry

Dr. Murrison: To ask the Secretary of State for Health what plans he has to simplify dental fee scales. [161308]

Ms Rosie Winterton: The Government are committed to rebuilding and restoring national health service dentistry to improve oral health. New legislation in the Health and Social Care (Community Health and Standards) Act 2003 will underpin a modernised, high-quality primary dental service, properly integrated with the rest of the NHS. The aim is to deliver better access to services, better working lives for dentists and their teams, better oral health and an improved patient experience.

Under the proposals in the Act, primary care trusts (PCTs) will assume responsibility for providing primary care dental services. With these responsibilities will go the financial resources held centrally, which currently amount to £1.2 billion.

As part of the new arrangements, the current remuneration system, which is based on item-of-service fees, will be abolished and replaced by a much simpler contract. Under transitional arrangements we are developing a simple but robust 'base contract' which all dentists and PCTs will be able to put in place from 2005. These transitional arrangements will provide protection of dentists gross earnings for three years to enable them to come off the treadmill of item of service fees, to see their patients at intervals appropriate to their oral health needs and to modernise and adjust their workload. These proposals are set out in "Framework proposals for primary dental services in England from 2005", which was published on 24 February and on which we are currently seeking views from dental representative bodies.

Mr. Watts: To ask the Secretary of State for Health what action the Government is taking to increase the number of NHS dentists. [158182]

Ms Rosie Winterton: We have undertaken a review of the dental primary care workforce in consultation with representatives of the dental profession—professional bodies, dental academics, as well as the British Dental Association (BDA). The matters under consideration included the age structure of the dental profession, the increasing number of women dentists, our commitment to develop team-working in dentistry, and the impact of our reforms to the contractual and remuneration arrangements which are intended to make National Health Service dentistry more attractive to dental practices. We intend to publish the report shortly.

We have also worked closely with the BDA to draw up proposals for a new contract from April 2005, which will remove the treadmill of item of service. This links with the new duties primary care trusts (PCTs) will have from April 2005 to secure the provision of primary

dental care services. With these new responsibilities will go the financial resources currently held centrally, which by 2005–06 are expected to total nearly £1.5 billion.

These proposals, in the Health and Social Care (Community Health and Standards) Act 2003 in relation to primary dental services, represent the most radical reform of NHS dentistry since 1948. They will give a better deal for patients, for dentists and for the NHS and should lead to an increase in the number of NHS dentists.

In the meantime we have provided new investment totalling £90 million to NHS dentistry over the last year. This is aimed at increasing the number of NHS dentists and increasing access to NHS dentistry for patients. £59 million will support access, and strategic health authorities have been advised of their shares and are working with their PCTs to address access issues. £30 million is to support information technology and the balance of £1 million will support organisational development locally.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answers of 14 January 2004, *Official Report*, column 800W and 28 January 2004, *Official Report*, column 399W, on dentists, what the reasons are for the difference in the total number of NHS dentists and the number of dentists accepting children within some strategic health authorities. [158497]

Ms Rosie Winterton: The information on dentist numbers given in the reply of 28 January 2004, *Official Report*, column 399W, covered the numbers of principal and assistant dentists. These are dentists in the general dental service (GDS) at September 2003. These figures exclude groups of national health service dentists: vocational dental practitioners in the GDS; salaried dentists in the GDS, dentists in the personal dental service and dentists in the community dental service.

The source of the information in that reply is the Dental Practice Board. Information on which dentists are taking NHS patients is held on the NHS.UK website at www.nhs.uk. The information on that website is provided by primary care trusts. The information will cover all NHS dental providers; not just principals and assistants in the GDS. The information given in the reply of 14 January 2004, *Official Report*, column 800W, was for the situation on Thursday 4 December. The figures counted dentists in surgeries which were taking new NHS patients.

Duchenne Muscular Dystrophy

John Barrett: To ask the Secretary of State for Health (1) what funding has been set aside for research into Duchenne Muscular Dystrophy; [159977]

(2) if he will make a statement on the research into possible treatments for Duchenne Muscular Dystrophy. [159976]

Dr. Ladyman: The Genetics White Paper announced investment of up to £3 million to support gene therapy research on single gene disorders. Bids from researchers to access these funds have been received, but are treated in confidence. The specific clinical conditions to be addressed through the funding for research will depend on what bids have been submitted by the research community and how the individual bids stand up to rigorous assessment through peer review.

The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). It is a long-standing and important principle of successive Governments that they do not prescribe the detail of how individual research councils should distribute their resources between competing priorities. In 2001–02, the MRC spent about £2 million on research into Duchenne Muscular Dystrophy.

EU Accession States (Medical Training)

Mr. Gordon Prentice: To ask the Secretary of State for Health in what circumstances citizens of the 10 EU accession countries will have rights to medical treatment in *(a)* the UK and *(b)* other EU countries; and if he will make a statement. [156721]

Mr. Hutton: From 1 May 2004, residents of the new accession countries will be covered by Regulations (EEC) 1408/71 and 574/72, which co-ordinate the social security and health care schemes of the member states of the European Economic Area. Like the insured populations of the existing member states, they will then be entitled to receive treatment the need for which arises during a temporary visit to any other member state, including the United Kingdom, under the E111 arrangements. They will be able to travel specifically to receive treatment in other member states of the European Economic Area for pre-existing conditions only if their home country authorises them to do so by issuing a Form E112. The home country will bear the costs of treatments provided in any other member state. including the United Kingdom, through the E111 or E112 arrangements.

Citizens of the new member states who become ordinarily resident in the United Kingdom will be able to access NHS care on the same basis as any person currently resident in the United Kingdom. But for those who fall into the categories covered by Regulations 1408/71 and 574/72—for example, certain retirement pensioners or students—National Health Service costs will be paid by the person's home state. Accession state citizens resident in the United Kingdom will be entitled to E111s or E112s for medical treatment while temporarily visiting other member states on the same terms as any other UK resident.

Glenda Jackson: To ask the Secretary of State for Health when *(a)* citizens of EU accession states working in the UK and *(b)* their children will qualify to receive free of charge NHS services and facilities. [157002]

Mr. Hutton: All persons legally working in the United Kingdom, and their family members, are entitled to immediate access to national health service services on the same terms as any person ordinarily resident in the UK. From 1 May 2004, this will apply equally to persons from the European Union accession states, who will have free access to the UK labour market subject to a registration system.

General Practitioners

Mr. Pickles: To ask the Secretary of State for Health (1) what financial help is available from the Government to assist general practitioner practices in the purchase of telephone systems; [160329]

(2) if he will issue guidance to general practitioner practices on the use of premium rate numbers by which patients call to obtain appointments and services; [160330]

(3) what estimate he has made of the number of general practitioner practices within the NHS which use premium rate telephone numbers by which patients call to obtain appointments and services. [160331]

Mr. Hutton: Discretionary funding is available from primary care trusts to enable general practitioners to update their telephone systems. Otherwise the cost of installing and running telephony are an expense which the practice—like all other businesses—covers from overall practice income. The Department holds no information on the extent to which premium rate numbers are used in general practice, and has no plans to collect such data or to publish guidance.

Hospices

Mr. Hoyle: To ask the Secretary of State for Health if he will increase financial assistance from the NHS to children's hospices in England. [157909]

Miss Melanie Johnson: Funding is available for children's hospices from national health service primary care trusts. The level of funding is a matter for local discussion. Voluntary healthcare providers, such as hospices, are viewed as important in these negotiations.

Hospital Construction (Lichfield)

Michael Fabricant: To ask the Secretary of State for Health (1) when construction will commence on the new hospital at the St. Michael's site in Lichfield; and if he will make a statement; [160789]

(2) how many car parking spaces will be made available to *(a)* staff and *(b)* visitors at the St. Michael's site in Lichfield once the construction of the new hospital is completed; [160790]

(3) how many square metres have been set aside for future expansion of the new hospital at the St. Michael's site in Lichfield once it is completed. [160791]

Dr. Ladyman: Shropshire and Staffordshire Strategic Health Authority expects construction of the new hospital to start during the summer of this year.

There will be a total of 217 car parking spaces. Of these, 58 will be specifically for staff and patients using mental health services. There will be an additional 117 public car parking spaces, and 42 reserved for staff.

1,400 square metres have been identified for expansion, plus a further 65 parking spaces.

Medicines and Healthcare Products Regulatory Agency

Paul Flynn: To ask the Secretary of State for Health what powers the Medicines and Healthcare Products Regulatory Agency has to obtain data from clinical trials conducted outside the United Kingdom. [158525]

Ms Rosie Winterton: There is an obligation on companies making an application for a marketing authorisation to provide the Medicines and Healthcare products Regulatory Agency (MHRA) with all relevant information at the time of the application; this includes data from clinical trials conducted outside the United Kingdom.

For marketed drugs, the marketing authorisation holder's "qualified person", who is responsible for their pharmacovigilance system, has an obligation to inform the MHRA of any information relevant to the evaluation of the risks and benefits of the product, including post-authorisation studies conducted outside the UK. In addition, the holder must report serious suspected adverse reactions relating to the product which occur in the UK and serious unexpected suspected adverse drug reactions which occur in a country outside the European Union, and provide periodic safety update reports to the MHRA, which should include any relevant data from clinical trials outside the UK.

Sponsors of clinical trials conducted in the UK have an obligation to submit adverse drug reactions (ADRs) to the MHRA on an ongoing basis and to provide end of trial study results in a report. Under the Clinical Trials Directive, to be implemented in the UK as of 1 May 2004, sponsors of trials conducted in the UK will have an obligation to report serious unexpected suspected adverse drug reactions to the MHRA, even if those reactions occur at trial sites outside the UK. In addition, they will be required to provide an annual safety report, which must include all serious suspected adverse reactions occurring in the course of the trial.

The implementation of the Clinical Trials Directive into UK legislation will provide a statutory basis for inspections of clinical trials to ensure compliance with the requirements of good clinical practice. This will also include an opportunity for inspectors to visit sites outside the EU member states where necessary. A reciprocal arrangement exists within the EU.

Mental Health

Mr. Jenkins: To ask the Secretary of State for Health what action his Department is taking to support Mental Health Action Week. [160119]

Ms Rosie Winterton: The Department welcomes this annual initiative which aims to raise awareness of mental health issues among the general public. The Department is continuing to work in partnership with the voluntary sector, including the Mental Health Foundation, to provide better information about mental health issues, challenge the stigma and discrimination often associated with mental ill health and build better understanding among the general public.

General Practitioners

Dr. Murrison: To ask the Secretary of State for Health what assessment he has made of the effectiveness of the National Patient Safety Agency. [160606]

Mr. Hutton: The effectiveness of the National Patient Safety Agency is kept under regular review as part of the annual ministerial accountability review process.

Dr. Murrison: To ask the Secretary of State for Health what the cost of the National Patient Safety Agency was in each year for which figures are available; and how many staff it employed in each year, broken down by *(a)* whole-time equivalent and *(b)* headcount. [160607]

Mr. Hutton: The National Patient Safety Agency (NPSA) was created as a special health authority in July 2001 and has published accounts for 2001–02 and 2002–03.

The annual costs of the NPSA and number of employees are shown in the table.

	Programme costs £ million	*Whole time equivalent number of staff*	*Headcount*
2001–02	1.763	5	6
2002–03	11.666	59	60

NHS (Complaints)

Mr. Hurst: To ask the Secretary of State for Health how many formal complaints were made by members of the public to the national health service in each year from 1990 to 2002. [156015]

Ms Rosie Winterton: Data prior to 1996–97 are available in the publication 'Handling complaints: monitoring the NHS complaints procedures—England', copies of which are available in the Library.

Data on national health service complaints for years from 1996–97 to 2000–01 are available on the website: http://www.performance.doh.gov.uk/nhscomplaints/ Data for 2002–03 are available on the website: http://www.performance.doh.gov.uk/hospitalactivity/. As a result of structural changes in the NHS, the data for 2001–02 are incomplete and have not been published, although data from those organisations that submitted returns are available on request.

NHS Budgets

Mr. Burstow: To ask the Secretary of State for Health how the £100 million growth package referred to in his Department's press release of 4 March 2004 is being spent. [160346]

Ms Rosie Winterton: A capital growth scheme was launched in January 2004, which gives financial rewards to trusts providing better and faster access to emergency care. Trusts that deliver real, significant and sustained improvements will be able to access extra money to help them to carry on improving their services and facilities.

Details of the scheme are as follows:

Acute national health service trusts can access a flat payment of up to £500,000 for faster progress to meeting the minimum operating standard of treating 98 per cent. of patients in accident and emergency departments within four hours;

Ambulance services can access up to an average of £250,000 (payment weighted by size of trust) for responding to 75 per cent. of category A calls within eight minutes for three consecutive months;

Mental health trusts which improve crisis access to mental health services will be able to access a flat £200,000 one-off payment.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 26 February 2004, *Official Report*, column 548W, on NHS budgets, what the £37 million will be spent on. [160456]

Mr. Hutton: £35.6 million of the estimated balance of £37 million has now been formally allocated to primary care trusts. Details are shown in the following table:

Centrally funded initiatives and services and special allocations Budget

	Allocations made since 6 February 2004 (£)
ABC Project (Invest to Save)	50,000
Audiology Services	804,000
Cancer Network Support	426,000
Choice Programme	32,000
Commercial Director Feasibility Analysis	388,000
Dangerous People with Severe Personality Disorders	3,000
Distinction Awards	718,000
Drug Market Response Group (Invest to Save)	413,000
E-Harp (Invest to Save)	22,000
Equality and Ethnic Minority Health	110,000
Flu Vaccination Programme	12,780,000
GP Recruitment and Retention	199,000
High Security Psychiatric Services Central Element	450,000
National Clinical Governance Support Team	1,170,000
National Institute of Mental Health	40,000
Neo-Natal Intensive Care National Audit	200,000
NHS Counter Fraud and Security Management Service	22,000
NHS Pay Modernisation	1,445,000
Older People in the Community (Invest to Save)	116,000
Palliative Care	74,000
Premises Improvements	741,000
Prescribing training for Nurses, Pharmacists and other Health Professionals	10,000
Revascularisation	10,000
Schedule 5—Programme Budgeting	3,000
Securing Recombinant Clotting Factors	11,890,000
Service Improvement Teams	2,880,000
Strategic Management and Support	1,804,000
Waiting lists—Booked Admissions	450,000
Youth Services in Basset Law	52,000
Total	35,602,000

NHS Treatment (Accession Citizens)

Mr. Evans: To ask the Secretary of State for Health what estimate the Government has made of how many EU accession country citizens will make use of the NHS. [157352]

Mr. Hutton: I refer the hon. Member to the reply given to the hon. Member for Westbury (Dr. Murrison) on 23 February 2004, *Official Report*, column 279W.

NHS Treatment

Mr. Wiggin: To ask the Secretary of State for Health how many people sought medical assistance through the NHS between 1997 and 2003. [160923]

Mr. Hutton: The tables show the number of patients admitting or starting a consultation in the following situations:

General practitioner consultations,

Walk-in-centre visits,

Calls to NHS Direct,

New attendances at accident and emergency,

First outpatient attendances,

Day case and overnight hospital admissions.

These figures relate to the number of attendances or admissions and are not a count of the number of people—some patients may be admitted or attend a consultation on more than one occasion.

Estimated total GP consultations[1,2]

	All GP consultations (Million)
1996	254
1997	—
1998	217
1999	—
2000	220
2001	217

[1] The population data used to calculate the estimated total numbers of consultations are revised mid year estimates from the ONS as at 27 February 2003. These figures are based on the 2001 census.
[2] Consultation estimates are not available for 1997 and 1999.

Note:
Figures are rounded to the nearest million.

[4] KH09.
[5] SaFFR. Data relates to General and Acute Specialities only, First Finished Consultant Episodes only.
[6] Day case and over night admissions: Earlier SaFFR figures are from health authorities. With the abolition of health authorities, figures for 2001–02 and 2002–03 are based on returns from NHS trusts

Nursing Home Costs

Mark Tami: To ask the Secretary of State for Health what financial contribution was provided by each local authority in England towards the cost of nursing home provision in each of the last five years. [161055]

Dr. Ladyman: Information on the gross expenditure on nursing care placements as reported by each council with social services responsibilities in England from 1998–99 to 2002–03, has been placed in the Library.

Osteoporosis

Linda Gilroy: To ask the Secretary of State for Health if he will make a statement on the value of primary prevention of osteoporotic fracture. [158867]

Dr. Ladyman: The Government acknowledges the importance and value of primary prevention of osteoporotic fracture. That is why the National Institute for Clinical Excellence (NICE) has accepted the appraisal committee's recommendation to address the prevention of fractures in post-menopausal women who have not yet had a fracture through their technology appraisal for the prevention and treatment of osteoporosis. This will inform recommendations on the clinical and cost effectiveness of treatments for primary prevention.

NICE is also developing a clinical guideline to look at the assessment of fracture risk and the prevention of osteoporotic fractures in individuals at high risk. It will examine both interventions used to prevent an initial fracture and those used to prevent fractures where one has already occurred.

Out-of-hours Provision

Mr. Yeo: To ask the Secretary of State for Health what plans he has for the ambulance service to play a role in the provision of out-of-hours emergency care. [160661]

Ms Rosie Winterton: Where general practitioners opt out, primary care trusts (PCTs) will be able to consider a range of alternative providers; for example: NHS Direct, ambulance services, national health service walk-in centres, GP co-operatives or their successor organisations, paramedics and deputising services.

This will allow the PCTs to plan and commission innovative and integrated services focusing on the most appropriate provider for the range of care required with an enhanced focus on the use of triage and skill-mix. The service is likely to be less reliant on doctors and make more use of nurses and others such as ambulance staff. Through this approach a flexible, more responsive service can be developed with staff trained to provide a range of interventions. This will provide a better service for patients.

Self-harm/Suicide (Young People)

Charles Hendry: To ask the Secretary of State for Health what measures are being implemented under the National Suicide Prevention Strategy to reduce instances of self-harm in young people. [161081]

Ms Rosie Winterton: The National Institute for Clinical Excellence is currently preparing guidelines for the management of self-harm in accident and emergency departments. This includes the services provided to children and young people. Once published, the National Institute for Mental Health in England (NIMHE) will support local services in establishing procedures and services for people presenting at accident and emergency with self-harm.

A risk assessment training package (STORM) focusing on self-harm is being piloted in two areas and in five prisons.

NIMHE is supporting local mental health services in implementing the 12 points to a safer service—developed from the work of the National Confidential Inquiry into Suicide and Homicide—which includes recommendations for patients who self-harm.

Charles Hendry: To ask the Secretary of State for Health what research his Department has commissioned into *(a)* suicide and *(b)* deliberate self-harm in young people; and if he will make a statement on the findings of the research. [161082]

Ms Rosie Winterton: A national collaborative is being established with Department of Health funding for the monitoring of deliberate self-harm (DSH), including that of young people. Through this monitoring it will be possible to estimate the number of suicides in the year following DSH and thereby inform suicide and deliberate self-harm strategies.

The Department has recently funded a study of coroners' records covering different methods of suicide across the whole age range.

The Department also funds the Oxford Monitoring System for Attempted Suicide. Its aims are to provide comprehensive monitoring of long-term trends in DSH; the identification of information (causes, risk factors and outcome) relevant to service provision for DSH patients; an evaluation of suicide prevention strategies; and specific research projects on DSH.

In addition, mental health promotion pilots targeted at young men are being established in three areas, which, if successfully evaluated, will become part of the National Institute for Mental Health in England's mental health promotion work.

Charles Hendry: To ask the Secretary of State for Health how many reported instances of deliberate self-harm there have been in people under 30 years old in each year since 1997, broken down by *(a)* age and *(b)* sex. [161084]

Ms Rosie Winterton: The information requested is not collected centrally.

Charles Hendry: To ask the Secretary of State for Health if he will make a statement on the progress of the National Suicide Prevention Strategy in reducing the number of young people who commit suicide. [161085]

Ms Rosie Winterton: The National Suicide Prevention Strategy for England annual report on progress 2003 sets out progress in implementing the strategy, including action taken to reduce suicide in young people. A copy of the report is available in the Library.

Seroxat

Paul Flynn: To ask the Secretary of State for Health whether Seroxat is prescribed to children under 18. [158526]

Ms Rosie Winterton: Paroxetine (Seroxat) is prescribed to patients under the age of 18 although it is not authorised for use in such patients. However, in the United Kingdom a doctor may prescribe outside the terms of a marketing authorisation on his/her own responsibility, if he/she considers that this is in the best interests of the patient and having informed him/herself of the benefits and risks of such an action.

Following advice from the Committee on Safety of Medicines and its expert group on the safety of paroxetine and other Selective Serotonin Reuptake Inhibitors (SSRIs), the Medicines and Healthcare products Regulatory Agency published summaries of clinical trial data relating to all SSRIs on 10 December 2003 in order that prescribes might make informed decisions.

Smoking

Mr. Jim Cunningham: To ask the Secretary of State for Health if he will make a statement on the NHS's progress towards a world-leading smoking cessation service. [160917]

Miss Melanie Johnson: The national health service stop smoking services, set up in 1999, are now well established across England and are a world-leading service. They provide expert advice and support, with nicotine replacement therapy and zyban available on prescription, to smokers wanting to quit. The Department of Health's monitoring results show that in the financial year 2002–03 the services helped around 124,100 people successfully quit (based on self report), at four week follow up.

To evaluate the impact and effectiveness of the national health service stop smoking services, the Department of Health commissioned a team led by Glasgow University to carry out a comprehensive study.

The first results of this evaluation was published in September 2003 as "Bauld L *et al.* Impact of UK national health service smoking cessation services: variations in outcomes in England. Tobacco Control 2003; 12:296–301." The key finding was that

"Well-developed, evidence-based NHS services, reflecting good practice, are yielding positive outcomes".

The final results of the studies are due to be published in autumn 2004.

A copy of this research is available in the Library.

NORTHERN IRELAND

Ambulance Services (Lisburn)

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what the Ambulance Services (Lisburn) average journey time is for ambulances stationed at the Lagan Valley Hospital to respond to emergency calls in the Lisburn City area; and what plans he has to provide additional ambulance cover at the Lagan Valley hospital between the hours of 22.00 and 08.00 on Sunday to Thursday each week. [161519]

Angela Smith: The information is not available in the format requested. However, in the period 1 April 2003 to 29 February 2004, 69 per cent. of 999 calls in the Lisburn City area had a response within eight minutes.

Ninety five percent had a response within 18 minutes. There are currently no plans to provide additional ambulance cover at Lisburn ambulance station, which is situated at Lagan Valley Hospital. Nonetheless, the Northern Ireland Ambulance Service and the Eastern Health and Social Services Board constantly review levels of cover and will redeploy resources as necessary.

Asthma

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the *(a)* cost and *(b)* number of working days lost as a result of asthma in Northern Ireland in the last year for which figures are available. [160612]

Mr. Pearson: Information regarding the cost and number of working days lost as a result of occupational asthma in Northern Ireland is not available. However, it is estimated that the total cost of work-related ill health in Northern Ireland could be as much as £330 million per year and that this accounts for an estimated £365,000 million working days lost each year. It is estimated that over 4,000 people in Northern Ireland are affected by asthma caused or made worse by work and that there are approximately 200 new cases each year.

Birth Statistics

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many births there were in Northern Ireland in each of the last five years; and how many there were in *(a)* 1994, *(b)* 1989 and *(c)* 1984. [160621]

Mr. Pearson: The following table gives the number of births registered in Northern Ireland in 1984, 1989, 1994 and each year from 1998 to 2002.

Number to registered births in Northern Ireland

	Births Registered
1984	27,693
1989	26,080
1994	24,289
1998	23,861
1999	23,173
2000	21,768
2001	22,251
2002	21,772

Blood Donors

Lady Hermon: To ask the Secretary of State for Northern Ireland how many registered blood donors there are in Northern Ireland; what the equivalent figures were for each year since 2000; and if he will make a statement on the steps he is taking to increase such figures. [156946]

Angela Smith: In 2003–04 there were 69,837 active donors in Northern Ireland compared with 68,049 active donors in 2002–03.

Due to changes in the interpretation of active donor numbers, comparable data are unavailable for previous years.

The Northern Ireland Blood Transfusion Service has an ongoing promotional campaign, including advertising in newspapers and on radio and buses, to encourage existing donors and recruit new donors. Currently three mobile units operate each day and blood is also collected at the HQ facility. Opening hours at the HQ facility are to be extended to allow further opportunities to donate.

Civil Service

Mr. Mallon: To ask the Secretary of State for Northern Ireland what proportion of Catholics there were in the senior civil service in the last period for which figures are available. [160332]

Mr. Pearson: At 1 January 2004, the figure was 30 per cent.

Mr. Mallon: To ask the Secretary of State for Northern Ireland what discussions he has had with the Equality Commission on the exclusion of Irish nationals from senior Civil Service posts. [160365]

Mr. Pearson: There have been no formal discussions between Ministers and the Equality Commission on this matter. Officials maintain contact with the Commission on a range of issues and on 27 August 2003, officials from the Department of Finance and Personnel met Commission staff for a general discussion on progress on the Senior Civil Service Review and Associated Action Plan. The discussion covered a range of issues, including the application of nationality rules to reserved posts.

Class Sizes

Mr. Lidington: To ask the Secretary of State for Northern Ireland what the average class size in *(a)* primary schools and *(b)* secondary schools in Northern Ireland was in each year since 1997. [160475]

Jane Kennedy: The average class size is available only for primary schools. The figures are as follows:

	Average class size
1997–98	23.7
1998–99	24.0
1999–2000	23.8
2000–01	23.7
2001–02	23.4
2002–03	23.3
2003–04	23.1

Compulsory Retirement (NHS)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) which NHS health trusts have a policy of compulsory retirement at 65 years; and if he will make a statement; [157392]

(2) what his policy is on enforced retirement of health service employees on account of age. [160609]

Angela Smith: None of the Health and Social Services Trusts in Northern Ireland operates a policy of compulsory retirement at 65 years. However, most HPSS employment contracts stipulate 65 years as the normal retirement age.

This does not preclude staff from working beyond the normal retirement age in the interests of service provision and at the discretion of the Trust. Individuals wishing to continue to work after age 65 years must be both mentally and physically able to carry out the full duties of the post.

Consultant Obstetricians

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the merits of publishing *(a)* caesarean rates and *(b)* general outcomes for individual consultant obstetricians in Northern Ireland. [160616]

Angela Smith: Information on caesarean section rates in Northern Ireland is maintained on the Child Health Systems of the four Health and Social Services Boards. This information is routinely available on request, but there are no plans at present for wider publication.

There are no plans to make information on caesarean section rates for individual consultant obstetricians in Northern Ireland routinely available. Casemix issues and other factors can render the publication of such information unreliable as an indicator of performance and can invite inappropriate comparisons of individual rates of caesarean section.

Counterfeit Crime

Mr. Dodds: To ask the Secretary of State for Northern Ireland what quantities of counterfeit goods were seized by the police in Northern Ireland in each year since 1997. [159548]

Jane Kennedy: The quantities of counterfeit goods which have been seized by the Police in Northern Ireland since April 1998 are contained in the following table. Seizures for 2003–04 are recorded until 29 February 2004. Details are not available for the quantities of counterfeit goods seized in 1997–98 and 2000–01.

	number of items seized				
Description of items	*1998–99*	*1999–2000*	*2001–02*	*2002–03*	*2003–04*
Music CDs/cassettes/MP3	3,902	11,126	29,564	63,250	80,500
Video tapes/DVDs/VCDs	3,092	4,424	28,795	28,680	40,000
Clothing	5,518	5,116	22,489	27,370	35,000
Electronic Games		51,090	28,000	36,850	15,000
Watches Perfume/Sunglasses	136	280	5,560	1,200	500
Computer and associated equipment Video recorders/copiers	16	50	178	150	350
Computer software	—	—	—	9,380	5,000
Power tools	—	—	—	2,500	1,000
Drink	—	—	—	—	30,000

Mr. Dodds: To ask the Secretary of State for Northern Ireland what resources are available to *(a)* the police in Northern Ireland and *(b)* other agencies to tackle the problem of counterfeit crime in Northern Ireland. [159551]

Jane Kennedy: It is not possible to distill out the amount of resources specifically expended on tackling Intellectual Property Crime (IPC) throughout Northern Ireland. Confronting IPC is a priority for the Northern Ireland Organised Crime Task Force and the Police Service of Northern Ireland (PSNI) take lead responsibility. The budget available to PSNI for 2003–04 is £707.7 million.

Drug Addicts

Lady Hermon: To ask the Secretary of State for Northern Ireland how many drug addicts received drug rehabilitation treatment in Northern Ireland in each year since 2000. [156942]

Angela Smith: The information is not available in the format requested.

Lady Hermon: To ask the Secretary of State for Northern Ireland how much funding was allocated to drug rehabilitation in Northern Ireland in each year since 2000; and if he will make a statement on the provision of drug rehabilitation in Northern Ireland. [156947]

Angela Smith: The information requested on funding for drug rehabilitation is not available.

While the majority of drug rehabilitation can and does take place in the community as part of an overall community care and rehabilitation programme, there is also the more intensive programme of residential rehabilitation. Provision also exists within each Board area to refer individuals to rehabilitation centres outside Northern Ireland if appropriate. Research to assess the level of need and demand for such a service here remains a priority.

Fire Stations

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the decision by the Chief Fire Officer for Northern Ireland, to issue a directive on *(a)* the flying of the Union flag outside fire stations and *(b)* the removal of portraits of Her Majesty the Queen from inside stations. [160500]

Angela Smith: The information requested is as follows.

(a) The Chief Fire Officer issued a circular on 18 December 2003 which outlined the dates on which the Union Flag would be flown at Fire Brigade Headquarters. The circular indicated that the Union Flag is to be flown on the same dates as at Government buildings, and at Brigade Headquarters only.

(b) The circular also stated that the Authority had revised its arrangements for the display of the portrait of Her Majesty the Queen, and had decided that no portraits should be on display in any Brigade premises other than its Headquarters.

Responsibility for these matters belongs to the Authority and to the Chief Fire Officer. The circular is in line with best practice and guidance for the public sector and with Section 75 of the Northern Ireland Act 1998.

Infant Deaths

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many suspicious deaths of infants there were in the Newtownabbey police area in each year since 2000, broken down by the stage the investigation has reached. [159568]

Jane Kennedy: The Child Abuse and Rape Enquiry Unit (CARE) in Newtownabbey review all reports of sudden infant deaths. In 2001 one death was referred to the Coroner and in 2002 two deaths were referred; the Coroner directed no further action in all three cases. In 2003 one death was investigated and the matter has been referred to the Department of Public Prosecutions for direction.

Invest Northern Ireland

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) how much IDB/InvestNI land has been sold in each of the last 15 years, broken down by *(a)* parliamentary constituency and *(b)* council area; and what amount of this land remains (i) zoned and (ii) used for industrial purposes; [159589]

(2) how many IDB/InvestNI-owned sites have been sold in each of the last 15 years, broken down by *(a)* parliamentary constituency and *(b)* council area; and how many of these sites remain (i) zoned and (ii) used for industrial purposes. [159592]

Mr. Pearson: The information requested could be provided only at disproportionate cost.

Irish Fertilizer Industries

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will urgently raise through the normal channels of North/South contact the situation of the former employees of Irish Fertilizer Industries based in Northern Ireland (Richardson's), in respect of their expectations of receiving pension entitlement; and if he will make a statement. [159051]

Mr. Pearson: I have raised the pension entitlement issue with the Irish Fertilizer Industries shareholders on a number of occasions. The Trustees appointed to manage the fund following closure have now lodged a debt with the liquidator and this is being considered as part of the overall liquidation process. I will write to the shareholders to express my continued concerns.

Irish Republican Army

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what discussions he has had with the Chief Constable of the Police Service of Northern Ireland about arresting people for belonging to the IRA; and if he will make a statement. [159642]

Jane Kennedy: The Secretary of State meets the Chief Constable on a regular basis to discuss a range of security matters including those relating to membership of proscribed organisations.

Male Teenage Suicides

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what action is being taken to address suicide among male teenagers; and if he will make a statement. [157382]

Angela Smith: The promoting Mental Health Strategy and Action Plan launched last year includes a specific section on preventing suicide. A range of preventive measures are being taken under the strategy including promoting coping skills, suicide awareness and outreach work with young people in areas of need and especially young men. Action is also being taken under the drug and alcohol strategies to offer support and counselling to young men affected by addiction difficulties.

Manufacturing

Mr. Trimble: To ask the Secretary of State for Northern Ireland how many jobs have been *(a)* lost and *(b)* created in the manufacturing sector in Northern Ireland during the last five years. [159744]

Mr. Pearson: Over the last five years, to 5 March 2004, there were 19,058 redundancies in the manufacturing sector in Northern Ireland confirmed to the Department of Enterprise, Trade and Investment.

Information on the number of jobs created is not available. However, figures from the Northern Ireland Quarterly Employment Survey (QES) can be used to estimate the net change in employee jobs during the last five years. Latest figures from the QES show that in September 2003 there were 91,830 employee jobs in manufacturing. This represents a decrease of 16,010 (−14.8 per cent.) from the September 1998 figure of 107,840. Over the same five year period there has been a net increase of 51,790 (8.4 per cent.) in the total number of employee jobs in Northern Ireland, which at September 2003 was estimated to be 667,050, the highest September employee jobs figure on record.

Medical Negligence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what costs to public funds resulted from medical negligence in each of the last 10 years. [157394]

Angela Smith: Information in relation to each of the last five years is as follows. The information relating to the previous five years is not readily available in the form requested and could be obtained only at disproportionate cost.

Amounts paid in settlements for clinical negligence claims from 1998–99 to 2002–03

	£000
1998–99	12,286
1999–2000	4,859
2000–01	9,409
2001–02	7,415
2002–03	13,550

Mental Health

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to improve child and adolescent psychiatry services before the report from the review of mental health. [157389]

Angela Smith: £4 million is being made available for a new purpose built 16–18 bedded unit for child and adolescent inpatient services. An outline business case is at present being considered by the Department. It is proposed that a further 10 child and adolescent beds are provided in the west of the province. Two Trusts have submitted business cases which are currently being considered.

Priorities for Action 2003–04 requires Boards and Trusts to develop child and adolescent community mental health services, especially those services that reduce demand for in-patient services. A Regional Child and Adolescent Mental Health Services Development Group has been proposed to oversee the implementation of a regional commissioning statement in respect of all four tiers of services in Northern Ireland.

Midwives

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many midwifery vacancies there are in Northern Ireland. [157386]

Angela Smith: The information requested is as follows in the table.

Number of midwifery vacancies (including long-term vacancies) within all trusts as at 30 September 2003

Trust	Headcount	WTE[1]
Altnagelvin Group HSS Trust	4	4.00
Armagh and Dungannon HSS Trust	0	0.00
Belfast City Hospital HSS Trust	0	0.00
Causeway HSS Trust	0	0.00
Craigavon and Banbridge Comm. HSS Trust	0	0.00

Newpin

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will allocate the Newpin charitable organisation £30,000 to cover core services for the coming year; and if he will make a statement. [157335]

Angela Smith: Newpin in Northern Ireland is in the process of establishing as a new company. Until the position on the status of the organisation has been resolved, DHSSPS is not in a position to allocate any funding to cover core services for the coming year.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding was provided to the Newpin charitable organisation in each year since 1996. [157379]

Angela Smith: The accounts for the Northern Ireland Newpin office are managed centrally by National Newpin in London and it has, therefore, not been possible to provide a breakdown of the separate sources of funding for the Northern Ireland Newpin office.

Details of the funding provided to Foyle Newpin and Rathcoole Newpin since 1996 are as follows.

Source of funding	*Amount (£)*
Foyle Newpin	
1995–96	
Western Health and Social Services Board	20,000
1996–97	
Western Health and Social Services Board	20,000
1997–98	
Western Health and Social Services Board	44,000
Save the Children Fund	15,000
1998–99	
Western Health and Social Services Board	44,000
Children in Need	16,038
EU Childhood Fund	7,573
Save the Children Fund	18,000
1999–2000	
Western Health and Social Services Board	66,000
2000–01	
Western Health and Social Services Board	68,000
2001–02	
Western Health and Social Services Board	70,000
2002–03	
Western Health and Social Services Board	72,152
Londonderry Regeneration Initiative	14,800
Community Fund NI	22,763
2003–04	
Western Health and Social Services Board	75,000
Rathcoole Newpin	
1995–96	
Northern Health and Social Services Board	20,000
1996–97	
Northern Health and Social Services Board	20,000
International Fund for Ireland	19,200
1997–98	
Northern Health and Social Services Board	51,380
International Fund for Ireland	40,800
1998–99	
Northern Health and Social Services Board	62,332
International Fund for Ireland	40,000
1999–2000	
Northern Health and Social Services Board	70,000
2000–01	
Northern Health and Social Services Board	74,500
2001–02	
Northern Health and Social Services Board	78,798
2002–03	
Northern Health and Social Services Board	83,711
2003–04	
Northern Health and Social Services Board	85,700

Northern Ireland Assembly

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what additional duties will be the responsibility of the Deputy Speaker of the Northern Ireland Assembly as a result of the recent resignation of the Speaker. [160618]

Mr. Spellar: Section 39(4) of the Northern Ireland Act 1998 provides that when the office of Speaker (Presiding Officer) is vacant, his functions may be exercised by a deputy. The functions of the Speaker may therefore be exercised by a Deputy Speaker, following the resignation of Lord Alderdice. During suspension those functions are confined to those arising under the provisions of the Northern Ireland Act 1998, and relate principally to the resignation of members of the Assembly, and the notification of vacancies.

Nursing

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many nursing vacancies there are in North and West Belfast Trust. [157384]

Angela Smith: I refer the hon. Lady to the answer I gave on 23 February 2004, *Official Report*, column 166W.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many nurses from North and West Belfast Health Trust *(a)* were forced to retire on account of age within the last year and *(b)* have been informed that they will have to retire because they are 65-years-old. [157385]

Angela Smith: The information is as follows.

(a) None

(b) Three Bank Nurses in the Trust were advised that they would be required to retire at the age of 65 years in accordance with the express term in their contracts of employment.

However, all three staff have subsequently had their employment contracts extended to enable the Trust to develop a Trust-wide policy to address the issue of staff working beyond 65 years.

Teacher-Pupil Ratios

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many *(a)* primary school and *(b)* secondary school teachers there were per pupil of the relevant age group in Northern Ireland in each year since 1997. [160477]

Jane Kennedy: The pupil:teacher ratios since 1997 are as follows:

	Primary schools	*Prep. Departments*	*Post-primary schools*
1997–98	20.4	18.7	14.8
1998–99	20.6	17.3	14.9
1999–2000	20.4	17.5	14.7
2001–01	20.2	16.6	14.5
2001–02	19.9	16.9	14.4
2002–03	19.7	17.2	14.4

Teenage Pregnancies

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the cost resulting from teenage pregnancies in Northern Ireland in the last year for which figures are available. [160627]

Angela Smith: The estimated annual cost of teenage pregnancies is £27 million. This is made up of an estimated £24 million in Social Security Benefits and administration plus tax revenue foregone over 1½ years, together with £2.5 million direct hospital delivery costs, and an estimated £0.5 million on actions aimed at reducing the number of teenage pregnancies.

Voluntary Sector

Mr. Mallon: To ask the Secretary of State for Northern Ireland if he will make a statement on the review of funding of the voluntary sector; and when policy emerging from that review is likely to be implemented. [160363]

Mr. Spellar: In acknowledgment of the concerns around the longer term sustainability of the voluntary and community sector the Government established a Task Force on Resourcing the Voluntary and Community Sector in Northern Ireland in February 2003. Membership of the Task Force consists of representatives from the statutory sector and a number of independent members.

Under its Terms of Reference, the Task Force has been asked to identify action to be taken to ensure that the voluntary and community sector can continue to make a substantial contribution to the achievement of Government objectives and to the well-being of the Northern Ireland community. It will also seek to identify the impact of impending changes to funding programmes and actions which may be necessary to diversify support for the sector, in the context of an agreed definition of sustainability.

The Task Force established Working Groups comprising key stakeholders to consider themes important to both Government and the voluntary and community sector. It also took account of submissions received and commissioned research to compile their Position Paper, "Pathways for Change", which was published in December 2003. The document has been the subject of widespread public consultation which will conclude on 26 March 2004. Final recommendations from the Task Force will be available in early summer.

Until these recommendations have been received it is not possible to comment on any policy which may emerge or an implementation date.

Mr. Mallon: To ask the Secretary of State for Northern Ireland for what reasons the basis for core funding of ethnic minority voluntary groups has been changed to a one year cycle. [160364]

Mr. Spellar: I refer the hon. Gentleman to the answer given to my hon. Friend the Member for Hull North (Mr. McNamara) on 4 February 2004, *Official Report*, column 945W.

Mr. Mallon: To ask the Secretary of State for Northern Ireland whether an equality impact assessment has been carried out on funding policy for ethnic minority voluntary groups. [160457]

Mr. Spellar: The funding scheme for minority ethnic voluntary organisations was not the subject of an equality impact assessment when it was established in April 2001.

In the event of any change to the policy of the existing scheme, in light of the new Race Equality Strategy, it will be subject to assessment under section 75 of the Northern Ireland Act 1998.

Waiting Times

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what the waiting times for appointments were at *(a)* ophthalmology and *(b)* ear, nose and throat clinics in the (i) Down Lisburn Trust, (ii) South and East Belfast Trust, (iii) North and West Belfast Trust and (iv) Ulster Community and Hospital Trust. [161525]

Angela Smith: North and West Belfast Trust and South and East Belfast Trust do not hold out-patient clinics for the Ophthalmology and Ear, Nose and Throat specialties. Patients from these areas in Belfast would routinely attend Ophthalmology or Ear, Nose and Throat outpatient clinics at Royal Group of Hospitals HSS Trust, Belfast City Hospital HSS Trust, Mater Infirmorum Hospital HSS Trust or Ulster Community and Hospitals trust.

The numbers waiting for first out-patient appointment to the Ophthalmology and Ear, Nose and Throat specialties are as follows.

Number waiting for first out-patient appointment in the Ear, Nose and Throat specialty, quarter ending 31 December 2003, by trust

	Months waiting for first out-patient appointment					
Trust	*0–2*	*3–11*	*12–17*	*18–23*	*24+*	*Total waiting*
Royal Group of Hospitals HSS	921	1,589	582	123	65	3,280

Written Answers to Questions

Wednesday 17 March 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Combined Heat and Power

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) when combined heat and power was last discussed at the Sustainable Energy Policy Network; and if she will make a statement; [160222]

(2) what studies the Sustainable Energy Policy Network has commissioned on combined heat and power; and if she will make a statement; [160223]

(3) what *(a)* fiscal and *(b)* regulatory measures are being considered by the Sustainable Energy Policy Network to encourage combined heat and power. [160224]

Mr. Morley: Within government Defra takes the lead for policy on combined heat and power (CHP) and CHP is regularly discussed at the monthly meetings of the Sustainable Energy Policy Programme Board.

Since the publication of the Energy White Paper the Government have commissioned the following studies on combined heat and power:

Modelling Good Quality Combined Heat and Power Capacity to 2010: This report was published in October and is available on the DTI website.

National Allocation Plan: Implications and Options for CHP: This report was published in February and is available on the Defra website.

A third study evaluates the UK potential for CHP and will be published shortly.

In developing the final CHP Strategy for publication after the Easter Recess we have been considering the full range of policy options to support achievement of the CHP target of 10,000MWe by 2010.

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs what plans her Department has to use combined heat and power to cut fuel poverty. [160090]

Mr. Morley: The Community Energy programme is a three-year £50 million UK-wide grant programme promoting community heating largely through the use of CHP. One of the aims of the programme is to help 100,000 people to heat their homes affordably. We hope that it will be possible to extend the programme beyond March 2005, but this is subject to resources being available.

In the Energy White Paper we made a commitment to support field trials for micro-CHP. These trials, which are being conducted by the Carbon Trust, will help determine the fuel and carbon saving potential of micro-CHP in a range of applications. The results of the trials will help inform the development of any future support for the technology, including in fuel poor households.

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government's combined heat and power strategy will be published. [160091]

Mr. Morley: We intend publishing the Government's CHP Strategy to 2010 after the Easter Recess, to coincide with the first year review of the Energy White Paper.

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's progress in meeting its target to achieve 10GW of combined heat and power by 2010. [160092]

Mr. Morley: At the end of 2002, installed CHP capacity stood at 4,742MWe. More up to date data will become available when the annual Digest of UK Energy Statistics (DUKES) is published in the summer by DTI. The measures to support CHP announced in the Energy White Paper, taken together with the measures we have previously introduced and detailed in the draft CHP Strategy, will significantly help CHP. We will set out the full range of support measures in the Government's Strategy for CHP to 2010, which we intend to publish after the Easter Recess.

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs what policies her Department has introduced since the publication of the Energy White Paper to encourage investor confidence in the combined heat and power sector; and if she will make a statement. [160093]

Mr. Morley: Since last year's Energy White Paper we have been progressing delivery of the support measures for CHP set out therein. Before Christmas I set an ambitious target to source at least 15 per cent. of electricity for government use from Good Quality CHP by 2010. These Energy White Paper support measures, taken together with the measures we have previously introduced and detailed in the draft CHP Strategy, will significantly help CHP. We will set out the full range of support measures in the Government's Strategy for CHP to 2010, which we intend to publish after the Easter Recess.

Environmental Sustainability

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the change in costs to local authorities of the Household Waste Recycling Act 2003. [159012]

Mr. Morley: Local authorities are making significant changes in their waste management practices to meet their current Statutory Performance Standards for recycling and composting and in anticipation of legally binding requirements under the Landfill Directive to reduce the amount of biodegradable municipal waste landfilled. It is too early to tell whether the requirements of the Household Waste Recycling Act will impose costs in excess of those being incurred to meet the aforementioned targets.

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with local government on local authority performance on waste recycling. [159006]

Mr. Morley: My right hon. Friend, the Secretary of State has not held any specific discussions with local government on local authority waste recycling performance recently.

I will follow up my predecessor's correspondence with local authorities whose progress towards meeting their recycling and composting targets was judged to be of most concern, once data on local authority recycling performance for 2003–04 are available, in summer 2004, and those failing to meet those targets have been identified.

There is regular discussion on local authority waste management issues, including performance, between Defra and the Local Government Association (LGA) officials.

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of local authority performance on *(a)* waste recycling and *(b)* waste disposal. [159010]

Mr. Morley: In December 2003 the Audit Commission published information on local authorities waste and recycling performance as part of its Best Value Performance Indicators (BVPI) data for 2002–03. These data supplement local authorities own projections of their 2003–04 performance and provide an indication of local authorities movement towards their statutory performance standards. It suggests that England is within reach of its 2003–04 national target of 17 per cent.

Local authorities actual performance for 2003–04 will be known when the BVPI figures are published in December 2004.

The Waste Implementation Programme, as part of its approach to targeted support, is identifying those authorities facing barriers to improved performance and how these might be overcome.

Euratom Treaty (Inspection Visits)

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the Euratom Treaty Article 35 verification visits to *(a)* Sellafield and *(b)* Dounreay to take place; and if she will make a statement on the arrangements for these inspection visits. [161161]

Mr. Morley: The European Commission undertook an Article 35 verification visit to Sellafield from 8–12 March. We understand the Commission is contemplating a visit to Dounreay within the next year or so, but no date has been fixed.

The arrangements for the Sellafield visit were made by the Department in co-operation with BNFL, the Environment Agency and the Food Standards Agency. The Scottish Executive would be responsible for the arrangements for a visit to Dounreay in co-operation with UKAEA, the Scottish Environment Protection Agency and FSA.

Agricultural Support (Severely Disadvantaged Areas)

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the change in support which will result from the introduction of single farm payment to farmers in severely disadvantaged areas. [160491]

Alun Michael: Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the decision to allocate entitlement on the basis set out in the Secretary of State's Statement to the House on 12 February.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the *(a)* severely disadvantaged areas and *(b)* number of farmers in each. [160492]

Alun Michael: The severely disadvantaged areas are those areas of land within less favourable areas of the UK, which are handicapped, principally by reason of high altitude, harsh climate, short growing season, low fertility, difficult topography or remoteness. The Severely Disadvantaged Areas are defined on an England basis and are as such treated as one entity. There are approximately 7,400 agricultural holdings wholly within the SDA and another 7,300 that straddle the boundary. The SDA are defined in statutory maps and in England lie within the following constituencies:

Barnsley West and Penistone County Constituency
Barrow and Furness County Constituency
Berwick-Upon-Tweed County Constituency
Bishop Auckland County Constituency
Blackburn Borough Constituency
Bolton North East Borough Constituency
Bolton West County Constituency
Bradford South Borough Constituency
Bradford West Borough Constituency
Bridgwater County Constituency
Burnley Borough Constituency
Burton County Constituency
Bury North Borough Constituency
Calder Valley County Constituency
Chorley County Constituency
City of Durham County Constituency
Colne Valley County Constituency
Copeland County Constituency
Halifax Borough Constituency
Hazel Grove County Constituency
Hereford County Constituency
Hexham County Constituency
Heywood and Middleton County Constituency
High Peak County Constituency
Huddersfield Borough Constituency
Hyndburn Borough Constituency
Keighley County Constituency
Lancaster and Wyre County Constituency
Leominster County Constituency
Ludlow County Constituency
Macclesfield County Constituency
Middlesbrough South and East Cleveland County Constituency
Morecambe and Lunesdale County Constituency
North Cornwall County Constituency
North Devon County Constituency

North East Derbyshire County Constituency
North Shropshire County Constituency
North West Durham County Constituency
Oldham East and Saddleworth County Constituency
Pendle Borough Constituency
Penrith and The Border County Constituency
Pudsey Borough Constituency
Ribble Valley County Constituency
Richmond (Yorks) County Constituency
Rochdale County Constituency
Rossendale and Darwen Borough Constituency
Ryedale County Constituency
Scarborough and Whitby County Constituency
Sheffield, Hallam County Constituency
Sheffield, Hillsborough County Constituency
Shipley County Constituency
Shrewsbury and Atcham County Constituency
Skipton and Ripon County Constituency
South East Cornwall County Constituency
South West Devon County Constituency
St. Ives County Constituency
Staffordshire Moorlands County Constituency
Stalybridge and Hyde County Constituency
Stone County Constituency
Taunton County Constituency
Teignbridge County Constituency
Tiverton and Honiton County Constituency
Torridge and West Devon County Constituency
Totnes County Constituency
Truro and St. Austell County Constituency
Vale of York County Constituency
Wakefield County Constituency
West Derbyshire County Constituency
Westmorland and Lonsdale County Constituency
Workington County Constituency

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is towards providing assistance to farmers in severely disadvantaged areas following the introduction of the single farm payment. [160493]

Alun Michael: Eligible farmers in severely disadvantaged areas will receive the single farm payment, and will continue to be eligible for other schemes such as the Hill Farm Allowance and the agri-environment schemes (which are currently being reviewed). The need for assistance to these or other areas will need to be re-examined in the context of the new EU Rural Development Regulation which will come into effect in 2007, and the changing needs of sustainable development in the uplands.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what the financial cost would be of restricting single farm payment at the lower rate to farmers in the hill farm allowance area rather than to all farmers in the severely disadvantaged areas. [160494]

Alun Michael: The aggregate subsidy available for the single farm payment in England is not affected by the definition of the English regions for allocating entitlement.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will rescind her decision to pay single farm payment at a lower rate to all farmers in severely disadvantaged areas; and if she will make a statement. [160495]

Alun Michael: My right hon. Friend, the Secretary of State, made her decision in the best interests of the industry as a whole while recognising that there will be individual winners and losers.

Animal Welfare

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made *(a)* in the Council of Ministers and *(b)* to the European Commission to include the minimum values legislation in the proposed EU regulation on the protection of animals during transport; and if she will make a statement. [159500]

Alun Michael: Minimum values rules apply to certain types of working horses if they are exported for work and to ponies, but not to the majority of horses. It has been confirmed by the Commission in response to an Opposition MEP that such a restriction on the free movement of horses is unacceptable and this is consistent with our own legal advice and the understanding of horse welfare organisations in the UK. That is why we have instead developed an equivalent, welfare based alternative in collaboration with equine organisations. Our wishes have been included in the draft welfare in transport regulation, now before the Council of Agriculture Ministers. We have no intention of relaxing the application of the minimum values rules until the new arrangements are in place. It should be noted that they will have wider application to the welfare of horses within the United Kingdom and across Europe including the accession states.

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* biosecurity and *(b)* other mechanisms are available to farmers to prevent badger damage to forage crops. [157856]

Mr. Bradshaw: Electric fences provide the best defence against short-term seasonal damage to crops.

Advice on using electric fences to protect crops is given in the Defra leaflet 'Badger problems: use of electric fencing to prevent agricultural damage' (TAN 15). This can be obtained from the Defra website (at: www.defra.gov.uk/wildlife-countryside/vertebrates/leaflets.htm) or by contacting the National Wildlife Management Team (Tel: 0845 6014523, local rate).

Additional detailed, technical information is available in the 'Electric Fence Reference Manual' (Research and Development Surveillance Report 607), which is also available to download from the Defra website.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated cash value of damage done to growing maize by badgers was in the last year for which figures are available. [157927]

Mr. Bradshaw: There is no national estimate of the financial value of damage done to growing maize by badgers.

A survey of badger damage to agricultural properties in England and Wales was conducted in 1997 based on 1,982 farmer questionnaire returns (out of a sample of 3,600 farmers).

Crop damage was reported by 21 per cent. of respondents with wheat, forage maize and vines being damaged most frequently. 69 respondents reported badger damage to maize. The mean percentage of maize crops damaged, based on estimates provided by the respondents, was 5 per cent., with a maximum of 20 per cent. Reports of damage to maize were concentrated in August and September.

Damage assessments of eight maize fields known to be used by badgers recorded an average of 114 unharvestable maize cobs per hectare. Forage maize crops protected by electric fencing sustained 96 per cent. less damage than unprotected crops (advice on electric fencing is given in the Defra leaflet TAN 15 'Badger problems: use of electric fencing to prevent agricultural damage', which is available from the Defra website at: www.defra.gov.uk/wildlife-countryside/vertebrates/leaflets.htm

Poole, D., McKillop, G.I., Western, G., Hancocks, P., Packer, J. and Coombs, C. (1999) 'Effectiveness of an electric fence to reduce badger damage to field crops'. Report to MAFF.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what reports her Department has received of predation by badgers on newly born lambs. [157928]

Mr. Bradshaw: The Department does not keep a record of such reports. The only records kept relate to applications for licences under Section 10(2)(b) of the Protection of Badgers Act, 1992.

Since April 2001, when computerised records were introduced, there have been four applications alleging lamb predation by badgers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost is of undertaking the National Badger Survey; and from which departmental budget it is financed. [157940]

Mr. Bradshaw: The most recent national badger survey, which was carried out in the mid-1990s[1] by scientists from the University of Bristol, was funded by The People's Trust for Endangered Species. The Trust is a Registered Charity (No. 274206).

[1] Details of the survey are published in "Changes in the British badger population", 1988 to 1997' by G. Wilson, S. Harris and G. McLaren (1997), published by the People's Trust for Endangered Species, London (ISBN 1 85580 018 7)

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what evidence has been collated on localised effects on ground nesting bird populations of badger predation; and which localities have been affected. [157944]

Mr. Bradshaw: Evidence has been gathered on the effect of badgers on ground nesting birds as part of a Defra funded project investigating the ecological consequences of badger removal. Some of this work has been conducted in treatment areas of the Randomised Badger Culling Trial (RBCT). Evidence collated so far includes an exhaustive review of the published literature, and experimental field research using artificial bird nests. The results of these studies will be presented to Defra in March 2005.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether increased farm biosecurity in areas of high badger population *(a)* deprives badgers of a high value food source and *(b)* increases predation on other wildlife. [157952]

Mr. Bradshaw: Cereal grains and many plant fibres pass through the badger's digestive system relatively unchanged, and may, therefore, often represent low-value food sources. Work by the Central Science Laboratory at Woodchester Park showed that badgers were significantly more likely to visit farm buildings, to exploit such foods, during periods of low rainfall when alternative natural food items such as earthworms were less available. Other mammals and birds form a relatively small part of the diet of badgers in the UK, and there is no evidence to suggest that increased farm biosecurity would result in increased badger predation on such wildlife.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent badger groups are distinct entities; whether mixing occurs between social groups; and under what circumstances. [157988]

Mr. Bradshaw: In much of Great Britain, badgers live in social groups within defined territories which the groups defend. However, mixing between groups is common. Individuals make foraging and breeding forays into neighbouring territories. Temporary and permanent dispersal from one group to another also occurs regularly. Details of movement rates at the Central Science Laboratory's Woodchester Park study area can be found in Rogers, L. M., Delahay, R. J., Cheeseman, C. L., Langton, S., Smith, G. C. and Clifton-Hadley, R. (1998) Movement of badgers ("Meles males") in a high density population: Individual, population and disease effects. "Proceedings of the Royal Society (Series B)", 265, 1269–1276.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent and under what circumstances non-resident badgers will visit setts inhabited by social groups to which they do not belong; and whether this represents a significant opportunity for the spread of TB between badger social groups. [157989]

Mr. Bradshaw: The most common reason for visits by badgers to setts within other social groups is likely to be breeding forays by males. This close contact between individuals from different groups is likely to represent an opportunity for the inter-group spread of TB.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from the *(a)* Royal Society for the Prevention of Cruelty to Animals and *(b)* Royal Society for the Protection of Birds on the welfare of badgers. [157993]

Mr. Bradshaw: The information requested is as follows.

(a) The Royal Society for the Prevention of Cruelty to Animals contributed to the recent public consultation exercise on licensing under the Protection of Badgers Act 1992 by my Department. The welfare of badgers was a central issue of this review.

We are not aware of any other representations specifically concerned with badger welfare in recent years.

(b) We have received no representations on badger welfare from the Royal Society for the Protection of Birds in recent years.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 10 December 2003, *Official Report*, column 523W, on badgers, what the scientific basis is of her view of the national impact of badgers on bird populations. [158212]

Mr. Bradshaw: As I responded in my previous answer, badgers are known to predate on ground nesting birds. The impact of such predation at a national level is not quantified but is not thought to significantly affect populations nationally. As I have previously replied, Defra is currently funding research aimed at providing a scientifically vigorous assessment of the importance of badger predation on ground nesting birds. The Central Science Laboratory is due to report its findings in March 2005. Until that time I cannot give a definitive answer of the effect of badgers on ground nesting birds.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures can be taken to disinfect badger setts after the clearance of TB-infected inhabitants. [157929]

Mr. Bradshaw: Although several methods have been discussed in the past, including bactericidal fumigants and napalm, there are no feasible measures to disinfect badger setts currently available. The size and complexity of sett structure, and the propensity of badgers to re-excavate setts soon after destruction, precludes the efficacy of any of these methods.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether specific TB spoligotypes are more prevalent in badgers than they are in *(a)* bovines and *(b)* other reservoirs. [157931]

Mr. Bradshaw: As, in GB, only a very small proportion of the national badger population and an even smaller proportion of other wildlife species susceptible to bovine TB have been assessed by the spoligotyping technique, it is not possible to provide a meaningful comparison of specific TB spoligotyping prevalences for these three defined populations.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether instances of the detection of multiple TB spoligotypes in single herds have been reported to her Department. [157932]

Mr. Bradshaw: There are many instances where more than one spoligotype has been isolated from a single herd during the same incident. A project (an integrated approach to the application of "Mycobacterium bovis genotyping" for the control of bovine tuberculosis in GB), funded by thee Department, is investigating such data sets; the project is due to end next September and the final report should be available shortly afterwards.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the reliability of the badger TB ELISA test in determining infection in individual badgers. [157941]

Mr. Bradshaw: The indirect ELISA for badgers was evaluated using blood samples collected from 1982 badgers killed during statutory badger removal operations in 1991 to 1993. The sensitivity of the test was 40.7 per cent. and the specificity 94.3 per cent.. The positive predictive value (the percentage of positive test results where the animal was confirmed as infected) of the test was 67.5 per cent., the negative predictive value (the percentage of negative test results where the animal was confirmed as uninfected) 84.6 per cent.. A project (development of immunological assays for the detection of Mycobacterium bovis .nfection in badgers), funded by the Department, is investigating this area. The project is due to end in March 2005 and the final report should be available shortly afterwards.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of *(a)* existing treatments for TB in (i) cattle and (ii) badgers and *(b)* the potential for developing new treatments. [157959]

Mr. Bradshaw: Cattle which are suspected of being affected with tuberculosis must be slaughtered in accordance with the requirements of The Tuberculosis England and Wales Order 1984. Treatment of cattle affected with tuberculosis in cattle is prohibited by the same Order.

If badgers are found in a debilitated condition, which may have been caused by tuberculosis, they may be humanely destroyed to prevent further suffering. There are no circumstances under which antibiotic treatment of badgers with clinical signs would be advisable.

The possibility of vaccinating cattle or badgers to prevent the spread of bovine tuberculosis, is part of the wide ranging TB research programme being carried out by Defra.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent the requirements for the development of BCG vaccination regimes for badgers have been satisifed. [157990]

Mr. Bradshaw: Collaborative research with the Republic of Ireland has shown that parenteral BCG vaccination provides a degree of protection against experimental challenge with "Mycobacterium bovis" in badgers. Progress has also been made in developing immunological tests to detect tuberculosis infection in badgers. Work is under way to identify a feasible and appropriate strategy for delivery of BCG, probably in an oral formulation, to wildlife populations.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her best estimate is of how long it will take to develop a suitable badger vaccine to the point where field trials may be undertaken. [157991]

Mr. Bradshaw: Over the next three-year period, it is proposed to carry out a field experiment to determine the impact of BCG on natural transmission of tuberculosis in badgers, and to optimise vaccine delivery strategies for wildlife. We will then be in a position to carry out a field trial of the impact of badger vaccination on herd breakdown. The size and duration of such a trial could be on a scale similar to that of the randomised badger culling trial.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether an application has been made for European Union funding to assist in the development of badger TB vaccines. [157992]

Mr. Bradshaw: An application was submitted to the EU to support badger vaccination in 1995. The referees comments indicated that they considered this to be a problem restricted to UK and the Republic of Ireland and not of general benefit across member states.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the infective dose range for badgers in respect of M. bovis is in terms of the different portals of entry. [158003]

Mr. Bradshaw: Post mortem examination of naturally infected wild badgers suggests the aerogenic route is the primary route of infection. Currently, experimental infection studies in the Republic of Ireland are underway which may provide information about infective dose via the endobronchial route.

The other significant route of infection for wild badgers is via direct inoculation with infected saliva through bite wounding. The number of organisms required to establish tuberculosis via this route is unknown although previous experimental work showed that intradermal inoculation with approximately 1,000 organisms could result in generalised tuberculosis.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether bovine TB is a natural feature of the ecosystem inhabited by badgers. [158004]

Mr. Bradshaw: Diseases are often natural components of ecosystems and, as such, may play an important role in ecological processes. Badgers, however, inhabit a largely artificial habitat consisting mainly of managed landscapes, particularly for pastoral agriculture. It is this close association with grazing cattle that may have first brought badgers into contact with bovine TB.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs for how many years a breeding badger sow can excrete *M. bovis* bacilli; how many progeny a sow on average produces each year; and how many infected progeny a single female can produce in its lifetime. [158017]

Mr. Bradshaw: Typically, an infected badger may excrete *M. bovis* bacilli for 12–15 months before death, although there are recorded cases of animals with TB living up to nine years. Litter size per sow varies from one to five with an average of three but, generally, only one or two sows per social group will breed each year. It cannot be assumed that an infected sow will infect all its progeny. Assuming, however, that a breeding sow gives birth each year, an animal excreting *M. bovis* for 12–15 months could, theoretically, produce between one and ten infected cubs. It should also be noted that 50 to 70 per cent. of cubs die within their first year.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 8 December 2003, *Official Report*, column 219W, on bovine TB, whether provision has been made for the changing values of individual cattle according to *(a)* market circumstances and *(b)* the status of animals; and whether farmers will be allowed constantly to update the values registered with her Department. [158258]

Mr. Bradshaw: In a consultation document on the Rationalisation of Compensation for Notifiable Animal Diseases, issued on 24 October 2003, it was proposed that compensation would be payable according to table valuations based on market prices to be published monthly, although provision would be made for individual valuations by an approved valuer to be registered at any time before the issue of a notice of intention to slaughter.

The responses to the consultation document are still being considered and no decisions have yet been taken.

Birds

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has collated on the effect of predator control on the sustainability of ground nesting bird populations. [158023]

Mr. Bradshaw: Ground nesting birds can be predated on by a variety of other species. There have been relatively few studies of the effectiveness of removing predators to protect bird populations. A recent review of studies (Cote, I. M. and Sutherland, W.J. 1997, The effectiveness of removing predators to protect bird populations Conservation Biology 11: 395–405) concluded that the studies indicated that the removal of predators had a large, positive effect on the hatching success and post-breeding population sizes of target bird species but not on breeding population size, the effects on which varied considerably between studies. Whilst predator control may thus be a useful tool for game managers, it may not meet the requirements of those seeking to increase the size of bird breeding populations.

Birds

All wild birds are protected by the Wildlife and Countryside Act 1981 and under Section 16 of the Act licences can be issued to allow certain birds to be controlled for the purposes of conserving wild birds or for the purposes of conserving flora and fauna. Defra currently issues a general licence to allow the control of certain species, such as those of the corvid family for this purpose.

Mammals

Mink may also predate certain ground nesting birds. Mink are not protected by domestic legislation and can thus be controlled on a year round basis.

With regard to badgers I have already informed my hon. Friend that Defra is currently funding research aimed at providing a scientifically vigorous assessment of the importance of badger predation on ground nesting birds. The Central Science Laboratory is due to report its findings in March 2005. Until that time I cannot give a definitive answer of the effect of badgers on ground nesting birds.

Export Subsidies

Mr. Wills: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is the Government's policy to eliminate all agricultural export subsidies under the Common Agricultural Policy; and if she will make a statement. [160561]

Alun Michael: The World Trade Organisation Doha Declaration commits all member countries to negotiations aimed at reductions, with a view to phasing out, all forms of agricultural export subsidies. The Government fully supports this commitment.

Farm Subsidies

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 5 March 2004, *Official Report*, columns 1149–51W, on single farm payments, what *(a)* assessment and *(b)* economic analyses were (i) conducted and (ii) completed (A) before and (B) after her statement to the House on 12 February 2004. [160915]

Alun Michael: Numerous economic analyses of the single farm payment have been undertaken over recent months and work is still on-going. These are being drawn together into a single comprehensive document which will be made available shortly.

GM Crops

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to refuse permission for the planting of GM crops in the UK until after *(a)* a co-existence regime to prevent contamination of non-GM crops and *(b)* a liability regime to determine who must pay damages for harm caused by GM crops has been approved by both Houses of Parliament. [158275]

Mr. Morley: The Government have been considering the report on these issues by the Agriculture and Environment Biotechnology Commission and we will set out our thinking shortly.

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs if she will ensure that new scientific evidence from Norway on the Cauliflower Mosaic Virus promoter is taken into account before a decision is taken on the seed listing of Chardon LL fodder maize. [160572]

Mr. Morley: The reported new scientific evidence from Norway on the cauliflower mosaic virus promoter has yet to be published. When the details of this research do become available, the Advisory Committee on Releases to the Environment (ACRE), which advises the Government on the risks posed by the intentional release of GMOs, will be asked to evaluate these data and advise on their implications for existing consents and future applications.

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs when she was informed that *(a)* the transgenic insert used in Chardon LL is unstable and *(b)* the variety would be incapable of passing the distinctiveness, uniformity and stability test under Directive 2001/18/EC. [160573]

Mr. Morley: Chardon LL is a variety of the genetically modified maize known as T25. I understand that the Belgian Competent Authority under Directive 2001/18/EC has published an analysis of the structure of the transgenic insert in GM maize T25 and that this was considered by the Advisory Committee on Releases to the Environment (ACRE) at their meeting on 22 January 2004. ACRE advised that they needed to see the full detail of the Belgian reassessment before coming to a final view and this has been requested from the Belgian Competent Authority. However, their preliminary analysis was that the work did not necessarily indicate instability of the insert, but consisted of additional information available now due to recent improvements in methods for the analysis of transformation events.

The requirement for distinctness, uniformity and stability testing falls under Directive 2002/53/EC and not 2001/18/EC. Chardon LL underwent such testing in France, according to internationally recognised methods and the protocol adopted by the Community Plant Variety Office, as required by the EU legislation. Chardon LL was found to be distinct, uniform and stable by the French testing authorities.

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of the Chardon LL feeding trial involving broiler chickens in relation to the health and safety of GMHT fodder maize. [160578]

Mr. Morley: The Advisory Committee on Releases to the Environment (ACRE) and the Advisory Committee on Animal Feedingstuffs (ACAF) carried out a comprehensive review of the risks posed by the marketing and use of Bayer GM maize T25 (Chardon LL) in response to concerns raised in the Chardon LL public hearing on seed listing. Their advice was published in December 2002. The Committees concluded that there is no evidence from the broiler chicken feeding study that suggests that T25 maize grain fed to animals would pose an increased risk compared with conventional maize grain. However, ACRE advised that the raw data from the chicken feeding study should be re-analysed to maximise its value/power in

comparing the nutritional value of T25 maize grain with that of a non-GM counterpart. The results of this further analysis did not alter the conclusion about the risk posed by this GM maize but slightly increased the power of the study in the extent to which it can resolve any differences between chickens fed GM maize grain and those fed non-GM maize grain. For more detailed comments please refer to ACRE'S advice on Chardon LL maize at http://defra.gov.uk/environment/acre/advice/advice20d.htm, this is also available in the parliamentary Library.

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has communicated the shortcomings of the farm-scale evaluation maize trials to the lead competent authority in France, as required by Directive 2001/18/EC; and whether she has requested a variation in the conditions attached to the Part C consent for Chardon LL fodder maize. [160579]

Mr. Morley: I am not aware of any shortcomings of the farm-scale evaluation (FSE) maize trials, the results have been endorsed by both the Scientific Steering Committee overseeing the evaluations and the Advisory Committee on Releases to the Environment (ACRE). Officials sent the results of the Farm Scale Evaluations, together with the non-specialist and scientific summaries, to the European Commission and the Competent Authorities of the member states for their information on 20 and 21 October 2003. ACRE published its advice on the FSE results on 13 January 2004, and this advice was also sent to the Commission and the Competent Authorities on that date. On 9 March 2004 officials wrote to the French Competent Authority, which issued the relevant consent on behalf of all EU member states, seeking amendments to the consent for Bayer T25 GM maize (Chardon LL) to limit herbicide use with the crop in line with ACRE'S advice.

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs when she was informed that the dry matter content for Chardon LL averages 27.3 per cent. [160619]

Mr. Morley: The Secretary of State was made aware in March 2003 of a range of issues raised in the public hearing on Chardon, including its dry matter content. The lower than average dry matter content in the performance trials was taken into account, but the conclusion on overall value for cultivation and use rightly took the other important characteristics into consideration. These included better than average dry matter yield, early vigour and resistance to lodging.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her oral statement to the House of 9 March 2004, *Official Report*, columns 1381–96, on GM policy, what discussions she has had with biotechnology companies; and what timetable she has set for the establishment of a compensation scheme for farmers and growers adversely affected by the growing of GM crops. [161662]

Mr. Morley: *[holding answer 16 March 2004]:* We have said that we will consult stakeholders on options for providing compensation to non-GM farmers who suffer financially through no fault of their own. Until that consultation exercise has been completed it is too soon to say what the outcome might be. We will consult on this and the co-existence issue as soon as possible. Clearly, discussions with the biotechnology companies will be a necessary part of the consultation process.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her oral statement to the House of 9 March 2004, *Official Report*, columns 1381–96, on GM policy, what support she will give to *(a)* areas, *(b)* zones, *(c)* local authorities, *(d)* regions and *(e)* nations which are seeking to achieve GM free status; and what discussions she plans to have with her counterparts in EU member states to assist in clarifying the (i) powers and (ii) responsibilities of places which seek to declare such status. [161663]

Mr. Morley *[holding answer 16 March 2004]:* This issue has already been discussed within the EU. It is clear that under EU law it is not possible to impose blanket GM-free status on a compulsory or statutory basis at any geographic level. The Government is not seeking to promote GM-free status, but we have said that we will provide guidance to farmers who may want to establish voluntary zones in which GM crops are not cultivated.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her oral statement to the House of 9 March 2004, *Official Report*, columns 1381–96, on GM policy, what rules she plans to put in place in the coming months. [161664]

Mr. Morley *[holding answer 16 March 2004]:* As the statement confirmed, we envisage that measures to facilitate the co-existence of GM and non-GM crops will be in place before any commercial GM cultivation. Our intention is that GM producers should observe a code of practice on co-existence which has statutory backing, based on the 0.9 per cent. EU labelling threshold for adventitious GM presence. We will consult in due course on the details of this, on whether a lower GM threshold might apply for organic production, and on options for compensating non-GM farmers who suffer financially because a GM presence exceeds statutory thresholds.

Nappies

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department is working to make new parents aware of the environmental implications of using disposable nappies. [159094]

Mr. Morley *[holding answer 9 March 2004]:* The Waste and Resources Action Programme has a waste minimisation programme which includes work to ensure parents are given sufficient information to make an informed choice on whether to use re-usable or disposable nappies. This involves, among other things, the employment of a health professional to undertake work in maternity units.

The Environment Agency is undertaking a Life Cycle Analysis to assess the environmental impacts of both re-usable and disposable nappies. The aim is to publish this in the spring.

Radioactive Waste

Dr. Jack Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions she has had with *(a)* the Scottish Executive, *(b)* the Scottish Environmental Protection Agency and *(c)* the United Kingdom Atomic Energy Authority about proposals by the latter to transfer low level radioactive waste from Dounreay to Drigg; why the application for a licence was not advertised in England; and if she will make a statement; [160504]

(2) whether she has agreed to proposals by the United Kingdom Atomic Energy Authority to transfer radioactive waste from Dounreay to Drigg in Cumbria. [160505]

Mr. Morley *[holding answer 15 March 2004]:* The Secretary of State has not had discussions with the Scottish Executive, the Scottish Environment Protection Agency (SEPA) or the United Kingdom Atomic Energy Authority (UKAEA) about these proposals.

The low-level radioactive waste (LLW) disposal site at Drigg in Cumbria is owned by BNFL and is operated by the company on a commercial basis as a United Kingdom facility. BNFL hold an authorisation from the Environment Agency to dispose of LLW at Drigg. I understand that the proposed transfer of waste from Dounreay to Drigg could be accommodated within BNFL's existing authorisation for the site. I also understand that the consultation arrangements adopted in this case were consistent with those for other such transfers to Drigg from sites throughout the United Kingdom. It was not, therefore, considered necessary by the regulators to advertise this application in England.

I understand from the Environment Agency that they intend to carry out a comprehensive review of BNFL's authorisation for Drigg later this year. As part of this review, full public consultations will be undertaken.

The application by UKAEA to transfer LLW to Drigg has been made to SEPA, whose responsibility it is to determine the application under the provisions of the Radioactive Substances Act 1993, subject to the powers of Scottish Ministers. Given that Drigg is operated as a United Kingdom facility and that its existing authorisation is sufficient to cover the proposed transfer, it is not necessary for the Secretary of State to be involved in determining UKAEA's current application.

Slaughtered Stock (Compensation)

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate the cumulative savings that her Department will achieve over financial years 2003–04 to 2012–13 by changing the basis on which compensation is paid to farmers for animals slaughtered. [157951]

Mr. Bradshaw: The responses to the consultation document on the Rationalisation of Compensation for Notifiable Animal Diseases are still being considered and no decisions have yet been taken. It is therefore too early to determine whether any savings will be made.

Radon Gas

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what proportion of UK housing stock has been tested for radon gas; [159891]

(2) how many houses have been tested for radon gas in each of the last seven years; [159892]

(3) what plans she has to encourage the testing of the remainder of UK housing stock for radon gas. [159893]

Mr. Morley *[holding answer 11 March 2004]:* Since 1987 successive Governments have run a radon measurement programme to identify the extent of the radon problem in the UK. During that time 450 thousand of the 25 million UK homes have been tested. Over the last eight years Government-funded measurement programmes have mainly focused on homes likely to be at most risk. In England and Northern Ireland, for example, that has meant every home with a greater than 5 per cent. probability of radon levels being at or above the National Radiological Protection Board's (NRPB) recommended radon "Action Level" (200 becquerels per cubic metre of air) has been offered a free radon test. In accordance with NRPB's recommendation, we advise that remedial action is taken to reduce radon levels in any home at or above the Action Level. It is estimated that over 100,000 homes in the UK are likely to be at or above the Action Level and, of those, around 43,000 have been found. Approximately 90 per cent. of the homes above the Action Level are likely to be in England.

The following table sets out the number of homes tested by NRPB for radon gas in the UK since 1996 up to the present date. The figures from 1998 onwards include radon tests that have been offered to householders as part of pilot studies and a wider on-going programme where the Government are working in partnership with nearly 30 local authorities in England to help householders in radon-affected areas to take action to cut levels of radon in their homes. This supports the Government's policy of encouraging more radon remediation amongst householders in order to reduce the risk that high radon levels pose to their health. The pilot studies run between 1998 and 2000 showed that working at a local level worked well and could double the amount of radon remediation. This success led to the rolling out of the current programme based on the experiences and lessons learned from the pilot studies. We shall be reviewing the initiative before it ends in March 2005 to allow us to determine how successful it has been. We will then make a judgment on the future direction of the Government's radon programme.

In Northern Ireland, the Department of the Environment is continuing to make free radon tests available to householders in areas where radon concentrations in homes have a 1 per cent. or greater probability of being at or above the Action Level. In addition, radon awareness campaigns will be conducted in selected areas of Northern Ireland in partnership with local authorities. These will target areas where there is a greater than 10 per cent. probability of radon levels in a home exceeding the Action Level.

Plans to encourage the testing of dwellings for radon in Scotland and Wales rest with the Scottish Executive and National Assembly for Wales respectively.

	Number of Tests
1996	70,500
1997	54,000
1998	25,800
1999	9,600
2000	6,800
2001	8,000
2002	10,000
2003[1]	11,100
2004[1]	14,100

[1] All the Government-funded tests have used detectors that need to be in place for 3 months. Some tests in 2003 and all those so far commenced in the first two months of 2004 are therefore still to be completed.

Note:

Totals rounded to three significant figures.

Sakhalin Oil and Gas Project

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what consultation has been undertaken by her Department and the Export Credits Guarantee Department on the Sakhalin II phase 2 oil and gas project in relation to its potential impacts upon the Western Gray Whale. [158234]

Mr. Morley: I have discussed the Sakhalin II project, particularly in relation to its potential impacts upon the Western Gray Whale population, with the Minister for Trade and Investment, Mike O'Brien.

The Export Credit Guarantee Department has consulted with the Sakhalin Energy Group at all stages of the project application. In addition, ECGD officials have met and corresponded with a range of stakeholders and NGO's from both Sakhalin and the UK. Defra has been kept informed of these consultations.

Voles/Hedgehogs

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated population was of *(a)* voles and *(b)* hedgehogs in Great Britain in 1990; and what the current estimate of the population is. [158010]

Mr. Bradshaw: Very few data are available on national populations of many mammal species, including voles and hedgehogs. Perhaps the best recent estimates are those made in a publication by the Joint Nature Conservation Committee in 1995[1]. At that time they made the following estimates:

Species	*GB population estimate*	*Reliability of estimate*	*Changing status*
Field vole	75,000,000	Low	Possible decline
Bank vole	23,000,000	Within 50 per cent.	Probably stable
Hedgehog	1,555,000	Low	Possible decline

Since that time, no further national population estimates have been published for these species.

The Tracking Mammals Partnership has now been set up to instigate long-term monitoring of all mammal species, but this will focus on detecting trends rather than estimating absolute abundance (www.jncc.gov.uk/species/mammals/trackingmammals).

[1] A review of British mammals: Population estimates and conservation status of British mammals other than cetaceans by Stephen Harris, Pat Morris, Stephanie Wray and Derek Yalden (1995) JNCC, Peterborough (ISBN 1573701683).

TRANSPORT

Channel Tunnel

Sir Teddy Taylor: To ask the Secretary of State for Transport what recent discussions he has had with the operators of the Channel Tunnel rail services; and if he will make a statement. [161697]

Mr. McNulty: Officials hold regular meetings with parties involved in the Channel Tunnel industry to discuss a range of issues.

Disciplinary/Grievance Procedures

Mr. Llwyd: To ask the Secretary of State for Transport whether each agency in the Department for Transport has disciplinary procedures which comply with *(a)* the ACAS handbook on discipline and grievances at work and *(b)* the ACAS Code of Practice on disciplinary and grievance procedures. [161048]

Mr. McNulty: The disciplinary procedures used in the Department for Transport and its Agencies are considered to be compliant with both the ACAS Handbook and Code of Practice. However it is planned to review the procedures to ensure compliance with the revised ACAS Code of Practice that takes effect from 1 October 2004.

Employment Tribunals

Mr. Llwyd: To ask the Secretary of State for Transport how much money has been spent *(a)* settling and *(b)* contesting claims registered at employment tribunals since the beginning of 2003 in the Department for Transport for (i) race discrimination, (ii) sex discrimination, (iii) disability discrimination, (iv) unfair dismissal and (v) equal pay. [161046]

Mr. McNulty: In 2003 the Department for Transport (excluding Executive Agencies) was the Respondent in the following Employment Tribunal cases:

Equal Pay—10 cases—the total cost of these cases was £44,244.78 made up of Treasury Solicitors and Counsels costs;

Disability Discrimination—1 case—total costs £3,350 made up of Treasury Solicitors costs only;

Race Discrimination—3 cases (with 2 originating from the same applicant)—total costs £16,220.73 made up of Treasury Solicitors and Counsels fees.

In addition to legal fees and disbursements the Central Department paid out a total of £16,727 in settlement costs.

There were no claims for unfair dismissal.

Infrastructure Improvement

Simon Hughes: To ask the Secretary of State for Transport if he will list the transport infrastructure improvement schemes for which he is responsible in *(a)* Greater London and *(b)* each London borough; and what their projected cost is. [158407]

Mr. McNulty: Most transport infrastructure improvement schemes in London are now the responsibility of the Mayor and Transport for London (TfL). Those for which the Secretary of State retains some responsibility are:

Crossrail:

The Government received Cross London Rail Link Limited's (CLRL) Crossrail Business Case in July 2003. We are supportive of the principle of a Crossrail scheme to increase transport capacity across London. But we need to be sure that the current proposals are deliverable, affordable and value for money.

This is why the Secretary of State announced a review of CLRL's proposals, by an expert team under the chairmanship of Adrian Montague. He has now received advice from Adrian Montague which he is studying closely.

Channel Tunnel Rail Link Section 2:

Running from Ebbsfleet in Kent to St. Pancras station, construction of Section 2 began in July 2001. It is broadly on budget and is expected to have cost £3.3 billion when it opens in 2007. Section 2 is currently over 60 per cent. complete.

Additionally Network Rail and the Strategic Rail Authority are progressing the West Coast Route Modernisation, part of which is within Greater London, at a cost of some £7.5 billion. Other schemes in the wider South-east which impact on parts of London are the replacement of Mark I rolling stock (£1 billion), and the power supply upgrade in the Southern region (£2 billion).

Within London planned schemes include Thameslink 2000 with a projected cost of some £3 billion and the East London Line Extensions scheme, with an estimated cost of about £1 billion, together with the freight gauge enhancement on the North London line (£40 million). The Strategic Rail Authority have also been a partner in the launch of the "Overground Network" with Transport for London, involving branding and customer information enhancements at 40 south London stations at a total cost of £1.5 million. There are also a number of smaller scale improvements being taken forward via the Rail Passenger Partnerships (RPP) fund.

With the exception of one RPP scheme (Brentford station improvement), none of the schemes mentioned falls within a single London borough.

Motorised Scooters

Mr. Hancock: To ask the Secretary of State for Transport if he will introduce requirements for *(a)* eyesight tests, *(b)* a road test and road awareness programme, *(c)* a requirement to have insurance, *(d)* a set maintenance standard and *(e)* training and testing, for people wishing to drive motorised scooters and if he will make a statement. [161966]

Mr. Jamieson: Motorised scooters are motor vehicles within the meaning of Section 185 of the Road Traffic Act 1988, and are therefore already subject to road traffic law. To be used on the road they must comply with construction regulations and meet registration, road tax, insurance and MOT testing requirements. The rider is required to hold an appropriate driver licence and wear a suitable motorcycle helmet.

This does not apply to Class 2 and 3 Invalid Carriages which are defined as "not being a motor vehicle" for certain parts of Road Traffic Law. We believe that most users of these vehicles operate them safely but a review of the law is needed. The review is due to be completed during the summer. Decisions will then be taken about whether any changes are required to the law.

Steer Davies Gleave

Mr. Watson: To ask the Secretary of State for Transport how many contracts, and of what value, the Strategic Rail Authority has placed with Steer Davies Gleave in each of the last five years. [161794]

Mr. McNulty: The information is provided in the following table.

£ thousand

	Number of contracts[1]	*Total value*[2]
1999	[3]1	48
2000	—	—
2001	—	—
2002	3	214
2003	12	1,184

[1] With a value of over £25,000

[2] Rounded

[3] Contract let by Office of Passenger Rail Franchising

Stress

Mr. Llwyd: To ask the Secretary of State for Transport how many days have been lost owing to stress in *(a)* the Department for Transport and *(b)* Transec Division. [161047]

Mr. McNulty: In 2003 for the centre of the Department for Transport (excluding the Executive Agencies) 2,206 days were recorded with 'stress/anxiety/depression' given as the reason for absence. For Transport Security Directorate, 349 days were recorded under this heading during 2003.

Travel Costs

Norman Baker: To ask the Secretary of State for Transport what has been the change in costs of travelling by *(a)* car, *(b)* train and *(c)* bus in each year since 1974, taking 1974 as a base figure of 100, and discounting inflation. [160584]

Mr. McNulty: The following table shows the information requested on real changes in the cost of transport as indices based on 1974 = 100. The information is available in Transport Statistics Great Britain, although the current edition does not include 2003 data and is based to 1992 = 100.

	All motoring[1]	Rail	Bus
1974	100.0	100.0	100.0
1975	104.4	109.2	104.9
1976	101.2	124.3	114.9
1977	99.9	125.0	114.1
1978	99.7	132.0	119.4
1979	104.0	128.8	118.4
1980	103.8	135.6	127.0
1981	103.9	138.6	125.6
1982	101.0	146.5	133.3
1983	103.2	148.5	134.7
1984	100.7	142.0	131.1
1985	99.4	142.4	128.9
1986	94.7	147.0	135.2
1987	96.3	148.4	137.4
1988	95.9	151.3	140.1
1989	93.9	153.2	140.2
1990	91.0	152.2	135.1
1991	92.3	158.8	145.5
1992	95.0	164.2	150.2
1993	97.6	173.0	154.3
1994	98.5	176.3	154.6
1995	97.0	178.1	155.0
1996	97.5	180.3	156.9
1997	99.6	178.9	157.6
1998	99.3	180.1	157.3
1999	100.2	183.8	160.6
2000	101.0	181.6	162.3
2001	98.7	185.3	166.1
2002	96.3	186.5	168.5
2003	94.8	184.3	170.6

[1] "All motoring" includes the cost of purchase, maintenance, fuel, tax and insurance

Retail Price Index, Office for National Statistics

Way to Go Campaign

Mr. Wiggin: To ask the Secretary of State for Transport if he will make a statement on progress with the Way to Go campaign. [161193]

Mr. McNulty: The Government are committed to developing a modern, efficient and sustainable transport system fit for the 21st century. The Way to Go campaign raises a number of important issues about how our transport system can better serve people's needs. Many of the transport schemes being implemented across the country are those advocated by the Way to Go campaign. Our plans will deliver over £180 billion of public and private money across all forms of transport over the 10 years to 2010, a 45 per cent. real terms increase over the previous decade.

PRIME MINISTER

Parliamentary Questions

Norman Baker: To ask the Prime Minister what his policy is in respect of providing substantive answers to written parliamentary questions where he concludes that to provide such answers would be detrimental to the work of Government. [162307]

The Prime Minister: I have nothing further to add to the answer I gave him on 2 March 2004, *Official Report*, column 849W.

United Nations Charter

Mr. Allen: To ask the Prime Minister what proposals he has for reform of the United Nations Charter to allow the United Nations greater rights *(a)* to intervene within the territory of member states and *(b)* otherwise to override their sovereignty. [162309]

The Prime Minister: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Blaenau Gwent (Llew Smith) on 15 March 2004, *Official Report*, column 38W.

SCOTLAND

Climate Change

Mr. Dalyell: To ask the Secretary of State for Scotland what conclusions he has drawn for Scotland from the writings of the Government Chief Scientist on climate change. [160371]

Mrs. McGuire: The Government Chief Scientist's article in the journal Science in January 2004 concluded that the evidence for man-made climate change was convincing and could not be ignored. The Government shares that view, as my right hon. Friend the Prime Minister said in reply to my hon. Friend on 11 March 2004, *Official Report*, column 1655W.

The Government are committed to making significant reductions in emissions of the greenhouse gases which cause man-made climate change. The UK Climate Change Programme sets out a number of measures to reduce such emissions; the UK programme includes the Scottish Executive's Climate Change Programme.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Scotland how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158167]

Mrs. McGuire: The Scotland Office employs three press officers, one of whom is part time, who are current members of the Government Information and Communications Service. The office also has one special adviser. The Special Adviser's Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. No other staff are employed in the communications field.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Scotland which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG. [156888]

Mrs. McGuire: No former officials of the Scotland Office have asked for permission to join these organisations.

Secondments

Mr. Cousins: To ask the Secretary of State for Scotland what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156913]

Mrs. McGuire: No secondments have been made between the Scotland Office and these organisations.

Temporary Staff

Matthew Taylor: To ask the Secretary of State for Scotland how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158245]

Mrs. McGuire: The Scotland Office currently employs two temporary staff. This comprises 2.3 per cent. of total staff employed.

Details of payments to employment agencies for temporary staff are as follows:

	£
2001–02	75,392
2002–03	78,539
2003–04	[1]59,991

[1] To end February 2004.

NORTHERN IRELAND

Belfast Agreement

8. **Mr. Hunter:** To ask the Secretary of State for Northern Ireland if he will make a statement on the progress of the current talks about the future of the Belfast agreement. [160824]

Mr. Spellar: As my right hon. Friend the Prime Minister said last week, after the St. Patrick's Day break the two Governments will be seeking to inject fresh momentum into the dialogue between the political parties, with a view to securing early movement on an end to paramilitarism and the return of devolved government. The Prime Minister and the Taoiseach will visit Northern Ireland next Tuesday for discussions with the parties.

Devolution

9. **Mr. Goodman:** To ask the Secretary of State for Northern Ireland what recent discussions he has had on the restoration of devolution in the Province. [160825]

Mr. Spellar: I refer the hon. Member to the answer I gave previously to the hon. Member for Basingstoke (Mr. Hunter).

Decommissioning

10. **Sir Nicholas Winterton:** To ask the Secretary of State for Northern Ireland what progress has been made on arms decommissioning. [160826]

Jane Kennedy: Four acts of decommissioning have taken place to date—one carried out by the LVF and three by PIRA. The latest decommission act occurred on 21 October 2003 in which the Independent International Commission on Decommissioning confirmed they witnessed a third event in which IRA weapons were put beyond use. The quantity of arms involved was larger than the quantity put beyond use in the previous event.

Employment (Strangford)

11. **Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on job prospects in Strangford. [160827]

Mr. Pearson: Residents based claimant rates indicate that in January 2004 unemployment in the Strangford constituency stood at 3.6 per cent. However, the hon. Lady will be aware of the recent announcement locally that TKECC is to close with the loss of 550 jobs. Invest NIs Local Office team is working with other Government Departments to facilitate retraining and other employment-related options for the work force. Since April 2002 Invest NI has offered client companies in the constituency over £3 million assistance towards investment of over £12 million. In addition it has supported 270 business start-ups and continues to work in close partnership with the local councils in support of their economic development activities.

Higher Education

12. **Mr. Luke:** To ask the Secretary of State for Northern Ireland if he will make a statement on the expansion of higher education in Northern Ireland. [160828]

Jane Kennedy: Since 1999 there has been an increase of over 4,000 in the number of full time equivalent student places in Northern Ireland. This year we will be increasing provision by an additional 330 places and are also considering a substantial increase in places on specialist medical and social working training courses.

Economy

13. **Mr. Lyons:** To ask the Secretary of State for Northern Ireland if he will make a statement on the development of the Northern Ireland economy since the Good Friday agreement. [160829]

Mr. Pearson: Since the Good Friday agreement was signed, the number of employee jobs has reached record levels, increasing by 61,550 from March 1998 to December 2003. Claimant count unemployment at 4.1 per cent. of the work force is at its lowest rate since the mid 1970s and growth in Gross Value Added of 13 per cent. between 1998 and 2001 makes Northern Ireland one of the fastest growing UK regions.

Burns Report

14. **Mr. Chaytor:** To ask the Secretary of State for Northern Ireland what progress he has made in

implementing the recommendations of the Burns report on post-primary education; and if he will make a statement. [160830]

Jane Kennedy: Following extensive consultation on the Burns report, I established the Post-Primary Review Working Group to consider the responses to the consultation and provide advice about future post-primary arrangements. On 26 January 2004, I announced that I had accepted the Working Group's recommendations, and work has started on implementing these recommendations.

Ambulance Drivers

Lady Hermon: To ask the Secretary of State for Northern Ireland what legislation or regulations prevent diabetes sufferers from serving as ambulance drivers in Northern Ireland; and if he will make a statement. [161349]

Angela Smith: The Motor Vehicles (Driving Licences) Regulations (Northern Ireland) 1996 (as amended) prescribes insulin-dependent diabetes as a relevant disability in respect of the issue of Group 2 licences (i.e. those that authorise the driving of passenger carrying vehicles and large goods vehicles).

In light of this, and in accordance with Article 9(3) of the Road Traffic (Northern Ireland) Order 1981 (as amended) the Department of the Environment must not grant such a licence to a person who suffers from such a disability.

In addition, it is the opinion of The Secretary of State for Transport's Medical Advisory Panel on Driving and Diabetes that drivers with insulin-treated diabetes should not drive emergency vehicles

A person whose diabetes is treated by diet alone or by diet and tablets are allowed to hold such a licence provided they are otherwise in good health.

In order to be employed as an Ambulance person within Northern Ireland Ambulance Service there is an essential requirement to hold a full and clean driving licence, which includes Categories C1 (to drive minibuses) and D1 (to drive vehicles over 3½ tonnes).

In the past where it has come to the attention of the NI Ambulance Service that an employee has developed diabetes, it has redeployed the employee from driving duties.

Avian Influenza

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what precautions have been taken to counter an outbreak of avian influenza in Northern Ireland. [160617]

Mr. Pearson: Following the introduction of EU restrictions on imports of poultry meat and poultry products from Thailand on 23 January, the Department of Agriculture and Rural Development (DARD), as a precautionary measure, suspended all imports of live poultry, poultry meat products, captive birds, pet birds and eggs for human consumption from Asian countries most affected by avian influenza. Equivalent action was also taken following a further outbreak of avian influenza in the USA in February and the same action is currently under way for the outbreak in Canada.

As regards the animal health aspects, DARD has a contingency plan for dealing with an outbreak of avian influenza, which has been approved by the EU. This plan is currently being reviewed and updated to ensure that any outbreak could be dealt with quickly and effectively. Advice regarding biosecurity has been re-issued to the poultry industry and is available on the DARD website.

As regards the human health aspects, the Department of Health and Public Safety (DHSSPS) in conjunction with DARD and other UK Health Departments, is continuing to monitor international developments in relation to the transmission of avian influenza to humans. DHSSPS has placed information for travellers on their website and has been working with DARD and the Health and Safety Executive for Northern Ireland to ensure protection of poultry workers.

Belfast City Airport

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the outcome of his Department's meeting with representatives of Belfast City Airport on 10 March. [161347]

Angela Smith: The purpose of the meeting was to clarify the City Airport's request for a review of the existing Planning Agreement, to determine the issues involved in such a review and to discuss a possible way forward.

The City Airport representatives have agreed to submit details of their proposals and their possible implications for the current Planning Agreement to the Planning Service, probably within two months. A further meeting will then be arranged.

Birth Statistics

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many birth defects there were in Northern Ireland in each year since 1999. [160622]

Angela Smith: Information on all birth defects is not available. However, information is collected by the Chief Medical Officer on the number of children born each year suffering from a number of selected congenital malformations in Northern Ireland. This information for the years 1999 to 2003 is as follows.

Number of Selected Congenital Malformations, 1999 to 2003

	Anencephalus	*Hydrocephalus*	*Spina Bifida*	*Downs Syndrome*
1999	5	13	8	27
2000	0	13	9	32
2001	5	11	13	36
2002[1]	6	9	9	34
2003[1]	3	6	12	32

[1] Figures not yet published by CMO.

Northern Ireland Child Health System

Ceasefire Breaches

David Burnside: To ask the Secretary of State for Northern Ireland pursuant to his answer of 2 March

2004, *Official Report*, column 836W, on ceasefire breaches, what criteria he uses to assess whether there has been a breach of a ceasefire by a paramilitary group; and how many times since January these criteria have been met by the actions of the *(a)* Provisional IRA, *(b)* UDA and *(c)* UVF. [161469]

Jane Kennedy: Section 3(9) of the Northern Ireland (Sentences) Act 1998 sets out the criteria which the Secretary of State takes account of in making a judgement on the status of a ceasefire. The Secretary of State makes a judgement in the round. The ceasefires of the Provisional IRA and the UVF are recognised, the ceasefire of the UDA is not.

Citizenship Ceremonies

Lady Hermon: To ask the Secretary of State for Northern Ireland whether citizenship ceremonies taking place in Northern Ireland will follow exactly the same format as in the rest of the United Kingdom. [161397]

Jane Kennedy: The Home Office has set out a basic format for a citizenship ceremony but they will vary from place to place throughout the United Kingdom, both to account for numbers of applicants and the incorporation of local features.

In Northern Ireland, the ceremonies will be held in Hillsborough Castle and will be conducted by a Lord Lieutenant. The format of the ceremonies in Northern Ireland will be an introduction and welcome speech by the Lord Lieutenant. The new citizens will then take an oath and pledge—the only parts of the ceremony which are mandatory throughout the UK. Following this, the Lord Lieutenant will present each of the applicants with their certificate of citizenship. There will then be a short congratulatory speech and the ceremony will end with the playing of the national anthem.

Civil Contingencies Bill

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with his colleagues in the Cabinet Office in relation to the Civil Contingencies Bill; and if he will make a statement. [161292]

Jane Kennedy: There has been regular contact, both at Ministerial and official level, with Cabinet Office and other colleagues in relation to the Civil Contingencies Bill. The Bill will place civil protection on a modern, statutory footing and, together with associated administrative arrangements, will provide a uniform level of protection throughout the United Kingdom.

Civil Service

Mr. Mallon: To ask the Secretary of State for Northern Ireland how many posts in the Northern Ireland Civil Service of the grade equivalent to that of the post of audit manager for the Northern Ireland Court Service as advertised in competition PB/1/04 advertised in each of the last five years *(a)* have and *(b)* have not been reserved. [160338]

Mr. Pearson: Nine competitions to fill posts at this level were advertised as follows.

	Competitions
1999–2000	1
2000–01	1
2001–02	4
2002–03	2
2003–04	1

The competitions were advertised on the basis that none of the posts were reserved for UK nationals.

Costello Report

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will list the *(a)* meetings and *(b)* discussions he has with (i) school principals and (ii) other interested parties since the publication of the Costello Report. [161286]

Jane Kennedy: Since the publication of the Costello Report, I have met with representatives of the UUP, DUP, SDLP, Sinn Fein, the Alliance Party and the Governing Bodies Association. I have received a request for a meeting with representatives of the Catholic Bishops of Northern Ireland and I hope to meet with them in the very near future. Officials have been involved in discussions with members of the Association of Head Teachers in Secondary Schools and with post-primary school principals in the Belfast and Southern Education and Library Boards and shortly with those in the South Eastern Education and Library Board.

Dental Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to facilitate urgent dental procedures in children with special needs. [161686]

Angela Smith: The Department has been in discussion with the Belfast Dental Hospital (Royal Group of Hospitals Trust) and the Community Dental Service to urge identification of spare theatre capacity outside of the Royal site to facilitate treatment for children with special needs.

A working group has also been set up to look at the development and long-term planning for the delivery of dental treatment to children with special needs, and the issues of dental treatment for children and adults with special needs will be addressed within the new Oral Health Strategy which is currently under consideration.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to ensure that young adults with complex medical needs have equality of access to dental care. [161688]

Angela Smith: The Chief Dental Officer has set up a working group to look at future development of dental services for young adults with complex medical needs. The group is chaired by the Dental Director of the Eastern Health and Social Services Board and draws together both medical and dental staff involved in the care of these people.

In addition the Chief Dental Officer is undertaking a new Oral Health Strategy (OHS) for Northern Ireland which will address the needs of the learning disabled and medically compromised children and adults.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on availability of dental services for young people aged 14 years and above with complex medical needs. [161689]

Angela Smith: Dental services for young people over the age of 14 years who have complex medical needs are under considerable pressure at the moment. Currently there is only one consultant and one associate specialist in special needs at the Belfast Dental Hospital. They also provide services at outreach clinics throughout Northern Ireland. Most of these patients require their dental treatment carried out under general anaesthesia on an acute hospital site. A shortage of medical consultant anaesthetists and appropriate facilities have also increased the pressure on services over the past couple of years. Efforts are being made at present to address these difficulties.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the withdrawal of dental services for young people at Muckamore Abbey Hospital. [161690]

Angela Smith: There was a reduction of dental services for young people at Muckamore Abbey Hospital following a review of the use of general anaesthesia and conscious sedation in primary dental care by the Chief Medical Officer and the Chief Dental Officer of the NHS in England.

The report and subsequent guidelines issued in July 2000 effectively limited the use of general anaesthesia to acute hospitals in the interests of patient safety. General anaesthetic sessions at Muckamore Abbey Hospital ceased in December 2000, although routine dental treatment continues to be provided there.

Disability Discrimination

Mr. Dodds: To ask the Secretary of State for Northern Ireland what measures he plans to tackle discrimination against people with disabilities in the areas of *(a)* transport and *(b)* access to public buildings. [159557]

Mr. Spellar: The information is as follows:

(a) A number of measures in relation to transport will extend protection for people with disabilities. The Department of the Environment intends to begin consultation in May 2004 on proposals to implement the UK Government's commitment on making (public hire) taxis accessible to people with disabilities. The Department also intends to extend provisions relating to the carrying of guide dogs, hearing dogs and other prescribed categories of dogs to licensed drivers of private hire vehicles in mid 2004.

The Northern Ireland Executive agreed in principle to proceed to the removal of the transport exemption from Part III of the Disability Discrimination Act 1995 (DDA) in Northern Ireland. It is proposed to issue a Northern Ireland consultation document by May 2004 on the removal of the exemption based on the consultation by the Department for Transport in Great Britain. It is also planned to amend Part V of the DDA in respect of Northern Ireland by taking powers to amend the rail Vehicle Accessibility (NI) Regulations 2001.

(b) Additional duties on service providers will come into effect on 1 October 2004. This is the last of three stages placing duties on service providers to help eliminate discrimination in the area of access to services for disabled people and means that service providers may have to make other "reasonable adjustments" in relation to the physical features of their premises to overcome physical barriers to access.

Drug Seizures

Mr. Dodds: To ask the Secretary of State for Northern Ireland what quantities of hard drugs were seized by *(a)* the police, *(b)* Customs and Excise and *(c)* other agencies in Northern Ireland in each year since 1997. [159553]

Jane Kennedy: The amounts of cocaine, heroin and ecstasy seized by the Police Service of Northern Ireland, Her Majesty's Customs and Excise, and the Northern Ireland Prison Service are detailed in the following tables.

Customs efforts to protect Northern Ireland from drugs cannot be measured solely on results in Northern Ireland itself. In 2002–03, Customs took out 11,549 kilos of Class A drugs, targeted on the UK, some of which would have been destined for Northern Ireland. We are unable to supply data on drug seizures by Customs, prior to 1999 as to do so would require a substantial manual exercise and would incur disproportionate cost.

Data for drug finds in prison establishments prior to March 2001 was not collated centrally and is not available.

Equality Commission

Mr. Beggs: To ask the Secretary of State for Northern Ireland what reports he has received from *(a)* consultants and *(b)* the Northern Ireland Audit Office on the outcome performance of the Equality Commission; and if he will place the reports in the Library. [160011]

Mr. Spellar: I have not received any reports from consultants relating to the overall outcome performance of the Equality Commission for Northern Ireland. The Northern Ireland Audit Office carries out an annual audit of the Commission's Accounts. Its opinion is included within the Financial Statement section of the Commission's Annual Report which is laid in Parliament and the Northern Ireland Assembly. A copy of the Audit Office Management Letter relating to the Annual Accounts is also provided to Office of the First and the deputy First Minister. The Commission's Corporate Plan has been approved by Ministers and its performance against this Plan and its annual Business Plan is subject to on-going monitoring.

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will make a statement on the Equality Commission's outcome performance in relation to equality of opportunity. [160012]

Mr. Spellar: The Equality Commission for Northern Ireland has a number of statutory duties. Among these are the duties to promote equality of opportunity and affirmative and positive action. It has a Corporate Plan and Annual Business Plan and its performance against these is monitored. The Commission reports on its performance against these within its Annual Report which is laid in both Parliament and the Northern Ireland Assembly.

Fruit and Vegetable Subsidy

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will introduce a fruit and vegetable subsidy scheme for low income families in Northern Ireland. [161288]

Angela Smith: The Food Benefit Schemes (Northern Ireland) Order provides for the establishment of a new Welfare Food Scheme or Schemes in Northern Ireland. It is anticipated that the Department of Health, Social Services and Public Safety will be consulting on the detail of a new Scheme in Spring 2004. It is intended that the new Scheme will add fresh fruit and vegetables to the liquid milk and infant formula already available through the current scheme to low income families.

General de Chastelain

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many full days General John de Chastelain has spent in Northern Ireland during 2004. [160591]

Jane Kennedy: During 2004 General de Chastelain has been engaged in decommissioning work in Northern Ireland for approximately one week per month.

Health Professionals

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what precautionary steps are to be taken to ensure that health professionals from other EU member states are fit to practice on arrival in Northern Ireland, with particular reference to the imminent expansion of the European Union. [160629]

Angela Smith: All acceding States are committed to ensuring that the qualifications they award to doctors, nurses responsible for general care, midwives, dentists and pharmacists who begin their training on or after the date of accession meet specified minimum requirements. It is for the European Commission, who are closely monitoring their progress, to see that these obligations are met. They intend to update member states shortly.

Other migrant workers will be entitled to a comparative scrutiny of their qualifications and experience against any national requirements, and, in the event of a substantial difference, may be required to undertake additional training or experience.

Health Promotion

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to enhance *(a)* co-operation and *(b)* communication between local agencies involved in health promotion. [161684]

Angela Smith: Each Health and Social Services Board has established a multi-sectoral Investing for Health Partnership to enhance co-operation between agencies to promote the health and well-being of the people in their areas.

The Department of Health, Social Services and Public Safety has also set up a Regional Health Promotion Planning Group, chaired by the Chief Executive of the Health Promotion Agency for Northern Ireland, to advise on the development of health promotion policies generally and improve communication in health promotion across Northern Ireland. Investing for Health Partnerships are represented on the Group.

Health Service Employees

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the contribution made by health service employees aged 65 or over to the NHS in Northern Ireland. [160464]

Angela Smith: HPSS employees do a difficult and demanding job which serves the sick and vulnerable in our society. Age is not a factor in determining the value of the contribution of HPSS employees.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many health service employees were aged 65 years and above in Northern Ireland on the latest date for which figures are available. [160585]

Angela Smith: The number of employees aged 65 years and above working in HPSS organisations in Northern Ireland as at 31 December 2003 was 99 (or 65.4 whole time equivalent).

Human Rights Commission

Lembit Öpik: To ask the Secretary of State for Northern Ireland if he will extend the term of one or more of the Commissioners due to leave the Northern Ireland Human Rights Commission on 29 February; and if he will make a statement. [159855]

Mr. Spellar: Under guidance from the Office of the Commissioner for Public Appointments, there is an expectation that appointments to upper tier bodies such as the Northern Ireland Human Rights Commission should be for no more than two terms.

Lembit Öpik: To ask the Secretary of State for Northern Ireland for what reasons his Department has decided to continue to pay those members of the Northern Ireland Human Rights Commission who withdrew from the business of the Commission in September 2003; and if he will make a statement. [159856]

Mr. Spellar: Both Commissioners who withdrew from the Northern Ireland Human Rights Commission in September 2003, while not actively engaged in Commission business, have continued to receive papers. It is on this basis and in the hope that the two Commissioners would re-engage with their fellow Commissioners that the Northern Ireland Office has continued to pay them.

The term of appointment of one of the two Commissioners who withdrew from the Commission's activities expired on 29 February.

Lembit Öpik: To ask the Secretary of State for Northern Ireland when he expects to make a definitive response to the Review of Powers which was submitted to him by the Northern Ireland Rights Commission on 28 February 2001; for what reasons he has not yet made such a response; and if he will make a statement. [159857]

Mr. Spellar: The deadline for responses to the Government's consultation document on the Commission's Review of Powers submission was 16 August 2002, but suspension of the Assembly then intervened.

The Joint Declaration committed the Government to bring the consultation on our draft response to the Northern Ireland Human Rights Commission's Review of Powers to an end following restoration of devolution. This was subsequently brought forward to October 2003. However the election in November and an outstanding response from a key consultee made this impossible.

The Northern Ireland Human Rights Commission is a key institution of the Belfast Agreement. The Government want it to succeed and are committed to helping it to do so. We are considering our response to the Review of Powers as part of a package of measures to ensure that we have a strong, independent and self-confident Commission, which draws support from all parts of the community. I intend to make an announcement in the near future.

In-patient Beds

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many staffed inpatient beds there were in Northern Ireland in each year since 1997. [160496]

Angela Smith: Information on the average number of available inpatient beds is shown in the following table. Average available beds are defined as the average number of beds available during the year in wards that are open overnight, measured at midnight. Hospitals may also have a number of beds in wards, which are open only during the day. Beds reserved for day case admission or regular day admission are not included.

Average available beds in Northern Ireland 1997–2003

	Northern Ireland Average
1997–98	9,005.8
1998–99	8,817.8
1999–2000	8,638.8
2000–01	8,571.0
2001–02	8,419.1
2002–03	8,301.3

Source:
Aggregate Hospital Return KH03a.

Insurance Companies

Lembit Öpik: To ask the Secretary of State for Northern Ireland what powers are available to him to ensure that those insurance companies operating within Northern Ireland who are not members of the Association of British Insurers are able to discharge their present and future obligations to those who have placed business with them; and if he will make a statement. [161676]

Mr. Pearson: The Secretary of State for Northern Ireland has no powers in this regard. Insurance is a reserved matter, and the regulation of the insurance industry in the UK is a matter for the Financial Services Authority, within the framework of the Financial Services and Markets Act 2000 and associated secondary legislation.

Police Training College

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) what funding has been allocated to the construction of the new Police Service of Northern Ireland training college; and if he will make a statement; [161381]

(2) what he expects the annual budget of the new police training college to be. [161289]

Jane Kennedy: The provision of the new Police College is a Public Private Partnership Project. The detailed specification is currently being developed by the Police Service of Northern Ireland. The annual cost of operating this college will not be known until the tendering process, which commences later this year, has been completed.

Medical Staff

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many *(a)* doctors and *(b)* nurses there were per head of population in Northern Ireland in each year since 1997. [160472]

Angela Smith: The information requested is not available.

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many *(a)* doctors and *(b)* nurses were practising in Northern Ireland per 1,000 population in each year since 1997. [160481]

Angela Smith: The information requested is as follows.

Number of doctors, qualified nurses and unqualified nurses working in HPSS organisations per 1,000 population in each year since 1997.

As at	*Doctors*[1]		*Qualified Nurses*[2]		*Unqualified Nurses*	
September	*Headcount*	*[3]WTE*	*Headcount*	*[3]WTE*	*Headcount*	*[3]WTE*
1997	2.1	1.9	7.8	6.7	2.3	2.0
1998	2.2	2.0	7.8	6.7	2.3	2.0
1999	2.1	2.0	7.9	6.7	2.4	2.1
2000	2.2	2.0	8.0	6.8	2.4	2.1
2001	2.2	2.1	8.0	6.8	2.5	2.2
2002	2.4	2.2	8.4	7.1	2.7	2.3
2003	2.4	2.3	8.8	7.5	2.7	2.3

[1] Doctors include medical doctors and general practitioners but exclude those doctors practising exclusively in the private sector
[2] Figures for qualified nurses include health visitors, district nurses, midwives, school nurses, community psychiatric nurses, student health visitors, student midwives and other qualified nurses
[3] Whole Time Equivalent

MRSA

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many deaths were attributable to MRSA in Northern Ireland in each of the last five years. [160615]

Mr. Pearson: There is no specific code to identify Methicillin Resistant *Staphylococcus aureus* in the International Classification of Diseases, and it is thus not possible to provide the exact information requested. Information has been provided in the table based on the number of occasions on which MRSA or *Staphylococcus aureus* are mentioned on the death certificate.

Table: Number of registered deaths where the death certificate mentioned Staphylococcus aureus or MRSA, 1998–2002

	1998	*1999*	*2000*	*2001*	*2002*
All *Staphylococcus aureus*	14	20	17	32	36
MRSA	11	13	14	16	25
Percentage of mentions of *S. aureus* that were MRSA	79	65	82	50	69

Musgrave Park Hospital (Brain Injury Unit)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the funding of the new Acquired Brain Injury Unit at Musgrave Park Hospital. [160586]

Angela Smith: The cost of the project is estimated at £8.4 million. The capital is being provided from Executive Programme Funds, established in the former Northern Ireland Executive's 2000 Budget. The resources are being allocated to Green Park Trust, in line with the financing requirement for the construction programme.

Olympic Bid 2012

Lady Hermon: To ask the Secretary of State for Northern Ireland what *(a)* meetings and *(b)* communications he has had with the organisers of the 2012 London Olympic bid in relation to promoting Northern Ireland as a venue for games events. [161889]

Angela Smith: The Chair of London 2012, Barbara Cassani, is undertaking a series of visits across the UK to promote and secure support for the bid. A visit to Northern Ireland is expected to take place in May or June. The Olympic Bid has also become a standing item on the agenda for the Sports Cabinet, which is attended by UK Sports Ministers, including the Secretary of State for Culture, Media and Sport. Regular contact takes place with the Department of Culture, Media and Sport through an inter-departmental group on the Olympic bid. One of the issues discussed by this group is how the regions, including Northern Ireland, can benefit from the games. Northern Ireland has been suggested as a venue for some of the matches in the early rounds of the

football tournament and there is also the further possibility, prior to the Games, of hosting training and acclimatisation camps for competing countries.

Paramilitary Offences

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how many paramilitary offences have been committed by *(a)* Republican and *(b)* Loyalist groups in Northern Ireland since the signing of the Belfast Agreement, broken down by category of offence. [159643]

Jane Kennedy: The information requested is as follows.

Security situation statistics 11 April 1998 to 29 February 2004

	Perceived attribution[1]			
	Loyalist	*Republican*	*Other/not known*	*Total*
Number of deaths as a result of the security situation[2]	55	49	2	106
Number of shooting incidents[3]	942	442	160	1,544
Number of bombing incidents[4]	718	157	47	922
Number of casualties as a result of paramilitary style assaults	538	298	0	836
Number of casualties as a result of paramilitary style shootings	521	283	0	804

[1] Attribution is as perceived by PSNI based on the information available.
[2] Includes all deaths due to the security situation.
[3] The following types of incidents are included: shots fired by terrorists; shots fired by the security forces; paramilitary-style attacks involving shootings; shots heard (and later confirmed); other violent incidents where shots are fired (e.g. armed robbery).
[4] An individual bombing incident may involve one or more explosive devices. Incidents recorded include explosions and defusings. Incidents involving hoax devices, petrol bombings or incendiaries are excluded.
Note:
Statistics are provisional and may be subject to minor amendment.

Police Service of Northern Ireland

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much the Police Service of Northern Ireland has paid to recruitment agencies since its formation; and how much was paid to recruitment agencies in each of the last three years of the Royal Ulster Constabulary. [160611]

Jane Kennedy: As at 1 March 2004 a total of £19,509,108 has been paid to recruitment agencies. This includes spending on the recruitment of police trainees, police reserve trainees and permanent support staff. This total also includes salary costs for temporary agency workers.

Prior to the formation of the Police Service of Northern Ireland in November 2001, the organisation did not utilise recruitment agency personnel.

Punishment Beatings

Mr. Swayne: To ask the Secretary of State for Northern Ireland what steps he is taking to eliminate punishment beatings. [120819]

Jane Kennedy: The Government condemn the practice of so called punishment beatings which are quite simply barbaric and brutalising paramilitary assaults. The Government are engaged in dialogue with political and community leaders and opinion formers to use their influence to bring the practice to an end.

Radiographers

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the most recent figures are for the numbers of *(a)* employed radiographers and *(b)* vacancies for radiographers in Northern Ireland. [160628]

Angela Smith: The information requested is as follows.

Refuse Dumping

Mr. McGrady: To ask the Secretary of State for Northern Ireland what discussions there have been between the Minister for the Environment and his counterpart in the Republic of Ireland, regarding the illegal dumping of refuse from the Republic of Ireland on the northern side of the border. [161678]

Angela Smith: A meeting with Martin Cullen TD, Minister for the Department of Environment, Heritage and Local Government has been scheduled for early April 2004 to discuss a range of waste management issues including cross-border movements of waste.

Segregation

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the cost of facilitating segregation between Loyalist and Republican prisoners has been in the last 10 years; and what estimate he has made of future costs to maintain the system. [161682]

Jane Kennedy: The operation of segregated and normal regimes has not been costed separately over the last 10 years. The Prison Service expects to incur £9.5 million in additional resource expenditure during 2004–05 in order to accommodate the separation of Loyalist and Republican prisoners.

Taxis

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what sanctions are available to penalise taxi drivers who intentionally *(a)* turn off the meters in their vehicles and *(b)* overcharge passengers; and if he will make a statement. [161685]

Angela Smith: The current fleet of licensed taxis in Northern Ireland is approximately 6,400. Of these 255 (or 4 per cent.) are subject to fare regulation. Drivers of taxis whose fares are regulated must charge the hirer the metered fare when operating within a five mile radius of Belfast city centre. The only exception is if the taxi has been hired under 'special terms' for a period of time.

The penalty for infringement of the relevant By-Laws is a fine of £5. Also in serious cases the Department, following a conviction, has the power to suspend or revoke the taxi driver's licence. It is recognised the present level of fines for non-compliance with metering and charging requirements are not deterring offences. My officials are conducting an urgent review to introduce a more appropriate level of fines.

Teenage Mothers

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of births were to teenage mothers in each of the last 10 years, broken down by health board area. [161681]

Mr. Pearson: The following table gives the percentage of births that were to teenage mothers in each of the last 10 years, by Health and Social Services Board area.

Number of births to teenage mothers expressed as a percentage of all births, by year and Health and Social Services Board

	EHSSB	*NHSSB*	*SHSSB*	*WHSSB*
1993	7.0	6.7	5.1	6.3

1996	7.4	5.9	5.2	6.7
1997	8.0	6.4	4.9	7.0
1998	8.3	6.7	6.2	7.4
1999	8.7	7.3	5.9	8.8
2000	8.9	6.5	5.9	7.6
2001	8.1	6.5	5.6	6.8
2002	8.4	6.4	5.0	7.5

FOREIGN AND COMMONWEALTH AFFAIRS

Death Penalty

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to *(a)* Pakistan and *(b)* the United States of America regarding their use of the death penalty for people under the age of 18. [161066]

Mr. Mike O'Brien: With our EU partners, we make regular representations to the Pakistani Government on human rights issues including the use of the death penalty, most recently in June 2003.

We also make regular representations to the US, along with our EU partners, urging them to abolish the death penalty. On average, the EU makes representations to the US around once a month on individual cases.

We are particularly concerned about cases where the use of the death penalty contravenes customary international law, e.g. the execution of those who were juveniles at the time of the crime, and the execution of those suffering from mental retardation. We particularly urge the US to abandon this practice. Furthermore, we also raise the issue bilaterally with the US authorities.

Family Reunification (DNA Testing)

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make statement on the *(a)* DNA testing requirements, *(b)* DNA testing procedures and *(c)* the (i) normal and (ii) maximum

permitted timescales in respect of each stage of that procedure, for a child applying to be reunited under a family reunification application with a parent resident in the UK, where that child is resident in (A) Pakistan and (B) another country. [161226]

Mr. Mullin: The Government's DNA testing scheme for entry clearance applicants is available on a voluntary basis wholly paid for by UKvisas. It is used to establish family relationships in cases where other factors in an application have led the Entry Clearance Officer to doubt that the relationship between the applicant and the sponsor is as claimed.

A UK based firm is contracted to carry out the DNA tests on receipt of samples from the applicant and the sponsor in the UK. The applicant's sample is obtained by a qualified medical practitioner appointed by the visa section in the presence of a member of staff from our overseas diplomatic post. The UK sponsor's sample is obtained by an approved haematologist in the UK.

There are no set timescales for obtaining the samples from an applicant or sponsor. Timescales vary according to a number of factors, including the availability of the applicant or sponsor to provide a sample. The UK based firm is contracted to complete and return test results within 35 days of receipt of the samples. There are currently twice weekly sample collecting sessions at our High Commission in Islamabad, dealing with 80 to 90 applicants at each session. Sponsors are responsible for organising their own DNA sample collection in the UK. In 90 per cent. of cases worldwide, the test results are processed in the UK within 15 days of receipt of both samples. There is no separate breakdown for individual countries.

India

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the level of discrimination faced by Christians in the states of *(a)* Madhya Pradesh and *(b)* Gujarat; and what representations he has made to the Indian Government. [160125]

Mr. Mike O'Brien: The Government are concerned about the religious violence against Christians, including the attacks that took place in Madhya Pradesh in January. We understand that the situation in Jhabua has now improved and that religious leaders and the Madhya Pradesh Chief Minister have met to look at ways of improving inter-community relations. Our High Commission in New Delhi will continue to monitor the situation closely.

We condemned the religious related violence in Gujarat in 2002. The vast majority of victims were Muslim. We welcome the Government of India's assurances that they will take action to bring to justice the perpetrators of violence. However, we understand that, to date, there have been very few prosecutions. We have repeatedly voiced our concerns with the Indian authorities on this, and will continue to do so.

We raised our concerns with the Government of India about the attacks on Christians in Gujarat in 1999 at the time. Since then, violence against Christians in Gujarat has declined.

We provided immediate relief assistance to the victims of violence and we are now funding project work in Gujarat to encourage reconciliation between the worst affected communities.

We have raised the issue of rights of minorities with the Indian Government. We will continue to urge the Indian authorities to ensure the right to freedom of religion is upheld, and that those responsible for attacks on religious minorities are brought to justice.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of inter-religious violence in Orissa India with reference to the treatment of evangelical Christians. [160126]

Mr. Mike O'Brien: We remain concerned about violence against Christians that has taken place in Orissa. Our High Commission in New Delhi will continue to monitor the situation closely and the Indian authorities are well aware of our commitment to human rights, including the right to freedom of religion.

We continue to urge the Indian authorities to ensure the right to freedom of religion is upheld, and that those responsible for attacks on religious minorities are brought to justice.

Maldives

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs when *(a)* Ministers and *(b)* officials of his Department last met members of the (i) Government of the Maldives and (ii) Maldivian Democratic Party; and what was discussed. [160667]

Mr. Mike O'Brien: The last official meeting between Ministers was in 1999 when my right hon. Friend the Deputy Prime Minister visited the Maldives. Our High Commissioner to Sri Lanka, also accredited to the Maldives, met with the Maldives Deputy Foreign Minister in Colombo on 30 January this year. The High Commissioner will be visiting the Maldives later on this month, and will seek calls on the President, Foreign Minister, and Deputy Foreign Minister. Officials in London last met the Maldivian Democratic Party (MDP) on 24 February 2004. Our High Commission in Colombo has regular contact with MDP representatives, and the High Commissioner was the first Head of Mission to meet them on 8 January this year. The discussion with the Maldivian Foreign Ministers covered issues relating to small island states, and our bilateral relations. Discussions with MDP representatives covered MDP concerns about human rights and limitations on their ability to conduct political activity in the Maldives.

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received about the activities of the National Security Service of the Maldives; and what assessment he has made of these activities. [160674]

Mr. Mike O'Brien: The Maldivian Democratic Party has raised concerns with us regarding the activities of the National Security Service in the Maldives, particularly relating to its role during the civil disturbances in Male' on 19 and 20 September 2003. We

continue to monitor reports of human rights abuses in the Maldives, and are considering with our European partners what further action we might take.

Russia

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received from *(a)* Amnesty International and *(b)* the international community on gender-based violence in Russia; and if he will make a statement. [161944]

Mr. Rammell: We receive, and welcome representations from Amnesty International and other international and Russian NGOs on a wide range of human rights issues in the Russian Federation. During Amnesty's "Justice for All" campaign last year, which included gender-based violence in Russia, we worked very closely with the campaign manager and earlier this month we jointly hosted a successful workshop for UK and Russian NGOs which included discussion of women's rights.

Violence and discrimination against women remains a concern in Russia. The UK is currently funding the Moscow Helsinki Group to train a network of NGOs to respond to violations of women's rights. For the last 10 years, we have also supported a project in St. Petersburg, which trains NGOs and police officers in handling domestic violence.

Tibet

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of *(a)* indigenous Tibetans and *(b)* Han Chinese in (i) the Tibetan Autonomous Region and (ii) Greater Tibet, based on the 1950 boundaries. [161732]

Mr. Rammell: Official figures for 2000 give the population of the Tibet Autonomous Region as 2.6 million of which 92.2 per cent. are Tibetans and 5.9 per cent. are Han Chinese. We have no other figures.

We continue to encourage the Chinese to ensure that economic development in Tibet does not adversely affect the Tibetan population. This includes ensuring that they benefit from economic growth including new jobs and the provision of housing, health and education facilities.

UN International Covenant on Economic, Social and Cultural Rights

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs in what ways the Government is carrying forward its commitment to the UN International Covenant on Economic, Social and Cultural Rights. [161413]

Mr. Rammell: The United Kingdom ratified the International Covenant on Economic, Social and Cultural Rights in 1976 and since then the Government has continued to work to improve protections for economic and social rights, in line with the international legal obligations set out in the Covenant.

The Covenant contains a large number of rights which are properly the primary responsibility of a range of Government Departments. These include rights related to education, health, work, housing, clothing, food and culture. The role of the Foreign and Commonwealth Office is primarily concerned with international processes dealing with these rights and with co-ordinating material for submission to the UN Committee which monitors treaty compliance. In this latter regard, the Foreign and Commonwealth Office ensures that the recommendations of the Committee are transmitted to those Departments with responsibilities for fulfilling the Covenant's obligations.

Zimbabwe

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Government has had with the Government of South Africa on the export of electricity to Zimbabwe by Eskom; and if he will make a statement on energy supplies to Zimbabwe. [161232]

Mr. Mullin: The Government have regular discussions with the Government of South Africa about the situation in Zimbabwe. These have not included the export of electricity to Zimbabwe by Eskom.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs which representative of the Zimbabwe Government approached his Department to seek assistance in respect of the trial of Mr. Morgan Tsvangirai. [161495]

Mr. Mullin: Mr J. Musawaka, Director of Public Prosecutions in the Attorney-General's Office, sought assistance from the Home Office in preparing for this trial. The Zimbabwean authorities were informed that the request would not be acceded to without written assurance that Tsvangirai would not be subjected to the death penalty if found guilty. The Zimbabwean authorities have not given us that assurance, and we have not offered them any assistance. The evidence stage of the trial has now finished.

WALES

Manufacturing

Adam Price: To ask the Secretary of State for Wales what recent discussions he has had with the Welsh Assembly Government on the manufacturing sector in Wales. [160262]

Mr. Touhig: Wales Office Ministers regularly discuss a range of issues with the Assembly Government, including those relating to the manufacturing sector. My most recent bilateral with Andrew Davies AM, Minister for Economic Development and Transport in the Assembly Government, was on 26 January 2004.

Project Funding

Mr. Colman: To ask the Secretary of State for Wales how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative

projects for which his Department is responsible have been launched in each region in each of the last 10 years. [160957]

Mr. Touhig: The Wales Office was established on 1 July 1999. It has no such projects.

Mr. Colman: To ask the Secretary of State for Wales how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible in each of the last 10 years, broken down by region. [160958]

Mr. Touhig: The Wales Office was established on 1 July 1999. It has spent no money on such projects.

SOLICITOR-GENERAL

CPS

Mr. Grieve: To ask the Solicitor-General if she will make a statement on the responsibility for oversight of the Crown Prosecution Service of *(a)* the Attorney-General and *(b)* the Home Secretary. [159297]

The Solicitor-General: Ministerial oversight of the independent Crown Prosecution Service rests solely with the Attorney-General, who has statutory responsibility for the superintendence of the Director of Public Prosecutions as Head of the Crown Prosecution Service (as provided for by section 3(1) of the Prosecution of Offences Act 1985). The Law Officers Act 1997, provides that any function of the Attorney-General, including any statutory function, may also be exercised by myself as Solicitor-General.

Mr. Grieve: To ask the Solicitor-General what plans she has to change the name of the Crown Prosecution Service; and if she will make a statement. [159301]

The Solicitor-General: I would refer the hon. Member to my Statement of 3 March 2004, *Official Report*, column 901. The issue of a possible name change for the Crown Prosecution Service is under active consideration in the context of the changing role of the Service within the criminal justice system. The Director of Public Prosecutions is discussing this with his staff. When that process is complete, the Director of Public Prosecutions and the Attorney-General will announce their decision.

Mr. Grieve: To ask the Solicitor-General if she will make a statement on the basis on which the Director of Public Prosecutions advises the Home Secretary on the Crown Prosecution Service. [159347]

The Solicitor-General: The Director of Public Prosecutions and the Home Secretary, as with other Ministers and relevant senior officials, meet together from time to time to discuss criminal justice matters, including matters concerning the Crown Prosecution Service. They do so on the basis of their respective responsibilities for the operation and development of the criminal justice system.

Katharine Gun

Mr. Hancock: To ask the Solicitor-General what discussions the Attorney-General has had in the last 12 months with the Secretary of State for Defence on the Katharine Gun case. [158779]

The Solicitor-General: The Attorney-General when considering whether or not to grant consent to the prosecution of Katharine Gun for an offence under section 1 of the Official Secrets Act conducted a Shawcross exercise. He wrote to the Secretary of State for Foreign and Commonwealth Affairs in view of his departmental interest and copied it to other interested Ministerial colleagues, including the Secretary of State for Defence. This exercise is designed to enable the Attorney to be informed of Ministerial colleagues' views of the public interest considerations in the case that are within their particular Ministerial responsibilities. He took them into consideration when deciding whether to give his consent. The decision to consent to the prosecution was the Attorney-General's alone.

There have been no discussions between the Attorney-General and the Secretary of State for Defence over the Katharine Gun case in the last 12 months.

Mr. Cash: To ask the Solicitor-General pursuant to her answer of 2 March, what the evidential deficiency was to which she refers as reason in the case of Katharine Gun for having exercised discretion not to enter a nolle prosequi; and if she will lay the papers to which this relates, including those referred to by the Attorney-General in the House of Lords on 26 February, in the Library. [159190]

The Solicitor-General *[holding answer 5 March 2004]:* The decision to offer no further evidence against Katharine Gun was made by the Crown Prosecution Service as an independent prosecuting authority. It was a decision taken solely on legal grounds and in accordance with the Code for Crown Prosecutors. There was, in this case, a clear prima facie breach of section 1 of the Official Secrets Act 1989. However Senior Treasury Counsel prosecuting this case gave advice, with which the Director of Public Prosecutions fully concurred, that there was no longer a realistic prospect of convicting Katharine Gun. The evidential deficiency related to the prosecution's inability, within the current statutory framework, to disprove the defence of necessity to be raised on the particular facts of this case.

I am not sure what papers the hon. Member is referring to but counsels' advice etc are the subject of legal privilege and so it would not be appropriate for me to place them in the Library.

MINISTER FOR WOMEN

Equal Opportunities Commission

Sandra Gidley: To ask the Minister for Women what grants have been allocated to the Equal Opportunities Commission over the last five years; and if she will make a statement on changes in the level of funding during that time. [161921]

Ms Hewitt: The value of the grants paid to the Equal Opportunities Commission (EOC) in the four previous financial years is:

	£
1999–2000	6,782,000
2000–01	8,382,000
2001–02	8,742,300
2002–03	6,887,500

These figures have previously been laid before the House as part of the EOC Annual Report and Accounts.

The agreed level of funding for this year is £8,005,000.

The increase for 2000–01 and 2001–02 funded the EOC's modernisation programme allowing them to develop a more pro-active and strategic role in promoting equal opportunities for women and men.

This year, the EOC received an increase in funding for additional work on tackling the pay gap. This reflects the key role played by the EOC in helping the Government deliver on gender equality.

CULTURE, MEDIA AND SPORT

Commercial Radio Mergers

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport how she will operate the public interest test in proposed commercial radio mergers. [161672]

Mr. Sutcliffe: I have been asked to reply.

Draft guidance on the operation of the public interest merger provisions relating to newspaper and other media mergers—including commercial radio—has been the subject of a public consultation which closed on 12 March 2004. We are currently analysing the responses and intend to publish our response by 16 April 2004.

Digital Television

Llew Smith: To ask the Secretary of State for Culture, Media and Sport what reports she has received from the Digital Televisions Consumer Expert Group. [161784]

Estelle Morris: None. We established the Digital Television Consumer Expert Group to help us review the criteria for switchover and to give their views on communications with consumers, equipment and installation issues, issues relating to the transitional stages and implementation of switchover and any regional issues. We have asked them to report by the end of March.

New Opportunities Fund (Chorley)

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Chorley in each year since 1997; and how the money was spent. [161444]

Estelle Morris: The New Opportunities Fund began making grants in 1999.

The DCMS Lottery Awards Database, which uses information supplied by Lottery Distributors, shows that organisations based within the Chorley constituency have received 40 Lottery Awards. Of these, four were for projects specifically located within Chorley.

I am arranging for a full list of these awards to be placed in the Libraries of both Houses.

Sports (Honours)

Mr. Hinchliffe: To ask the Secretary of State for Culture, Media and Sport if she will list the honours which have been awarded to surviving members of the Great Britain Rugby League World Cup winning sides of *(a)* 1954 and *(b)* 1972; and if she will make a statement. [161215]

Mr. Caborn *[holding answer 15 March 2004]:* Chris Hesketh, who played in the Rugby League World Cup of 1972, received an MBE in 1976.

Mr. Hinchliffe: To ask the Secretary of State for Culture, Media and Sport how many honours were awarded for sporting involvement or achievement in the last five years, broken down by sport. [161217]

Mr. Caborn *[holding answer 15 March 2004]:* The number of honours awarded for services to sport, broken down by category, over the last 10 honours lists are set out in the following table.

	Number
Athletics	19
Bowls	3
Boxing	7
Cricket	11
Curling[1]	6
Cycling	3
Disabled Sport	27
Football (Association)	38
Football (Rugby)[2]	53
Golf	11
Hockey	5
Horse Racing	5
Martial Arts	3
Motor Cycling	6
Motor Racing	5
Rowing[3]	17
Equestrianism	3
Skating	3
Snooker	2
Swimming	6
Tennis	5
Yachting	7
General Sports Administration[4]	32
Other Sports[5]	34

[1] Includes five members of the 2000 Winter Olympics squad.

[2] Includes 39 members of the Rugby World Cup 2003; one for services to Rugby League; and two for services to both Rugby League and Rugby Union.).

[3] Includes 13 members of the 2000 Olympics squad.

[4] Incorporates such areas as: Youth Sports Trusts/Charities/ Councils, Dance and Leisure services, amenity management, Olympic and Commonwealth Games, sport medical associations.

[5] Among others: Angling, Archery, Badminton, Basketball, Canoeing, Gymnastics, Shooting, Mountaineering, Squash and Skiing.

WORK AND PENSIONS

Child Poverty

Mr. McNamara: To ask the Secretary of State for Work and Pensions whether a family's ability to buy healthy food is taken into account in the Government's measurement of child poverty. [161909]

Mr. Pond: The document 'Measuring child poverty' was published in December 2003. It outlines the Government's measure of child poverty for the long term. This new measure will include indicators of low income and material deprivation. The report provides details of the questions which will form part of the material deprivation tier of the new child poverty measure and the basis on which they were selected. Copies of the document are available in the Library.

EU Enlargement

Andrew Mackinlay: To ask the Secretary of State for Work and Pensions whether there is a website giving advice and guidance for citizens from EU accession states wishing to work in the UK from 1 May; and if he will make a statement. [161982]

Mr. Pond: There is currently advice available for citizens of the EU accession states on the "working in the UK" website; www.workingintheuk.gov.uk/working_in_the_uk/en/homepage/your_status/european_citizens.html

Further guidance, including application forms will be made available on the Home Office and "Working in the UK" websites in advance of 1 May.

Maternity Allowance

Mr. Goodman: To ask the Secretary of State for Work and Pensions what the cost to his Department of administering Maternity Allowance was *(a)* in total and *(b)* per claimant in the last year for which figures are available. [158080]

Maria Eagle: Information is not available in the format requested. The Department now accounts for its administration and benefit expenditure by Strategic Objective, as set out in its Public Service Agreements (PSA), and by individual Requests for Resources (RfRs), as set out in the Departmental Estimates and Accounts.

Pension Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions how many Pension Credit recipients have reported a significant and material change in their circumstances in each month since October 2003; and of these, how many subsequently *(a)* have had their claims reassessed, *(b)* have had their awards (i) increased, (ii) decreased and (iii) withdrawn and *(c)* are still waiting for their notifications to be processed. [160350]

Malcolm Wicks: The information is not available in the form requested. The table shows numbers of changes reported by Pension Credit recipients between October 2003 and January 2004, rounded to the nearest five. The numbers of 'changes reported' and 'changes outstanding' include all changes reported by customers, including some which required no action. The numbers of 'changes processed' include any change which required action. These include some minor changes, such as a change in address, which did not affect a customer's award. The number of changes currently outstanding is considered to be a normal head of work.

Information on the outcome of reported changes is not currently available.

Pension credit: changes of circumstances reported by customers—October 2003 to January 2004

	October 2003	*November 2003*	*December 2003*	*January 2004*
Changes reported	203,905	273,740	254,705	396,295
Changes processed	108,765	215,055	202,540	413,105
Changes outstanding	96,370	155,050	207,220	190,410

Mr. Webb: To ask the Secretary of State for Work and Pensions how many Pension Credit applications have been made *(a)* through the pension credit application line, *(b)* in writing, *(c)* via the internet, *(d)* through a home visit, *(e)* through a local Pension Service surgery and *(f)* by another method. [160353]

Malcolm Wicks: A total of 841,000 Pension Credit applications had been received by 29 February. Of these, 703,000 were made through the Pension Credit application line and 138,000 were made on a paper application form obtained by some other means. Of the latter, 58,000 were made as a result of a home visit. It is not possible to say how many applications were made through a local service surgery. Applications for Pension Credit cannot be made via the internet, although the application form can be downloaded from the Pension Service website.

Note:
Figures are rounded to the nearest 1,000.

Mr. Webb: To ask the Secretary of State for Work and Pensions what representations he has received concerning shortages of paper versions of the Pension Credit application pack; what discussions he has held with affected organisations; and if he will make a statement. [160676]

Malcolm Wicks: We have received no such representations this year and there is no shortage of Pension Credit paper application packs. In January, the Chief Executive of The Pension Service wrote to the Chief Executives of Age Concern, Citizens Advice, Help the Aged, the Local Government Association, the RNIB and the RNID to explain that supplies of paper applications packs are available through the local service of The Pension Service and that the application form can be downloaded from The Pension Service website. There will be a new version of the application pack from April.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his answer of 23 February 2004, *Official Report*, column 320W, on Pension Credit, how many home visits involving Pension Credit have been undertaken in each local authority cluster in each month since the Pension Service was created. [160510]

Malcolm Wicks: The information is not available in precisely the form requested. Tables have been placed in the Library showing the number of home visits

undertaken by the local service of The Pension Service in each local service cluster in Great Britain between April 2003 and January 2004. All visits undertaken since April 2003 have covered pension credit. Work is in hand to revise local service cluster boundaries to align them with local authority boundaries.

Pension Surgeries

Mr. Webb: To ask the Secretary of State for Work and Pensions how many regular pension service drop-in and appointment surgeries have been established *(a)* in each region, *(b)* in each local authority cluster, *(c)* in each constituency and *(d)* in total. [160351]

Malcolm Wicks: The information requested is not available in the format requested.

The information that is available is the number of surgeries offering appointments and a drop-in facility and the number of surgeries offering appointment only in each region, and is provided in the following table.

Region	*Number of surgeries offering both appointments and a drop-in facility*	*Number of surgeries offering appointments only*
South West	200	31
South East	303	22
London	146	63
East Midlands	451	72
West Midlands	294	18
Wales	133	29
North West	209	27
North East	197	103
Scotland	0	268
Total	1,933	633

Details of local service surgeries can be obtained by telephoning the single 'lo call' access number for The Pension Service, which is 0845 60 60 265. Locally surgery information is often available in libraries, GP surgeries, and advertised in the local press and radio.

TRADE AND INDUSTRY

Administration Proceedings

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will make a statement on the transparency of the position of the administrator in administration proceedings. [161728]

Mr. Sutcliffe *[holding answer 16 March 2004]:* Administration is a collective insolvency proceeding in which the administrator must act in the interests of the creditors as a whole.

The administrator's proposals for achieving the purpose of the administration are subject to the approval of creditors. The administrator is under a duty to report to the creditors on a regular basis, furthermore the creditors can form a committee, which allows them to perform a more active role in overseeing the proceedings.

The administrator's actions are open to challenge by the creditors, if they can satisfy the court that the administrator has acted, or proposes to act, in a way that prejudices or unfairly harms their interests.

Archiving Technology

Mr. Key: To ask the Secretary of State for Trade and Industry what responsibility her Department has in developing *(a)* permanent, *(b)* secure and *(c)* digital archiving technology; and if she will make a statement. [160666]

Mr. Timms: The Department of Trade and Industry encourages the development of digital archiving technologies, and provides some financial assistance towards collaborative research projects involving business and universities in this field.

Beer

Mr. Davidson: To ask the Secretary of State for Trade and Industry what steps are being taken to ensure that beer drinkers receive a full pint of liquid. [162004]

Mr. Sutcliffe: The Department intends to consult later this year on proposals to consolidate and modernise weights and measures controls on the sale of foods, including draught beer.

British Nuclear Fuels

Mr. Watson: To ask the Secretary of State for Trade and Industry (1) pursuant to her answer of 11 March 2004, *Official Report,* column 1675W, on British Nuclear Fuels, what discussions officials have had with BNFL about the fixed price contract for nuclear clean-up in Oak Ridge, Tennessee; [161973]

(2) if she will make a statement on the use of fixed price contracts for the clean-up of radioactively contaminated sites by BNFL. [161974]

Mr. Timms: BNFL Inc. entered into certain fixed price clean-up contracts with US DoE at the Advanced Mixed Waste Treatment Plant (AMWTP) in Idaho and the East Tennessee Technology Park (ETTP) in Oak Ridge a number of years ago. Some losses on those contracts have been reported in BNFL's annual report. BNFL Inc's focus is now on contracts which pose minimal risk, and it already has a number of these contracts in place and they are making a useful contribution to the group.

BNFL is taking steps to limit any further losses under the two historic legacy contracts and, in liaison with officials, is actively pursuing claims for compensation under the terms of those contracts. I have also discussed this issue with US Energy Secretary, Spencer Abraham.

Building Standards

Dr. Stoate: To ask the Secretary of State for Trade and Industry (1) what action her Department is taking to tackle rogue builders; [161507]

(2) what steps her Department is taking to *(a)* promote awareness of the Quality Mark scheme among the public and *(b)* encourage applications from building firms; [161509]

(3) how many building firms in *(a)* England and *(b)* Kent have (i) applied for and (ii) been granted membership of the Quality Mark scheme for builders. [161508]

Nigel Griffiths: The Government are working with the construction industry, local authorities, consumer groups and other stakeholders to introduce the Quality Mark scheme.

The scheme was initially piloted in Birmingham and Somerset in 2001. A series of trade launches have since been held in other parts of the country. Registration fees for most firms have been subsidised and free advice on entry requirements is available to applicants.

Records show that a total of 535 firms have been approved so far, 507 of which are located in England including 25 in Kent. A total of 699 firms have applied, of which 694 are based in England including 22 in Kent.

Business Start-Ups (London)

Simon Hughes: To ask the Secretary of State for Trade and Industry how many businesses have received assistance in starting-up from Government schemes and initiatives in *(a)* Greater London and *(b)* each London borough in each year from 1992, broken down by type. [158459]

Jacqui Smith: Business Link for London is the main provider of Government funding assistance for start-up businesses within the Greater London area. Other schemes are administered by national and regional organisations and it is not possible to provide figures in the format requested without disproportionate cost.

Business Link for London's (BL4L) records show that up to Quarter 3 of 2003–04 they have given advice/support to 23,033 pre-start ups. During 2002–03 they gave advice/support to 11,466 pre-starts. Earlier figures are unavailable.

A breakdown of pre-start ups, including pre-start registrations in London boroughs during 2003–04 is detailed on the following table.

The London Development Agency (LDA) also has programmes designed to support business, small firms or new start-ups. The LDA also focus on the needs of strategic businesses that are large employers in the local economy, which sometimes need help in identifying problems at an early stage.

In 2001–02 the LDA was responsible for creating 2,073 new businesses to the London economy. In 2002–03, 1,443 businesses were created. To the end of the third quarter of 2003–04, the LDA had added 536 businesses to the London economy, against a target of 900. Current projections are that 1,357 businesses will have been created by the end of the reporting year in March 2004.

Clean Coal Technology

Mr. Foulkes: To ask the Secretary of State for Trade and Industry what incentives she has planned to encourage investment in clean coal technology. [161610]

Mr. Timms: The Cleaner Coal Technology Programme has already committed some £9 million of Government support for R&D which will have generated some £27 million of investment into cleaner coal technologies between 1999 and 2006. In addition to this, we have recently announced a new call for proposals under the Programme which will provide another £4 million of Government support for CCT R&D. Under the Programme, we also support British businesses with Technology Transfer and Export Promotion projects with particular emphasis on countries such as China, India and Russia.

Coal Mining

Mr. Denis Murphy: To ask the Secretary of State for Trade and Industry how many people have been employed in the coal mining industry from 1954 to date. [160939]

Mr. Timms: The following table shows numbers of people employed underground in National Coal Board/ British Coal Corporation in each year from 1954 until privatisation in 1994. The figures for these years do not include for employment at private mines. The figures for 1995 onwards are for total number of different persons employed (including contractors) in all deep mines.

Opencast mine employment statistics are not readily available for the full period, but Coal Authority figures show that as at 31 December 2003, 2,175 people were employed in opencast mines, this figure having stood at 3,863 on 31 March 1996, at the end of the first year for which the authority maintained these records.

Competitiveness Council

Mr. Hood: To ask the Secretary of State for Trade and Industry what the outcome was of the Competitiveness Council on 11 March; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [161941]

Ms Hewitt: I represented the UK at the EU Competitiveness Council in Brussels on 11 March 2004.

The Competitiveness Council's contribution to the spring European Council was adopted. These conclusions covered the following priorities: integrated approach to competitiveness; enhanced competition through better functioning markets; regulatory reform; industry challenges and opportunities; research and innovation; employment and labour market reform; and mid term review of Lisbon agenda.

Council conclusions were adopted on stimulating entrepreneurship, business related services, and basic research.

No agreement was reached on the regulation for the community patent. The Presidency concluded, with disappointment, that they would have to carefully consider the next steps.

There was a Presidency progress report on REACH (Registration, Evaluation and Authorisation of Chemicals), and on the regulation for administrative co-operation in the enforcement of consumer protection laws.

An extension of the temporary defence mechanism for shipbuilding was agreed. This is an extension of the measure until the WTO dispute, between the Community and Korea, is settled.

The Presidency announced that the European Parliament had accepted the Council's amendments to the enforcement of intellectual property rights directive, and announced that the directive will shortly be adopted by written procedure.

The proposed directive for an internal market in services was discussed. I congratulated the Commission on this initiative, which should increase competition to the benefit of consumers and make manufacturing more competitive by reducing companies' costs.

There was an exchange of views on European space policy.

Energy Industry

Mr. Meacher: To ask the Secretary of State for Trade and Industry what the total value of tax reliefs and subsidies was in each year since 1990 for use in *(a)* nuclear, *(b)* oil, *(c)* gas, *(d)* electricity and *(e)* renewable industries. [157408]

Mr. Timms *[holding answer 3 March 2004]:* The information is as follows:

Tax relief

In arriving at the tax which companies pay on their profits, a range of reliefs apply, some of which are specific to particular taxes while others only apply under certain circumstances. The range of tax reliefs that can apply to oil, gas and generation of electricity (including through renewables) includes capital allowances; exemptions from the climate change levy; the R&D tax credit; and specific treatment for British Energy, and the North Sea oil and gas industry.

The main tax reliefs and their costs are listed in the December 2003 Tax Ready Reckoner and Tax Reliefs, which is available in the Library of the House and is published by HM Treasury at http://www.hm-treasury.gov.uk/media//AAB24/pbr03_trr.pdf. Aggregate figures for the economy-wide costs of the minor direct tax reliefs can be found on the Inland Revenue's website at http://www.inlandrevenue.gov.uk/stats/tax_expenditures/menu.htm.

Given the range of activities undertaken by companies, to collect figures for the costs of tax reliefs given to specific industries would be too burdensome on business. It is only possible to provide such figures where tax reliefs apply solely to a specific sector (such as reliefs against petroleum revenue tax which is granted only to the North Sea oil and gas companies).

The Government have made the following specific provisions for the nuclear, oil, gas, electricity and renewables industries:

(a) Nuclear

The Government made provision in section 4 of the Electricity (Miscellaneous Provisions) Act for a tax disregard in respect of its proposed restructuring aid to British Energy. As the Secretary of State for Trade and Industry said in her statement to the House on 3 June 2003, the tax disregard, estimated at £0.9 billion, will not result in any extra cost to the Government. It has been provided to avoid a large tax charge hitting British Energy as a result of the proposed aid and thus the need for the aid to be correspondingly higher to achieve the same effect.

(b) and (c) Oil and Gas

Information on reliefs against petroleum revenue tax granted to North Sea oil and gas companies for 2002–03 and 2003–04 can be obtained from table 7 of the December 2003 Tax Ready Reckoner. Figures are published twice a year and figures for earlier years can be obtained from the Library of the House. These reliefs are given against PRT only. Information on the PRT payments made by oil and gas companies is contained in Table 11.12 of the Inland Revenue's corporate tax statistics, at http://www.inlandrevenue.gov.uk/stats/corporate_tax/menu.htm.

(d) Electricity

The climate change levy was introduced in April 2001. In view of their environmental benefits, the Government announced that electricity from good quality combined heat and power plants (CHP) sold via licensed electricity suppliers would be exempt from the climate change levy. This exemption took effect from 1 April 2003. Electricity generated from coal mine methane (CMM) was also exempted for the same reason in November 2003. The cost of the exemption for good quality CHP is estimated at £15 million per year from 2003–04, and for CMM less than £3 million from November 2003 to April 2004 (recorded as a negligible cost to the Exchequer).

(e) Renewables

From introduction of the Climate Change Levy in April 2001, there were exemptions for electricity generated by new renewables such as wind and solar energy. These exemptions are estimated to have cost the Exchequer around £20 million per year from 2001–02 onwards.

Subsidies

Information about the total value of subsidies in each year since 1990 for use in nuclear, oil, gas, electricity and renewable industries are set out in the following table.

Support provided through the Non Fossil Fuel Obligation and the Renewables Obligation are not Government subsidies.

£ million

	Nuclear	*Oil*	*Gas*	*Electricity*		*Renewables*	
	(a)	*(b)*	*(c)*	*(d)*	*(e)*	*(f)*	*(g)*
1990–91	1,265	0	0	0	21.3	6.1	0
1991–92	798	0	0	0	24.8	11.7	0
1992–93	864	0	0	0	26.6	28.9	0
1993–94	895	0	0	0	26.8	68.1	0
1994–95	892	0	0	0	20.5	96.4	0
1995–96	699	0	0	0	21.6	94.5	0
1996–97	0	0	0	0	18.5	109	0
1997–98	0	0	0	0	15.9	115.9	0
1998–99	0	0	0	0	14.4	113.7	0
1999–2000	0	0	0	0	14.9	41.9	0
2000–01	0	0	0	0	15.9	52.1	0
2001–02	0	0	0	0	24.1	70.2	0
2002–03	0	0	0	0	48.1	—	[1]277.9

[1] Gross est.

Notes:

Column (a):

Figures are based on the premium received by Nuclear Electric plc over and above the market price for electricity in the period 1990–96. Grant in aid payments to UKAEA have not been included. These payments were to fund research and development in nuclear fusion which is likely to be many years from commercial exploitation, and to discharge UKAEA's own nuclear liabilities which arose from proving their technology rather than for commercial objectives. All UKAEA's reactors were experimental, and all are now closed.

The Government are supporting the restructuring of British Energy on the terms set out in the Secretary of State's announcement of 28 November 2002, including making available to the company a credit facility, up to a maximum of £200 million. There are currently no outstanding drawings on the facility.

Column (e):

These figures show direct Government funding for capital grants, research and development on renewable energy through the DTIs Sustainable Energy programme and through Research Councils.

Column (f):

This column shows expenditure through the Non Fossil Fuel Obligation (NFFO) for England and Wales.

Column (g):

The figure of £277.9 million for 2002–03 represents the value of the equivalent of the total Obligation on suppliers of 3 per cent. of electricity supplied. This equals 9,261,568 Renewables Obligation Certificates (ROCs) at the buy-out value of £30 per MWh. This figure includes the value of NFFO ROCs for which there was a surplus of £57.6 million in 2002–03.

Energy Suppliers (Disconnections)

Alan Simpson: To ask the Secretary of State for Trade and Industry what *(a)* guidance and *(b)* instruction is given to domestic energy suppliers on disconnection of vulnerable consumers from supply during the winter period; and what action is required of suppliers in terms of reconnecting vulnerable households in readiness for the winter period. [160246]

Mr. Timms: The regulation of gas and electricity supply, including any guidance or instruction to suppliers, is the responsibility of the Office of Gas and Electricity Markets (Ofgem). Under their licences, suppliers are required to prepare and submit for Ofgem's approval a Code of Practice and Guidance for dealing with customers in difficulty. In their codes, suppliers are required to set out ways in which they will

seek to avoid the disconnection of premises occupied by customers with payment difficulties. In addition, suppliers are required, so far as possible, to avoid the disconnection of pensionable, disabled or chronically sick customers with payment difficulties between October and March. I understand that Ofgem is in discussion with suppliers about improving disconnection arrangements, particularly as they apply to vulnerable customers. These discussions will cover a range of matters affecting disconnections, including arrangements for re-connection.

Holiday Clubs

Mr. Nigel Jones: To ask the Secretary of State for Trade and Industry what assessment she has made of *(a)* the legal protection afforded to people who become involved in holiday clubs which fail to deliver what is promised, and *(b)* how it compares with the protection afforded to people who purchase time shares; and if she will make a statement. [161964]

Mr. Sutcliffe: Timeshare legislation generally does not apply to holiday clubs. The European Commission plan to Review the Timeshare Directive (94/47/EC), which would provide the opportunity to extend the scope of the Directive to holiday clubs. My officials are visiting Brussels this month to discuss the status and timing of this Review.

The unfair Commercial Practices Directive, which is currently under negotiation, is expected to provide protection against two aspects of holiday club scams—pressure selling and misleading offers. In addition, existing legislation covering misleading advertising, distance selling, as well as contract law could, in certain circumstances, apply to holiday clubs.

Miners' Compensation

Mr. Todd: To ask the Secretary of State for Trade and Industry what assessment she has made of the differences between compensation for pension loss in mining compensation claims made using the interim pensions spreadsheet and those using the final version of the calculator. [159523]

Nigel Griffiths: None.

Adam Price: To ask the Secretary of State for Trade and Industry how many claims for compensation have been lodged by former mineworkers for injuries sustained while handling explosives during the course of their work; how many claims have been successful; and how much compensation has been awarded for such claims in each of the last 10 years. [159869]

Nigel Griffiths: Around 200 claims for nitro-glycerine headaches have been settled.

These are subject to a confidentiality agreement between the British Coal Corporation and the solicitor representing some of the claimants.

Adam Price: To ask the Secretary of State for Trade and Industry if she will make a statement on compensation available for former NCB workers who have sustained injuries whilst handling explosives during the course of their work. [159870]

Nigel Griffiths: Compensation for former NCB workers who have sustained injuries whilst handling explosives during the course of their work are personal injury claims and are handled on a Common Law basis.

Nirex

Mr. Watson: To ask the Secretary of State for Trade and Industry pursuant to the answer of 11 March 2004, *Official Report,* column 1683W, on Nirex, what the last date was on which the Department discussed the budget for Nirex with *(a)* BNFL and *(b)* British Energy. [161969]

Mr. Timms: The financing of Nirex was raised in very broad terms at a routine quarterly meeting on 5 March between BNFL and several departments including DTI and at a meeting on 9 March between British Energy and this department.

Nuclear and Coal Liabilities Unit

Norman Baker: To ask the Secretary of State for Trade and Industry if she will make a statement on the *(a)* role and *(b)* powers of the Nuclear and Coal Liabilities unit; when the unit was established; and what its complement of staff is, excluding secondees. [161818]

Mr. Timms *[holding answer 16 March 2004]:* The Nuclear and Coal Liabilities Unit (NCLU) is an administrative directorate within the DTI and has no independent powers in its own right. It is responsible for the effective clean-up of the nuclear power industry and for meeting residual liabilities for the Coal Mining industry. In particular, it is currently creating the Nuclear Decommissioning Authority and managing the Government relationships with British Nuclear Fuels Limited, British Energy plc and the United Kingdom Atomic Energy Authority. It is also responsible for administering coal health claims, the coal industry pension schemes, the relationship with the Coal Authority and the concessionary fuel scheme.

The NCLU was created in 2002. It currently has a staff of 76 excluding secondees.

Post Office Closures (Tesco)

Mr. Flook: To ask the Secretary of State for Trade and Industry on what date the Post Office was notified by Tesco of the proposed closure of the sub-post office on Lisieux Way, Taunton. [161900]

Mr. Timms *[holding answer 16 March 2004]*: I understand from Post Office Ltd. that formal written notice from Tesco was received on 3 March 2004.

Mr. Flook: To ask the Secretary of State for Trade and Industry what (1) assessment the Post Office has made of *(a)* Tesco's decision to close a number of post offices and *(b)* the impact it will have on the Network Re-invention proposals in *(a)* England and *(b)* Somerset; [161901]

(2) what discussions the Post Office has had with Tesco plc on their policy of closure of post offices in stores formerly run by T & S Stores plc. [161904]

Mr. Timms: *[holding answers 16 March 2004]*: Discussions have been held between Post Office Ltd. and Tesco to determine what future plans Tesco has for its estate of stores containing post offices. Tesco is undertaking a site-by-site review, and in a minority of locations where they establish a Tesco Express format and the site is not consequently large enough also to operate a Post Office branch, they may wish to terminate the Post Office contract for the site in question.

In its review, Tesco is committed to working closely with Post Office Ltd. and regular discussions are held.

The removal of a post office branch from a Tesco owned store is not a permanent closure and Post Office Ltd. has given assurances that, where there remains a need for post office provision, it will look to relocate, in the same vicinity, offices that Tesco want to remove from its stores. Post Office Ltd. will consider whether to relocate or permanently close those offices on an individual basis.

Any proposals for the permanent removal of post office provision can only be made by Post Office Ltd. in the context of a lack of viability, and requires a period of public consultation as agreed between Post Office Ltd. and the consumer body Postwatch before a decision is reached. At the end of its current programme to restructure the urban post office network, Post Office Ltd. will ensure that there will be a post office within a mile of at least 95 per cent. of the urban population nationally

Mr. Flook: To ask the Secretary of State for Trade and Industry (1) how many former T & S Stores plc post offices have been closed by Tesco since it took over T & S Stores plc; [161902]

(2) how many post offices there were in T & S Stores plc before takeover by Tesco plc. [161903]

Mr. Flook: To ask the Secretary of State for Trade and Industry how many post offices that Tesco announced would be closed since it took over T&S Stores have since been reprieved by Tesco. [161862]

Mr. Timms *[holding answers 16 March 2004]*: Tesco acquired the T&S Group chain of convenience stores in October 2002 when in total 318 T&S stores trading under the 'One Stop' and 'Billons' contained Post Office branches.

In taking over T&S, Tesco took over the Post Office contracts for the individual sites and has since been reviewing how many of these Post Offices will be retained. Tesco has committed to giving six months notice of its intention to terminate any contract, allowing Post Office Ltd. sufficient opportunity to find alternative partners to continue to offer post office services in close proximity to the existing location, and to working with all parties to seek a smooth changeover process for customers in the area where there remains a need for post office provision.

As Post Office Ltd. has operational responsibility for the post office network, only it can propose permanent closure of a post office branch. I understand from the company that, to date, Tesco has given notice of its decision to terminate the post office contract in respect of 38 locations. In all cases the period of notice for withdrawing from the contract is still running and no closures have yet taken place. Any reversal of such a decision would be a commercial and operational matter for Tesco and Post Office Ltd.

Postwatch/Postwatch Scotland

Annabelle Ewing: To ask the Secretary of State for Trade and Industry whether Postwatch Scotland is required to inform relevant stakeholders about *(a)* the lodging of an objection to a post office closure and *(b)* the withdrawal of such an objection. [161454]

Mr. Timms: There is no formal requirement for Postwatch to inform key stakeholders about the lodging of an objection to a post office closure and subsequent developments. But I understand that it is Postwatch policy to reply to key stakeholders who have contacted it about closure proposals and that Postwatch Scotland has written to the hon. Member.

Renewable Energy

Mr. Sheerman: To ask the Secretary of State for Trade and Industry if she will break down, by programme, the budget for renewable energy for the period 2002–03 to 2005–06. [162046]

Mr. Timms: The DTI has announced £348 million of support for renewable energy for this period.

Not all of this expenditure has yet been allocated to specific projects or programmes, but the following major allocations have been made:

£19 million per year for research, development, demonstration and promotion of renewable energy technologies

Offshore wind capital grants—£117 million

Biomass capital grants—£66 million

Photovoltaics demonstration programme—£25 million

Community and household projects—£10 million

Wave and tidal projects—£5 million

Embedded generation projects—£5 million.

The figure of £348 million does not include Defra planting grants for energy crops or expenditure by the Research Councils on renewable energy related academic research.

Royal Mail Services

Michael Fabricant: To ask the Secretary of State for Trade and Industry if she will make a statement on the Royal Mail's postage paid service in relation to *(a)* the fine imposed by Postcomm for next day delivery rate between April 2002 and March 2003 and *(b)* the drop in performance in next day delivery rate for the same service between April and December 2003, as cited in the Postcomm document dated 2 March. [161679]

Mr. Timms: The Postal services Act 2000 enables Postcomm to take enforcement action against Royal Mail where it believes it is likely to breach its licence obligation. A final order was issued in December 2002 requiring Royal Mail to use all reasonable endeavours to achieve its licence targets for 1st Class Postage Paid Impression and Response Services. These are both

business products. Following Royal Mail's publication of its end of year results in May 2003, which showed that it had failed to achieve both these targets, Postcomm reached the view that Royal Mail had breached its licence and imposed a financial penalty in respect of this breach.

I understand that with regard to performance in 2003–04, the first six months showed an overall improvement. Due to Industrial Action and a major fire at Northampton Mail Centre in Quarter 3 (Oct-Dec 2003), there was a serious deterioration in performance. Postcomm will consider what action should be taken against Royal Mail, which may include enforcement or imposition of financial penalties, once they have received Royal Mail's end of year results at the end of May 2004.

Small Business Research

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many regional development agencies have established links with the Small Business Research Initiative; and what the nature of the co-operation is in each case. [160141]

Nigel Griffiths: The Small Business Research Initiative (SBRI) is a procurement measure designed to make it easier for smaller companies to win contracts for Government-funded research which will help them grow their businesses. The participants in SBRI are those Government Departments with significant spends on R&D, and the Research Councils, rather than RDAs.

Trade Unions

Mr. Hancock: To ask the Secretary of State for Trade and Industry if she will make it her policy to propose legislation to provide for *(a)* the right of trade unions to extend collective bargaining issues to include pensions, equality and training, *(b)* the right to be represented by a union representative in grievance and disciplinary hearings, *(c)* employment rights starting from the first day of employment, *(d)* the removal of thresholds required to be achieved to win trade union recognition, *(e)* recognition rights to companies of less than 21 workers, *(f)* a guaranteed right to strike without being in breach of contract, *(g)* qualifying criteria for non-independent unions to meet in order to gain recognition in an organisation, *(h)* an increase in penalties for those companies refusing to comply with reinstatement orders from tribunals and *(i)* the right of workers to be represented by the union of their choice; and if she will make a statement. [161965]

Mr. Sutcliffe: The Government's policy in this area is set out in our Review of the Employment Relations Act 1999. Copies of the public consultation document (published in February 2003) and the Government response to consultation (published last December) are available in the Libraries of the House. Those findings of the Review that require primary legislation are being taken forward in the Employment Relations Bill currently before the House.

HOME DEPARTMENT

Airguns

Mr. Salter: To ask the Secretary of State for the Home Department (1) what estimate he has made of the number of owners of self-contained gas cartridge airguns who will apply for licences before becoming liable for prosecution under the terms of the Anti-social Behaviour Act 2003; [161733]

(2) what organisations he has met to discuss publicising the recent change in the law on self-contained gas cartridge airguns; [161741]

(3) what guidance he has issued to the police regarding the prosecution of those unaware that they will require a licence for possession of a self-contained gas cartridge airgun; [161751]

(4) which manufacturers of self-contained gas cartridge airguns have been sent publicity material by his Department on the recent change in the law on self-contained gas cartridge airguns; and how many posters and leaflets have been sent in each case; [161746]

(5) what information he has collated on the length of time it takes the police to process an application to license a self-contained gas cartridge airgun; [161747]

(6) how many posters and leaflets on the change in the law on self-contained gas cartridge airguns have been sent by his Department to *(a)* the British Association of Shooting and Conservation, *(b)* the National Small-bore Rifle Association, *(c)* the National Rifle Association, *(d)* the Clay Pigeon Shooting Association, *(e)* the Countryside Alliance, *(f)* the Airgun Manufacturers Trade Association, *(g)* the British Field Target Association, *(h)* the British Airgun Shooters Association, *(i)* the Gun Trade Association and *(j)* the Sportsman's Association; [161742]

(7) if he will extend the deadline for the coming into force of the recent change in the law on self-contained gas cartridge airguns to allow for extended publicity of the change in the law; [161735]

(8) how much funding his Department *(a)* allocated and *(b)* spent on publicising the recent change in the law on self-contained gas cartridge airguns; [161736]

(9) what information he has collated on the number of applications for licences to own self-contained gas cartridge airguns received by the police in each of the last five years, broken down by constabulary; [161748]

(10) when the provisions in the Anti-social Behaviour Act 2003 relating to self-contained gas cartridge airguns will come into force; [161743]

(11) what the *(a)* minimum and *(b)* maximum penalties are for possession of a self-contained gas cartridge airgun under the provisions of the Anti-social Behaviour Act 2003; [161744]

(12) what information he has collated on the number of self-contained gas cartridge airguns handed into the police for destruction in each of the last five years, broken down by constabulary; [161749]

(13) what estimate he has made of the number of self-contained cartridge airguns in the United Kingdom; [161737]

(14) what discussions he has had with *(a)* the police and *(b)* the Court Service regarding the number of prosecutions for possession of an unlicensed self-contained gas cartridge airgun that can be expected after the relevant provisions in the Anti-social Behaviour Act 2003 come fully into force; [161750]

(15) if he will list the manufacturers of self-contained gas cartridge airguns that have been sold in the UK; and what estimate he has made of how many such airguns have been sold by each manufacturer since 1989; [161745]

(16) what discussions his Department has had with Brococks to determine the number of self-contained gas cartridge airguns they have sold in the UK since 1989; [161738]

(17) whether the publicity material for the recent change in the law on self-contained gas cartridge airguns was also produced in Welsh. [161752]

Caroline Flint: A ban on the manufacture and sale of self-contained gas cartridge (SCGC) guns came into force on 20 January 2004. A ban on the possession of the guns comes into force on 30 April 2004. Anyone who possessed one on 20 January has until 30 April to apply for a firearms certificate if they wish to keep it. Unlawful possession of a SCGC gun carries a minimum sentence of five years and a maximum of 10 years imprisonment.

We estimated in our Regulatory Impact Assessment for the ban that between 50,000 and 70,000 SCGC guns had been sold in the UK. This was based on discussions between the Home Office and Brocock Ltd., who were the main importer/distributor of SCGC guns and who manufacture the cartridges they use. Not all of this number will still be in circulation and it is not possible at this stage to say how many will be certificated or surrendered. However, we will be collecting this information from the police after the 30 April deadline. SCGC guns were not previously subject to control and therefore none were certificated prior to the ban. It will not be possible therefore to say how many might have been destroyed or otherwise disposed of before the new laws came into effect.

We estimated in our RIA that there would be about 15 prosecutions for unlawful possession of SCGC guns. A Home Office circular was issued to the police on 14 January giving guidance on the ban. No specific guidance was offered on prosecutions and we expect the police to consider each case on its merits.

The ban has been widely publicised. It was announced in a press release and other publicity material for the Anti-social Behaviour Act, and was mentioned in the national media. More detailed coverage was given by the shooting press. After discussion with the police and the Gun Trade Association (GTA), the Home Office produced a range of publicity material explaining what owners must do if they want to keep their guns. A total of 2,500 posters and 50,000 leaflets were sent to police forces for display and further distribution as they saw fit. Another 2,400 posters and 240,000 leaflets were sent to GTA members and to other retailers likely to have stocked SCGC guns, together with 120,000 stickers to put on tins of air gun pellets. This was a national campaign and publicity material was not produced in Welsh. However, we are looking at what other publicity is necessary before the 30 April deadline and will consider the need for producing material in Welsh if this cannot be dealt with locally.

In addition to money spent on publicising the new powers contained in the Anti-social Behaviour Act, we have so far spent 6,700 on the posters, leaflets and stickers related to the SCGC controls.

We have allowed over three months for owners to apply for a certificate or to surrender their guns and do not think it necessary to extend that period. Although the length of time to process applications will vary between forces, this will not affect applicants. Anyone who applies before 30 April will not be liable for prosecution even if their application remains outstanding on that date or is the subject of an appeal.

Mr. Salter: To ask the Secretary of State for the Home Department (1) what information he has collated on the number of self-contained gas cartridge airguns converted to fire live ammunition which have been recovered by the police in each of the last five years for which figures are available; [161739]

(2) what information he has collated on the number of people *(a)* killed and *(b)* injured by self-contained gas cartridge airguns converted to fire live ammunition in each of the last five years for which figures are available. [161740]

Caroline Flint: This information is not available centrally but I have arranged for the Forensic Science Service to interrogate their National Firearms Forensic Intelligence Database and will write to my hon. Friend with the results.

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department how many meetings the Home Office Inspectorate has held in the last six months at which discussions were held about scientific issues related to the use of animals in experiments; what plans the Home Office Inspectorate has to hold such discussions in the next six months; and what plans it has to invite organisations which argue scientifically against animal-based research for discussions. [158784]

Caroline Flint: The Animals (Scientific Procedures) Inspectorate does not normally host or take a lead role in public meetings or meetings with external organisations on behalf of the Department, and there are no plans for it to do so.

However, members of the Inspectorate are frequently involved in and contribute to Home Office and third-party meetings and events at which there is discussion of the use of animals in scientific procedures. These include twice yearly Inspectorate conferences to which guest speakers contribute, and meetings of expert groups considering specific topics, seminars and workshops on

a range of issues (including meetings run by, or with contributions from, organisations that argue scientifically against animal-based research). The Inspectorate also participates in other local, national and international events (for example the Fourth World Congress on Alternatives).

This will continue as an integral part of the Inspectorate's role, and will go on entailing dialogue with people and organisations covering a wide spectrum of opinion on use of animals in science. The Chief Inspector will for example be addressing MPs at a parliamentary event scheduled for 23 March 2004.

The organisations to be invited to particular meetings or events in which the Inspectorate participates is determined by the specific nature of the occasion and the objectives of the organisers.

ASBOs

Mr. Hancock: To ask the Secretary of State for the Home Department how many anti-social behaviour orders have been issued by *(a)* Hampshire Police and *(b)* local authorities in Hampshire and the Isle of Wight in each of the last three years. [160800]

Ms Blears: The police and local authorities have been able to apply for Anti-Social Behaviour Orders (ASBOs) since their introduction on 1 April 1999. The Police Reform Act (2002) authorised the magistrates' courts and the Crown court to issue ASBOs on conviction, and the County courts (from 1 April 2003), to issue ASBOs on application. Data are given in the table of numbers of ASBOs issued, at all courts, within Hampshire and the Isle of Wight, up to 30 September 2003 (latest available).

Data are collected on the type of applicant only on those orders issued in the magistrates' court, acting in its civil capacity, and within the County courts. Orders can also be made following conviction of an offence in the criminal courts—there is no applicant for these orders. Where applicable, data on the type of applicant are given in the following table.

The number of ASBOs issued within Hampshire and the Isle of Wight, at all courts, by period and applicant, 1 January 2001 to 30 September 2003 (latest available)

	Applications by				
Period/local authority area.	*Unknown*	*Police*	*Local authority*	*County courts*	*Total*
1 January 2001 to 31 December 2001	2	—	4	n/a	6

Asylum Seekers

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what plans he has to improve the removal system for failed asylum seekers. [159533]

Beverley Hughes: The Government are committed to tackling abuse of our asylum system by detecting and enforcing the removal of those who fail to comply with our immigration laws. Future plans include increasing detention facilities, working with overseas countries to resolve documentation issues, streamlining our appeals process and developing alternative sources of information and intelligence with other Government agencies. We will continue to review our strategy and pursue new initiatives in order to improve the removal process, our aim being to remove a greater proportion of failed asylum seekers in 2003–04 than in 2002–03.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what estimate he has made of how many children will go into care each year under the provisions of Clause 7 of the Asylum and Immigration (Treatment of Claimants etc.) Bill. [159534]

Beverley Hughes: There is nothing in the Bill which changes in any way the grounds on which children may be taken into care. The Bill simply provides that families, illegally resident in the UK once their claims have failed, would no longer be entitled to support at the expense of the taxpayer if they refuse to co-operate with efforts to return them home. If, by putting themselves in this position, parents put their children at risk, it would be for the local authority to decide how the interests of their children should be protected under existing child protection legislation. We do not believe, that many, if any, parents would put their children in this position.

Cannabis

Mr Donaldson: To ask the Secretary of State for the Home Department what the objectives of his Department's campaign to advertise the reclassification of cannabis were; and what assessment he has made of the effectiveness of the campaign against its objectives. [161518]

Caroline Flint *[holding answer 15 March 2004]:* The Home Office cannabis radio advertising campaign aimed to raise awareness of the reclassification of cannabis and to communicate that cannabis is illegal and will remain illegal after reclassification, and that it is harmful. The primary audience is under 18s.

The advertising is one strand of a wide range of communication activity that includes leaflets, postcards and education packs for schools and professionals.

The campaign is currently being evaluated using a specialist independent research agency who have conducted pre and post tracking research with a national sample of 14—17s.

CCTV (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Crosby since 1997. [160535]

Ms Blears: In 2001–02, the Sefton MBC area was awarded a total of £636,306 to fund the development of four CCTV schemes in the Town Centres of Bootle, Southport and Crosby, and on the major arterial route of South Road (Waterloo/Crosby).

The Crosby Town Centre Surveillance Project received £108,671 to monitor the town centre, especially in relation to alcohol consumption and day time theft as well as addressing the supply and use of illegal drugs, the congregating of young people and the consequences of underage drinking. The South Road Project, on the border of Waterloo and Crosby, received £185,487 for installation of cameras around bus and railway stations to address specific concerns on car crime, as well as assaults and criminal damage around licensed premises and in the Marine Park. Together these schemes attracted £294,158.

These schemes will be further enhanced by the imminent installation of a further CCTV camera on the edge of the shopping area in Crosby receiving £20,000 support from Small Retailers in Deprived Areas funding.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him from the right hon. Member for Manchester, Gorton dated 27 January 2004 with regard to Mr.Guhar Ali Khan. [161805]

Mr. Blunkett: I wrote to my right hon. Friend on 15 March 2004.

Crime Reduction Policy

Mrs. Gillan: To ask the Secretary of State for the Home Department pursuant to the Written Statement of 10 March 2004, *Official Report,* columns 101–2WS, on crime and disorder reduction partnerships, if he will list the grants each partnership will receive; when they will receive them; and what the process of distribution will be. [161630]

Ms Blears *[holding answer 15 March 2004]:* Individual funding allocations under the Building Safer Communities (BSC) Fund was circulated to Government Offices, Crime and Disorder Reduction Partnerships (CDRPs), Drug Action Teams, Local Authority Chief Executives and Chief Officers of Police on 10 March. This followed my Written Ministerial Statement of the same day.

CDRPs will continue to claim their grant moneys on a quarterly basis beginning in the first quarter of 2004–05 (Year 2 of the fund). Payments are made directly into local authority bank accounts following approval of their quarterly grant claims during the financial year. It is then the responsibility of local authorities to ensure further payments are made as required to other agencies and groups in accordance with the CDRPs' agreed plans.

I am placing copies of the full allocations table in the Library.

Mr. Oaten: To ask the Secretary of State for the Home Department if he will make a statement on the contribution of situational crime prevention techniques to recent reductions in crime. [160203]

Ms Blears: It is not possible to quantify the contribution of situational crime prevention to the recent reduction in crime. This is because situational crime prevention encompasses a wide range of initiatives that aim to make crime more difficult, more risky and less rewarding. There is recent evidence on the effectiveness of some forms of situational crime prevention in this country (for example, alley-gating and CCTV). Results from the British Crime Survey also provide evidence that domestic households that own security measures have a lower chance of being a victim of burglary, even when factors that might be related to both risk and security are taken into account. Recent sweeps of the British Crime Survey have shown that household ownership of a range of security measures is increasing. It is therefore reasonable to think that this may have contributed to the reduction in property crimes over recent years.

Burglary

A major evaluation of some 300 of the local burglary reduction schemes in Phase I of the Safer Cities Programme (1988–95) showed typically a 10–30 per cent. reduction in burglary. It was estimated (with results scaled up to the entire programme) that these, mainly situational, measures prevented some 56,000 burglaries, whose cost to victims and the state would have been £62 million, for expenditure of under £7 million. An evaluation in West Yorkshire of housing incorporating Secured By Design standards (a national police-led certification scheme) showed a crime rate that was 56 per cent. lower, and there is evidence that as well as being effective, this approach is now becoming cost-effective.

One of the most extensive and recent uses of situational crime prevention techniques has been under the Home Office's Reducing Burglary Initiative. Such techniques were employed in the majority of the 247 projects funded between 1999 and 2002. 63 of these projects were subject to a full independent evaluation under Phase I of the initiative. The interim report on these evaluations (Home Office Findings 204, 'Reducing Burglary Initiative, early findings on burglary reduction', published in 2003) reported that

situational crime prevention techniques—when planned, targeted, and implemented successfully—were an effective crime reduction measure. The report highlighted that in the 55 evaluated projects where figures were available, domestic burglary fell by 20 per cent. compared with a pre-project period. This represented a net reduction of 7 per cent. when taking into account the downward trend in burglary found in selected comparison areas.

Four illustrative case studies drawn from the evaluations were published as appendices to the interim report. In all four of these case studies situational crime prevention techniques were considered to have contributed to the observed crime reduction impact. Net burglary reduction in these projects ranged from -12 per cent. to -47 per cent.

However, the interim findings also highlighted the fact that burglary reduction projects were often most effective when they were based—not just on a single approach (such as situational crime prevention)—but on a package of coherent and complementary approaches, including short and long-term measures.

Vehicle crime

Home Office Research Study 266, 'An evaluation of the secured car park award scheme', was also published in 2003, this being an evaluation of a scheme established by the Association of Chief Police Officers (ACPO) in September 1992. It was designed to encourage car park operators to improve security as a means of reducing criminal activity and the fear of crime in car parks and vehicle retention areas. Results showed that there is evidence that the scheme can help reduce the level of vehicle crime and fear of crime in car parks, when targeted at high crime car parks. The key measures that impact both on crime levels and fear of crime appear to be formal surveillance (including patrols), lighting, access control and the physical appearance of the car park.

Security improvements by manufacturers of new cars are also thought to have been a key factor in reduced levels of car thefts, with compulsory fitting of electronic immobilisers since October 1998, together with other design improvements such as central-locking.

CCTV

A systematic review of the impact of CCTV (Home Office Research Study 252, 'Crime prevention effects of closed circuit television: a systematic review') was published in 2002. This indicated that CCTV was associated with a 41 per cent. reduction in crime in car parks, but provided little evidence of an effect in other settings. Other evaluations show CCTV is most effective when used as part of a wider local crime reduction strategy.

A Home Office funded National Evaluation of CCTV is on-going. Initial findings on implementation from this evaluation were published in 2003 in Home Office Development and Practice Report 7 'National Evaluation of CCTV: early findings on scheme implementation—effective practice guide'. Results relating to the impact of CCTV on crime are not yet available from this evaluation but are expected towards the end of 2004.

Robbery

The Street Crime Initiative was launched in April 2002 to address rises in street crime in 2001–02. It covers the 10 police force areas which together account for the great majority of street crime. Intelligence-led policing in hotspots in the 10 police force areas contributed to a 17 per cent. reduction in robbery in those 10 areas in 2002–03, which means 17,000 fewer offences in those areas.

A pilot scheme is being run by Greater Manchester Police to address crime at automated teller machines (ATMs), by creating defensible spaces around ATMs, to demarcate the area of personal space of the person using the ATM. This makes the potential victim of street crime more spatially aware, and increases the risk to the offender by alerting the ATM user to invasion of defensible space by the offender. Initial findings from the pilot indicate that robbery and theft from the person has fallen at the sites where the scheme is being piloted. There was a 34 per cent. reduction in robbery and theft from the person across the 21 sites in Manchester where the defensible space pilot is running, comparing the six months from 21 December 2002 to 30 June 2003 with the same period in the previous year.

Criminal Records Bureau

Keith Vaz: To ask the Secretary of State for the Home Department what compensation is given to schools that incur costs to cover classes while new teachers were awaiting Criminal Records Bureau clearance. [155610]

Ms Blears: The Criminal Records Bureau has paid no compensation to schools that incurred such costs.

Disorder Penalty Notices

Mr. Jenkins: To ask the Secretary of State for the Home Department when he expects to extend the penalty notice for disorder pilot to all forces. [160063]

Ms Blears: My right hon. Friend, the Home Secretary, announced on 14 May 2003 that roll out of the penalty notice for disorder scheme was to be brought forward in view of the positive early results from the pilots. The scheme will be in place in all police forces in England and Wales by 1 April this year.

DNA

Mr. Oaten: To ask the Secretary of State for the Home Department which companies act as suppliers of DNA profiles to the National DNA Database. [160550]

Ms Blears: There are five organisations which are approved suppliers of DNA profiles to The National DNA Database, they are:

Forensic Science Service;

LGC;

Cellmark;

Tayside Police Forensic Science Laboratory;

Strathclyde Police Forensic Science Laboratory.

Mr. Oaten: To ask the Secretary of State for the Home Department how intellectual property rights relating to DNA sequences in samples stored by suppliers to the National DNA Database are assigned; and if he will make a statement. [160551]

Ms Blears: There are no intellectual property rights relating to DNA sequences in samples kept in storage by suppliers to The National DNA Database. Intellectual property rights are associated with the techniques used to process the samples when generating DNA profiles. The samples retained in storage are the property of the individual police forces that submit them to the laboratories.

Mr. Oaten: To ask the Secretary of State for the Home Department how many research projects have been *(a)* approved and *(b)* refused by the National DNA Database Board since 1995. [160552]

Ms Blears: Since 1995, five research proposals have been submitted to the National DNA Database Board for consideration. Of these two were approved, two rejected and one is pending a decision.

Mr. Oaten: To ask the Secretary of State for the Home Department how many research projects involving *(a)* behavioural genetics and *(b)* ethnic or racial profiling have been approved by the National DNA Database Board since 1995. [160553]

Ms Blears: No research projects involving behavioural genetics have been approved by the National DNA Database Board (NDNAD). Two projects relating to identification of individuals on ethnic or familial basis have been approved by the NDNAD Board.

Mr. Oaten: To ask the Secretary of State for the Home Department how many research projects using the National DNA Database *(a)* records and *(b)* samples have sought the informed consent of participants since 1995. [161154]

Ms Blears: Neither of the research projects approved by the National DNA Database Board using database records, or the DNA samples collected for the database, have sought the informed consent of participants.

Mr. Oaten: To ask the Secretary of State for the Home Department what suppliers of profiles to the National DNA Database have undertaken research projects using *(a)* the database and *(b)* DNA samples collected for the database since 1995. [161155]

Ms Blears: Only the Forensic Science Service have undertaken research projects using either the database or the DNA samples collected for it.

Mr. Oaten: To ask the Secretary of State for the Home Department how many patent applications have been *(a)* made and *(b)* granted relating to research projects approved by the National DNA Database Board since 1995. [161156]

Ms Blears: To date there have been no patent applications made relating to research projects approved by the National DNA Database Board.

Mr. Oaten: To ask the Secretary of State for the Home Department if he will provide summaries of all the research projects approved by the National DNA Database Board since 1995. [161157]

Ms Blears: Arrangements will be made for summaries of the research projects that have been approved by the National DNA Database Board to be placed in the House of Commons Library once they have been completed and the reports signed-off.

Mr. Tynan: To ask the Secretary of State for the Home Department what assessment he has made of the merits of compiling a national DNA database including records for *(a)* all those convicted of an offence, *(b)* all those charged with an offence, *(c)* all those entering the UK for the purposes of employment or residence, *(d)* all those entering the UK for any purpose and *(e)* all newborn babies. [161224]

Ms Blears: The National DNA database currently holds profiles of all those charged with, informed they will be reported for or convicted of a recordable offence. From 5 April this year, when new provisions in the Criminal Justice Act 2003 come into force, the database will also hold DNA profiles from persons arrested for a recordable offence.

There are no plans at present to extend the database further.

Drugs

Mr. Jenkins: To ask the Secretary of State for the Home Department how many hits have been recorded on the www.talktofrank.com website. [160064]

Caroline Flint: From its inception on the 23 May 2003 to the 23 January 2004, the FRANK website talktofrank.com has received 1,485,111 visits.

Mr. Jenkins: To ask the Secretary of State for the Home Department how many *(a)* calls and *(b)* e-mails have been received by the Talk to Frank team; and how many (i) calls and (ii) e-mails have been sent by the Talk to Frank team to members of the public. [160065]

Caroline Flint: Since the launch of the Frank drug awareness campaign on the 23 May 2003, to the end of January 2004, the Frank helpline has taken 223,310 calls. The Frank website talktofrank.com, has also received and responded to 18,934 emails. The Frank telephone advisors do not initiate calls to the public.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Crosby in *(a)* 1997–98 and *(b)* 2003–04. [160536]

Caroline Flint: The information is as follows:

Sefton drugs allocation—1997–98	£
Local Health Authority Block contracts	728,671
JMU Database	20,000
Pharmacy costs	100,000
Social Work team	100,000
Drug Misuse special allocation from DoH	374,000

In 2003–04 the total drugs allocation was £3,017,763. This figure includes new funding streams as part of the National Drug Strategy (please see following table), the two years are therefore not directly comparable. Breakdown of financial allocation to local constituencies is not available in the form requested as funding is allocated to Drug Action Team areas (Sefton).

£

National Drug Strategy	2003–04
Partnership Capacity	71,500
Treatment Pooled Budget	1,336,000
Through Care After Care Pump Priming	35,000
Building Safer Communities[1]	484,700

[1] Contains non drug elements

DrugScope

Mrs. Gillan: To ask the Secretary of State for the Home Department how much grant was given to DrugScope in 2003–04; and what evaluation has been made of its work. [161182]

Caroline Flint: Central Government Departments have committed a total of £988,000 to DrugScope in 2003–04. This includes grants totalling £754,000 and contracts let by the Home Office, Department of Health, Department for Education and Skills and Foreign and Commonwealth Office. Figures are based upon Departmental accounting systems and do not include all payments for consultancy work.

All grants and contracts are subject to terms and conditions that specify required deliverables and management arrangements to ensure these are delivered. The DrugScope Programme Liaison Group meets quarterly to review progress on all Government funded activity and to quality assure work. The Group comprises representatives of funding Departments and DrugScope.

Forensic Science Service

Colin Burgon: To ask the Secretary of State for the Home Department on what occasions Serco personnel have been invited to the Forensic Science Service establishments in the last year; and for what purpose. [161231]

Ms Blears: SERCO consultants spent approximately 10 days at the Forensic Science Services (FSS) offices at Trident Court, Birmingham. They were providing advice about plans for a new commercial department to improve FSS responses to police tenders. Visits were made to the FSS premises in London for the same purpose.

In addition, as part of a programme of staff briefings, the HR Director of the National Physical Laboratory, a Government owned contractor operated by Serco, visited the FSS laboratories to provide staff with a view of the transition from public to private sector, with particular regard to arrangements for pensions and terms and conditions of service including pensions.

Huntingdon Life Sciences

Norman Baker: To ask the Secretary of State for the Home Department what severity limits were allocated to *(a)* Study DKN 112/033062 and *(b)* Study DKN 137/033686 conducted at Huntingdon Life Sciences; what his Department's assessment was of the potential benefits of these studies; and how his Department arrived at this assessment. [159794]

Caroline Flint *[holding answer 8 March 2004]:* The severity limits assigned to the protocols relating to these studies, as set out in Guidance on the Operation of the Animals (Scientific Procedures) Act 1986 (HC321), were respectively "moderate" and "substantial". The potential benefit in both cases was determination of the toxicity of certain compounds and risks they might pose to man and the environment. Decisions on whether and on what terms to license such studies are informed by professional assessments made by the Animals (Scientific Procedures) Inspectorate in accordance with relevant parts of section five of the Animals (Scientific Procedures) Act 1986. The aim has been to ensure that animal use only occurs when justified, and that in those circumstances animal suffering in such studies is minimised, consistent with satisfactorily achieving the scientific purpose.

Identity Cards

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether personal data stored on a national identity database will be exported or made available abroad. [157300]

Beverley Hughes: As set out in "Identity Cards: The Next Steps" (Cm 6020), disclosure of information held on the National Identity Register would only be authorised in specific circumstances. Such disclosure would be subject to legal and procedural safeguards and independent oversight. There are no plans to authorise disclosure of information from the National Identity Register to overseas organisations.

Impairment Tests

Mrs. Gillan: To ask the Secretary of State for the Home Department when the impairment tests which do not require the use of equipment will be introduced; and when the code of practice will be published. [161187]

Caroline Flint: We expect impairment tests which do not require the use of equipment to detect drivers who are under the influence of drugs to be introduced later this year. A Code of Practice is currently under preparation and will be published prior to the introduction of the tests.

International Rights Covenant

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what cross-departmental discussions involving his Department have taken place regarding the International Covenant on Economic, Social and Cultural rights. [161479]

Fiona Mactaggart: I am not aware of any cross-Whitehall discussions about the Covenant involving Home Office Ministers or officials. My Officials, along with officials in other Government Departments whose responsibilities are covered by the Covenant, contributed to the UK's last report to the UN Committee on Economic, Social and Cultural Rights on the implementation of the UK's obligations under the Covenant in January 2001. Following the UN Committee's recommendations in 2002, my officials contributed, in Spring 2003, to the Government's submission to the Parliamentary Joint Committee on Human Rights' inquiry into how the Government are

taking forward the UN Committee's recommendations. The Home Office's primary responsibility covered by the Covenant concerns racial discrimination.

National Dog Register

Charles Hendry: To ask the Secretary of State for the Home Department if he will reinstate a national dog register. [161695]

Ms Blears *[holding answer 16 March 2004]:* There are no plans to do so.

Online Crime Reporting

Mr. Heald: To ask the Secretary of State for the Home Department how many minor crimes have been reported online in each year since the service became available. [158042]

Ms Blears: The Police Information Technology Organisation, which hosts the minor crimes online reporting facility through www.police.uk, informs me that the service became available in May 2001. There were 2,009 reports completed by the public from then until the end of the 2001 calendar year. There were 13,774 completed reports in 2002, 14,982 in 2003 and 2,318 in the first two months of this year.

Police

Mr. Oaten: To ask the Secretary of State for the Home Department how many accidents involving police vehicles took place in each London borough in 2003. [160209]

Caroline Flint: Information on the number of police vehicle accidents broken down by individual London boroughs is not collected centrally.

The Metropolitan Police Service does, however, record collisions involving police vehicles and the table attached has been provided by the Commissioner of Police of the Metropolis.

Phil Sawford: To ask the Secretary of State for the Home Department how many police officers there were in England and Wales in *(a)* May 1993 and *(b)* May 1997. [161677]

Ms Blears: On 30 May 1993 there were 127,969 police officers in England and Wales. Between April 1995 and March 2002 police strength was collected only twice a year (March and September). In March 1997 police strength had decreased to 127,158.

There were 49,554 police (support) staff in May 1993. This had increased to 53,011 by March 1997.

Mr. Paice: To ask the Secretary of State for the Home Department (1) if he will make a statement on the reasons for requiring the returns of police officer numbers from constabularies for the purpose of his recent announcement on a different basis to the normal quarterly and annual return provided to his office by constabularies; [161824]

(2) how many police officers there are per force on the basis of the normal quarterly and annual returns provided by constabularies to his Department. [161825]

Ms Blears: The Home Office's Research, Development and Statistics Directorate collects, analyses and publishes a full and detailed breakdown of numbers of police officers and other police staff.

However given the substantial investment that this Government has made to increase police officer numbers, Ministers have, from time to time sought separate reports on progress being made on the delivery of our aim to increase strength and police visibility through the Crime Fighting Fund.

Reports were sought for January 2001, January 2002 and August 2003 and for December 2003. These reports are based on information which forces have readily to hand on how many police officers they currently employ and should not create a significant additional burden for forces.

The following table provides information on police officers strength on 30 September 2003, which was published on 2 March 2004.

Police Officer strength as at 30 September 2003

	Actual police office strength	[1]*All officers*
Avon and Somerset	3,328	3,273
Bedfordshire	1,164	1,147
Cambridgeshire	1,415	1,406
Cheshire	2,189	2,152
Cleveland	1,616	1,603
Cumbria	1,193	1,171
Derbyshire	2,061	2,049
Devon and Cornwall	3,286	3,259
Dorset	1,423	1,401
Durham	1,684	1,668
Essex	3,074	3,055
Gloucestershire	1,258	1,245
Greater Manchester	7,724	7,653
Hampshire	3,763	3,704
Hertfordshire	2,080	2,057
Humberside	2,188	2,170
Kent	3,539	3,538
Lancashire	3,512	3,475
Leicestershire	2,211	2,180
Lincolnshire	1,231	1,214
London, City of	815	813
Merseyside	4,149	4,129
Metropolitan Police	29,257	28,951
Norfolk	1,520	1,513
North Yorkshire	1,481	1,471
Northamptonshire	1,258	1,236
Northumbria	4,039	4,016
Nottinghamshire	2,455	2,438
South Yorkshire	3,222	3,193
Staffordshire	2,260	2,243
Suffolk	1,306	1,299
Surrey	1,977	1,960
Sussex	3,028	2,973
Thames Valley	4,049	3,982
Warwickshire	986	983
West Mercia	2,379	2,367
West Midlands	7,960	7,913
West Yorkshire	5,230	5,202
Wiltshire	1,242	1,236
Dyfed Powys	1,158	1,155
Gwent	1,347	1,340
North Wales	1,597	1,593
South Wales	3,286	3,256

Police Officer strength as at 30 September 2003

	Actual police office strength	[1] *All officers*
Total 43 forces	135,938	134,683
NCS	1,179	1,179
NCIS	262	262
Other secondments	673	673
Total	138,052	136,797

[1] Less staff on career breaks or maternity/paternity leave (comparable with previously published figures)

Mr. Robathan: To ask the Secretary of State for the Home Department (1) what his Department estimates would be the necessary increase in funding to Leicestershire Police Authority to rectify the current budget deficit; [155485]

(2) what assessment he has made of the current financial position of the Leicestershire Police Authority; and if he will make a statement; [155486]

(3) what assessment he has made of the funding shortfalls to police authorities in England and Wales. [155488]

Ms Blears *[holding answer 23 February 2004]*: All police authorities in England and Wales will receive a 3.25 per cent. increase in general grants in 2004–05, above the police pay award increase of 3 per cent. and general inflation projections of 2.6 per cent.

The arrangement was made to ensure that all police authorities receive a reasonable increase. In addition, funding is provided for a range of targeted programmes and capital provision.

Leicestershire Police Authority will receive general grant funding of £102.0 million in 2004–05, an increase of £3.2 million. On top of this, it will receive over £10 million for targeted programmes and capital provision.

Leicestershire have set a final budget of £138.1 million for 2004–05, an increase of 6.1 per cent. over this year. The police authority's decision will have taken into account grant allocations.

Mr. Robathan: To ask the Secretary of State for the Home Department by how much in *(a)* percentage and *(b)* cash terms Leicestershire Police grant has increased in each year from 1997–98 to 2004–05. [155487]

Ms Blears *[holding answer 23 February 2004]:* The information is set out in the table.

	General government grants [1,2] *£ million*	*Increase £ million*	*Percentage*
1997–98	83.9	—	—
1998–99	85.3	1.4	1.6
1999–00	87.9	2.6	3.0
2000–01	90.6	2.7	3.1
2001–02	94.6	4.0	4.4
2001–02[3]	92.2		
2002–03	94.5	2.3	2.5
2003–04	98.8	4.3	4.5
2004–05	102.0	3.2	3.3

[1] General Government Grants comprise Home Office police grant, ODPM Revenue Support Grant and National Non-Domestic Rates.

[2] In addition to general grants, Leicestershire benefited from funding from the Crime Fighting Fund, Rural Policing Fund, Basic Command Unit funding, Community Support Officer funding, Special Priority Payments, Airwave, the DNA Expansion Programme, capital grant (excluding Supplementary Credit Approvals) and the Premises Improvement Fund. £0.9 million in 1997–98, £0.8 million in 1998–99, £1.1 million in 1999–2000, £2.0 million in 2000–01, £8.4 million in 2001–02, £6.3 million in 2002–03, £8.5 million in 2003–04 and an estimated £8.8 million in 2004–05.

[3] Figures for 2001–02 are not directly comparable with 2002–03 due to the change in the funding arrangements of NCS and NCIS. Adjusted figures for 2001–02 are therefore included in the table.

Mr. Goodman: To ask the Secretary of State for the Home Department whether revenues raised from speed cameras were included in the calculation of the Thames Valley police budget for *(a)* 2002–03 and *(b)* 2003–04. [160652]

Caroline Flint: Revenue raised from speed cameras is not taken into account in the setting of Police grant or local budgets.

Fines and fixed penalties for speeding offences, like those for all other criminal offences, are paid to the Treasury. Some fixed penalty income from speed limit enforcement by camera can be netted off, but its use is very strictly ring-fenced for the purposes of meeting expenditure incurred in the prevention or detection of speeding, or red light, offences or in the enforcement of or proceedings in respect of such offences. The netting-off provides for cost-recovery only and furnishes no income for other purposes.

Safe Third Countries

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what powers he will bring forward to remove a country from the list of safe third countries. [159531]

Beverley Hughes: Schedule 3 to the Asylum and Immigration (Treatment of Claimants, etc.) Bill takes a differentiated approach toward human rights challenges against removal to safe third countries by providing for three lists. Part 6 of the Schedule provides for the removal of a State from lists at Parts 3 and 4 by Order subject to annulment by resolution of either House of Parliament. The Government does not consider it necessary to provide a similar Order—making power in relation to removal of a State from the list at Part 2. We intend that this list should be limited to European Union Member States which are party to the "Dublin" arrangements for determining the State responsible for examining an asylum application and other states such as Norway and Iceland, which are associated with those arrangements.

School Buses (Sex Offenders)

Miss McIntosh: To ask the Secretary of State for the Home Department (1) in what circumstances a convicted sex offender would be able to drive a school bus without having a Criminal Records Bureau check performed on them; [159199]

(2) whether a person employed by a local authority to drive a school bus would be required to have a Criminal Records Bureau check before taking up the job. [159200]

Ms Blears: Part 5 of the Police Act 1997, under which the Criminal Records Bureau has been established, imposes no requirement for checks to be carried out, but sets out eligibility for a Disclosure. Eligibility criteria for a Standard Disclosure include all persons whose duties include caring for, training, supervising or being in sole charge of children. Those whose duties regularly involve such elements are eligible for an Enhanced Disclosure. In some instances, checks have been made mandatory under other legislation. Where Checks are not mandatory, it is open to the employer to require that checks are carried out. Consideration is being given to the issue of guidance by the Department for Education and Skills as regards school transport arrangements. The activities, including employment, of a convicted sex offender who is on the sex offenders register would be monitored by the police who, if a risk is identified, would take appropriate action.

Suspended Prison Officers

Mr. Wyatt: To ask the Secretary of State for the Home Department what the cost was of the case brought against the prison officers Mr. Rowland, Mr. Kerry and Mr. Watkins by the Prison Service. [150818]

Ms Blears *[holding answer 26 January 2004]:* I understand from the Chief Constable of Kent Constabulary that estimated costs to the force to investigate this case were under £10,000.

Tetra

Mr. Simon Thomas: To ask the Secretary of State for the Home Department what estimates he has made of the cost of introducing the Tetra telecommunication system for the Police Authority in Wales in each year from 2003–04 to 2005–06; and what proportion of this funding has been made available by the Home Office. [161297]

Ms Blears: The Home Office has provided £4.7 million in 2003–04 to police forces in Wales and will provide £5.5 million in 2004–05. This fully meets the costs of the nationally agreed core Airwave service in Wales and provides additional funding for capital expenditure and optional features required by individual forces. Estimated costs of the core service in Wales for 2005–06 are £6.7 million. The Home Office contribution in 2005–06 has not yet been finalised.

Annabelle Ewing: To ask the Secretary of State for the Home Department what Government resources have been expended on the 02 Airwave Tetra project, including preparatory work. [161419]

Ms Blears: The total expenditure on the Airwave police radio system from 2000–01 to 2003–04 is £394.5 million. This includes 02 service costs of £117.2 million and setting-up costs of £277.3 million.

Annabelle Ewing: To ask the Secretary of State for the Home Department what budgetary provision has been made for further expenditure by the United Kingdom Government on the O2 Airwave Tetra project. [161420]

Ms Blears: The Spending Reviews SR2000 and SR2002 provided baseline funding for the Airwave service. SR2004 includes provision for the Home Office to continue funding the nationally agreed core Airwave service for police forces in England and Wales. Government will contribute to Airwave core costs in Scotland under the Barnett formula as prescribed by Her Majesty's Treasury. The Home Office is also providing £10 million to forces in Scotland to support the introduction of Airwave in 2004–05.

Annabelle Ewing: To ask the Secretary of State for the Home Department what account was taken of the precautionary principle in the setting of the United Kingdom safety limit on Tetra. [161421]

Ms Blears: The National Radiological Protection Board (NRPB) has statutory responsibility for setting safety limits on exposure to electromagnetic field radiation in the UK. The recent NRPB consultation document included sections on the application of the precautionary principle to the determination of guidelines for exposure to electromagnetic radiation from 0 to 300 GHz. No specific mention of Tetra is made in those sections.

Annabelle Ewing: To ask the Secretary of State for the Home Department whether his Department has been involved in discussions with third countries about Tetra. [161422]

Ms Blears: Tetra is a European standard developed by the European Telecommunications Standards Institute. Home Office technical experts have participated as UK representatives in the development of the Tetra standard.

Annabelle Ewing: To ask the Secretary of State for the Home Department which emergency services for which his Department is responsible do not use the Tetra system. [161423]

Ms Blears: The Home Office is responsible for the police service in England and Wales. All police forces in England and Wales will use the new Tetra radio system.

Annabelle Ewing: To ask the Secretary of State for the Home Department what account was taken of the non-thermal effects of Tetra radiation, such as low-frequency pulsing, by his Department prior to the setting of the United Kingdom safety limit on Tetra radiation. [161424]

Ms Blears: The National Radiological Protection Board (NRPB) is responsible for setting safety limits for radiation hazards in the UK. In 2001, The Home Office asked the Board of NRPB to provide advice on any health implications of Tetra technology. The Board of NRPB subsequently asked its independent Advisory Group on Non-ionising Radiation (Agnir) to examine the issue.

The Agnir report on "Possible health effects from Tetra" was published in June 2001. The report concluded that "although areas of uncertainty remain about the biological effects of low level radiofrequency electromagnetic fields in general, including modulated signals, current evidence suggests that it is unlikely that the special features of the signals from Tetra mobile terminals pose a hazard to health". Agnir also noted that the signals from Tetra base stations are not pulsed whereas those from mobile terminals and repeaters are. Hence there is no reason to believe that exposure to the signals from Tetra base stations should be treated any differently to the exposure to signals from other base

stations. The Agnir report on Tetra has been considered by NRPB in the current review of its advice on safety limits for exposure to electromagnetic fields with frequencies from 0 to 300 GHz.

Annabelle Ewing: To ask the Secretary of State for the Home Department who he consulted prior to the setting of the UK's safety limit on Tetra radiation. [161429]

Ms Blears: In the UK, the National Radiological Protection Board (NRPB) is responsible for setting safety limits on exposure to electromagnetic fields. Safety limits are not technology-specific.

The NRPB has recently carried out a comprehensive review of exposure guidelines and a consultation document was published in May 2003. Comments were received from a range of stakeholders, including government departments. The comments have been used in the preparation of updated advice to government, which NRPB expects to publish around the end of March 2004.

Annabelle Ewing: To ask the Secretary of State for the Home Department whether his Department received adverse comment on the proposed UK safety limit on Tetra radiation. [161430]

Ms Blears: The Airwave Tetra radio system used by the police fully complies with the safety limits set by the National Radiological Protection Board. We have received no adverse comments on the UK safety limits set by the National Radiological Protection Board.

Annabelle Ewing: To ask the Secretary of State for the Home Department what representations he received from the Scottish Executive prior to the setting of the UK safety limit on Tetra radiation. [161431]

Ms Blears: The Home Office has had no representations from the Scottish Executive on this issue, which is a matter for the National Radiological Protection Board (NRPB). The NRPB is currently reviewing its advice to Government on non-ionising radiation at frequencies from 0 to 300 GHz, which includes Tetra radiation. The Scottish Executive had the opportunity to respond to the NRPB public consultation document issued in May 2003.

Annabelle Ewing: To ask the Secretary of State for the Home Department if he will commission an urgent review of the health implications of Tetra radiation. [161432]

Ms Blears: In 2001, the Home Office asked the National Radiological Protection Board (NRPB) for advice on the health aspects of Tetra technology. The NRPB's independent Advisory Board on Non-ionising Radiation (Agnir) published its report on "Possible health effects from Tetra" in June 2001. The conclusions of the Agnir experts were upheld in their recently published follow-up to the Stewart report, "Health effects from radiofrequency electromagnetic fields". In particular they confirm that "there is no reason to believe that signals from Tetra base stations should be treated differently to those from other base stations". There are no plans to commission any further reviews.

Annabelle Ewing: To ask the Secretary of State for the Home Department what research commissioned by the Government is being carried out concerning Tetra radiation. [161433]

Ms Blears: On the recommendation of independent experts, the Home Office set up a comprehensive programme of work on Tetra health issues. The Home Office also funds Tetra-related research as an adjunct to the Mobile Telecommunications Research Programme co-ordinated by the Department of Health. No adverse effects of Tetra have been found. Biological studies carried out by the Defence Science and Technology Laboratory have shown that Tetra has no effect on calcium exchanges in cells—the main concern raised about this type of technology. Longer-term human volunteer studies are under way. Further information is available on the Home Office website at www.homeoffice.gov.uk/docs/tetra.html.

Travel Documents

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures are in place to ensure that passengers with inadequate documents are intercepted on their arrival in the UK. [159528]

Beverley Hughes: Measures to intercept passengers with inadequate documents on their arrival in the UK include risk-assessing all incoming flights, conducting intelligence-led document checks, observing passengers as they disembark from aircraft and ad hoc special exercises sometimes involving other agencies and at certain locations using CCTV.

At the main arrivals control, passengers are interviewed and their documents examined to detect impostors and to identify forged or counterfeit passports or passengers without the requisite entry clearance.

In addition we have strategies in place to prevent passengers with inadequate documents arriving in the UK. These include the use of pre-entry controls in France (Juxtaposed controls), new detection technology screening equipment to detect clandestine entrants and Airline Liaison Officers (ALOs) who offer advice to airlines on the validity of travel documents held by passengers.

The Asylum and Immigration (Treatment of Claimants etc) Bill, currently before Parliament, includes proposals to make disposing of travel documents without reasonable excuse a criminal offence.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the evaluation of the Netherlands' powers to require carriers to copy travel documents; and how this has influenced the Department's proposals. [159530]

Beverley Hughes: Officials have been in contact with colleagues in The Netherlands and will continue to liaise with them as necessary. The system in The Netherlands works differently from the system the Government are proposing; a separate evaluation would, therefore, be of limited value at present. We will, however, consider the

comparative effectiveness of the system in The Netherlands as part of the evaluation process of the Home Office trial.

United States (Visa Vetting)

Mr. Luke: To ask the Secretary of State for the Home Department what facilities are granted to the US Department of Homeland Security to share information on criminal convictions required for the vetting of UK citizens on their entry to the US under the visa waiver scheme. [154037]

Ms Blears *[holding answer 10 February 2006]:* The US Government has not asked to routinely share criminal record information. A request for such information on an individual basis may be considered by the police.

DEFENCE

Continuous Attitudes Survey

Angus Robertson: To ask the Secretary of State for Defence (1) how many times per annum the questions and response options included in the Continuous Attitudes Survey for the *(a)* Royal Navy, *(b)* Army and *(c)* RAF are reviewed; how often they have been changed in the last three years; and if he will list the changes made per annum; [160121]

(2) when the questions and response options included in the Continuous Attitudes Survey for the *(a)* Royal Navy, *(b)* Army and *(c)* RAF were last changed; what these changes were; and if he will make a statement. [160122]

Mr. Caplin: A major review of the Royal Navy Continuous Attitude Survey (CAS) is conducted once a year. Changes are made between each survey as is felt necessary. In the Army a full review of CAS is undertaken once a year, while in the RAF, questions and response options are in effect under continuous review, with questions being added, deleted or amended as required in support of policy initiatives.

I will write to the hon. Gentleman with further details and place a copy of my letter in the Library of the House.

Defence Agencies

Mr. Llwyd: To ask the Secretary of State for Defence if he will list the *(a)* expenditure and *(b)* number of staff employed for each defence agency and organisation in (i) Wales and (ii) England in each year since 1997. [158898]

Mr. Caplin: Figures relating to civilian personnel employed in Ministry of Defence agencies and Trading Funds are detailed in the following tables 1 and 2 together with appropriate footnotes. Service personnel figures and information relating to manning costs of agencies and Trading Funds is not held centrally and could be provided only at disproportionate cost.

Civilian staff strengths[1,2,3]

[1] Figures refer to permanent staff only, casual staff or those not paid by MOD (eg career break) not included.
[2] Figures include values for part time staff proportionate to those of full time staff.
[3] All figures are rounded to the nearest 10, as a result totals may not always equal the sum of the parts.
[4] Armed Forces Personnel Administration Agency was formed in April 1997.
[5] The Army Base Repair Organisation was formed in April 1993 and gained Trading Fund status on 1 April 2002, subsequently renamed ABRO.
[6] Army Base Storage And Distribution Agency was setup in April 1995 and absorbed into DSDA from April 1999.
[7] Army Personnel Centre was formed in December 1996.
[8] Army Technical Support Authority was formed October 1995 and absorbed into DLO March 2000.
[9] Army Training and Recruitment Agency was formed in July 1997 by absorbing AITO plus recruiting.
[10] Known as the Defence Postal and Courier Services Agency until 1 July 1999.

[11] Defence Analytical Services Agency formed July 1992.
[12] The Defence Animal Centre was formed in June 1993 and the agency was absorbed into the Army Training and Recruitment Agency in April 1999.
[13] The Defence Aviation Repair Agency was formed in April 1999 and gained Trading Fund status on 1 April 2001.
[14] Defence Bills Agency was formed in December 1996.
[15] Defence Clothing And Textile Agency was created in November 1994 and absorbed into DLO October 2000.
[16] Defence Codification Agency was formed in June 1996 and absorbed into LSS April 1999.
[17] Defence Communications Service Agency formed April 1998 and absorbed elements of DGIC, CHOTS, RAF Comms, RAFSEE and LISA.
[18] Defence Dental Agency was formed February 1996. A breakdown by country is not available, therefore, the figures provided are a UK total.
[19] Known as the Defence Estates Organisation until 1 March 1999.
[20] Defence Evaluation and Research Agency—public-private partnership took place in July 2001. DSTL, a trading fund, was established to take on the retained science and technology services.
[21] Defence Geographic Imagery Intelligence Agency formed April 2000 and included JARIC and Mil Survey.
[22] Defence Housing Executive was formed April 1999.
[23] Defence Intelligence And Security Centre was formed October 1996.
[24] Agency was launched on 1 April 2003, subsumed responsibilities of the Defence Medical Training Organisation and Defence Secondary Care Agency.
[25] Defence Medical and Training Organisation formed in April 1997 and was absorbed into the Defence Medical Education and Training Agency in April 2003.
[26] Launched on 1 April 1999 assuming responsibilities of the Specialist Procurement Services Agency.
[27] Trading Fund, created on 1 July 2001 to take on responsibility for the retained services of the Defence Evaluation and Research Agency post QinetiQ.
[28] Formed in April 1996. On 1 April 2003 the Defence Secondary Care Agency ceased to exist and became part of the Defence Medical Education and Training Agency.
[29] Defence Storage and Distribution Agency formed in April 1999.
[30] Defence Transport And Movements Agency formed April 1999 subsumed DTMX, Air Movements exec and Joint Transport and Movements staff.
[31] Defence Vetting Agency was formed in April 1997.
[32] Known as the Disposal Sales Agency until 1 April 1999.
[33] The Duke of York Military School was set up in April 1992.
[34] Joint Air Reconnaissance Intelligence Centre was formed in April 1996 and absorbed into DGIA April 2000.
[35] Logistic Information Systems Agency setup in November 1994 and absorbed in to DCSA with parts of DGIS from April 2001.
[36] Logistic Support Services Agency was formed in December 1996 and absorbed into DLO March 2000.
[37] Medical Supplies Agency formed March 1996. A breakdown by country is not available, therefore, the figures provided are a UK total.
[38] The Meteorological Office was formed in April 1990 and the agency gained Trading Fund status on 1 April 1996.
[39] Military Survey Defence Agency was formed in April 1991 and was absorbed into the DGIIA in April 2000.
[40] Ministry of Defence Police formed in April 1996.
[41] Naval Aircraft Repair Organisation formed in April 1992 and was absorbed into DARA in April 1999.
[42] Naval Bases and Supplies Agency formed in December 1996 and was absorbed into the Ships Support Agency in April 2000.
[43] Naval Manning Agency was formed July 1996.
[44] Naval Recruiting And Training Agency was setup in April 1995.
[45] Pay And Personnel Agency was formed in February 1996
[46] The RAF Maintenance Group Defence Agency formed in April 1991 and was absorbed into the Defence Aviation Repair Agency on 1 April 1999.
[47] RAF Personnel Management Agency was formed in February 1997.
[48] RAF Signals Engineering Establishment was setup in November 1994 and absorbed in to DCSA April 2000.
[49] RAF Training Group Defence Agency formed in April 1994.
[50] Service Childrens Education formed April 1991.
[51] Specialist Procurement Services was formed in June 1997 and absorbed into the DPA in April 1999.
[52] Ships Support Agency was formed in December 1996 and absorbed the Naval Bases and Supplies Agency in April 2000.
[53] The UK Hydrographic Office was formed in April 1990 and the agency gained Trading Fund status on 1 April 1996.
[54] Veterans Agency, the renamed War Pensions Agency, transferred to MOD from DSS in April 2002.
[55] Warship Support Agency was formed from the merger of Ships Support Agency and Naval Bases and Supply Agency during 2000–01.
[56] Not available.

Note:
'—'denotes zero or rounded to zero.

Departmental Estate

Mr. Hoyle: To ask the Secretary of State for Defence if he will list the *(a)* military bases, *(b)* Ministry of Defence sites and *(c)* docks under consideration for (i) run-down and (ii) closure. [161246]

Mr. Caplin: The Ministry of Defence keeps the size and location of its bases under constant review. In the estate strategy, "In Trust and On Trust", the Department set out its intention to define its mainland Great Britain sites as 'core' or 'non-core'. Initial classification work was conducted last year. Building on this the Department is now undertaking further work to identify where estate rationalisation may be possible. Any specific proposals arising from these studies will be subjected to full consultation in due course.

Departmental Minutes

Glenda Jackson: To ask the Secretary of State for Defence if, prior to putting in place the planned increase in public insurance liability to cover the submarine reactor fuel core factory and associated Neptune test reactor as proposed in the departmental minute of 11 March 2004, he will place in the Library a copy of full risk appraisal referred to in the minute. [161971]

Mr. Ingram: As this appraisal relates to sensitive nuclear materials and industrial processes, I am withholding it in accordance with Exemption 1 of the Code of Practice on Access to Government Information (which relates to defence, security and international relations).

Iraq

Mr. Keetch: To ask the Secretary of State for Defence pursuant to his answer of 5 January 2004, *Official Report*, columns 29–30W, on Iraq if he will *(a)* give the date and *(b)* describe each of the events for which compensation was paid to Iraqi civilians for injuries caused by UK forces; and if he will make a statement. [157150]

Mr. Ingram *[holding answer 5 March 2004]:* 22 individuals have received payment as a result of claims for compensation submitted since 1 May 2003 by Iraqi civilians claiming to have been injured by UK forces.

These claims resulted from the following events:

	Events
5 August 2003	Injuries resulting from property search
6 August 2003	Injuries sustained in road traffic accident
9 August 2003	Gunshot wound
14 August 2003	Injuries sustained in road traffic accident
22 August 2003	Injuries sustained during arrest
30 September 2003	Injuries sustained in road traffic accident
14 October 2003	Gunshot wound

Adam Price: To ask the Secretary of State for Defence what meetings ministers and officials in his Department have had with relatives of Iraqi civilians allegedly killed as a result of Coalition action. [158859]

Mr. Ingram: In Iraq, members of the UK armed forces and other MOD officials meet Iraqis to discuss a range of issues, and these can include the topic of civilian casualties. In the event of a claim issued by Iraqi civilians against UK forces, for example, Area Claims Officers will meet those who wish to issue the claim.

As these arrangements are in place in theatre, Ministers and MOD officials in the UK have not had cause to meet civilians specifically to discuss the issue of the alleged killing of their relatives by Coalition action.

Mr. Llwyd: To ask the Secretary of State for Defence how many contracts have been awarded to UK firms for the reconstruction of Iraq; and how many of these are *(a)* Welsh firms and *(b)* firms with operations in Wales. [158894]

Mr. Mike O'Brien: In view of the large number of different organisations involved in letting reconstruction contracts in Iraq, it has become difficult to maintain a definitive picture of the total volume of contracts awarded, and the cumulative value of these contracts. In addition a number of British companies have been awarded contracts and sub-contracts for the reconstruction process in Iraq, but some have asked us not to publicise their success because of issues of commercial confidentiality. Those companies that have advised us of their success are not recorded by region, and so we are therefore unable to assess the success or otherwise of companies with operations in Wales. I will write to the hon. Member with further details about some of the Contracts that we know bout.

Merchant Navy

Mr. Hancock: To ask the Secretary of State for Defence what plans he has for the future protection of the Merchant Navy. [161912]

Mr. Ingram: The Royal Navy works closely with other Government Departments on the need to protect shipping and employs a worldwide Maritime Trade Operations (MTO) policy, which enables it to offer a number of options to support merchant shipping. They range from provision of routine advice and guidance, through to Naval supervision of merchant vessels. Decisions about the timing and type of support offered are informed by the threat level in a region or area. The global threat to merchant shipping is kept under constant review, and if necessary, additional MTO measures can be implemented quickly. Decisions over future safeguards or levels of protection will always reflect the level of threat that is present.

New Bases

Mr. Hoyle: To ask the Secretary of State for Defence how many new *(a)* Army, *(b)* Royal Navy and *(c)* RAF bases are being considered for opening; and in what areas. [148460]

Mr. Caplin: There are no current plans to acquire land for new Service bases.

Parliamentary Questions

Norman Baker: To ask the Secretary of State for Defence how many parliamentary questions have been tabled to his Department since 1st January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days and what percentage in respect of *(b)* were answered by the specified date. [157738]

Mr. Caplin: According to our records 4,195 ordinary written parliamentary questions and 819 named day parliamentary questions were tabled to Defence Ministers between 1 January 2003 and 26 February 2004.

Information on the number of days taken to answer is not held centrally and could be provided only at disproportionate cost.

Defence Ministers aim to answer named day questions on the day named and ordinary written questions within five sitting days.

Reservists

Lady Hermon: To ask the Secretary of State for Defence what actions he has taken to promote the role of reservists arising from their contribution in Iraq; how many reservists have been recruited to the armed forces since the beginning of hostilities in that country; and if he will make a statement. [161348]

Mr. Caplin: The Government's aim is to continue to raise national awareness of the commitment and integration of reservists in the overall force, and to

acknowledge the importance of the support we receive from employers, families and of course the reservists themselves.

We provide, through the Permanent Joint Headquarters Northwood, consideration and support to journalists that apply for access to reservists serving in Iraq. The provisions of the Editors Abroad Scheme assist this task.

Supporting Britain's Reservists and Employers (SaBRE) campaign run by the MOD continues to encourage support for the Volunteer Reserve Forces amongst civilian employers. To highlight the profile of reservists, my right hon. Friend the Secretary of State held a reception in autumn last year for major UK employers, to thank them for their support for reservists. Similar receptions were also held around the UK for key regional employers. In addition, two parties of journalists were sent to Iraq to specifically highlight the use of reservists with the employer audience at home. I met with a large number of Reservists during my recent visit to South East Iraq.

The number of volunteer reservists (VRs) who have been recruited since 1 March 2003 is not held centrally. Each Service records data separately and in different formats. The information available is given below:

Royal Navy Reserve: 305

Royal Marines Reserve: 180

Royal Auxiliary Air Force: 295

No figures for the Territorial Army are currently available.

Rest and Recuperation

Lady Hermon: To ask the Secretary of State for Defence how many service personnel serving on operations abroad had their rest and recuperation period reduced as a result of military transport difficulties in each of the past 12 months; what efforts are being made to ensure service personnel receive their full rest and recuperation entitlement; and if he will make a statement. [161480]

Mr. Caplin: The information requested is not held centrally and could only be provided at disproportionate cost.

Rest and recuperation periods for service personnel serving on operations abroad are not an entitlement, personnel are only released if the operational situation allows. Every effort is taken to ensure service personnel rest and recuperation periods are maximised within the allowances of the regulations and mitigating action is taken where possible if periods are excessively disrupted.

Second World War Anniversary Celebrations

Mr. Hoyle: To ask the Secretary of State for Defence what role he envisages for local authorities in marking *(a)* VE Day and *(b)* VJ Day outside London. [158705]

Mr. Caplin: On 1 March 2004 I announced to the House that there will be a national celebration and commemoration of the end of the Second World War on Sunday 10 July 2005. The main event will be in London. However, I very much hope that other towns and cities across the United Kingdom will stage their own events on that day. Planning is at an early stage and I expect to be able to inform the House further about progress later in the year.

Warships

Mr. Hancock: To ask the Secretary of State for Defence what plans he has for the decommissioning of *(a)* HMS Norfolk and *(b)* HMS Iron Duke. [161913]

Mr. Ingram: I refer the hon. Member to my answer of 15 March 2004, *Official Report*, columns 49–50W, which provided details of current decommissioning plans for HMS Norfolk and HMS Iron Duke.

EDUCATION AND SKILLS

Condover Hall School

Mr. Paul Marsden: To ask the Secretary of State for Education and Skills how many children at Condover Hall School have been found alternative school places for when the school closes. [161552]

Margaret Hodge: Condover Hall is proposed for closure in July this year. Of the 30 pupils currently on roll at the School, two pupils will be entering post-16 provision in the Summer term, four have received written confirmation of an alternative place and the remainder have either had conditional offers, subject to assessment, or parents are still considering various options. RNIB is confident that all the pupils will have an alternative school place before Condover closes on 16 July 2004.

Education (Ribble Valley)

Mr. Evans: To ask the Secretary of State for Education and Skills how many spare places have been available at the beginning of each school year since 1997–98 at each school in the Ribble Valley constituency. [161809]

Mr. Miliband: The number of spare places at each school in the Ribble Valley constituency since 1997–98 provided by the Department's annual surplus places survey is set out in the following tables. The figures state the position as at January each year, adjusted for the summer term intake. We do not have figures for 2001–02 as there was no surplus places survey in that year.

School year	*1997 –98*	*1998 –99*	*1999 –2000*	*2000 –01*	*2002 –03*

Free Places (Burton)

Mrs. Dean: To ask the Secretary of State for Education and Skills how many free places were available for *(a)* three-year olds and *(b)* four-year olds in the Burton constituency in each of the last seven years. [161841]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four year olds in Staffordshire local education authority area are shown in the table.

The latest figures on provision for 3 and 4 year olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

We have made the commitment that by April 2004, six months ahead of our original target, all three year olds in England whose parents want one, will have access to a free, part-time early education place.

Number of free nursery education places[1, 2] taken up by three and four year old children in maintained nursery and primary schools and private, voluntary and independent providers Staffordshire Local Education Authority area from 1997–2003

	Position in January each year	
	3 year-olds	*4 year-olds*
1997	3,500	9,600
1998	2,700	9,700
1999	2,700	9,500
2000	2,600	9,400
2001	3,000	9,200
2002	4,300	9,100
2003	5,800	9,200

[1] Part-time equivalent number of free nursery education places taken up by 3 and 4 year old children.

[2] A free nursery education place comprises 5, two and ½ hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

Learning and Skills Councils

Charles Hendry: To ask the Secretary of State for Education and Skills what services are contracted out to external providers through the Learning and Skills Council; and if he will make a statement. [161917]

Alan Johnson: The Learning and Skills Council (LSC) has the responsibility to plan, fund, monitor and drive up the quality of post-16 learning in England, apart from higher education. It has the power to give funding to others for the purpose of fulfilling its duties and exercising its powers. The detail of any such arrangement is a matter for the LSC and I have asked Mark Haysom, the Chief Executive, to reply to you direct, copying his reply to me.

Martin Linton: To ask the Secretary of State for Education and Skills what guidance he has given the Learning and Skills Councils on consulting *(a)* hon. Members and *(b)* local communities on the provision of further education in their areas. [162106]

Alan Johnson: The Learning and Skills Act 2000 requires local Learning and Skills Councils (LSCs) to consult relevant local authorities and regional development agencies in drawing up their plans for the provision of education and training, including further education. The Secretary of State's remit letter for the LSC also emphasised the Council could only succeed if it worked in partnership with a wide range of stakeholder organisations. I would expect local LSCs to involve a wide range of interested parties, including hon. Members, when developing their plans to meet the needs of local businesses and communities.

National Childcare Strategy

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many children have gained from the National Childcare Strategy in Chorley; and if he will make a statement. [161598]

Margaret Hodge: Information on the number of new child care places created in an individual constituency is available only from 1999. Lancashire local authority reported that between April 1999 and December 2003, the latest date for which information is currently available, 1,306 new child care places opened in Chorley constituency. A place typically helps more than one child, as not all children take up places full-time, and we estimate these places will help some 2,300 children. During the same period, Lancashire reported that 620 child care places closed in Chorley, so that the stock of child care places rose by 686.

Neighbourhood Nurseries

Mr. Edward Davey: To ask the Secretary of State for Education and Skills what budget *(a)* was set for 2003–04 and *(b)* has been allocated for 2004–05 and 2005–06 by each relevant Government department for neighbourhood nurseries, broken down by English region. [161652]

Margaret Hodge: Under the Neighbourhood Nurseries Initiative both revenue and capital funding has been made available to local authorities to support the development and delivery of new, affordable child care places in the 20 per cent. most disadvantaged wards. Revenue funding of up to £5,400 for each new child care place created is awarded from when the nursery opens and is paid over a three year period. Capital funding is being provided through the New Opportunities Fund (NOF) and DfES to assist in the creation of new nurseries.

The total budget (revenue and capital) which was set in 2003–04 and current indicative allocations for 2004–05 and 2005–06 for neighbourhood nurseries by English region is given in the table. NOF capital grant is allocated to individual projects and annual spend is determined by the progress in building the nurseries. The figures therefore represent the total NOF capital grant by English region up to the period 2005–06.

£

	2003–04		2004–05			2005–06	Total NOF Capital
	Revenue	Capital	Revenue	Capital	Revenue	Capital	
Eastern	3,518,124	1,664,488	5,558,304	170,000	3,517,693	0	6,884,043
East Mids	4,391,406	815,945	7,342,813	200,000	4,131,861	0	6,649,810
London	11,817,850	4,922,925	19,592,251	1,351,772	12,377,269	0	15,103,330

Nurseries

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many new nurseries have been established in Chorley since 1997. [161597]

Margaret Hodge: Lancashire county council is responsible for determining local need for nursery provision in Chorley and holding information on current provision. The only new nursery set up since 1997 under a central government initiative in Chorley, is the Neighbourhood Nursery due to open in May 2004 providing 50 full day care places.

School Funding (Staffordshire)

Mrs. Dean: To ask the Secretary of State for Education and Skills how much total capital expenditure has been spent on schools in *(a)* Burton constituency and *(b)* Staffordshire in each of the last 10 years. [161849]

Mr. Miliband: The majority of capital funding is allocated to local authorities and schools by needs related formulae, linked to locally agreed asset management planning processes. This allows decisions on how these resources should be invested to be taken locally. The following table shows total capital allocations to the Staffordshire local education authority area since 1996–97, the earliest year for which reliable information is readily available.

Capital allocations to Staffordshire LEA

	Allocation (£000)
1996–97	3,685
1997–98	7,421
1998–99	25,935
1999–2000	15,549
2000–01	31,145
2001–02	23,096
2002–03	26,601
2003–04	35,529

Note:
The allocations include the Voluntary Aided sector.

School Sports Halls (Burton)

Mrs. Dean: To ask the Secretary of State for Education and Skills how much money has been invested in school sports halls in Burton constituency in each year since 1996, broken down by school. [161850]

Mr. Miliband: The Department does not hold information on how much has been spent on sports halls. Schools premises investment decisions are based on local education authority asset management planning processes and this information should therefore be available locally.

SEN (Performance Targets)

Mr. Jenkins: To ask the Secretary of State for Education and Skills what plans he has to introduce performance targets for pupils with special educational needs. [161233]

Mr. Miliband: All maintained schools are required to set targets for their pupils including those with special educational needs (SEN) by virtue of The Education (School Performance Targets) (England) (Amendment) Regulations which came into force in 2001.

In addition to routine monitoring of a child's progress by their teacher, each child with SEN is expected to have short-term educational and development targets set for them during the course of the year. These targets form part of their individual education plan which should be reviewed on a regular basis before new targets are set.

"Removing Barriers to Achievement: the Government's Strategy for SEN", launched last month, strengthens the focus on pupil progress and achievement. One of the key measures is Mailing and guidance on how schools can make effective use of routine tests, tasks and other forms of assessment to inform target-setting and reporting on pupil progress.

We will also be supporting all schools with pupils working at the very lowest level of the National Curriculum, by promoting the use of P-Scales and providing guidance on moderation to support consistent assessment and collection of P-Scale results in 2005.

INTERNATIONAL DEVELOPMENT

Middle East

Dr. Tonge: To ask the Secretary of State for International Development what representations he has made to the Israeli Government regarding water supplies to people living in the West Bank and Gaza Strip. [161331]

Hilary Benn: The Government have frequently made representations to the Israeli authorities, both bilaterally and through the European Union, about the destruction of water infrastructure and access to safe water supplies, including as a result of the building of the separation barrier.

Dr. Tonge: To ask the Secretary of State for International Development what assessment he has made of the provision of clean water to Palestinians in the West Bank and Gaza Strip. [161330]

Hilary Benn: About a third of West Bank communities still depend on local springs and harvesting cisterns to get their water. It is often not suitable for drinking. Per capita, consumption is decreasing, from 95 cubic metres per year per capita in 1997 to 67 cubic metres per year per capita in year 2000. Figures for subsequent years are not available but the impact of the intifada has increased problems with access to clean water for many families. DFID supports the Palestinian Water Authority in its analysis of available water resources. This includes a project to model the western aquifer and predict the sustainable yields.

Dr. Tonge: To ask the Secretary of State for International Development what assessment he has made of the sources of water in the West Bank appropriated by Israel during the construction of the security fence. [161332]

Hilary Benn: The security fence is causing severe problems in access to water for Palestinian civilians and farmers, which is damaging the Palestinian agricultural economy. Once the western section of the Wall is completed, it is estimated that the annual value of agricultural production in the West Bank will decrease by 22.8 per cent. In Qalqilya alone 15 of the city's 39 wells have been confiscated or isolated, representing over one-third of the city's water supply.

DFID supports the Palestinian Water Authority in its analysis of the shared Western Aquifer and the Palestinian Negotiations Support Unit in its preparatory work for final status negotiations on sharing water resources with Israel. This has helped Palestinian analysis of the water sources appropriated by the building of the barrier.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the work of the Parents' Circle in the West Bank and Gaza. [161489]

Hilary Benn: The Parents' Circle provides support to bereaved Israelis and Palestinians who have lost family members as a result of the conflict. It plays an important campaigning and advocacy role, providing lectures for school children and disseminating information on the conflict to the wider general public. Civil society organisations like Parents' Circle can play a useful role in conflict situations by reducing tensions, bringing ordinary people together.

Civil Society Organisations

Annabelle Ewing: To ask the Secretary of State for International Development if he will list the UK-based civil society organisations that received contributions from his Department in 2002. [161404]

Mr. Gareth Thomas: This information is not readily available in respect of calendar years and could be obtained only by incurring a disproportionate cost. However, the list of UK based civil society organisations that DFID has provided funding to in the financial year 2002–03 will be placed in the Libraries of the House of Commons under the title "List of UK Civil Society Organisations Receiving Contributions from DFID (PQ reference 161404)".

In addition, a number of CSOs receive funding direct from our country offices.

Annabelle Ewing: To ask the Secretary of State for International Development how much funding was received by each UK-based civil society organisation from his Department in *(a)* 2002 and *(b)* 2003. [161405]

Mr. Gareth Thomas: This information is not readily available in respect of calendar years and can be obtained only by incurring a disproportionate cost. However, the funding DFID has provided to UK based civil society organisations in the financial years 2001–02 and 2002–03 is available and will be placed in the Libraries of the House of Commons under the title "UK Civil Society Organisations Funded by DFID (Hansard PQ ref 161405)".

This information relates to the UK CSOs which receive funding directly from DFID headquarters. In addition, a number of CSOs receive funding direct from our country offices.

Commission for Africa

Mr. Tynan: To ask the Secretary of State for International Development pursuant to his statement of 26 February 2004, *Official Report*, column 55WS, on the Commission for Africa, what further commissioners have been appointed; and how many commissioners are planned in total. [161385]

Hilary Benn: The 10 confirmed Commissioners on the Commission for Africa are the Prime Minister, Chancellor Gordon Brown, myself, Prime Minister Meles of Ethiopia, K.Y. Amoako (Executive Secretary of the UN Economic Commission for Africa), Trevor Manuel (South African Finance Minister), Michel Camdessus (French Africa Personal Representative), Mrs. Nancy Kassebaum Baker (Former US Senator), Ralph Goodale (Canadian Finance Minister) and Bob Geldof. Five more invitations are outstanding. There will be no more than 15 Commissioners in total.

Millennium Development Goals

Ian Stewart: To ask the Secretary of State for International Development if he will include in the Departmental Report for 2004 a statement on *(a)* the progress made on and *(b)* the resources invested in the Millennium Development Goal targets for increases in access to drinking water and basic sanitation. [161372]

Hilary Benn: DFID's departmental report 2004 will set out our broad strategy on water and sanitation. It will stress the importance of working with partner governments through their Poverty Reduction Strategies and of providing support to a range of

multilateral initiatives. DFID's Water Action Plan published by the Department in March 2004, contains the following central elements:

Evidence of the links between water and the other Millennium Development Goals

A focus on a number of international partnerships and networks that create coherence and consistency in the water sector

The incorporation of water issues into DFID's discussions on water policy with partner countries

DFID's programme for action at country, regional and international level

The Water Action Plan also includes a breakdown of the bilateral financial resources invested in the development of water and sanitation services and an explanation of other DFID funding through non-governmental organisations and multilateral partners.

Copies are available at www.dfid.gov.uk

Further information detailing financial expenditure on specific sectors is included in Statistics on International Development 1998–99–2002–03, published in October 2003. This also outlines progress made towards the MDG targets for increasing access to water and basic sanitation.

Queries relating to Statistics on International Development should be addressed to: statsmis@dfid.gov.uk

Tanzania

Mr. Trend: To ask the Secretary of State for International Development what assessment he has made of the implications for UK aid to Tanzania of Tanzania's decision to purchase an aircraft for its President. [161512]

Hilary Benn: The purchase and cost of the Government aircraft has been included both in the 2002–03 and 2003–04 budgets. It has been debated in Parliament as part of the budget speech discussions and further sessions. Our budget support is to enable the Government of Tanzania to implement its Poverty Reduction Strategy. Resource allocation decisions are for the Government of Tanzania to make. Allocations to priority sectors for poverty reduction have increased in absolute terms year on year since 2000.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for International Development what account he takes of the domestic budget priorities of the Zimbabwe Government when assessing humanitarian aid to the country. [161488]

Hilary Benn: There is an internationally agreed process through which the Government of Zimbabwe and the Office of the United Nations Humanitarian Co-ordinator agree annually a "Consolidated Appeal" in consultation with all other humanitarian stakeholders. The humanitarian appeal takes account of what the Government of Zimbabwe plans and is reasonably expected to do within its own resources. But we have not held back our assistance because of clearly poor policies of the Government of Zimbabwe, including on budget allocation. To do so would be to punish poor and vulnerable citizens of Zimbabwe for the actions of a Government whose legitimacy is questioned.

DFID has supported those elements of the Consolidated Appeal that provide humanitarian aid to the most vulnerable members of Zimbabwean society. The efficiency of the response is often hindered by the lack of transparency surrounding Government plans and programmes—particularly in the case of the State monopoly Grain Marketing Board. DFID, through the UN and with our development partners, continues to advocate for greater transparency on state spending from the Government of Zimbabwe.

CABINET OFFICE

Emergency Planning College

Patrick Mercer: To ask the Minister for the Cabinet Office what arrangements he will make for hon. Members to visit the Emergency Planning College to see the training taking place. [158983]

Mr. Alexander: I am always content to consider requests from hon. Members to visit the Emergency Planning College. From October 2004 the commissioning of its new buildings will be complete and the new programme of courses under way.

Better Regulation Task Force

Tony Wright: To ask the Minister for the Cabinet Office pursuant to his written Statement on 9 February 2004, *Official Report*, column 61WS, on the Regulation Task Force Report, Independent Regulators, who is leading this review; what its remit is; what resources are at its disposal; when it is likely to report; whether the report will be made public; and if he will make a statement. [159481]

Mr. Alexander: The review of public bodies referred to in my written statement of 9 February 2004 on the Better Regulation Task Force Report 'Independent Regulators' was prompted by the Public Administration Select Committee's Fourth Report of Session 2002–2003 'Government by Appointment: Opening Up the Patronage State' (HC 165). In response to the first recommendation of that report the Government stated that:

"The Government agrees with the Committee that the variety and complexity of public bodies sponsored by central Government Departments supports the need for a review of their definition and scope. The Cabinet Office will therefore undertake a review of the types of body currently in existence and the outcome of this will feed into the work proposed in response to recommendations 4 and 5."

The Review is being carried out by the Cabinet Office within existing resources and work is expected to be complete by the end of December 2004. The final report will review the types of body currently in existence and will be made publicly available on the Cabinet Office website.

Mr. Heald: To ask the Minister for the Cabinet Office if he will make a statement on the action taken by the Government in response to recommendations made by the Better Regulation Task Force. [161957]

Mr. Alexander: Since it was established in 1997, the Better Regulation Task Force has made around 400 recommendations to Government. All but 10 have been accepted.

Recent actions in response to Task Force recommendations include the announcement of common commencement dates for domestic employment regulations and the strengthening of guidance on Government consultation.

The Task Force monitors the Government's implementation of its recommendations.

Mr. Heald: To ask the Minister for the Cabinet Office pursuant to his answer of 9 March 2004, *Official Report*, column 1397W, on the Better Regulation Task Force, if he will break down the cost of the task force by inquiry. [162020]

Mr. Alexander: Published inquiries are only one aspect of the Better Regulation Task Force's work. The cost of individual inquiries cannot be disaggregated from the Task Force's overall running costs.

Disabled Civil Servants

Mr. Heald: To ask the Minister for the Cabinet Office what plans he has to change the target for recruitment of people with disabilities to the Civil Service; and if he will make a statement. [161959]

Mr. Alexander: The Government remain committed to increasing the proportion of people with disabilities in the Civil Service. As of April 2003, disabled staff accounted for 3.6 per cent. of the Civil service, up from 2.8 per cent. in 1995. A service-wide target has been set at 3.0per cent. disabled people in the senior Civil Service by 2004–05. There are no present plans to change this target.

Mr. Heald: To ask the Minister for the Cabinet Office what recent steps he has taken to increase the number of people with disabilities in the Civil Service. [162010]

Mr. Alexander: The Government remain committed to increasing the number of people with disabilities in the Civil Service. The Cabinet Office promotes outreach initiatives, including: a Summer Placement Scheme to encourage disabled applicants to join the graduate Fast Stream; and participation in WORKSTEP, a Government initiative to help disabled people to progress to mainstream employment where appropriate.

Lord Birt

Mr. Heald: To ask the Minister for the Cabinet Office whether Lord Birt has an office in Government premises. [161908]

Mr. Alexander: Lord Birt is the Prime Minister's unpaid strategy adviser and is based at No. 10.

Permanent Secretary of Government Communications

Mr. Heald: To ask the Minister for the Cabinet Office when he expects the Permanent Secretary of Government Communications to become operationally functional. [161952]

Mr. Alexander: We are in the final stages of the selection process for the Permanent Secretary Government Communications. We expect to announce an appointment shortly. The successful candidate will take up post as soon as they can, taking forward work and leading people already contributing to improvements in Government communications.

Red Tape

Mr. Heald: To ask the Minister for the Cabinet Office pursuant to his answer of 9 March 2004, *Official Report*, column 1399W, on the Regulatory Impact Unit, on what statistical basis the statement that the UK has almost the lowest administration cost and fewer regulations for entrepreneurs than any other EU country was made; and if he will make a statement. [161962]

Mr. Alexander: The statistical basis for this assessment was published in an OECD working paper, published on 13 January 2003, entitled "Regulation, Productivity and Growth: OECD Evidence". Recent assessments by the World Bank and KPMG have drawn similar conclusions.

CONSTITUTIONAL AFFAIRS

Freedom of Information Act (Annual Report)

Llew Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many copies of the annual report on the bringing into force of provisions of the Freedom of Information Act 2000 published in November 2003 were printed; how the report was publicised; and how many imprints have been recorded to date showing visits to the URL for the report on his Department's website. [161177]

Mr. Lammy: 1,000 copies of this report were printed. Publication was announced to both Houses by means of Written Ministerial Statements *Official Report* column 40WS on 27 November 2003 and my Department issued a press release on 28 November 2003. Up to the end of February 2004, the URL for the report was visited 1,076 times and the relevant document was downloaded 4,846 times.

Freedom of Information Act (Costs)

Llew Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs what has been the cost to date to *(a)* Government Departments and *(b)* non-Departmental public bodies subject to the Freedom of Information Act 2000 of the steps taken to implement that Act; and what estimate he has made of the costs that will be incurred by the time the Act comes fully into force. [161189]

Mr. Lammy: The information requested in points *(a)* and *(b)* of the hon. Member's question is not held centrally. However, we estimate that the cost to date of implementing FOI within my Department has been £180,207.

No recent estimate has been made of the collective costs that will be incurred by all departments and non-Departmental public bodies by the time the Act comes

into force. For my own Department, projected costs of implementation for the period March 2004 to January 2005 are a further £107,667.

Although no additional money is being made available centrally for implementing FOI, the cost of implementation should be considered in the light of the organisational and public benefits that it will bring through improved record keeping and relationships with the public, better decision making and greater public confidence in those decisions.

Guantanamo Detainees

Llew Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the British former detainees held at the prison camp in Guantanamo in Cuba would be eligible to claim financial aid to support a case to sue the United States authorities for compensation for unlawful detention. [161759]

Mr. Lammy: The legal aid scheme for England and Wales can only cover proceedings in this jurisdiction. Legal aid is not available for proceeding in the United States courts.

For any proceedings properly brought in England and Wales, legal aid may be available subject to a standard financial means and legal merits test. The Legal Services Commission considers all cases objectively against these criteria before deciding whether or not to fund a case.

Northern Ireland Court Service

Mr. Mallon: To ask the Parliamentary Secretary, Department for Constitutional Affairs, what authority there is for the exclusion of Irish nationals are from reserved posts in the Northern Ireland Court Service. [160427]

Mr. Leslie: Posts in the Northern Ireland Court Service are reserved in accordance with the Civil Service Nationality Rules.

Rape

Ms Keeble: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) if he will make a statement on the action he is taking to improve the administration of rape cases in Northamptonshire; [161635]

(2) what steps he is taking to prevent delays in court hearings of rape cases. [161636]

Mr. Leslie: The listing of cases in the courts is a judicial function, although the administration of the task is delegated to an official who operates within parameters set by and in accordance with the policy established by the judiciary. Top priority is always given to the early allocation of a fixed date for the trial of rape cases in the Crown Court. Court staff make every effort to try to ensure that the trial goes ahead on the date and at the time specified, so that the parties and their witnesses are not brought to court unnecessarily. The Effective Trial Management Programme is also working to improve case preparation and progression, to achieve successful outcomes.

The situation in this respect applies to Northamptonshire cases as it does to cases proceeding in all other venues of the Crown Court.

DEPUTY PRIME MINISTER

Council Tax

Mr. Steinberg: To ask the Deputy Prime Minister pursuant to his Answer of 2 March 2004, *Official Report*, column 820W, on council tax, what total additional revenue support grant has been allocated to Durham as a result of the council tax base reduction because of the number of student exemptions. [159464]

Mr. Raynsford: It is not possible to give a meaningful value for the total additional revenue support grant that has been allocated to Durham as a result of the council tax base reduction because of the number of student exemptions.

That is because, to do so, the Office of the Deputy Prime Minister would first need to calculate a taxbase that included the properties currently excluded because of student exemptions for all authorities. The Office of the Deputy Prime Minister does not have any information about whether these properties would have otherwise been subject to different discounts or exemptions (e.g. single-person discount).

This new taxbase would then need to be used to recalculate Revenue Support Grant (RSG). This is likely to result in a different distribution of grant before floors and ceilings to authorities. The existing levels of floors and ceilings may then be inappropriate with this new distribution; it would certainly change the scaling factors on grant increases above the floor published in the Local Government Finance Report (England) 2004–05.

The number of properties covered by student exemptions is no longer collected by band of property. The latest year for which this information was available was 2002–03. In 2002–03 Durham City had one class K exemptions (an empty dwelling owned by a student who last lived in the dwelling as their main home), 129 class M exemptions (for halls of residence) and 728 class N exemptions (for dwellings occupied only by students, the foreign spouses of students, or school and college leavers). This is the equivalent of about 828 Band D properties. The Standard Tax Element for shire districts for 2002–03 was £97.2073276605. Therefore under the assumptions specified in the Local Government Finance Report (England) 2002–03, Durham City would have been able to raise a further £80,444.46 had these properties not had student exemptions. An equivalent amount of RSG before floors and ceilings was therefore provided to Durham City with respect to the properties with student exemptions.

English Partnerships

Brian White: To ask the Deputy Prime Minister what energy efficiency targets he has set for English Partnerships. [161198]

Phil Hope: English Partnerships (EP) has established its own energy efficiency targets for all new homes, retail, office and industrial buildings constructed on its land. For all developments it applies the Building Research Establishment Environmental Assessment Method (BREEAM) standards; in addition, for residential projects, it applies National Home Energy Rating (NHER) standards, which have been devised by the National Energy Foundation.

Where it is the main or sole partner in a development, EP's aim is to achieve BREEAM "Very good" standards and NHER 9.0 ratings.

In all of the seven Millennium Community developments and a number of other EP landmark or exemplar schemes BREEAM "Excellent" and NHER 10.0 standards will be achieved. All residential schemes in Milton Keynes achieve NHER 10.0.

The Millennium Community programme also seeks to achieve other higher environmental and construction targets.

Fire Service

Mr. Hammond: To ask the Deputy Prime Minister (1) what estimate his Department has made of the *(a)* number and *(b)* cost of redundancies that would arise from merging Fire and Rescue control rooms into nine regional control centres; [161439]

(2) what estimate his Department has made of the total cost of merging Fire and Rescue control rooms into nine regional control centres. [161440]

Mr. Raynsford: The Mott MacDonald report, on the "Future of Fire and Rescue Service Control Rooms in England and Wales", published on 11 December 2003, includes estimates of the costs and benefits of establishing regional fire and rescue control rooms. These include estimates of both the number of posts that will no longer be required and redundancy costs. Copies were made available in the Library of the House.

Houses in Multiple Occupation

Mr. Reed: To ask the Deputy Prime Minister what representations he has received on extending the definition of houses in multiple occupation to include student houses occupied by fewer than five persons; and if he will make a statement. [161967]

Keith Hill: Representations have been received from the National Union Of Students (NUS), other student representative bodies, the Houses in Multiple Occupation Network and some local authorities to extend the scope of mandatory licensing of HMOs to include student houses occupied by fewer than five persons.

The Housing Bill provides that accommodation shared by students (but excluding halls of residence managed by the university) will be classified as HMOs. The Office of the Deputy Prime Minister has made it clear that the scope of the mandatory licensing of HMOs, as prescribed by secondary legislation, is currently proposed to apply to HMOs that are three storeys and more and occupied by at least five persons who constitute more than one household. This will cover a great many shared student houses.

The Government has always stressed that the provisions in the Housing Bill are concerned with dealing with the worst standards of management and physical conditions in the private rented sector, particularly the larger HMOs that present the greatest risks. However, the Bill does give local authorities a discretionary power to license smaller HMOs if there is a need to do so, in order that the welfare, health and safety of the occupiers are protected.

Mr. Reed: To ask the Deputy Prime Minister how much is being paid to Charnwood borough council through the Revenue Support Grant in 2003–04 to compensate for council tax revenue lost as a result of the exemption for houses in multiple occupation occupied solely by students; and if he will make a statement. [162015]

Mr. Raynsford: It is not possible to give a meaningful value for the total additional revenue support grant that has been allocated to Charnwood as a result of the council tax base reduction because of the number of student exemptions.

That is because, to do so, the Office of the Deputy Prime Minister would first need to calculate a tax base that included the properties currently excluded because of student exemptions for all authorities. The Office of the Deputy Prime Minister does not have any information about whether these properties would have otherwise been subject to different discounts or exemptions (e.g. single-person discount).

This new tax base would then need to be used to recalculate Revenue Support Grant. This is likely to result in a different distribution of grant before floors and ceilings to authorities. The existing levels of floors and ceilings may then be inappropriate with this new distribution; it would certainly change the scaling factors on grant increases above the floor published in the Local Government Finance Report (England) 2004–05.

However, for 2002–03 an approximate calculation is shown as follows. The number of properties covered by student exemptions is no longer collected by band of property. The latest year for which this information was available was 2002–03. In 2002–03 Charnwood had 512 class N exemptions (for dwellings occupied only by students, the foreign spouses of students, or school and college leavers). This is the equivalent of about 400 Band D properties. The Standard Tax Element for shire districts for 2002–03 was £97.2073276605. Therefore under the assumptions specified in the Local Government Finance Report (England) 2002–03, Charnwood would have been able to raise a further £38,904.53 had these properties not had student exemptions. An equivalent amount of RSG before

floors and ceilings was therefore provided to Charnwood with respect to the properties with student exemptions.

Local Government

Harry Cohen: To ask the Deputy Prime Minister what information he collects on the percentage of annual local authority staffing costs spent on training. [162088]

Mr. Raynsford: The information requested is not held centrally and could only be provided at disproportionate cost.

Mr. Pickles: To ask the Deputy Prime Minister what the aggregate revenue expenditure of councils in England was in each year since 1993–94; and what percentage of that expenditure was funded by *(a)* government grant, *(b)* non-domestic rates and *(c)* council tax in each year. [161501]

Mr. Raynsford: The amount of aggregate revenue expenditure of councils in England in each year since 1993–94 and what percentage of that expenditure was funded by *(a)* government grant, *(b)* non-domestic rates and *(c)* council tax in each year is tabled as follows.

Funding of revenue expenditure

	Revenue expenditure[1]	*Government grant*[2]		*Non-domestic rates*[3]		*Council tax*[4]	
	£ billion	*£ billion*	*Percentage*	*£ billion*	*Percentage*	*£ billion*	*Percentage*
1993–94	41.506	21.685	52	11.584	28	8.912	21
1994–95	43.602	23.679	54	10.692	25	9.239	21
1995–96	44.827	23.335	52	11.361	25	9.777	22
1996–97	46.532	23.003	49	12.743	27	10.461	22
1997–98	47.256	23.840	50	12.034	25	11.241	24
1998–99	50.189	25.291	50	12.531	25	12.332	25
1999–00	53.651	26.421	49	13.619	25	13.278	25
2000–01	57.329	27.809	49	15.407	27	14.200	25
2001–02	61.952	31.469	50	15.144	24	15.246	25
2002–03	65.919	32.648	50	16.632	25	16.648	25
2003–04[5]	72.473	37.517	52	15.618	22	18.946	26

[1] Expenditure financed from revenue support grant, specific grants within AEF, special grants, non-domestic rates, council taxes and balances. Also includes SSA reduction grant (1994–95 onwards), police grant (1995–96 onwards), Central Support Protection Grant (1990–2000 to 2001–02) and General Greater London Authority Grant (2000–01 onwards). This column is not the total of the others. The difference is due to funding by balances and other adjustments.

[2] Revenue support grants, specific and special grants within AEF, SSA reduction grant (1994–95 onwards), police grant (1995–96 onwards), Central Support Protection grant (1999–2000 to 2001–02) and General GLA grant (2000–01 onwards).

[3] includes City offset.

[4] Gross of council tax benefit and council tax transitional reduction scheme.

[5] Budget estimates

Planning Applications (Greater London)

Simon Hughes: To ask the Deputy Prime Minister what the average length of time is for processing planning applications in Greater London. [162345]

Keith Hill: The information available from the Office of the Deputy Prime Minister is the percentages of applications for planning permission and related consents which are decided within eight weeks, between eight and 13 weeks and in more than 13 weeks. The statistics are used to monitor performance against the Government targets that 60 per cent. of applications for major development should be decided within 13 weeks, that 65 per cent. of applications for minor development should be decided within eight weeks, and that 80 per cent. of applications for other development (predominantly householder applications) should be decided within eight weeks.

In the July to September 2003 quarter, London boroughs collectively decided 56 per cent. of major applications within 13 weeks, 65 per cent. of minor applications within eight weeks and 78 per cent. of other applications within eight weeks.

Port Clarence

Mr. Hancock: To ask the Deputy Prime Minister pursuant to his Answer of 4 March 2004, *Official Report*, column 1106W, on Port Clarence, Stockton, whether future involvement of English Partnerships and One North East in the development of Port Clarence would be subject to EU regulations concerning shipbuilding subsidies. [160788]

Mr. Timms: I have been asked to reply.

Any proposals for port and associated developments that are of potential assistance to commercial shipbuilding would be subject to the EU framework on state aid for shipbuilding (2003/C 317/06). However, these considerations do not apply where such developments are clearly for the sole benefit of naval shipbuilding, since military vessels are excluded from the provisions of the framework.

R and D

Mr. Cousins: To ask the Deputy Prime Minister to whom his Department distributes expenditure on research and development; how many staff are employed as a result; and how many research establishments *(a)* his Department and *(b)* its agencies have in each region of England. [154358]

Yvette Cooper: The Office of the Deputy Prime Minister does not distribute expenditure on research and development to external bodies and the Office of the Deputy Prime Minister and its agencies do not have research establishments.

HEALTH

Drug Treatment (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how many people in Crosby are receiving drug treatment. [160623]

Miss Melanie Johnson: Crosby is part of Sefton drug action team. There were 936 people receiving drug treatment in Sefton in 2000–01. This is the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 have not yet been finalised and published.

Biomedical Sciences

Mr. Cummings: To ask the Secretary of State for Health what bursaries are available for the training of biomedical scientists in the NHS; and on what criteria bursaries are awarded to support *(a)* paramedical services and *(b)* professions supplementary to medicine. [161013]

Mr. Hutton: National Health Service bursaries are available to students who attend any one of a range of degree or higher education diploma-level health professional courses commissioned and funded by strategic health authority workforce directorates.

Biomedical scientists will usually have attended a non-NHS vocational degree course where the funding for the course and student support arrangements fall under the Department for Education and Skills' general arrangements for students. This is followed by pre-registration training where they are paid a salary and work under a qualified biomedical scientist whilst gaining experience leading to state registration.

Training for the paramedical services is not usually undertaken by means of undergraduate or equivalent courses, instead it is usually done through employment-based training and short vocational courses. In-service candidates are funded by ambulance trusts from their own budgets.

NHS bursaries are available to students undertaking undergraduate courses leading to professional registration in a range of professions supplementary to medicine, now referred to as allied health professions. The aim of this policy is to support recruitment to those professions supported under the scheme and hence to those branches of health care.

Breast Feeding

Mrs. Brooke: To ask the Secretary of State for Health what evidence he has collated about the relationship between breast feeding and obesity. [161345]

Miss Melanie Johnson *[holding answer 15 March 2004]:* In 2002, the Committee on Medical Aspects of Food and Nutrition Policy reviewed the benefits of breastfeeding in its Scientific Review of the Welfare Food Scheme and stated that breastfed babies are less likely to become overweight as children. Since then, a further review in 2003, by Dewey et al, found that most large studies show a protective effect of breastfeeding against overweight in children and adolescents.

The continued protection, promotion and support of breastfeeding remains a major public health priority. Further work is being undertaken by the Health Development Agency, which has appointed two collaborating centres in maternal and child nutrition. Their work will include increasing the body of evidence.

Cancer

Mr. Jenkins: To ask the Secretary of State for Health when he expects his Department's cancer genetic risk assessment trials to be completed. [160073]

Miss Melanie Johnson: We announced in the White Paper, Our Inheritance, Our Future—Realising the potential of genetics in the NHS, published on 24 June 2003, that the Department would be co-funding, in partnership with Macmillan Cancer Relief, a programme of pilot projects to support people who have a family history which suggests that they may have an increased risk of developing certain types of cancer.

My noble Friend, the Parliamentary Under-Secretary of State for Health, announced the £1.5 million programme setting up four pilot sites on 20 February 2004. The pilot services will offer genetic assessment to appropriate individuals, but this is not a trial of genetic risk assessment per se. The pilots will, rather, test out ways to provide an integrated service for individuals who are, or are concerned that they may be, at increased risk of cancer due to genetic factors. The pilot sites will run for up to three years and will be evaluated to ensure lessons about how best to deliver this type of service can be shared by the wider National Health Service.

There are other relevant developments in the area of assessment of genetic risk of cancer. The National Institute for Clinical Excellence is preparing guidance for the NHS in England and Wales on the identification and management of genetic risk of familial breast cancer. This is due to be published shortly and is expected to include guidance on how to assess risk and when it is appropriate to refer individuals for genetic testing.

Care Homes

Sandra Gidley: To ask the Secretary of State for Health what steps are being taken to ensure that appropriate procedures are being put in place to monitor the quality and effectiveness of methods for dealing with complaints in relation to care homes, in the transition from the National Care Standards Commission to the Commission for Social Care Inspection. [161830]

Dr. Ladyman: The Commission for Social Care Inspection (CSCI) will, at least initially, continue to use the same procedures that the National Care Standards Commission uses for dealing with complaints about regulated services and monitoring the quality and effectiveness of those procedures.

The CSCI Commissioners have endorsed a decision to set up a CSCI complaints project board. One of the board's key objectives will be to review the effectiveness of the current arrangements for handling complaints about regulated providers under the Care Standards Act.

Sandra Gidley: To ask the Secretary of State for Health what action he plans to take to investigate price differentials between self-funded and publicity-funded residents in care homes, in order to establish whether there is evidence of cross-subsidisation. [161831]

Dr. Ladyman: It is not unusual for service providers to charge different prices, nor to offer discounts for bulk purchasing, for example when councils block contract for a number of places. Care homes are required to provide transparent information so that future residents are aware of the full charge that will be made for the service.

Sandra Gidley: To ask the Secretary of State for Health if he will make a statement on the decision by the Office of Fair Trading to undertake an investigation into the care home market. [161833]

Dr. Ladyman: The Office of Fair Trading (OFT) has acknowledged the complexity and changing nature of the care home market, but has also found evidence that the challenges this throws up can and is being met at local level. This confirms the Government's view that local problems are most amenable to local solutions. I am particularly heartened by the OFT's decision to focus in some depth on issues that have a particular bearing on information and choice for consumers. I look forward to reading the findings when they are produced, especially any recommendations for making the market work better for consumers.

Children's Hospices

Jeff Ennis: To ask the Secretary of State for Health what children's hospices are open in England; and where they are situated. [161503]

Dr. Ladyman: There are 28 children's hospices registered with the National Care Standards Commission. They are situated as follows:

Acorns Children's Hospice Birmingham, West Midlands
Acorns Childrens Hospice Walsall, West Midlands
Baby Hospice (Zoe's Place) Life Health Centre, Liverpool
Butterwick Hospice Childrens Unit, Stockton-on-Tees
Children's Hospice South West, Barnstaple, North Devon
Christopher's (Childrens' Hospice) Guildford, Surrey
Claire House Children's Hospice, Bebington, Wirral
Demelza House Children's Hospice, Sittingbourne, Kent
Derian House Children's Hospice, Chorley, Lancashire
East Anglia's Children's Hospice, Cambridge, Cambridgeshire
East Anglia's Children's Hospice Quidenham Norwich, Norfolk
East Anglia's Children's Hospice Suffolk, Ipswich, Suffolk
Eden Valley Hospice Durdar Road, Carlisle, Cumbria
Francis House, Didsbury, Manchester
Haven House (The White House), Woodford Green, Essex
Helen House, Oxford, Oxfordshire
Hope House Children's Respite Hospice, Oswestry, Shropshire
Little Haven Children's Hospice, Benfleet, Essex
Martin House Grove Road, Wetherby, West Yorkshire
Naomi House Children's Hospice, Sutton Scotney, Winchester
Pasque Charity, Luton, Bedfordshire
Rainbows Children's Hospice Loughborough, Leicestershire
Richard House Childrens Hospice, London
St. Andrew's Childrens Hospice, Grimsby, North East Lines
St. Oswald' s Children's Hospice, Newcastle Upon Tyne
The Donna Louise Trust Treetops, Stoke on Trent, Staffordshire
Trinity—The Hospice In The Fylde, Blackpool, Lancashire
Zoe's Place, Normanby, Middlesbrough

Cholesterol

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 5 March 2004, *Official Report*, column 1160W, on cholesterol, if he will estimate the prevalence of raised blood cholesterol in *(a)* men and *(b)* women in England. [160700]

Miss Melanie Johnson: Figures available from the Health Survey for England 1998 are shown in the table. In this survey, cholesterol was considered to be raised at a level of 6.5mmol/l or over.

Prevalence of raised cholesterol by sex in England, 1998

	Adults 16 + with a valid sample	
	Men	*Women*
Raised cholesterol (Percentage > =6.5mmol/l)	18.1	22.3
Bases (Number)	4846	5428

Source:
Health Survey for England Department of Health.

Cystic Fibrosis Screening

Mr. Watson: To ask the Secretary of State for Health what progress is being made to implement his commitment to introduce new-born screening for cystic fibrosis in England in 2004. [161329]

Dr. Ladyman: Ministers announced the implementation of a new national programme for newborn cystic fibrosis screening, subject to further advice from the UK National Screening Committee (UK NSC) about screening protocols, costs, feasibility and timetables.

An expert working group of the UK NSC has carefully considered the best way of screening and a robust protocol has now been developed for the screening test and diagnostic follow up. Standards of best practice for laboratory services have also been finalised. These will be considered by the UK NSC at its next meeting in March 2004.

Dentistry

Mr. Simon Thomas: To ask the Secretary of State for Health (1) when amendments to the Dentists Act 1984 to recognise professional complementary dentists will come into force; [161294]

(2) when he expects registrations for professions complementary to dentistry to begin. [161302]

Ms Rosie Winterton: The Department is working with the General Dental Council (GDC) to provide for the registration of appropriately trained professionals complementary to dentistry. An Order to amend the Dentists Act 1984 is being drafted under Section 60 of the Health Act 1999 which, after the necessary consultations, will be laid before Parliament later this year for debate under the affirmative procedure. We expect registration to commence in 2005.

Mr. Simon Thomas: To ask the Secretary of State for Health (1) what estimates he has made of the number of dental technicians who illegally provide dentures direct to the public; how many successful prosecutions have been made for cases of providing illegal dentures; and in how many of these cases harm was caused to a patient; [161295]

(2) what estimates he has made of the number of dentures *(a)* made and *(b)* sold illegally in each of the past five years. [161296]

Ms Rosie Winterton: No figures are available for the number of dentures made or sold by clinical dental technicians. I refer the hon. Member to the reply given to the hon. Member for Sutton and Cheam (Mr.Burstow) on 9 February 2004, *Official Report*, column 1203W, with regard to the number of prosecutions and convictions for illegal dental practice. Information is not available on whether harm was caused to the patient involved, but I understand that the General Dental Council's decision to prosecute is usually prompted by a complaint from a patient.

Mr. Simon Thomas: To ask the Secretary of State for Health (1) what plans he has to offer training programmes to prospective clinical dental technicians; and how long the training programmes will take to complete; [161298]

(2) whether the General Dental Council will accept qualifications received *(a)* outside the UK and *(b)* outside the EU as valid training for the role of clinical dental technician; [161299]

(3) how long the process of registering as a clinical dental technician will take; [161300]

(4) when the first UK trained clinical dental technician will be able to practise in the UK. [161301]

Ms Rosie Winterton: The Department is working with the General Dental Council (GDC) to provide for the registration of appropriately trained clinical dental technicians (CDTs). An Order to amend the Dentists Act 1984 is being drafted under Section 60 of the Health Act 1999 which, after the necessary consultations, will be laid before Parliament later this year for debate under the affirmative procedure. The GDC will then decide which qualifications will make clinical dental technicians eligible for registration, what account should be taken of any training acquired overseas and the timetable for implementation of the new arrangements. It should be possible for registration to commence in 2005. When the qualifications required are established, we will alert national health service workforce development confederations to the training requirements for this new class of professional complementary to dentistry.

Mrs. Calton: To ask the Secretary of State for Health what assessment has been made of the implementation of IT in pilot schemes for dentists; and if he will make a statement. [160525]

Ms Rosie Winterton: The Department of Health has recently made funding, £517,000, available to primary care trusts, via the NHS Modernisation Agency, to support information technology software modifications in some of the Modernisation Agency's Options for Change field sites that are testing alternative models of remuneration for dentists.

In addition, in September 2003 we announced new investment including £30 million for dental information technology. This investment will facilitate integration of National Health Service dentistry within the national programme for IT. It is intended that future IT solutions for dentistry will be consistent with those that are being developed for use across the NHS.

Mr. Hancock: To ask the Secretary of State for Health how many dentists have been recruited to the NHS in each year since 1997 in *(a)* total, *(b)* NHS Trust areas covering Portsmouth and *(c)* NHS Trust areas covering Hampshire. [160770]

Ms Rosie Winterton: Information on the numberentering the general dental service (GDS) or the personal dental service (PDS) is shown in the table for England and Wales, Portsmouth Primary Care Trust (PCT) area and Hampshire and Isle of Wight Strategic Health Authority (SHA) area.

Number of entrants to the GDS or PDS

	England and Wales	*Hampshire and Isle of Wight SHA*	*Portsmouth City PCT*
2002 from 2001	1,619	84	11
2003 from 2002	1,587	89	10

Note:
Dentists include principal dentists, their assistants and trainees. Entrants will include some dentists who left dentistry temporarily in previous years.

Department Branding

Mr. Laws: To ask the Secretary of State for Health how much his Department and its predecessors spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154071]

Ms Rosie Winterton: Since 1 May 1997, £140,896 has been spent on the development of the current Department of Health identity. This includes new logo design and development, accompanying guidelines and a recent review and update to the guidelines publication.

The cost of design of new stationery carrying the Department of Health logo is included in the above figure. New stationery has always replaced old stationery on a renewal basis.

Branding has not been a factor in the development and redevelopment phases of the Department of Health website.

In January 2000, £3,312.50 was spent on 10 new building signs (two for each site) that carried the new Department of Health logo.

It is not possible to define the cost of producing other materials featuring the Department of Health logo, as branding has not been a factor in their production.

Health Services

Mr. Hoyle: To ask the Secretary of State for Health how much public money has been spent on health in Chorley in each of the last seven years. [161594]

Miss Melanie Johnson: The information requested is not available. Allocations made to the former South Lancashire Health Authority and the Chorley and South Ribble Primary Care Trust since 1997 are shown in the table.

Year	*Amount £*
South Lancashire Health Authority	
1997–98	132,480,000
1998–99	138,391,000
1999–2000	185,797,000
2000–01	206,248,000
2001–02	223,342,000
2002–03	247,205,000
Chorley & South Ribble Primary Care Trust	
2003–04	171,696,000

Mr. Hoyle: To ask the Secretary of State for Health how many *(a)* nurses and *(b)* doctors are training in Chorley Hospital. [161595]

Miss Melanie Johnson: Information on doctors in training is collected on a trust basis. The data shown in the table represents the latest available information for the Lancashire Teaching Hospitals National Health Service Trust.

At 30 September 2002	*Number (headcount)*
All doctors in training	243
Of which:	
Registrar	81
Senior House Officer	127
House Officer	35

Source:
Department of Health medical and dental workforce census.

Information on nurse training is not collected on an individual hospital basis, but at strategic health authority (SHA) level. The majority of the training takes place in higher education institutes with clinical placements being undertaken in hospitals. In 2003–04, the Cumbria and Lancashire SHA is funding 1,075 students to start pre-registration nurse training.

Source:
Department of Health MPT quarterly monitoring.

Mr. Hoyle: To ask the Secretary of State for Health if he will list new medical services available at Chorley Hospital since 1997. [161587]

Miss Melanie Johnson: The new developments listed have been introduced at the Chorley and South District general hospital since 1997:

Service	*Introduced since 1997*
Additional new medical ward	June 2002
New renal dialysis unit	June 2002
New diabetes/dermatology centre	April 2003
Additional outpatient services	1997-present
Investigation unit for medicine	2001–02
Discharge lounge (to be relocated April 2004)	2001–02
Additional bed in coronary care	1997
Two additional beds in intensive care	2001–02
Additional endoscopy session, including the provision of nurse endoscopy	2001-present

Mr. Hoyle: To ask the Secretary of State for Health how many people have been treated in the Renal Centre at Chorley hospital since it opened; and if he will make a statement on the effects on local people of using the centre. [161589]

Miss Melanie Johnson: This information is not held centrally.

The new unit has eased access to dialysis treatment and has also added significant capacity to the service provided by Lancashire Teaching Hospitals National Health Service Trust.

Mr. Hoyle: To ask the Secretary of State for Health how many women with suspected breast cancer saw a specialist within two weeks in each year since 2000. [161591]

Miss Melanie Johnson: The two week outpatient waiting time standard was introduced in April 1999 for urgent general practitioner referrals of suspected breast cancer. The following shows the number of women seen within two weeks for each year since 2000.

	Number of women seen by a specialist within two weeks of urgent referral
2000	84,989
2001	97,254
2002	109,339
2003	119,888

Mr. Hoyle: To ask the Secretary of State for Health how many constituents in Chorley over 60 years of age *(a)* benefited from free eye tests and *(b)* were eligible for free eye tests in 2003. [161590]

Miss Melanie Johnson: The information requested is not available.

The total number of sight tests paid for by Cumbria and Lancashire Strategic Health Authority in the year 2002–03 for the 'aged 60 and over' category was 189,000. Sight tests can not be equated to the numbers of patients. Although most people do not come back for a sight test within the year, some patients suffering from medical conditions are advised to have re-examinations sooner.

The total population for those aged 60 and over in Cumbria and Lancashire Strategic Health Authority is approximately 429,300 (as at June 2002). All people aged 60 and over are eligible for national health service sight tests.

Immigrant Medical Inspections

Mr. Randall: To ask the Secretary of State for Health what bodies have responsibility for inspection and scrutiny of the medical inspection of immigrants function. [156851]

Miss Melanie Johnson: The lead body on the inspection and scrutiny of healthcare provided by the National Health Service, including that of medical inspection of immigrants, is the Commission for Healthcare Audit and Inspection (CHAI).

Infant Formula

Mrs. Brooke: To ask the Secretary of State for Health (1) what representations his Department has received regarding the ingredients used in infant formula; [161343]

(2) what representations his Department has received in the last 12 months about breaches of infant formula and follow-on formula regulations. [161344]

Miss Melanie Johnson *[holding answer 15 March 2004]:* In May 2003, the former European Scientific Committee on Food published its report on the revision of essential requirements of infant formulae and follow-on formulae. The Food Standards Agency (FSA) received detailed comments on that report from members of the Scientific Advisory Committee on Nutrition subgroup on Maternal and Child Nutrition; from Baby Milk Action and from the Infant and Dietetic Foods Association.

In the last 12 months, the FSA has received two letters on the subject of breaches of The Infant Formula and Follow-on Formula Regulations 1995 (as amended).

Medical Students

Dr. Murrison: To ask the Secretary of State for Health what proportion of medical students failed to graduate or complete their courses in each year since 1990. [161026]

Mr. Hutton: Collection of data on students is a matter for the Higher Education Statistics Authority (HESA). HESA collects data on the drop out rate of first degree students by institution, but not by subject.

Mersey Regional Ambulance Service

Helen Jones: To ask the Secretary of State for Health what information his Department collects on the Mersey Regional Ambulance Service. [159833]

Miss Melanie Johnson *[holding answer 11 March 2004]:* The Department collects information about volume of service and performance against required standards; details of the returns are in the statistical bulletin "Ambulance Service, England: 2002–03". A copy is available in the Library and also on the internet at www.publications.doh.gov.uk/public/sb0313.htm.

The Department also collects ambulance expenditure returns. The purpose of the returns is to identify total expenditure incurred in the running of ambulance services, and to analyse the breakdown between emergency, non emergency and costs.

Helen Jones: To ask the Secretary of State for Health (1) what steps have been taken to monitor the performance of Mersey Regional Ambulance Service since 26 November 2003; [159834]

(2) what discussions his officials have had with *(a)* the Mersey Regional Ambulance Service and *(b)* Cheshire and Merseyside Strategic Health Authority about improving the performance of the ambulance service since 26 November 2003. [159835]

Miss Melanie Johnson *[holding answer 11 March 2004]:* Departmental officials have held discussions with the Cheshire and Merseyside Strategic Health Authority (SHA), as part of a regular review of performance across a full range of issues. The responsibility for performance management of national health service trusts lies with the SHAs.

Helen Jones: To ask the Secretary of State for Health how many calls Mersey Regional Ambulance Service *(a)* failed to answer within two minutes and *(b)* took more than five minutes to answer in each month since October 2003. [159836]

Miss Melanie Johnson *[holding answer 11 March 2004]:* This information is not collected centrally.

National Service Framework for Older People

Sandra Gidley: To ask the Secretary of State for Health whether he plans to set further milestones for the National Service Framework for Older People; and if he will make a statement. [161930]

Dr. Ladyman: There are no current plans to set further milestones for the National Service Framework for older people.

NHS Funding (Manchester)

Mr. Keith Bradley: To ask the Secretary of State for Health how much additional money will be allocated to *(a)* South Manchester Primary Care Trust and *(b)* Central Manchester Primary Care Trust as a result of the amendments to the census figures for the City of Manchester. [161472]

Miss Melanie Johnson *[holding answer 15 March 2004]:* Revenue allocations for the provision of healthcare, made to primary care trusts (PCTs) for 2003–04 to 2005–06 were announced on 11 December 2002. There are no plans to revisit these allocations.

Any changes in PCTs' population figures will be taken into account for the next round of allocations. Preparatory work for the next allocations round, covering the period up to 2007–08, will commence shortly.

Prescriptions

Mrs. Calton: To ask the Secretary of State for Health what assessment has been made of the potential for fraud in the use of electronic transmission of prescriptions. [159107]

Ms Rosie Winterton: Three pilot projects on the electronic transmission of prescriptions (ETP) ran from mid-2002 to mid-2003 and were independently evaluated by the Sowerby Centre for Health Informatics at the University of Newcastle. An essential part of this was a full security analysis to assess potential risks and threats, including fraud, and ensuring appropriate countermeasures were put in place.

ETP is now being taken forward as part of the national programme for information technology. The lessons learned on fraud prevention from the earlier pilots are being incorporated into the design of the national model for ETP.

The NHS Counter Fraud and Security Management Service (CFSMS) is fully involved in the development of the ETP project and will continue to work to ensure that opportunities for fraud are minimised.

Primary Care Funding

Mr. Watts: To ask the Secretary of State for Health, how long he expects it to take fully to implement the new funding system for primary care trusts. [158183]

Mr. Hutton *[pursuant to his reply, 4 March 2004, Official Report, c. 1117W]:* I regret my previous response was incorrect. The second paragraph of the response should have read as follows.

"The new formula was used to set PCT target allocations for the latest round of national health service revenue allocations, covering the period 2003–06."

Radon Gas

Mr. Jim Cunningham: To ask the Secretary of State for Health how many deaths were attributable to radon gas exposure in each of the last five years. [160426]

Miss Melanie Johnson *[holding answer 15 March 2004]:* From the known radiation risks, the National Radiological Protection Board has calculated that exposure to radon gas in the home and work place causes approximately 2,500 lung cancer deaths per year in the United Kingdom.

Smoking

Mr. Stevenson: To ask the Secretary of State for Health (1) what steps he is taking to minimise adverse effects of second hand smoking on the respiratory health of children; [159473]

(2) what information is available to new parents about the implications of second hand smoke for the respiratory health of children; [159474]

(3) what assessment he has made of the effect of second hand smoke on the respiratory health of babies and young children; and if he will make a statement; [159475]

(4) how many children under the age of five are being treated for respiratory conditions; and what estimate he has made of the proportion of these children who live in households with at least one smoker; [159476]

(5) what measures he is taking to inform parents of the implications of secondhand smoking for the respiratory health of babies and young children. [159477]

Miss Melanie Johnson: It is estimated that, each year, more than 17,000 children under five years are admitted to United Kingdom hospitals because of respiratory illness caused by the exposure to other people's cigarette smoke.

The Scientific Committee on Tobacco and Health (SCOTH) Report published in 1998 reported that:

"passive smoking is a cause of lung cancer and childhood respiratory disease.

There is also evidence that passive smoking is a cause of ischaemic heart disease and cot death, middle ear disease and asthmatic attacks in children. Parents need to be informed about the effects of passive smoking on their children".

The World Health Organisation has found that children are especially vulnerable to secondhand smoke. This is because their lungs are smaller and their immune systems less developed, rendering them more susceptible to respiratory and ear infections triggered by passive smoking; children are smaller and breathe faster than adults and so take in more harmful chemicals per kg of weight than adults; and children often have less choice than adults to leave a smoke-filled room.

The Department has taken action to increase the public's awareness of the dangers from secondhand smoke. The "smoking kids" television advertisement launched last summer was this country's first ever-substantial campaign on secondhand smoke. This has been followed up by major billboard and press adverts. Focusing on children, the television advertisement says:

"Every year thousands of children have to go into hospital because of breathing other people's cigarette smoke".

This goes hand in hand with some of the new health warnings on cigarette packs, which highlight the dangers of secondhand smoke, including the specific advice, "protect children—don't let them breath your smoke".

Evaluation results show that awareness of the messages had been raised. Spontaneous awareness of advertising or publicity of smoking around children rose from 30 per cent. at the pre stage to 74 per cent. at the post stage. Furthermore; there was 78 per cent. spontaneous awareness in households where there were children and at least one of the parents smoked. 55 per cent. of respondents were able to spontaneously recall an element from the campaign, with 49 per cent. of respondents recalling the image of smoke coming from the children's mouths or noses. Prompted recognition of the television advertisement was 79 per cent. The advertising had significant impact amongst non-smokers, with 69 per cent. at the post stage agreeing that the advertisements made them feel that they should encourage their partners and friends that they should not smoke around children.

Mr. Jenkins: To ask the Secretary of State for Health what action he is taking to reduce the level of smoking in children under the age of 16. [160074]

Miss Melanie Johnson: The White Paper, Smoking Kills, published in December 1998, committed the Government to reduce smoking amongst children aged 11–15 from 13 per cent. to 11 per cent. by 2005, and 9 per cent. by 2010. The latest figures, for 2002, show smoking among 11–15 year olds had fallen to 10 per cent. We

have a comprehensive tobacco control strategy, which includes a number of measures likely to make a particular impact on children smoking:

The Tobacco Advertising and Promotion Act 2002 provided for a comprehensive ban on advertising, promotion and sponsorship of tobacco products: the cigarettes smoked most by children are also those which were most heavily advertised.

Tough enforcement on under-age sales: in September 2000 the Government launched an Enforcement Protocol with local authorities to ensure that the existing legislation on under-age sales is properly enforced.

The Government supports roof of age card schemes, hich protect shopkeepers and children alike.

Tougher new restrictions on siting of cigarette vending machines have been introduced.

The national healthy school standard aims to support schools in the process of becoming healthier and is jointly funded by the Department for Education and Skills and the Department of Health and hosted by the Health Development Agency. The overall aim is to help schools become healthy and effective learning environments and is part of the Government's drive to reduce health inequalities, promote social inclusion and raise educational standards through school improvement. Themes include personal, social and health education, including among others, tobacco.

Maintaining the high price of cigarettes is a particular deterrent for children.

Stress Incontinence

Chris Ruane: To ask the Secretary of State for Health how many and what percentage of women suffer from continence problems as a direct result of childbirth; and if he will make a statement. [161240]

Dr. Ladyman: Figures on the number of women who suffer from continence problems as a direct result of childbirth are not collected centrally.

Sunsmart Campaign

Mr. Dhanda: To ask the Secretary of State for Health (1) what steps his Department will take to support the Sunsmart campaign organised by Cancer Research UK; [160998]

(2) what steps his Department will take to increase public awareness of high factor suncreams; [160999]

(3) if he will take steps to subsidise the cost of high factor suncream. [161000]

Miss Melanie Johnson: Decisions on the future funding of the Cancer Research UK's SunSmart sun awareness campaign will be taken in due course.

We have no plans to subsidise the cost of high factor suncream. Research evidence supports our view and that of key stakeholders that shade and clothing (including eyewear) are safer and more reliable means of protecting people against the harmful effects of ultra violet (UV) rays. The Cancer Research UK's SunSmart campaign reinforces this message by saying that sunscreen is one element in the SunSmart campaign's advice on protection against the risk of skin cancer, and should be used if seeking shade (especially between 11.00 and 15.00) and covering skin with clothing is not possible. If sunscreen is used, it should be factor 15 or above and should be regularly applied. In practice, only minimal additional benefit is gained by using factors higher than 15. A Sun Protection Factor 15 sunscreen blocks more than 92 per cent, of the UVB rays.

Sun awareness information is available from the SunSmart campaign at www.sunsmart.org.uk and from the Department SunSafe web pages at www.doh.gov.uk/sunsafe, where specific advice is provided on the use of sunscreens.

Working Time Directive

Mr. Burstow: To ask the Secretary of State for Health pursuant to his Answer of 11 February 2004, *Official Report*, column 1548W, on the Working Time Directive, if he will list the concerns which have been raised over the implementation of the Directive in the context of NHS compliance for doctors in training from 1 August. [156352]

Mr. Hutton: Representations received have covered both the ways in which compliance with the Directive can be achieved, as well as the problems caused to the National Health Service by the decisions of the European Court of Justice on the SIMAP/Jaeser cases.

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 4 March, *Official Report*, col. 1119W, on the Working Time Directive, how he will *(a)* monitor compliance with the Working Time Directive and *(b)* prepare for its implementation. [160701]

Mr. Hutton: The Working Time Regulations are a legal requirement; implementation and monitoring of compliance is being taken forward locally.

Written Answers to Questions

Thursday 18 March 2004

DEFENCE

Arctic Campaign Veterans

Huw Irranca-Davies: To ask the Secretary of State for Defence if he will ensure that the Arctic campaign veterans, who do not qualify for the Atlantic Star due to length of service restrictions receive some recognition of their service. [162158]

Mr. Caplin: All armed forces personnel who completed 28 days' operational service were eligible to receive the War Medal 1939–45. This included service on the convoys to Northern Russia. Any service curtailed by death, injury or capture also qualified for the award. There will always be those who fail to meet the qualifying period for a campaign medal for some reason or another. This does not signify that their service is not appreciated nor justify the institution of an alternative award.

AWE Aldermaston

Llew Smith: To ask the Secretary of State for Defence what initiatives have been taken by AWE Aldermaston to diversify out of nuclear warhead research, development and production. [161756]

Mr. Ingram: AWE plc maintains a regular dialogue with industry and academia to encourage, within security constraints, beneficial exchanges and collaboration aimed at optimising its ability to meet its core mission of nuclear warhead research, development, production, in-service support and disposal. AWE plc's expertise in nuclear weapons inevitably has wider application; and the performance of core work can result in spin-off technology that has utility in industry and society at large. Beyond this, it is not AWE plc's function within its contract with the MOD to diversify out of the core business it is required to undertake.

Correspondence

Andrew George: To ask the Secretary of State for Defence pursuant to the answer of 11 February 2004, *Official Report*, column 1460–61W, on Sea King helicopters, when he will write in reply to the hon. Member for St. Ives. [162219]

Mr. Ingram: It has taken some time to collate the detailed information requested by the hon. Member. The work is now complete and I will write to him shortly and a copy of my letter will be placed in the Library of the House.

Drugs

Dr. Murrison: To ask the Secretary of State for Defence how many members of each of the armed forces tested positive for the use of controlled substances in the calendar year 2003 *(a)* as a proportion of those tested and *(b)* broken down by substance. [161305]

Mr. Caplin: The number of personnel who tested positive for use of a controlled substance in the year 2003 expressed as a proportion of those tested, and number of substances detected is as follows (the number of drugs identified is greater than the number of individuals who test positive where an individual tests positive for more than one drug):

The Naval Service

	Number
Number tested	13,803
Number positive	56
Percentage positive	0.41
Substance detected:	
Heroin	1
Cocaine	23
Ecstasy	15
Cannabis	23
Amphetamine	4
Total	66

Army

	Number
Number tested	93,168
Number positive	516
Percentage positive	0.62
Substance detected:	
Heroin	4
Cannabis	288
Ecstasy	117
Cocaine	126
Amphetamines	41
Others	4
Total	580

RAF

	Number
Number tested	12,432
Number positive	20
Percentage positive	0.16
Substance detected:	
Ecstasy	4
Cannabis	16
Total	20

Submarine Crew

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) when the policy of instructing submarine crews to share rollneck jumpers and foul-weather suits was initiated by staff in his Department; and for what reasons; [161827]

(2) what estimate he has made of the effect on *(a)* operational efficiency and *(b)* morale of instructing submarine crews to share rollneck jumpers and foul-weather suits; [161829]

(3) what the estimated savings are per submarine per month of the policy of sharing rollneck jumpers and foul-weather suits; [161828]

(4) if he will list those submarines in which crew members have been instructed to share *(a)* rollneck jumpers and *(b)* foul-weather suits. [161826]

Mr. Ingram: There is no policy that submarine crews are to share rollneck jumpers and there has been no reduction in the allocation of foul-weather clothing suits. On the contrary, a programme is in place to increase the number of sets of foul-weather clothing suits issued.

We have not estimated the savings that might accrue from adopting a policy of sharing personal clothing.

Websites

Mr. Heald: To ask the Secretary of State for Defence what the total annual cost of his Department's websites, including those of its agencies, was in the most recent year for which figures are available. [159513]

Mr. Caplin: The Ministry of Defence and armed forces collectively maintain four corporate websites. Direct expenditure on these in the financial year 2003–04 was as follows:

Organisation	*Address*	*Expenditure (£)*
Ministry of Defence	www.mod.uk	111,000
Royal Navy	www.roval-navy.mod.uk	230,000
British Army	www.army.mod.uk	160,000
Royal Air Force	www.raf.mod.uk	108,000
Total		609,000

A number of other, generally small, websites are maintained by subsidiary organisations of the MOD and armed forces. However, information on their expenditure is not held centrally and could be provided only at disproportionate cost.

LEADER OF THE HOUSE

Single European Currency (Referendum) Bill

Mr. George Osborne: To ask the Leader of the House if he will propose the creation of a joint committee of both Houses of Parliament to examine the draft Single European Currency (Referendum) Bill. [160765]

Mr. Hain: No.

CABINET OFFICE

Civil Defence Grant

Mr. Simon Thomas: To ask the Minister for the Cabinet Office (1) how much grant allocation for the civil defence grant he retained in each financial year since 1997; [161377]

(2) if he will list the *(a)* location and *(b)* nature of successful project bids for the discretionary grant allocation of the civil defence grant for each financial year since 1997. [161376]

Mr. Alexander: Since 2002–03, £100,000 has been retained at the start of the financial year specifically to be allocated as Discretionary Grant to support special projects and events related to the local authority emergency planning functions that are of benefit to the wider emergency planning community.

2002–03	
Staffordshire and Derbyshire	Project to investigate and make recommendations for the implementation of quality control processes in the work of Emergency Planning Units.
Derbyshire	Seminar to promote public safety and good practice in the management of events and production of good practice guide.
Greater Manchester	Production of two training videos to assist with emergency planning awareness training .
Merseyside	Seminar to examine the lessons learned for emergency planning from the September 11 terrorist attack.
Tyne and Wear, Northumberland, Cleveland, County Durham and Darlington	Project to examine and identify improved methods of collaborative working within Regions.
Tyne and Wear	Project (PhD) to research GIS system to provide methodology for hazard analysis and risk assessment.
Swindon and Wiltshire	Project to provide virtual reality databases for high risk sites for use during training and live incidents.
Coventry	Production of revised and updated guidance document 'Guidelines For Faith Communities When Dealing With Disasters'.
All local authorities in Wales	Project to further development of 'Wales Benchmarking Club' (performance indicators for emergency planning).
Cardiff and Vale of Glamorgan	Project to develop mutual aid scheme.

2003–04	
Reading	Production of a resilience information booklet for schools and libraries, supported by a 'Z-Card' for public distribution.
London (Fire and Emergency Planning Authority)	Project to devise a strategy for the uniform provision of Business Continuity Management (BCM) promotion in London's 33 local authorities.
Gloucestershire	BCM training package for local authority services and other public sector bodies.
Tyne and Wear	Seminar/workshop to explore and identify suitable methods of BCM promotion by local authorities, and to explore the role of partners in the process.
Norfolk	Electronic (E-Tool) emergency management information project for the public and emergency responders.
Shropshire	Production of a multi-lingual phrase book for the victims of a CBRN incident
Association of Greater Manchester Authorities	Study to identify research related to human behaviour and its impact on the emergency response and business continuity management.

2003–04	
Bradford	The employment of a faith groups' liaison officer to complement other community cohesion initiatives which relate to local resilience and major incident planning.
Bradford	To further develop population modelling work and risk data sources for the identification of vulnerable population sites.

Civil Service Training

Harry Cohen: To ask the Minister for the Cabinet Office what information he collects on the percentage of annual staffing costs spent on training in the civil service. [162086]

Mr. Alexander: The bulk of training in the civil service is carried out at Departmental level and information on costs incurred is not collected centrally and could be provided only at disproportionate cost.

Lord Birt

Norman Baker: To ask the Minister for the Cabinet Office if he will make a statement on the present work programme of Lord Birt. [162371]

Mr. Alexander: The position remains as set out in the answer provided by my right hon. Friend the Prime Minister to the hon. Member for North Norfolk (Norman Lamb) on 11 March 2003, *Official Report*, column 214W.

Websites

Mr. Heald: To ask the Minister for the Cabinet Office if he will instruct the office to maintain centrally expenditure figures for all Government Department websites. [159521]

Mr. Alexander: Individual Government Departments are responsible for the management and content of their websites and as such information regarding expenditure is not held centrally. There are no plans to hold such information centrally at the Cabinet Office.

INTERNATIONAL DEVELOPMENT

Sugar

Mr. Wills: To ask the Secretary of State for International Development what assessment he has made of the impact on developing countries of each of the options for reform of the Common Agricultural Policy sugar regime set out in the European Commission's working paper Reforming the European Union's sugar policy. [161504]

Hilary Benn: The UK Government support the European Commission's view that the extension of the current regime beyond 2006 (the 'status quo' option) is unsustainable given a range of both internal and external pressures. However, the issues are complex in developmental terms as any change to such a highly distorted regime will bring about losers as well as winners. This complexity is amplified by the divergence of interests among those developing countries with and those without preferential access to the European Union sugar market. DFID is working closely with other Government Departments to examine the implications for developing countries of the three options for reform set out by the European Commission.

West African Refugees

Bob Spink: To ask the Secretary of State for International Development if he will make a statement on the aid given to UNHCR to assist in the care and resettlement of West African refugees, with particular reference to those in Guinea; and what recent sums have been allocated. [161947]

Hilary Benn: DFID has recently committed £1.5 million to programmes of assistance to refugees in Guinea. In response to the UN's Consolidated Appeal for Guinea for 2004, we have provided £500,000 to United Nations High Commissioner for Refugees (UNHCR) for care and assistance of Liberian refugees, and £500,000 to UNICEF for a primary health care project aimed at refugees and other vulnerable populations. In addition, we have contributed £500,000 to the International Committee of the Red Cross (ICRC) 2004 Appeal for assistance to vulnerable populations, including refugees, in Guinea.

PRIME MINISTER

Sir David King

Norman Baker: To ask the Prime Minister whether Sir David King currently has to secure approval for media statements he wishes to make. [162372]

The Prime Minister: No.

SOLICITOR-GENERAL

Katharine Gun

19. **Mr. Cash:** To ask the Solicitor-General if she will make a statement on evidential deficiency in the Katharine Gun case. [162136]

The Solicitor-General: The decision to offer no further evidence against Katharine Gun was made by the Crown Prosecution Service as an independent prosecuting authority. It was made solely on legal grounds and in accordance with the Code for Crown Prosecutors.

There was, in the Gun case, a clear prima facie breach of section 1 of the Official Secrets Act 1989. However, senior treasury counsel advised that there was no longer a realistic prospect of convicting Ms Gun. The Director of Public Prosecutions agreed. The evidential deficiency arose from the prosecution's inability, within the current statutory framework, to disprove the defence of necessity in this case.

Rape

22. **Mr. Jim Cunningham:** To ask the Solicitor-General what assessment she has made of the effects of the new test of reasonableness introduced into the law of consent on the number of convictions of those guilty of rape. [162140]

The Solicitor-General: The Government introduced the Sexual Offences Act 2003, as one of a number of steps to improve the conviction rate for rape. Under the new Act, the test will be whether a person has a reasonable belief that the victim consented taking into account all the circumstances, including any steps he took to ascertain whether the victim consented. The Government believe that this will have an impact on rape trials because the defendant must be certain that there is consent to the sexual activity at the time in question.

We expect the Act will to come into force in May.

Fraud

24. **Mr. Bellingham:** To ask the Solicitor-General what further plans she has to assist small businesses in combating fraud. [162142]

The Solicitor-General: The Serious Fraud Office will be addressing the Federation of Small Businesses at their conference in Blackpool on 19 March on the subject of 'Preventing fraud in your business'.

TRANSPORT

Bus Interchange (Chorley)

Mr. Hoyle: To ask the Secretary of State for Transport how much Government grant went to the new bus interchange at Chorley; and what percentage of the cost this represented. [161531]

Mr. McNulty: I refer my hon. Friend to my answer of 4 March 2004, *Official Report*, column 1131W.

Car Ownership

Mr. Sheerman: To ask the Secretary of State for Transport what proportion of the UK population *(a)* owned a car 20 years ago and *(b)* own a car today. [162039]

Mr. Jamieson: Surveys show the proportion of households in GB owning one or more cars rising from 60 per cent. in 1981 to 74 per cent. of all households in 2001, the latest year for which this information is published.

This corresponds to 27 cars per hundred people in 1981 and 42 cars per hundred people in 2001.

Crossrail

Dr. Tonge: To ask the Secretary of State for Transport when he expects to publish the Montague Report on Crossrail. [162075]

Mr. Rosindell: To ask the Secretary of State for Transport (1) if he will make a statement on the Crossrail project; [162442]

(2) how much public money will be spent on the Crossrail project; [162448]

(3) what plans there are for the cost of tickets on Crossrail services; [162456]

(4) what the total cost of the Crossrail project is expected to be. [162464]

Mr. McNulty: My right hon. Friend the Secretary of State for Transport, is currently considering Adrian Montague's detailed advice on Crossrail and will publish his findings in due course.

Cycle Helmets

Mr. Nigel Jones: To ask the Secretary of State for Transport what assessment he has made of the effect on numbers of cycle journeys should cycle helmets be made compulsory. [159106]

Mr. Jamieson: My Department commissioned research on the effectiveness of cycle helmets, including the relative risk of injury to cyclists with and without helmets, by way of a literature review, and this was published in November 2002 (Road Safety Research Report No. 30), a copy of which was placed in the Library. The conclusion from the review was that helmets have been found to be effective at reducing the incidence and severity of head, brain and upper facial injury, particularly for children. The report also concludes that there is evidence that compulsory helmet wearing may discourage some bicyclists leading to decreased bicycle use.

In addition to the periodic monitoring we carry out of the wearing rates for cycling helmets, we plan to initiate further research to explore the possible relationship between cycling casualties and cycling levels.

Heathrow

Mr. Hammond: To ask the Secretary of State for Transport whether the review of operations at Heathrow to establish the practicality and impact of mixed mode operation will include a review of existing noise preferential departure routes. [161368]

Mr. McNulty: The further work announced in "The Future Development of Air Transport White Paper", which includes consideration of how to make the most of Heathrow's existing two runways, may involve review of some existing noise preferential departure routes, but the extent to which this may be necessary will only become clear as the work proceeds. Noise preferential routes may in future need to be reviewed in any event in the light of the "Single Sky" proposals. Any changes which might have a significant effect on the level or distribution of noise and emissions would require prior consultation.

High-speed Rail Lines

Mr. Rosindell: To ask the Secretary of State for Transport what plans the Government has for new high speed rail lines. [162469]

Mr. McNulty: I refer the hon. Member to the answer given to the hon. Members for Pendle (Mr. Prentice) and for Luton, North (Mr. Hopkins) on 9 March 2004, *Official Report*, columns 1407–08W.

Motorised Scooters

Mr. Hancock: To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* injuries have been recorded as a result of accidents involving motorised scooters in 2003. [162007]

Mr. Jamieson: The information requested is not available.

Network Rail

Mr. Rosindell: To ask the Secretary of State for Transport what plans he has for the future of Network Rail. [162461]

Mr. McNulty: Network Rail is a private company and, subject to its regulatory regime, its future activities are a matter for the company to determine rather than my right hon. Friend.

Mr. Rosindell: To ask the Secretary of State for Transport (1) for how long the Government expect to continue subsidising Network Rail; [162462]

(2) what Government subsidies are given to rail operators, other than those which are given to Network Rail. [162463]

Mr. McNulty: The Strategic Rail Authority provides financial support for passenger and freight operating companies as well as to Network Rail, The Department for Transport also makes grant payments to London and Continental Railways Ltd. in respect of the Channel Tunnel Rail Link. Full details of this support is set out in the SRA's Annual Report and in National Rail Trends. Copies of these publications are in the Library of the House.

Forecast future Government support for the rail industry is set out in the progress report on the "Transport 10 Year Plan" which was published by the Department in December 2002. These forecasts are being reviewed and updated as part of the 2004 spending review.

Powered Two-wheelers

Lembit Öpik: To ask the Secretary of State for Transport how many powered two-wheeler users involved in accidents were *(a)* killed and *(b)* seriously injured during 2003; and if he will make a statement. [161671]

Mr. Jamieson: The figures for 2003 are not yet available. In 2002, 609 Two-Wheeled Motor Vehicle users were killed and 6,891 seriously injured. These statistics have been published in "Road Casualties Great Britain 2002—Annual Report", a copy of which has been placed in the House of Commons Library.

Project Funding

Mr. Colman: To ask the Secretary of State for Transport (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years; [160965]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible in each of the last 10 years, broken down by region. [160966]

Mr. McNulty: An analysis of transport spending (including current spending) is published in Chapter 8 of Public Expenditure and Statistical Analysis (PESA) 2003 on the Treasury website: http://www.hm-treasury.gov.uk/media//C6E3A7pesa_03_indexed.pdf.

In respect of road projects, I refer my hon. Friend to the answer given to my hon. Friend the Member for Newport, West (Paul Flynn) on 11 March 2004, *Official Report*, column 1640W. Information on other government supported transport projects broken down by region over the last 10 years is not held centrally by the Department.

In respect of private finance initiative projects, a list of signed projects is available on the Treasury website: http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm.

This can be searched by Department and region.

Public Transport

Mr. Sheerman: To ask the Secretary of State for Transport what publicity campaigns his Department has planned to encourage more people to use public transport. [162038]

Mr. McNulty: Publicity campaigns to encourage use of public transport are generally taken forward by individual transport operators. The Department has focused on the provision of better transport information and in increasing consumer choice in our publicity campaigns. We have promoted "traveline", a public information number giving route and timetable information for journeys by bus, coach, train, tram, ferry and metro and will shortly be launching and promoting "Transport Direct" an interactive journey planner covering all major forms of transport.

Last September, the Department, together with the Department for Education, also announced a school travel campaign aimed at tackling congestion around the school run. This involves substantial funding to allow local authorities to recruit school travel advisers and publication of an 'Action Plan' to help schools promote safe and healthy travel to school. In addition, we have also worked with consumer and lifestyle press to stimulate publicity on school travel, encouraging alternatives to the use of the car.

Railways

Mr. Luff: To ask the Secretary of State for Transport (1) if he will list the stations at which selective door opening is permitted *(a)* under grandfather rights and *(b)* since privatisation; [161528]

(2) for what reasons stations at which selective door opening is permitted under grandfather rights for certain types of rolling stock cannot be extended to other rolling stock fitted with a suitable door control mechanism; [161529]

(3) for what reasons new trains fitted with selective door opening systems are only permitted to use these if the driver cabs are fitted with GPS. [161530]

(4) for what reasons train drivers are required to use GPS in addition to visual checks to establish their location on station platforms. [161773]

Mr. McNulty: The Strategic Rail Authority is preparing a list of stations where selective door opening is permitted, a copy of which will be placed in the House Library shortly. All cases of selective door opening have been introduced since privatisation.

The Health and Safety Executive (HSE) advise that rolling stock fitted with selective door opening is permitted to stop at stations with short platforms, provided the train operator sets out how the risks associated with selective door opening usage will be managed.

The HSE does not require that train operators using selective door opening make use of Global Positioning Systems (GPS). However, I understand that, on there own initiative, South Central Trains and South East Trains are currently using GPS technology in automatic selective door opening pilot trials.

Road Accidents (Lincolnshire)

Shona McIsaac: To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* serious injuries there were in road traffic accidents in (i) North East Lincolnshire, (ii) North Lincolnshire and (iii) Lincolnshire in each year since 1997. [162580]

Mr. Jamieson: The information requested is in the following table.

Casualties from road accidents: 1997–2002

	1997	*1998*	*1999*	*2000*	*2001*	*2002*
North East Lincolnshire						
Killed	8	7	9	11	5	1
Seriously injured	127	136	116	113	132	120
North Lincolnshire						
Killed	26	18	14	9	22	9
Seriously injured	134	149	109	120	156	123
Lincolnshire						
Killed	77	83	104	71	84	91
Seriously injured	678	701	662	520	530	645

Speed/Safety Camera Partnerships

Lembit Öpik: To ask the Secretary of State for Transport if he will require Safety Camera Partnerships to release funding for local road safety projects, with particular reference to the police-led BikeSafe initiative; and if he will make a statement. [161656]

Mr. Jamieson: Receipts from speed camera fines in areas participating in the safety camera cost recovery scheme may be used only on the installation and operation of approved safety camera installations. BikeSafe is not exclusively a speed or safety camera related issue and therefore falls outside the remit of the cost recovery scheme. The rules of the scheme are kept under review.

Mr. Amess: To ask the Secretary of State for Transport pursuant to his oral answer of 3 February 2004, *Official Report*, column 615 and the answer of 4 February 2004, *Official Report*, column 993W, on speed cameras, if he will make a statement on the use that has been made of the revenue from speed cameras in Southend. [160795]

Mr. Jamieson *[holding answer 12 March 2004]:* Receipts from speed camera fines in areas participating in the safety camera cost recovery scheme may be used only on the installation and operation of approved safety camera installations.

Mr. Spring: To ask the Secretary of State for Transport what proportion of fees from speed cameras in Suffolk was reinvested in road safety measures in each of the last five years. [161229]

Mr. Jamieson: Suffolk has been participating in the safety camera cost recovery scheme since April 2003. Receipts from safety camera fines resulting in areas participating in the scheme may be used only for the installation and operation of approved safety camera installations, with other investment in road safety measures being funded within local authorities and national road programmes. Fine receipts beyond the costs of safety camera installations are passed to the Consolidated Fund. Before Suffolk joined the cost recovery scheme in April 2003, all fine revenue from camera activity was passed to the Consolidated Fund.

WORK AND PENSIONS

Carers Grant

Sandra Gidley: To ask the Secretary of State for Work and Pensions how many people were receiving funding from the Carers Grant *(a)* in England and *(b)* broken down by local authority in each year since 1997; and if he will make a statement. [161929]

Dr. Ladyman: I have been asked to reply.

The Carers Grant, which was introduced in 1999–2000, gives money to local councils to support them in providing short breaks for carers. Data are not available for the first year of the grant. Figures for 2000–01, 2001–02, and 2002–03 have been placed in the Library.

Departmental Computer Misuse

Mr. Webb: To ask the Secretary of State for Work and Pensions how many cases of computer misuse there were in his Department *(a)* in 1997 and *(b)* since 2002–03, broken down by each category of misuse; and how many of those cases resulted in disciplinary action. [162395]

Mr. Browne: The Department treats very seriously any suspicion of misuse of computer systems by staff and takes firm action in any cases that arise. All such cases, if proven, result in disciplinary action being taken against the offender leading to either a disciplinary penalty or dismissal.

Data relating to 1997 could be obtained only at disproportionate cost.

Tables provided as follows detail the number of cases formally investigated and proven by category for 2002–03 and 2003–04. All these cases have resulted in, or are in the process of having disciplinary action taken.

Computer misuse 2002–03

Category	*Number*
Unauthorised access to computer systems	29
Use of unauthorised software	3
Manipulation of computer systems	2

Computer misuse 2003–04

Category	*Number*
Unauthorised access to computer systems	31
Use of unauthorised software	8
Manipulation of computer systems	0

The figures provided for 2003–04 cover the year to date and represent proven cases. Several investigations are ongoing, but have not been included, as the results are not known yet.

Excludes minor cases handled locally.

Departmental Sickness Absence

Mr. Webb: To ask the Secretary of State for Work and Pensions what progress he has made on reducing his Department's sickness absence rate; what baseline figure was used to assess his Department's compliance with its Public Service Agreement target on reducing sickness rates; what the rate was in each of the last seven years; and if he will make a statement. [162388]

Maria Eagle: The Department for Work and Pensions has a Service Delivery Agreement for reducing sickness absence. This is nine days over the year to December 2004 and 8.5 days over the year to December 2005, as interim targets towards the key indicator of eight days to 2006. The Department is committed to increasing its level of attendance to meet this challenge.

To secure improvements the Department has launched a managing attendance strategy that combines a policy drawn from recognised best practice, with initiatives targeting specific areas. The initiatives include the following:

a scrutiny of long-term absence cases to draw out any lessons that can be learned from these cases and for the necessary action to be followed through;

pilots in five Jobcentre Plus districts focusing on early intervention by Occupational Health nurses to help avoid absences becoming long term;

Well Being at Work pilots which aim to contribute to the well being of the organisation by identifying and tackling stress (as part of a wider Health and Safety Executive pilot);

an evaluation of the Attendance Management policy. This will complement the National Audit Office study that is currently taking place of the Department's Attendance Management policy.

The information requested on the Department's sickness absence rate is not available in the format requested. Such information as is available is in the table.

Sickness absence information for DWP and the former DSS

Department	*Year*	*Average number of working days lost*
DSS	1999–2000	12.0
DSS	2000–01	12.3
DSS	2001–02	11.2
DWP	2002–03	12.3

Notes:

1. The Department for Work and Pensions (DWP) was created in June 2001. Due to the migration of businesses into and out of the newly forming Department, and differences in calculation methods, figures for the Department as a whole are only available from April 2002.

2. The information in Table 1 covers the years April 1999 to March 2002 relating to the former Department of Social Security (DSS), the main predecessor Department in place prior to the formation of DWP, and for DWP for April 2002 to March 2003.

3. Figures have been provided for DSS and DWP for each full operational year since 1999. Sickness absence information for the current year, April 2003 to March 2004, will be available in spring 2004.

IT Contracts

Mr. Sayeed: To ask the Secretary of State for Work and Pensions if he will list information technology contracts in his Department with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146196]

Mr. Browne: This question covers periods prior to the establishment in June 2001 of the Department for Work and Pensions, formed from the Employment Service (ES) and the Department for Social Security (DSS).

This information relates to contractual arrangements made by the Department for Work and Pensions, as well as the former ES and DSS.

On the question of de-bugging, the view is that no system is completely free of "bugs". However, the Department deals with these according to priority, working in partnership with private sector providers to eradicate on an on-going basis.

Contracts identified in relation to this question

Contract	*Description*	*Inception date*	*Date fully functional*	*Cost over-runs*
IT Partnership Agreement	Employment Service outsourced its IT work through a partnership agreement with Electronic Data Systems (EDS) This agreement was revised to reflect major new investment in IT and telephony to improve services for jobless people and employers in the Modernising Employment Service (MES) Project. This project was further revised from August 2003, and re-named Digital Office Infrastructure Completion—DOI(C), bringing former ES staff a desktop PC consistent with the rest of the DWP estate.	August 1998(original outsourcing) October 2000(MES) August 2003(DOI (C)	August 1998 DOI-C estimated to be complete by May 2004	None
ACCORD Strategic Outsourcing Business Allocation	The DSS awarded a contract to outsource its IT provision. This contract also encompasses business outsourced previously in 1995 under FOCUS 95 arrangements and is concerned with the maintenance, development and operation of the Department's existing IT systems.	August 2000	September 2000	None
Child Support Reforms	The DSS awarded the contract to provide new IT systems in support of the Child Support Agency. The system became functional on 27 January 2003, for new child support claims processed under old scheme rules. Processing claims under new rules began on March 2003. Further work is still required before the system will be fully functional. Within the terms of the PFI based contract, the primary responsibility for the quality of the computer service lies with EDS.They have pledged to bear the costs of completing their obligations and bringing the service to an agreed level. The Department is currently retaining around 15 per cent. of each monthly payment due to the service provider.	August 2000	Functional from January 2003	The amount DWP will pay is currently forecast to rise by 7 per cent. over the term of the contract.
New Tax Credits NTC	This contract is for the delivery of new and amended DWP IT to enable joint working with the Inland Revenue and their Tax Credits system and to reflect the changes in benefit rules resulting from the introduction of NTC.	December 2000	April 2003	None
Pensions Forecasting	This contract is for the delivery of a new pensions forecasting system, providing individuals with clear and accurate information about their retirement pension and raising awareness of the importance of making adequate provision for retirement.	June 2002	September 2004	Unable to identify any cost over- run at this stage as the project is not yet complete.
Pensions Credit Front End	This contract is for the delivery of a tele-application to support the processing—and administration—of claims to Pensions Credit.	April 2003	October 2003	None
Corporate Curam Licences	This contract relates to the use of a perpetual software licence and provision for support, initially for arrangements for the Customer Management System, but will be extended to other projects over time.	May 2003	N/A—this is a licensing contract.	None
Customer Management System Release 1	This contract represents a front-end information gathering system for working age customers. Support arrangements are to be provided under the Corporate Curam Licence contract.	December 2002	September 2003	None
Customer Management System Release 2	As above.	August 2003	This release is still under development.	Unable to identify any cost over-run at this stage as the project is not yet complete.
Digital Office Infrastructure (DOI) (formerly known as Early Office Infrastructure(EOI))	These are a series of contracts to replace the desktops and associated equipment for the Department's employees and eventually, the support arrangements for that kit		These are IT service contracts and not development. There have been a number of contract changes to build volumes and functionality.	Unable to identify any cost over-run at this stage as the project is not yet complete.
	(i) Mobilisation contract to build the infrastructure for the support;	January 2001		
	(ii) Roll out contracts to manage the implementation of the kit and associated equipment;	July 2001		
	(iii) Distribution, Implementation and Disposal Services.	July 2001		
FOCUS Lots B, C and D	These are outsourcing contracts let for the support and implementation of Office Services to SEMA Group UK Ltd (Lots B and C) and International Computers Ltd. (Lot D).	June 1995 Contracts transferred to Arcway in August 2000 under the ACCORD framework.	June 1995; these are IT service contracts.	None

Contracts identified in relation to this question

Contract	*Description*	*Inception date*	*Date fully functional*	*Cost over-runs*
Stand Alone Support Applications	This contract was let for the development, implementation, and support of the former DSS stand-alone support application systems.	August 1997	Development has been undertaken on a system-by- system basis, as and when required. Support arrangements are on-going for the duration of the contract.	None
Network and Office Service Provision—Wide Area Network	This contract has been let to replace the Wide Area Network across the former DSS estate. There have been a number of contract changes to meet additional requirements.	November 2000	Estimated to be June 2004.	Unable to identify any cost over-run at this stage as the project is not complete.
Advanced Telephony	This is a contract with BT plc for contact centre services, encompassing the provision, installation, support and maintenance of telephony and associated IT infrastructure.	March 2003	Some of the services are operational; others are in the implementation phase	None

A list of IT contracts current at the time of FOCUS 95 outsourcing has been placed in the Library. It is not possible to provide information prior to 1995, as this could be obtained only at disproportionate cost.

Jobseeker's Allowance

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions whether it is his policy that a person who has been offered a job subject to Criminal Records Bureau checks is available for work for the purpose of Jobseeker's Allowance. [162213]

Mr. Pond: Jobseekers Allowance (JSA) provides financial support to jobseekers during periods of unemployment. The main conditions for receiving JSA therefore concentrate on the requirement to be actively seeking and available for work.

A customer who has been offered employment, and is awaiting the outcome of Criminal Records Bureau checks, must continue to satisfy these and other conditions of entitlement in order to receive JSA. Customers can however restrict their availability for the period in question by making themselves available for temporary work only, pending the result of the check.

Pensions

Mr. Tynan: To ask the Secretary of State for Work and Pensions (1) what proportion of people in employment and aged between *(a)* 18 and 25, *(b)* 25 and 40, *(c)* 40 and 55 and *(d)* 55 and 65 are in active membership of an occupational pension scheme; [161207]

(2) what proportion of those aged between 18 and 65 in employment are in active membership of occupational pension schemes. [161228]

Malcolm Wicks: The information available is in the table.

Age	*Proportion currently contributing (percentage)*
(a) 18–25	19
(b) 25–40	51
(c) 40–55	60
(d) 55–65	45
All aged 18–65	49

Notes:

1. Those who are 'contributing' are members of a private occupational scheme.

2. All figures are estimates and are taken from the Family Resources Survey (FRS). 2002–03 is the latest year for which data are available. The coverage of the survey is GB.

3. Working age has been defined as 18–65.

Source:

Family Resources Survey 2002/03.

Mr. Tynan: To ask the Secretary of State for Work and Pensions what proportion of current member-nominated trustees of occupational pension schemes are *(a)* in receipt of pension benefits from that scheme, *(b)* managers employed by the company sponsoring the scheme and *(c)* trade union representatives. [161208]

Malcolm Wicks: According to the Employers' Pension Provision survey 2000, about 6 per cent. of pension scheme trustees are in receipt of a pension from the scheme. The remaining information is not available and could be obtained only at disproportionate cost.

Mr. Tynan: To ask the Secretary of State for Work and Pensions what proportion of those aged between 18 and 65 in employment are in active membership of occupational pension schemes where the employer makes a contribution beyond that in respect of any national insurance rebates. [161227]

Malcolm Wicks: Information is not available in the format requested. Such information as is available is given in Table 5.22 of Employers Pension Provision Survey 2000 (DWP Research Report No. 163), a copy of which is available in the Library.

CHURCH COMMISSIONER

Parish Priests

Miss McIntosh: To ask the hon. Member for Middlesbrough, representing the Church Commissioners pursuant to his answer of 11 March 2004, *Official Report*, column 1633W, on parish priest salaries, how many parish priests were employed in *(a)* 1996–97 and *(b)* 2003–04. [162473]

Sir Stuart Bell: In 1997 there were 9,243 clergy in post in parishes. In 2002 the equivalent figure was 8,503. Figures for 2003 will be available shortly.

FOREIGN AND COMMONWEALTH AFFAIRS

Chevening Scholarships

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Chevening scholarships were awarded in each of the last three years, broken down by country of origin of students. [161945]

Mr. Mullin: Numbers of Chevening scholarships awarded in the last three years have been: 2,285 in 2000–01, 2,284 in 2001–02, 2,390 in 2002–03. In each year the scholars were drawn from more than 150 countries, territories and regions. I will send the breakdown by country to the hon. Member, and I will place a copy in the Library of the House.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to enable students who are exiled from their own country to be able to bid for Chevening scholarships. [161946]

Mr. Mullin: While candidates for Chevening scholarships are normally required to apply in their countries of origin and to return there after completing their studies, we would not exclude applications from candidates who are outside their countries of origin. All applications are considered on their merits.

Colombia

Mr. Allan: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government is taking to ensure that the Colombian Government fulfils its duty to provide secure working conditions for national and international human rights and humanitarian organisations in Colombia. [160001]

Mr. Rammell: We fully support the work of national and international NGOs and humanitarian organisations in Colombia. The London Declaration of July 2003 and Conclusions on Colombia at the most recent meeting of the European General Affairs and External Relations Council in January 2004 both highlight the vital role played by civil society in that country. We have also funded four human rights defender posts in areas of Colombia worst affected by the conflict. Their work is vital in ensuring that human rights and humanitarian organisations have secure working conditions. Our embassy in Bogota is in regular contact with the offices of the Vice-President and the Human Rights Ombudsman, and regularly raises with both of them specific cases of threats to, and harassment of, NGOs working in Colombia.

Mr. Allan: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the statement by the Colombian President, on the activities of the lawyers' collective, Jose Alvear Restrepo. [160002]

Mr. Rammell: The UK has highlighted the vital role of NGOs in Colombia on many occasions, including in the London Declaration of July 2003, and successive conclusions of the European General Affairs and External Relations Council. Such statements call on the Colombian Government to respect the work of civil society and to provide adequate protection and security for those working in such organisations. Regarding the Colectivo de Abogados Jose Alvear Restrepo (CDAJAR), we have great respect for the work of this organisation. The Deputy Head of Mission at our embassy in Bogota last called on them on 4 March 2004.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter to him from the right hon. Member for Manchester, Gorton dated 19 January with regard to Mrs. M. Sam. [161806]

Mr. Mullin: My right hon. Friend the Foreign Secretary replied on 16 February.

Mr. Garnier: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer the letter to the Parliamentary Under-Secretary for Small Business and Enterprise from the hon. and learned Member for Harborough dated 4 August 2003 on behalf of Mr. G. Costello of Oadby, which was forwarded to the Minister of State for Foreign Affairs and Trade by the Department of Trade and Industry on 5 August 2003. [162351]

Mr. Mike O'Brien: A reply has now been sent to the hon. and learned Member.

Guinea

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent surveys have been conducted into the refugee situation in Guinea; what conclusions he has drawn; and if he will make a statement. [161948]

Mr. Mullin: The UN Organisation for Coordination of Humanitarian Affairs (OCHA) and the Government of Guinea have recently carried out a survey of refugees around the Guinean/Ivorian border. The UN OCHA has recommended that the humanitarian agencies and Guinean Government produce a co-ordinated assessment of the entire refugee problem. The findings from this should inform a wider strategy for refugees and lead to the creation of a National Humanitarian Action Plan.

The UK has committed £1.5 million to Guinea through the Consolidated Appeal Process, split between the United Nations High Commission on Refugees, the United Nations Children Fund and the International Committee of the Red Cross.

International Law

Mr. Allen: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps the Law Officers have taken to secure the strengthening of international law relating to justifiable intervention in tyrannical regimes; and if he will make a statement. [162137]

Mr. Rammell: The Law Officers have taken no recent steps in this area, which is primarily the responsibility of the Foreign and Commonwealth Office.

Under international law, force may be used provided that its use is in exercise of the inherent right of individual or collective self-defence as recognised in Article 51 of the UN Charter; or is authorised by the United Nations Security Council under Chapter VII of the UN Charter; or—in exceptional circumstances—is the only way to avert an overwhelming humanitarian catastrophe.

The Government put forward proposals in 1999 to assist the Security Council in reaching decisions on when intervention is justified on humanitarian grounds. Although agreement was not reached in the Security Council at that time, we have continued to take an active part in an international debate on this issue and regularly discuss it with partners. There have been many other contributions to this debate, notably by the International Commission on Intervention and State Sovereignty in its report "The Responsibility to Protect".

In this context, we welcome the UN Secretary-General's decision to set up a High Level Panel to review how the UN can respond more effectively to threats to international peace and security, including considering whether any institutional changes are required.

Iraq

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of people employed by private security companies *(a)* on behalf of the coalition in Iraq and *(b)* by the United Kingdom in Iraq. [161989]

Mr. Rammell: Around 215 people are employed by private security companies on behalf of the Government in Iraq. We have not estimated the number of people employed by private security companies on behalf of the coalition as a whole in Iraq.

David Winnick: To ask the Secretary of State for Foreign and Commonwealth Affairs what the employment practices are of the veterinary directorate in Iraq; whether known opponents of the former regime are excluded for political reasons; and if he will make a statement. [162209]

Mr. Rammell: The employment practices of the Iraqi veterinary directorate in the Iraqi Ministry of Agriculture are a matter for the Iraqi Minister of Agriculture.

We have used our influence, however, to ensure that there are safeguards in law for Iraqi employees. The Transitional Administrative Law agreed by the Iraqi Governing Council on 8 March 2004 enshrines the equality of all Iraqis and forbids discrimination on the basis of gender, nationality, religion or origin. It also establishes the right to form and join trade unions and the right to demonstrate and to strike peaceably. We are discussing with representatives from the Iraqi Federation of Trade Unions how the Government can best help the growth of the Trades Union Movement in Iraq.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to maximise UN involvement in *(a)* the administration of Iraq and *(b)* the development of constitutional arrangements for an autonomous Kurdish region within an overall federal solution. [162191]

Mr. Rammell: United Nation's Security Council Resolutions 1483 and 1511 envisaged a major role for the UN in building a secure future for Iraq. In particular, they mandated the UN to co-ordinate humanitarian and reconstruction assistance and to work with the Coalition Provisional Authority and the people of Iraq in developing new representative systems of government. We strongly support the re-engagement of the UN in Iraq and stand ready with our coalition partners to provide security for UN personnel and premises. We believe the UN has a vital role to play in helping to forge a consensus among Iraqis on the best way to establish an Interim Government after 30 June 2004 and in preparing for elections in early 2005.

Federal issues are a matter for Iraqis to decide, including the degree of UN involvement. They will do so in the Transitional National Assembly to be elected in early 2005 and in a referendum on the draft constitution due later that year. The Transitional Administrative Law agreed by the Iraqi Governing Council on March 8 2004 recognises the administrative and legislative functions of the Kurdistan Regional Government. It also enshrines the principle that any federal system will not be based on ethnic or sectarian lines. But it leaves the final form of any federal structure to Iraqi democratic institutions to decide.

Kyrgyzstan

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs why there is no UK embassy in Kyrgyzstan; and if he will make a statement. [162393]

Mr. Rammell: We regret that financial constraints currently prevent the opening of an embassy in Kyrgyzstan. However, we still hope to appoint a locally-engaged member of staff from our embassy in Almaty, Kazakhstan, to the DfID office in Bishkek.

We have had to contend with competing demands across the Former Soviet Union where we have sought to expand operations in virtually all aspects of mission activity, including counter-narcotics co-operation, good governance, and aid. This increased activity has severely stretched our budgets.

In the meantime, we will continue to give our ambassador and his staff in Almaty all the help and support we can to complement the sterling efforts they are making.

TREASURY

Citizen Information Project

Mr. Oaten: To ask the Chancellor of the Exchequer (1) on what date the Citizen Information Project feasibility study was submitted to Ministers; when he expects the Office for National Statistics to publish the full text of the study; what the reason is for the delay in publication; and if he will make a statement; [162391]

(2) what form public consultation on the Citizen Information Project proposals will take; and on what timescale. [162392]

Ruth Kelly: The information requested falls within the responsibility of the General Registrar for England and Wales, who has been asked to reply.

Letter from Len Cook to Mr. Mark Oaten, dated 18 March 2004:

As Registrar General for England and Wales, I have been asked to reply to your recent Parliamentary Questions on the Citizen Information Project (162391 and 162392),

A report on the Citizen Information Project feasibility study was presented to Ministers in June 2003. A full information note on the Citizen Information Project was published on 6 January 2004. A copy was placed in the Library of the House. At the same time I announced that Ministers had approved a 'project definition1 stage of development work. The project definition stage is now under way and I expect to report to Ministers in 2005 on whether or not this work should proceed to implementation.

Public consultation on the Citizen Information Project proposals is provisionally scheduled for the autumn of 2004. It will be conducted in line with Cabinet Office guidelines, as published by the Regulatory Impact Unit in January 2004.

Employment (Chorley)

Mr. Hoyle: To ask the Chancellor of the Exchequer how many new jobs have been created in Chorley since 1997. [161447]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Lindsay Hoyle, dated 16 March 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about new jobs created in Chorley since 1997. (161447)

No information is explicitly available about numbers of new jobs created during this period.

However, statistics from surveys enable comparisons to be made of net changes, from year to year.

The attached table shows the number of jobs in Chorley Parliamentary Constituency (which covers the same area as Chorley Local Authority District) in each year from 1997 to 2002, the latest year for which information is available.

Number of jobs[1] in Chorley parliamentary constituency, 1997–2002

	Number
1997	30,400
1998	31,400
1999	31,900
2000	32,000
2001	37,500
2002	39,900
Change from 1997 to 2002	9,500

[1] Employee jobs only, not self-employed jobs.

Source:

1997: Annual Employment Survey, rescaled.

2002: Annual Business Inquiry (ABI).

Income Statistics

Mr. Milburn: To ask the Chancellor of the Exchequer how many taxpayers there are with an income of less than *(a)* £5,000, *(b)* £10,000, *(c)* £15,000, *(d)* £20,000, *(e)* 23,000 and *(f)* £30,500. [161985]

Dawn Primarolo: I refer my right hon. Friend to table 2.5 on the Inland Revenue website http://www.inlandrevenue.gov.uk/stats/income_tax/table-25.pdf.

Mr. Milburn: To ask the Chancellor of the Exchequer (1) what the average first-time earner's tax liability was in each of their first three years of paying income tax over the last five years. [161986]

(2) what the total income tax proceeds from first-time earners was in the last fiscal year for which figures are available. [161987]

Dawn Primarolo: I regret that the information requested is not available.

CONSTITUTIONAL AFFAIRS

Access to Government (Code of Practice)

Llew Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs when his Department expects to publish the monitoring report on application of the Code of Practice on Access to Government Information for 2003; and what plans he has to publicise the report on its publication. [161178]

Mr. Lammy: The Government hope to be in a position to publish the monitoring report for the Code of Practice on Access to Government Information for the year 2003 by August 2004.

As in previous years, the publication of the monitoring report will be publicised by way of an announcement in both Houses together with a press release and will be available in full on the Department for Constitutional Affairs' website.

Data Protection

Mr. Chope: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) if he will make it his policy to bring forward amendments to the Data Protection Act 1998 *(a)* to prevent the Information Commissioner from profiting from

the actions of bogus collectors and *(b)* to enable the Information Commissioner to take legal action against unauthorised collections; [159790]

(2) pursuant to his answers of 3 March 2004, references 157599 and 157589, how many of the successful legal actions were *(a)* civil and *(b)* criminal; how many were initiated by (i) the Office of Fair Trading, (ii) trading standards officers and (iii) the police; and in respect of each, what the penalties were; [159800]

(3) for what reasons it is not possible for the Commissioner to assess from documentation submitted through bogus agencies whether a notification is mandatory or voluntary; and if he will make it his policy that such ambiguous documentation is returned for clarification prior to registration. [159818]

Mr. Lammy: The Commissioner does not profit from the actions of bogus collectors. His office is funded by government grant. It is a requirement of the Data Protection Act 1998 that all fees and other sums received by him in the exercise of his functions under the Act shall be paid to the Secretary of State, who in turn is required to pay them into the Consolidated Fund.

There are no current plans to amend the 1998 Act to enable the Commissioner to take legal action against unauthorised collectors, but the matter will be kept under review. The prosecuting authority depends on the type of legal action pursued and can be the Office of Fair Trading, Local Trading Standards Department or the Police.

I understand that there have to date been five successful legal actions initiated against these companies: four civil and one criminal. In the civil actions, the Office of Fair Trading has obtained final injunctions against companies and individuals under the Control of Misleading Advertisements Regulations. It has also obtained written assurances (in lieu of court action) from 14 other individuals and companies that they would no longer be involved with the publication of misleading advertisements about data protection notification services. The criminal action involved a prosecution initiated by Brent and Harrow Trading Standards Service against a company and its director under section 14 of the Trade Descriptions Act 1968. Fines totalling £3,500 were imposed, plus £850 in prosecution costs.

Section 16 of the 1998 Act sets out the "registrable particulars" which must be included in a valid application for notification. The Commissioner's own application form asks data controllers to indicate whether they consider that they are exempt but have decided to notify voluntarily. As this question is not mandatory, the Commissioner would not and could not refuse to accept an application simply because the question had not been answered. The applications submitted by the agencies do not include this non-mandatory question.

Enforcement Agents

Andy King: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the fines officers working in the pilot enforcement programmes in *(a)* Cambridgeshire, *(b)* Cheshire, *(c)* Cumbria, *(d)* Devon and Cornwall, *(e)* Gloucester and *(f)* South Yorkshire implementing the Courts Act 2003 have been informed about the procedures covering vulnerable situations set out on page nine of the National Standards for Enforcement Agents issued by the Lord Chancellor's Department in April 2002. [161785]

Mr. Leslie: All Fines Officers in the local pilots areas have been recruited from existing staff, to whom the National Standards for Enforcement Agents was issued in May 2002. This guidance, together with general guidance ("Transfer of responsibility for warrant execution: Guidance notes", chapter 7 "Vulnerable people") issued by the then Lord Chancellor's Department in March 2001, will also be drawn to the attention of any new recruits—including fines officers, court clerks and enforcement agents, as part of their induction training. It is also included in follow-up training.

Legal Aid (Northern Ireland)

Lady Hermon: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of the Department's legal aid budget has been spent in Northern Ireland in each of the past five years. [161891]

Mr. Leslie: There are separate budgets for legal aid in England and Wales (which is managed by the Department for Constitutional Affairs) and Northern Ireland (which is managed by the Northern Ireland Court Service). During the years 1998–99 to 2001–02 expenditure on legal aid was as follows.

£ million

	England and Wales	*Northern Ireland*
1998–99	1,684.0	32.7
1999–2000	1,616.5	37.3
2000–01	1,736.8	40.6
2001–02	1,788.5	44.8
2002–03	1,982.0	[1]48.5

[1] Subject to audit.

Northern Ireland Court Service

Mr. Mallon: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many posts have been advertised by the Northern Ireland Court Service in the last five years; and how many were reserved, broken down by grade equivalent in the Northern Ireland Civil Service. [160334]

Mr. Leslie: Posts advertised in the last five years may be broken down as follows:

Number of posts	*NI Court Service grade*	*Equivalent NICS grade*	*Reserved/Non Reserved*
1999

[1] Generic competitions with appointments being made to both reserved and non-reserved posts.

Mr. Mallon: To ask the Parliamentary Secretary, Department for Constitutional Affairs who in the Northern Ireland Court Service has responsibility for determining whether posts should be reserved. [160335]

Mr. Leslie: The Human Resource Manager is responsible for determining whether posts within the Northern Ireland Court Service should be reserved.

Mr. Mallon: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the grade equivalent in the Northern Ireland Civil Service is of post of audit manager for the Northern Ireland Court Service as advertised in competition PB/1/04. [160336]

Mr. Leslie: The equivalent grade of audit manager in the Northern Ireland Civil Service is Deputy Principal.

Mr. Mallon: To ask the Parliamentary Secretary, Department for Constitutional Affairs on what grounds it is stated that the post of audit manager for the Northern Ireland Court Service is a reserved post from which Irish nationals are excluded in competition PB/1/04. [160337]

Mr. Leslie: The post of audit manager in the Northern Ireland Court Service is reserved in accordance with the Civil Service Nationality Rules on the grounds, inter alia, that the post involves significant contact with the judiciary and access to sensitive information—for example, the personal records of the judiciary.

Mr. Mallon: To ask the Parliamentary Secretary, Department for Constitutional Affairs according to what guidance the Northern Ireland Court Service reserves posts; and if he will place a copy of that guidance in the Library. [160339]

Mr. Leslie: Posts in the Northern Ireland Court Service are designated as reserved or non-reserved in accordance with the Civil Service Nationality Rules—Guidance on Checking Eligibility. The guidance may be located at http://www.cabinet-office.gov.uk/civilservice/nationality/contents.asp.

Websites

Mr. Heald: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the total annual cost of his Department's websites, including those of its agencies, was in the most recent year for which figures are available. [159516]

Mr. Leslie: The information requested is listed as follows.

Website	Operating costs (2002–03 unless otherwise stated)[1]
Child and Family Court Advisory and Support Service (CAFCASS) www.cafcass.gov.uk (Now the responsibility of the Department for Education and Skills)	£2,532 (+ VAT) per month
Civil Justice Council www.civiljusticecouncil.gov.uk	[2]
Civil Justice Council Costs Website	£3,000
Community Legal Service—Just Ask www.justask.gov.uk	£700,000 (includes staff and development costs)
CLS—Legal Services Research Centre	2001–02: £47
Community Legal Service Partnerships www.clsp.net	£8,000 start up costs incurred in 2002—no further operating costs
Council on Tribunals www.councilontribunals.gov.uk	£1,253.30[2]
Court Service www.courtservice.gov.uk	[2]
Department for Constitutional Affairs www.dca.gov.uk	[2]
Immigration Appellate Authority www.iaa.gov.uk	[2]

Website	Operating costs (2002–03 unless otherwise stated)[1]
Judicial Studies Board www.jsboard.co.uk	£13,077[2]
Land Registry—Main site www.landreg.gov.uk	£12,000
Law Commission www.lawcom.gov.uk	£10, 675[2]
Legal Services Commission www.legalservices.gov.uk	£126,000
Legal Services Ombudsman www.olso.org	£3,151.50
Magistrates Court Service Inspectorate www.mcsi.gov.uk	£3,940.13[2]
Northern Ireland Court Service www.courtsni.gov.uk	£15,000 (+ £55,000 start up costs incurred in April 2002)
Official Solicitor and Public Trustee	£141
Public Guardianship Office www.guardianship.gov.uk	£7,398
National Archives	£147,000
National Archives—Other sites: Family Records; Learning Curve; a2a; Moving Here; Census	Complex arrangements with various partners, National Archives contribution assessable only at disproportionate cost

[1] Staff costs are not included (unless otherwise stated), and could be provided only at disproportionate cost.
[2] The sites hosted by Cable and Wireless (2002–05) under a three-year contract. The hosting element of this is £158,796 per annum for a total of eight sites.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Village Halls

Dr. Murrison: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding was given by *(a)* the Department of Environment, Food and Rural Affairs' Aggregates Levy Sustainability Fund, *(b)* the Rural Enterprise Scheme and *(c)* landfill tax to village halls in each of their years of operation. [159677]

Alun Michael: Only very partial information is available. I list such information as we have:

(a) Aggregates Levy Sustainability Fund

The Fund was introduced by the Finance Act 2001 and came into force on 1 April 2002. The levy was set at £1.60 per tonne of aggregates produced. The fund was launched in 2002 and will continue for at least a further three years. The Fund consists of £20 million for England for 2004–05 and is distributed by a number of organisations including the Countryside Agency, English Heritage, English Nature, and Leicestershire, Derbyshire and Somerset county councils. Information is not collected in a form that permits the total amount of funding for village halls from this source to be established, but, up until last May, at least £70,776 has been distributed to village hall projects.

(b) Rural Enterprise Scheme

Funds are available under the Rural Enterprise Scheme (part of the England Rural Development Programme, or "Pillar 2" of the Common Agricultural Policy) to help 'renovation and development of villages' and 'basic services for the rural economy and population'. The scheme is selective and is delivered by Defra's Rural Development Service in line with regional budgets and priorities agreed with local partners. Support is provided to village hall and other community projects but disaggregated figures relating solely to village hall projects are not available. Total funding for the relevant two measures is as follows:

	£000
2001–02	126
2002–03	1,146
2003–04	[1]3,053

[1] Forecast.

(c) Landfill Tax Credit Scheme

Under the Landfill Tax Credit scheme landfill operators can reduce their tax liability by funding environmental or community projects. The scheme is not available to all village halls (the scheme's rules mean that projects have to be within 10 miles of a landfill tax operator's site). Grants are issued through registered environmental bodies and each will have its own priorities. Action for Communities in Rural England estimate that perhaps £1 million has been provided for village hall projects.

The scheme was reformed from 1 April 2003. Approximately one third of funding (around £47 million) is to be made available through a reformed tax credit scheme for spending on local environment projects. Village halls, where they meet the criteria, will still be able to apply for funding. Government have no involvement in how the funding is spent. As yet, it is not possible to say what proportion will go to support village halls.

Animal Health Act

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether she is required to take into account the application of the precautionary principle in assessing the need to make orders under section 29 of the Animal Health Act 1981 to reduce the risk to human health of any disease or organism carried in animals. [157948]

Mr. Bradshaw: Although there is no universally accepted definition, the Government are committed to using the precautionary principle, which is included in the 1992 Rio Declaration on Environment and Development. The precautionary principle is one of 10 principles that guide the Government's approach to sustainable development, on which Defra takes the lead. The outline Animal Health and Welfare Strategy issued last July also confirmed that all Government decisions on animal health and welfare should be guided by the precautionary principle.

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 28 January 2004, *Official Report*, column 380W on badgers, what numerical value she attributes to the phrase a few kilometres; and whether badgers forage from setts a few kilometres outside Krebs areas into farms within those areas and evade trapping. [157947]

Mr. Bradshaw: It is difficult to attach a numerical value to the distance travelled by foraging badgers as it will vary considerably. Badgers normally forage within their social group territory limits, and the distance they travel to do so will depend on the size of the territory, which will be determined by the availability of food and the quality of the habitat.

It is possible that badgers from social groups occupying setts outside Randomised Badger Culling Trial areas could forage on farms within them. If they did, they might or might not be captured during trapping operations.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the extent to which badger lobby groups are representative of broader public opinion. [158289]

Mr. Bradshaw: The recent review of badger licensing procedures was subject of a public consultation to ensure that everyone with an interest in badgers had the opportunity to contribute their views. Furthermore, as part of this exercise, the Department surveyed the views and experiences of 300 randomly selected people who had applied for a licence under the Protection of Badgers Act, 1992 in the previous year.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of badgers killed in road traffic accidents in each of the last five years; and what measures are being taken to reduce the rate. [158329]

Mr. Bradshaw: There are no figures currently available for the number of badgers killed each year on roads. The most widely quoted estimate, of 50,000 animals each year[1], relates to the 1980s, but road casualties are probably broadly similar today.

A four-year pilot project (called 'Mammals on Roads') is currently under way. This aims to carry out a national road kill survey of selected mammal species (including badgers), calibrating road kill numbers with species abundance in various habitats and assessing the power of the survey to detect population change. In the project's June 2003 newsletter, it is reported that in 2001 and 2002 approximately four dead badgers were reported for every 1,000 miles of road surveyed. For more information on the project visit the Tracking Mammals Partnership website at: www.jncc.gov.uk/species/mammals/trackingmammals.

Advice and guidelines for road builders on how to minimise road casualties are given in the Highways Agency publication:

"Design manual for roads and bridges" Volume 10—Environmental Design and Management, Section 4—Nature Conservation, HA 59/92—Mitigating against effects on badgers.

The manual is available online at: www.official-documents.co.uk/document/deps/ha/dmrb/index.htm.

[1] Harris, S, Cresswell, W Reason, P and Cresswell, P (1992) An integrated approach to monitoring badger (Meles meles) population changes in Britain. In: "Wildlife 2001: Populations" (eds DR McCollough and RH Barrett), pp 945–953. London: Elsevier Applied Science.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of whether TB-diseased badgers bathing in cattle water troughs is a mechanism of TB transmission. [158336]

Mr. Bradshaw: There is no evidence that badgers bathe in cattle water troughs, although ongoing research by the Central Science Laboratory indicates that they may drink from them. This research, which will report to Defra in December 2005, will indicate the relative frequency with which badgers visit cattle water troughs, and at what times of year, as a first step towards identifying their role in the risk of transmission of *M. bovis* from badgers to cattle.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what level of disease in the wild *(a)* badger and *(b)* deer population she classes as tolerable. [158339]

Mr. Bradshaw: It is not currently known what level of infection in either badgers or deer constitutes a threat to their welfare, or a risk to cattle. Consequently, it is not possible to identify a 'tolerable' level in these terms.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what new advice she will give to farmers on the *(a)* design and *(b)* positioning of cattle feed troughs following discovery that badgers can access troughs previously thought inaccessible. [157934]

Mr. Bradshaw: Changes in trough design might be appropriate. Recent work has established that badgers are capable of climbing into feed troughs set at 115cm above ground level, at which height they are inaccessible to cattle. It is also difficult to position troughs so that only cattle can access them, unless they are inside badger-proof buildings. Possibly troughs could be suspended from the ceilings of buildings to deny access by badgers. However, the purpose of many troughs is to provide supplementary feed to cattle at pasture, so badgers are likely to be able to access them wherever they are positioned.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the costs of reducing TB in the wildlife reservoir to a level where it is no longer epidemiologically significant. [157937]

Mr. Bradshaw: We have not made any estimate of the cost of reducing TB in the wildlife reservoir to a level where it is no longer epidemiologically significant.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate was of the total number of badgers which would be killed during the full implementation of the Krebs trials. [157942]

Mr. Bradshaw: The Krebs Report suggested that some 12,500 badgers might be taken during a five-year trial, based on the assumption that average badger density is around 5/km^2. The second report of the Independent Scientific Group on Cattle TB stated that this figure was likely to be an overestimate, based on experience from the Randomised Culling Trial up to that date.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what incidences have occurred of multiple TB breakdowns in cattle herds on farms neighbouring badger sanctuaries. [158290]

Mr. Bradshaw: We have insufficient information to answer the question. Defra does not keep a record of the location of badger sanctuaries.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the closed season adopted in the Krebs trials affected the success rate of the trapping operation. [158292]

Mr. Bradshaw: In its first report (published July 1998), the Independent Scientific Group on Cattle TB recommended the introduction of a closed season in the Randomised Badger Culling Trial, and advised: "Although a closed season from 1 February to 30 April will delay the reactive response to some positive herd tests carried out in the winter, we are confident that the scientific rigour of the trial will be maintained". The Government accepted the Group's recommendation.

It is not possible to assess the impact that the closed season has had on the success rate of the trapping operation, as there are no control data with which to draw a comparison.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of whether radical changes in farming practices would affect the carrying capacity of the badger habitat, with particular reference to *(a)* reduction in livestock farming and *(b)* crops. [158293]

Mr. Bradshaw: We are not aware of any such assessment having been undertaken.

In the report "Changes in the British badger population, 1988 to 1997"[1] it is stated that 'habitat richness' (ie how favoured a habitat is by badgers) is an important factor influencing the distribution and density of badgers.

Environmental changes, including those brought about by farming practices, can alter habitat richness, and thus have the potential to influence the 'carrying capacity' of a habitat for badgers.

[1] "Changes in the British badger population, 1988 to 1997" by G. Wilson, S. Harris and G. McLaren (1997), published by the People's Trust for Endangered Species (ISBN 1 85580 018 7).

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 December 2003, *Official Report*, column 523W, on badgers, whether the quantification of bird remains in badger dung takes into account the limited seasonal availability to badgers of ground nesting birds; and whether the proportion of bird remains found in fresh badger dung is different between March and June. [158588]

Mr. Bradshaw: The quantification of bird remains in the diet of the badger mentioned in the answer of 10 December 2003, *Official Report*, column 523W, does not specifically take into account the seasonality of bird remains in the dung of the badger. The data concerned were collated from already published studies, many of which did not contain sufficient detail to enable such an analysis. Furthermore, it is difficult to come to conclusions regarding the seasonality of bird predation from examining remains in dung as this method cannot differentiate between predation and the scavenging of carcasses.

Defra is currently funding research on badger predation on ground nesting birds. The project involves a review of current knowledge and intensive field investigations to assess the extent of predation by badgers. The project, which is being undertaken by the Central Science Laboratory, will report its findings in March 2005.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 8 December 2003, *Official Report*, columns 216–17W, on bovine TB, what the approval requirements are which farmers must meet in order to qualify for multiple pick-up authorisation. [158590]

Mr. Bradshaw: The conditions under which multiple pick-ups may take place are set out in Annex B of the General Licences for the Movement of Cattle. The licence can be found on the Defra website at: http://www.defra.gov.uk/animalh/movements/documents/default.htm.

An inspection is carried out to ensure that the requirements of the licence can be met. The inspection is carried out either by animal health officers, veterinary officers, temporary veterinary inspectors or local veterinary inspectors and is at Defra's expense.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what information she collates on the prevalence of bovine TB in other countries where there is a significant dairy or beef industry. [158600]

Mr. Bradshaw: Defra has access to the official TB prevalence data routinely submitted by other countries to the Office International des Epizooties (OIE) and other organisations with an interest in this field.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether bovine animals suffering from TB are more infective than badgers at comparable stages of the disease. [158601]

Mr. Bradshaw: There is no evidence to indicate that badgers and cattle at the same stage of disease differ in their ability to infect other animals. However, the risk of another animal becoming infected will vary depending on many factors, including proximity, amount of organisms being shed, the route of shedding, and challenge route (e.g. ingestion or inhalation) among others.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the M. bovis bacilli is mutating to a less *(a)* virulent and *(b)* infective form. [158604]

Mr. Bradshaw: Molecular typing data of M. bovis isolates provide some support for the hypothesis that expression of an infection event at the herd level varies depending on molecular type. M. bovis will be subject to

selective forces like any other organism. However, there is little evidence to suggest that M. bovis is becoming more or less virulent or infective overall.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the issuing of licences to kill badgers under the Protection of Badgers Act 1992; and how many such licences she expects to issue in each of the next five years. [158605]

Mr. Bradshaw: The Department is responsible for issuing licences under two separate sub-sections of the Protection of Badgers Act 1992 which permit badgers to be killed. These are:

10(2)*(a)* for the purpose of preventing the spread of disease, to kill or take badgers, or to interfere with a badger sett, within an area specified in the licence by any means so specified, and

10(2)*(b)* for the purpose of preventing serious damage to land, crops, poultry or any other form of property, to kill or take badgers, or to interfere with a badger sett, within an area specified in the licence by any means so specified.

It is current policy not to issue any licences under sub-section 10(2)*(a)* to prevent the spread of bovine tuberculosis, except for animals held in captivity.

With respect to sub-section 10(2)*(b)* , licence applications to prevent serious damage are judged on a case by case basis. Licences, irrespective of whether they are to kill, relocate of simply to interfere with a sett will only be issued where:

there is evidence that serious damage is being or is likely to be caused;

there are no other practical methods of resolving the problem; and

the action proposed will be successful in preventing or reducing any damage that might be being caused.

The Department does not place unnecessary restrictions on the control of badgers where they are causing genuine problems. However, a licence to kill badgers cannot be granted if there are non-lethal methods of preventing the damage available.

The Department cannot predict how many licences to kill badgers will be issued in each of the next five years. Figures for the last three years are available online at: www.defra.gov.uk/wildlife-countryside/vertebrates/statistics/statistics- badger.htm

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of TB breakdowns over the next 10 years that will be prevented by the introduction of pre-and post-movement testing; and what the scientific basis for that estimate is. [158622]

Mr. Bradshaw: The main potential benefit of introduction of pre and/or post-movement testing is fewer movements of infected animals into low risk areas. It is a precautionary measure that we would expect to reduce the number of new incidents in low risk areas. Uncertainties around the role of wildlife in geographic spread makes it difficult to be certain about the extent of disease control benefits. The Independent Scientific Group has supported the principle of pre-and/or post-movement testing to prevent the spread of disease.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has made for the establishment of a secure badger testing facility to assist in the development of a badger TB vaccine; and what measures she proposes to take to minimise interference by animal rights activists; [158623]

(2) what her current estimate is of the size of the facility needed to contain a sufficient number of badgers to enable vaccine studies to be conducted; and what estimate she has made of the *(a)* cost and *(b)* annual running cost of such provision. [158631]

Mr. Bradshaw: No decision has been taken to establish in Great Britain a secure badger testing facility to assist in the development of a badger TB vaccine, but the Government, in December 2003, published the Independent Scientific Group's Vaccine Scoping Study (PB 9102, available from the House of Commons Library) where in Appendix 8, pages 58–61, a full account is given of the feasibility, size and costs for providing accommodation for badgers. If the construction of a facility were considered, the police would be asked for their advice on security in order to minimise interference by animal rights activists.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what benefits have accrued from the collaboration between the Veterinary Laboratory Agency and New Zealand researchers in respect of control of bovine TB in the United Kingdom. [158629]

Mr. Bradshaw: Defra's Veterinary Laboratories Agency (VLA) has active collaborations with researchers in New Zealand working on developing TB vaccines for possums and cattle.

One benefit of this link is that the efficacy of promising vaccine candidates can be rigorously tested using large groups of cattle in New Zealand. This approach is highly cost effective and is jointly funded by Defra and funding agencies in New Zealand. This work has so far resulted in the identification of a vaccine that is better than the use of BCG (Bacillus Calmette Guerin) in cattle. Another benefit has been that the development and evaluation of new diagnostic tests has been accelerated through this collaboration. A third benefit of the link has been that results from research into TB in possums and cattle in New Zealand is made available to VLA and Defra at an early stage.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the effectiveness of measures to protect farm buildings housing livestock from ingress by badgers in ensuring complete exclusion of badgers from cattle areas; [158630]

(2) what measures her Department has identified to prevent badgers gaining access to cattle sheds and thence access to cattle feed. [158751]

Mr. Bradshaw: A Defra-funded study, being carried out by the Central Science Laboratory, is attempting to identify which types of building are most accessible to badgers, and what potential measures could be taken to reduce this phenomenon. Results from this study will be reported in December 2005.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from the Woodland Trust on the culling of badgers. [159055]

Mr. Bradshaw: No representations have been received from the Woodland Trust on the culling of badgers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what records her Department keeps of the *(a)* number of badgers admitted to animal sanctuaries, *(b)* number of such animals held in captivity at any one time, *(c)* number of animals released into the wild and *(d)* location of those releases. [159057]

Mr. Bradshaw: If a disabled badger is taken for the sole purpose of tending it (as set down in section 6*(a)* of the Protection of Badgers Act, 1992) there is no legal requirement to notify the Department, and therefore no records are kept.

If a badger is taken, kept or released under the authority of a licence issued by Defra, then detailed records of such activities would be held by the licensing authority.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated cost is of the consultation workshops to be carried out in connection with her consultation document on preparing for a new strategy on bovine tuberculosis. [159058]

Mr. Bradshaw: The estimated cost to Defra of organising regional meetings in England to discuss with stakeholders the issues raised in the consultation document "Preparing for a new GB strategy on bovine tuberculosis" is £60,000-£65,000.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many injuries have been sustained by *(a)* livestock keepers and *(b)* their workers while (i) assisting veterinary surgeons in administering TB tests to cattle and (ii) otherwise handling cattle for the purpose of assembling them for testing since 1997. [159063]

Mr. Bradshaw: The Health and Safety Executive do not hold specific data on the number of accidents occurring on farms that can be directly attributed to TB testing.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the feasibility of use of the current BCG vaccination for cattle to damp down the disease as a control option as part of an overall control strategy for reducing the incidence of TB in cattle. [159064]

Mr. Bradshaw: The feasibility of using BCG to vaccinate cattle against TB was assessed by a sub-group of the Independent Scientific Group on Cattle TB and a report was published by them in December 2003: "Development of vaccines for Bovine Tuberculosis". The conclusion reached was that in its present form, BCG would not provide an effective cattle vaccine.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications for the badger population if bovine TB is allowed to spread into previously clean areas. [159065]

Mr. Bradshaw: Currently there is no information to suggest that bovine TB can regulate badger populations. Evidence from the Central Science Laboratory's study at Woodchester Park suggests that infected badgers can live for many years and still breed successfully.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the Independent Science Group's recommendations were in respect of gamma interferon testing; and which of those recommendations have been implemented; [158332]

(2) pursuant to her Oral Answer of 5 February 2004, *Official Report*, columns 882–3, on bovine TB, what the ethical and legal issues involved in the field testing of gamma interferon are. [158753]

Mr. Bradshaw: The Independent Scientific Group on Cattle TB recommended that the gamma-interferon pilot should be expanded into a research project to help clarify the sensitivity and specificity of the bovigam test by taking blood from all cattle in a herd before skin test reactors are sent for slaughter, and again at the 60 day test. They proposed that all animals in the herds should be tested using the bovigam test, even where the experimental protocol would not require the removal of animals which reacted positively to the test. The Group also proposed extending the test to control herds not affected by TB in *(a)* areas with a TB problem, and *(b)* low TB-risk areas, but not acting on the information gleaned. In addition the ISG recommended that diagnosis of bovine TB in slaughtered cattle should be carried out using an extended post-mortem examination. These recommendations have not been implemented.

The ethical issues associated with the ISG's proposals relate to leaving those animals which have given a positive response to a test for bovine TB, on farm. The legal issues relate to taking samples from animals for experimental purposes, rather than for the diagnosis of disease.

Deer (TB Testing)

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements are in place for TB testing of farmed deer; and whether such testing is compulsory. [158288]

Mr. Bradshaw: There is no routine statutory TB testing programme for farmed deer. All TB testing of deer, apart from that for imported animals, is carried out at the owner's expense. Arrangements for testing are made between herd owners and their veterinary surgeons.

The Tuberculosis (Deer) Order 1989, as amended, makes TB in deer a notifiable disease. The owner or person in charge of deer is required to notify the presence of affected or suspected animals to the Divisional Veterinary Manager (DVM) of the State

Veterinary Service. Under these circumstances the DVM may require testing of the deer, at the owner's expense.

GM Crops

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of the recently reported deaths of 12 cattle in Hesse, Germany, in a dairy herd fed on GM fodder maize. [157753]

Mr. Morley *[holding answer 1 March 2004]:* I understand that the German authorities have investigated the incident thoroughly and concluded that the deaths, which occurred in 2001 and 2002, were unrelated to the use of GM maize Bt176 in the cows' feed.

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the number of UK local authorities declaring themselves GM-free zones. [161725]

Mr. Morley *[holding answer 16 March 2004]:* We do not collate information on the number of local authorities who declare themselves GM-free zones. Under EU law it is not possible for Governments or local authorities to impose a blanket ban on the use of approved GM products, including the commercial cultivation of approved GM crops.

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 27 February 2004, *Official Report*, column 561W, on GM crops, what assessment she has made of the Monsanto GM virus-resistant sweet potatoes grown in Kenya. [161726]

Mr. Morley *[holding answer 16 March 2004]:* No assessment has been made on Monsanto GM virus-resistant sweet potatoes grown in Kenya. Assessments on crops grown in non-EU countries will only be made when an application is made to import the product into the EU. The Kenyan GM sweet potato is however one of the case studies covered in the report by the Nuffield Council on Bioethics.

Livestock Movements

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated charge to be borne by farmers for pre- and post-movement testing is; and whether there will be an additional veterinary surgeon call-out fee. [158624]

Mr. Bradshaw: The proposal as set out in the consultation document Preparing for a new GB strategy on bovine TB' is for pre-movement testing of cattle moving from one and two year testing herds to other herds. The resource implications of this proposal will be estimated as part of the consultation process which will involve discussions with veterinary and farming interests.

The charge, and whether or not there is a call out fee, will depend upon the commercial negotiations between farmers and their veterinarians.

Pesticides

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what other gaseous pesticides were *(a)* investigated and *(b)* declared inhumane following an investigation by Porton Down on the use of hydrogen cyanide to gas badgers. [157935]

Mr. Bradshaw: In 1980, at the suggestion of Lord Zuckermann, the Chemical Defence Establishment (CDE) at Porton Down was commissioned by the Ministry of Agriculture Food and Fisheries (MAFF) to assess the acceptability of the use of Hydrogen Cyanide (HCN) to control the badger population.

Records indicate that in 1982 the results from this research led to the agriculture Minister, Mr Walker, ordering a ban on the use of HCN to kill badgers. The details of the research were publicised in a MAFF Press Notice (No. 249) issued on 1 July 1982.

Subsequent to this announcement, records indicate that discussions between CDE and MAFF were undertaken concerning groups of potentially toxic compounds which could be of use in pest control. However, there is no evidence to suggest that any further research with gaseous pesticides was undertaken involving badgers, although some practical assessments involving non-gaseous methods were undertaken using other animals, including foxes.

This latter research on contingency plans in the event of rabies becoming established in the UK was undertaken for MAFF, between 1977 and 1981, and was designed to determine a replacement for strychnine in baited poison.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Secretary of State for Health on the risk to public health posed by the use of pesticides; and if she will make a statement. [161103]

Alun Michael: My right hon. Friend the Secretary of State has regular discussions with the Secretary of State for Health and other Cabinet colleagues on a wide range of subjects. It remains Defra's position that the current risk assessment process for pesticides provides robust safeguards for public health; a view that is endorsed by the independent scientists on the Advisory Committee on Pesticides. The Department of Health is a partner to the pesticides regulatory process, and has accepted the advice of the Advisory Committee on this issue.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the National Farmers'

Union on the spraying of pesticides on crops which are situated close to residences or footpaths; and if she will make a statement. [161104]

Alun Michael: My right hon. Friend the Secretary of State has regular discussions with key stakeholders, including the NFU, on a wide range of subjects, as do all members of the ministerial team.

Ragwort

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Highways Agency about the control of ragwort; and if she will make a statement. [161106]

Alun Michael: Defra has regular contact with the Highways Agency about the control of Ragwort. I wrote to the Chief Executive of the Highways Agency in September 2002 reminding the Agency of the need to take effective action to control ragwort growing on the verges of motorways and other trunk roads to prevent the risks to horses and other livestock from ragwort poisoning. More recently, the Highways Agency was consulted on the draft Code of Practice to prevent the spread of ragwort, which I launched at the Hickstead Horse Show in July last year and responded positively.

The Highways Agency will be among those consulted when the revised code is issued for formal public consultation as required by the Ragwort Control Act. Finally, following the changes that I made in the way that Defra investigates complaints about injurious weeds, my officials have been working with the Highways Agency to streamline the way complaints from the public are handled. As a result the Highways Agency has established a central telephone point for all complaints involving ragwort and other injurious weeds growing on the verges of motorways and other trunk roads. This number has been included in Defra Weeds Act guidance leaflet.

Rights of Way (Vehicle Access)

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she had with disability groups on access to the countryside prior to launching the consultation on the use of mechanically-propelled vehicles on rights of way. [161546]

Alun Michael: Last December I met a number of groups representing people with disabilities, under the banner Countryside For All, to discuss rights of way issues. We will look carefully at the responses from such groups to our consultation document.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she had with *(a)* the Home Office, *(b)* chief constables and *(c)* police authorities on the use of rights of way by mechanically-propelled vehicles prior to launching the consultation. [161547]

Alun Michael: The consultation paper was drafted with the assistance and agreement of the Home Office. I intend to meet the Association of Chief Police Officers shortly. We had lengthy discussions with the West Yorkshire police, who have particular expertise in off-road vehicular enforcement, before publishing the consultation paper.

Rural Payments Agency

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 3 March 2004, *Official Report*, columns 941–42W, on Rural Payments Agency, if she will publish the official communication sent to farmers regarding initialled alterations; and how and when IACS applicants were advised that amendments must be crossed through. [160919]

Alun Michael: Prior to 2004, the Rural Payments Agency (RPA) advised applicants that alterations must be initialled and dated by them and that they must not use correcting fluid. This has been included in the information at the top of the Integrated Administration and Control System (IACS) base form which is sent annually to all farmers claiming aid under IACS. Other RPA schemes have a similar policy.

For the 2004 scheme year these forms have asked applicants to sign rather than initial any changes. To reinforce this the accompanying supplement which updates the 2003 booklet has an entry under the heading "Points Relating To General Guidance For Completing The IACS Area Aid Application" as follows:

"Correction fluid and changes

3. Correction fluid must not be used on the base form or the field data printout. Should an entry need changing it should be crossed through, the correct information entered and the change SIGNED and dated. If this procedure is not followed it may require the return of the claim which could delay the processing of the claim and incur penalties."

The forms and the supplement are currently being mailed to all registered IACS applicants with completion expected by the end of March. All applicants should receive them by 8 April.

In order to safeguard the applicant in that no changes are made to their application without their knowledge, and in order to demonstrate that the information is complete/accurate and clearly shows precisely what information was intended for the application, RPA has instigated procedures to support their obligations to ensure that the correct aid is paid to the correct person.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 3 March 2004, *Official Report*, columns 941–42W, on the Rural Payments Agency, when she received the legal advice on alterations to claims; what steps she took to communicate it to applicants; and whether the legal advice reflected *(a)* decisions of or *(b)* guidance from the European institutions. [160920]

Alun Michael: The legal advice which formulated these procedures was not based on specific decisions or guidance from the European Institutions but by forming a practice enabling the correct aid to be paid with a defined audit trail linking the information provided to the aid paid and safeguarding the interests of the applicant and the Rural Payments Agency.

This advice will be communicated to applicants on the IACS base forms for the 2004 scheme year. Applicants will be asked to sign rather than initial any changes and to reinforce this the accompanying supplement which updates the 2003 booklet has an entry under the heading "Points Relating To General Guidance For Completing The IACS Area Aid Application" as follows:

"Correction fluid and changes

3. Correction fluid must not be used on the base form or the field data printout. Should an entry need changing it should be crossed through, the correct information entered and the change SIGNED and dated. If this procedure is not followed it may require the return of the claim which could delay the processing of the claim and incur penalties."

The forms and the supplement are currently being mailed to all registered IACS applicants with completion expected by the end of March, all applicants should receive them by 8 April.

Sheep Tagging

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has for introducing electronic tagging of sheep; and if she will make a statement. [161548]

Mr. Bradshaw: Electronic identification of sheep becomes compulsory under EU law from 1 January 2008 and is currently being used as a component of the National Scrapie Plan. We are anticipating the widespread use of this technology and have recently launched a pilot project on a minimum of 50 commercial sheep farms to assess how industry can make best use of electronic identification and to identify any issues that may arise.

Single Farm Payments

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had and what advice she has received from *(a)* farmers' organisations, *(b)* landowners' organisations and *(c)* tenant farmers' organisations since her statement to the House of 12 February 2004, *Official Report*, columns 1585–1602, in respect of the future of farm support payments. [157122]

Alun Michael: Since the statement, my right hon. Friend the Secretary of State, has addressed the National Farmers Union AGM and my noble Friend the Lord Whitty, has met with the Chairman of the Tenant Farmers Association. In addition we have received a number letters from farmers and landowners' organisations. Inevitably some anxieties have been expressed about the impact of the decision in certain sectors and areas. However, many of the comments show an appreciation that we took that decision in the long-term interests of the industry and demonstrate a willingness to move forward and work with the Department on the detail of implementation.

CULTURE, MEDIA AND SPORT

Digital Television

Llew Smith: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer to the hon. Member for Coventry, South (Mr. Cunningham) of 2 March 2004, *Official Report*, column 825W, when she expects the review of legal constraints on digital television signals to be completed. [161919]

Estelle Morris: The Digital Action Plan identified a need to review planning rules ahead of any decisions about the timing of digital switchover. My right hon. Friend the Deputy Prime Minister published a consultation paper in April 2003 setting out proposals for possible changes to the planning rules governing the installation of satellite dishes and other antenna. ODPM are considering the responses and will announce whether any changes are necessary in good time before switchover happens. The Northern Ireland Office and Welsh Assembly Government have consulted separately and will announce any changes in due course. The Scottish Executive is planning to consult shortly on possible changes to Scottish planning rules.

Equal Opportunities

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport in what ways her Department is carrying forward the Government's commitment to the UN Convention on the Rights of the Child, with particular reference to equal opportunities to recreation and leisure. [161481]

Estelle Morris *[holding answer 17 March 2004]*: One of my Department's key strategic priorities is to enhance access to a fuller cultural and sporting life for children and young people and to give them the opportunity to develop their talents to the full. In support of this priority we have set several targets:

To enhance the take-up of sporting opportunities by 5 to 16-year-olds by increasing the percentage of school children who spend a minimum of two hours each week on high-quality PE and school sport within and beyond the curriculum from 25 per cent. in 2002 to 75 per cent. by 2006 (joint target with the Department for Education and Skills).

To help regional and national museums and galleries to deliver education programmes in partnership with schools.

To establish Culture On-line educational projects offering tailored access to the internet to national collections and cultural activity.

To establish 32 creative partnerships so that children and teachers in deprived areas can work with professionals on sustained creative projects.

We also work with other Government Departments and bodies, such as the National Lottery Distributors to promote access and participation to sport and recreation.

Fair Share Initiative

Mr. Edward Davey: To ask the Secretary of State for Culture, Media and Sport what budget *(a)* was set for 2003–04 and *(b)* has been allocated for 2004–05 and 2005–06 by each Government Department for the Fair Share initiative, broken down by English region. [161650]

Estelle Morris: Fair share is an innovative joint New Opportunities Fund (NOF)/Community Fund initiative. The initiative began in April 2002, and targets 77 disadvantaged areas across the UK, which for a variety of reasons, have not had their 'fair share' of Lottery funding.

To date, approximately £58 million of the £180 million for the overall initiative has been distributed, 32 per cent. of the total allocated for the programme.

Money is not allocated to particular financial years. NOF have provided a breakdown of what has been committed in each local authority area (and hence region) and I have arranged for copies of the document to be placed in the Libraries of both Houses.

Game Plan Target

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport what funding she will make available to sport to meet the target set out in Game Plan that 70 per cent. of the population are active by 2020; and if she will make a statement. [162161]

Mr. Caborn: The Government are investing significant amounts in schools and community sport and physical activity, with the overall aim of meeting the Game Plan target of having 70 per cent. of adults physically active five times a week by 2020.

Planned expenditure from Lottery and Exchequer sources for schools and community sport and physical activity is summarised as follows:

£581.25 million in Lottery funding for school sport facilities in England from the New Opportunities Fund over 2000 to 2006;

£108 million from Sport England and New Opportunities Fund Lottery sources over 2003 to 2006, for community sports facilities under the Active England programme;

a projected £71.5 million over 2004 to 2009 in Sport England Lottery funding for community sport through the nine Regional Sports Boards; and

£459 million over 2002 to 2006 from my Department and the Department for Education and Skills, for the PE, School Sport and Club Links programme, which includes £60 million over 2003 to 2006 for amateur sports clubs under the Community Club Development Programme.

These funding plans are also informed by the Government's target to increase the percentage of school children who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum, from 25 per cent. in 2002 to 75 per cent. by 2006.

The Activity Co-ordination Team will announce the first three year phase of the national physical activity strategy shortly. Future funding decisions on sport and activity will take full account of that strategy.

Horseracing

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport who the members of the *(a)* Horserace Totalisator Board, *(b)* Gaming Board for Great Britain and *(c)* Horserace Betting Levy Board were on 1 January; what their term of office is in each case; and whether they are remunerated. [162172]

Mr. Caborn: The information requested is as follows:

Horserace Totalisator Board

Member	*Term of office*	*Remunerated*
Peter Jones (Chairman)	30 November 2005	Yes
Christopher Sporborg	31 January 2005	Yes
Gerald Grimstone	30 June 2006	Yes
Fiona Driscoll	30 June 2006	Yes
Sir Eric Parker	30 April 2004	Yes
John Heaton (resigned 31 January 2004)	31 October 2007	Yes
Tom Phillips	1 May 2006	Yes
Joe Scanlon	30 April 2006	Yes

Note:
The last three members were executive directors.

The following members of the Board were appointed by the Secretary of State:

Horserace Betting Levy Board

Member	*Term of office*	*Remunerated*
Robert Hughes CBE (Chairman)	31 August 2004	Yes
Sir John Robb	31 December 2006	Yes
Keith Elliott	31 December 2005	Yes

The Board also comprises three members appointed by the Jockey Club; the Chairman of the Bookmakers' Committee; and the Chairman of the Horserace Totalisator Board. On 1 January they were Keith Brown, Sir Eric Parker and Tristram Ricketts; Warwick Bartlett; and Peter Jones. The Jockey Club appointees hold office without a fixed term; and the other members are ex officio. The Secretary of State is responsible for the remuneration only of the Chairman of the Horserace Totalisator Board.

Gaming Board for Great Britain

Member	*Term of office*	*Remunerated*
Peter Dean CBE (Chairman)	30 June 2006	Yes
Roy Penrose OBE	31 July 2004	Yes
Robert Lockwood	31 December 2005	Yes
Michael Steen	28 February 2007	Yes
Gillian Milburn	31 December 2007	Yes
Dennis Gunn CBE	31 December 2007	Yes
Bill Knight	31 December 2007	Yes
Eve Salomon	31 December 2007	Yes

HEALTH

Ambulances (Accidents)

Mr. Oaten: To ask the Secretary of State for Health how many accidents involving ambulances took place in each London borough in 2003. [160206]

Mr. Jamieson: I have been asked to reply.

Year 2003 data are not yet available. Figures for 2002 are shown in the following table.

Number of accidents involving an ambulance[1], by London borough: 2002

Accidents *London borough*	*Number*
Westminster	1
Camden	0
Islington	3
Hackney	5
Tower Hamlets	0
Greenwich	2
Lewisham	2
Southwark	2
Lambeth	5
Wandsworth	3
Hammersmith	0
Kensington and Chelsea	1
Waltham Forest	0
Redbridge	3
Havering	2
Barking	0
Newham	2
Bexley	0
Bromley	1
Croydon	1
Sutton	0
Merton	0
Kingston-upon-Thames	0
Richmond-upon-Thames	1
Hounslow	0
Hillingdon	0
Ealing	1
Brent	2
Harrow	2
Barnet	2
Haringey	2
Enfield	4
City of London	0
Greater London	47

[1] Vehicles with body type "ambulance". Body type is only known for 70–80 per cent. of the vehicle records in the Road Accidents database.

Care/Nursing Homes

Mark Tami: To ask the Secretary of State for Health how many people on average per local authority in England received financial support towards nursing home provision in England in each of the last five years. [161054]

Dr. Ladyman: The table shows the number of council supported residents in nursing homes in England as at 31 March, for 1999 to 2003. Data broken down by council with social service responsibilities has been placed in the Library.

Council supported residents[1] in nursing homes, 1999–2003—England

	Rounded numbers
31 March	
1999	73,465
2000	73,860
2001	71,845
2002	72,630
2003[2]	78,400

[1] Includes permanent and temporary residents.

[2] Data includes clients formerly in receipt of preserved rights.

Sandra Gidley: To ask the Secretary of State for Health how many and what percentage of care homes have dedicated respite care places in England; and if he will make a statement. [161931]

Dr. Ladyman: The Government do not hold information on the number or percentage of respite care places in care homes in England.

Ms Walley: To ask the Secretary of State for Health what his policy is on the provision of drinking water for elderly people in residential care, and if he will make a statement. [161357]

Dr. Ladyman: Care home staff should assist residents in drinking where such a need has been identified in the individual service user's care plan. These responsibilities are set out in the National Minimum Standards for Care Homes for Older People, standards 7 and 15. Care homes also have responsibilities under the Food Safety Act 1990 to ensure safe practices.

Ms Walley: To ask the Secretary of State for Health what his Department's policy is on the provision of drinking water for persons receiving home care; and if he will make a statement. [161360]

Dr. Ladyman: Staff are expected to assist with drinking where the need for assistance has been identified in the individual's service user plan. These responsibilities are set out in the Domiciliary Care National Minimum Standards, Standards 2, 7, 8, and 11. Domiciliary care agencies have responsibilities under the Food Safety Act 1990 to ensure safe practices.

Defibrillators

Mr. Burstow: To ask the Secretary of State for Health (1) what targets have been set by his Department for increasing the availability of defibrillators in public places; what the *(a)* baseline and *(b)* deadline for each target is; where the targets were announced; and if he will make a statement on progress towards meeting the targets; [151700]

(2) how many defibrillators have been commissioned in public places in each year since 1997. [152306]

Miss Melanie Johnson: In July 2000, the NHS Plan made a commitment to provide 3,000 automated external defibrillators (AEDs) in public places throughout England by the end of 2004.

110 sites are now operational across England, with a total of 681 AEDs installed.

In October 2003 the New Opportunities Fund awarded the British Heart Foundation (BHF) £6 million. This award will provide funding for equipment, community defibrillation officer posts and training equipment. The procurement of these AEDs is being undertaken by the Department of Health and the NHS Purchasing and Supply Agency, on behalf of the British Heart Foundation. It is anticipated that these will be available to the ambulance services by August 2004 and all 3,000 AEDs will be in place by March 2005.

The breakdown of AEDs installed at the sites across England in each year is as follows:

107 AEDs were made operational at ten different sites in 2000.

372 AEDs were made operational at 46 different sites in 2001.

200 AEDs were made operational at 53 different sites in 2002.

There were no new sites in 2003.

Two AEDs were made operational at one site in 2004.

Direct Payments

Mr. Milburn: To ask the Secretary of State for Health how many *(a)* elderly people and *(b)* disabled people in each local authority have been offered a direct payment in the latest year for which figures are available. [161915]

Dr. Ladyman: Information on the estimated number of elderly and disabled people receiving direct payments for each council in England for 2002–03 has been placed in the Library.

Information on the number of direct payments offered is not available.

Domiciliary Care

Sandra Gidley: To ask the Secretary of State for Health how many people have been receiving publicly funded intensive home care or home help in each year since 1997; and if he will make a statement. [161925]

Dr. Ladyman: The table shows the number of households receiving publicly funded intensive home care in England for the years 1997 to 2002.

Information on the number of people receiving intensive home care and home help is not centrally available.

Number of households receiving intensive home care in England, 1997 to 2002

	Rounded numbers
	Households receiving intensive[1,2] home care
1997[3]	—
1998[4]	60,670
1999[3]	68,675
2000	72,290
2001	77,410
2002	81,440

Notes:

[1] Intensive home care is defined as more than 10 contact hours and 6 or more visits.

[2] Households receiving intensive home care purchased with a direct payment are excluded.

[3] Comparable data not available in 1997

[4] Excludes households receiving home care from more than one sector, which in total is an intensive package.

Source:

KS1

Sandra Gidley: To ask the Secretary of State for Health what percentage of local authority-funded home care and home help hours in England were contracted out to independent sector providers *(a)* in total and *(b)* broken down by local authority, in each year since 1993; and if he will make a statement. [161932]

Dr. Ladyman: Information on the percentage of contact hours provided by the independent sector in England by council with social service responsibilities in a survey week in September, for 1993 to 2002, has been placed in the Library.

Emergency Services

Mr. Swayne: To ask the Secretary of State for Health how many *(a)* ambulances and *(b)* emergency vehicles used by paramedics and doctors there are in England. [159898]

Ms Rosie Winterton: This information is not held by the Department of Health in the format requested.

The NHS Purchasing and Supply Agency (an executive agency of the Department of Health) estimates that the national health service has an ambulance fleet of approximately 5,500 vehicles; this is made up of approximately 46 per cent. patient transport service and 54 per cent. accident and emergency ambulances. This excludes cars, rapid response vehicles and smaller patient transport service vehicles. Information is not collected centrally on the number of these vehicles.

NHS Treatment (Age Limits)

Sandra Gidley: To ask the Secretary of State for Health if he will list treatments available on the NHS for which there is an upper age limit; if he will specify the upper age limit for each treatment to which this is applicable; and if he will make a statement. [161926]

Dr. Ladyman: Standard One of the older people's national service framework sets out the general commitment to address age discrimination in access to health and social care. It requires that access to treatment and care should be made on the basis of individual needs not age, and that national health service services should be provided, regardless of age, on the basis of clinical need alone. This will require specific clinical assessment and judgement, taking account of the individual patient's needs and wishes, and the up-to-date evidence on effectiveness of specific treatments available.

Osteoporosis

Linda Gilroy: To ask the Secretary of State for Health how many primary care trusts in England have osteoporosis managed strategies as recommended in the National Service Framework for Older People. [158866]

Dr. Ladyman: Osteoporosis is one of a number of important aspects within the development of the national service framework's (NSF) integrated falls service.

The NSF for older people requires integrated falls services to be in place locally by April 2005. The Department will be monitoring formally the 2005 milestone at strategic health authority (SHA) level as this is included as one of the key targets in Improvement, Expansion and Reform, the priorities and planning framework for 2003—06. All SHAs except one currently report that the April 2005 target will be achieved in their areas. The Department has offered support to the SHA that may have difficulty meeting the target across the whole of its area.

Parkinson's Disease

Mr. Baron: To ask the Secretary of State for Health how many consultants in each strategic health authority are trained in the care and complex management of Parkinson's disease. [162230]

Dr. Ladyman: The information requested is not collected centrally.

Mr. Baron: To ask the Secretary of State for Health if he will support the extension of specialist nurses in the management of Parkinson's disease to all NHS trusts in England. [162232]

Dr. Ladyman: It is for primary care trusts in partnership with local stakeholders to make decisions about the staff and services required to meet the health care needs of their local populations, including those with Parkinson's disease.

DEPUTY PRIME MINISTER

Council Housing

Dr. Iddon: To ask the Deputy Prime Minister if he will list the local authorities whose tenants have rejected transfer of council housing stock, broken down by *(a)* year of rejection and *(b)* option rejected. [162176]

Keith Hill: Details as requested for local authorities that have had negative ballot results for housing transfer are tabled as follows:

Local authority	*Date of ballot*
Torbay	October 1988
Rochford	November 1988
Salisbury	December 1988
Arun	January 1989
Three Rivers	March 1989
Brentwood	November 1989
Canterbury	November 1989
Redbridge	December 1989
Bournemouth	January 1990
Wokingham	April 1990
South Holland	July 1990
North Kesteven	December 1990
Hillingdon	July 1992
Kingston	August 1992
Woodspring	August 1992
Mendip	July 1993
Rother	October 1993
Westminster[1]	October 1993
Maidstone	November 1993
Poole	November 1993
Thanet[1]	November 1993
Mid Bedfordshire[1]	December 1993
Cherwell	April 1994
Castle Point	September 1994
West Somerset	December 1995
Berwick	July 1996
Cheltenham	August 1997
Sandwell	September 1997
Wokingham	August 1998
St. Helens Wargrave[1]	October 1998
Tower Hamlets—Cityside[1]	October 1998
Bradford Thorpe Edge[1]	January 1999
Cambridge	February 1999
Tower Hamlets—Poplar[1]	May 1999
Fenland	August 1999

Disabled Facilities Grant

Mr. Gerrard: To ask the Deputy Prime Minister (1) how many parents of disabled children in England applied for the disabled facilities grant in 2003; and how many of them had their application means-tested; [162284]

(2) how many parents of disabled children in England who had their application for the disabled facilities grant means-tested in 2003 withdrew from the application process; [162285]

(3) how many parents of disabled children received the full amount applied for in the disabled facilities grant in England in 2003; [162286]

(4) what the total amount paid in disabled facilities grant in England was in 2003; and how much of this was paid to those whose applications had been means-tested; [162287]

(5) what plans he has to abolish the means testing of the disabled facilities grant for the parents of disabled children in England. [162288]

Keith Hill: The total amount of disabled facilities grant (DFG) awarded by local authorities in England in 2002–03 was £173.8 million. All applicants for DFG are subject to a means test.

Information is not held centrally on the number and value of DFGs awarded to parents of disabled children in England and could be provided only at disproportionate cost. The latest information available on the type of DFGs awarded and the characteristics of DFG recipients is from the 1996 report into the

Evaluation of the DFG system published by the Department of the Environment. This showed that 5 per cent. of all successful DFG applicants were parents with a disabled child. The report also showed that 35 per cent. of those who initially enquired about a grant withdrew from the process either because they were ineligible for a grant, the council offered them some other form of assistance or because they would not qualify for a grant because of the means test. Of those who withdrew 8 per cent. were parents with a disabled child.

Since 1996 the DFG means test has been amended and a special housing allowance for a family with a disabled child was introduced in 2000. This extra allowance is offset against that family's income.

The Government announced a review the operation of the DFG programme on 5 January 2004. In answer to a parliamentary question from Baroness Wilkins, my right hon. and noble Friend Lord Rooker in the other place said that the Office of the Deputy Prime Minister, jointly with the Department of Health will be reviewing the disabled facilities grant programme, including the operation of the means test, in the context of the Spending Review 2004. The conclusions of this review will be announced later in the year.

Fire Service

Mr. Swayne: To ask the Deputy Prime Minister how many fire engines there are in England and Wales. [159899]

Mr. Raynsford: On 31 March 2003 there were 2,319 pumping appliances operated by Fire and Rescue Authorities in England and Wales.

Housing

Ms Oona King: To ask the Deputy Prime Minister when he expects to publish the research by the College of Estate Management into the valuation of properties purchased under the right to buy scheme. [162239]

Keith Hill: The Office of the Deputy Prime Minister expects to publish the report of this review in May 2004.

Mr. Hoyle: To ask the Deputy Prime Minister if he will designate former New Town land in Chorley in Government ownership as land for *(a)* starter homes and *(b)* part-rent-part-buy homes. [161398]

Keith Hill: The identification of land for affordable housing is a matter for the local planning authority in consultation with English Partnerships and other stakeholders.

Mr. Drew: To ask the Deputy Prime Minister which local authorities will hold a ballot in the next six months to determine the future of their council housing stock. [161780]

Keith Hill: For stock transfers eight local authorities will ballot their tenants on 13 LSVT programmes in the next six months. The local authorities are; London borough of Islington, London borough of Lambeth, Manchester county council, North East Lincolnshire, Royal borough of Kingston, Trafford Metropolitan borough council, Wakefield and Wirral.

For Arms Length Management Organisations, Nottingham, Sheffield (partial), Slough, Bassetlaw, Brent (partial), Bury, Ealing, Eastbourne, Manchester (partial), Newark and Sherwood, Rotherham, Sandwell and Wolverhampton will need to complete a test of public opinion which may be a ballot, if their bid for a place on the programme is successful, but there is no time-scale in which to do this. The Office of the Deputy Prime Minister is not aware of any Private Finance Initiative schemes that are planning ballots.

Local Government Representation

Mr. Jenkin: To ask the Deputy Prime Minister when he expects the working group on local government representation to issue its final recommendations; whether those recommendations will be published; and what timetable for the working group has been established. [162430]

Mr. Raynsford: The role of the Working Group is to enable Government to consider with key interested parties the practical arrangements for implementing structural and boundary changes arising in any local government re-organisation in the event that one or more of the three Northern regions of England votes in favour of a Regional Assembly. Its remit is not to make formal recommendations nor does it have a specific pre-planned timetable. Its first meeting was on 9 March and there will be a number of meetings of the Group and its sub-groups before the autumn.

Parliamentary Boundary Commission

Keith Vaz: To ask the Deputy Prime Minister who the members of the Parliamentary Boundary Commission for England were on 1 January; what their term of office is in each case; and whether they are remunerated. [162296]

Mr. Raynsford: The members of the Parliamentary Boundary Commission for England on the 1 January were the Deputy Chairman the Hon. Mr Justice Sir Michael Harrison, Michael Lewer QC and Robin Gray. The Deputy Chairman's current appointment ends in December 2005. Mr. Gray's term of appointment is for four years from 1 January 2003 and Mr. Lewer's for three years from 1 January 2004. The Deputy Chairman receives only expenses; both Mr. Gray and Mr. Lewer receive remuneration.

Parliamentary Questions

Mr. Clifton-Brown: To ask the Deputy Prime Minister when he will reply to the questions tabled by the hon. Member for Cotswold on 12 February, refs 155230–2, on Coverage Care (Gloucestershire) Ltd. [160048]

Yvette Cooper: A reply was sent to the hon. Member on 15 March 2004, *Official Report*, column 59W.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister if he will breakdown his estimate of the £30 million for the set-up costs of an elected regional assembly by main budget heading. [162429]

Mr. Raynsford: The main elements are the costs of the referendums and election, the costs of preparation, including initial staff and accommodation costs, and the transfer of functions to the new Assemblies. These costs will vary between regions, in proportion to the size of the regions population and electorate, but are expected to average £30 million.

Mr. Jenkin: To ask the Deputy Prime Minister if he will publish the guidelines on the work of the Government Information and Communication Service which govern the information campaigns *(a)* Your Say: North East, *(b)* Your Say: North West and *(c)* Your Say: Yorkshire and the Humber. [162431]

Mr. Raynsford: The Government Information and Communications Service (GICS) is working to the guidelines issued by the Cabinet Office set out in the note from Mike Granatt, Director General of the GICS to Heads of Information dated 19 June 2003.

Publication of this guidance is a matter for the Cabinet Office.

Mr. Jenkin: To ask the Deputy Prime Minister on what dates he *(a)* referred to the Cabinet Secretary and *(b)* copied to the Minister for the Cabinet Office his proposals for the Government publicity (i) Your Say: A new opportunity for the North East, (ii) Your Say: A new opportunity for the North West and (iii) Your Say: A new opportunity for Yorkshire and the Humber, (iv) Your Say: Business and Jobs and (v) Your Say: Assembly powers and responsibilities. [162432]

Mr. Raynsford: The 'Your Say' Campaign is aimed at informing the public in the North West, North East and Yorkshire and the Humber about the Government's proposal to give them an opportunity to vote on whether there should be an Elected Regional Assembly in their region.

The original concept for the campaign and the designs and texts for all three Your Say leaflets were referred to the Cabinet Office on 8 October 2003, and were approved on 9 October 2003.

The text for the information leaflets Your Say: business and Jobs, and Your Say Assembly powers and responsibilities were referred to the Cabinet Office on 19 February 2004 and received approval on 20 February 2004.

Mr. Jenkin: To ask the Deputy Prime Minister what the total cost of the public hearings on elected assemblies is estimated to be; and what the individual cost of each hearing is. [162433]

Mr. Raynsford: The cost of the Berwick and Blackburn hearings, including all costs associated with the venue, overtime and advertising were £6,500 and £5,400 respectively.

The other hearings have yet to happen, but estimated costs in terms of venue related costs and advertising are:

Venue	*Cost*
Sheffield	10,000
Newcastle	9,500
Hull	6,800
Liverpool	12,200
Kendal	4,900
Halifax	7,500
Middlesbrough	11,300

The estimated total cost is therefore £74,100.

Social Housing

Mr. Laurence Robertson: To ask the Deputy Prime Minister what his Department's target rents are for *(a)* housing association properties and *(b)* sheltered accommodation, listing the service charge stated separately in each case; and if he will make a statement. [162201]

Keith Hill: The Office of the Deputy Prime Minister does not set a single target rent for social rented accommodation, or for sheltered accommodation. The formula for target rent for each social rented property, whether a housing association or local authority landlord, reflects size, value and location when compared to all other social rented property.

Service charges in all social rented property, and support charges in sheltered accommodation, are charged separately from rent. The maximum charge to the tenant for service and support is the cost price to the landlord. Charges depend both upon services received, and the landlord's costs for fulfilling the service and support needs of its tenants. Tenants in sheltered housing may also be in receipt of Supporting People grant towards the cost of support services.

EDUCATION AND SKILLS

Primary School Funding

15. **Mr. Brady:** To ask the Secretary of State for Education and Skills what meetings he has had with local authorities to discuss primary school funding for the next financial year. [162132]

Mr. Stephen Twigg: My right hon. Friend, other Ministers and officials have had a number of discussions about funding for 2004–05 with authorities both individually and collectively. Some of these meetings have covered the topic of primary school funding.

Information and Communications Technology

16. **Mrs. Dean:** To ask the Secretary of State for Education and Skills what assessment he has made of the extent of the use of computers and interactive technology in schools. [162133]

Mr. Charles Clarke: Schools are making increasing use of ICT to improve the quality of education they provide.

Since 1998 investment has increased five-fold, leading to a doubling of the number of computers in schools, the connection of practically all schools to the internet, and opportunities for schools to benefit from the growing range of high quality digital resources.

Teachers are at the heart of this change and this period has seen significant improvements in their confidence to make use of ICT.

Standard Spending Assessments

17. **Matthew Taylor:** To ask the Secretary of State for Education and Skills what the standard spending assessment per child in secondary education is on average in *(a)* England and *(b)* Cornwall. [162134]

Mr. Miliband: In 2004–05 the average Formula Spending Share for secondary pupils in England is £3,106 per pupil. In Cornwall it is £2,935 per pupil.

A-level Mathematics/Physics

Mr. Gibb: To ask the Secretary of State for Education and Skills how many students sat the A-level examination in *(a)* mathematics and *(b)* physics in each year since 1994; and what proportion were in private sector schools. [160777]

Mr. Miliband: The total number of students in England who were entered for *(a)* A-level mathematics and *(b)* A-level physics in each year from 1994 to 2003 and the proportion of these entries in independent schools are shown in the following table:

	Mathematics		*Physics*	
	Number entered	*Percentage of entries in independent schools*	*Number entered*	*Percentage of entries in independent schools*
1994	60,419	21.9	32,389	22.0
1995	58,795	22.9	31,255	23.4
1996	62,333	23.2	29,632	23.5
1997	64,132	23.5	29,970	22.2
1998	64,693	23.5	30,844	22.2
1999	63,814	23.8	30,649	22.7
2000	60,963	23.1	29,090	22.8
2001	61,305	23.4	28,816	22.9
2002	50,421	25.0	28,642	22.3
2003	51,438	25.3	27,128	23.5

Adult Residential Colleges

Mr. Boswell: To ask the Secretary of State for Education and Skills what discussions he has had with the Adult Residential Colleges Association concerning the contribution by residential education to the Government's Skills Strategy. [159526]

Mr. Ivan Lewis: There are 32 adult residential colleges based in rural locations in England, Wales and Northern Ireland. These colleges are mainly owned and run by local education authorities (LEAs) and provide, in the main, short courses. They do not receive funding direct from the DfES or the Learning and Skills Council. It is for local Learning and Skills Councils, in discussion with LEAs, to consider whether, and if so how, residential colleges can contribute to meeting local needs in lifelong learning in the light of our commitments in 21st Century Skills to safeguard budgets for such learning. I have not, therefore, had direct discussions with the Association about the role of member colleges in meeting the commitments in the Skills Strategy.

Apprenticeships

Mr. Bercow: To ask the Secretary of State for Education and Skills how many residents of Buckingham have undertaken apprenticeships in each of the last seven years. [161579]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. Nor is the information available for a consistent geographical area over the last seven years. However, the following table shows the number of starts on modern apprenticeships in Milton Keynes, Oxfordshire and Buckinghamshire Learning and Skills Council (LSC) area between April 2001 and the end of July 2003, as well as the number of starts from April 1996 to March 2001 in the three Training and Enterprise Council's (TECs) that amalgamated to become Milton Keynes, Oxfordshire and Buckinghamshire LSC.

TEC management information

LSC Individualised Learner Record

Harry Cohen: To ask the Secretary of State for Education and Skills what targets his Department has set for numbers of apprenticeships. [162061]

Mr. Ivan Lewis: The Department has adopted a Public Service Agreement target that in the academic year 2004–05 28 per cent. of young people will start a Modern Apprenticeship programme by the age of 22.

Mrs. Dean: To ask the Secretary of State for Education and Skills how many residents of the Burton constituency have undertaken apprenticeships in each of the last seven years. [161847]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. However, figures are available for Learning and Skills Council (LSC) areas and, prior to the creation of the LSC, Training and Enterprise Council (TEC) areas. The following table shows the number of starts on modern apprenticeships in Staffordshire LSC area between April 2001 and the end of July 2003, as well as the number of starts from April 1996 to March 2001 in Staffordshire TEC area.

Time period[1]	*TEC/LSC*	*Advanced MA*	*Foundation MA*
April 1996 to March 1997	Staffordshire TEC	1,300	—
April 1997 to March 1998	Staffordshire TEC	1,600	—

TEC Management Information and LSC Individualised Learner Record

Asbestos

Malcolm Bruce: To ask the Secretary of State for Education and Skills if he will list the buildings occupied by his departmental and agency staff which require *(a)* remedial work on and *(b)* removal of asbestos; what this work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159650]

Mr. Stephen Twigg: Within the buildings on the Department's four sites there are only two buildings that currently contain the material, one in London and one in Darlington. The necessary control measures are now in place, which include a programme of regular monitoring and review. Costs for this work are not available and there is no set budget in place for future work associated with asbestos management.

Capital Modernisation Fund

Mr. Bercow: To ask the Secretary of State for Education and Skills how many Capital Modernisation Fund computer-learning centres have been established in Buckinghamshire. [161571]

Mr. Ivan Lewis: There are 49 UK online centres in Buckinghamshire.

Twelve of these have received support from the Capital Modernisation Fund (CMF).

Child Care

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many free child care places provided by the Government have *(a)* been taken up and *(b)* not been taken up by parents of children below compulsory school age in each year since 1998. [161015]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four-year-olds are shown in the table.

The latest figures on provision for three and four-year-olds in England were published in a Statistical Bulletin "Provision for children under five years of age in England—January 2003" which is available on the Department's website www.dfes.gov.uk/rsgateway/.

By April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, will have access to a free, part-time early education place.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what the take-up of nursery places was, broken down by *(a)* public and *(b)* private child care provision for children under compulsory school age in each year since 1998. [161020]

Margaret Hodge: The information is not available in the form requested.Figures on the number of free nursery education places taken up by 3 and 4-year-olds in England are shown in the tables.

The latest figures on provision for 3 and 4-year-olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

We have made the commitment that by April 2004, six months ahead of our original target, all 3-year-olds in England whose parents want one, will have access to a free, part-time early education place.

Number of free nursery education places taken up by 3 and 4-year-old children, England 1998–2003

	3-year-olds			
Position in January each year	*Maintained nursery and primary schools*[1]	*Other maintained and private, voluntary and independent providers*[2]	*4-year-olds*[3]	*Total*
1998	222,000	0	591,500	813,500
1999	225,700	0	593,800	819,500
2000	229,900	40,300	598,500	868,600
2001	226,600	108,800	589,300	924,700

	3-year-olds		*4-year-olds*			
	Maintained nursery and primary schools[1]	*Other maintained and private, voluntary and independent providers*[2]	*Maintained nursery and primary schools*[1]	*Other maintained and private, voluntary and independent providers*[2]	*Total 4-year-olds*	*Total*
2002	223,500	184,700	477,700	106,800	584,500	992,800
2003	218,700	226,100	472,200	107,100	579,300	1,024,000

[1] Headcount of children aged three at 31st December in the previous calendar year from the Annual Schools Census.
[2] Part-time equivalent number of children aged 3 at 31 December in the previous calendar year from the Nursery Education Grant data collection exercise. Nursery Education Grant for 3-year-olds was allocated to the 65 local education authorities in 1999–2000 and all LEAs from 2000–01.
[3] Part-time equivalent number of children aged 4 at 31December in the previous calendar year from the Nursery Education grant data collection exercise.
[4] Headcount of children aged 4 at 31 December in the previous calendar year from the Annual Schools Census.
[5] Part-time equivalent number of children aged 4 at 31 December in the previous calendar year from the EarlyYears supplementary data collection exercise.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the number of children in Crosby who have gained from the National Childcare Strategy; [160402]

(2) how many child care places have been created in Crosby since 1997. [160524]

Margaret Hodge: Information on the number of new child care places created in individual constituencies is available only from 1999. Sefton local authority reported that between April 1999 and December 2003, 565 new child care places opened in Crosby constituency. A place typically helps more than one child, as not all children take up places full-time, and we estimate these places will help some 1,000 children. During the same period, Sefton reported that 217 child care places closed in Crosby, so that the stock of child care places rose by 348 helping some 700 children.

Child Employment Report

Mr. Burstow: To ask the Secretary of State for Education and Skills when the Government will

respond to the Better Regulation Task Force report, "The Regulation of Child Employment"; and if he will place a copy of the response in the Library. [160767]

Margaret Hodge: The Better Regulation Task Force report, "The Regulation of Child Employment", was published on 11 February and we are considering the recommendations carefully. We will respond to the report within 60 working days and a copy of our response will be placed in the Library.

Computers

Mr. Bercow: To ask the Secretary of State for Education and Skills how many people in Buckingham have received a computer to assist in seeking employment or retraining. [161565]

Mr. Ivan Lewis: At present no centrally funded schemes exist which enable people to acquire free or low price recycled computers. In the past such schemes have been trialled but have proved costly to administer to ensure fair distribution of equipment.

Government funding has been focused instead upon establishing the network of UK online centres. People in Buckingham who do not have ICT access and wish to use computers are advised to visit their local UK online centre.

Mr. Bercow: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Buckingham in each of the last seven years. [161573]

Mr. Charles Clarke: My department does not collect information on school spend on computers. However, I refer the hon. Gentleman to my response to his question about funding allocated to schools in Buckinghamshire for information and communications technology (161583).

Connexions

Charles Hendry: To ask the Secretary of State for Education and Skills how many *(a)* young people of the relevant age group and *(b)* personal advisers there are in the area of each Connexions partnership; and what the ratio of *(a)* to *(b)* is in each case. [161093]

Margaret Hodge: The following table shows *(a)* the number of young people aged (13 to 19) in each of the Connexions partnership areas, *(b)* the number of Connexions personal advisers funded through the departmental grant and *(c)* the ratio of *(a)* to *(b)* in each partnership.

	Total 13 to 19-year-old population (a)	*Personal advisers funded through SCYPG grant (b)*	*Ratio of (a) to (b), (c)*
Bedfordshire and Luton	48,466	73	661
Berkshire	67,045	78	857
Birmingham and Solihull	108,253	268	405
Black Country	91,499	155	592
Bournemouth Dorset and Poole	53,368	75	711
Cambridgeshire and Peterborough	56,957	85	670
Central London	88,898	278	320
Cheshire and Warrington	70,301	106	664
Cornwall and Devon	124,469	234	531
County Durham	40,742	77	526
Coventry and Warwickshire	67,482	120	561
Cumbria	38,851	73	536
Derbyshire	75,527	138	547
East London	161,916	309	525
Essex Southend and Thurrock	125,549	222	566
Gloucestershire	45,363	55	820
Greater Manchester	217,573	394	552
Greater Merseyside	134,711	289	467
Hereford and Worcestershire	56,428	105	538
Hertfordshire	85,726	114	751
Humber	74,614	197	379
Kent	132,424	186	711
Lancashire	121,426	175	693
Leicestershire	75,977	128	592

West London	107,145	154	697
West of England	78,732	111	709
West Yorkshire	179,253	333	583
Wiltshire and Swindon	47,875	63	755
York and North Yorkshire	61,774	80	773

Notes:

1. Data on personal advisers relates to the number of full time equivalents in post at December 2003—the latest period for which information is available and is taken from NEXUS, the management information system used to monitor the performance of the service.

2. Personal Adviser numbers exclude those funded by other agencies of which there were 917 in post in the same period and a further 3,252 other delivery staff not defined as PAs whose main role is client/customer contact.

Charles Hendry: To ask the Secretary of State for Education and Skills what percentage of 16 to 18-year-olds have not been in education, training or employment in each of the Connexions partnership areas in each year since 2001. [161095]

Margaret Hodge: The percentage of 16 to 18-year-olds who have not been in education, employment or training in each Connexions partnership area in each year since 2001 is shown in the following table.

A separate exercise estimated that the proportion of 16 to 18-year-olds not in education, employment or training had fallen by 3 per cent. in England between November 2002 and November 2003.

Percentage of 16 to 18-year-olds estimated by the Connexions Service not to be in education, employment or training

Percentage

	2001[1]	*2002*	*2003*
Bedfordshire and Luton	—	10.7	6.6
Berkshire	—	—	5.8

York and North Yorkshire	—	5.8	4.7

[1] Data relate to all 16 to 19-year-olds. Data for 16 to 18-year-olds are not available.

Charles Hendry: To ask the Secretary of State for Education and Skills what percentage of 16 to 18-year-olds from black and ethnic minorities have not been in education, training or employment in each of the Connexions partnership areas in each year since 2001. [161097]

Margaret Hodge: The following table shows the percentage of 16 to 19-year-olds from black and ethnic minorities at the end of 2003 who were not in employment, education or training.

The percentages are taken from data supplied by Connexions Partnerships. Information on the ethnic origin of young people who have completed compulsory education is only available from April 2003. The data is for 16 to 19-year-olds; data for 16 to 18-year-olds only is not collected.

Connexions partnership	*Percentage of 16 to 19-year-olds from BME groups not in education, employment or training*
Bedfordshire and Luton	6.6
Berkshire	6.9
Birmingham and Solihull	8.4
Black Country	5.7
Bournemouth Dorset and Poole	5.8
Cambridgeshire and Peterborough	6.7
Central London	10.9
Cheshire and Warrington	6.5
Cornwall and Devon	6.8
County Durham	10.3
Coventry and Warwickshire	4.5
Cumbria	6.0
Derbyshire	9.1
East London	10.5
Essex Southend and Thurrock	5.2
Gloucestershire	6.3
Greater Manchester	7.4
Greater Merseyside	10.1
Hereford and Worcestershire	5.5
Hertfordshire	4.8
Humber	9.8
Kent	6.3
Lancashire	6.1
Leicestershire	4.1
Lincolnshire and Rutland	6.0
Milton Keynes, Oxfordshire and Buckinghamshire	5.4
Norfolk	4.6
North London	7.9
Northamptonshire	9.3
Northumberland	0.0
Nottinghamshire	2.7
Shropshire Telford and Wrekin	6.5
Somerset	3.1
South Central	3.6
South London	4.9
South Yorkshire	12.0
Staffordshire	6.5
Suffolk	6.8
Surrey	2.4
Sussex	3.7
Tees Valley	8.2
Tyne and Wear	9.6
West London	4.9
West of England	10.5
West Yorkshire	9.5
Wiltshire and Swindon	4.2
York and North Yorkshire	0.8

Note:

Data for Northumberland and Yorks and North Yorkshire reflects the low numbers of Black and ethnic minorities reported in all categories of activity.

Charles Hendry: To ask the Secretary of State for Education and Skills what proportion of Connexions services for young people are contracted out to external providers; and if he will make a statement. [161694]

Margaret Hodge *[holding answer 16 March 2004]:* Connexions Partnerships are private companies with obligations to their individual boards. As such we do not collect the information requested centrally. The proportion of sub-contracted services are not separately identified in Partnerships' accounts. All costs are apportioned across three main expenditure headings—staff, premises and administration. Private sector companies have had a leading role from the start of developing Connexions and much use has been made of their experience and expertise.

Charles Hendry: To ask the Secretary of State for Education and Skills what factors he takes into account when determining the level of grant allocated to each Connexions partnership. [161916]

Margaret Hodge: The amount of grant allocated to each Connexions Partnership is calculated using a funding formula. The formula allocates 40 per cent. of the budget based on the number of 13 to 19-year-olds in the Partnership area and 60 per cent. based on the additional needs of those young people, as indicated by four proxies. The proxies are the number of young people achieving less than 5 GCSEs at grade A*-C, the number of 16 to 17-year-olds not in education and training, the number of 18 to 24-year-olds who have been unemployed for at least six months and the number of 18 to 24-year-olds claiming Income Support. The formula also incorporates area cost weightings and allocates a fixed amount to each Partnership to cover common costs.

Drugs/Alchohol Misuse (Schools)

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much has been spent on programmes explaining the dangers of *(a)* drugs and *(b)* alcohol misuse in (i) primary and (ii) secondary schools in Lancashire in the last year for which figures are available. [161386]

Mr. Stephen Twigg: In 2003–04 Lancashire Local Education Authority (LEA) received £395,863 of Government funding to support drug education in schools. Of this, £261,599 originated from this Department, £114,304 from the Department of Health, and £20,000 from the Home Office to cover enhanced school drug adviser support for Lancashire's participation in the Blueprint research programme. The LEA is able to add to this funding if it wishes.

There has been no direction from Government as to the proportion of this funding that should be spent on education about different substances or on schools in different sectors.

Education Funding

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much public funding has been spent on higher education in Crosby in each of the last seven years. [160411]

Alan Johnson: There is no higher education institution in Crosby receiving funding from the Higher Education Funding Council for England (HEFCE). Institutions located outside Crosby may be undertaking activities in the area, for example outreach to raise the attainment and aspirations of potential HE entrants, or special arrangements with schools and colleges to improve progression into HE. This information is not held centrally.

Mr. Luff: To ask the Secretary of State for Education and Skills what his most recent assessment is of the total funding per pupil in Worcestershire for the next financial year. [162131]

Mr. Miliband: In 2004–05, Worcestershire's total funding per pupil aged 3–19 is estimated at £3,490. That figure takes account of the authority's Education Formula Spending Share and grants allocated so far. It also includes an estimated allocation of the School Standards direct grant for Worcestershire.

Examination Grades

Mr. Evans: To ask the Secretary of State for Education and Skills what percentage of pupils in *(a)* Ribble Valley and Fulwood constituency, *(b)* Lancashire and *(c)* the North West achieved three grade As or more at A-level in each year since 1997–98. [161808]

Mr. Miliband: The percentages of 16 to 18-year-old A-level candidates achieving three or more grade As at A-level in *(a)* Ribble Valley and Fulwood constituency, *(b)* Lancashire local education authority and *(c)* the North West in each year since 1997/98 are:

	(a) Ribble Valley and Fulwood constituency[1]	*(b) Lancashire LEA*	*(c) North West region*
1998	7.1	6.6	5.3
1999	15.0	8.0	5.7
2000	10.7	8.1	5.8
2001	9.3	8.2	5.9
2002	9.4	7.6	5.7
2003	9.7	7.7	5.7

[1] These figures are made up of two institutions in the Ribble Valley and Fulwood constituency.

Mr. Bercow: To ask the Secretary of State for Education and Skills what percentage of 15 to 16 year olds in Buckingham achieved five or more GCSEs at grade A to C or GNVQ equivalent in each of the last seven years. [161576]

Mr. Miliband: The statistical information requested is detailed in the following table:

Percentage of 15 year old pupils[1] achieving 5 or more grades A–C*

Academic year	*Buckingham parliamentary constituency*	*England*
1997	54.1	45.1
1998	54.4	46.3
1999	57.7	47.9
2000	56.0	49.2
2001	60.6	50.0
2002	59.4	51.6
2003	63.5	52.9

[1] Pupils are aged 15 at the start of the academic year i.e. 31 August

Mr. Hoyle: To ask the Secretary of State for Education and Skills what percentage of 15 to 16 year olds in Chorley achieved five or more GCSEs at A to C or GNVQ equivalent in each of the last seven years. [161602]

Mr. Miliband: The statistical information requested is detailed in the following table:

Percentage of 15 year old pupils[1] achieving 5 or more grades A-C*

Academic year	*Chorley parliamentary constituency*	*England*
1997	53.7	45.1
1998	51.4	46.3
1999	52.1	47.9
2000	56.7	49.2
2001	53.8	50.0
2002	57.4	51.6
2003	61.0	52.9

[1] Pupils are aged 15 at the start of the academic year i.e. 31 August.

Free Pre-school Places

Mr. Bercow: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four year olds in Buckingham in each of the last seven years. [161314]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by 3 and 4-year-olds in Buckinghamshire local education authority area are shown in the table.

The latest figures on provision for 3 and 4-year-olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

By April 2004, six months ahead of our original target, all 3-year-olds in England whose parents want one, will have access to a free, part-time early education place.

Number of free nursery education places[1,2] taken up by 3 and 4-year-old children in maintained nursery and primary schools and private, voluntary and independent providers, Buckinghamshire local education authority area: 1997–2003

Position in January each year	*3-year-olds*	*4-year-olds*
1997	600	5,700
1998	700	5,900
1999	700	6,200
2000	700	6,100
2001	1,200	6,100
2002	2,500	5,900
2003	3,900	6,000

[1] Part-time equivalent number of free nursery education places taken up by 3 and 4-year-old children.
[2] A free nursery education place comprises five 2½ hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

Further Education

Chris Ruane: To ask the Secretary of State for Education and Skills what barriers to re-entering full-time further education for 19-year-olds and over he has identified. [160423]

Mr. Ivan Lewis *[holding answer 11 March 2004]:* Adults who wish to re-enter further education full-time face a range of issues. The National Employment Panel report, Welfare to Workforce Development, which was published on 9 March, refers to a need for improved services and support for learners. The Study of Learners in Further Education (RR 469, September 2003), which my Department commissioned, also highlights the financial implications of being a full-time learner in further education.

Within the framework of the Skills Strategy, the Government is taking action to address these issues and to encourage adults to learn, The measures we are taking include:

The new Adult Learning Grant (ALG), which is being piloted in 10 local LSC areas. This is a major step in helping adults who did not achieve their potential in initial education. ALGs offer a means tested allowance of up to £30 per week for full-time students aged between 19–30 studying for their first full level 2 or first full level 3 qualification. The pattern of attendance required to qualify for ALG means that learners can combine studies with part-time working.

The Government provides 75 per cent. of the standard national course costs to the Learning and Skills Council to pass on to Further Education Institutions (FEIs).

In 2003–04, £96.5 million of Learner Support Funds have been made available for FE students aged 19 + who may find finance a barrier to learning. Learner Support Funds include Access Funds (which can help towards the cost of books, equipment, transport and tuition fees), Childcare Support Funds and Residential Bursaries.

We are also working with the Department for Work and Pensions (DWP) to address the financial disincentives to learn for people in receipt of benefits.

Chris Ruane: To ask the Secretary of State for Education and Skills what assessment he has made of the impact of the 16 hour rule on participation rates of homeless people in further education. [160424]

Mr. Ivan Lewis *[holding answer 11 March 2004]:* My Department has not made a specific assessment of the impact of the 16 hour rule on participation rates of homeless people in further education. However, both DfES and The Department for Work and Pensions (DWP), which has responsibility for the '16 hour rule', recognise that the rule can create difficulties for some people, including homeless people, who wish to participate in, and complete, courses of further education.

DfES and DWP are working together to address financial disincentives to learn for people in receipt of benefits. This is in line with the recommendations of the National Employment Panel report, "Welfare to Workforce Development", which was published on 9 March.

Martin Linton: To ask the Secretary of State for Education and Skills if he will list the further education centres of learning which *(a)* have closed in London in the past five years, *(b)* are due to close this year, *(c)* have opened in the past five years in London and *(d)* are due to open this year. [162107]

Alan Johnson: The Department only holds information on the dissolution of existing further education institutions and the incorporation of new ones. In the last five years Cordwainers College, Ealing Tertiary College, Greenhill College Harrow, Hendon College, Kingsway College, Phoenix College and Weald College have been dissolved and their property, rights and liabilities transferred to other further education institutions to effect mergers. The Brooke House Sixth Form College has been incorporated within the last five years. There are no other dissolutions or incorporations planned this year. Mark Haysom, Chief Executive of the Learning and Skills Council will write with details of any other significant changes.

Martin Linton: To ask the Secretary of State for Education and Skills if he will make it his policy to require further education colleges disposing of listed buildings to return a proportion of the buildings' capital value to the community which owned them prior to incorporation. [162108]

Alan Johnson: The transaction of land and buildings by a Further Education college is specifically covered by the 'Financial Memorandum' which is a significant part of the contract between the LSC and FE corporations and regulates their relationship on financial and related matters. The 'Financial Memorandum' states that a college would normally apply the proceeds of asset sales to investment in fixed assets and, where the college is proposing to dispose of land and buildings which have been acquired by Exchequer funds, allows the LSC to require the college to surrender some or all of the proceeds.

Building Schools for the Future Initiative

James Purnell: To ask the Secretary of State for Education and Skills whether the Building for the Future programme places requirements on the schools it will benefit to open up their facilities to the wider community. [162389]

Mr. Miliband: It is a requirement for projects being funded through Building Schools for the Future to open up school facilities to the wider community, wherever appropriate.

Learning and Skills Council

Miss McIntosh: To ask the Secretary of State for Education and Skills what discussions he has had with business on the work of the Learning and Skills Council. [162304]

Alan Johnson: I have regular contact with business representatives to discuss the work of the LSC and skills related issues.

To ensure that business needs are at the heart of the LSC arrangements, and that they are customer-driven, at least 40 per cent. of the members of the LSC, both nationally and locally, and the national Chair and the majority of local Chairs, continue to be people with substantial recent business or commercial experience.

Martin Linton: To ask the Secretary of State for Education and Skills what discussions he has had with the Central London Learning and Skills Council on the future of the Battersea Park Road building of Westminster Kingsway College. [162102]

Alan Johnson: The planning and funding of education and training in the post-16 learning and skills sector is a matter for the Learning and Skills Council (LSC). I am aware that the London Central LSC, having carefully considered the proposal, supports the decision by Westminster Kingsway College to close its site in Wandsworth. It considered that the college's plan make the most effective use of public funds and there is a wide range of other centres in that area providing learning opportunities for the local community.

Martin Linton: To ask the Secretary of State for Education and Skills what funding he has made available to the Central London Learning and Skills Council for each year since its establishment; and how many centres of learning were funded through the Council for each of those years. [162103]

Alan Johnson: This is a matter for the Learning and Skills Council (LSC). I have asked Mark Haysom, the LSC's Chief Executive, to reply to you direct, copying his reply to me.

Martin Linton: To ask the Secretary of State for Education and Skills what plans he has to make the Learning and Skills Councils accountable to the public through the Parliamentary Ombudsman. [162105]

Alan Johnson: The Learning and Skills Council has been brought under the jurisdiction of the Parliamentary Commissioner for Administration (the Ombudsman). This came into effect from 16 December 2003 by virtue of Parliamentary Commissioner Order 2003.

Legal Judgments

Ms Buck: To ask the Secretary of State for Education and Skills what representations he has received following the judgement of the House of Lords in the cases R *v.* London borough of Barnet ex parte G, R *v* London borough of Lambeth ex parte W and R *v.* London borough of Lambeth ex parte A; and if he will make a statement. [156098]

Margaret Hodge: A representation has been received from the Director of Shelter.

The judgment of the House of Lords is consistent with the Government's understanding that councils with social services responsibilities, in discharging their duties under Section 17 of the Children Act 1989, have the power to provide support towards accommodation for children in need and their families. While councils with social services responsibility do not have a specific duty in relation to the children of families who have been deemed intentionally homeless, this is consistent with the fact that they do not have such duties towards the child of any other family. The service response of a local authority will depend, in every situation, on its assessment of the needs of the child, in the context of the wider family, with assessments being carried out under the terms of the "Framework for the Assessment of Children in Need and Their Families".

Literacy Rates

Mr. Wiggin: To ask the Secretary of State for Education and Skills what the literacy rates for the populations of *(a)* Wales and *(b)* England were in each year since 1997. [161010]

Mr. Ivan Lewis: Information on adult literacy skills has not been collected on a regular basis, and annual data since 1997 are not available. However, in October 2003 the Department for Education and Skills published the Skills for Life Survey: A national needs and impact survey of literacy, numeracy and ICT skills. This survey assessed the literacy and numeracy skills of around 8,000 adults aged 16 and above in England.

The literacy findings are shown in the following table. The assessment levels correspond to the new literacy and numeracy core curriculum and National Standards: Level 1 is broadly equivalent to a lower grade GCSE (grade D–G) and Level 2 to a higher grade GCSE (A*–C). Overall around 16 per cent. of adults had literacy skills below Level 1.

As education is a devolved matter, the Department does not have data covering the rest of the United Kingdom.

Overall Literacy
Base: all respondents with literacy level (7874)

	Percentage of 16 to 65-year-olds	*Number of 16 to 65-year-olds*
		million
Entry level 1 or below	3	1.1
Entry level 2	2	0.6
Entry level 3	11	3.5
(All Entry level or below)	(16)	(5.2)
Level 1	40	12.6
Level 2 or above	44	14.1
	100	31.9

New Opportunities Bursaries

Mr. Bercow: To ask the Secretary of State for Education and Skills how many students in Buckingham have benefited from New Opportunities Bursaries. [161572]

Alan Johnson: Students on designated courses at the University of Buckingham are not eligible for Opportunity Bursaries.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many students in Chorley have benefited from the New Opportunities Bursaries. [161603]

Alan Johnson: Information about Opportunity Bursaries is held at the level of institutions that provide higher education provision. Apart from that, it is not possible to extract from the data the number of awards for students in any given area. The only further education college in Chorley with higher education provision, Runshaw College, is not participating in the Opportunity Bursaries pilot; and nor have any students with an Opportunity Bursary transferred to Runshaw College.

Nurseries

Mr. Bercow: To ask the Secretary of State for Education and Skills (1) how many new nurseries have been established in Buckingham since 1997; [161312]

(2) how many *(a)* Sure Start and *(b)* Early Excellence Centres have been created in Buckinghamshire. [161313]

Margaret Hodge: Since 1997, five new nurseries have been established in the constituency of Buckingham creating 150 additional places. There is a Sure Start local programme in the High Wycombe area providing Sure Start services for around 869 children and their families. A Neighbourhood Nursery attached to the Sure Start Centre is set to open in April 2004 and will deliver 50 new full daycare places. There are no Early Excellence Centres in Buckinghamshire.

Stephen Hesford: To ask the Secretary of State for Education and Skills how many 3 and 4-year-olds attended part-time nurseries on the latest date for which figures are available. [161654]

Margaret Hodge: The information is not available in the form requested.

In January 2003, 1,024,600 free nursery education places were taken up by 3 and 4-year-olds in maintained nursery and primary schools and private, voluntary and independent providers in England.

The latest figures on provision for 3 and 4-year-olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

By April 2004, six months ahead of our original target, all 3-year-olds in England whose parents want one, will have access to a free, part-time early education place.

Parliamentary Questions

Mr. Oaten: To ask the Secretary of State for Education and Skills when he will answer the Question tabled by the hon. Member for Winchester on 14 January, ref 147904, in relation to security passes. [162390]

Mr. Stephen Twigg: A reply has been issued today.

Pathfinder Schools (Additional Staff)

Mr. Willis: To ask the Secretary of State for Education and Skills what plans he has to provide security of tenure after 2005–06 for additional staff taken on in pathfinder schools to meet the requirement of the workload agreement pilot; and if he will make a statement. [161906]

Mr. Miliband *[holding answer 17 March 2004]:* As part of the Pathfinder project, funding was made available for those schools that employed additional support staff. It was made clear to schools that this funding was provided for the financial years 2002–03 and 2003–04 only and that they would need to consider how to mainstream posts within their base budgets after the programme came to an end.

Prisoner Education

Mr. Oaten: To ask the Secretary of State for Education and Skills how much was spent by prisons in England and Wales on providing *(a)* basic skills entry level tuition, *(b)* basic skills level 1 tuition, *(c)* basic skills level 2 tuition and *(d)* key work skills tuition in 2002–03. [161720]

Mr. Ivan Lewis: The total spend in 2002–03 on contracted education hours was £52,305,802. We estimate that 37 per cent. of this was spent on the delivery of literacy, numeracy and English as a Second Language (ESOL) in 2002/03, against all other education.

This spend cannot be split into separate basic skills levels because contracted education hours are not disaggregated by the level of basic skills delivered. We fund prisons to give them flexibility to respond to the range of learning needs in their population.

In 2002–03 the funding for vocational training was the responsibility of the Prison Service. However, in April 2003, £12 million per annum was transferred from the Prison Service to DfES for vocational training.

Mr. Oaten: To ask the Secretary of State for Education and Skills how many prisoners *(a)* commenced and *(b)* successfully completed basic skills training in 2002–03; and how many (i) entry level awards, (ii) level 1 awards, (iii) level 2 awards and (iv) key work skills awards there were. [161721]

Mr. Ivan Lewis: We currently collect overall information on participation and achievement at establishment level. We want to put in place an individual level database which will provide us with this sort of information in the future, not just on prisoners but also on offenders under supervision in the community. This will be increasingly important as we implement the National Offender Management Service and move towards greater use of intermittent custody.

In 2002–03 prisoners achieved: (i) 9,120 basic skills awards at entry level, (ii) 17208 at level 1, and (iii) 15,190 at level 2. They also achieved (iv) 89,092 awards in work skills.

Project Funding

Mr. Colman: To ask the Secretary of State for Education and Skills (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years; [160945]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible, in each of the last 10 years, broken down by region. [160946]

Mr. Miliband: The following table shows capital support (excluding the Private Finance Initiative) for investment in school buildings for which data are readily available.

£ million

	1996–97	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
East Midlands	28.3	34.7	57.7	74.3	145.7	130.9	160.8	188.0
East of England	44.1	48.2	68.4	82.9	193.3	152.4	204.7	281.8
London	80.8	95.8	123.7	142.0	232.6	221.6	310.3	407.5
North East	28.4	34.9	47.6	74.3	111.4	108.2	110.9	168.0
North West and West Merseyside	81.4	94.0	126.9	148.3	270.1	239.4	304.0	368.3
South East	110.2	115.6	133.1	139.6	272.7	226.6	335.9	466.3
South West	59.3	65.6	83.3	97.5	174.9	155.7	226.6	287.2

Yorkshire and the Humber	57.5	52.1	79.6	141.4	224.4	200.4	238.7	248.7
Total	555.4	591.0	799.7	989.9	1816.5	1585.7	2106.2	2687.7

For information on PFI projects I would refer you to the Signed Projects List, which can be found on the Treasury website: http://www.hm- treasury.gov.uk/documents/public private partnerships/ppp_pfi stats.cfm. This list, which can be searched by department and region, includes all PFI deals signed over the last 10 years. It contains information on the capital value of each project signed. The list is compiled from departmental returns to the Treasury and was last updated in July 2003.

Pupil/Teacher Contact

Norman Baker: To ask the Secretary of State for Education and Skills if he will make a statement on the guidance he gives on the physical contact appropriate between teachers and primary school children. [162130]

Margaret Hodge: My Department does not give guidance specifically about physical contact between teachers and primary school children. However, my Department's Circular 10/98: "Section 550A of the Education Act 1996: The Use of Force to Control or Restrain Pupils", which gives guidance about the right of teacher's to use reasonable force to control or restrain pupils in certain circumstances, also includes advice about physical contact with pupils in other circumstances. The Circular points out that there is a variety of circumstances in which physical contact with a pupil may be appropriate or necessary: that teachers need to exercise their professional judgment about this, and that they should avoid touching pupils in ways that might cause distress or raise concerns. Similar advice is available on the internet in the child protection area of my Department's Teachernet website.

Railways

Mr. Hoyle: To ask the Secretary of State for Education and Skills what role his Department plays in warning children of the dangers of playing on or near railways. [161387]

Mr. Stephen Twigg: Education about safety is included in the curriculum through the framework of Personal Social and Health Education (PSHE). In PSHE lessons pupils are taught about rules for, and ways of, keeping safe, to recognise the risks that apply in different situations and then to decide how to behave responsibly. They should be taught to recognise and manage risk, to be aware when pressure from others threatens their personal safety and to develop assertiveness techniques when dealing with unhelpful pressure.

Although there is no specific requirement on schools to warn pupils about the dangers of playing on or near railways, teachers may well use such situations to illustrate risk more broadly.

Return-to-work Training

Mr. Bercow: To ask the Secretary of State for Education and Skills how many women in Buckingham

have visited an information and communications technology training centre in order to learn skills to return to work. [161319]

Mr. Ivan Lewis: In the period October 2003—December 2003[1], 1,213 people visited a UK Online centre in Buckingham. 680 (56 per cent.) of these people were women.

Since learndirect was launched in 1999, 498 people from Buckingham have enrolled on a learndirect course. 257 (52 per cent.) of these people were women. Of the total number of women who enrolled on a course 25 per cent. did so in order to learn skills to return to work.

[1] There are no statistics available for UK online prior to September 2003 as the DfES did not collect this data on a centre by centre basis.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many *(a)* men and *(b)* women in Chorley have visited an information and communications technology centre to learn skills to return to work. [161449]

Mr. Ivan Lewis: In the period October 2003—December 2003[1], 1,111 people visited a UK Online centre in Chorley. The split between men and women was 489 (44 per cent.) men and 622 (56 per cent.) women.

Since learndirect was launched in 1999, 973 people from Chorley have enrolled on a learndirect course. The split between men and women was 575 (59 per cent.) women and 398 (41 per cent.) men.

[1] There are no statistics available for UK online prior to September 2003 as the DfES did not collect this data on a centre by centre basis.

School Exclusions

Mr. Brady: To ask the Secretary of State for Education and Skills pursuant to his answer of 9 March 2004, *Official Report*, column 1381W, on school exclusions (cannabis), when the first term's data, on the reasons for exclusions from schools, will be available. [161793]

Mr. Ivan Lewis: We plan to publish information from the first term's data on exclusions alongside the Statistical First Release on Permanent Exclusions from Schools and Exclusion Appeals in England 2002/03 (provisional), in May 2004.

School Field Trips

Dr. Gibson: To ask the Secretary of State for Education and Skills (1) what safety advice is given to schools in relation to field trips; and if he will make a statement; [157786]

(2) how many serious accidents have been reported to the Health and Safety Executive over the last five years which have taken place on *(a)* school trips and *(b)* school premises; [157787]

(3) what impact he anticipates that the guidance relating to school field trips recently issued by the National Association of Schoolmasters and Union of Women Teachers in relation to the participation of teachers in school field trips will have upon participation by teachers in those elements of the 14 to 19 curriculum which are required to be supported by fieldwork; and if he will make a statement. [157973]

Mr. Ivan Lewis: My Department has issued Health and Safety guidance to LEAs and schools about the whole range of educational visits including field studies. My Department supports all visits that have clear educational objectives and are carefully risk assessed and managed. Guidelines recently re-issued by NASUWT advise members to consider whether to take part in visits, and advise those who do to heed guidance from their employer and from my Department. A few teachers have been subject to legal action but I am pleased that most teachers continue to take pupils on visits. I expect field visits and other outdoor activities to thrive as teachers become more competent in supervision following visits coordinator training pump-primed by my Department in 2003. The Health and Safety Executive in 2001–02 received reports of 6,363 accidents affecting employees and others in primary and secondary education (including one fatality) and in 2002–03 5,812 (including three fatalities). Earlier or more detailed figures are not available.

School Innovation

Mr. Willis: To ask the Secretary of State for Education and Skills how many schools have applied to the Department for *(a)* power to innovate, broken down by area of innovation applied for and *(b)* earned autonomy, broken down by reason for the application, as a result of the Education Act 2002. [162240]

Mr. Miliband: There have been 46 applications from schools to use the Power to Innovate as follows:

Quantity	*Relevant legislation*	*Innovation*
4	The Changing of School Session Times (England) Regulations 1999	To extend the length of the school day mid academic year, rather than wait until the beginning of the new school year. The purpose of the innovation was to provide extra curricular activities for pupils, freeing up time for teachers to work on planning, preparation, and to draw up education plans for individual pupils.
1	The Changing of School Session Times (England) Regulations 1999	To change the timings of the school day without the requirements set out in regulations to give the minimum of three months notice to parents and to consult parents at a meeting (instead parents were consulted by correspondence). The purpose of the innovation was to end the school day one hour early on alternate Wednesdays from September 2003, allowing staff to have a dedicated two-hour period once a fortnight for planning, preparation, assessment, and to hold meetings.
1	The Education (National Curriculum) (KS2 Assessment Arrangements) (England) Order 2003	Exemption sought from Key Stage 2 National Curriculum testing while replacing these tests with on-going teacher assessment procedures.

Quantity	Relevant legislation	Innovation
1	The Education (National Curriculum) (KS3 Assessment Arrangements) (England) Order 2003	Exemption sought from Key Stage 3 National Curriculum testing while replacing these tests with teacher assessed levels and within school monitoring and evaluation processes.
1	The Education (School Day and School Year) (England) Regulations 1999	To deliver the National Curriculum over four extended days freeing up Fridays to offer targeted activities for pupils.
38	The Education (School Day and School Year) (England) Regulations 1999	To increase the number of INSET days for activities including: Target setting days Collaborative work between schools Professional development days for teachers Curriculum planning

I refer the hon. Member to the answer I gave to the hon. Member for Ashford (Mr. Green) on Earned Autonomy on 23 September 2003.

School Meals

Mr. Willis: To ask the Secretary of State for Education and Skills (1) what guidance has been issued to local education authorities in relation to the *(a)* cost and *(b)* quality of free school meal provision; [162078]

(2) what guidelines he has issued to assist schools and local education authorities in assessing the nutritional value of school meals. [162093]

Mr. Stephen Twigg: The Department for Education and Skills has produced guidance entitled 'Healthy School Lunches' for school caterers on implementing national nutritional standards, the standards apply to both free and paid for meals. Annex cii of the guidance provides details to caterers on how to assess the nutritional value of school meals. The guidance can be viewed on the website: www.dfes.gov.uk/schoollunches. In addition, the Secretary of State recommends that the value of a free school meal should be set to enable children to have a standard two course lunch and drink.

School Staff Redundancies

Mr. Willis: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* support staff in (I) primary and (ii) secondary schools he estimates will be made redundant in (A) 2003–04 and (B) 2004–05 as a result of falling rolls; and if he will make a statement. [162079]

Mr. Miliband: My right hon. Friend has made no such estimates. Decisions on the employment and deployment of teachers and support staff are for local education authorities and school governing bodies.

Sector Skills Councils

Mr. Boswell: To ask the Secretary of State for Education and Skills when the network of sector skills councils will be operational. [160681]

Mr. Ivan Lewis: Good progress is being made in setting up the Skills for Business Network. Eleven Sector Skills Councils (SSCs) have now been awarded five year licences to operate by the Secretary of State. We expect to have around 20 SSCs in place by summer 2004 with a further three joining the network by the end of 2004.

Security Passes

Mr. Oaten: To ask the Secretary of State for Education and Skills (1) how many security passes have been reported *(a)* lost and *(b)* stolen by staff in (i) his Department and (ii) departmental agencies in the last 12 months; [147904]

(2) how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [150404]

Mr. Stephen Twigg: My Department has since 1 January 2003 the following lost and stolen passes reported:

401 security passes have been reported lost by staff in the Department for Education and Skills.

32 security passes have been reported stolen by staff in the Department for Education and Skills.

No security passes have been reported lost or stolen in the Department for Education and Skills' agencies.

Skills Courses (London)

Martin Linton: To ask the Secretary of State for Education and Skills how many students were attending *(a)* English as a second language and *(b)* basic skills courses in London in the latest month for which figures are available, broken down by borough. [162110]

Mr. Ivan Lewis: The numbers of enrolments in Greater London on *(a)* English as a second language (ESOL) and *(b)* other Basic Skills courses in London in 2002/03 are set out below. A breakdown by borough is not available, a split is provided by Local Learning Skills Council (LSC).

Enrolments on adult basic skills courses in Greater London in 2002–03 [1]

Thousands

Local LSC	(a) ESOL	(b) Basic skills in literary and numeracy
London Central	49	21
London East	43	30
London North	23	10
London South	17	11
London West	38	11
Total	170	83

[1] Note figures are based on learning aims so may count a learner more than once.

Learning and Skills Council

Schools Funding

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much public funding has been allocated to schools in Chorley for information and communications technologies since 2001. [161556]

Mr. Charles Clarke: I refer my hon. Friend to my response to his question about funding for computers in schools in Chorley for the last seven years on 16 March 2004, *Official Report*, column 226W.

Skills Shortages

Tony Lloyd: To ask the Secretary of State for Education and Skills if he will make a statement on the Government's policy on addressing skills shortages through programmes developed in conjunction with the Learning and Skills Council. [162129]

Mr. Ivan Lewis: The Skills Strategy White Paper—"21st Century Skills, Realising Our Potential"—set out our ambitious programme to tackle skills shortages. It commits the Government, the Learning and Skills Council and other key partners to a radical strategy of demand-led provision of skills, meeting the needs of employers as expressed through the new Sector Skills Councils, 12 of which are already licensed. New Regional Skills Partnerships will bring together the key players to ensure specific regional skills shortages are addressed, and the whole strategy is overseen at a national level by the Skills Alliance.

Small Businesses (Support)

Brian Cotter: To ask the Secretary of State for Education and Skills if he will list the support programmes for small businesses that *(a)* his Department and *(b)* its agencies have financed in each of the last five years; how much money was allocated for each scheme in each year; how much money has gone unclaimed under each scheme; and how many small businesses have benefited from each scheme. [161254]

Mr. Charles Clarke *[holding answer 15 March 2004]:* The Cross-cutting review of Government services for small business was published in December 2002, and outlines the services provided to small businesses from across Government. My Department and its agencies provides indirect support to small business through measures aimed at workforce development. Some support, but are not restricted to, small businesses, others are specifically for small businesses. The principle programmes through which my Department has supported small business over the last five years are:

The Small Firms Training Loans

(SFTL) programme was introduced in Great Britain in 1994 and closed on 1 February 2003. Firms could borrow between £500 and £125,000 for vocational training, with a repayment holiday of between six and 12 months. The Department paid the interest on the loan during this period and provided a loan default guarantee. The loan repayment term was for up to seven years. Over the life of the scheme 211 loans totalling £1,344,000 were made by Banks, at a programme cost of £533,000.

Key Worker Initiative

For businesses employing 10 to 49 people was launched in 1998 and finished in 2000. Training and Enterprise Councils (TECs) delivered this programme.

Employer Learning Networks

A £2.5 million ELN challenge fund was set up in 2000–01 to encourage collaborative action by employers in England. The fund supported 18 projects, which covered some of the smaller firms (with less than 50 employees) across a range of sectors.

Investors in People (IiP)

The National HP programme 1997 included targets for coverage of the workforce and small firms (employing 10 to 49 people) to be achieved by 2002. TECs delivered this initially, it was taken over by the Learning and Skills Council (LSC) when it succeeded the TECs in April 2001.

Investors in People Small Firms Initiative

(SFI) was launched on 27 February 2003, as a partnership between the LSC, IiP UK and the SBS. SFI aims to boost the performance, capability and competitiveness of small firms by encouraging them to achieve recognition against the HP standard. The initiative offers business support up to the value of £1,250 to individual small companies on a first come first served basis. The initiative has a budget of £30 million; we will know final take up in March 2005.

Employer Training Pilots (ETPs)

ETPs are currently operating in 12 Learning and Skills Council (LSC) areas. six began in September 2002 with a budget of £ 40 million. A further six commenced in September 2003 and the existing six were extended for a further year using an additional £ 130 million. Of the 7,000 employers that had signed up for ETPs at the end of January 2004 71 per cent. (4,970) had less than 50 employees. In December 2003 the Chancellor announced an extra £ 120 million to extend the existing 12 by a further year and to create a further six pilots.

Leadership and Management

In collaboration with DTI, IIP, Ufi, LSC and others we are trialling a new flexible Leadership and Management development programme for owner-managers and CEOs of SMEs (20—250 staff). The overall budget is £43.7 million over the period 2003–04 to 2005–06. Six Pathfinder areas are setting up in February and March and employers are expected to participate from April 2004.

Student Finance

Mr. Frank Field: To ask the Secretary of State for Education and Skills pursuant to the Answer to the hon. Member for Birkenhead on 23 February 2004, *Official Report*, column 209W, on student finance, what estimate he has made of how many of those dependent students eligible for the full combined grant in 2006–07 will be from *(a)* single parent households, *(b)* two-parent households where both parents are working and *(c)* two-parent households where one parents is working (i) in absolute terms and as (ii) a proportion of all students. [162367]

Alan Johnson: The requested data are not available at this stage.

Teacher Vacancies

Mr. Bercow: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Buckingham on the latest date for which figures are available; and what steps he is taking to reduce them. [161317]

Mr. Miliband: The information is not available in the form requested. In January 2003, there were 47 vacancies for full-time teachers in maintained schools in the Buckinghamshire Local Education Authority (LEA) area, which includes Buckingham.

Like other areas, since 1997 Buckingham has benefited from the initiatives that the Government have put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in the former Buckinghamshire LEA area has risen by 770, from 5,370 to 6,140 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 1,270, from 1,880 to 3,150.

Teaching Assistants

Mr. Bercow: To ask the Secretary of State for Education and Skills how many teaching assistants there were in Buckingham *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [161316]

Mr. Miliband: In Buckingham constituency there were 99 full-time equivalent teaching assistants in service in maintained schools in 2003, the latest information available. The table gives the corresponding numbers since 1997.

	Number
1997	54
1998	61
1999	68
2000	69
2001	64
2002	119

Annual Schools' Census.

Teenage Pregnancy

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills if he will make a statement on the NHS's progress towards meeting the target of a 15 per cent. reduction in teenage pregnancy by 2004. [160916]

Margaret Hodge *[holding answer 16 March 2004]:* Provisional data for 2002 published on 26 February by the Office for National Statistics shows that conceptions among under 18 year olds in England have fallen by 9.4 per cent. since 1998. Data for 2004 will be available in February 2006 on the 2004 NHS interim target of a 15 per cent. reduction in teenage pregnancy.

Temporary Classrooms

Mr. Willis: To ask the Secretary of State for Education and Skills how many schools use temporary mobile classroom accommodation, broken down by region; and if he will make a statement. [161907]

Mr. Miliband *[holding answer 17 March 2004]*: The attached table shows the number of schools with temporary classrooms in each Local Education Authority. It is based on data provided to the Department by Authorities as part of the asset management planning process. The bulk of schools capital is now allocated by formula to Authorities and schools so that they can address their local priorities, including the replacement of decayed temporary accommodation. Prioritisation of need through asset management planning should be an open, rigorous and consultative process, based on surveys of the needs of all schools. The Department does not collect detailed information on investment plans or timetables of Authorities. The Department does not encourage the replacement of defective permanent accommodation with temporary mobile classroom accommodation but accepts the necessity in some cases to respond to short term need or emergencies.

Youth Services

Charles Hendry: To ask the Secretary of State for Education and Skills how much has been spent on youth services by each local authority in each year since 1997. [161077]

Margaret Hodge: The information requested has been placed in the Library.

HOME DEPARTMENT

Asylum/Immigration

Lembit Öpik: To ask the Secretary of State for the Home Department what evidence his Department has received on the possible scale of inward migration to the UK from EU accession states; and if he will make a statement. [161351]

Beverley Hughes: A number of studies have been published which offer estimates of total net flows to the United Kingdom from the accession countries, but these do not of course take account of the measures we announced on 23 February 2004 and the steps we are taking to publicise them in the countries most concerned.

The registration scheme announced by my right hon. Friend the Home Secretary is designed to monitor the number of A-8 nationals registering as workers and collate information about the nature and location of the jobs they are doing.

Mr. Flook: To ask the Secretary of State for the Home Department to which authority a person can report an individual whose visa conditions to remain in the United Kingdom have expired. [159816]

Beverley Hughes: Information of this nature can be passed to the Home Office's Immigration and Nationality Directorate in Croydon or direct to the nearest Immigration Service office.

Alternatively, a person may pass information on immigration offences anonymously to Crimestoppers, who will forward it to the appropriate Immigration Service office.

Mr. Malins: To ask the Secretary of State for the Home Department how many immigration judicial review applications there have been in the last two years for which figures are available; and of those, how many took *(a)* more than six months and *(b)* more than one year from first application to final conclusion. [160463]

Mr. Lammy: I have been asked to reply.

The number of immigration judicial review applications for the last two years are as follows:

2002

Immigration (asylum)	3,076
Immigration (non-asylum)	164
Total:	3,240

2003

Immigration (asylum)	2,171
Immigration (non-asylum)	144
Total:	2,315

The Administrative Court is unable to provide information on how many of these cases took *(a)* more than six months and *(b)* more than one year without incurring disproportionate costs. However I can give the average waiting times for the judicial review process for 2002 and 2003.

The average waiting time for processing paper applications for permission to apply for judicial review, including the time that cases were stood out pending decisions and subsequent appeals in lead/test cases, was for:

2002

	Weeks
Immigration asylum cases:	9.9
Immigration non asylum cases:	9.6

2003

	Weeks
Immigration asylum cases:	8.5
Immigration non asylum cases:	8.5

Of those that renewed to an oral hearing, the average waiting time from the date of receipt of the application to renew to the renewal decision, including the time that cases were stood out pending decisions and subsequent appeals in lead/test cases, was for:

2002:

	Weeks
Immigration asylum cases:	6.5
Immigration non asylum cases:	6.2

2003

	Weeks
Immigration asylum cases	6.1
Immigration non asylum cases	6.5

Of the 130 cases in 2002 and the 115 cases in 2003 which proceeded to a substantive hearing, the waiting time from date of issue of proceedings to the date of final determination, including the time that cases were stood out pending decisions and subsequent appeals in lead/test cases, was for:

2002

	Weeks
Immigration asylum cases (117 cases):	33.9
Immigration Non asylum cases (13 cases):	54

2003

	Weeks
Immigration asylum cases (103 cases)	36.6
Immigration non-asylum cases (12 cases)	49.6

John Robertson: To ask the Secretary of State for the Home Department how many asylum seekers whose applications or appeals are pending are *(a)* single men under 25, *(b)* single women under 25 and *(c)* families with children under 16. [158701]

Beverley Hughes: Data on asylum applicants awaiting an initial decision or the outcome of an appeal hearing, by age or sex are unavailable and could only be obtained at disproportionate cost by examination of individual case records.

At the 31 December 2003 there were 24,500[1] asylum cases awaiting an initial decision, 40 per cent. lower than 41,300 at the end of December 2002. As at 31 December 2003, there were an estimated 12,000 appeals lodged with the Home Office, which had not been sent to the Immigration Appellate Authority, 60 per cent. lower than at the end of December 2002. A proportion of appeals lodged with the Home Office do not result in appeal bundles being sent to the IAA. The total asylum work in progress in the IAA as at 31 December 2003, was 27,200 (15,500[1] at the Adjudicator Tier, 7,100[1] applications for permission to appeal to the tribunal, and 4,600[1] tribunal appeals), a slight increase from 27,100 at the end of December 2002.

Information on the age and sex of principal applicants and their dependants relating to asylum applications made in 2002 is published in the Home Office annual statistical bulletin Asylum Statistics United Kingdom 2002, copies of which are available in the Library of the House and on the Research Development and Statistics web site http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Key: To ask the Secretary of State for the Home Department how many applications for asylum were received in 2003 from citizens of the Maldives; and how many were approved. [160669]

Beverley Hughes: In 2003, from nationals of the Maldives there were less than three applications for asylum in the UK, less than three initial decisions (all of which were refusals on non-compliance grounds) and less than three appeal determinations by IAA (all of which were dismissed). Initial decisions may relate to applications received in previous years and appeal determinations may relate to initial decisions in previous years. All data are provisional and exclude dependants.

Information on asylum applications, initial decisions and appeal outcomes is published in quarterly web pages and in the annual statistical bulletin Asylum Statistics United Kingdom, available from the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Wiggin: To ask the Secretary of State for the Home Department how many asylum seekers have *(a)* entered Wales and *(b)* applied to live in Wales in each year since 1997. [160921]

Beverley Hughes: I regret that the requested information on how many asylum seekers have entered Wales is not available. Asylum applications relate to the UK as a whole. The table gives the available data, on the numbers of those asylum seekers living in Wales who are supported by National Asylum Support Service. (NASS) as at the end of each quarter since December 2001.

As at end:	*In receipt of subsistence only support*	*Supported in NASS accommodation*
December 2001	140	700
March 2002	160	1,020
June 2002	175	1,150
September 2002	180	1,405
December 2002	180	1,585
March 2003	185	1,870
June 2003	175	2,130
September 2003	160	2,350
December 2003	145	2,490

Notes:
Figures are rounded to the nearest 5.

Information on the number of asylum seekers supported by MASS is published in the regular quarterly asylum statistics, a copy of which is available in the Library of the House and from the Home Office's Research Development and Statistics website http://www.homeoffice.gov.uk/rds/immigration1.html. The next publication covering the first quarter of 2004 will be available at the end of May.

Information on how many of those supported in MASS accommodation in Wales who had applied to live there is not available.

Mr. Wiggin: To ask the Secretary of State for the Home Department how many asylum seekers who were located in Wales had their *(a)* application to remain and *(b)* appeal rejected in each year since 1997. [161195]

Beverley Hughes: Asylum seekers make applications for refugee status rather than for leave to remain. Applications may result in grants of refugee status, in refusals of refugee status but grants of humanitarian protection, discretionary leave to remain, or in outright refusals. In April 2003 humanitarian protection (HP) and discretionary leave to remain (DL) replaced exceptional leave to remain (ELR). Applications for further leave following Grants of HP and DL are subject to active review.

Information on initial decisions and appeal outcomes relating to asylum applicants located in Wales is unavailable and could be obtained only at disproportionate cost.

The available Information on asylum application, decisions and appeal outcomes is published quarterly. The next publication covering the first quarter of 2004 will be available at the end of May on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Wiggin: To ask the Secretary of State for the Home Department what estimate he has made of the *(a)* accommodation, *(b)* subsistence and *(c)* other costs in respect of asylum seekers resident in Wales in each of the last five years. [161204]

Beverley Hughes: Information relating to accommodation costs is regarded as commercially sensitive and it would not be appropriate to disclose it.

Information relating to subsistence and other costs for asylum seekers resident in Wales is not available on a geographic basis and could be obtained only at disproportionate cost.

Lady Hermon: To ask the Secretary of State for the Home Department how many foreign nationals have claimed asylum upon arrival at Northern Ireland *(a)* ports and *(b)* airports in each of the past five years; and from what countries they originated. [161797]

Beverley Hughes: Information on asylum applications lodged in individual regions of the UK is not available and could be obtained at only disproportionate cost.

Information on asylum applications is published quarterly. The next publication covering the second quarter of 2004 will be available at the end of May on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Coleman: To ask the Secretary of State for the Home Department what the average cost to public funds of an appeal to an Asylum Support Adjudicator was in each of the last three years; and what the average length of time for the determination of an appeal brought before an Asylum Support Adjudicator was in each of the last three years. [156807]

Beverley Hughes: The average cost for Asylum Support Adjudicator (ASA) appeals for each of the last three years were as follows:

	Expenditure(£)	*Number of appeals*	*Unit cost (£)*
2000–01	492,000	257	1,914
2001–02	1 million	2,141	467
2002–03	1.2 million	3,813	317

The information for the second part of this question is not available.

Mr. Coleman: To ask the Secretary of State for the Home Department by what mechanism his Department is monitoring the impact of section 55 of the Nationality, Immigration and Asylum Act 2002 on *(a)* rough sleeping and *(b)* overcrowding in London. [156808]

Beverley Hughes: The Homelessness and Housing Support Directorate in the Office of the Deputy Prime Minister has been monitoring the effect of section 55 through regular contact with local authorities, in particular those who have significant rough sleeping problems. Local authorities obtain this information through regular feedback from their outreach teams and other services in their areas. They have been asked to report immediately if anyone is found sleeping rough who has been refused support under Section 55. No evidence has been received that there has been any significant increase in rough sleeping levels due to Section 55.

In London the Refugee Council, Refugee Arrivals Project and Migrant Helpline are grant funded to provide emergency accommodation to asylum seekers awaiting dispersal, including those awaiting decisions under section 55. Such accommodation must comply with all relevant statutory housing regulations.

Mr. Lansley: To ask the Secretary of State for the Home Department how many abscondees from the Oakington Immigration Reception Centre there were in each of the last 12 months. [145367]

Beverley Hughes: The number of escapes from Oakington Immigration Reception Centre in each month from January to December 2003 (the latest month for which data are available) is shown in the table.

Escapes from Oakington Immigration Reception Centre January to December 2003 [1,2]

	Number of Persons
January	—
February	—
March	2
April	4
May	10
June	5
July	9
August	17
September	19
October	7
November	10
December	1
Total	84

[1] Figures obtained from local management information

[2] Provisional data

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what action is taken to remove an asylum seeker once their application has been rejected. [159532]

Beverley Hughes: All asylum applicants have a statutory right of appeal in the event of an adverse decision on their asylum application. If all appeal rights have been exhausted the Immigration Service assess whether that person is removable and, if so, set removal directions. The Immigration Service then makes the necessary arrangements to remove the failed asylum seeker from the United Kingdom.

Lynne Jones: To ask the Secretary of State for the Home Department what mechanisms are used to monitor the impact of section 55 of the Nationality, Immigration and Asylum Act 2002 on levels of destitution among people seeking asylum. [162014]

Beverley Hughes: The Homelessness and Housing Support Directorate in the Office of the Deputy Prime Minister has been monitoring the effect of section 55 through regular contact with local authorities, in particular those who have significant rough sleeping problems. Local authorities obtain this information through regular feedback from their outreach teams and other services in their areas. They have been asked to report immediately if anyone is found sleeping rough who has been refused support under section 55. No evidence has been received that there has been any significant increase in rough sleeping levels due to Section 55.

Jeremy Corbyn: To ask the Secretary of State for the Home Department if he will list for each *(a)* London borough and *(b)* local authority for each of the last three years the number of properties provided by (i) local authorities, (ii) housing associations and (iii) the private sector to the National Asylum Support Service. [160705]

Beverley Hughes: The information is not available in the format requested and could be provided only at disproportionate cost.

Mr. Oaten: To ask the Secretary of State for the Home Department in how many cases the detention of children under immigration law for more than 28 days has been subject to ministerial authorisation since 1 January; and if he will make a statement. [160205]

Beverley Hughes: Management information indicates that on the 26 January 2004 35 children were in detention who were detained solely under Immigration Act powers. Three quarters of those had been in detention for 14 days or less and the remainder had been detained for less than four months. These individuals were all detained as part of families whose detention as a group was considered necessary.

Records show that all children held in detention under immigration law for a period greater than 28 days since 1 January have been subject to ministerial authorisation.

Child Seatbelts

Mr. Sheerman: To ask the Secretary of State for the Home Department how many drivers were *(a)* cautioned, *(b)* charged and *(c)* arrested for carrying child passengers who failed to wear seatbelts in the last year for which figures are available. [162052]

Caroline Flint: Available information held centrally, on police action taken for motoring offences, does not distinguish between passenger and driver seat belt offences, nor whether children are involved.

Detention Centres

Alistair Burt: To ask the Secretary of State for the Home Department what formal notifications are required when the ownership of a custody or detention centre operated by private companies on behalf of the Government is transferred to another company *(a)* before and *(b)* after transfer. [159861]

Beverley Hughes: The Contract contains a provision requiring the Contractor to notify the Home Office if there is a change of more than 3 per cent. in the ownership of the company. A change of control for the Contractor requires the prior written approval of the Home Office—such approval not to be unreasonably withheld or delayed. If shares are listed in the stock exchange such consent is to be obtained as soon as the Contractor becomes aware of the change of control.

Alistair Burt: To ask the Secretary of State for the Home Department whether he has been consulted over plans to change the ownership of Yarlswood Detention Centre from Group 4 (Falck); and if he will make a statement. [159862]

Beverley Hughes: My right hon. friend, the Home Secretary, has not been consulted. However there are no current plans to change the ownership of the Yarlswood Removal Centre. The contract is currently run by Global Solutions UK Ltd. (GSL) a division of Group 4 Falck.

There have been recent press announcements regarding the potential merger of Group 4 Falck with Securicor. This relates to the division of Group 4 Falck which deals with cash in transit and guarding business, and does not affect the custodial business run by Global Solutions. In conjunction with the merger Group 4 Falck will separate its security business from the GSL business. GSL will be a division of the Group 4 company to be listed as Falck A/S.

As with all public sector contracts, performance will be subject to regular review, and continued provision of the service dependent upon satisfactory performance.

Drug Testing

Mrs. Gillan: To ask the Secretary of State for the Home Department pursuant to his statement of 14 January 2004, *Official Report*, column 279WH, on drug testing, if he will place a copy of the National Workplace Strategy he referred to in the Library; if he will list the members of the steering group, with their organisation; and if he will list the dates, place and length of the meetings of the steering group referred to. [161185]

Caroline Flint: Yes, a copy of the National Workplace Strategy can be placed in the Library. In total there have been 13 steering group meetings. The first steering group meeting was held on 10 October 2002, then 5 November 2002, 9 December 2002, 27 January 2003, 12 February 2003, 25 March 2003, 29 April 2003, 28 May 2003, 24 June 2003, 22 July 2003, 30 September 2003, 28 October 2003, 25 November 2003 and 27 January 2004.

In general, each meeting lasted two hours and venues changed for each meeting.

Members of the Steering Group include:

1. Richard Ivers, Home Office (Chair)
2. Ciara Shannon, Home Office
3. Robin Burgess, Home Office
4. Jacob Hawkins, Home Office
5. Judith Hind, Department of Health
6. Paul McCormack, Health and Safety Executive
7. Yolande Burgin, Independent Inquiry into Drug Testing at Work
8. Jude Grandison, Confederation of British Industry (CBI)
9. Tom Mellish, Trades Union Congress (TUC)
10. Corrina Langelaan, Federation of Small Businesses (FSB)
11. Matthew Knowles, British Chambers of Commerce (BCC)
12. John Jolly, KCA (UK) Workplace Services Ltd.
13. Patricia Armstrong, KCA (UK) Workplace Services Ltd.
14. Frank Warburton, Drugscope
15. Sheryl Hobbs, Alcohol Concern
16. Christine Hayhurst, Chartered Management Institute (CMI)
17. Sally Ann Cole, Herts DAT
18. Ian Kirk, Kent DAT
19. John Harmer, Kent DAT
20. Louise Spencer, South Gloucester DAT
21. Joe Gillam, City of London DAT
22. Micky Hewish, New Generation Training Ltd.
23. Ben Wilson, Chartered Institute of Personnel Development (CIPD)
24. David Macintosh, London Drugs Policy Forum

Drug Users (Greater London)

Simon Hughes: To ask the Secretary of State for the Home Department what estimate he has made of the number of people in Greater London who take *(a)* heroin, *(b)* marijuana, *(c)* cocaine and *(d)* ecstasy. [162338]

Caroline Flint: In 2001–02 there were 4.6 million 16 to 59-year-olds living in London. Among this population the British Crime Survey estimates prevalence of illicit drug use was 0.1 per cent. for heroin, 14 per cent. for cannabis, 4.2 per cent. for cocaine and 3.5 per cent. for ecstasy.

Environmentally Sustainable Procurement

Mr. Sheerman: To ask the Secretary of State for the Home Department in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159152]

Fiona Mactaggart: Within the Home Office there are currently no examples of environmentally sustainable procurement strategies that have driven innovation in the design and supply of products. However, it is expected that the forthcoming procurement section of the Framework for Sustainable Development on the Government Estate will set Government—wide commitments for embedding sustainable development considerations in departmental procurement strategies. The Department will adopt the considerations in the framework as this will help to encourage environmental innovation in the design and supply of products.

The department supports the introduction of new environmental sustainable products that become available on the market and has adopted a positive stance to environmentally sustainable procurement in the following areas, recycled paper, green electricity, energy use, and recycling of redundant IT hardware.

EU Accession Countries

Mr. Oaten: To ask the Secretary of State for the Home Department what measures he plans to take to prevent an increase in illegal working following the expansion of the European Union on 1 May. [160211]

Beverley Hughes: The free movement of accession nationals will apply across the whole of the EU from May 1. The Government's policy is to welcome accession nationals coming here to work but not simply to claim benefits. This will prevent an increase in illegal working, ensuring that accession nationals who come here to work will do so legally, paying tax and national insurance rather than being forced into the sub-economy.

We have also taken steps to strengthen controls on illegal working. We announced on 23 February that we would introduce a registration scheme for workers from eight of the 10 countries joining the European Union on 1 May this year. We announced on 16 March measures to strengthen the law on the prevention of illegal working, section 8 of the Asylum and Immigration Act 1996.

The reform of section 8 will bring added clarity and security to the document checks employers must carry out on prospective employees to prevent the use of illegal labour, and the Immigration Service will continue to increase intelligence-led enforcement activity against illegal working. The workers registration scheme will allow these nationals access to our labour market in a monitored way, and will encourage those working here illegally to formalise their status and contribute to the formal economy. Employers will be required to check that a person has registered within 30 days of starting their employment.

EU Enlargement

Keith Vaz: To ask the Secretary of State for the Home Department how many accession countries nationals he expects to arrive in the UK between 1 May and 31 December 2004. [157351]

Beverley Hughes: A number of studies have been published which offer estimates of total net flows to the United Kingdom from the accession countries, but these do not of course take account of the measures we announced on 23 February and the steps we are taking to publicise them in the countries most concerned.

The registration scheme announced by my right hon. Friend the Home Secretary is designed to monitor the number of A-8 nationals registering as workers and collate information about the nature and location of the jobs they are doing.

Home Security Service

Harry Cohen: To ask the Secretary of State for the Home Department what plans he has to increase the resources available to *(a)* the Surveillance Commissioner, *(b)* the Information Commissioner and *(c)* other commissioners involved in supervising the powers and operations of the home security service; and if he will make a statement. [159419]

Mr. Blunkett: There are no plans to increase the resources available to the Chief Surveillance Commissioner, who does not have oversight of the Security Service. Nor are there plans at present to increase the resources available to either the Intelligence Services Commissioner or the Interception of Communications Commissioner for their work relating to the Security Service.

We are increasing the resources available to the Interception Commissioner for his work in overseeing access to communication data by public authorities including the security service. I believe that all are presently, but we keep this position under review.

The Information Commissioner's remit extends to the Security Service in so far as it is a data controller under the Data Protection Act 1998. Most of the information held by the Service falls under the national security exemption of that Act or the Freedom of Information Act 2000. My right hon. Friend the Secretary of State for Constitutional Affairs and Lord Chancellor, Lord Falconer of Thoroton, informs me that there are currently no plans to provide additional resources to the Information Commissioner.

Immigration Appeals

Mr. Lidington: To ask the Secretary of State for the Home Department what the waiting time was between an immigration appeal case being processed by the Appeals Processing Centre and the papers being sent out to the Immigration Appellate Authority on the latest date for which figures are available. [161975]

Beverley Hughes: Data on the average time between an immigration appeal case being processed by the Appeals Processing Centre and the papers being sent out to the Immigration Appellate Authority is unavailable and could be obtained only at disproportionate cost by examination of individual case records.

It is planned that performance against PSA targets relating to 2003–04, including those relating to the speed of processing, will be published in due course (once the data are judged sufficiently reliable) in the regular quarterly asylum statistics, a copy of which is available in the Library of the House and from the Home Office's Research Development and Statistics website: http://www.homeoffice.gov.uk/rds/immigration1.html.

Immigration Service

Lady Hermon: To ask the Secretary of State for the Home Department how many UK Immigration Service staff are based in Northern Ireland, broken down by grade; and in what locations they are based. [161796]

Beverley Hughes: A total of 13 staff are based in Northern Ireland. By grade: one Chief Immigration Officer, nine Immigration Officers (one of whom is part-time), two Assistant Immigration Officers and one administrative assistant.

All are based at the UK Immigration Service office at Belfast International airport.

Immigration Tribunals (Training)

Keith Vaz: To ask the Secretary of State for the Home Department what training is given to Home Office presentation officers before they appear before the Immigration Tribunal and Immigration Appeal Tribunal. [156096]

Beverley Hughes: A new Home Office presenting officer initially receives three weeks of classroom-based training. This includes technical, and skills-based elements. This is followed by a period of mentoring by an experienced presenting officer, at the end of which the trainee is ready to represent the Home Office alone in appeals heard before an independent Adjudicator of the Immigration Appellate Authority. Each presenting officer attends a period of consolidation training within three months of completion of initial training.

Senior presenting officers represent the Home Office in cases heard before the Immigration Appeal Tribunal. Where these staff have previously been experienced presenting officers, an analysis of their skills and abilities is conducted to identify specific areas which may require further training. Training will then be tailored to the individual and conducted by experienced mentors. Those with little or no experience of presenting in court follow a training and mentoring programme similar to that provided to presenting officers, although with more focus on the role of the Tribunal, before they appear alone before the Tribunal.

Intelligence and Security Service Tribunals

Mr. Maples: To ask the Secretary of State for the Home Department how many complaints were made to the *(a)* Security Services Tribunal and *(b)* Intelligence Services Tribunal in each of the last five years; and how many complaints to each tribunal were upheld in each year. [161779]

Mr. Blunkett: The information requested is available in the Annual Reports of the Security Service and Intelligence Services Commissioners that have been laid before Parliament. For convenience, the information is set out in the table.

Number of complaints

	Investigatory Powers Tribunal	*Security Service Tribunal*	*Intelligence Services Tribunal*
1999	—	22	5
	11	22	7
2000	(October to December)	(to end September)	(to end September)
2001	91	—	—
2002	130	—	—
2003	Not yet published	—	—

The Security Service and Intelligence Services Tribunals were subsumed into the Investigatory Powers Tribunal in 2000 under the Regulation of Investigatory Powers Act 2000. The figures for the Investigatory Powers Tribunal are not separated out and include complaints on interception of communications. No complaint to the tribunals has been upheld.

Mobile Phones

Mr. Sheerman: To ask the Secretary of State for the Home Department (1) how many people have been stopped by police for speaking on a mobile phone while driving since 1 September 2003; [162084]

(2) what percentage of people stopped by police for speaking on a mobile phone while driving have been cautioned. [162085]

Caroline Flint: Information on the number of people stopped by the police for speaking on a mobile phone while driving is not collected centrally.

The specific offence of driving while using a hand held mobile phone came into effect on 1 December 2003. Use of a hands free mobile phone is not an offence.

Formal cautions are rarely given for motoring offences. Data on police action (written warnings, fixed penalty notices and court proceedings) for the new offence of driving while using a hand held mobile telephone will not be available until the autumn of 2004.

Official Secrets Act

Glenda Jackson: To ask the Secretary of State for the Home Department when he intends to review the operation of the Official Secrets Act 1989. [158642]

Mr. Blunkett: I refer my hon. Friend to the reply that my right hon. Friend the Prime Minister gave the hon. Member for Aldridge-Brownhills (Mr. Shepherd) on 4 March 2004, *Official Report*, column 1093W.

Police

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department how many police officers there were in *(a)* Avon and Somerset and *(b)* Devon and Cornwall in (i) 1999–2000, (ii) 2000–01, (iii) 2001–02, (iv) 2002–03 and (v) 2003–04. [161871]

Ms Blears: The information requested is set out in the tables.

Table 1—Avon and Somerset Constabulary

Year (as at 31 March)	*Police strength*	*Police (support) staff*
1999–2000	2,934	1,436
2000–01	2,960	1,452
2001–02	3,096	1,611
2002–03	3,149	1,785
2003–04[1]	3,371	Not available

[1] Figure is for 31 December 2003

Table 2— Devon and Cornwall Constabulary

Year (as at 31 March)	*Police strength*	*Police (support) staff*
1999–2000	2,841	1,343
2000–01	2,934	1,453
2001–02	3,053	1,639
2002–03	3,202	1,834
2003–04[1]	3,279	Not available

[1] Figure is for 31 December 2003.

Police Cars

Mr. Swayne: To ask the Secretary of State for the Home Department how many *(a)* marked and *(b)* unmarked police cars there are in England and Wales. [159897]

Ms Blears: This information is not held centrally.

Police Officers

Mr. Lidington: To ask the Secretary of State for the Home Department how many policemen there were in *(a)* England and Wales and *(b)* England as per 1,000 population in each year since 1997. [160480]

Ms Blears: Information on number of officers to 100,000 population has been published annually since 1998 in Home Office Statistical Bulletins "Police Service Strength (England and Wales)". Information in the table is on the basis of published data and includes additional data on the number of male officers to 100,000 population.

Police officer strength per 100,000 population

	All officers		*Male officers*	
	England and Wales	*England*	*England and Wales*	*England*
March 1997	241.3	242.2	205.1	205.5
March 1998	239.9	240.7	202.2	202.5
March 1999	237.2	237.8	199.1	199.3
March 2000	232.6	233.0	194.2	194.3
March 2001	234.3	234.3	194.2	193.9
March 2002	240.4	240.2	197.4	197.0
March 2003[1]	252.3	252.4	205.4	205.3

[1] Uses comparable police strength, which excludes staff on career breaks or maternity/paternity leave.

Representations (MSPs)

Mr. Tom Harris: To ask the Secretary of State for the Home Department how many representations he has received from Members of the Scottish Parliament in relation to residents of Glasgow, Cathcart in the last year for which figures are available. [156649]

Caroline Flint: This information is not readily available and could be provided only at disproportionate cost.

Royal Pardons

Mr. Kilfoyle: To ask the Secretary of State for the Home Department pursuant to his answer of 23 February 2004, *Official Report*, column 250W, whether the figure of one free pardon in 1996 refers to *(a)* both people in the case of John Haase and Paul Bennett and *(b)* one of them. [159972]

Mr. Blunkett: The figure of one free pardon in 1996 did not relate to either John Haase or Paul Bennett. These cases are included in the figure of four given under the heading "Remission" in my answer of 23 February.

Temporary Staff

Matthew Taylor: To ask the Secretary of State for the Home Department how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158238]

Fiona Mactaggart: The Home Office does not maintain a central record of agency workers. Agency workers are appointed by agreement with individual units within the Department and the recruitment agencies supplying agency workers.

The information required could only be obtained at a disproportionate cost.

Travel Documents

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department when the results of the six-month trial into the requirement of carriers to copy passenger travel documents will be available. [159529]

Beverley Hughes: At the end of the six-month trial we will be discussing the results with carriers. A revised Regulatory Impact Assessment will then be published as soon as possible following further consultation with stakeholders.

Work Visas

Mr. Simmonds: To ask the Secretary of State for the Home Department how many work visas were issued to foreign nationals in each year since 1997. [157814]

Beverley Hughes: The number of work permits issued in each of the last five calendar years is set out in the following table:

	Number issued
1999	60,743
2000	88,651
2001	120,823
2002	136,151
2003	145,351

TRADE AND INDUSTRY

"The Impact of Increasing International Competition in Services"

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what conclusions she has drawn from the consultation on her paper "The Impact of Increasing International Competition in Services". [159647]

Ms Hewitt: My Department received over 40 responses to the consultation paper and they are now being analysed. A response to the consultation will be included as part of the Trade and Investment White Paper which we intend to publish in June.

Bankruptcies and Liquidations

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many *(a)* company compulsory liquidations and *(b)* personal bankruptcies there were in each quarter since 1999, broken down by region. [162214]

Mr. Sutcliffe: Table 1 records the number of company compulsory liquidations in England and Wales by region classified according to groupings of Official Receivers' Offices from 1999 to 2003.

Table 2 records the number of bankruptcies in England and Wales by region classified according to groupings of Official Receivers' Offices from 1999 to 2003.

BBC

Miss Kirkbride: To ask the Secretary of State for Trade and Industry when she next expects the Office of Fair Trading to examine the BBC's undertakings on the on-air promotions of BBC published magazines. [157484]

Estelle Morris: I have been asked to reply.

This is a matter for the Office of Fair Trading (OFT). The OFT considers annually its priorities for review of remedial Orders made and undertakings given under the monopoly provisions of the Fair Trading Act 1973. I understand that the OFT currently has no firm date in mind for the review of the BBC undertakings. Any information concerning a possible lack of compliance by the BBC with its undertakings should be passed to the OFT.

Call Centre Services

Mr. Tynan: To ask the Secretary of State for Trade and Industry what steps she is taking to improve the productivity of the call-centre industry in the UK. [161222]

Ms Hewitt: Call centres are used for a wide variety of roles across a broad range of commercial and industrial sectors and the public sector. In the light of this my Department has commissioned research to improve our understanding of the industry and the key factors contributing to its relative competitiveness. The study will help to identify whether there are any actions that can be taken by the industry or Government to address any constraints impacting on its productivity. We expect to publish a report on the study in April.

Common Agricultural Policy

Mr. Wills: To ask the Secretary of State for Trade and Industry (1) whether it is the Government's policy to secure progress in the World Trade talks by eliminating all agricultural export subsidies under the Common Agricultural Policy; and if she will make a statement; [161505]

(2) what assessment she has made of the impact on the World Trade talks of each of the options for reform of the Common Agricultural Policy sugar regime set out in the European Commission's working paper Reforming the European Union's sugar policy. [161506]

Mr. Mike O'Brien: The Government share the European Commission's own view that Option 1, involving extension of the present regime beyond 2006, is not sustainable. Options 2 and 3 both involve reductions in EU prices and production consistent with cuts in tariffs and export refunds which would send a positive message in the context of the current WTO round. The Government are, however, still considering which option represents the best way ahead, taking account of the range of interests involved, including the implications for developing countries.

Connectivity Technologies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what plans Oftel has to publish statistics on the take-up of connectivity technologies by micro businesses. [157208]

Mr. Timms: Oftel ceased to operate on 28 December. The Office of Communications (Ofcom) is now responsible for the functions formally undertaken by Oftel, operating under the teams of the Office of Communications Act 2002 and the Communications Act 2003. These are, therefore, matters for Ofcom and my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

Correspondence

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry when she will reply to the question tabled by the hon. Member for Eddisbury on 5 February, ref 153542. [162640]

Mr. Sutcliffe: The question was replied to on 18 March 2004.

Mr. Clappison: To ask the Secretary of State for Trade and Industry when she will answer the question from the hon. Member for Hertsmere tabled on 26 February, reference 157862. [161471]

Ms Hewitt *[holding answer 15 March 2004]:* The question will be answered today.

Electricity Network

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what the demand for electricity was on 10 March between 19.00 and 19.30; how much capacity was available; and if she will make a statement. [162202]

Mr. Timms: On 10 March, maximum demand between 19.00 and 19.30 was 49,012 MW. Peak demand for the day was 49,774 MW in the period from 18.30 to 19.00. Throughout these periods, generation capacity available in the market exceeded NGC's Reserve Margin of 3,500 MW.

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what discussions she has had with National Grid Transco about the level of spare capacity on 10 March between 19.00 and 19.30; and if she will make a statement. [162203]

Mr. Timms: DTI receives system notices from NGC as a matter of course. The system notice issued by NGC on the morning of 10 March was a NISM—Notice of Insufficient System Margin. NISMs are part of normal operations and are issued to signal to the market that additional reserve is desirable. The market responded to the 10 March NISM by making available additional generation capacity.

NGC confirmed to DTI officials that a NISM had been issued, and provided updates during the day as the situation improved until the NISM was cancelled.

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what recent discussions she has had with National Grid Transco about *(a)* the level of maintenance and *(b)* the state of repair of the electricity network; and if she will make a statement. [162204]

Mr. Timms: As part of the regular contacts Ministers and officials have with National Grid Transco, my right hon. Friend the Secretary of State met with Roger Urwin the company's Chief Executive on 9 February. A range of issues were discussed at the meeting including those arising from the Engineering Inspectorate's investigation following the major power failures last year. Maintenance and repair were factors that were looked at as part of the investigation.

International Thermonuclear Experimental Reactor

Bob Spink: To ask the Secretary of State for Trade and Industry what recent discussions she has had with partner countries on the location of the International Thermonuclear Experimental Reactor facility; and if she will make a statement on the current state of negotiations. [161943]

Ms Hewitt: I attended the 11 March 2004 Competitiveness Council discussion on the location of the International Thermonuclear Experimental Reactor. Europe remains committed to hosting the facility. Discussions between the partners are taking place as to how the site issue might be resolved.

National Minimum Wage

Mrs. Humble: To ask the Secretary of State for Trade and Industry how many people are receiving the minimum wage in the Blackpool, North and Fleetwood constituency. [157499]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the Blackpool, North and Fleetwood constituency. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999.

The DTI estimates that between 130,000 and 160,000 people in the North West stood to benefit from the increase in minimum wage rates in October 2003.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many workers in Crosby have benefited from the national minimum wage. [160520]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Crosby. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999.

The DTI estimates that between 130,000 and 160,000 people in the North West stood to benefit from the increase in minimum wage rates in October 2003.

Policy Veto

Norman Baker: To ask the Secretary of State for Trade and Industry whether her Department is able to exercise a veto in respect of policy proposals put forward by the Department for Environment, Food and Rural Affairs relating to the future of Nirex. [162369]

Mr. Timms: Decisions on the future of Nirex will be made on the basis of agreement across Government.

Project Funding

Mr. Colman: To ask the Secretary of State for Trade and Industry how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which her Department is responsible have been launched in each region in each of the last 10 years. [160959]

Ms Hewitt: My hon. Friend has not specified what he means by "projects" and my answer has been prepared on the basis that he is referring to construction, refurbishment or infrastructure projects in relation to central departmental administration. The following table sets out the information requested.

Year started	Projects[1]	Status	Region
1994–95	1	Private finance	L&SE
1997–98	1	State financed	L&SE
1998–99	1	PFI	L&SE
1998–99	1	State financed	L&SE
1998–99	1	State financed	L&SE
2001–02	2	State financed	L&SE

[1] Above £2 million capital value.

Mr. Colman: To ask the Secretary of State for Trade and Industry how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which her Department is responsible in each of the last 10 years, broken down by region. [160960]

Ms Hewitt: My hon. Friend has not specified what he means by "projects" and my answer has been prepared on the basis that he is referring to construction, refurbishment or infrastructure projects in relation to central departmental administration. The following table sets out the information as requested.

£ million

	Status		
	PFI/PPP		Solely state
Region—L&SE	Private	Public	financed
1994–95	65	—	—
1995–96	—	—	—
1996–97	—	—	—
1997–98	—	4.6	—
1998–99	21.4	8.8	0.7
1999–2000	35.4	0.3	4.2
2000–01	12.1	0.2	1.2
2001–02	6.5	0.7	2.8
2002–03	3.7	0.1	0.6
2003–04	0.3	0.2	0.4

Radioactive Waste

Mr. Kevan Jones: To ask the Secretary of State for Trade and Industry if the Government will assess the merits of creating a new radioactive waste management organisation, based on Nirex, as a statutory corporation. [158643]

Margaret Beckett: I have been asked to reply.

Government has established the independent Committee on Radioactive Waste Management (CoRWM) to recommend the best form of management for the UK's higher activity radioactive waste. We have also announced that we are looking at ways to make Nirex independent of industry and under greater Government control and we will make an announcement on this in due course.

Renewable Energy

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what steps she has taken to implement the recommendations of the G8 Renewable Energy Task Force to work with the other G8 members in expanding domestic renewable energy markets. [162045]

Mr. Timms: The UK is committed towards taking forward the key recommendations of the G8 Renewable Energy Task Force report (G8 RETF)—which is why at the World Summit on Sustainable Development, 2002 we launched an initiative for a global renewable energy and energy efficiency partnership (REEEP). Since then a small secretariat based in the Foreign and Commonwealth Office has been working with international Governments, business and other organisations including representatives of civil society to develop the REEEP as a means for enabling the delivery of the G8 REFT recommendations. The REEEP aims to trigger a step change in renewable energy markets and bring together stakeholders globally to provide the concerted action needed. For our part, the Government have the target of renewables providing 10 per cent. of our electricity and has put in place the Renewable Obligation as the main means of increasing and development of renewable energy domestically to meet this target. Through the REEEP, the UK is working with others, including various G8 members, to share and build upon good policy, regulatory and financing practise necessary to accelerate the market development of renewable energy.

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what grants her Department funds for the installation of *(a)* solar panels and *(b)* other forms of renewable energy for (i) private landlords who rent out their properties and (ii) private households. [162053]

Mr. Timms: Under the Major Photovoltaics Demonstration Programme, private landlords and private households can receive up to 50 per cent. of the cost of installation, subject to price cap. Please see website at www.solarpvgrants.co.uk

Under the Clear Skies initiative private householders can apply for grants for the following technologies; solar water heating, small wind, micro hydro, ground source heat pumps and biomass heating. The level of grant is different for each technology and is also subject to a price cap.

Landlords are not eligible to apply when the property where the installation takes place is let. However public landlords can apply under the community stream of Clear Skies and can receive up to 50 per cent. of the costs.

Further details can be found on the website at www.clear-skies.org

Secondments

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what proportion of her Department's senior civil servants went on one week's secondment in *(a)* the private sector and *(b)* a small or medium-sized enterprise between April 2002 and April 2003. [161148]

Ms Hewitt: To date 85 per cent. of my Department's Senior Civil Servants have either completed or have made firm arrangement to undertake a one week attachment with some having completed more than one. Attachments were undertaken at a wide range of organisations of which approximately 80 per cent. were in the private sector. We have not broken this down between large and small or medium-sized enterprises.

I have placed a copy of my Department's publication "Inside Out" in the Libraries of the House. As will be seen most of the case studies included in this are of people going to small or medium-sized enterprises.

Small Businesses

Mr. Clappison: To ask the Secretary of State for Trade and Industry if she will list the visits she has made to firms employing fewer than 50 workers since 1 January 2003. [157862]

Ms Hewitt: I undertake many visits to companies in the course of my Ministerial duties and as a Constituency MP and I have quarterly meetings with the Chair of the Small Business Council. My officials have checked the records and, since 1 January 2003, I have visited two companies with fewer than 50 employees, in my capacity as Secretary of State.

6 June 2003—Voice Connect Groby, Leicestershire

14 November 2003—Inspiration Healthcare, Beaumont Leys, Leicester

Records also show that during the same period, the Parliamentary Under-Secretary of State, Minister for Small Business and Enterprise has visited some 21 companies with fewer than 50 employees.

Uzbekistan

Tom Brake: To ask the Secretary of State for Trade and Industry what projects her Department is funding in Uzbekistan. [159847]

Mr. Mike O'Brien: None.

Websites

Matthew Taylor: To ask the Secretary of State for Trade and Industry what the cost in *(a)* financial and *(b)* other terms was in (i) each financial year since 1997 and (ii) 2003–04 until the latest date for which figures are available of (A) developing and (B) maintaining (1) her Department's website and (2) each website for which her Department is responsible; and how many (C) unique hosts and (D) hits there were in each month for each website in (iii) each financial year since 1997 and (iv) 2003–04 until the latest date for which numbers are available. [155856]

Ms Hewitt: For expenditure on and visitors to the Department's main website, I refer the hon. Member to the answers I gave the hon. Member for Buckingham (Mr. Bercow) on 10 April 2002, *Official Report*, column 393W and 24 March 2003, *Official Report*, column 27W. Information on other departmental and NDPB websites is not held centrally and could be produced only at disproportionate cost.

(C) The DTI website is hosted by our IT service partner and has been hosted centrally since it was set up. Other external hosts have on occasion been used for individual project or scheme websites. However, there is now a programme of activity to bring all of these sites onto the main DTI hosting platform.

Since Jan 2003, the number of unique visitors and hits to the DTI website have been:

	Unique users	*Hits*
February	322,232	24,108,693
March	375,384	27,198,493
April	367,607	26,314,327
May	357,743	23,398,885
June	324,062	21,707,116
July	337,485	22,941,249
August	321,670	19,980,667
September	345,555	21,335,241
October	377,785	22,611,172
November	408,669	22,036,418
December	307,932	18,619,093

Working Time Directive

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what action the Government are taking to ensure that the UK opt out from the EU Working Time Directive is not amended or abolished. [153542]

Mr. Sutcliffe: The opt out is important to the UK as it maintains flexible labour markets and gives choice to individuals to work longer hours if they so wish. I, and my colleagues, are working in Europe to stress the importance of the opt out to both employers and employees and to ensure that key decision makers understand the benefits of an approach which provides protection to workers who do not wish to work long hours without restricting those who wish to make a different choice.

Written Answers to Questions

Monday 22 March 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the most significant causes of mortality in the badger population in the UK are. [158019]

Mr. Bradshaw: Post-weaning starvation accounts for 50–70 per cent. of cub deaths per year, and is the single biggest natural mortality factor among British badgers. Starvation, especially during exceptionally dry years, may also account for a significant proportion of the adult population. Over half of all deaths in the Central Science Laboratory's Woodchester Park study area are attributable to collisions with motor vehicles, and it has been estimated that at least 37,500 badgers, out of an estimated British population of about 350,000, are killed in road traffic accidents each year. Motor vehicles, therefore, are probably the greatest unnatural cause of badger mortality.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 8 December 2003, *Official Report*, column 216W, on badgers, whether gassing of badger setts is permitted in the Republic of Ireland. [158086]

Mr. Bradshaw: Gassing is not permitted in the Republic of Ireland.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what numerical targets for the reduction in incidence of TB in cattle have been set for the next 10 years. [157955]

Mr. Bradshaw: This is a subject of our present consultation "Preparing for a new GB Strategy on Bovine Tuberculosis".

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs under what circumstances the Government would withdraw *(a)* wholly and *(b)* partly from intervention in the control of bovine TB. [157960]

Mr. Bradshaw: Our thoughts on the rationale for Government intervention on the control of bovine TB are set out in section 4.4 of the consultation document "Preparing for a new GB strategy on bovine tuberculosis" published on 9 February 2004.

We are currently seeking the views of interested parties. Question 4 (page 28) specifically asks for views on the extent of Government intervention in the control of bovine TB.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the requirement for public support for wildlife management schemes in order to reduce the incidence of TB in cattle; and what measures she has considered in order to gain such support. [158012]

Mr. Bradshaw: No such assessment is currently being made.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) at what level TB in badgers creates a significant risk to public health through *(a)* direct and *(b)* indirect transmission; [158014]

(2) at what level the incidence of TB in badgers starts to pose a significant risk to human health through indirect transmission via companion animals. [159073]

Mr. Bradshaw: The risk of direct transmission of bovine tuberculosis from badgers to humans is negligible. However, increased prevalence of TB in badgers would increase the potential for transmission of *Mycobacterium bovis* (the causative organism for bovine TB) to staff of Defra and its executive agencies who handle badger carcases. Full training is given to staff to minimise this risk.

The potential risk of indirect transmission from badger to humans through cattle is also low. This is because of the measures already in place including widespread pasteurisation of milk and regular TB testing of cattle herds.

There is no significant risk of companion animals contracting the disease from badgers. There are sporadic cases of cats contracting the disease in Great Britain. Most of these are thought to result from drinking unpasteurised milk, although there is anecdotal evidence of cats contracting the disease from wildlife.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what her definition is of a sustainable control policy for bovine TB; [158493]

(2) what factors constitute sustainability in the context of a 10-year vision for bovine TB. [157950]

Mr. Bradshaw: A sustainable control policy for bovine TB could be defined as one that takes into account and seeks to balance economic, social, environmental and public health considerations.

How the interests of wider society and the principles of sustainability should be recognised in a 10-year vision for bovine TB is a subject of the current consultation on "Preparing for a new GB strategy on bovine tuberculosis".

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what information she holds on the existence in countries other than the United Kingdom of suitable accommodation for testing badgers in pursuit of development of a vaccine. [158632]

Mr. Bradshaw: Such facilities exist in the Republic of Ireland to support the Irish badger TB vaccine programme. Defra's Veterinary Laboratories Agency has active research links with staff at the facility.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what progress is being made in the application of variable number

tandem repeats in subdividing known TB spoligotypes; and what the epidemiological significance of this work is. [158662]

Mr. Bradshaw: "M. bovis" isolates are now being typed by both spoligotyping and variable number tandem repeat techniques. The latter technique has successfully subdivided the most prevalent spoligotype in GB into at least 10 smaller groups. However, it has not divided other spoligotypes to such an extent. This further degree of differentiation, especially when it is found that there is geographical clustering of subgroups, will be useful in disease control by helping elucidate likely sources of infection.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the badger culling study conducted in the Republic of Ireland; [158663]

(2) what information with relevance to determining policy options for the control of cattle TB in the UK she has obtained from the Republic of Ireland in relation to badger control trials; [159054]

(3) when she expects the results of the badger culling study conducted in the Republic of Ireland to be published. [159131]

Mr. Bradshaw: The results from the Irish badger culling study have not yet been published, although I understand they are expected shortly. We will look closely at the results once published to establish what we can learn and apply to the situation in Great Britain.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the current state of progress of the TB99 survey is; and when she expects to publish results. [158665]

Mr. Bradshaw: An analysis of the pre-Foot and Mouth Disease (FMD) outbreak dataset is being finalised. An analysis of the 2002 dataset is on-going. Data from 2003 is still being collected (primarily outstanding control reports) and will be subject to analysis later in 2004. 2004 data is now being collected, concentrating on only three triplets within the Randomised Badger Culling Trial. A shorter, more focused epidemiological questionnaire is being prepared for use from 2005. The next report of the Independent Scientific group on Cattle TB will include some results from the analysis of the pre-FMD data and, possibly, the 2002 data.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the average cost of *(a)* processing a successful Section 10 application under the Protection of Badgers Act 1992 and *(b)* supervising its execution was in the last period for which figures are available. [158666]

Mr. Bradshaw: Defra staff who process and supervise licences record time to broad work areas. All time spent in connection with the Protection of Badgers Act 1992 by these staff is recorded under a single heading and the time input, which is required to calculate the costs you requested, cannot be accurately separated into processing and supervisory time. Furthermore, no distinction is made between time spent processing successful and unsuccessful applications.

During the financial year 2002–03 the Wildlife Management Team, who carry out the tasks specified in your questions *(a)* and *(b)* , spent a total of 11.5 staff years on work connected with the Protection of Badgers Act 1992. During this period the team determined 852 licence applications. The total staff costs, including travel and subsistence associated with this work were £334,050.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the size of the infective dose of M. bovis to cattle affects the *(a)* incubation period and *(b)* the severity of the disease. [158674]

Mr. Bradshaw: Experimental challenge work indicates that the size of M. bovis challenge affects the speed of disease development and the extent of pathology. It is likely that a similar relationship exists in natural infections.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what protocol has been adopted for the post mortem examination of reactor cattle for the purpose of detecting TB lesions. [158677]

Mr. Bradshaw: Post mortem examination (PME) of reactor cattle is carried out in most cases by the Meat Hygiene Service on behalf of Defra and the Devolved Administrations. Occasionally, examinations are conducted by Veterinary Officers of the State Veterinary Service, depending on locally agreed arrangements.

In any case, the protocols for PME of cattle in which TB is suspected are set out in Schedule 10, Part VIII of the Fresh Meat (Hygiene and Inspection) Regulations 1995 (as amended).

Additionally, chapters 4 (Section 8) and 14 (Section F) of the Meat Hygiene Service Operations Manual contain instructions on sampling and reporting requirements.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to her Department of the pre- and post-movement testing regime will be. [158679]

Mr. Bradshaw: The proposal as set out in the consultation document 'Preparing for a new GB strategy on bovine TB' is for pre-movement testing of cattle moving from one and two year testing herds to other herds. The resource implications of this proposal will be estimated as part of the consultation process which will involve discussions with veterinary and farming interests and Local Government.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what provision she has made for farmers who wish to undertake pre- and post-movement testing who are unable to secure the services of a veterinary surgeon for that purpose within the time frame required. [158680]

Mr. Bradshaw: It is too early in the consultation process to be able to determine whether or not this will be a problem. Detailed discussions will be held with the veterinary profession on resources.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the use of stop snares. [158685]

Mr. Bradshaw: The Wildlife and Countryside Act 1981 protects all wild birds and certain animals from killing and taking. Under Section 11 of the 1981 Act free running snares are permissible provided that the snare is not placed in such a way to allow injury to any animal listed on Schedule 6 of the 1981 Act, which includes badgers. Section 11(3) makes it an offence to set in position, or knowingly cause or permit to set in position, any snare which is of such a nature and so placed as to be calculated to cause bodily injury to any wild animal. The snare must also be inspected at least once every 24 hours, so as to avoid any animal held in the snare suffering unnecessarily through starvation or dehydration. All non-target species must be released from the snare.

Stop snares are not prohibited by the 1981 Act.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is necessary to ensure that potential immigrant populations are free from TB infection before culling TB-infected badgers within a specific locality if such a cull is to have epidemiological value. [158715]

Mr. Bradshaw: Such an approach would be of limited value as M. bovis is endemic in British badgers. It would also be impractical, given the limitations of current live diagnostic tests, and the likelihood that all relevant neighbouring badgers could not be tested.

Birds

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated population was of *(a)* corncrakes, *(b)* woodlarks, *(c)* nightjars, *(d)* skylarks, *(e)* curlews, *(f)* snipe, *(g)* redshanks and *(h)* yellowhammers in Great Britain in 1990; and what the current estimate of the population is. [158011]

Mr. Bradshaw: Curlew, snipe and redshank are amber-listed. All the rest are red-listed. Red list species are those that are Globally Threatened according to IUCN criteria; those whose population or range has declined rapidly in recent years; and those that have declined historically and not shown a substantial recent recovery. Amber list species are those with an unfavourable conservation status in Europe, those whose population or range has declined moderately in recent years; those whose population has declined historically but made a substantial recent recovery; rare breeders; and those with internationally important or localised populations. Species that fulfil none of the criteria are green-listed.

The estimation of the various bird populations is given as follows.

	NCC 1990/1988–91 atlas[1]	*Apep 2*[2]
Corncrake	575	589
Snipe	30,000	30,000
Curlew	35,500	No new national estimate available
Redshank	32,500	No new national estimate available
Nightjar	2,000	3,400
Woodlark	220	1,426–1,552
Skylark	2,000,000	1,700,000
Yellowhammer	1,200,000	790,000

[1] Figures from Stroud, D. A., Pienkowski, M. W. and Mudge, G. P. (1990). "Protecting internationally important bird sites: a review of the network of EC Special Protection Areas in Great Britain". Nature Conservancy Council, Peterborough. 230 pp except for skylark and yellowhammer which are taken from Gibbons, D. W., Reid, J. B. and Chapman, R. A. 1993. "The new atlas of breeding birds in Britain and Ireland: 1988–1991". T. and A. D. Poyser, London.

[2] Figures from working draft of the Avian Population Estimates Panel.

Pesticides

Mr. Chaytor: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of pesticide use on the United Kingdom's bee population; and if she will make a statement. [161483]

Alun Michael: Pesticides are approved on the basis that they will present minimal risk to non-target species, including bees.

Any suspected pesticide poisonings of bees are investigated through Defra's Wildlife Incident Investigation Scheme (WHS). This includes field inquiries, disease assessment of the bees submitted and residue analyses. Results are reported back to the regulatory authorities (the Pesticides Safety Directorate and the Health and Safety Executive) to inform the pesticide approval process.

Annual reports of bee incidents are included in reports of the Environmental Panel of the Advisory Committee on Pesticides entitled "Pesticide Poisoning of animals; investigations of suspected incidents in the United Kingdom". Copies of the latest report of investigations in 2002 are available in the House Library.

TRANSPORT

British Transport Police

Simon Hughes: To ask the Secretary of State for Transport how many British Transport Police officers are planned to be based in each British Transport Police force area for the period 2004–05. [162516]

Mr. McNulty: The British Transport Police have not finalised detailed assumptions of manpower numbers at area level for 2004–05. However, BTP expect the proportional split of manpower to be broadly the same as in the current year shown in the table with the exception of London Underground Area which will expand by 100.

Area	*2003–04*
Force Headquarters	131
London North	295
London South	314
London Underground	537
North Eastern	201
North Western	258
Western	279
Scotland	207
On secondment	29
Total	2,251

Disabled Parking

Ross Cranston: To ask the Secretary of State for Transport if he will place in the Library an update on progress made since December 2002 on taking forward responses to new representations made by the Disabled Persons Transport Advisory Committee on the blue badge scheme. [162586]

Mr. McNulty: Work is in hand to take forward the Disabled Persons Transport Advisory Committee's recommendations.

Changes need to be made to primary and secondary legislation, further research needs to be carried out and revised guidance issued to local authorities.

Primary Legislation

We have introduced a new clause in the Traffic Management Bill to give enforcement officers a power to inspect blue badges.

We are now looking for a suitable opportunity to remove the reference in law to "Institution" Badges and replace it with the less stigmatising term "organisation" Badges. We are also planning to implement reciprocity agreements with EU and ECMT member states for the recognition of disabled persons' parking badges.

Secondary Legislation

We are already working on these changes, including extending the Scheme to those under two and those with temporary disabilities. We expect to consult on draft regulations later in the year.

Research

We will be embarking on the following research projects in the next few months:

establishing the feasibility of a database of Blue Badge Holders, and looking at the Central London exemption from the Scheme.

Should a database prove feasible then we would aim to legislate in that area in due course.

We will also be carrying out research to examine the case for extending the scheme to certain other groups of disabled people. This will include a wide range of people including those with mental health problems, autism and those who are partially-sighted.

Rail Compensation

Mr. Hancock: To ask the Secretary of State for Transport pursuant to his answer of 10 March 2004, *Official Report*, column 1488W, on rail compensation, if he will list *(a)* the compensation arrangements for delays and cancellations, of each train operation company's Passenger Charter and *(b)* the date when each of the franchises is due for renewal. [162013]

Mr. McNulty: Passenger's Charters are available from individual train operating companies. The terms and conditions are based on the National Rail Conditions of Carriage. As a minimum, passengers travelling without a season ticket will be entitled to compensation to the value of 20 per cent. of the fare paid for the effective leg where the journey is delayed by more than an hour because of an operator's failure or infrastructure difficulties. Season ticket holders are compensated if performance over the period preceding renewal falls below the published standards.

The following table provides the expiry dates for each franchise:

	Expiry dates for each franchise
Anglia Railways	Ends April 2004
Arriva Trains Northern	Ends Autumn 2004
Arriva Trains Wales c2c	Ends May 2011
Central Trains	Ends April 2006
Chiltern	Ends December 2021
First Great Eastern	Ends April 2004
First Great Western	Ends February 2006
First North Western	Ends Autumn 2004
Gatwick Express	Ends May 2011
GNER	Ends April 2005
Island Line	February 2007
Merseyrail	July 2028
Midland Mainline	April 2008
ScotRail	Renewal planned in Autumn 2004
South Eastern Trains[1]	Planned to end in 2005
Silverlink	Ends October 2004
South Central	Ends December 2009
South West Trains	Ends February 2007
Thames Trains	Ends April 2006
Thameslink	Ends April 2006
TransPennine Express	Ends February 2012[2]
Virgin Crosscountry	Ends March 2012
Virgin West Coast	Ends March 2012
WAGN: West Anglia	Ends April 2004
WAGN: Great Northern	April 2006
Wessex	April 2006

[1] Operated for SRA under section 211 of the Transport Act 2000
[2] With an option to extend for up to a further five years

Railway Bridges (Salisbury)

Mr. Key: To ask the Secretary of State for Transport when railway bridge works at *(a)* Skew Bridge, Salisbury will be completed and *(b)* Broken Cross Bridge, Ford will be started. [162449]

Mr. McNulty: The Highways Agency, who are doing the A36 Skew Bridge improvement, anticipate the completion date for works as being 'late summer 2004'.

The anticipated start date for work on Broken Cross Bridge on the A338 near Ford is early May 2004. The works will comprise skid-resistant surfacing and some kerb realignment. The revised signing was undertaken shortly after the track incursion last November.

Romford Station

Mr. Rosindell: To ask the Secretary of State for Transport (1) how much it cost to maintain Romford railway station in the last financial year for which figures are available; [162459]

(2) how much public funding has been invested in *(a)* Romford and *(b)* Gidea Park railway stations in the last five years. [162460]

Mr. McNulty: The information is not held centrally. The day to day maintenance of railway stations is the responsibility of train operating companies whilst structural maintenance and improvements are the responsibility of Network Rail. No Government grants have been made to either Romford or Guidea Park stations.

HOUSE OF COMMONS COMMISSION

Fire Safety

Llew Smith: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what recent steps have been taken to provide fire safety training for *(a)* hon. Member's, *(b)* their staff and *(c)* officials of the House; and if he will make a statement on current fire safety arrangements in place for (i) the Palace of Westminster and (ii) other buildings of the parliamentary estate. [161920]

Sir Archy Kirkwood: Annual Fire safety training is available for all those who work on the parliamentary estate. This training is offered to Members and their staff but is compulsory for staff of the House. There is a rolling programme of training staff and contractors' personnel permanently employed on the estate. Since September 2003, 1,083 staff of the House have been trained. 72 of these have also been trained as evacuation marshals.

Between June and November 2003 a total of 45 fire safety training sessions were available to Members and their staff; 284 Members and approximately 525 members of their staff were invited to attend. However, only one Member and 30 Members' staff actually took part.

In an effort to improve this very low response from Members and their staff, the Fire Safety Manager has made a special effort to publicise training and encourage attendance, beginning in 1 Parliament Street. So far this month, eight training sessions have been made available to the 60 Members and 80 staff with offices there. Take-up has slightly improved but is still disappointing: four Members and 28 of their staff have been trained. Eight more sessions are being held this week, and the programme will be extended to the other outbuildings as well as the Palace.

Initial fire safety training is given to staff of the House during the Health and Safety element of mandatory induction courses. Discussions are taking place with the aim of including similar training in the induction programme for Members' staff.

Fire evacuation drills in the Palace of Westminster and all other buildings on the parliamentary estate also form part of fire safety training. Drills were conducted in every building on the parliamentary estate during the week beginning 15 December 2003. Everybody in the building at the time of a drill is expected to take part and I would encourage Members to set the example for their staff and evacuate the building during a fire drill.

Fire safety training is essential to the security of everyone on the Parliamentary Estate. I strongly encourage Members and their staff to attend training when they are invited to do so.

INTERNATIONAL DEVELOPMENT

Eritrea

Tony Cunningham: To ask the Secretary of State for International Development what help the Department is giving to Eritrea, with particular reference to measures to overcome the effects of recent conflict. [162905]

Hilary Benn: Agreed UK contributions for Eritrea from the beginning of 2003 are:

		£
Food Aid—World Food Programme	From 1 March 2004	1,000,000
Food Aid—World Food Programme	From 26 March 2003	1,000,000
Emergency Nutrition—Dutch Interchurch Aid	From 23 June 2003	550,000
International Committee of the Red Cross	From 15 March 2004	500,000
Emergency Nutrition—UNICEF	From 9 December 2003	500,000
Health and Nutrition—UNICEF	From 1 March 2003	500,000
International Committee of the Red Cross	From 1 March 2003	500,000
Catholic Fund for Overseas Development	From 21 May 2003	200,000

The conflict with Ethiopia is a contributory factor (poor rainfall being another) to food insecurity that has made food aid and specialised health and nutritional Interventions necessary. The support to the ICRC is more specifically targeted on addressing the effects of conflict.

We and others in the international community are continuing to make clear to both parties that the Boundary Commission's decision is final and binding. We are also urging the two parties to engage in dialogue on all the issues separating them. Only through normalising relations can a lasting peace be secured and we therefore call on both Ethiopia and Eritrea to cooperate with the recently-appointed United Nations Special Envoy, Lloyd Axworthy.

Guinea

Bob Spink: To ask the Secretary of State for International Development if he will make it his policy to raise with the international community the need to deal with the malaria problem in the Nzerekore region in Guinea, with particular reference to the Kouankan and other refugee camps; and if he will make a statement. [162194]

Hilary Benn: UNICEF is taking the lead on action on malaria in refugee camps in Guinea where, according to the UN, malaria is the second biggest cause of death amongst under-5's.

The UNICEF emergency health programme includes provision of insecticide-impregnated bed nets and training in malaria control for 200 health workers. We have recently contributed £500,000 to UNICEF for its emergency health programme in Guinea.

TRADE AND INDUSTRY

Anti-competitive Practices

Mr. Swayne: To ask the Secretary of State for Trade and Industry what representations have been received regarding anti-competitive practices associated with the distribution of bounty bags to new mothers through NHS facilities; and if she will make a statement. [160982]

Dr. Ladyman: I have been asked to reply.

No representations have been received regarding anti-competitive practices associated with the distribution of bounty packs to new mothers through National Health Service facilities.

BNFL American Assets

Norman Baker: To ask the Secretary of State for Trade and Industry what estimate she has made of the maximum liability to the public purse arising from BNFL's United States assets. [162368]

Mr. Timms *[holding answer 18 March 2004]:* The performance of BNFL's US businesses has been detailed in successive BNFL Annual Reports. The department is now working with the company to minimise its exposure to further risks in the US clean-up market. Until that process is complete it would be premature to speculate on any residual liability that there might be.

Call Centres

Mr. Hammond: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of UK call centre employees working for employers who are using VAT grouping arrangements to avoid the ultimate client incurring irrecoverable VAT charges on call centre services. [161467]

Ms Hewitt: My Department has made no estimate of the number of UK call centre employees working for employers who are using VAT grouping arrangements. VAT policy is a matter for Treasury Ministers.

Defence Knowledge Transfer

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if she will make a statement on defence knowledge transfer to civil manufacturing. [157714]

Mr. Ingram: The Government is committed to assisting industry to maintain and increase its competitiveness for the wider economic benefits to this country. Transfer of defence knowledge to civil manufacturing is a key facet of this commitment.

The MOD has a key role in delivering the Government's agenda on promoting wealth creation through the science base and has been active in technology transfer. Changes in the way Science and Technology is funded following the privatisation of QinetiQ will result in defence research investment reaching commercial markets. In addition, The Defence Science and Technology Laboratory (Dstl) is involved with a number of joint ventures which contribute to knowledge and technology transfer. The setting up of the Defence Diversification Agency in 1998 also helped work towards greater two-way technology transfer between the defence and civil sectors.

Getting mature technologies in to the supplier base at the right time to support our acquisition plans is one of the key outputs of the way the MOD manages its research programme.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Trade and Industry how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158162]

Ms Hewitt: On 1 March 2004 there were 47 members of the Government Information and Communications Service (GICS) working in the DTI Strategy Unit's Communications Directorate. The figure includes 19 Press Officers. Other GICS staff worked in Marketing, Internal Communications, Strategic Communications and internet/new media teams.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister, including communications activity.

Matthew Taylor: To ask the Secretary of State for Trade and Industry what the total expenditure on communications for her Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158209]

Ms Hewitt: The 2003–04 running costs of the DTI Strategy Unit's Communications Directorate is expected to be £2.9 million. The detailed information is not held in the form requested and could only be provided at disproportionate cost.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

Fair Trade Products

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what steps she is taking to encourage Government departments and agencies to offer fair trade products in their restaurants and cafeterias. [162082]

Ms Hewitt: It is government policy to promote Fairtrade products, against the background of the need to obtain best value for money, the EC procurement rules and the Department's objectives. Within these guidelines the Department and its Agencies are committed to supporting ethical trading wherever possible.

Since September 2002, I have ensured that Fairtrade tea and coffee are available throughout DTI HQ, and many of my Cabinet colleagues have done likewise. I am pleased to announce that Government departmental restaurants and cafeterias are continually adding to their range of Fairtrade products. In addition to Fairtrade coffee and tea, staff, visitors, and ministers can now enjoy Fairtrade cereal and chocolate bars, and Fairtrade hot chocolate, sweetened with Fairtrade sugar.

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what steps she is taking to encourage more companies to participate in fair trade practices. [162083]

Ms Hewitt: The Government has worked hard to encourage companies to participate in fair trade practices. The Government, through DFID, has provided £0.5 million in support for UK development awareness and education campaigns centred around fair trade over the past two years. This includes £120,000 to the media campaigns of the Fairtrade Foundation to raise both business and consumer awareness of how fair trade benefits poor producers and to increase the exposure of products carrying the Fairtrade mark.

Government support for fair trade is part of a wider programme designed to mainstream social responsible business practices in the corporate sector. The Government, through DfID, funds the Ethical Trading Initiative (ETI); £1.3 million over the last three years. The ETI, an alliance of Trade Unions, NGOs and private companies, seeks to promote good practices in the implementation of labour related codes of conduct throughout the supply chain.

Miners' Compensation

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry how long on average former miners *(a)* represented and *(b)* not represented by a trade union have waited for their respiratory claims to be resolved. [161339]

Nigel Griffiths: The Department does not hold these figures.

Post Office Closures

Mr. Hinchliffe: To ask the Secretary of State for Trade and Industry if she will instruct Post Office Ltd. to publish a profile of the select teams of personnel involved in walking between each sub-post office proposed for closure in the Wakefield area plan and the named alternative branch indicating how many of the personnel were *(a)* wheelchair users, *(b)* physically disabled, *(c)* aged between 65 to 75 years, *(d)* aged between 75 to 85 years, *(e)* aged over 90 years and *(f)* wheeling pushchairs and accompanied by young children. [162383]

Mr. Timms *[holding answer 18 March 2004]:* No. Post Office Ltd. personnel involved in drawing up closure proposals under the urban reinvention programme undertake a detailed on the ground study assessment of the accessibility of the alternative offices identified as the main receiving branches and their facilities for the disabled. This assessment includes the nature of the terrain between the branches, the distance of the journey on foot, including how busy the roads are, where there are pedestrian crossings, traffic lights or underpasses where these need to be crossed. Access by public transport, predominantly by bus, is also checked giving route numbers and distance of stops from the closing and receiving branches. Availability of parking is also checked. The offices in Wakefield scheduled to close have an alternative office within 0.5–0.6 miles accessible by bus.

Mr. Hinchliffe: To ask the Secretary of State for Trade and Industry what steps she takes to monitor the factual accuracy of information upon which proposals to close sub-post offices are based; what steps have been taken to evaluate the factual accuracy of the Post Office area plan for Wakefield; and if she will make a statement. [162379]

Mr. Timms *[holding answer 18 March 2004]:* The public consultation process enables any factual inaccuracies in the proposals to be identified and Postwatch closely monitors every individual closure proposal including factual accuracy of information from a consumer perspective.

Mr. Hinchliffe: To ask the Secretary of State for Trade and Industry (1) what assessment has been made of the change in the number of road journeys consequent on the proposal to close sub-post offices within the Wakefield metropolitan district; [162380]

(2) what assessment has been made of the health and social care implications of the proposal to close sub-post offices within the Wakefield metropolitan district; [162381]

(3) what steps were taken during the development of the Post Office area plan for Wakefield to assess the consequences of the plan for levels of road accidents and fatalities involving pedestrians. [162382]

Mr. Timms *[holding answers 18 March 2004]:* These are operational matters for Post Office Ltd. and I have asked the Chief Executive to respond direct to my hon. Friend.

Postwatch Scotland

Annabelle Ewing: To ask the Secretary of State for Trade and Industry in how many cases Postwatch Scotland has lodged an objection to a proposed post office closure in the context of the Urban Reinvention Programme; and in how many cases Postwatch Scotland has withdrawn such an objection. [161459]

Mr. Timms: These are operational matters for Postwatch and I have asked the Chairman of Postwatch Scotland to respond direct to the hon. Member.

Regional Development Agencies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many *(a)* new and

(b) safeguarded jobs are directly attributable to each regional development agency for each year since their inception. [157201]

Jacqui Smith: When England's Regional Development Agencies (RDAs) were established in April 1999, they inherited eleven different programmes, each with their own budgets, objectives and output definitions. So the figures for the three years 1999–2000 to 2001–2002 were reported using a number of different definitions. The following table shows the total number of jobs directly attributable to RDA activity for each of the first three years since their inception. The figures are not split between new and safeguarded jobs.

	1999–2000	*2000–01*	*2001–02*
Advantage West Midlands	25,305	12,792	8,587
East of England Development Agency	2,615	3,019	1,546
East Midlands Development Agency	10,092	11,243	9,321
London Development Agency[1]	N/a	N/a	13,007
Northwest Development Agency	33,340	34, 685	29,523
ONE NorthEast	11,695	15,369	18,786
South East England Development Agency	8,310	16,476	3,063
South West of England Regional Development Agency	3,547	21,766	17,965
Yorkshire Forward	15,720	21,282	14,788

The basis for reporting outputs changed with the introduction of the Single Programme budget in April 2002, when a common targetry framework was introduced, together with a set of agreed outputs for each RDA and common output definitions. Target levels are set through the corporate planning process and each RDA has the flexibility to set targets within the common framework based on the priorities for its region. The following table shows the total number of jobs directly attributable to RDA activity in 2002–03 against the Corporate Plan targets. This information has been previously published -I refer the hon. Member to the statement I made on 7 July 2003. The figures are not split between new and safeguarded jobs.

	2002–2003 Target	*2002–2003 Achievement*
Advantage West Midlands	13,626	13,416
East of England Development Agency	953	2,177
East Midlands Development Agency	5,150	2,940
London Development Agency	14,450	13,873
Northwest Development Agency	14,532	16,764
ONE NorthEast	7,449	7,774
South East England Development Agency	2,066	3,107
South West of England Regional Development Agency	6,450	6,508
Yorkshire Forward	10,500	10,888

All of the above information is taken from each RDA's Annual Report and Accounts, which the eight RDAs outside London are required to produce, and are laid in Parliament. Copies are available in the Libraries of the House. The London Development Agency also produces an Annual Report and Accounts, which is not required to be laid in Parliament, but is available on the LDA's website.

[1] The London Development Agency was not established until July 2000 and the LDA first reported outputs in 2001–2002.

Regulations

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many regulations were *(a)* removed and *(b)* reformed pursuant to the Deregulation and Contracting Out Act 1994 in each year since 1994; and if she will make a statement. [160142]

Nigel Griffiths: 52 Deregulation Orders were made under the Deregulation and Contracting Out Act between 1994 and 2001, when the Act was superseded by the Regulatory Reform Act. Each of the Orders made under the 1994 Act amended an individual Act of Parliament to remove regulatory burdens.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry pursuant to the answer of 3 March, *Official Report*, columns 963–64W, on business regulation, what the findings were of the 2002 Small Business Service research into the impact of the Climate Change Levy on small businesses; and what specific measures were introduced to reduce the regulatory burden for small businesses as a result. [161549]

Nigel Griffiths: The reports overall conclusion was as follows:

'In general the impact of the CCL of SMEs does not appear to be significant, compared with other general business concerns.'

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much was spent on regulatory issues emanating from the EU in each year between 1997 and 2007; and how much full-time equivalent staff time in her Department was spent on EU regulations in each year. [161516]

Nigel Griffiths: The Department does not record the cost of or the number of staff required for negotiating and implementing regulatory issues emanating from Europe. The length of negotiation and implementation varies enormously from policy to policy and it would be hard to obtain a meaningful figure. Collating such figures would incur a disproportionate cost.

Renewable Energy

Norman Baker: To ask the Secretary of State for Trade and Industry what mechanisms are in place to ensure that electricity supply companies purporting to supply set percentages from renewable sources actually do so. [162370]

Mr. Timms *[holding answer 18 March 2004]:* Licensed electricity suppliers are required to provide Ofgem with evidence of their compliance with the Renewables Obligation by a specified date after the end of each Obligation period.

Ofgem implements a number of measures to assess the accuracy of the information received.

Mr. Evans: To ask the Secretary of State for Trade and Industry what recent assessment she has made of the ability of renewable energy sources to meet an increase in demand for electricity over the next decade. [161812]

Mr. Timms: All estimates of the ability of renewable sources to meet a part of future supply take account of predicted changes in future energy demand.

The target of 10 per cent. electricity consumption from renewable sources by 2010 was supported by detailed modelling for the Energy White Paper. This accounted for a future increase in electricity consumption of approximately 4.3 per cent. from 2002, on the basis of increased demand but also increased energy efficiency. Therefore the target is based upon 10 per cent. of predicted consumption in 2010 rather than 10 per cent. of consumption in 2002.

Beyond this it is our aspiration that 20 per cent. of total electricity consumption will come from renewable sources by 2020. The recently completed 'Renewables Innovation Review' provided assessments of the potential future contributions of various technologies. This will help inform the review of our primary support mechanism, the 'Renewables Obligation', in 2005–06 to ensure that our targets are met, accounting for changes in future energy demand.

Science/Technology (Promotion)

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what progress has been made in joint working with the Foreign and Commonwealth Office on the promotion of UK science, engineering and technology. [159007]

Ms Hewitt: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Middlesborough South and East Cleveland (Dr. Kumar) on 20 November 2003, *Official Report*, column 1443W.

Subsequently, my Department's Innovation Report has been published and I am confident that the measures we have set out in Chapter 7, 'Global Links', of the Report will lead to wider co-ordination on the international innovation agenda across Government which builds on the work already undertaken by the Chief Scientific Adviser's Committee (CSAIC) chaired by the Chief Scientific Adviser, Sir David King, and the International Science Technology Trade and Investment Committee (ISTTIC) chaired by the UKTI Chief Executive, Sir Stephen Brown.

The report also identifies specific initiatives, such as 'Global Watch', which will be expanded to help raise the international competitiveness of UK industry and commerce.

Small Businesses

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will place a copy of the Small Business Survey 2003 in the Library. [161149]

Nigel Griffiths: A copy of the final report of the Small Business Survey 2003 will be placed in the Libraries of the House, when the report is published by the Small Business Service in summer 2004.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry (1) how many proposed regulations have been aborted as a result of the Small Firms Impact Test; [161176]

(2) if she will list the proposed regulations which have been aborted as a result of the Small Firms Impact Test. [161513]

Nigel Griffiths: The Department does not keep records on the reasons for a policy proposal not proceeding.

Vibration White Finger

Mr. David: To ask the Secretary of State for Trade and Industry what progress is being made to resolve outstanding vibration white finger claims for compensation from former employees of British Coal who have suffered from pre-1975 exposure to vibratory tools and who were employed in a Group 3 occupation. [161065]

Nigel Griffiths: There have been lengthy discussions, between the Department and the Claimants Solicitors Group, in an attempt to resolve the areas of pre 1975 exposure to vibratory tools and the treatment of low levels of exposure (which falls below the level identified by the Court of Appeal as that which makes British Coal liable).

Both the Department and the CSG accept that further discussions are unlikely to settle the issues and have invited the Court to rule on these areas. The court hearing has been listed for 15 and 16 April 2004.

HOME DEPARTMENT

Sexual Offences Act

11. **Sandra Gidley:** To ask the Secretary of State for the Home Department what additional resources have been allocated to police forces to bring prosecutions for internet grooming under the Sexual Offences Act 2003. [162529]

Paul Goggins: The grooming offence in section 15 of the Sexual Offences Act 2003 will enable the authorities to intervene before the sexual abuse of a child takes place.

Between 2000–01 and 2004–05 the policing provision for England and Wales increased by £2.3 billion. While child protection is a priority within the National Policing Plan it is for the police themselves to decide how this additional money is allocated.

Identity Cards

12. **Ross Cranston:** To ask the Secretary of State for the Home Department what assessment he has made of the effects of a national identity card scheme on the problem of illegal working. [162530]

Mr. Blunkett: Identity cards will provide a clear indication of a person's identity and in the case of foreign nationals their entitlement to work. They will give the vast majority of legitimate employers a simpler and more reliable way of complying with the law. Cards will also make enforcement activity against unscrupulous employers more effective.

Anti-social Behaviour

13. **Jane Griffiths:** To ask the Secretary of State for the Home Department what plans his Department has to support the gating of alleys to tackle anti-social behaviour. [162531]

Fiona Mactaggart: On 5 March we launched "Operation Gate it"—a new fund to tackle anti-social behaviour in alleyways. This fund is in partnership with Groundwork UK and the British Trust for Conservation Volunteers. It will run from April this year to March 2006.

Gating is just one of many solutions to these problems however and will not always be appropriate. So, through "Gate It", local communities will be able to bid for lighting/landscaping/CCTV funding—as well as gates.

Nationality, Immigration and Asylum Act

15. **Mr. Gerrard:** To ask the Secretary of State for the Home Department if he will make a statement on the operation of section 55 of the Nationality, Immigration and Asylum Act 2002. [162533]

Beverley Hughes: Section 55 of the Nationality Immigration and Asylum Act 2002 prevents the National Asylum Support Service from providing support to applicants who do not apply for asylum as soon as reasonably practicable after their arrival in the UK. It is designed to tackle abuse of the asylum system and is one of a package of measures which has contributed to the substantial reduction in asylum claims.

Street Crime (Castle Point)

16. **Bob Spink:** To ask the Secretary of State for the Home Department if he will visit Canvey Island to discuss levels of street crime. [162534]

Ms Blears: The Home Secretary has no immediate plans to do so.

Internet Pornography

18. **Tom Brake:** To ask the Secretary of State for the Home Department what action he is taking to tackle websites hosted outside the UK which contain child pornography and other images of abuse. [162536]

Paul Goggins: UK law enforcement agencies make every effort to take down sites hosting illegal images, prosecute those responsible, and disrupt supporting functions such as payment mechanisms.

The Government continue to discuss these issues with our international partners, including during the Home Secretary's recent visit to the US.

Immigration (Eastern Europe)

20. **Mr. Gray:** To ask the Secretary of State for the Home Department how many immigrants came to the UK from Eastern Europe in the last 12 months. [162538]

Beverley Hughes: Estimates of total international migration produced by the Office for National Statistics are compiled from a range of survey and administrative sources. The Office for National Statistics (ONS) is unable to provide a reliable estimate of the immigration of Eastern European nationals to the UK for the latest year for which data are available (2002), as the low sample sizes in the main survey source (the International Passenger Survey) result in such an estimate being subject to a high degree of error. For the last three years, 2000–02, combined it is estimated that 49,900 Eastern European citizens migrated to the UK.

Police (CBRN Training)

21. **Mr. Key:** To ask the Secretary of State for the Home Department how many police officers, and from how many constabularies, have been trained at the police Nuclear, Chemical, Biological and Radiological Establishment at Winterbourne Gunner. [162540]

Ms Blears: Over 5,000 UK police officers nationally have now received training in responding to a CBRN incident. The majority of these have been trained by the Police National CBRN Centre. The numbers of officers trained consist of police personnel from all UK police forces, including the Metropolitan Police who have their own training facility.

Prisons

22. **Mr. Swire:** To ask the Secretary of State for the Home Department what meetings he has had with Prison Service managers to discuss the situation in prisons. [162541]

Paul Goggins: As Minister for Correctional Services I meet with Prison Service managers on a very regular basis and discuss a wide range of issues relating to the situation in prisons.

Asylum Seekers

Julie Morgan: To ask the Secretary of State for the Home Department how many asylum seekers from Zimbabwe were refused asylum in the UK *(a)* in 2002–03 and *(b)* since April 2003; and how many failed asylum seekers have been deported to Zimbabwe in each period. [157437]

Beverley Hughes: The following table shows the number of asylum applications and initial decisions for nationals of Zimbabwe (excluding dependants) in *(a)* 2002–03 and *(b)* for each month between April 2003 and December 2003, the latest period for which published data are available. Initial decisions do not necessarily relate to applications received in the same period.

Applications received for asylum in the United Kingdom, excluding dependants, and initial decisions[1,2,3], nationals of Zimbabwe
Principal applicants

		Initial decisions considered under normal procedures					
	Applications received	*Total initial decisions*	*Grants of asylum*	*Grants of ELR*	*Grants of HP*	*Grants of DL*	*Total refusals*
2002–03	7,220	6,405	2,385	85	n/a	n/a	3,930
April 2003	335	310	90	n/a	—	5	215
May 2003	230	430	95	n/a	5	*	330
June 2003	250	405	90	n/a	—	*	315
July 2003	285	285	50	n/a	—	5	230
August 2003	185	270	35	n/a	—	*	235
September 2003	240	345	50	n/a	—	5	290
October 2003	265	335	55	n/a	—	—	280
November 2003	220	360	40	n/a	—	5	320
December 2003	200	250	25	n/a	—	*	230

[1] Figures are provisional and rounded to the nearest five, with * = 1 or 2.
[2] Decision figures do not necessarily relate to applications received in the same period.
[3] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.

The following table shows the available data, for outcomes of adjudicator appeals at the Immigration Appellate Authority (IAA) for nationals of Zimbabwe in *(a)* 2002–03 and *(b)* for each month between April 2003 and December 2003, the latest period for which published data is available. Appeals may relate to initial decisions made in earlier periods. Corresponding information on appeals to the Immigration Appellate Tribunal (IAT) relating to Zimbabwean nationals (including appeals made by the Secretary of State) is not available and could be produced only at disproportionate cost by examination of individual case files.

Outcome of appeals[1,2] determined by adjudicators of the Immigration Appellate Authority, excluding dependants, nationals of Zimbabwe
Number of principal appellants

	Appeals determined by adjudicators						
		Allowed		*Dismissed*		*Withdrawn*	
	Total determined	*Total*	*As percentage of determined*	*Total*	*As percentage of determined*	*Total*	*As percentage of determined*
2002–03	2,785	1,010	36	1,635	59	140	5
April 2003	380	115	31	250	66	10	3
May 2003	405	115	29	265	65	25	6
June 2003	315	95	30	205	64	20	6
July 2003	405	145	36	245	60	15	4
August 2003	305	70	23	220	72	15	5
September 2003	400	105	26	280	70	15	4
October 2003	375	105	28	260	69	15	3
November 2003	345	80	23	250	72	15	5
December 2003	330	80	24	245	74	10	2

[1] Provisional figures rounded to nearest five (except percentages), with '*' = 1 or 2. Figures may not add up due to independent rounding. Data on appeal outcomes by nationality in this table are derived from Immigration and Nationality Directorate electronic sources.
[2] Figures include cases withdrawn by the Home Office, as well as the appellant.

Deportations are a specific subset of removals alongside persons subject to administrative removal, removal due to illegal entry action or those refused entry at port and subsequently removed.

Estimates of the number of nationals of Zimbabwe who had sought asylum at some stage and who were removed from the UK between April 2002 and September 2003 (the latest date for which figures are available) are shown in the following table. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, persons leaving under Assisted Voluntary Returns Programmes run by the International Organisation for Migration and removals to a safe third country.

Removals and voluntary[1] departures of principal asylum applicants (excluding dependants), nationals of Zimbabwe[2,3,4]

	Number
2002–03	100
April to June 2003	15
July to September 2003	20

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under Assisted voluntary return programmes run by the International Organisation for Migration, and removals on safe third country grounds.
[2] Figures rounded to the nearest five and may not sum to total due to rounding.
[3] Data have been estimated due to data quality issues.
[4] Provisional figures.

Removal of failed asylum seekers to Zimbabwe was suspended on 15 January 2002; we did not at the time consider that it was unsafe to return them but in view of the rapidly changing circumstances it was appropriate not to enforce returns. The suspension has been maintained since that date and although we still consider it would not be unsafe to return failed asylum seekers there, enforced returns would be inappropriate in the wider context of the Government's position on Zimbabwe. An exception to the suspension policy in cases where a failed asylum seeker has a serious criminal record or their presence in the United Kingdom is not otherwise conducive to the public good was announced on 5 February 2004. In such circumstances enforced return to Zimbabwe would be considered by Ministers on a case by case basis.

Information on asylum applications, initial decisions, appeals and removals are published quarterly. The current publication covering the fourth quarter of 2003, and provisional 2003 data, are available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html. Data on the nationality of removals are published a quarter in arrears. Data for the final quarter of 2003 will be published at the end of May.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for the Home Department how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158170]

Fiona Mactaggart: The Home Office employs four Special Advisers. The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity.

Details of other staff employed to work in the communications field are as follows:

	Government Information and Communication Service staff	*Press Officers*	*Others*
Communication Directorate	[1]86	1	[2]167
Research, Development and Statistics Directorate	0	0	7
Total	86	1	174

[1] Press Officers are also GICS members and have been included in the Government Information Communication Service staff figure. There is only one non-GICS member of staff on secondment to the Press Office.
[2] Includes six staff employed in policy units and 76 in customer communications.

Details of the numbers of staff employed in the communication field in the wider Home Office are not held centrally and could not be collected without disproportionate cost.

Matthew Taylor: To ask the Secretary of State for the Home Department what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communications Service staff and *(b)* other staff, broken down by (i) press officers.(ii) special advisers and (iii) others. [158202]

Fiona Mactaggart: Expenditure on communications in 2003–04 within the Home Office's Communication and Research, Development and Statistics Directorates is estimated as follows:

£

	Government Information and Communication Service staff	*Press Officers*	*Other*
Communication Directorate	3,427	25,000	[1]4,031,000
Research Development and Statistics Directorate	0	0	111,000
Total	3,427	25,000	4,142,000

[1] Includes costs of six staff employed in policy units and 76 in customer communications.

Details of expenditure on communications beyond these two directorates are not held centrally and could not be collected without disproportionate cost.

The Home Office employs four Special Advisers. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 20003–04 will be published in due course.

Youth Justice Board

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department how many complaints his Department has received about the operation of the Youth Justice Board since its inception. [158840]

Paul Goggins: I am not aware of any complaints having been received about the operation of the Youth Justice Board since its inception.

Departmental Scientific Adviser

Dr. Iddon: To ask the Secretary of State for the Home Department whether his Department has a chief scientific adviser. [162476]

Fiona Mactaggart: Professor Paul Wiles was appointed Home Office Chief Scientific Adviser in November 2002 and reports directly to the Permanent Secretary.

The key functions of the Chief Scientific Officer are:

To be the senior adviser to Ministers and the Group Executive Board on all matters concerning science.

To provide assurance that the overall scientific work of the Department is managed so that it serves the Home Office's purpose, aims and delivery.

To ensure that the Department makes appropriate use of the external research community: including mechanisms to ensure that all the scientific work for, or by the Department is of appropriate quality and relevance.

To ensure that all matters concerning the professional skills, development and training of staff occupying specialist scientific grades are properly conducted.

To represent the Department on cross-Whitehall scientific groups, such as the Chief Scientific Advisers Committee.

In addition, the Police Scientific Development Branch and the Research, Development and Statistics Directorate are line managed by the Chief Scientific Adviser.

Drinking Water

Ms Walley: To ask the Secretary of State for the Home Department (1) what his Department's policy is on the provision of drinking water in HM young offenders institutions for *(a)* staff and *(b)* inmates; and if he will make a statement; [161354]

(2) what his Department's policy is on the provision of drinking water in HM Prisons for *(a)* staff and *(b)* inmates; and if he will make a statement. [161359]

Paul Goggins: All prison establishments have facilities to provide drinking water from the mains supply. Although access points may vary in establishments, drinking water is generally available in accommodation wings and other prisoner areas such as healthcare, gym, workshops and visits. Staff working in these areas would also have access to drinking water as well as having provision in staff areas such as messes and changing areas.

Policy on access to drinking water facilities and the provision of additional facilities (for example water coolers for staff) is a matter for individual governing governors.

Firearms Legislation

Mr. Martin Salter To ask the Secretary of State for the Home Department (1) when he will publish the consultation paper for the Home Office Review of firearms legislation; [161761]

(2) what the purpose is of his Department's review of firearms legislation; [161762]

(3) how long will be allowed for the consultation on his Department's review of firearms legislation; [161763]

(4) what representations he has received regarding the current law on firearms in the last three months; [161764]

(5) which stakeholder organisations he plans to meet to discuss the review of firearms legislation; [161768]

(6) what discussions he has had with the police regarding the Department's review of firearms legislation; [161769]

(7) what principles guide the Home Office's relations with stakeholders with regard to firearms legislation; [161771]

(8) with which organisations he has discussed the Home Office review of firearms legislation. [161772]

Caroline Flint: We will be publishing a consultation paper shortly as the first step in a comprehensive review of our firearms controls to ensure they meet current needs and reduce the risk of guns getting into the wrong hands. We believe that any system of regulation must be robust, efficient and effective but should not place unnecessary burdens on those who administer and enforce the law or who possess guns for reasons allowed by the law.

In drawing up the consultation paper there have been no formal discussions with interested parties although it will seek to reflect a range of issues which have been raised in the past by representative bodies and in public correspondence. We are interested in receiving views from everybody with an interest in the future regulation of firearms and want an open debate of the issues. A period of three months will be allowed for responses.

Heroin

Paul Flynn: To ask the Secretary of State for the Home Department what plans he has to increase the penalties for *(a)* possession and *(b)* use of heroin. [162180]

Caroline Flint: There are no current plans to amend the penalties for the possession of heroin. While the possession of heroin is a criminal offence under the Misuse of Drugs Act 1971, use or consumption of the drug is not.

Illegal Immigration

Mr. Sheerman: To ask the Secretary of State for the Home Department what steps he is taking to prevent people falsely claiming to be students for immigration purposes from entering the UK. [162532]

Beverley Hughes: Overseas nationals seeking to enter the UK must prove that they meet the requirements of the Immigration Rules as students. Visa officers and immigration officers are supported in making decisions by intelligence networks. In particular, a joint initiative between the home office and the Foreign and Commonwealth Office/UKvisas has seen special risk assessment units set up to increase our ability to identify and tackle all forms of visa abuse at key British Embassies.

Internet Fraud

Phil Sawford: To ask the Secretary of State for the Home Department what action he is taking to combat fraud on the internet. [162537]

Caroline Flint: The Home Office works with the police and industry to tackle fraud and other online crime.

In January we launched a website to combat fraud over the internet and last October, together with the British Bankers' Association and the Association of Payment and Card Services we issued advice to customers on how to avoid falling victim to online fraudsters.

Management Consultants

Mr. Flight: To ask the Secretary of State for the Home Department what the cost to his Department of using management consultants has been in each of the last five years. [148024]

Fiona Mactaggart: The available information held by the Home Office on the cost of using external consultants in each of the financial years; 1998–99, 1999–2000, 2000–01, 2001–02 and 2002–03 is as follows:

£

Financial year	*Cost of using external consultants*
1998–99	4,588,445
1999–2000	10,302,672
2000–01	27,877,286
2001–02	21,147,058
2002–03	n/a

We do not hold information on the cost to the Home Office of using external consultants for 2002–03 and to obtain this information would incur disproportionate cost.

It is not possible to detail the benefits accrued by the Department to expenditure in a specific year but I am able to summarise the benefits of using external consultants in this period.

The use of external consultants has helped the Department to successfully deliver projects across the office, which has resulted in improved business processes. A further benefit has been the transfer of specialist skills and knowledge to staff. The Department has also benefited from strategic business advice, which has shaped the strategy for combining the separate personnel, finance and procurement projects into an integrated project (Adelphi). This work has informed the development of business change that Adelphi is implementing across the Department and provide accurate management information.

The increase in expenditure on external consultancy in 2000–01 was primarily, due to costs incurred on the Home Office modernisation programme, in particular Information Technology (IT) related consultancy.

The high spend figures for 2001–02 includes the cost of setting up the National Probation Directorate and various consultancies on IT business change.

The main areas of expenditure and the benefits that have accrued are summarised as follows:

Within the Immigration and Nationality Directorate (IND) the use of management consultants has done much to improve business processes. Examples of projects, which could not have been successfully delivered without the project management experience and skills provided by consultants, are:

New Detection technology, deployed in Calais at the end of 2002 and subsequently at other locations;

The introduction of the Application Registration Card;

Support to the improvement of removal performance;

Evaluation of the Fast Track Appeals Process, and subsequent assistance in improving the process.

Criminal Justice IT has utilised consultants across all Directorates since start up. This has helped the unit to achieve a position of excellence in the IT delivery area quickly. The benefits of this position are already being felt across the Criminal Justice System as a whole, as well as within the individual strategic programmes. It has also resulted in a knowledge transfer process being put in place as consultants are replaced by civil servants.

National Offender Management Service

Mr. David: To ask the Secretary of State for the Home Department what the timetable is for the establishment of the National Offender Management Service. [162535]

Paul Goggins: An implementation team has been established and preparations for a detailed programme of work is under way.

The National Offender Management Service will come into being from 1 June 2004 and it is anticipated that all the necessary changes will have been implemented within five years.

Police Cells

Mrs. Gillan: To ask the Secretary of State for the Home Department whether HM Chief Inspector of Prisons has the authority to carry out inspections of police cells when they are being used to hold prisoners under Operation Safeguard. [160698]

Paul Goggins: Operation Safeguard is currently not active. Any prisoner held in police cells is held under the 1980 Imprisonment (Temporary Provisions) Act. In line with this act, prisoners held in police cells are in the custody of the Chief Police Officer of the region and not subject to prison rules or the Prison Act 1952. The Chief Police Officer will therefore be responsible for the welfare of any prisoners. The Chief Inspector of Prisons could, however, at the invitation of the Chief Police Officer concerned attend at a police station and comment on the conditions in which such prisoners are kept and their treatment.

Prisoners

Mrs. Gillan: To ask the Secretary of State for the Home Department how many *(a)* women and *(b)* men were being held in prison on 11 March; how many prisoners were released on early release on 11 March; how many prisoners were eligible for early release on 11 March; and how many prisoners were released on 11 March. [161821]

Paul Goggins *[holding answer 16 March 2004]:* On 11 March 2004 there were 4,555 females and 70,414 males being held in Prison Service establishments in England and Wales.

Information on the number of prisoners who were released on early release, the number of prisoners who were eligible for early release and the number of prisoners who were released on 11 March 2004 is not yet available.

Probation

Mr. Oaten: To ask the Secretary of State for the Home Department how many offenders undergoing Probation Service accredited programmes *(a)* breached the programme and *(b)* were sentenced to custody as a consequence of a breach in each of the last two financial years. [155054]

Paul Goggins: During 2001–02 a total of 3,962 offenders undergoing accredited programmes failed to complete, of which 1,425 (36 per cent.) were because of breach. As a percentage of those dropouts recorded in 2002–03, breaches accounted for 37 per cent.

Offenders may not have completed their programme due to failure to complete other aspects of supervision, not necessarily due to failure to complete the programme itself.

Data on the exact number of offenders undergoing National Probation Service accredited programmes who were sentenced to custody as a consequence of a

breach is unavailable. At present we only monitor outcomes by sentence and not content. The introduction of Interim Accredited Programme Software later this year will facilitate to the monitoring of sentence by outcomes.

The number of offenders who were sentenced to immediate custody for breaches of community sentences in 2001 was 8,094. In 2002 the number was 9,071.

Research and Statistics Directorate

Mr. Oaten: To ask the Secretary of State for the Home Department (1) how many people are employed by his Department's Research and Statistics Directorate; and how many employees there were in each year since 1997; [161787]

(2) how many research projects have been undertaken by *(a)* in-house researchers in the Research and Statistics Directorate and *(b)* external contractors in each year since 1997. [161788]

Fiona Mactaggart: The Research, Development and Statistics Directorate (RDS) is the main Home Office resource to support performance measurement and delivery of social research and analysis essential to building the evidence base for policy development. The available information on staffing and projects undertaken by RDS are shown in the tables.

During the period 1997 to 2004, RDS has evolved and created new teams. This has been in response to the need to meet demands for faster collection and analysis of more comprehensive performance data as well as to carry out more timely and targeted research, particularly in the areas of crime reduction, drugs and alcohol, immigration and communities research as well as enhancing the capacity for economic analysis and modelling.

Some of the projects identified will carry forward into two or more years and are included in the figures for both years. Projects undertaken by RDS can vary in size, complexity and scope. In addition to this RDS responds to regular ad-hoc requests for R and D advice from both within the Home Office and from external organisations.

Table 1: Staff compliment for the Home Office Research, Development and Statistics Directorate—1997–98 to 2003–04

	Number of staff RDS compliment
1997–8	260
1998–9	260
1999–2000[1]	280
2000–01[2]	360
2001–02[3]	375
2002–03[4]	435
2003–04	445
Current	422 in post

[1] The 1999–2000 figures reflect re-structuring of Social Research within the Home Office; the Police Research Group (40 staff) joined together with the Research and Statistics Directorate to form the new Research, Development and Statistics Directorate (RDS). At the same time, 15 staff from Co-ordinating Computing in Criminal Justice System moved out of RDS.

[2] The 2000–01 figure includes a new team that was set up to support evaluation of the crime reduction programme. There was also a new programme to expand the evidence base for Immigration research and voluntary/community research.

[3] In 2001–02 the Machinery of Government changes resulted in the movement of Fire Statistics to Department of Environment, Transport and Regions (now Office of the Deputy Prime Minister).

[4] The 2002–03 figure reflects the establishment of a new team to support research into drugs and alcohol research, in particular supporting the development of the Drugs Strategy and further development of the Immigration Research programme and in the capacity for economic analysis.

All totals are based on the RDS complement and are full-time equivalents.

Table 2: Number of Research Projects undertaken by (a) in-house researchers and (b) through external contractors in the Home Office Research, Development and Statistics Directorate 1998–99–2003–04

	In-house research projects	*Externally contracted research projects*
1998–99	[1]56	[1]45
1999–2000	[1]120	[1]65
2000–01	[1]106	[2]137
2001–02	[1]108	[2]283
2002–03	[1]171	[2]294
2003–04	[1]212	[2]222

[1] The figures for these years are based on a manual count of projects in the Research Development and Statistics Directorate (RDS) business plan.

[2] The figures are based on a central record of RDS external contracts

Sentencing Guidelines

Ian Lucas: To ask the Secretary of State for the Home Department how he will ensure that victims' views are taken into account by the criminal justice system when he sets sentencing guidelines. [162517]

Paul Goggins: The Criminal Justice Act 2003 established the Sentencing Guidelines Council to provide sentencing guidelines for all courts. The Council includes four non-judicial members, one of whom must have experience of "the promotion of the welfare of the victims of crime". Teresa Reynolds from Victim Support has been appointed to fulfil this role.

The victim Personal Statement scheme, introduced in October 2001, provided victims with the opportunity to explain the full extent of the consideration to the contents of the statement when sentencing an offender, although the opinion of the victim as to the specific sentence will not be taken into account.

In cases where the offender is given a life sentence for murder, the family of the victim have the opportunity to make personal statements, which should be taken into account by the courts when setting the minimum term to be served.

Sex Offences (Peterborough)

Mrs. Helen Clark: To ask the Secretary of State for the Home Department if he will make a statement on how decisions are taken to allocate those accused of sex offences to the bail hostel in Peterborough. [162539]

Paul Goggins: In common with all 100 approved probation and bail hostels, Peterborough Approved Premises accepts a range of residents, including those on bail or convicted of sexual offences. The decision to admit anyone to an approved premises is only taken after careful consideration of the risks. This includes the risk to the local community. If any of the risk is assessed as too high then no place is offered. Even if a place is offered by the approved premises, this decision then has to be endorsed by the court, a prison governor or the Parole Board.

Young Offenders

Charles Hendry: To ask the Secretary of State for the Home Department what proportion of young offenders has been diagnosed as suffering from attention deficit hyperactivity disorder in the last five years. [157478]

Paul Goggins: We do not have this information at national level but a number of steps are being taken to understand and provide access to treatment for this condition. Research on prevalence and effective practice is being conducted at six sites; youth offending teams have health workers who assess and make referrals, with the support of a specialist mental health screening tool; the Youth Justice Board has issued guidance on mental health practice and is developing training for Youth Offending Teams. The Youth Justice Board, Department of Health and Prison Service are working jointly on improving access to health services within the youth justice system.

DEFENCE

Anti-anthrax Vaccines

Llew Smith: To ask the Secretary of State for Defence what research his Department has carried out on the health effects of anti-anthrax vaccines given to military personnel and medical auxiliaries involved in *(a)* Operation Granby in the Gulf War against Iraq in 1991 and *(b)* Operation Telic in Iraq in 2003. [160856]

Mr. Caplin: No research has been carried out specifically on the possible adverse health effects of the anthrax vaccine given to personnel involved in Operation Granby or Operation Telic.

However, the results of a research project on the safety of the anthrax vaccine in randomly selected military personnel due to be deployed on Operation Bolton were published in the journal, "Vaccine", in 2003 (Vaccine vol.21 2003 pp 1348–13 54). The study was funded by the Ministry of Defence, but the MOD had no editorial input into its conduct, methodology, or findings. No serious side effects were observed, and the study concluded that the modest incidence of side effects supported the stance that the anthrax vaccination is safe.

Arctic Campaign Veterans

Huw Irranca-Davies: To ask the Secretary of State for Defence if he will introduce a medal for those servicemen who served on the Arctic convoys to Russia during the Second World War. [162159]

Mr. Caplin: I refer my hon. Friend to the answer I gave on 1 March 2004, *Official Report*, columns 595–96, to my hon. Friend the Member for Nottingham, North (Mr. Allen).

Armoured Battlegroup Support Vehicle

Mr. Gerald Howarth: To ask the Secretary of State for Defence what estimate he has made of the cost of the Armoured Battlegroup Support Vehicle; and when he expects this vehicle to enter service. [160809]

Mr. Ingram: No decisions have yet been made on the numbers and types of vehicles required for the Armoured Battlegroup Support Vehicle role, nor have final decisions been taken on the procurement route to be adopted. Consequently, overall programme costs are not certain at this time. The in-service date for this project will not be set until the programme passes its main gate.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what progress has been made on the procurement of the Armoured Battlegroup Support Vehicle; and when he expects to make a decision on the awarding of the contract. [160810]

Mr. Ingram: A preliminary assessment has been made of the options to meet the Armoured Battlegroup Support Vehicle requirement, including the feasibility of converting surplus Warrior Infantry Fighting Vehicles to this role. There are no plans for early contract award.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the role of the proposed Armoured Battlegroup Support Vehicle will be. [160812]

Mr. Ingram: It is planned that Armoured Battlegroup Support Vehicle (ABSV) will be employed as a support vehicle within armoured battlegroups, where its use alongside Warrior and Challenger 2 will improve the coherence of, and ease support to, those fighting units. Potential roles for the ABSV include armoured personnel carrier, ambulance, and command vehicles.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what effect the proposed future rapid effects system has had on the future requirement for the Armoured Battlegroup Support Vehicle. [160813]

Mr. Ingram: The Future Rapid Effect System (FRES) programme has had no significant impact upon the requirement for the Armoured Battlegroup Support Vehicle (ABSV). It is intended that FRES will be employed primarily within future medium weight forces, while ABSV will be employed primarily within the existing heavy force.

Budget Holders

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will list his Department's top level budget holders and their related management groups for the financial years *(a)* 2002–03 and *(b)* 2003–04. [161121]

Mr. Hoon: The Management Grouping structure for the financial years 2002–03 and 2003–04 are as follows.

Top level budget	*Management groupings*	
2002–03		
Commander-in-Chief Fleet	Fleet	
General Officer Commanding (Northern Ireland)	General Officer Commanding (Northern Ireland)

Civilian Posts

Mr. Hancock: To ask the Secretary of State for Defence (1) how many *(a)* service and *(b)* of his Department's civilian posts have been transferred to the private sector in each year since 1997 for the (i) Royal Navy, (ii) Army and (iii) Royal Air Force; [154628]

(2) how many *(a)* Army, *(b)* Royal Navy, *(c)* Royal Air Force and *(d)* of his Department's civilian posts have been transferred to the private sector in each year since 1997. [160904]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Conventional Forces in Europe Treaty

Harry Cohen: To ask the Secretary of State for Defence what assessment he has made of the impact of the accession of new members to NATO on the Conventional Forces in Europe Treaty; and if he will make a statement. [160325]

Mr. Rammell: I have been asked to reply.

We look forward to the new members joining NATO on 29 March. Bulgaria, Romania and Slovakia are already States Parties to the Conventional Forces in Europe (CFE) Treaty. Estonia, Latvia, Lithuania and Slovenia cannot join the CFE Treaty yet, but will be eligible to join the Adapted CFE Treaty when it comes into force. NATO Allies will not ratify the Adapted CFE Treaty until Russia has met the commitments it made to Georgia and Moldova at the OSCE Summit in Istanbul in November 1999. NATO Allies have made clear their intention to ratify the Adapted CFE Treaty once these commitments have been met and we hope that Estonia, Latvia, Lithuania and Slovenia will sign up to the Adapted CFE Treaty as soon as they are able to do so.

Deepcut Barracks

Mr. McNamara: To ask the Secretary of State for Defence how many hours per week on average each Royal Logistic Corps trainee at Deepcut barracks was required to perform guard duty in the last year for which figures are available. [162268]

Mr. Ingram: Detailed information on this is not available and could be provided only at disproportionate cost. However, in line with individual training programmes each soldier undergoing phase 2 training at the Princess Royal Barracks Deepcut can expect to spend on average some 84 hours on guard duties.

Defence Intelligence Services

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on the future of the Defence Intelligence Services. [162299]

Mr. Hoon: The Defence Intelligence Staff (DIS) is an integral part of the Ministry of Defence and plays an essential role in achieving the UK's defence objectives. It is a key contributor to the successful prosecution of military operations. As emphasised in the recent Defence White Paper "Delivering Security in a Changing World", the strategic environment is increasingly uncertain and comprises a diverse range of threats which require intelligence-led responses.

The DIS will therefore continue to be an important element of our overall defence capability.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Defence how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158164]

Mr. Caplin: As of 15 March 2004, there were 130 people employed within the communications organisation in the Ministry of Defence Headquarters. Of these, 24 are members of the Government Information and Communication Service. Of the remainder, seven work in the Press Office and the others are employed on a wide range of tasks including design, publicity, marketing, internal communications and strategic planning.

Ministers in the department have two special advisers, neither of whom are members of the communications organisation. The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister and this includes communications activity.

In addition to the above, a number of people are employed, either wholly or partly, in communications related work throughout defence. These include staff working in defence agencies, the permanent joint Headquarters, single service commands and individual military units. Accurate information on all of these posts is not held centrally and could only be provided at disproportionate cost.

Matthew Taylor: To ask the Secretary of State for Defence what the total expenditure on communications for his Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158211]

Mr. Caplin: The cost of staff employed within the communications organisation in the Ministry of Defence headquarters is expected to be in the region of £5.9 million for 2003–04; of this, around £1 million is attributable to members of the Government Information and Communication Service (GICS). Of the remainder, around £0.3 million relates to non-GICS staff in the press office and the balance of the cost is for staff employed on a wide range of tasks including design, publicity, marketing, internal communications and strategic planning.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister and this includes communications activity. Details of the costs of special advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

Costs for staff employed in communications elsewhere in the Department are not held centrally and could be provided only at disproportionate cost.

Drugs

Dr. Murrison: To ask the Secretary of State for Defence how many service personnel tested positive for the use of each controlled substance, broken down by unit, in calendar year 2003. [161307]

Mr. Caplin: The number of positive results for the use of controlled substances in each of the Services in 2003 are shown in the following tables. In all cases, positive results indicate the number of substances detected, not necessarily the number of personnel.

The Naval Service

Unit	*Cannabis*	*Amphetamines*	*Ecstasy*	*Cocaine*	*Heroin*

Total	93,168	580

Eurofighter Typhoon

Mr. Evans: To ask the Secretary of State for Defence when he expects to make a statement on Tranche Two of the Eurofighter. [161361]

Mr. Ingram: I refer the hon. Member to the answer I gave on 12 February 2004, *Official Report*, column 1634W to my hon. Friend the Member for Pendle (Mr. Prentice).

Iraq

Mr. Paul Keetch: To ask the Secretary of State for Defence what conditions are attached to the payment of compensation to Iraqi civilians who have lost relatives due to UK actions; and if he will make a statement. [151617]

Mr. Ingram *[holding answer 30 January 2004]*: Claims made by Iraqis for losses that do not arise in connection with combat operations are handled in accordance with the direction of the Coalition Provisional Authority—specifically Section 6 of CPA order number 17. This states that:

> 'Third party claims including those for property loss or damage and for personal injury and death or in respect of any other matter arising form or attributing to Coalition personnel or any persons employed by them, whether normally resident in Iraq or not, and that do not arise in connection with military combat operations, shall be submitted and dealt with by the Parent State whose coalition personnel, property, activities or other assets are alleged to have caused the claimed damage, in a manner consistent with the national laws of the Parent State'.

Hence, we will generally pay compensation in circumstances where the claims officer decides that, on the balance of probability, the claim would give rise to a legal liability under English Law.

Iraqi claimants who are offered compensation are required to sign a declaration that:

'I, name of claimant, agree to accept the sum of $xxxx in respect of the loss of my son/daughter/father/mother [name]. I understand and accept that this offer is made without admission of liability of behalf of the British contingent of the Coalition Forces in Iraq, and is a full and final settlement of all claims whatsoever relating to the incident that occurred on ddmmyyyy.'

Liability is not admitted as to do so would set a precedent for further claims relating to the incident and future claims.

This is not a liability waiver. Such a waiver would require those compensated to waive some legal rights—including the right to sue for personal injury or death. This type of waiver would normally be used for example when one is undertaking an adventurous activity that carries with it a high level of risk.

Adam Price: To ask the Secretary of State for Defence what reports he has received of politically motivated killings within the British zone in Southern Iraq perpetrated by political groups represented within the Iraqi Governing Council. [153873]

Mr. Ingram: We are not aware of any deaths within the UK area of responsibility in Southern Iraq, which have been attributed to a person or political group represented within the Iraqi Governing Council.

Adam Price: To ask the Secretary of State for Defence in relation to the deaths of which civilians in Iraq the UK Government has made ex-gratia payments to the families of the deceased; and how much has been paid in each case. [154477]

Mr. Ingram *[holding answer 11 February 2004]*: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Adam Price: To ask the Secretary of State for Defence on which dates and in relation to which individuals UK forces in Iraq have informed the International Committee of the Red Cross of confirmed civilian casualties which *(a)* have been caused and *(b)* are alleged to have been caused by UK forces. [154488]

Mr. Ingram *[holding answer 12 February 2004]*: I will write to the hon. Member and a copy of my letter will be placed in the Library of the house.

Mr. Keetch: To ask the Secretary of State for Defence pursuant to his answer of 19 January 2004, *Official Report*, column 919W, on Iraq, how many ex-gratia payments have been made to Iraqis regardless of legal liability, broken down by *(a)* amount and *(b)* reason for the payment in each case; and if he will make a statement. [154901]

Mr. Ingram *[holding answer 3 March 2004]:* I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Dr. Cable: To ask the Secretary of State for Defence how much fuel was purchased for UK forces in Iraq for each month since the inception of the war; from which *(a)* country and *(b)* company the fuel was purchased; and what the average price paid was. [154953]

Mr. Ingram: Between August 2003 and February 2004, United Kingdom forces purchased the following amounts of fuel from Jassim Transport and Stevedoring Co WLL, Kuwait:

	Diesel		*Unleaded*	
	Volume (litres)	*Cost (£)*	*Volume (litres)*	*Cost (£)*
August 2003	300,000	35,015	433,000	50,539
September 2003	330,000	38,517	360,000	42,018
October 2003	240,500	28,071	415,000	48,438
November 2003	186,500	21,768	388,000	45,287
December 2003	106,000	12,372	385,000	44,936
January 2004	594,500	69,389	275,000	32,097
February 2004	265,000	30,930	428,500	50,014
Totals	2,022,500	236,062	2,684,500	313,329

No figures are available prior to this date as diesel and unleaded petrol were provided to UK forces through the US supply chain.

The UK does not purchase aviation fuel for its forces in Iraq. This is supplied by the US, which has lead-nation responsibility in this area.

Tom Cox: To ask the Secretary of State for Defence how much has been paid to families of Iraqi civilians killed by UK personnel in Iraq. [158034]

Mr. Ingram: I will write to my hon. Friend and a copy of my letter will be placed in the Library of the House.

Adam Price: To ask the Secretary of State for Defence if he will give the *(a)* age and *(b)* sex of those Iraqi civilians (i) whose deaths have been investigated by the Special Investigations Branch and (ii) whose deaths have resulted in the offer of ex gratia payments from the United Kingdom Government. [158861]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Joint Strike Fighter

Mr. Hoyle: To ask the Secretary of State for Defence how much money the Government has spent on research and development of the Joint Strike Fighter (JSF); and what the estimated date is for the delivery of the JSF to the Ministry of Defence. [161244]

Mr. Ingram: To date, a total of £318 million has been spent on the Assessment (£144 million) and Demonstration (£174 million) phases of the Future Joint Combat Aircraft (FJCA) programme. This total includes our contributions to the JSF programme, as the means of meeting the FJCA requirement, and the costs associated with UK national activities.

While no final decisions have been taken, the FJCA in service date, based on current planning assumptions, is forecast to be 2012 with first aircraft delivery in 2010.

Land Command

Mr. Soames: To ask the Secretary of State for Defence (1) what the cost of maintaining United Kingdom Land Command headquarters at Wilton is for 2003–04; [162570]

(2) how many *(a)* service and *(b)* civilian personnel were employed at the United Kingdom Land Command headquarters in Wilton (i) in 2000, (ii) in 2001, (iii) in 2002 and (iv) at the latest available date. [162569]

Mr. Ingram: The annual cost of maintaining Headquarters Land Command for the financial year 2003–04 is estimated at £50 million. This figure includes pay, utilities, IT and other costs of those elements at Wilton that form the Headquarters. Where possible, the costs of lodger units based at the site have been excluded.

The numbers of military and civilian personnel included within the above costs are:

	Military	*Civilian*
2001–01	537	626
2001–02	532	630
2002–03	413	639
2003–04	360	625

Mr. Soames: To ask the Secretary of State for Defence how many troops were under the command of UK Land Command in *(a)* 2002 and *(b)* 2003. [162571]

Mr. Ingram: The number of troops under the command of Land Command in April 2003 and April 2004 was 73,030 and 77,580 respectively. The increase is primarily owing to the call out of reservists for operations overseas.

Post Office

Malcolm Bruce: To ask the Secretary of State for Defence pursuant to the answer of 27 February 2004, from the Parliamentary Under-Secretary of State, Department for Work and Pensions, *Official Report*, column 584W, on direct payment, how many *(a)* Post Office Card Accounts and *(b)* bank or building society accounts have (i) been requested for and (ii) are receiving payments of war pensions, broken down by region. [162735]

Mr. Caplin: The information is not available in the format requested as data is not recorded in individual regions.

The Veterans Agency records show that as at 15 March the total number of requests for Post Office Card Accounts is 42,187 and for payment into a bank/building society, 57,953.

The total number of customers who have converted to Post Office Card Accounts is 14,956. The total number of customers who have converted to a bank/building society is 57,947. The total number of war pensions paid by direct payment into an account (including Post Office Card Account) is 213,432, which represents 85.66 per cent. of the payload.

Regimental Records

Mr. Beggs: To ask the Secretary of State for Defence whether the search records of *(a)* the 7th City of Belfast battalion of the Ulster Defence Regiment, *(b)* the 10th City of Belfast battalion of the Ulster Defence Regiment, *(c)* the 3rd County Down battalion of the Ulster Defence Regiment and *(d)* the regular military units operating in their tactical area of responsibility are still held. [162687]

Mr. Ingram: The search records of all military units in Northern Ireland are held in the Northern Ireland Search Report Archive and reports of any searches which did not produce a find are routinely destroyed after six years when the statute of limitation for claims runs out. Records of productive searches may be held indefinitely in the archives, therefore it is possible that some search reports dating prior to 1992, when the Ulster Defence Regiment disbanded, would still be held.

Heroes Return Scheme

Mr. Hoyle: To ask the Secretary of State for Defence what support his Department is providing for the celebration of Heroes Return outside London. [158700]

Mr. Caplin: The New Opportunity Fund's 'Heroes Return' scheme, which forms part of the 'Veterans Reunited' programme, focuses on overseas visits for veterans, their spouses or widows and their carers. 'Heroes Return' will enable Second World War veterans resident in the United Kingdom, whether inside or outside London, to make overseas visits to commemorate the campaigns in which they participated.

Unexploded Ordnance

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what the total amount of ordnance destroyed in the UK by controlled explosions was in the last five years; and what sorts of ordnance were involved. [161868]

Mr. Ingram: During the period April 1999 to February 2004 the Ministry of Defence has arranged for the demilitarisation by incineration, open burning and open detonation of 11,492 tonnes (all up weight) of conventional munitions ranging from Small Arms Ammunition to Guided Weapons.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what the life expectancy is of *(a)* Swingfire, *(b)* Milan and *(c)* artillery shells in war stocks; and what the policy of removal is. [161870]

Mr. Ingram: The life of a munition is constantly under consideration and work is ongoing while in-service to ensure the nature remains safe and suitable for use. When missiles reach the end of their in-service life they are disposed of either through being used for training purposes, or if that is not possible through a demilitarisation programme. At present both Swingfire and Milan missiles have an in-service life of 17 years.

Artillery shells are maintained to the required level of safety and in sufficient quantities to meet operational requirements. It is preferred to utilise artillery shells for training purposes rather than opting for disposal, thereby maximising their usefulness. Typically, the in service life of an Artillery Shell is a minimum of 10 years.

Unmanned Aerial Vehicles

Mr. Hoyle: To ask the Secretary of State for Defence what joint programmes with other countries have been undertaken on *(a)* research and *(b)* building of unmanned aerial vehicles. [158511]

Mr. Ingram: The UK is involved in 28 international research collaboration for a covering technology relevant to unmanned aerial vehicles. None of these are specific to UAVs. The UK has not undertaken any joint programmes with other countries on building UAVs.

FOREIGN AND COMMONWEALTH AFFAIRS

Conferences

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how many non-ministerial staff in his Department have attended conferences *(a)* in the UK and *(b)* abroad in the year to 29 February; and what the cost of attending these conferences was, broken down by (i) travel costs, (ii) food and drink, (iii) accommodation and (iv) miscellaneous costs. [160799]

Mr. Straw *[holding answer 18 March 2004]:* The information required for this answer is not held centrally and could be obtained only at disproportionate cost.

East Africa

Tony Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will propose action to the UN Security Council to resolve the border dispute between Ethiopia and Eritrea. [162904]

Mr. Mullin: The UK, and other members of the Security Council, will continue to press Ethiopia and Eritrea to accept the Boundary Commission decision, which is final and binding, and begin a comprehensive political dialogue on all of the issues separating them. We have welcomed the appointment of the UN Special Envoy, Lloyd Axworthy, and are urging both parties to work with him on resolving their differences.

EU Enlargement

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his European counterparts on EU enlargement; and if he will make a statement. [162300]

Mr. Mullin: My right hon. Friend the Foreign Secretary often raises EU enlargement in his bilateral and other meetings with European counterparts and he regularly reaffirms the Government's support for enlargement.

European Council of Ministers

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) how many informal meetings of the European Council of Ministers took place *(a)* between 1 July and 31 December 2003 and *(b)* since 1 January; when these meetings took place; what topics were discussed at these meetings; what informal meetings are planned until 30 June; and if he will make a statement; [159337]

(2) how many informal meetings of the European Council of Ministers took place *(a)* between 1 January and 30 June 2002, *(b)* 1 July 2002 and 31 December 2002, *(c)* 1 January and 30 June 2003 and *(d)* 1 July and 31 December 2003; when these meetings took place; what issues were discussed at each of these meetings; which members of the Scottish Executive were present at each meeting; and if he will make a statement. [159338]

Mr. MacShane: Recent Presidencies have defined informal ministerial meetings differently in their official Presidency websites. The following list sets out those informal ministerial meetings which met to transact substantive business.

The Spanish Presidency between 1 January and 30 June 2002 held 10 informal ministerial meetings, on the following dates and covering the following topics:

25–26 January on Employment;

9–10 February on Foreign Affairs (Gymnich Informal Meeting of Ministers for Foreign Affairs);

14–15 February on Justice and Home Affairs;

22–23 February on Telecoms and the Information Society;

23–24 March on Defence;

13–14 April on Finance (ECOFIN);

27–30 April on Agriculture and Fisheries;

3–4 May on Tourism;

24–26 May on Environment issues;

31 May to 1 June on Transport.

The Danish Presidency between 1 July and 31 December 2002 held eight informal ministerial meetings on the following dates and covering the following topics:

12–13 July on Employment and Social Policy;

19–21 July on Environment issues;

1 September on Foreign Affairs (Gymnich Informal Meeting of Ministers for Foreign Affairs);

6–8 September on Finance (informal ECOFIN);

8–10 September on Agriculture and Fisheries;

12–13 September on Justice and Home Affairs;

4–5 October on Defence;

18–19 October on the Internal Market. Consumer Affairs and Industry.

The Greek Presidency between 1 January and 30 June 2003 held 13 informal ministerial meetings, on the following dates and covering the following topics:

24 January on Employment;

22 February on Energy;

1–2 March on Education;

14–15 March on Defence;

28–29 March on Justice and Home Affairs;

4–6 April on Finance (informal ECOFIN Council);

2–4 May on Environment;

12–13 May on Agriculture and Fisheries;

16–17 May on Regional Policy;

16–18 May on Transport and Merchant Marine;

24 May on Culture;

6 June on Public Administration;

12–13 June on Development Co-operation.

The Italian Presidency between 1 July and 31 December 2003 held 18 informal ministerial meetings on the following topics:

4–5 July on Transport and Infrastructure;

6 July on Trade;

10–12 July on Employment and Social Policies;

11–12 July on Competitiveness;

18–20 July on Environment and Energy;

3–5 September on Telecommunications;

5–6 September on General Affairs and External Relations;

5–6 September on Health;

12–13 September on Justice and Home Affairs;

12–13 September on Economic and Financial Affairs (ECOFIN);

20–23 September on Agriculture;

1–2 October on Culture;

3–4 October on Defence;

20 October on Regional Policy;

24 October on Development Co-operation;

21 November on Consumer Policies;

1 December on Civil Service;

2 December on Trade.

The Irish Presidency up to 8 March 2004 has held two informal ministerial meetings, on the following dates and covering the following topics:

16–17 January on Employment and Social Policy;

22–23 January on Justice and Home Affairs.

13–14 April on Finance (ECOFIN);

27–30 April on Agriculture and Fisheries;

3–4 May on Tourism;

24–26 May on Environment issues;

31 May to 1 June on Transport.

The Irish Presidency intends to hold five further informal ministerial meetings, on the following dates and covering the following topics:

2–3 April on Economics and Finance (ECOFIN);

5–6 April on Defence;

16–17 April on Foreign Affairs (Gymnich);

9–10 May on Agriculture;

14–15 May on Environment.

The Scottish First Minister, right hon. Jack McConnell, attended the Informal Council on Regional Policy on 20 October 2003. Ministers from each Devolved Administration attend formal Councils of particular interest to that Devolved Administration.

I have written to the hon. Member on this issue and have placed a copy of my letter in the Library of the House.

Falkland Islands

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the availability of *(a)* charter and *(b)* scheduled flights to the Falkland Islands; and what plans Her Majesty's Government has to bring about an increase in the (i) capacity and (ii) frequency of flights to the Islands. [162635]

Mr. Rammell: No charter flights are currently operating to and from the Falkland Islands. One weekly Lan Chile scheduled service operates between Chile and the Falkland Islands. There is also a regular flight between the UK and the Falkland Islands, via Ascension Island. The Falkland Island Development Corporation and Her Majesty's Government continue to look at ways of increasing the capacity and frequency of flights to the Falkland Islands.

I refer the hon. Gentleman to my recent written statements of 19 January 2004, *Official Report*, columns 51–52WS and 1 March 2004, *Official Report*, columns 73–74WS.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to Argentina about the introduction of an open skies policy on charter flights to the Falkland Islands; and if he will make a statement. [162636]

Mr. Rammell: I discussed charter flights with Argentine Foreign Minister Bielsa during my recent visit to Argentina. I refer the hon. Gentleman to my written statement of 1 March on the issue of air links between the Falkland Islands and mainland South America, *Official Report*, columns 73–74WS.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Argentine Government's policy on use of its airspace by *(a)* charter and *(b)* scheduled flights to the Falkland Island originating in Chile. [162637]

Mr. Rammell: The weekly Lan Chile flights between Chile and the Falkland Islands are covered by the UK/Argentina 1999 Joint Statement. On charter flights, I refer the hon. Gentleman to the written statement I made on 1 March on the issue of air links between the Falkland Islands and mainland South America, *Official Report*, columns 73–74WS.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the policy of Her Majesty's Government not to enter into negotiations with the Government of Argentina on sovereignty of the Falkland Islands; and if he will make a statement. [162638]

Mr. Rammell: It is the policy of Her Majesty's Government not to enter into negotiations with the Government of Argentina on sovereignty of the Falkland Islands. Her Majesty's Government have no doubts about their sovereignty of the Falkland Islands and their surrounding maritime areas.

Guatemala

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress in improving human rights in Guatemala. [162608]

Mr. Rammell: 2003 was a poor year for human rights in Guatemala. There was much violence in the run up to the presidential elections in November and December 2003. However, we have noted positively the efforts President Berger has made since his inauguration on 14 January to improve human rights in Guatemala.

Berger's first public act as President was to declare his commitment to the Guatemalan Peace Accords signed in 1996, and on 25 February he announced the establishment of a new national commission to oversee implementation of the Accords. Given the undertakings in the Peace Accords this should help improve the human rights in particular of indigenous groups. President Berger has appointed a respected human rights campaigner, Frank la Rue, as his Presidential Commissioner on Human Rights. I welcome this appointment.

When I visited Guatemala in January, I stressed the importance of human rights issues to the new Vice-President. We have also encouraged the new Guatemalan

Government to implement in full the 1996 Peace Accords. Our Embassy in Guatemala City will continue to monitor human rights closely.

Human Rights

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to support the *(a)* adoption and *(b)* implementation within an agreed timescale of the UN norms on the responsibilities of transnational corporations and other business enterprises with regard to human rights when it is forwarded to the UN Commission on Human Rights in Geneva; and if he will make a statement. [162292]

Mr. Rammell: The Government are strong supporters of responsible business behaviour and are actively involved in initiatives to promote this. The Draft Norms raise complex issues because they purport to make business directly responsible for human rights. It is States which have obligations under international human rights law to ensure human rights to everyone within their territory and jurisdiction. We believe that States should remain responsible for domestic legislation to regulate the behaviour of private actors in their jurisdiction, including multinational companies. We also believe that according human rights obligations to private business enterprises in international law could be used by certain States to avoid their own obligations and to distract the focus from human rights abuses by States. We therefore believe that it would be detrimental to the advancement of international human rights law if the draft norms were to be adopted by the Commission on Human Rights. However, we shall be working with other Members of the Commission to try to identify a constructive process for addressing issues raised by the Norms, which would command wider acceptance among all stakeholders, including Governments and business as well as NGOs.

Iranian Nuclear Programme

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* matters discussed and *(b)* outcome of the International Atomic Energy Agency Board of Governors' consideration of the Iranian nuclear programme on 10–11 March. [161757]

Mr. Rammell: Intensive discussions took place with our EU partners, the US and other members of the Board to produce an agreed text for a Resolution on the Iranian nuclear programme based on the report of the findings of the International Atomic Energy Agency (IAEA) Director-General. The Resolution was adopted by consensus on 13 March.

The text of the Resolution can be found on the IAEA website at www.iaea.org.

Middle East

John Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of settlement activity in the West Bank and Gaza Strip in the past six months. [162058]

Mr. Rammell: Expansion of settlements and building of outposts have continued in the last six months. As we have made clear, we consider all settlements in the Occupied Territories illegal under international law and an obstacle to a comprehensive peace in the region. The Government regularly presses the Israeli Government to freeze settlement activity and dismantle outposts in line with Israel's commitments under the roadmap.

Both sides need to implement their obligations under the roadmap without delay. We welcome Prime Minister Sharon's reiteration of Israel's commitment to the roadmap and his subsequent announcement that he will remove settlements in Gaza. We would warmly welcome a withdrawal of settlers and the Israeli Defence Force from Gaza to Israel as part of implementation of the Roadmap.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to enhance science in his Department since the publication of the Government's science strategy Investing in Innovation. [162248]

Mr. Rammell: I refer my hon. Friend to the answer I gave to his related question on 19 November 2003, *Official Report*, column 1058W.

Since the publication of Investing in Innovation in July 2002 the Foreign and Commonwealth Office (FCO) has continued to expand its Science and Technology network in its posts overseas. There are now nearly 40 attachés in over 20 countries, plus other posts around the world, who are developing Science and Technology activities in support of FCO objectives. The network reports to a wide customer base and works with a number of UK organisations with an interest in Science and Technology overseas. These include Government Departments, parliamentary and devolved institutions, public sector bodies, universities, research and trade organisations and industry. Examples of the work done by the Science and Technology network include: a major campaign to promote UK biosciences in 2003 to mark the 50th anniversary of the discovery of the structure of DNA; lobbying to promote the UK position on cloning before the debates in the UN General Assembly; organising events to explain the science of climate change; and contributing to international negotiations on the site of the proposed International Thermonuclear Experimental Reactor.

The FCO works in close partnership with the Office of Science and Technology, the Department of Trade and Industry (especially its team of International Technology Promoters), UK Trade and Investment, the British Council and the Research Councils. The FCO Science and Technology network is working with partners to develop the international dimension of the Government's Innovation Strategy and Investment Framework for Science. The FCO is represented on two new Whitehall committees which have been set up to co-ordinate interests in international Science and Technology: the Chief Scientific Adviser's International Committee and the International Science Technology Trade and Investment Committee. The FCO will also take part in the new Ministerial Group on Innovation and the Knowledge Economy.

Tibet

Mr. Trend: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department last made a statement to the House on the sovereignty of Tibet. [162724]

Mr. Rammell: Successive British Governments have regarded Tibet as autonomous while recognising the special position of the Chinese authorities there. The then Minister of State at the Foreign and Commonwealth Office, the late Derek Fatchett, stated our position during a debate in the House on 19 March 1999, *Official Report*, column 1463.

PRIME MINISTER

Departmental Officials

Mr. Cousins: To ask the Prime Minister which former officials of his *(a)* Office and *(b)* policy unit have asked for permission to join (i) PricewaterhouseCoopers, (ii) Deloitte and Touche, (iii) Ernst and Young and (iv) KPMG. [156900]

The Prime Minister: It is a matter of public record that Derek Scott has joined KPMG.

Honours

Bob Spink: To ask the Prime Minister how many honours nominations have been submitted in each of the last five years. [162869]

The Prime Minister: Nominations for honours are received in a number of ways, notably through the Nominations Unit in the Cabinet Office or through Government Departments. The information requested is not held centrally.

Mr. Gordon Prentice: To ask the Prime Minister how many people resident in the constituencies of *(a)* Pendle, *(b)* Burnley, *(c)* Ribble Valley, *(d)* Hyndburn, *(e)* Rossendale and *(f)* Blackburn have received an honour in each year since 1997. [163201]

The Prime Minister: The information requested is not held centrally.

Hunting with Dogs

Phil Sawford: To ask the Prime Minister what plans he has to propose legislation on the issue of hunting with dogs. [162773]

The Prime Minister: I refer my hon. Friend to the answer I gave to the hon. Member for Colchester (Bob Russell) at Prime Minister's Questions on 3 December 2003, *Official Report*, column 501.

Iraq

Sir Menzies Campbell: To ask the Prime Minister what communications the Government received from the United States Administration about the legality in international law of the Iraq war; and if he will make a statement. [161701]

The Prime Minister: We were in frequent contact with the United States and other countries throughout the period leading up to the conflict, before and after the adoption of United Nations Security Council Resolution 1441 (2002).

Sir Menzies Campbell: To ask the Prime Minister when the Government first formed the view that a second UN resolution was not required to ensure the legality of the Iraq war; and if he will make a statement. [161702]

The Prime Minister: I refer the right hon. and learned Member to the answer the Solicitor-General gave to the hon. Member for Stone (Mr. Cash) on 17 March 2003, *Official Report*, column 515–16W.

As the written answer on 17 March 2003 made clear, and is self evident in the text of United Nations Security Council resolution 1441(2002) of 8 November 2002, all that was required was reporting to and discussion by the Security Council of Iraq's failures, but not an express further decision to authorise force.

Sir Menzies Campbell: To ask the Prime Minister whether legal advisers other than law officers of the Crown were involved in the preparation and scrutiny of the September 2002 dossier; and if he will make a statement. [161703]

The Prime Minister: It is not the practice to disclose whether any particular legal advice was given, and if so by whom, on specific occasions.

Ministerial Meetings

Norman Baker: To ask the Prime Minister if he will list the occasions since 1997 on which he met senior executives from *(a)* Enron and *(b)* British Nuclear Fuels Ltd. [162880]

The Prime Minister: I have meetings with a wide range of organisations and individuals. As with previous Administrations it is not my practice to provide details of all such meetings.

A representative of British Nuclear Fuels Ltd. attended a business breakfast in Downing Street on 10 October 2002.

In respect of Enron, I refer the hon. Member to the answers I gave him, the hon. Member for Carshalton and Wallington (Tom Brake), and the hon. Member for Truro and St. Austell (Matthew Taylor) on 4 February 2002, *Official Report*, columns 689–90W.

Opinion Sampling

Mr. Laws: To ask the Prime Minister what his estimate is of total expenditure by his Office on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162746]

The Prime Minister: I refer the hon. Member to the answers I gave to the hon. Member for Nottingham, North (Mr. Allen) on 6 November 2002, *Official Report*, column 399W and to the hon. Member for Banff and Buchan (Mr. Salmond) on 20 November 2001, *Official Report*, column 205W.

People's Peers

Mr. Gordon Prentice: To ask the Prime Minister pursuant to his Answer of 18 December 2003, *Official Report*, column 1076W, on people's peers, when

he expects the names of the second tranche of people's peers to be announced; and if he will make a statement. [162625]

The Prime Minister: I have nothing further to add to the answer I gave to my hon. Friend on 18 December 2003, *Official Report*, column 1076W.

Press Officers

Mr. Laws: To ask the Prime Minister how many press officers were employed in his office in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162855]

The Prime Minister: I refer the hon. Member to the answer I gave him on 3 February 2003, *Official Report*, column 17W.

At 31 March 2003, there were eight staff working as press officers in the No. 10 press office including one on secondment from the Foreign and Commonwealth Office. The total cost for running the No. 10 press office for 2002–03 was £1,375,894. The increase reflects the ever increasing media demands with the advent of more outlets, 24 hour news and growth of the internet, for example.

As at 1 March 2004, there were eight staff working as press officers in the No. 10 press office including one on secondment from the Foreign and Commonwealth Office. Final cost figures for 2003–04 are not yet available.

Sovereign States (Pre-emptive Action)

Norman Baker: To ask the Prime Minister pursuant to his speech of 5 March, under what circumstances he supports the right of sovereign states to take pre-emptive action against other states. [162305]

The Prime Minister: Under international law, force may be used in three circumstances:

When authority is provided by the United Nations Security Council acting under Chapter VII of the UN Charter. Security Council resolutions adopted under Chapter VII were the authority for military action in Iraq, as set out in the answer given by my right hon. Friend the Solicitor-General on 17 March 2003, *Official Report*, column 515W. The Security Council may determine the existence of a threat to international peace and security and authorise military force or other action to prevent it becoming an actual breach of the peace.

In exercise of the inherent right of individual or collective self-defence recognised in Article 51 of the UN Charter, as was the case with US action in Afghanistan in 2001. This includes the right of self-defence when an armed attack has not yet taken place, but is imminent.

In exceptional circumstances, when it is the only way to avert an overwhelming humanitarian catastrophe, as in Kosovo in 1999.

As I made clear in my speech on 5 March, the challenges and threats are of a different nature from anything the world has faced before. We must face the threats posed by proliferation of weapons of mass destruction, terrorism, oppressive and brutal regimes, poverty, HIV/AIDS and environmental damage. We need to take effective action in response to all these challenges, and we cannot always wait for the threat to fully materialise before we act.

I welcome the UN Secretary-General's decision to set up a High Level Panel to review how the UN can respond more effectively to threats to international peace and security, including considering whether any institutional changes are required. And as I also said in my speech on 5 March, the British role should be to construct a consensus behind a broad agenda of justice and security and the means of enforcing it.

United Nations Charter

Mr. Allen: To ask the Prime Minister what recent representations he has received on the reform of the *(a)* United Nations Charter and *(b)* international law to limit the sovereignty of nations in cases of (i) urgent humanitarian need and (ii) the threatened aquisition and use of weapons of mass destruction. [162276]

The Prime Minister: My discussions with other leaders frequently touch on the need for effective collective action to deal with all threats to international peace and security. This includes both to avert an overwhelming humanitarian catastrophe and action to counter the proliferation of weapons of mass destruction.

I welcome the UN Secretary-General's decision to set up a High Level Panel to review how the UN can respond more effectively to threats to international peace and security, including considering whether any institutional changes are required.

CABINET OFFICE

Better Regulation Task Force

Mr. Oliver Heald To ask the Minister for the Cabinet Office if he will list the enacted regulations that have been repealed on the recommendation of the Better Regulation Task Force since it was established. [161956]

Mr. Alexander: The Better Regulation Task Force advises the Government on action to ensure that regulation and its enforcement meet the principles of good regulation. The Task Force recommends both ways of improving existing regulation and tools for helping us regulate better in future.

The Government has accepted the vast majority of the Task Force's recommendations, a number of which are included in our Regulatory Reform Action Plan, published in December 2003 and available from the Libraries of both Houses.

Consultants

Mr. Heald: To ask the Minister for the Cabinet Office how much his Department spent on external consultants in each financial year since 1997–98; and if he will make a statement. [160051]

Mr. Alexander: I refer the hon. Member to the answer given by my hon. Friend the Member for Shipley (Mr. Leslie) to the hon. Member for Buckingham (Mr. Bercow) on 26 March 2002, *Official Report*, column 815–816W and to the answer given to the Noble Baroness Wilcox in another place by my hon. Friend, The Lord Macdonald of Tradeston, on 27 November 2002, *Official Report*, column WA42.

The Cabinet Office and the Central Office of Information has spent £13,460,000 during 2002–03 on external consultants.

Expenditure on external consultants during that period included advice on internal IT systems, the development of e-Government initiatives, facilities management and on Strategy Unit studies.

Contingency Planning

Miss McIntosh: To ask the Minister for the Cabinet Office if he will make a statement on the implications for contingency planning of the level of civil defence grants in the next financial year. [162301]

Mr. Alexander: The Civil Defence Grant is a contribution towards the cost of local authorities' civil protection work. The aggregate of civil defence grants to be made for the financial year 2004–05 is £19,038,000, which will be distributed according to a formula agreed with the Local Government Association.

The grant will make funds available for the preparation of emergency plans, liaison with the emergency services in preparing for major incidents and other civil protection work.

The Civil Defence Grant is just one small part of what the Government spends on resilience. There are a large number of other statutory bodies involved in local civil protection work including the Police Service, the Fire Service, the Ambulance Service and the Environment Agency. They are funded accordingly for this work.

Non-departmental Public Bodies

Mr. Heald: To ask the Minister for the Cabinet Office pursuant to his answer of 8 March, *Official Report*, columns 1262–3W, on non-departmental public bodies, if he will make a statement on the change in his Department's expenditure on such bodies since 1996–97. [162022]

Mr. Alexander: The Cabinet Office was responsible for eight Non-Departmental Public Bodies (NDPBs) in 1996–97 and 10 NDPBs in 2002–03.

Expenditure for these public bodies in 1996–97 and 2002–03 is set out in the following table.

£ million

NDPB	[1]*1996–97*	*2002–03*
British Government Panel on Sustainable Development	0.050	—
Citizen's Charter Panel of Advisers	0.083	—
Deregulation Task Force	0.065	—
Advisory Committee on Advertising	—	0.004
Advisory Committee on Business Appointments	0.051	0.061
Civil Service Appeal Board	0.308	0.393
Committee on Standards in Public Life	0.485	0.638
Honours Scrutiny Committee	0	0
Security Commission	0.005	0.007
Better Regulation Task Force[2]	—	0.517
Security Vetting Appeal Panel	—	0.024
Senior Salaries Review Body[3]	—	0.292
House of Lords Appointments Commission	—	0.152
Total	1.047	2.088

[1] Expenditure

[2] The expenditure figure for The Better Regulation Task Force in 2002/03 is not directly comparable with the 1996–97 expenditure figure for its predecessor, the Deregulation Task Force. The Better Regulation Task Force figure includes staff costs for the Task Force secretariat. Staff costs for the Deregulation Task Force in 1996–97 were not calculated.

[3] Although sponsored by the Cabinet Office, costs are met by the DTI.

Parliamentary Questions

Norman Baker: To ask the Minister for the Cabinet Office what criteria are applied, and by whom, when a decision is taken that duplicate Parliamentary Questions tabled to different departments should be responded to by means of one composite reply; what mechanism exists for identifying such questions; and if he will make a statement. [162308]

Mr. Alexander: Departments prepare answers to Parliamentary Questions in accordance with the Guidance to Officials on Drafting Answers to Parliamentary Questions, re-issued by the Cabinet Office in September 2002. Departments liaise with each other from time to time where Parliamentary Questions cut across departmental boundaries. It is for individual Ministers to decide on the contents of answers to Parliamentary Questions.

Recycling

Mr. Heald: To ask the Minister for the Cabinet Office what targets he has set in his Department for the recycling of waste *(a)* paper, *(b)* cardboard, *(c)* glass, *(d)* metal and *(e)* plastic in each of the last three years; and what results have been achieved. [160064]

Mr. Alexander: The Cabinet Office works towards meeting waste targets set for individual Government Departments by the Ministerial Sub-Committee (ENV(G)).

Figures for Cabinet Office recycling in each of the last three years are published in the Greening Government 3rd Annual Report and the Sustainable Development in Government 1st and 2nd Annual Reports.

Online copies of all three reports can be found at: http://www.sustainable-development.gov.uk/sdig/reports/index.htm.

CONSTITUTIONAL AFFAIRS

Judges' Instructions

Mr. Grieve: To ask the Parliamentary Secretary, Department for Constitutional Affairs on what basis the Home Secretary instructs judges to hold meetings with the public on their work. [159348]

Mr. Leslie: My right hon. friend the Home Secretary has not instructed the judiciary to hold meetings with the public. He and my right hon. and learned Friend the Secretary of State, hold the view that everyone invoived in the criminal justice system should engage closely with local communities, including judges and other members of the judiciary. Judges and magistrates already participate in court open days, court user groups and

work with schools. Through the Magistrates in the Community initiative, magistrates meet the community organisations across the country to discuss developments in the criminal justice system; and, with probation officers, have held similar meetings to explain and discuss community sentences. They will also be involved in the Courts Boards established under the new Unified Courts Administration to build better links between courts and the communities they serve.

Supreme Court

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Lord Chancellor has received a request to appear before the relevant committee in the Scottish Parliament to discuss the proposals for a UK supreme court. [162631]

Mr. Leslie: My right hon. and noble learned Friend the Secretary of State for Constitutional Affairs and Lord Chancellor received an informal request on 3 March 2004 to appear before the Scottish Parliament's Justice 2 Committee, which is inquiring into the Constitutional Reform Bill. He declined in accordance with Devolution Guidance Note 12, Attendance of UK Ministers and Officials at Committees of the Devolved Legislatures.

WORK AND PENSIONS

Company Pension Schemes

Mr. Drew: To ask the Secretary of State for Work and Pensions how many company pension schemes declared insolvent have been notified to his Department in the last three years. [162835]

Malcolm Wicks: This information is not available. The currently available source of information on pension schemes is the Pension Schemes Registry, which is administered by the Occupational Pensions Regulatory Authority (Opra). Their database does not allow us to identify the solvency position of the sponsoring company of a pension scheme.

We are exploring with industry representatives the basis on which we can establish firm estimates of the number of defined benefit schemes which wind up because of insolvency.

Disability Living Allowance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many households had more than one person claiming disability living allowance on the latest date for which figures are available. [162611]

Maria Eagle: At April 2003, there were an estimated 100,000 households in Great Britain in which two or more people were receiving DLA.

Incapacity Benefit Payments

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women received incapacity benefit payments made on mental health grounds in each year since 1997 in relation to (i) depression and (ii) stress; and if he will break down these payments by region. [163051]

Maria Eagle: The information has been placed in the Library.

Industrial Injuries Report

Mrs. Liz Blackman: To ask the Secretary of State for Work and Pensions whether he has received the report from the Industrial Injuries Advisory Committee on its review of Prescribed Disease A11. [162310]

Mr. Browne: The Industrial Injuries Advisory Council report on Prescribed Disease A11 has now been received by Ministers and we will be considering its recommendations.

Maternity Allowance

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many families are eligible to receive maternity allowance. [158057]

Maria Eagle: The information is not available.

National Insurance Contributions (Women)

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions what legislation prevents women who paid reduced National Insurance contributions before 1986 from making up those payments; and if he will make a statement. [162200]

Dawn Primarolo *[holding answer 18 March 2004]*: I have been asked to reply. A woman who had a valid reduced rate election in force before 1986 cannot pay voluntary Class 3 contributions to make up those payments. The relevant legislation is Regulation 132 of the Social Security (Contributions) Regulations 2001 (SI 2001 No. 1004). This regulation mirrored exactly Regulation 105 of Social Security (Contributions) Regulations 1979.

Parkinson's Disease

Mr. Baron: To ask the Secretary of State for Work and Pensions how many people with Parkinson's disease who are of working age are in receipt of disability living allowance; and how many of this number are in receipt of the higher allowance. [162567]

Maria Eagle: As at 30 November 2003, some 5,700 people of working age whose main disabling condition is recorded as Parkinson's disease were receiving disability living allowance and, of these, around 4,100 were receiving either a higher rate care component or higher rate mobility component or both.

Note:
Figures taken from a 5 per cent. sample at 30 November 2003
Figures are in thousands and rounded to the nearest hundred.

Source:
IAD Information Centre

Mr. Baron: To ask the Secretary of State for Work and Pensions how many people with Parkinson's disease received support from the Jobcentre Plus Disability Employment Advisory Service in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [162568]

Maria Eagle: Jobcentre Plus Disability Employment Advisers and Work Psychologists work with disabled jobseekers to help them overcome disability-related obstacles to work. They support people with a broad range of disabilities including Parkinson's Disease.

The information requested is not collected centrally and could only be obtained at disproportionate cost.

Pension Credit

Annabelle Ewing: To ask the Secretary of State for Work and Pensions what the estimated cost is of administering the pension credit in each of the first five years of its operation. [162683]

Malcolm Wicks: Information on the cost of administering Pension Credit is not currently available in the format requested. In accordance with the requirements of Resource Accounting and Budgeting the Department now accounts for its administration

and benefit expenditure by strategic objective, as set out in Public Service Agreements (PSA), and by individual Requests for Resources (RfRs), as set out in the Departmental Estimates and Accounts.

Pension Service (Telephone Calls)

Mr. Webb: To ask the Secretary of State for Work and Pensions how many and what percentage of telephone calls to *(a)* the pension credit application line and *(b)* the Pension Service which were not classed as engaged or abandoned were answered within 20 seconds in each month since it was established; how many and what percentage of attempted telephone calls to each reached an engaged tone in each month since it was established; and how many and what percentage of telephone calls to each were abandoned in each month since it was established. [160352]

Malcolm Wicks: The information is not available in precisely the form requested. Such information as is available is shown in the tables 1–3.

Table 1: Calls to pension credit application line: April 2003–February 2004

	Calls answered within 30 seconds		*Calls receiving engaged tone or recorded message that all agents are busy*		*Calls abandoned*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
April 2003	17,675	94.29	0	0.00	975	4.69
May 2003	32,733	99.94	10	0.03	18	0.05

February 2004	372,932	92.71	185	0.04	11,839	2.73

Table 2: Calls to the Pension Service: September 2002–March 2003

	Calls answered		*Calls abandoned*		*Calls engaged*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
September 2002	403,784	92.1	35,357	8.0	3, 946	0.9
October 2002	460,373	92.1	40,091	7.9	5,394	1.1
November 2002	688,659	92.1	68,410	5.7	444,083	37.3
December 2002	522,656	89.1	67,391	7.2	344,485	37.0
January 2003	673,753	86.9	109,601	13.6	33,057	4.1
February 2003	607,083	89.3	74,174	6.2	514,357	43.1
March 2003	734,955	90.4	76,882	4.4	920,733	53.1

Table 3: Calls to the Pension Service: April 2003–January 2004

	Calls answered		*Calls answered within 30 seconds*		*Calls abandoned*		*Calls engaged*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
April 2003	567,101	91.1	n/a	n/a	71,947	7.8	303,825	32.8
May 2003	610,728	83.3	n/a	n/a	122,771	9.4	572,388	43.8
June 2003	750,360	86.6	n/a	n/a	116,575	10.2	278,937	24.3
July 2003	792,427	87.8	n/a	n/a	110,083	8.9	329,937	26.8
August 2003	704, 052	89.1	444,135	69.9	90,325	9.1	182,213	1.2
September 2003	882,761	90.1	535,341	68.2	97,195	9.0	99,611	1 .5
October 2003	1,043,354	94.5	664,233	78.1	58,062	5.2	5,961	0.1
November 2003	1,178,443	92.2	581,373	67.6	100,239	7.7	7,568	0.4
December 2004	1,097,450	93.0	519,152	70.1	78,984	6.6	1,283	0.1
January 2004	1,235,864	92.2	584,810	63.8	103,342	7.7	3,471	0.3

Notes:

1. In Table 1, the number of calls receiving the engaged tone or a recorded message was unusually high in September due to technical problems with the telephony at one particular site. The number of calls affected by these problems cannot be separated out.

2. The figures in Tables 2 and 3 do not include calls to the pension credit application line

3. For The pension service, numbers of calls answered within 30 seconds are only available from August 2003

4. In all three tables, the numbers of calls answered, abandoned and engaged are not calculated on precisely the same basis and in some cases the columns will add up to more than 100 per cent.

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the annual cost to public funds from April, net of savings in mean-tested benefits and additional income tax revenue, *(a)* of paying state pensions in full at the rate of a Category A pension to every UK pensioner aged between 65 and 74, regardless of their contribution record and *(b)* of paying a full basic state pension to each individual at the rate of the guarantee credit, regardless of contribution record, from the age of 75; and if he will estimate for *(b)* the cost in each of the following four years on the assumption that the pension was then indexed to earnings. [162682]

Malcolm Wicks: The annual additional cost to the Exchequer, net of additional income tax and savings in income related benefits of paying the full basic pension at the rate of a Category A pension to every GB pensioner aged between 65 and 74 is £2.1 billion.

The additional cost to the Exchequer of paying the basic state pension at the rate of the guarantee credit, regardless of contribution history, to all aged 75 and over is in the following table:

£ billion

	Net Cost
2004	4.4
2005	4.6
2006	4.9
2007	5.3
2008	5.6

Notes:

1. Figures are for Great Britain and in 2003–04 price terms rounded to the nearest £100 million. It is assumed the change comes into effect from April 2004 and payment is uprated in line with earnings thereafter.
2. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections.
3. The costs take into account income related benefit offsets, which are calculated using the DWP policy simulation model and April 2004 benefit rates.
4. Additional income tax revenue is estimated by the Inland Revenue using 2004 tax rates.

Dr. Iddon: To ask the Secretary of State for Work and Pensions what percentage of average male earnings the state retirement pension for a single person represented in each year from 1994 to 2004. [162177]

Malcolm Wicks: The information is not available in the format requested. However, such information as is available is set out in the table.

	Percentage
1995	19.8
1996	19.7
1997	19.9
1998	19.8
1999	19.3
2000	19.0
2001	18.9
2002	18.8
2003	18.9

1. All figures are provided from a 5 per cent. sample of DWP administrative data taken at March in each year, except March 1995 which is a 10 per cent. sample. We are only able to provide figures from March 1995 as the administrative data is not available before this point.
2. Neither administrative data nor earnings data for 2004 is available.
3. State pension is calculated as the maximum rate of basic state pension plus the average amount of additional pension in payment based on March administrative data for recently retired men aged 65.
4. Average earnings is the mean weekly earnings at April in each year, found in the Annual Abstract of Statistics published by the Department for Work and Pensions.
5. The figures have been rounded to the nearest 0.1 of a percentage point.

Winter Fuel Allowance

Peter Bradley: To ask the Secretary of State for Work and Pensions how many people over *(a)* 60 years and *(b)* 80 years are in receipt of the winter fuel allowance in The Wrekin. [162774]

Malcolm Wicks: The information is as set out in the table below.

Winter Fuel Payment

	Number of people over 60	*Number of people over 80*
2003–04	17,116	3,220

Source:
IAD Information Centre, 100 percent sample.

Notes:

1. Figures taken from the Matching Intelligence Data Analysis Service Winter Fuels Payment 2003/2004 exercise 100 per data.
2. Figures are rounded to the nearest five.

Dr. Tonge: To ask the Secretary of State for Work and Pensions what assessment he has made of *(a)* payment errors and *(b)* overpayments of winter fuel allowance to older people. [162074]

Malcolm Wicks: During winter 2002–03 some 11,356,000 winter fuel payments were made. About 0.4 per cent. (48,972) were incorrect. Those pensioners who were underpaid were sent further payments when the facts were established. In a very small proportion of cases there was overprovision because for example, some recipients' circumstances had changed or duplicate payments had been made in error.

CULTURE, MEDIA AND SPORT

Activity Co-ordination Team

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport how many times she has met the Secretary of State for Health to discuss the work of the Activity Co-ordination Team. [162164]

Mr. Caborn: The Secretary of State for Culture, Media and Sport and the Secretary of State for Health have met formally on one occasion to discuss the work of the Activity Co-ordination Team. They are due to meet again at the end of March 2004.

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport what budget her Department has allocated to the work of the Activity Co-ordination Team. [162165]

Mr. Caborn: The Activity Co-ordination Team (ACT) has been established by Government to increase participation in sport and physical activity. ACT is not a funding body but will publish shortly a paper setting out proposals to tackle physical inactivity.

Broadcasting (Children)

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to her Answer of 4 December 2003, *Official Report*, columns 163–4W on broadcasting (children), what representations she has received on establishing a national digital radio network for children; and if she will make a statement. [162090]

Estelle Morris: A number of representations have been received. However, as I explained in my Answer of 4 December 2003, *Official Report*, columns 163–4, the licensing of commercial radio stations is a matter for Ofcom, and Ministers cannot intervene. Parties interested in establishing a national digital radio network for children should approach Ofcom and holders of the national and regional commercial digital sound multiplexes.

Departmental Scientific Adviser

Dr. Iddon: To ask the Secretary of State for Culture, Media and Sport whether her Department has a chief scientific adviser. [162482]

Estelle Morris: The Department for Culture, Media and Sport has not appointed a chief scientific adviser. DCMS has access to a wide range of expert scientific and technological advice through its own economists and statisticians, its standing and ad hoc advisory groups, its sponsored bodies and other research and development partners. This advice is called upon as and when necessary to support policy-making activities and inform Ministerial deliberations.

Digital Television

Llew Smith: To ask the Secretary of State for Culture, Media and Sport what the level of take-up of digital television services has been from 1998 to the most recent date for which figures are available, broken down by region; and what steps have been taken since June 2003 to improve the collection and compilation of regional data. [161914]

Estelle Morris: This information is not available currently. Subscriber figures for the take up of digital television services are not available on a regional basis, as the data is commercially sensitive and therefore confidential to the pay television companies. However the Office for National Statistics hope to be able to produce figures on the level of take up of all digital television services on a regional basis in the future, and I understand Ofcom are compiling some estimates of regional take-up. The Department is currently having discussions on the possibility of commissioning research on the take-up of digital television services by region.

Film Making

Simon Hughes: To ask the Secretary of State for Culture, Media and Sport what *(a)* financial and *(b)* other assistance has been provided towards film making in (i) Greater London and (ii) England in each of the last five years. [162341]

Estelle Morris: The following table gives details of financial assistance towards film making in (i) Greater London (GL) and (ii) the rest of England (Eng) for the last five years. Prior to the establishment of the UK Film Council in April 2000, funding for film production was channelled through the British Film Institute's (BFI) production arm, the Arts Council of England (ACE) and British Screen Finance Limited. The UK Film Council took over responsibility for investing in film making from the date of its inception in April 2000.

Also, from 2001–02 an additional £7.5 million per year has been allocated to regional film development, and allocated through the Regional Screen Agencies. These have the promotion of film making as a core concern, but also assist training programmes and a wide range of other activities which work to promote film on a regional level.

In addition to the funding referred to above, the UK Film Council's film-making scheme for young people, First Light, has made 34 awards to projects in Greater London at a cost of £494,466, and awarded funding to an additional 120 projects in the rest of England at a cost of £1,250,765.

As well as financial assistance, the UK Film Council works to create the best possible environment for film-making in the UK. Examples of its activities include the joint establishment, with Skillset, last year of the first ever skills strategy for the film industry.

Notes:

A regional breakdown of ACE lottery awards for film production is not available due to the awards being grouped as national grants.

Figures for spend in England does not include the spend for Greater London.

Film funding is non location specific, i.e. an award can be made to production company based in London but the film itself could then be shot (and funding spent) on locations across England and the UK.

Libraries

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on library *(a)* buildings and *(b)* books in (i) Lancashire and (ii) Chorley in each year since 1997. [162153]

Estelle Morris: Information on Lancashire's expenditure on premises is contained in the following table. It is based on the premises expenditure per thousand population and the population figures shown in the relevant annual Public Library Statistics volumes produced by the Chartered Institute of Public Finance and Accountancy, copies of which are held in the House of Commons Library. These figures are not broken down below library authority level. 2001–02 are the latest "actual" figures available (figures for 2002–03 are only available as an estimate at present).

Expenditure on books in Lancashire and Chorley is shown in a further table. Figures relating directly to Chorley are not available; the figures below are based upon a best estimate provided by Lancashire County Council.

Expenditure on library premises

£

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
Lancashire	2,017,800	1,782,384	1,674,801	1,873,020	1,970,360

Expenditure on books

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Lancashire						
Resources Fund (£)	3,202,933	2,389,655	2,256,429	2,432,519	2,447,138	2,569,364
Books (£)	2,643,901	1,960,919	1,818,357	1,861,551	1,795,926	1,936,070

Books (£)	181,107	168,835	156,742	161,955	158,939	171,923

National Endowment for Science, Technology and the Arts

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will list the ideas sponsored by the National Endowment for Science, Technology and the Arts which have gone into commercial production. [162575]

Estelle Morris: Of 430 awards to date, 143 investments have been made through the Invention and Innovation Programme (which is the programme most relevant to commercial production). 40 projects have gone beyond the prototyping stage and have, therefore, a product or service that is available to buy. Of these 32 have actually sold a product.

The National Endowment for Science, Technology and the Arts (NESTA) is an early stage investor, supporting projects long before they reach their production phase. As such, given that NESTA has only been in existence for five years, we would not expect most of their awardees to have reached the stage of commercial production.

The 32 projects that have achieved a sale are as follows. Projects details are available in the Annual Reports of NESTA that are laid before the House.

Project Name	*Individual*
Amphibious Vehicle	David Royle
Transition Sailing Rig	Dr. Richard Dryden
DECOi Ltd.	Mark Goulthorpe
Aquadraulics Ltd.	Michael Brisland
Walltransform	Glenn Melvin
MusicWheels 'a musical revolution'	Duncan Betts
Benchrover	Ian Stuart
Bacteria Detection in Food Borne Disease	Osborn Jones
DEVL Duddon Electronics Vehicle Logger	Eddie Clunan
Protein Music	Dr. Helen Linda Long
Moviposter	Michael Medora
Surface Monitoring Fluorimeter	David Ward
RoBAT	Colin Barker
Fueler	Mark Howarth
Combustion	Paul Cockle
Great British Theatre on Video	Robert Marshall
Kre8 SYSTEM	Stewart Dunn
Jericho Products	James Philips
WarpFilms Project	Steve Beckett
Anamorphic micro	Justin Thomas
Eyeball Swimming Pool Security	Richard Mansfield
The High Tide Organ	Liam Curtin
Seawater Greenhouse	Charlie Paton
PsychologyOnline	Sue Wright
Imprint Pharmaceuticals Limited	Kevin Maynard
Monitored Dosage System	David Fenn
Medipure Limited	Jim Daly
STesT Leak Radar	Mark Harper
Changing Handles for Good	Glen Heavenor
Hypertag	Jonathan Morgan
Safety Riding Wear	Vicky Sharpe
NanoSight Ltd.	Bob Carr

Opinion Sampling

Mr. Laws: To ask the Secretary of State for Culture, Media and Sport what her estimate is of total expenditure by her Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if she will make a statement. [162753]

Mr. Caborn: Total annual Departmental expenditure on focus groups and opinion polling during the period between 1996–97 and 2003–04 was £29,820 on focus groups during 2001–02 and £34,662 and £74,701 on opinion polling during 2001–02 and 2002–03.

Police Transfers

Chris Grayling: To ask the Secretary of State for Culture, Media and Sport whether an officer in the Royal Parks Constabulary who is within two years of retirement at age 60 years will be eligible for transfer to the Metropolitan police. [160347]

Mr. Caborn: Although the normal retirement age for Metropolitan police officers is 55, they may be granted annual extensions of service up to the age of 60 subject to the satisfaction of certain eligibility tests. An officer in the Royal Parks Constabulary who is 58 or over at the time the RPC is merged with the Metropolitan Police Service (which of course depends on the passage of the appropriate legislation, which has not yet been brought forward) will be considered for attestation as an MPS officer on this basis.

Running Tracks

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport what grants have been made for running tracks in *(a)* Greater Manchester, *(b)* Merseyside, *(c)* Lancashire and *(d)* Cheshire in each year since 1997; and what the amounts were in each case. [162154]

Mr. Caborn:

Grants made for running tracks

	Cheshire	*Cumbria*	*Greater Manchester*	*Lancashire*	*Merseyside*
1997 Sum of Award (£)	—	—	2,768,000	—	—
Count of Award	—	—	1	—	—
1998 Sum of Award (£)	—	—	847,520	1,059,975	—

1999 Sum of Award (£)	4,152	1,944	—	3,500	—
Count of Award	1	1	—	1	—
2000 Sum of Award (£)	7,600	—	1,394	17,753	29,818
Count of Award	2	—	1	6	7
2001 Sum of Award (£)	15,662	7,097	—	20,989	4,890
Count of Award	4	2	—	5	1
2002 Sum of Award (£)	10,580	6,835	—	86,446	174,730
Count of Award	3	3	—	22	10
2003 Sum of Award (£)	407,464	13,307	223,285	139,250	55,208
Count of Award	7	4	3	19	4

The table shows Sport England Community athletics awards including the Community Capital and Community Athletics Refurbishment Programme grants, as well as Awards for All grants.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Culture, Media and Sport what steps she has taken to enhance science in her Department since the publication of the Government's science strategy Investing in Innovation. [162241]

Estelle Morris: The Department for Culture, Media and Sport has responded to the science agenda outlined in "Investing in Innovation" in several ways since its publication in July 2002.

DCMS is the first department to take part in the cross-cutting review now being conducted by the Office for Science and Technology, which was advocated in the document. DCMS recognises that a number of its sponsored bodies, in particular the Natural History Museum and the Science Museums, have a key role to play in science education and can make major contributions to the Government's drive to improve further the quality of science teaching in schools and colleges, the scientific knowledge of young people entering the workforce, the image of science within society and the scientific understanding of the public generally.

In February 2003, the National Endowment for Science, Technology and the Arts (NESTA) which is sponsored by DCMS, received an additional 50 million bringing its endowment up to 250 million and an extra 45 million to use as revenue expenditure until 2006. NESTA now plans to spend over 20 million a year on UK creativity and innovation in science, technology and the arts.

DCMS is continuing to develop a Research Strategy which coordinates social science research with our Non Departmental Public Bodies.

Sport Expenditure

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport how much her Department spent per capita in grant-in-aid for sport in England in each of the last five years. [162162]

Mr. Caborn: The Department for Culture Media and Sport's grant-in-aid funding for Sport England in 1998–99 was £36.49 million, in 1999–2000 was £37.52 million, in 2000–01 was £38.32 million, in 2001–02 was £43.16 million and in 2002–03 was £80.32 million, as illustrated. These figures do not reflect the grant-in-aid funding which the Department provides to UK Sport.

	Grant-in-aid funding (£ million)	*Population totals (million)*	*Funding per capita (£)*
1998–99	36.49	48.7	0.75
1999–2000	37.52	48.9	0.77
2000–01	38.32	49.1	0.78
2001–02	43.16	49.3	0.87
2002–03	80.32	49.5	1.62

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport if she will place in the Library the latest available research showing what each European Union member country spends in direct government expenditure per capita on sport. [162163]

Mr. Caborn: No direct comparison of government expenditure per capita on sport by European Union member states has been made by the Department for Culture, Media and Sport or the Sports Councils the Department funds. Meaningful comparisons are difficult because of the differences between the ways sport is structured and financed from country to country.

Simon Hughes: To ask the Secretary of State for Culture, Media and Sport what funding has been provided to promote *(a)* hockey, *(b)* rugby, *(c)* soccer, *(d)* cricket and *(e)* other sports in Greater London in each of the last five years. [162342]

Mr. Caborn: The information requested is in the following table.

£

	Hockey	*Rugby Union*	*Football*	*Cricket*	*Other Sports*
1999 Sum of Award	189,067	949,625	936,950	27,554	23,147,854
Count of Award	4	6	29	4	136
2000 Sum of Award	712,024	27,130	3,875,902	156,826	11,583,244
Count of Award	8	6	106	50	341
2001 Sum of Award	1,771,412	570,793	594,067	601,326	33,474,131
Count of Award	7	16	87	45	296
2002 Sum of Award	615,458	309,952	2,569,851	1,275,456	28,488,443
Count of Award	9	10	103	60	476
2003 Sum of Award	22,518	625,640	533,837	3,189,745	2,288,964
Count of Award	5	9	122	54	320

The table shows Sport England Lottery awards benefiting a number of schemes and programmes in London including the Safer Sports Grounds initiative, Active Sports, English Institute of Sport, Active Communities Development Fund, Sport Action Zones, Football Youth Development, Community Capital and Community Athletics Refurbishment Programme grants, as well as Awards for All grants.

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport how much Lottery expenditure has been allocated to sporting projects in each of the past five years, broken down by Lottery distributor. [162166]

Estelle Morris: Money raised by the National Lottery specifically for Sport is distributed by five organisations, the Sports Councils in England, Wales, Scotland and Northern Ireland and by UK Sport. The figures in the table, provided by the distributors for the DCMS Lottery Awards database show the figures requested.

£000

	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*
SE	256,787,756	281,896,436	322,534,774	200,525,814	49,348,483
SI	4,850,455	5,339,265	1,263,666	275,798	275,039
SS	16,814,905	23,316,761	26,155,900	22,321,475	13,840,748
SU	26,777,576	64,905,697	16,896,624	9,686,653	7,320,776
SW	4,060,990	13,171,753	7,367,111	26,937,069	7,324,815
Total	309,291,682	388,629,912	374,218,075	259,746,809	78,109,861

In addition to these totals, Lottery money is directed to sport projects through other channels. Awards for All is a scheme funded by all of the Lottery good causes, which makes small awards across the good cause sectors. In the financial year 2002/03, Sport England contributed 9.770m to this scheme and in the following year, £12.5m. Total Awards for All spend attributable sporting projects was £13.608m in 2002–03 and 15.581 in 2003–04.

Lottery money has also been spent on sporting projects by the New Opportunities Fund, which has a remit to award money in relation to health, education and the environment. The New Opportunities for PE and Sport programme has made awards of £32,343,179 in 2002–03 and £142,734,236 in 2003–04. The Active England programme has made £17,699,899 of awards in 2003–04.

Elements of other NOF programmes have also funded sport projects. The awards in the table have been made under the Playing Field and Community Green Spaces programme.

	£000
2001	765,432
2002	11,810,847
2003	15,322,777

Sport related projects have also been awarded Lottery money by NOF under the Out of School Hours Learning Programme, as in the table below.

	£000
1999	32,881,535
2000	56,987,670
2001	48,393,488
2002	13,815,153
2003	1,065,337

Sports (Honours)

Mr. Hinchliffe: To ask the Secretary of State for Culture, Media and Sport if she will list the membership of the advisory committee responsible for recommending the

awarding of honours to persons involved in sport; what the background is of each member; how long each has served on the committee; what their sporting expertise is; and if she will make a statement. [161216]

Mr. Caborn: No. Information about advisory committees in the honours system and the advice they give is protected from disclosure under exemptions 2 and 8 of the Code of Practice on Access to Government Information, and is not made public.

NORTHERN IRELAND

Alcohol Addiction

Lady Hermon: To ask the Secretary of State for Northern Ireland how many people were receiving treatment for alcohol addiction in Northern Ireland on 1March; what facilities are available in Northern Ireland for the treatment of alcoholics; and if he will make a statement. [161896]

Angela Smith: On 1 March there were approximately 2,966 persons receiving treatment for alcohol misuse. It is not possible to give an absolute figure because some individuals may have a co-morbid diagnosis of alcohol and drug dependence.

A range of treatment options is provided by the statutory and voluntary sector. These include community based detoxification, counselling, residential treatment and after care. A comprehensive Review of all Mental Health services is currently under way—part of this Review involves looking at those services specifically allocated to problem drug and alcohol users. Decisions about future services for such users will continue to be based on the assessment of clinical need mindful of current good practice and appropriate guidelines.

Antisocial Behaviour

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to minimise antisocial behaviour in *(a)* accident and emergency departments and *(b)* hospitals in general; and if he will make a statement. [161680]

Angela Smith: The Department is extremely concerned about violent attacks against any staff working in the Health and Personal Social Services (HPSS), including attacks on staff in accident and emergency departments and in hospitals in general. The Department regards such attacks as totally unacceptable and will be launching a campaign shortly to raise public awareness that violent acts against staff working in the HPSS will not be tolerated, that violence against staff is a crime and that the perpetrators could face a prison sentence.

Cattle Tagging

David Burnside: To ask the Secretary of State for Northern Ireland how many cattle in Northern Ireland have been re-tagged during the past two years owing to the animals losing their identification tags. [162801]

Mr. Pearson: The number of animals re-tagged in Northern Ireland during the past two years are as shown in the following table:

	Number of cattle re-tagged
2002	36,450
2003	19,787

Diabetes Services

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) whether the implementation team to produce the implementation plan for the Diabetes Service Framework in Northern Ireland has been established; and if he will make a statement; [162725]

(2) what timescale has been set for the production of an implementation strategy for the Diabetes Service Framework in Northern Ireland. [162734]

Angela Smith: It has been decided that the Department will manage the implementation process for the Diabetes Service Framework through the local groups established by the four HSS Boards rather than add a further level of bureaucracy by establishing a Regional Implementation Team.

An additional £1 million has been made available to Boards in 2004–05 to begin the implementation process and the Department has requested that the local groups identify and take forward prioritised recommendations within a framework which is to be agreed with the Department by May 2004

Fair Employment Exemptions

David Burnside: To ask the Secretary of State for Northern Ireland what exemptions are in place in Northern Ireland from equal fair employment laws; and whether these exemptions are from *(a)* United Kingdom, *(b)* European and *(c)* international law. [156671]

Mr. Spellar: The Fair Employment and Treatment (Northern Ireland) Order 1998 provides for the following exemptions:

Employment or occupation as a clergyman or minister of religion;

Employment where the essential nature of the job requires it to be done by a person holding/not holding a particular religious belief or political opinion ('genuine occupational requirement');

Recruitment of schoolteachers;

Selection of persons for appointment as police trainees or for certain posts in police support staff;

Actions done in pursuance of affirmative action (e.g. training, selection for redundancy, encouragement of applications from under-represented communities, selection of unemployed persons;

Religion specific training for non-employees;

Conferring of benefits by a charity on persons of a particular religious belief or political opinion;

Acts done in order to comply with existing legislation;

Provision of accommodation in, or disposal of shared small dwellings;

Care provided in family home where persons are treated as family members;

Goods, facilities or services provided by a religious denomination or political party to persons of a particular religion or political opinion (or none);

Goods, facilities or services provided by schools, colleges of education or theological training colleges;

Acts done for the purposes of safeguarding national security or protecting public safety or public order;

Private sale of land or premises.

The Government is satisfied that these exemptions accord with UK law generally, with EU law and with the UK's international obligations.

Illiteracy

Lady Hermon: To ask the Secretary of State for Northern Ireland what his latest assessment is of the levels of illiteracy in Northern Ireland, broken down by age group. [161285]

Jane Kennedy: Research to date has focused on measuring levels of literacy and at present no data are available which specifically identifies the levels of illiteracy.

The International Adult Literacy Survey (IALS) which was conducted in 1996 indicated that 24 per cent. of the adult population in Northern Ireland performed at the lowest level of literacy, level 1.

Of those adults performing at the lowest level of literacy:

20 per cent. were aged between 16–25;

16 per cent. were aged between 26–35;

21 per cent. were aged between 36–45; and

43 per cent. were aged over 45.

IVF Treatment

Lady Hermon: To ask the Secretary of State for Northern Ireland how many couples received IVF treatment on the NHS in Northern Ireland in the last five years for which figures are available; what the average length of treatment was; and if he will make a statement on IVF provision in Northern Ireland. [161290]

Angela Smith: The interim sub-fertility service was established in December 2001, making specialist treatments such as IVF available for the first time in Northern Ireland as part of a publicly-funded fertility service. Prior to that date IVF treatment in Northern Ireland was available only on a private basis.

It is not possible to provide precise data on the number of couples that have received IVF treatment as the data collected refers to treatment cycles provided rather than couples treated. The following table sets out the number of IVF treatment cycles commissioned since the establishment of the interim sub-fertility service.

	Number of IVF cycle commissioned
2001–02	147
2002–03	131
2003–04	207

Data are not collected on the average length of treatment.

A consultation document and equality impact assessment on the future of sub-fertility services were issued for public consultation on 13 October 2003. In developing the paper, my Department worked closely with commissioners, providers and users of fertility services, to discuss issues and concerns. The consultation period closed on 30 January. The outcome of the consultation process will inform final decisions on the future provision of fertility services in Northern Ireland to be made later this year.

Key Stage 3

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what opportunity Key Stage 3 of the education curriculum will provide for all children to participate in physical activity. [161683]

Jane Kennedy: The current statutory curriculum at Key Stage 3 includes Physical Education as one of the compulsory subjects. Final decisions have not yet been made about the content of the revised curriculum. However, the Council for the Curriculum, Examinations and Assessment (CCEA) has proposed that there will be a requirement for all children to undertake a programme of physical activity. It is also proposed that this will continue into Key Stage 4.

Killyleagh Development

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much Northern Ireland departments intend to invest in Killyleagh in the next year. [158532]

Mr. Pearson: Details of the amounts that departments in the Northern Ireland administration (including Agencies and non-departmental public bodies) intend to invest in Killyleagh in the next financial year are shown as follows.

	Details	*£000*
Rivers Agency	Replacement of culvert in Shrigley, Killyleagh.	5
Roads Service	Footpath from the Comber Road Estate to St. Mary's School.	10
	Surface dressing for the Innishbeg and Kerrywynn Estates.	10
	Surface dressing on the A22 Comber Road, from River Bridge to Comber Road Estate.	5
Housing Association Grant	Over the next three years, a grant of 341,000 will be provided for a new build housing scheme of four units for general needs accommodation. Clanmil Housing Association will provide these units at Frederick Street, Killyleagh.	137
Housing Executive	Variety of projects including improvements, repairs, adaptations and maintenance.	510

Libraries

Lady Hermon: To ask the Secretary of State for Northern Ireland how many *(a)* public libraries and *(b)* mobile library units there were within each Education and Library Board district in Northern Ireland in each year since 2000; and if he will make a statement on public library usage in Northern Ireland. [161287]

Angela Smith: The following table sets out details of public libraries and mobile library units in each Education and Library Board area since 2000. We can be justifiably proud of our public library service that is regularly used by people of all ages and social classes. While the trend in traditional library usage has been declining in recent years, the most recent published figures show that in 2001–02 approximately 7 million visits were made to public libraries in Northern Ireland. Since the installation of the Peoples Network during 2002–03, indications are that membership of public libraries has been increasing but as yet official figures are not available.

	2000–01		*2001–02*		*2002–03*	
	Branches	*Mobiles*	*Branches*	*Mobiles*	*Branches*	*Mobiles*
Belfast	21	3	21	3	21	3
North Eastern	36	8	37	8	37	8
South Eastern	26	5	26	5	26	5
Southern	23	7	23	7	23	7
Western	16	9	16	9	16	9
Total	122	32	123	32	123	32

This table excludes the Irish Studies Centre, Coleraine, the Local Studies Unit, Ballymena and the Irish Studies Centre in Armagh.

Multiple Sclerosis

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps he is taking to increase provision for multiple sclerosis sufferers in *(a)* North Down and *(b)* Northern Ireland; and if he will make a statement. [161888]

Angela Smith: Over 500 patients in Northern Ireland are receiving beta interferon treatment and there are around 65 on the waiting list. These figures include 198 patients receiving beta interferon in the Eastern Health and Social Services Board area, with funding available for a further 12 patients.

Additional £100,000 recurrent funding was provided last year to boost the Northern Ireland infrastructure for the delivery of these medicines, including the appointment of additional pharmacists, technician support and specialist nurses who are now in post. Additional consultants have been appointed and Regional joint medical/nursing clinics are also being set up. The Ulster Hospital, covering the North Down area, is working with the Royal Victoria Hospital to develop a joint plan for a shared additional consultant neurologist post. A consultation service for multiple sclerosis patients is expected to be up and running there within the next 12 months.

Rail Services

Lady Hermon: To ask the Secretary of State for Northern Ireland with what frequency safety inspections are carried out on Translink rolling stock, broken down by type. [161893]

Mr. Spellar: I have been advised by Translink that:

(a) bogey inspections are carried out on all rolling stock every 48 hours;

(b) 450 and 80 Class rolling stock and ex-Gatwick Express carriages are inspected every 5,000 miles;

(c) Enterprise carriages are inspected every 24 hours and a weekly examination is also carried out; and

(d) locomotives are inspected every three months.

Lady Hermon: To ask the Secretary of State for Northern Ireland which organisation is responsible for the *(a)* inspection and *(b)* maintenance of railway lines in Northern Ireland; how often safety inspections are carried out on railway lines in Northern Ireland; and if he will make a statement. [161894]

Mr. Spellar: Northern Ireland Railways is responsible for the inspection and maintenance of railway lines in Northern Ireland. Primarily Northern Ireland Railway's own labour force carries out maintenance, with input from specialist contractors as required for technical or volume reasons. I have been advised by Translink that the inspection regime is as follows:

Track

Jointed track is visually inspected every other day, Monday-Friday.

Continually welded track is inspected weekly.

Supervisory inspections are carried out at least half yearly.

Technical condition of track is recorded twice yearly.

Structures

Sea defences are inspected annually.

Rock slopes are inspected monthly.

Bridges are inspected visually during track walks and structurally on an annual basis.

Signalling equipment

All signalling equipment is inspected four times per year.

Additional inspections are carried out after incidents such as severe weather and where impact damage has occurred.

Civil Servants

Matthew Taylor: To ask the Secretary of State for Northern Ireland what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158185]

Mr. Pearson: Most recruitment to the Northern Ireland Civil Service, including NICS staff seconded to Northern Ireland Office is carried out by the Department of Finance and Personnel. Expenditure by the Department on recruitment services is as follows:

	£ million
2001–02	3.5
2002–03	1.5
2003–04	1.4

Information on expenditure before 2001–02 and on expenditure by other Departments is not readily available and could be obtained only at disproportionate cost.

Smacking

Lady Hermon: To ask the Secretary of State for Northern Ireland how many responses to the Office of Law Reform's consultation Physical Punishment in the Home supported *(a)* the law as it stands, *(b)* a change in the law to restrict smacking by parents and *(c)* a change in the law to completely ban smacking by parents. [161892]

Mr. Pearson: "The Office of Law Reform's Consultation Paper—"Physical Punishment in the Home—Thinking about the Issues, Looking at the Evidence" generated a huge amount of interest and attracted almost 1,700 responses.

Officials have now completed an analysis of those responses and are aiming to publish that analysis, which contains the information requested, in the next few weeks. A copy of the analysis will be placed on the Office of Law Reform's website and I will arrange for a hard copy to be forwarded on as soon as it becomes available."

Speed Cameras

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many speeding detections were made by *(a)* hand held and *(b)* permanent cameras between March 2003 and February 2004, broken down by (A) parliamentary constituency and (B) council area; and how many convictions resulted in each case. [160320]

Mr. Paul Murphy: The Chief Constable has advised me that speed cameras are not located as a result of parliamentary constituency or council area. They are used to enforce speed restrictions in all areas of the Province where there is a history of road traffic collisions resulting in fatalities and serious injuries or where there is evidence of speeding.

The number of speeding detections made in 2003 are:

Hand held devices = 23,840

Permanent (fixed) cameras = 5,772

The detections broken down by police districts are:

DCU	*Hand held devices*	*Fixed cameras*
Antrim	869	—
Newtownards	937	—
East Belfast	831	1,656
North Belfast	547	445
South Belfast	954	—
West Belfast	127	162
Carrickfergus	542	—
Castlereagh	1,865	3,509
Larne	298	—
Lisburn	748	—
Newtownabbey	652	—
North Down	1,126	—
Armagh	497	—
Ballymena	1,898	—
Ballymoney	661	—
Banbridge	2,182	—
Coleraine	719	—
Cookstown	324	—
Craigavon	1,419	—
Down	769	—
Dungannon	459	—
Fermanagh	873	—
Foyle	1,090	—
Limavady	564	—
Magherafelt	762	—
Moyle	10	—
Newry and Mourne	1,200	—
Omagh	614	—
Strabane	303	—

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the location of each permanent speed camera in Northern Ireland was between March 2003 and February 2004; how many detections were made by each camera; how many convictions were made as a result; and how much money was generated through speeding fines from each camera. [160321]

Mr. Paul Murphy: The Chief Constable has advised me that the information is not available in the format requested however, the locations of the four fixed speed cameras and the number of detections in 2003 are:

	Number
Saintfield Road, Belfast	3,509
Upper Newtownards Road, Belfast	1,656
Antrim Road, Belfast	445
Springfield Road	162

It is not possible to say how many convictions resulted as the disposal of detections is accomplished in different ways.

From July 2003 to January 2004 a total of £461,753 has been collected.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many speed cameras were operated by the Police Service of Northern Ireland between March 2003 and February 2004, broken down by *(a)* parliamentary constituency and *(b)* council area. [160323]

Mr. Paul Murphy: The Chief Constable has advised me that speed cameras are not located by parliamentary constituency or council area but are located to enforce speed restrictions in all areas of the Province where there is a history of road traffic collisions resulting in fatalities and serious injuries or where there is evidence of speeding.

The number of fixed speed cameras in operation by the Police Service is as follows:

Fixed cameras location	*Police DCU*
Saintfield Road, Belfast	Castlereagh area
Upper Newtownards Road, Belfast	East Belfast area
Antrim Road, Belfast	North Belfast area
Springfield Road, Belfast	West Belfast area

In addition there are eight mobile speed cameras, which operate across all of Northern Ireland.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many fixed speed cameras are in operation in Northern Ireland; how many new cameras are planned; how many drivers were caught speeding in each of the last five years; what revenue was raised as a result; where that revenue went; and what assessment he has made of the extent to which these cameras have contributed to a reduction in occurrence of road accidents caused by speeding. [156100]

Mr. Paul Murphy: Four fixed site safety cameras came into operation in Northern Ireland on 1 July 2003 and installation of a further six to 10 fixed cameras is planned in the next six months. A total of 461,753 has been collected and so far all receipts have been passed to the UK Consolidated Fund.

Over the last five years 138,044 motorists have been detected by all forms of speed detection equipment for excess speed as follows:

	Number
1999	24,696
2000	25,222
2001	28,659
2002	29,855
2003	29,612

It is too early to evaluate the effect of the safety camera scheme in terms of the Government's road casualty reduction targets but indications are that there has been a considerable reduction in speeds at a fixed camera location.

Union Flag

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the flying of the Union flag on public buildings on designated days when the Union flag is flown on Government buildings in Northern Ireland. [162408]

Mr. Spellar: The flying of the Union flag from buildings wholly or mainly occupied by members of the Northern Ireland Civil Service is regulated by the Flags Regulations (Northern Ireland) 2000. The flying of the Union flag from all other public buildings is a matter for the public authority concerned.

University of Ulster (Car Clamping)

David Burnside: To ask the Secretary of State for Northern Ireland what *(a)* personnel and *(b)* financial resources have been required to deal with the decision of the University of Ulster to introduce car clamping at the campuses of (i) Jordanstown, (ii) Coleraine and (iii) Londonderry; what the impact has been upon the host communities at each location; and what steps he is taking to ensure that the costs incurred by the Police Service of Northern Ireland as a result of this policy will be recouped from the university. [160241]

Jane Kennedy: The University of Ulster, which is an autonomous institution responsible for its own policies and practices introduced vehicle clamping due to the lack of ordered parking, which involved, for example, parking in spaces reserved for the disabled, on verges, at corners and other areas marked by double yellow lines, and in ways which dangerously restricted access to entrances and exits. The new arrangements have been put in place to prevent such inconvenience and danger to car park users and have been very successful.

The University is deeply conscious of the importance of good relations with local residents and has sought the co-operation of both staff and students in not parking in the streets surrounding the University campuses.

No significant costs have been incurred by the University because clamping is carried out by an external company.

At Jordanstown, it has been necessary for the police, on a number of occasions, to deploy traffic wardens adjacent to the complex. They have issued in the region of 315 fixed penalty tickets since September 2003.

At Coleraine and Londonderry there has been minimal impact on local police resources as any illegal parking is dealt with by the local police in the normal course of their duty. It is therefore not possible to provide an estimation of costs.

HEALTH

Allergies

Llew Smith: To ask the Secretary of State for Health what research has been *(a)* conducted and *(b)* commissioned by his Department into the possible links between environmental pollution and allergies. [159938]

Dr. Ladyman: The Department is funding research on air pollution and asthma under its Policy Research Programme. Current work focuses on two areas:

potential confounding effects of allergens in ambient air in determining the effects of air pollution as asthma exacerbations;

effects of other air pollutants on patients with asthma.

A report on air pollution and asthma by the Committee on the Medical Effects of Air Pollutants is expected to be published in 2005.

Bounty

Norman Baker: To ask the Secretary of State for Health what steps he is taking to ensure that data collected from new mothers by Bounty is *(a)* subject to the Data Protection Act and *(b)* not passed on for commercial reasons. [161730]

Dr. Ladyman: It is not the role of the Department to regulate private organisations' compliance with the Data Protection Act 1998. Any concerns about whether Bounty is complying with the Data Protection Act 1998 should be raised directly with the Office of the Information Commissioner.

Norman Baker: To ask the Secretary of State for Health how much money the NHS has received from Bounty this year; and how much it has received in kind. [161731]

Dr. Ladyman: This information is not collected centrally.

Norman Baker: To ask the Secretary of State for Health if he will take steps to ensure that cotton nappies are available in all packs given to mothers of new-born babies. [161729]

Dr. Ladyman: Bounty is a commercial company who distributes packs containing free samples and leaflets to pregnant and recently delivered women. Decisions to include cotton nappies in these packs are a matter for Bounty and individual manufacturers of cotton nappies.

Mr. Swayne: To ask the Secretary of State for Health what steps he is taking to ensure that Bounty bags distributed to new mothers through NHS facilities do not include products which *(a)* adversely affect the health of babies, *(b)* increase costs to the NHS through charges for the disposal of clinical waste and *(c)* adversely impact on Government targets for the disposal of clinical waste; and if he will make a statement. [160981]

Dr. Ladyman: Bounty is a commercial organisation that distributes packs containing information and product samples to pregnant and recently delivered women. The Government have received no evidence to suggest that the products contained in the packs adversely affect the health of babies. Information on costs to the national health service through charges for the disposal of clinical waste as a result of the Bounty pack contents and the impact on Government targets on disposal of clinical waste are not collected centrally.

Care Homes

Sandra Gidley: To ask the Secretary of State for Health what the timetable is for the development of *(a)* accessible and *(b)* understandable information about care homes to enable consumers to make more informed choices. [161832]

Dr. Ladyman: Since 1 April 2002, all care homes have been required, under the Care Homes Regulations and National Minimum Standards, to make plain and accessible information available to residents in an appropriate format. This includes information about the accommodation and services provided by each establishment. The National Care Standards Commission (NCSC) is responsible for regulating care homes to ensure they meet the regulations and standards.

The NCSC makes available a register of all the services it regulates including details of each establishment and the types of care the service is registered to provide. It publishes reports of the majority of announced and unannounced inspections of regulated services (with exceptions being reports on children's services for child protection reasons). These are available to members of the public both via the internet and in printed form.

The NCSC will publish before the end of March 2004 its findings of analysis of performance of care homes in meeting the National Minimum Standard on Information to give a national picture of the quality of information provided by care services.

The Commission for Social Care Inspection (CSCI) will take over the functions of the NCSC from 1 April 2004. I understand that CSCI is developing a key corporate objective to ensure, over the next two to three years, that the maximum possible information is available for people in accessible form.

Charles Hendry: To ask the Secretary of State for Health if he will delay the implementation of the requirement for care home managers to have an NVQ qualification. [162374]

Dr. Ladyman *[holding answer 18 March 2004]:* The Government has no plans to postpone the requirement for care home managers to have a National Vocational Qualification by 2005.

Charles Hendry: To ask the Secretary of State for Health what representations he has received regarding the simplification of the Statement of Purpose that care homes are required to produce. [162375]

Dr. Ladyman *[holding answer 18 March 2004]:* The Department has not made any changes to the regulations relating to the Statement of Purpose (SOP) for care homes and we have not received any representations. The SOP contains essential information that assists inspectors in their inspections and is prescribed in regulation. Inspectors will need to take into account the types of service being operated—single businesses or large corporations—when making judgments about the suitability of SOP produced.

Charles Hendry: To ask the Secretary of State for Health what representations he has received regarding a reduction in the number of inspections required each year by care homes. [162376]

Dr. Ladyman *[holding answer 18 March 2004]:* My right hon. Friend the Secretary of State has not received any representations regarding a reduction in the number of inspections required each year by care homes.

Change Agent Team

Mr. Blizzard: To ask the Secretary of State for Health if he will make a statement on the work of the Change Agent Team. [162315]

Dr. Ladyman: The health and social care change agent team was established two years ago. The team has worked with councils and their National Health Service partners, supporting them to plan and deliver measurably improved services for older people. Changing Places: Report on the work of the Health and Social Care Change Agent Team 2002/3 was published in July 2003 and is available in the Library and at: http://www.dh.gov.uk/PolicyAndGuidance/OrganisationPolicy/TertiaryCare/ChangeAgentTeam/fs/en.

Charges Revenue

Mr. Laws: To ask the Secretary of State for Health what the total revenue was from *(a)* eye test charges, *(b)* dental check charges, *(c)* all other dental charges and *(d)* prescription charges in each of the last five years; and if he will make a statement. [156708]

Ms Rosie Winterton: There is no charge levied for sight tests under the National Health Service, which are provided free to children, people on low incomes and those at particular risk of eye disease. In 1999, we introduced free sight tests under the NHS to people aged 60 and over.

The information requested on dental charges is shown in table 1 for patient charge revenue (PCR) from the general dental services. The patient charge revenue from examinations covers all categories of patient examinations, including complex examinations. Charges are also collected in personal dental service pilots and for certain limited categories of dental treatment in community and hospital dental services, but detailed data on charge income in these areas is not collected centrally.

Table 1

£ million

	Total PCR	*PCR from examinations*	*PCR for other treatments (excluding PCR from examinations)*
1998–99	420.0	73	347.4
1 999–2000	432.2	77	355.5
2000–01	453,4	81	372.2
2001–02	470.0	85	385.1
2002–03	481.6	88	393.6

Income from prescription charges from 1998–1999 to 2002–03 is shown in table 2.

Table 2

	Income from charges (England)
1998–99	341
1 999–2000	367
2000–01	389
2001–02	408
2002–03	423

Dentistry

Mr. Simon Thomas: To ask the Secretary of State for Health how many dentures the NHS provided in each year since 2000–01. [161373]

Ms Rosie Winterton: Since the National Health Service was founded over 50 years ago, there has been a real and sustained improvement in oral health. Since the 1960s the proportion of adults with no natural teeth has fallen by 65 per cent. and adults with natural teeth now have on average 14 per cent. more.

Information on the number of dentures provided by the NHS is shown in the table for the general dental service (GDS) and personal dental service (PDS) for England, from the year ending March 2000 to the year ending March 2003.

Number of dentures provided by the NHS

	Year ending March			
Type of treatment	*2000*	*2001*	*2002*	*2003*
GDS				
Full upper and lower denture	177,880	165,928	153,647	135,531
Full upper or lower denture	105,927	102,217	97,531	95,935
Partial denture[1]	409,090	419,455	409,679	405,088
PDS	6,025	9,083	13,141	18,305
Total	698,922	696,683	673,998	654,858

[1] There may be several partial dentures in a single combination

Andrew Mackinlay: To ask the Secretary of State for Health from whom dentists from EU accession states can obtain details of the procedure for obtaining accreditation to *(a)* set up in private practice and *(b)* to qualify for employment within the NHS; whether this information is available on a website; and if he will make a statement. [161983]

Ms Rosie Winterton *[holding answer 17 March 2004]:* Dentists from European Union accession states will need to contact the General Dental Council to get details of the procedure for registration in the United Kingdom. Advice on English language requirements necessary to practise in the National Health Service is provided on the Department's website at www.dh.gov.uk/PolicyAndGuidance/HealthAndSocialCareTopics/Dental.

The National Advice Centre for Postgraduate Dental Education also offers relevant advice. Its website is: www.rcseng.ac.uk/fds/nacpde.

Diabetes

Mr. Alan Duncan: To ask the Secretary of State for Health what proportion of the total amount of funding provided for diabetes services has been allocated to paediatric diabetes services in *(a)* Gedling, *(b)* Broxtowe, *(c)* Rushcliffe, *(d)* Nottingham City South and *(e)* Melton, Rutland and Harborough Primary Care Trusts in the last year; and what amounts those proportions were. [162398]

Dr. Ladyman: It is for primary care trusts (PCTs) in partnership with strategic health authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services. Allocations for PCTs were announced on 11 December 2002 and further details can be found at http://www.dh.gov.uk/PolicyAndGuidance/OrganisationPolicy/FinanceAndPlanning/Allocations/fs/en.

DXA Scans

Sandra Gidley: To ask the Secretary of State for Health what the average waiting time for DXA scans was *(a)* in total and *(b)* broken down by strategic health authority in each year since 1997; and if he will make a statement. [161922]

Dr. Ladyman: Waits for diagnostic services are not recorded nationally.

The Government is committed to improving access to diagnostic services and the Department is working in partnership with strategic health authorities (SHAs) and other stakeholders to secure a more responsive

service. Each SHA is responsible for developing and implementing local improvement programmes for diagnostic services and to monitor progress against any locally agreed objectives.

Sandra Gidley: To ask the Secretary of State for Health how many hospitals are equipped to perform DXA scans *(a)* in total and *(b)* broken down by strategic health authority; and if he will make a statement. [161923]

Dr. Ladyman: This information is not collected centrally.

Sandra Gidley: To ask the Secretary of State for Health what the average distance travelled by patients in need of a DXA scan has been since 1997; and if he will make a statement. [161924]

Dr. Ladyman: This information is not collected centrally.

Ebixa

Mr. Hancock: To ask the Secretary of State for Health (1) which NHS trusts make the drug Ebixa available for people with dementia on the NHS; and which do not; [162293]

(2) if he will make it his policy to ensure that Ebixa is available, on prescription, to all people suffering from dementia regardless of the NHS trust area in which they live. [162294]

Dr. Ladyman: The National Institute for Clinical Excellence (NICE) is appraising Memantine (Ebixa) as part of the eighth wave of its work programme. The anticipated publication date of its guidance is May 2005.

The Department has asked National Health Service bodies (in HSC 1999/176) to continue with local arrangements for the managed introduction of new technologies, including drugs such as Memantine (Ebixa), where guidance from NICE is not published at the time the technology first became available. These arrangements should involve an assessment of all the available evidence.

Information about which NHS trusts are prescribing Memantine (Ebixa) is not collected centrally, but data collected about prescriptions dispensed in the community shows that Memantine (Ebixa) has been prescribed on the NHS in all strategic health authorities.

Epilepsy

Mr. Peter Ainsworth: To ask the Secretary of State for Health if he will make a statement on the availability of *(a)* advice on and *(b)* assistance with the ketogenic diet offered by the NHS. [161039]

Dr. Ladyman *[holding answer 12 March 2004]*: It is for primary care trusts, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services. , This will include responsibility for decisions on the availability of the ketogenic diet and of advice on and assistance with it.

Breast Cancer

Mr. Bercow: To ask the Secretary of State for Health how many and what percentage of women in Buckingham with suspected breast cancer saw a specialist within two weeks in each of the last seven years. [161566]

Ms Rosie Winterton: The information requested is shown in the table. However, data are only available from 1999–2000.

Waiting times for patients referred urgently by their GP with suspected breast cancer to first out-patient appointment: NHS Trusts in Buckinghamshire

Quarter/NHS Trust	Percentage of patients seen in two weeks	Total patients seen	Patients seen in two weeks

Hormone Replacement Therapy

Sandra Gidley: To ask the Secretary of State for Health how many women in England were prescribed hormone replacement therapy, broken down by drug type, in each year since 1997; and if he will make a statement. [161928]

Dr. Ladyman: We do not know how many women in England are prescribed hormone replacement therapy (HRT). The information that is available is on the number of prescription items of HRT that are dispensed in the community in England. This is shown in the table.

Number of prescription items of Oestrogens and HRT drugs that were dispensed in the community in England, 1997–2002

thousands

Chemical Entity	Number of prescription items					
	1997	1998	1999	2000	2001	2002
Estradiol	1,139.6	1,164.7	1,176.4	1,186.4	1,202.6	1,167.1

Prescription Cost Analysis (PCA) data from the Prescription Pricing Authority (PPA)

Hospitals (Body Disposal Procedures)

Mr. Fabian Hamilton: To ask the Secretary of State for Health (1) whether NHS hospital staff are obliged to see green forms issued by a registrar of births, marriages and deaths prior to the release of a body; [159965]

(2) what powers NHS staff have to prevent the release of a body from a hospital solely because funeral arrangements have not been made; [159999]

(3) under what powers staff in the NHS must release the bodies of those who die in hospitals. [160000]

Ms Rosie Winterton *[holding answers 15 March 2004]:* The Department recognises how important it is that national health service staff are sensitive to the needs of people who die in hospital and the relatives of dying or deceased patients. Guidance to the NHS on the need to ensure this (HSG(92)8, "Patients who die in hospital" and its supplementary guidance HSG(97)43) was published in 1992 and 1997, respectively.

However, the law governing the disposal of bodies is complex. When a patient dies in hospital, the trust chief executive has lawful possession[1] of the body until

someone with better title claims the body. This can include a coroner, whose powers can override the right of the next of kin to call for possession of the body. Hospital authorities must, therefore, ensure that a body is not, and will not be, the subject of a coroner's inquiry before releasing it.

Additionally, any death in England and Wales must be reported to the Registrar of Births, Marriages and Deaths for the sub-district in which the death occurred[2]. The person registering the death receives the Registrar's Certificate of Burial or Cremation (commonly known as the "Green Form"), which authorises disposal of a body, so that it can then be given to the person disposing of the body (usually, but not necessarily, the undertaker).

National guidance therefore highlights the need for NHS trusts to document the movement of, and identify, bodies correctly before transferring them to relatives or undertakers. This guidance is currently being updated following the Chief Medical Officer's recommendation in his report, "The Removal, Retention and Use of Human Organs and Tissue from Post-Mortem Examination" (2001).

In line with "Shifting the Balance of Power", it is the responsibility of the NHS to interpret how best to follow such guidance, in accordance with local circumstances.

[1] Section 1 (7) of the Human Tissue Act 1961.

[2] Section 15, Births and Deaths Registration Act 1953 and Regulation 41 of the Registration of Births and Deaths Regulations 1987.

Marlow Day Hospital

Mr. Goodman: To ask the Secretary of State for Health how many responses have been received from patients in relation to recent consultations carried out at Marlow Day Hospital. [162427]

Ms Rosie Winterton *[holding answer 18 March 2004]:* The Marlow Day Hospital closed on 28 November 2003, following a six-week internal consultation process with staff as prescribed in the trust's human resources policies. In view of the plan to re-provide an equivalent service for the population of Marlow at the other day hospitals based at Wycombe Hospital and Amersham Hospital, there was no formal public consultation during this period.

Marlow Community Hospital, which is on the same site but managed by Wycombe Primary Care Trust, was unaffected by this change of service.

Medicines and Healthcare Products Regulatory Agency

Paul Flynn: To ask the Secretary of State for Health whether the Head of Enforcement at the Medicines and Healthcare Products Regulatory Agency has a *(a)* past and *(b)* present connection with the pharmaceutical company GlaxoSmithKline. [162490]

Ms Rosie Winterton: The head of medicines inspection and enforcement at the Medicines and Healthcare products Regulatory Agency was employed from 1970 until 1997 by Glaxo, latterly Glaxo Wellcome. He has no present connections with Glaxo Smith Kline.

Myalgic Encephalomyelitis

Jon Trickett: To ask the Secretary of State for Health how many specialists in myalgic encephalomyelitis (ME) are employed in the NHS; how many sufferers from ME there are in *(a)* each of the Wakefield primary care trusts, *(b)* West Yorkshire and *(c)* the UK; what diagnostic tests for ME are recommended to general practitioners by the Department; and if he will make a statement. [162157]

Dr. Ladyman: The Department does not collect numbers of specialists in myalgic encephalomyelitis (ME).

The Department does not routinely collect statistics on the prevalence of individual conditions like ME. The report of the independent chronic fatigue syndrome/ myalgic encephalomyelitis (CFS/ME) working group, published in January 2002, estimated a population prevalence of around 0.2 to 0.4 per cent. in adults and around 0.07 per cent. in children.

We have asked the National Institute for Clinical Excellence to develop a clinical guideline for the diagnosis and management of CFS/ME. The report of the independent CFS/ME working group, published in January 2002, provides a source of advice to general practitioners on recognition of this debilitating and distressing condition.

Older People (Medication)

Sandra Gidley: To ask the Secretary of State for Health (1) what representations he has received on poor concordance with medication for older people living in sheltered housing; [161937]

(2) what monitoring is undertaken by his Department of the medication of older people with particular reference to *(a)* concordance and *(b)* over-medication; and if he will make a statement; [161938]

(3) what guidance he has provided to staff at extra care sheltered housing schemes with regard to management and administration of the medicines of frail elderly people. [161940]

Dr. Ladyman: I am not aware of any representations suggesting there is a particular problem with the use of medications in sheltered housing.

The National Minimum Standards for Care Homes for Older People set out the requirements care homes are expected to meet and include a standard on medication.

The regulatory body, the National Care Standards Commission (NCSC), takes the standard into account when carrying out inspections of care homes.

National Minimum Standards for Domiciliary Care Agencies set out the requirements that agency staff are expected to meet and these also include a standard on medication. The standards apply to agencies providing personal care to people in their own homes, including extra care housing and sheltered housing schemes. The NCSC takes the standard into account when they register and inspect domiciliary care agencies.

The NCSC and, from 1 April 2004, the Commission for Social Care Inspection, has the powers to take whatever enforcement action it considers necessary in the event of poor management or administration of medicines including overmedication.

Sandra Gidley: To ask the Secretary of State for Health how many adverse drug reactions and adverse incidents relating to the medication of older people living in sheltered housing there were in the last 12 months for which figures are available; and if he will make a statement. [161939]

Dr. Ladyman: Reports of suspected adverse drug reactions (ADRs) to medicines are collated by the Medicines and Healthcare products Regulatory Agency (MHRA) and the Committee on Safety of Medicines (CSM) through the spontaneous reporting scheme, the Yellow Card scheme.

The table shows details of the number of reports of suspected adverse drug reactions received through the Yellow Card scheme in 2003 for individuals aged 60 years and above. The figures provided relate to the number of reports received. Some reports may contain more than one reaction.

Reports received between 1 January 2003 and 31 December 2003

Age range (years)	*Number of reports received*
60–69	2,389
70–79	2,231
80–89	1,234
90+	196

We cannot specify whether any of these reports relate to individuals in sheltered housing, as residential details of patients are not collected by this scheme.

It is important to note that data from the Yellow Card scheme, as for all spontaneous reporting schemes, is limited by under-reporting. This does not impair its usefulness for detection of signals of emerging drug safety issues but means that numbers of reports are not complete. A report of an adverse reaction does not necessarily mean that it was caused by the medicine. Additionally, a range of factors may affect how an individual responds to a medicine, for example, their medical history and underlying disease conditions and other concomitant medication.

Use of medicines in the elderly is higher than in other age groups and elderly patients are more likely to be using combinations of medicines.

Organ Donors

Mr. Carmichael: To ask the Secretary of State for Health what steps he is taking to encourage voluntary organ donation; and how much the Government has spent promoting on *(a)* organ donor cards and *(b)* the organ donor register in each year since 1997. [156621]

Ms Rosie Winterton: People are encouraged to join the organ donor register through a number of initiatives, including when they apply for a driving licence, register with a new general practitioner or, apply for a new passport. Additionally, UK Transplant runs publicity campaigns and targets action to raise the profile of organ donation, including specific advertising and information campaigns to increase organ donation from the South Asian and black African and Caribbean populations.

UK Transplant is currently running a pilot scheme with the Driver and Vehicle Licensing Agency to send out organ donor registration forms to all vehicle owners with the road tax reminder during January, March and April this year. The pilot will cover nine million vehicles and UK Transplant will assess the effectiveness of the pilot later in the year. There are currently over 11 million people on the register—19 per cent. of the United Kingdom population.

The amount spent for organ donation publicity and advertising for each year since 1997 is shown in the table.

£ thousand

	Advertising	*Publicity*
1997–98	20	420
1998–99	770	760
1999–2000	470	460
2000–01	430	450
2001–02	180	720
2002–03	210	690

UK Transplant took over responsibility for the organ donation campaign work from the Department of Health in April 2003. UK Transplant's overall budget is over £9 million, of which £900,000 is for publicity.

Prescription Charges

Joan Ruddock: To ask the Secretary of State for Health which medical conditions have become exempt from prescription charges in the last 30 years, broken down by year. [162499]

Ms Rosie Winterton: No medical conditions have become exempt from prescription charges in the last 30 years.

Incontinence

Chris Ruane: To ask the Secretary of State for Health (1) what funding his Department has allocated for future years for research into incontinence resulting from childbirth; [161238]

(2) what research has been undertaken in the UK by the public sector on incontinence directly resulting from childbirth; what research on the subject conducted by private sector organisations he has received; and if he will make a statement. [161239]

Dr. Ladyman: Details of research projects relating to both incontinence and childbirth funded by, or of interest to, the National Health Service are available on the National Research Register (NRR) at www.update-software.com/national. The NRR currently contains details of four on-going and around 30 completed projects in this area. Many of these projects are funded through allocations made annually to NHS providers for research to meet the priorities and needs of the NHS and to meet the costs to the NHS of hosting research supported by external funders. The total amount allocated to NHS providers in 2003–04 for research and development was £442 million.

The Department has not received any research conducted by private sector organisations on incontinence directly resulting from childbirth.

EDUCATION AND SKILLS

Education Statistics

Chris Ruane: To ask the Secretary of State for Education and Skills how many 14 to 16 year olds in England did not receive full-time education in each of the last five years. [160362]

Mr. Miliband: The requested information is not held centrally.

The Department is, however, supporting local authorities (LAs) to develop robust systems to identify and track children missing education or at risk of doing so. All LAs have a named contact for issues relating to children missing from education and the Department is encouraging networking between different authorities. It is also sharing good practice on working with children missing from education by circulating new guidance to LAs and holding a series of regional seminars in Spring 2004.

Looked-after Children

Mr. McNamara: To ask the Secretary of State for Education and Skills how many looked-after children had *(a)* a yearly dental health check and *(b)* up-to-date child immunisations, broken down by local authority in each year since 1994; and what the figures were for all children. [158069]

Margaret Hodge: Information on the number of looked-after children that had yearly dental health checks and up-to-date immunisations was not collected centrally between 1994 and 1999. Since 2000 these figures for looked after children have been collected at local authority level and reported to government. Details are provided in the following table. Equivalent figures are not collected centrally for the child population as a whole.

Looked after children who had their teeth checked by a dentist and whose immunisations were up to date: 2000, 2001 and 2002, England

"Every Child Matters"

Miss McIntosh: To ask the Secretary of State for Education and Skills what the total cost was of drafting, publishing and circulating "Every Child Matters: Next Steps"; and to how many people the document was sent. [162265]

Margaret Hodge: "Every Child Matters: The Next Steps" was published for three purposes:

To reflect what the Government was told in consultation on the Children's Green Paper, "Every Child Matters". Some 4,500 responses were received, two-thirds of them from children and young people;

To put into context the Children Bill, published on the same day as the document;

To provide information to external partners, assisting them in taking forward the changes set out in the Green Paper and developed through discussions with a wide range of external partners.

The figures in the following table are estimates of the costs involved in drafting, publishing and distributing 'Every Child Matters: The Next Steps'.

£000

Item	Cost
Drafting	17
Publishing	24
Initial distribution	3

The cost so far is therefore approximately £44,000.

Around 4,000 copies were distributed initially, leaving around 11,000 copies available for ordering by interested parties. We anticipate that many others will download the documents from the DfES website.

Child Care

Mr. Simmonds: To ask the Secretary of State for Education and Skills how much the Government has spent on pre-school education and child care per head of children below compulsory school age in each year since 1998. [161018]

Mr. Miliband: My Department does not collect this information.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what steps his Department is taking to tackle the regional disparities in the availability of child care places for children under compulsory school age. [161019]

Margaret Hodge: The Government are providing substantial new resources to increase the availability of high quality child care for all age groups of children. Funding for 2004–06 has been specifically targeted towards those local authorities with lower levels of child care in order to reduce regional disparities.

By December 2003, more than 920,000 new child care places had been created since 1997, benefiting over 1.6 million children. We are on track to create places for over 2 million children by 2006. All four-year-olds have been guaranteed a free early education place since 1998. With effect from 1 April 2004, every three-year-old will be able to access a free place, six months earlier than originally planned.

Children (Classifications)

Charles Hendry: To ask the Secretary of State for Education and Skills within which age ranges a young child is classified as *(a)* a baby and *(b)* an infant for official purposes. [162802]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Charles Hendry, dated 22 March 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question asking within which age ranges a young child is classified as *(a)* a baby and *(b)* an infant for official purposes. (162802)

In National Statistics there is no single official definition of the word 'baby' or the word 'infant' in relation to age. Both may have different meanings depending on the context in which they are used.

Children's Services Authority (Lancashire)

Mr. Dawson: To ask the Secretary of State for Education and Skills what assessment he has made of the possible problems of co-ordination that might arise from the establishment of a local safeguarding board to cover a Lancashire children's services authority under Clause 9 of the Children Bill. [161979]

Margaret Hodge *[holding answer 16 March 2004]:* The responses to the consultation on the Green Paper, "Every Child Matters", strongly supported the vision it set out and included a great deal of helpful feedback on the practical issues county councils and other partners will need to address in implementing the proposed changes. "Every Child Matters: Next Steps", published on 4 March, sets out the Government's proposals for both legislative change and a programme for change and support for local leadership in delivering those reforms, ahead of the 2004 Spending Review.

We have also begun informal discussions with local authority associations including the Local Government Association and the Association of Directors of Social Services. We will consult formally on regulations and guidance on Local Safeguarding Children Boards in due course.

Mr. Dawson: To ask the Secretary of State for Education and Skills what assessment he has made of the possible practical problems that might arise from the designation of Lancashire county council as a children's services authority under Clause 6 of the Children Bill. [161980]

Margaret Hodge *[holding answer 16 March 2004]:* The responses to the consultation Green Paper, "Every Child Matters" included a great deal of helpful advice on the practical challenges that large and complex county councils such as Lancashire face in implementing the proposed changes. We do not underestimate those challenges and will work in close partnership with councils, local authorities and other partners to address them. Our plans to support authorities include appointing regional change advisers, producing statutory guidance, and developing and sharing good practice and examples of delivery models.

Class Sizes

Mr. Bercow: To ask the Secretary of State for Education and Skills how many children in Buckingham were taught in classes of more than 30 on the latest date for which figures are available. [161309]

Mr. Stephen Twigg: The data requested are shown in the table.

Maintained primary and secondary schools: classes of more than 30[1] Buckingham Parliamentary Constituency—January 2003

Connexions

Charles Hendry: To ask the Secretary of State for Education and Skills if he will make a statement on the progress central Government has made in supporting Connexions Partnerships by *(a)* linking its policies together at national level, *(b)* sending consistent messages to all Connexions partner agencies and *(c)* reducing bureaucracy, as set out in Youth Support Services for 13 to 19-year-olds: A Vision for 2006. [161033]

Margaret Hodge: From the outset of Connexions, Government departments have worked together in partnership with external groups such as the police, social services, health services, schools and local communities to implement coherent policies for young people. Through joint working, central Government have developed guidance and targets to support consistent approaches by Connexions Partnerships and other agencies in tackling a wide range of challenging objectives, including reducing the number of young people not in education training or employment; halving the number of teenage conceptions and raising the participation of teenage mothers in learning; improving outcomes for disabled children and looked after children; supporting runaways; tackling drugs misuse; preventing offending by young people and building community cohesion.

Bureaucracy has been reduced through a range of approaches initiated by central Government including, a Supporting Better Delivery Action Plan in which central Government has reduced administrative burdens on Connexions Partnerships; 'reality testing' with 'twinned' Government Offices and Connexions Partnerships; controlling the volume of paperwork distributed from the centre; structured communication channels; and the setting up of a bureaucracy log on the Connexions website.

Charles Hendry: To ask the Secretary of State for Education and Skills what guidance his Department has issued to Connexions partnership Chief Executives concerning partnerships' VAT liability. [161075]

Margaret Hodge: Connexions Partnerships were advised in November 2002 that HM Customs and Excise had ruled that the Connexions grant would fall outside the scope of VAT from 1 April 2004. This means they will be unable to recover any VAT they incur on Connexions business from that date. We are asking Partnerships to look at improving their tax efficiency by moving to different structures where they feel this is appropriate.

Charles Hendry: To ask the Secretary of State for Education and Skills what initiatives have developed from the Achieving Together conference for Connexions partnerships and the Voluntary and Community Sector (VCS) and other youth service providers to ensure that Connexions works better with the VCS. [161091]

Margaret Hodge: The "Achieving Together for Young People" conference, which was held in Solihull in June 2003, was the first national event bringing together representatives from Connexions Partnerships, Connexions teams in Government Offices for the Regions, voluntary and community organisations and Neighbourhood Support Fund (NSF) Projects, The event was designed and delivered in partnership with the VCS. It used NSF as a case study of how voluntary and community organisations could deliver services to young people. The conference was attended by 300 delegates.

Feedback from the event suggests that the conference was largely successful in meeting its aims, in particular, in helping to facilitate the further development of partnership working between Connexions Partnerships and the Voluntary and Community Sector in providing better services for young people and in sharing good practice on joint working. The conference was also a showcase for Connexions to demonstrate its commitment to involving young people who were actively involved in running workshops and in producing the conference report.

The conference confirmed earlier evidence that some Connexions partnerships were further ahead in terms of involving the VCS in their work than others, and that newer partnerships in particular could benefit from the help of others. This led to the establishment of a small informal advisory group of six VCS Co-ordinators from partnerships who were leading the field in terms of their involvement with the Sector. Members of the advisory group are contacted by other Partnerships for advice on building their engagement. In addition, a smaller follow-up national event was held in February 2004 for Connexions VCS Co-ordinators that enabled the exchange of ideas and good practice.

Departmental Contracts

Mr. Hoban: To ask the Secretary of State for Education and Skills what the value of contracts awarded by the Department to *(a)* PricewaterhouseCoopers, *(b)* KPMG, *(c)* Ernst and Young, *(d)* Deloitte and Touche, *(e)* McKinsey, *(f)* Bain and Co., *(g)* CfBT, *(h)* Westminster Education Consultants and *(i)* VT Education was in (i) 2001, (ii) 2002 and (iii) 2003. [160054]

Mr. Stephen Twigg *[holding answer 9 March 2004]:* My Department does not hold a central record of individual contracts. However, our financial records show the

following total payments made by the Department to *(a)* PricewaterhouseCoopers, *(b)* KPMG, *(c)* Ernst and Young, *(d)* Deloitte and Touche, *(e)* McKinsey, *(f)* Bain and Co., *(g)* CfBT, *(h)* Westminster Education Consultants and *(i)* VT Education in financial years 2001–02, 2002–03 and 2003–04 to date.

£

Organisation	*2001–02*	*2002–03*	*2003–04 to date*
PricewaterhouseCoopers	5,349,686	3,847,542	3,503,286
KPMG	396,353	1,014,559	1,312,198
Ernst and Young	0	38,449	0
Deloitte and Touche	275,594	201,670	242,971
McKinsey	0	0	0
Bain and Co.	0	0	0
CfBT[1]	47,072,194	55,759,330	36,406,560
Westminster Education Consultants	1,045,168	1,172,785	691,842
VT Education	0	0	0

[1] The payments to CfBT are principally represented by the National Strategies. This contract represents around 80 per cent. of the total CfBT costs shown.

Deprivation

Mr. Hoban: To ask the Secretary of State for Education and Skills what the Index for Multiple Deprivation is for each local education authority. [162678]

Mr. Miliband: The information requested has been placed in the Libraries.

Mr. Hoban: To ask the Secretary of State for Education and Skills what criteria are used to determine the level of deprivation used in calculating per pupil funding. [162679]

Mr. Miliband: The Education Formula Spending Share formula is used to allocate education funding for each local education authority. This formula comprises a basic entitlement for each pupil plus top-ups for deprivation and where it costs more to recruit and retain teachers, using data from the New Earnings Survey. The deprivation measures used are i) children in families in receipt of Income Support; ii) children in families in receipt of Working Families Tax Credit; iii) proportion of primary children with English as an additional language and iv) proportion of secondary children in low-achieving ethnic groups.

Drugs Advisers

Bob Spink: To ask the Secretary of State for Education and Skills if he will make a statement about *(a)* the future of drugs advisers and *(b)* their funding in Essex schools. [162195]

Mr. Stephen Twigg: Funding for school drug advisers (£7.5 million per year) has been made available through the Standards Fund since 2001. From April 2004 it will be up to local education authorities and schools to support drug education, including school drug adviser posts, out of the total resources available to them. The Department does not hold information centrally on the number of school drug advisers within each local education authority.

Young people will continue to receive advice and support on drug issues from schools, the Connexions Service and a range of local agencies.

Future Schools Initiative

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills what supplementary information he is requesting from those unsuccessful in bidding for resources from the Building Schools for the Future initiative but who were runners up; and if he will make a statement. [162595]

Mr. Miliband: We have the necessary information we need from authorities to prioritise the second or third waves of Building Schools for the Future (BSF), and do not at this stage anticipate requesting anything further.

Teaching Assistants

Shona McIsaac: To ask the Secretary of State for Education and Skills how many teaching assistants were employed in *(a)* north east Lincolnshire and *(b)* north Lincolnshire local education authority in each year since 1997. [162583]

Mr. Miliband: The following table gives the numbers of full time equivalent teaching assistants employed in north east Lincolnshire and north Lincolnshire local education authorities for each year between 1997 and 2003, the latest year for which data is available.

	North East Lincolnshire	*North Lincolnshire*
1997	216.6	175.7
1998	242.4	204.7
1999	261.9	244.6
2000	312.0	267.0
2001	462.3	329.3
2002	523.6	429.8
2003	570.4	451.0

Annual Schools Census

Education (Ribble Valley)

Mr. Evans: To ask the Secretary of State for Education and Skills how many pupils were being educated at each key stage in the Ribble Valley constituency in each school year since 1997–98. [161810]

Mr. Miliband: The information requested is shown in the table.

All schools[1] number of pupils by key stage: position as at January each year Ribble Valley parliamentary constituency

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Key Stage 1[2]	2,379	2,518	2,489	2,463	2,353	2,354	2,455

Key Stage 4[5]	2,709	2,969	3,034	3,120	3,162	3,169	3,320

[1] Includes maintained schools and independent schools.
[2] Pupils aged 5 and 6 as at 31 August the previous year.
[3] Pupils aged 7, 8, 9 and 10 as at 31 August the previous year.
[4] Pupils aged 11,12 and 13 as at 31 August the previous year.
[5] Pupils aged 14 and 15 as at 31 August the previous year.
Source:
Annual Schools' Census

Mr. Evans: To ask the Secretary of State for Education and Skills how many pupils were on the roll in each secondary school in the Ribble Valley and Fulwood constituency in each year since 1998; and what percentage *(a)* were eligible for and *(b)* took up free school meals. [161811]

Mr. Miliband: It is the Department's policy not to publish figures about individual schools unless the schools concerned have had the opportunity to check or confirm that information. Therefore, aggregate data for Ribble Valley parliamentary constituency is shown in the table.

Maintained secondary schools[1]: number of pupils and school meal arrangements
Position as at January each year—Ribble Valley parliamentary constituency

	Total number of pupils on roll	*Number of pupils taking free school meals*	*Percentage of pupils taking free school meals*	*Number of pupils known to be eligible for free school meals*	*Percentage of pupils known to be eligible for free school meals*

[2] Excludes dually registered pupils and includes boarders. Free school meal statistics shown here may not match with those shown in tables 13,14 and 15 due to difference in coverage.
[3] Number of pupils known to be eligible for free school meals expressed as a percentage of the number (headcount) of pupils in each ethnic group.
[4] Includes middle schools as deemed.
[5] Information was not sought or refused.

Education Funding (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Crosby in each of the last seven years. [160398]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas, rather than districts within an area. Crosby is a district of Sefton Local Education Authority. The information for Sefton LEA is as follows:

Net Current Expenditure per pupil

	Pre-Primary Education	*Primary Education*	*Pre-Primary and Primary Education*	*Secondary Education*	*Special Schools*
1995–96	[1]—	[1]—	1,864	2,591	18,029
1996–97	[1]—	[1]—	1,881	2,641	19,524
1997–98	[1]—	[1]—	1,887	2,635	20,191
1998–99	[1]—	[1]—	2,014	2,694	19,953

2000–01	16,779	2,325	2,414	3,007	26,116
2001–02	30,555	2,565	2,740	3,434	27,405

[1] n/a

Notes:
1. The financial data are taken from Sefton LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement prior to then.
2. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.
3. Net current expenditure (NCE) included expenditure within schools and also that incurred centrally by the LEAs.
4. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000.
5. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
6. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
7. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
8. Figures used are quoted in cash terms and are as reported by the LEA.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how much public funding has been spent on education in Crosby in each of the last seven years. [160440]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas, rather than districts within an area. Crosby is a district of Sefton Local Education Authority. The information for Sefton LEA is as follows:

Net current expenditure on education in Sefton

£

	Pre-Primary Education	*Primary Education*	*Pre-Primary and Primary Education*	*Secondary Education*	*Special Schools*	*School spend*	*Total spend*
1995–96	n/a	n/a	50,315,000	50,485,000	7,545,000	108,345,000	127,284,000
1996–97	n/a	n/a	50,851,000	51,729,000	8,249,000	110,829,000	129,224,000

2001–02	4,827,740	64,331,639	69,159,379	71,239,782	11,606,211	152,005,372	156,814,246

Notes:
1. The financial data are taken from Sefton LEA's section 52 Outturn Statements submitted to the DfES from 1999–2000 onwards and the ODPM's R01 statement prior to then.
2. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.

3. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the section 52 outturn statement in 1999–2000.
4. School spend includes net current expenditure on pre-primary education, primary education, secondary education and special schools.
5. Total spend includes school spend plus net current expenditure on education out of school, continuing education and management and support.
6. Figures used are cash terms as reported by the LEA.

Education/Training (Greater London)

Simon Hughes: To ask the Secretary of State for Education and Skills how much money was spent on school buildings in Greater London in each year since 1997, broken down by borough. [163068]

Mr. Miliband: I refer the hon. Member to my reply given on 8 March 2004, *Official Report*, column 1356W. The tables provided in that answer set out the capital support made by this Government to each London LEA since 1997–98.

Environmentally Sustainable Procurement

Mr. Sheerman: To ask the Secretary of State for Education and Skills in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159101]

Mr. Stephen Twigg: I refer to the answer given by my hon. Friend the Minister for the Environment Food and Rural Affairs on 10 March 2004, *Official Report*, column 1543W.

Within the framework of this overall approach, my Department is contributing towards innovation through public procurement in a number of ways including:

encouraging schools to adopt innovative procurement structures in relation to provision of school food;

offering fair trade products for sale in all departmental restaurants; and

achieving a 17 per cent. renewable energy supply.

GCSE (Kurdish)

John McDonnell: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the establishment of GCSE courses in the Kurdish language; [159248]

(2) what support his Department provides for the teaching of the Kurdish language. [159249]

Mr. Stephen Twigg: The Department encourages schools to offer a wide range of languages, including community languages, but does not provide targeted support for Kurdish. Under current National Curriculum requirements, schools are free to offer any modern foreign language, including Kurdish, as long as the offer includes at least one of the working languages of the EU.

The decision whether or not to offer particular subjects at GCSE is one for the awarding bodies. Currently they do not offer a GCSE in Kurdish.

Higher Education

Mr. Bercow: To ask the Secretary of State for Education and Skills how much public funding has been spent on higher education in Buckingham in each of the last seven years. [161574]

Alan Johnson: Data on funding for undergraduate students is held at institutional or regional level. There are no publicly funded higher education institutions within Buckingham. Eligible students attending designated courses at the privately funded University of Buckingham are eligible for student support. The available figures for funding these students are shown as follows. They relate only to spending on tuition fees, student loans (cash cost) and Dependants Grant for full-time undergraduate students.

£

Academic year	*Tuition fees*	*Student Loans (cash cost)*	*Dependants Grant*
1999–00	76,800	73,700	2,470
2000–01	157,800	115,700	3,180
2001–02	179,600	141,300	8,990
2002–03	178,000	140,500	2,400

Kinship Foster Carers

Sandra Gidley: To ask the Secretary of State for the Home Department what estimate he has made of the number of kinship foster carers *(a)* as a total for England, *(b)* aged 50 to 64 and *(c)* aged 65 and over; and if he will make a statement. [161934]

Margaret Hodge: The information we have available centrally provides a snapshot of Kinship foster placements at 31 March 2002. At 31 March 2002, 6,900 placements out of a total of 39,200 foster placements in England were with a relative or friend.

The data we hold relates to number of placements rather than number of carers therefore we are unable to breakdown the figure in terms of ages of carers.

2003 data will be available from 31 March 2004.

Learning and Skills Councils

Martin Linton: To ask the Secretary of State for Education and Skills how many complaints about maladministration have been dealt with internally by the Learning and Skills Councils in London since their establishment; and what the outcomes were. [162104]

Alan Johnson: This is a matter for the Learning and Skills Council (LSC). Mark Haysom, the LSC's Chief Executive, will write to you direct and a copy of his reply will be placed in the Library.

New Deal for Schools

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much funding each school in Chorley has received from the New Deal for Schools. [161599]

Mr. Miliband: The table below shows the schools in the Chorley constituency that benefited from investment through the New Deal for Schools (NDS)

programme, which commenced in 1997–98. From 2000–01, capital allocations to local authorities and schools have largely been made by formulae linked to Asset Management Plans. In addition, all schools have, since 2000–01, received Devolved Formula capital to use on their most urgent capital needs.

NDS Allocations to schools in the Chorley constituency

(£)

Year	*School*	*Project Details*	*Type*	*Grant awarded*
1997/98	Rivington and Blackrod High School	Lighting		381,000.00
	Albany High School	Refurbishment and suiting of CDT facilities	LEA wide grant	[1]2,006,000.00
	Parklands High School	Refurbishment of technology areas and laboratories	LEA wide grant	[1]2,006,000.00

1999/2000	Golden Hill Pupil Referral Unit	Rewires	Project including 18 schools	[2]1,007,100.00
	Eccleston Primary School	Boilers/heating	Project including 17 schools	[2]601, 900.00
	Adlington Primary School	Boilers/heating	Project including 17 schools	[2]601,900.00
	Clayton Brook Primary School	Playground repairs	Project including 25 schools	[2]300,000.00
	Adlington St. Paul's Church of England Primary School	Boilers/heating	Project including 17 schools	[2]601 ,900.00
	St George's Church of England Primary School, Chorley	Playground repairs	Project including 25 schools	[2]300,000.00
	Clayton-le-Woods Church of England Primary School	Playground repairs	Project including 25 schools	[2] 300,000.00
	Mawdesley St. Peters Church of England Primary School	Playground repairs	Project including 25 schools	[2] 300,000.00
	St Chad's Catholic Primary School	Rewires	Project including 18 schools	[2] 1, 007, 100.00
	St Michael's Church of England High School	Boilers/Heating	Project including 17 schools	[2] 601, 900.00
	Mayfieid School	Playground repairs	Project including 25 schools	[2] 300,000,00
2000/01	Clayton-le-Woods Manor Road Primary School	Replacement of temporary classrooms		128,204.00
	Rivington and Blackrod High School	Replacement of temporary classrooms	Project including 7 schools	[2] 1, 506,040.00
	Eccleston Primary School	Playground repairs	Project including 29 schools	[2] 270,090.00
	Balshaw Lane Community Primary School	Rewires of electrical systems	Project including 17 schools	[2] 951 ,650.00
	Duke Street Primary School	Replacement of Boilers/Heating Systems	Project including 36 schools	[2] 1, 143,1 10.00
	Adlington St. Paul's Church of England Primary School	Rewires of electrical systems	Project including 17 schools	[2] 951, 650,00
	Chorley All Saints Church of England Primary School and Nursery Unit	Replacement of boilers/heating systems	Project including 36 schools	[2] 1, 143,1 10.00
	Albany High School	Refurbishment of CDT	Project including 6 schools	[2] 1, 502,992.00

Note:
Rivington and Blackrod High School is administered by Bolton local education authority (LEA). The remaining schools are administered by Lancashire LEA.
[1] For NDS 1 the £2,006,000 grant allocated was for Lancashire LEA wide projects, part of which was used for the three projects in the Chorley schools. The LEA will be able to say how much was allocated to each school.
[2] Allocations shown are the totals for packages of projects which included schools in Chorley, The LEA will be able to say how much was allocated to each school.

Qualifications and Curriculum Authority

Mr. Hoban: To ask the Secretary of State for Education and Skills what recent guidance the Qualifications and Curriculum Authority has issued on the titles of courses. [162677]

Mr. Stephen Twigg: The Qualifications and Curriculum Authority last published guidance on the titles of qualifications in March 2000. The QCA is planning to consult on new guidance on titles in autumn 2004.

Rewarding and Developing Staff Initiative

Dr. Iddon: To ask the Secretary of State for Education and Skills how much funding the Government has provided to universities for the Rewarding and Developing Staff funding initiative; and what criteria the Government attached to the initiative. [162063]

Alan Johnson: The Government have invested £50 million in 2001–02, £110 million in 2002–03 and £170 million for 2003–04 to underpin higher education institutions (HEIs) human resource strategies. This helps institutions to recruit and retain the staff they need to improve further the quality of teaching and learning, and to modernise management and reward systems. The £170 million will be consolidated into institutions' core grants from 2004–05. As part of the 2002 Spending Review settlement, an additional £50 million in 2004–05 and £117 million in 2005–06 will also be provided. This additional funding will be consolidated into institutions' core grants where the momentum for change is being maintained.

HEIs have been asked to specifically address six priority areas in their human resource strategies:

targeted approaches to recruitment and retention;

staff and management development;

equal opportunities including implementation of institution-wide job evaluation;

reviewing staffing needs to match market demands, student numbers and technological change;

rewarding good performance through annual staff reviews;

tackling poor performance.

School Catchments

Mr. Willis: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary school pupils live more than three miles from the school that they attend. [162077]

Mr. Miliband *[holding answer 18 March 2004]:* The information requested is shown in the table.

Numbers of pupils living more than three miles from the maintained primary and secondary schools[1] that they attend—January 2003

	Primary	*Secondary*
Number of school population travelling more than three miles	155,187	583,446
Percentage of school population travelling more than three miles	3.7	17.8

[1] Includes middle schools as deemed

Source:
Annual Schools' Census

School Funding (Staffordshire)

Mrs. Dean: To ask the Secretary of State for Education and Skills how much funding each school in *(a)* Burton constituency and *(b)* Staffordshire has received from the New Deal for School. [161848]

Mr. Miliband: I will write to my hon. Friend with this information and a copy of my response will be placed in the Library.

School Meals

Mr. Willis: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary school pupils in England are (i) eligible for and (ii) take up free school meals, broken down by ethnic group. [161910]

Mr. Stephen Twigg *[holding answer 18 March 2004]:* The latest available information on the number of pupils eligible for free school meals broken down by ethnicity was published on 25 September 2003 in the statistical volume Statistics of Education, Schools in England 2003, Table 50, a copy of which has been placed in the Library. The table is also available on the statistics section of the DfES website at: http://www.dfes.gov.uk/rsgatewav/DB/VOL/v000417/index.shtml

The available information on the take up of free school meals is limited to school level aggregates that cannot be broken down by ethnic group.

All Pupils [1]	239,545	239,235	478,780	14.4	14.6	14.5

[1] Pupils of compulsory school age and above.
[2] includes middle schools as deemed.
[3] Excludes dually registered pupils and includes boarders. Free school meal statistics shown here may not match with those shown in tables 13, 14 and 15 due to difference in coverage.
[4] Number of pupils known to be eligible for free school meals expressed as a percentage of the number (headcount) of pupils in each ethnic group.
[5] Information was not sought or refused.

Mr. Willis: To ask the Secretary of State for Education and Skills how much was spent by each local education authority on free school meal provision in *(a)* primary and *(b)* secondary schools in the latest year for which figures are available. [162076]

Mr. Miliband *[holding answer 18 March 2004]:* My Department does not collect this information.

Mr. Willis: To ask the Secretary of State for Education and Skills when the joint exercise by his Department and the Food Standards Agency into nutritional standards in schools will be complete. [162094]

Mr. Stephen Twigg: The jointly funded research exercise between the Department for Education and Skills and the Food Standards Agency is still underway. The results will be published late spring 2004 and will inform future policy decisions.

Mr. Willis: To ask the Secretary of State for Education and Skills what estimate he has made of the number of parents whose children are receiving free school meals who supplement the meal with additional money or food. [162095]

Mr. Stephen Twigg: The Department for Education and Skills does not collect data on whether parents of children who are receiving free school meals supplement the meal with additional money or food.

School Sports

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills if he will make a statement on the effects on schools of changes since 1997 in the level of investment in school sports in Crosby. [160566]

Mr. Stephen Twigg: The Government is investing more than £1 billion in England to transform physical education (PE), school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of five to 16 year olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

Spearheading delivery are School Sport Partnerships, which provide for groups of schools to work together to increase sports opportunities for all young people. Latest research, published by the Departments on 4 March shows that 68 per cent. of pupils in schools that have been in a Partnership for three years, are taking up the two hour entitlement, rising to 90 per cent. at Key Stage 3, Data is currently being collected from remaining Partnerships and will be published in April. Disaggregated results will be available at that time.

Significant funding is also being provided to specifically enhance PE and school sport facilities, with £3,331,000 being allocated from the New Opportunities Fund to schools in the Sefton LEA area.

Jim Knight: To ask the Secretary of State for Education and Skills what action his Department is taking to ensure that extended use of sports facilities in schools built with private finance is affordable for all sections of the community. [160934]

Mr. Stephen Twigg: Schools PFI contracts are usually between a local authority and a private sector contractor. It is therefore for the authority to ensure that the extended use of sports facilities in schools is affordable for all sections of the community. The DfES does not have a direct role in these negotiations although it does issue standard contract guidance, which includes, among other things, provisions for safeguarding existing community use at current prices.

When a local authority puts forward a bid to the DfES for a schools PFI project, we expect to see that the project supports the provision of dual use facilities that can be offered to the wider community. In almost all cases this will include sports facility provision, which is of course a significant asset to the local community.

School Uniform Grants

Shona McIsaac: To ask the Secretary of State for Education and Skills if he will list the local authorities in England which provide school uniform grants; and what the average grant was in each authority in the last year for which figures are available. [162577]

Mr. Stephen Twigg: The information requested is not collected by the Department for Education and Skills.

Science Teaching (Chorley)

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much money has been spent on science in schools in Chorley in each year since 1997. [162146]

Alan Johnson: We do not hold information on what has been spent on science in individual schools. However, we are investing heavily in science teaching and learning in schools. We are working in partnership with the Wellcome Trust to create a national network of science learning centres to deliver continuing professional development to science technicians and science teachers. We have introduced the science strand of the Key Stage 3 National Strategy to improve standards of teaching and learning for all 11 to 14-year-olds and promote engaging and challenging science lessons. QCA have reviewed the Programme of Study for Key Stage 4 to ensure that it provides a core of content that is suitable to all learners, making sure that all young people have an understanding of the importance of science and technology to the world around them and that those who continue to study science post-16 have sufficient knowledge and skills.

Special Educational Needs

Jonathan Shaw: To ask the Secretary of State for Education and Skills how many times the Special Educational Needs and Disability Tribunals panel have reviewed a decision under part *(a)* C and *(b)* D of the Special Educational Needs Tribunal (Amendment) Regulations 2002. [162114]

Margaret Hodge *[holding answer 17 March 2004]*: Under regulation 37 of the Special Educational Needs Tribunal regulations 2001 parties may ask SENDIST to review a decision on the grounds that:

(a) its decision was wrongly made as a result of an error on the part of the tribunal staff;

(b) a party, who was entitled to be heard at the hearing but failed to appear or to be represented, had good and sufficient reason for failing to appear;

(c) there was an obvious error in the decision; or

(d) the interests of justice require.

The Tribunal does not hold comprehensive statistics on the grounds for review hearings. However, it has identified four cases since September 2002 in which panels have reviewed decisions because they might have included obvious errors. Over the same period panels have reviewed five decisions because the interests of justice appeared to require it.

Special School Teachers

Mr. Hoban: To ask the Secretary of State for Education and Skills what assessment has been made of the reasons for the change in teacher numbers in special schools between 2001 and 2002. [162680]

Mr. Miliband: Between January 2001 and January 2002 the number of full-time equivalent regular teachers employed in maintained special schools in England fell from 14,330 to 14,320. This reflected a fall in full-time equivalent pupil numbers from 89,780 to 88,740 over the same period.

Teachers/Teaching Assistants (Staffordshire)

Mrs. Dean: To ask the Secretary of State for Education and Skills how many teachers there were in *(a)* Staffordshire and *(b)* the Burton constituency in each of the last seven years. [161844]

Mr. Miliband: The following table shows the full time equivalent number of regular teachers in service in the maintained sector in *(a)* the former Staffordshire local education authority area and *(b)* Burton constituency in each year between 1997 and 2003, the latest year for which information available.

	Staffordshire	*Burton Constituency*
1997	1,260	120
1998	1,420	135
1999	1,510	157
2000	1,650	180
2001	1,900	204
2002	1,780	221
2003	2,380	301

Source:
Form 618g survey of teacher numbers and vacancies for local education authority data and Annual Schools' Census for constituency data.

Mrs. Dean: To ask the Secretary of State for Education and Skills how many teaching assistants there were in *(a)* Staffordshire and *(b)* the Burton constituency in each of the last seven years. [161843]

Mr. Miliband: The following table shows the full time equivalent number of teaching assistants in service in maintained schools in *(a)* the former Staffordshire local

education authority area and *(b)* Burton constituency in each year between 1997 and 2003, the latest year for which information is available.

	Staffordshire	*Burton constituency*
1997	8,510	894
1998	8,410	902
1999	8,590	920
2000	8,650	928
2001	8,720	936
2002	8,870	962
2003	9,140	968

Source:
Annual Schools Census.

UKeU

Mr. Wyatt: To ask the Secretary of State for Education and Skills how much has been spent on UKeU; and what discussions took place between UKeU and the Open University before it was launched. [162513]

Alan Johnson: The Government have provided £62 million to the Higher Education Funding Council for England (HEFCE) for the eUniversities project. I understand HEFCE has provided £32.6 million to date to the eLearning Holding Company for investment in UKeU. A further £7 million has been used for the set up of the project and various public good programmes for the support of e-learning in higher education institutions.

The eUniversities project was overseen from its outset by the HEFCE working in partnership with other funding bodies and the UK higher education sector. It was steered by a group with a wide representation from the HE sector, and the then Vice-Chancellor of the Open University was a special adviser to that group. The Open University, working with Cambridge University, was also one of UKeU's first pilot providers and is engaged in the eChina programme managed by UKeU.

Mr. Wyatt: To ask the Secretary of State for Education and Skills how many students have enrolled in UKeU since it was launched; and what the average cost has been of educating each student. [162514]

Alan Johnson: Students are enrolled in programmes provided by UK higher education institutions through UKeU. As at November 2003, I understand that 900 students were enrolled.

The £32 million invested to date through the Holding Company in UKeU has mainly supported the creation of an infrastructure to underpin e-learning in UK higher education institutions, rather than individual courses, whose costs per student vary according to their subject and content.

Mr. Wyatt: To ask the Secretary of State for Education and Skills if he will merge UKeU with the Open University. [162515]

Alan Johnson: The future business direction and structure of UKeU is a matter for its board, taking into account the views of its major shareholder (the Holding Company—representing the views of the UK higher education sector) and its major funder, the Higher Education Funding Council for England (HEFCE). HEFCE is currently holding restructuring discussions with the boards of UKeU and the eLearning Holding Company, to identify the best way forward to secure value from the venture for the higher education sector.

UN Convention (Children's Rights)

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills in what ways his Department is carrying forward the Government's commitment to the UN Convention on the Rights of a Child. [161414]

Margaret Hodge *[holding answer 17 March 2004]:* Many of the provisions of the UN Convention on the Rights of the Child have been reflected in the Government's priorities for many years, such as ensuring the rights of children to education, health, housing and safety, freedom from poverty and the right to participate in decisions that affect them.

Recent action taken by the Government further to promote the provisions of the Convention includes the following:

the introduction of the Children Bill: This aims to improve the systems for preventing abuse and neglect such as that suffered by Victoria Climbié. In the spirit of Articles 4 and 12 of the Convention, it will with Parliamentary approval also set up a post of Children's Commissioner in England, whose task it will be to collect children's views, act as their champion and ensure that they have access to quick and easy complaints procedures;

the draft Advocacy Services and Representations Procedure (Children)(Amendment) Regulations 2004, which were laid on 11 March 2004 (SI 2004/719) under the Adoption and Children Act 2002. When made, these Regulations will impose on local authorities the duty to make arrangements for the provision of advocacy services for children and young people making or intending to make a complaint, again in the context of Article 12 of the Convention;

ratification on 24 June 2003 of the Optional Protocol on the involvement of Children in Armed Conflict in the context of Article 38;

the Sexual Offences Act 2003, which brought UK legislation on sexual offences in England and Wales into line with the requirements of the Optional on the sale of children, prostitution and pornography. When implemented in May 2004, it will introduce further new offences such as paying for sex with a child and causing or inciting child prostitution or pornography, as well as further extending the controls on child trafficking, in the context of Articles 34 and 35 of the Convention.

Undergraduates (Greater London)

Simon Hughes: To ask the Secretary of State for Education and Skills how many undergraduate students in Greater London have declared themselves bankrupt in each year since 1992; and if he will make a statement. [158455]

Alan Johnson: The following table shows the number of student loan borrowers, both graduates and undergraduates whose awarding Local Education Authority is in the Greater London area, who have had bankruptcy orders made against them since 1992. There are no figures showing undergraduates as a separate group.

We are proposing through the Higher Education Bill to amend legislation in order to exclude student loans from bankruptcy debt so that student loan debt will not be written-off on discharge.

Borrowers in Greater London[1]

Bankrupt year[2]	*Number of Borrowers*[3,4,5,6]
1992	—
1993	—
1994	—
1995	—
1996	—
1997	1
1998	0
1999	1
2000	0
2001	5
2002	3
2003	21[7]
Total	31

[1] Borrowers whose awarding Authority [LEA] is in Greater London area.

[2] Calendar Year in which the borrower became bankrupt.

[3] Data shows the number of borrowers who have applied to SLC for a loan in respect of all eligible HE courses.

[4] Includes borrowers who may or may not have graduated from their course.

[5] Includes all types of students (including PGCE—Postgraduate Certificate of Education students).

[6] Data covers both types of student loan—Mortgage Style (including loans sold to the private sector) and Income Contingent.

[7] The increase in the numbers of bankruptcies in 2003 seems to be as a result of greater public awareness that students loans are provable in bankruptcy.

Student Loans Company

Workforce Reform

Mr. Willis: To ask the Secretary of State for Education and Skills what plans he has to support the cost of workforce reform after 2005–06; and if he will make a statement. [161991]

Mr. Miliband *[holding answer 17 March 2004]*: The implications of workforce reform after 2005–06 will be considered by my right hon. Friend as part of Spending Review 2004, which will determine spending plans for the years 2006–08. Decisions on priorities between and within the services for which he is responsible will not be made until later this year.

DEPUTY PRIME MINISTER

Benefit Fraud

Mr. Webb: To ask the Deputy Prime Minister how many staff in his Department have been *(a)* suspended, *(b)* dismissed, *(c)* prosecuted and *(d)* convicted for involvement in benefit fraud in each of the last six years; and what the amounts involved in each of those cases listed were. [154651]

Yvette Cooper: The Office of the Deputy Prime Minister (ODPM) was established on 29 May 2002. Since its establishment, no staff in the office, its agencies or Government offices have been *(a)* suspended, *(b)* dismissed, *(c)* prosecuted or *(d)* convicted for involvement in benefit fraud.

Local Government

Mr. Wiggin: To ask the Deputy Prime Minister how many local government employees there were in each year since 1997. [162674]

Mr. Raynsford: Figures for Great Britain, which are available in an article published in 'Economic Trends' (September 2003), show the following numbers of local government employees for the years between 1997 and 2002.

	Number of local government employees (GB)
1997	2,593,000
1998	2,579,000
1999	2,704,000
2000	2,682,000
2001	2,735,000
2002	2,741,000

Civil Servants

Dr. Cable: To ask the Deputy Prime Minister how much space, expressed in square metres, the Department occupies for the offices of civil servants in *(a)* central London and *(b)* Greater London. [150284]

Yvette Cooper: The Office of the Deputy Prime Minister currently occupies approximately 54,000 m^2 of space in inner London. This includes, where appropriate, office space for Ministers and their advisers as it is not possible to separate this out. The figure for outer London is approximately 1,400 m^2.

Space is defined as the internal area i.e. includes toilets, storage, basement etc. rather than useable office space.

Dee Estuary

Mr. Wiggin: To ask the Deputy Prime Minister if he will make a statement on the undertaking given during his visit to the Airbus factory in Broughton, Flintshire on 5 March to ensure that permission is granted for the Dee Estuary to be dredged. [162685]

Keith Hill: I understand that the competent authorities are considering this issue under the terms of the Habitats Directive.

Departmental Staff

Mr. Prosser: To ask the Deputy Prime Minister if he will make a statement on the future staffing of his Department's Hemel office. [161477]

Yvette Cooper: Any decisions on the staffing levels of the Office of the Deputy Prime Minister's Hemel Hempstead office will be taken in the light of the overall needs and priorities of the Office of the Deputy Prime Minister and other customers, in line with Government policy.

Fire and Rescue Services Bill

Mr. Liddell-Grainger: To ask the Deputy Prime Minister, what help will he give to help retain fire stations under the new Fire Bill. [181866]

Mr. Raynsford: The Fire and Rescue Services Bill re-enacts the existing statutory duty for a fire and rescue authority to make provision for extinguishing fires and protecting life and property from fires within its area. The Bill also includes duties covering the role of fire and rescue authorities in dealing with road traffic accidents and other serious emergencies and promoting fire safety.

The Government's previously recommended standards of fire cover will be superseded from 1 April 2004 when Fire and Rescue Authorities implement their first agreed Integrated Risk Management Plans (IRMPs). These plans will detail locally determined response standards on the basis of Authorities' assessment of risks to life in the community.

The Office of the Deputy Prime Minister has provided authorities with written guidance and supported the development of their IRMPs with an HM Fire Service Inspectorate-led implementation support team. By mid-April the Office of the Deputy Prime Minister will also have provided each fire and rescue service with a computer toolkit known as Fire Service Emergency Cover (FSEC) that models the impact of fire cover in reducing risk.

The outcome of individual IRMPs, in some cases, will be the re-distribution of fire and rescue resources, including possible relocation of stations and appliances, where this is determined by the assessment of risk to the community. All IRMPs are subject to public consultation.

The draft National Fire and Rescue Framework recognises the vital contribution of the retained section of the service and acknowledges the need to find solutions to these recruitment and retention challenges. That is why the Government announced on 15 December 2003 that there would be a review of issues affecting the retained section of the service. The review will examine the issues that contribute to these challenges, including equality and diversity, public awareness, engagement with the business community, deployment, community participation, role, reward and conditions of service. The recommendations of the review will be submitted to the Practitioners' Forum in the summer. [181866]

Growth Area Funding

Harry Cohen: To ask the Deputy Prime Minister if he will identify the two sites referred to in the London Leyton area masterplan for which £150,000 growth area funding has been provided. [162727]

Keith Hill: Growth area funding of £150,000 has been awarded to the London Borough of Waltham Forest for the production of a masterplan for the Leyton area. The plan will provide a detailed development framework focusing on the development potential of two sites in close proximity to existing and potential transportation nodes. The two sites referred to are:

(1) the Lea Bridge Station Area; and

(2) Leyton Station and High Street South.

Housing

Ms Oona King: To ask the Deputy Prime Minister pursuant to his Answer of 5 March 2004, *Official Report*, column 1185W, on houses in multiple occupation, what plans he has to introduce a cap on the total licence fee payable per house in multiple occupation. [162238]

Keith Hill: The Government have no plans to cap the overall fee payable in respect of the whole house in multiple occupation. The cap will apply only to the individual units within the Houses in Multiple Occupation.

Local Government Finance

Mr. Pickles: To ask the Deputy Prime Minister what the levels of net debt were for each local authority in England in the most recent year for which figures are available. [161499]

Mr. Raynsford: Levels of net debt for each local authority in England at 31 March 2003 (latest available data) are available on the Local Government Finance section of the Office of the Deputy Prime Minister website at: http://www.local.odpm.gov.uk/finance/stats/debt3.xls.

It should be noted that authorities with high levels of debt are generally those that have undertaken capital investment and that long-term borrowing to finance capital expenditure is currently regulated through the issue of credit approvals and, from 1 April 2004, will be subject to the Prudential System.

Mr. Pickles: To ask the Deputy Prime Minister whether a capped local authority will receive additional financial support from central Government to compensate for the costs of re-billing. [162675]

Mr. Raynsford: No. Any authority that was capped "in year" would have to fund the re-billing costs from its own budget.

Mr. Pickles: To ask the Deputy Prime Minister what estimate his Department has made of the cost to the average *(a)* district, *(b)* county, *(c)* London, *(d)* metropolitan and *(e)* unitary authority in England of re-issuing council tax bills following capping. [162676]

Mr. Raynsford: The cost involved for an individual local authority would depend on the size of the authority and other local circumstances.

Mr. Rosindell: To ask the Deputy Prime Minister (1) how much money the Treasury plans to set aside in 2005 for local government grants; [162450]

(2) how much money the Treasury set aside for local government grants in *(a)* 1997, *(b)* 1999, *(c)* 2001 and *(d)* 2003. [162451]

Mr. Raynsford: The total of Government grant for local authorities' revenue spending, covering in the main Revenue Support Grant, National Non-Domestic Rates and specific grants in each of these years is as follows:

	£ billion
1997–98	35.767
1999–2000	39.545
2001–02	44.661
2003–04	51.551
2004–05	54.860

Miss McIntosh: To ask the Deputy Prime Minister if he will make a statement on the range of new responsibilities to be undertaken by local authorities in the next financial year. [162302]

Mr. Raynsford: New responsibilities that could constitute new burdens for local authorities are identified with the Local Government Association in the relevant Spending Review. Relevant new burdens were taken into account in the Local Government Finance Settlement for 2004–05.

Mr. Andrew Turner: To ask the Deputy Prime Minister pursuant to his answer of 11 March 2004, *Official Report*, column 1710W, what the value was *(a)* of the grant paid to the Isle of Wight for 2004–05 and *(b)* which would have been calculated for the grant in 2004–05 using the area cost adjustment methodology proposed, but subsequently suspended for 2003–04. [162506]

Mr. Raynsford: The information requested is as follows:

(a) This is a good settlement for the Isle of Wight who will receive £101.6 million in formulae grant in 2004–5. On a like for like basis, formulae grant for the Isle of Wight has increased by 7 per cent. since 2003–4.

(b) At the 2003–4 provisional settlement, the Office of the Deputy Prime Minister calculated the area cost adjustment (ACA) for the Isle of Wight separately from that of Hampshire. As a result the Isle of Wight had an ACA factor of one.

Had the ACA been calculated in this way for the 2004–5 settlement it is likely that the Isle of Wight would again have an ACA factor of one compared to, for example 1.0433 for education, and that the authority would have received less revenue support grant in 2004–5.

However, quantifying exactly the effect on grant in 2004–5 of calculating the ACA separately for Hampshire and the Isle of Wight in 2003–4 and 2004–5 can only be done at disproportionate cost. This is because it would require the re-calculation of the 2003–4 and 2004–5 ACA and the 2003–4 and 2004–5 settlements including the floor and ceiling calculations. This is a lengthy process.

New Deal for Communities

Mr. Edward Davey: To ask the Deputy Prime Minister what the administration budget was for each New Deal for Communities partnership for each financial year since 1999–2000; and what the estimated administration budget for each such partnership is for financial years (i) 2004–2005 and (ii) 2005–06. [160342]

Yvette Cooper: The New Deal for Communities (NDC) Programme has 39 NDC Partnerships and £2 billion has been committed to them over the 10 years of the NDC Programme. The 17 Round 1 Partnerships entered their delivery phase in 2000–01 and the 22 Round 2 Partnerships entered their delivery phase in 2001–02. The following table provides figures for the administration budget for each partnership for the financial years 1999–2000 and the estimate for 2004–05 and 2005–06.

The NDC Partnerships went through two phases before they entered their delivery phase. Phase 1 involved building up a partnership, phase 2 involved developing a delivery plan for the 10 years of the programme and, where possible, developing "quick win" projects. During Phase 1 and Phase 2 Management and Administration costs is expected to be high as the partnerships were in the initial stages of setting up and building a partnerships.

Overall, partnerships may only spend up to 10 per cent. of their 10-year budget total on M and A during the-year life of their programme. Profiles vary, and some partnerships have spent more that 10 per cent. per annum on M and A so far. However, we fully expect this to be reconciled by the time each partnership reaches its final year.

NDC Management and Administration Budget

Partnership	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05* [1]	*2005–06* [1]
Newham	332,786	490,000	515,000	480,000	700,000	600,000	650,000

[1] Please note that figures given for 2004–05 and 2005–06 are estimates and some are not yet agreed

Parliamentary Questions

Norman Baker: To ask the Deputy Prime Minister how many parliamentary questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157742]

Yvette Cooper: Since 1 January 2003 to 27 February 2004 *(a)* 2,941 ordinary written parliamentary questions and *(b)* 548 named day parliamentary questions have been tabled to my right hon. Friend the Deputy Prime Minister, of these *(a)* 87 per cent. were answered within 10 working days and *(b)* 84 per cent. were answered by the specified date.

The Office of the Deputy Prime Minister endeavours to reply to all parliamentary questions within parliamentary deadlines wherever possible.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister who is responsible for the *(a)* design, *(b)* production and *(c)* distribution of the leaflets (i) "Your Say: A new opportunity for the North East", (ii) "Your Say: A new opportunity for the North West", (iii) "Your Say: A new opportunity for Yorkshire and the Humber", (iv) "Your Say: Business and Jobs" and (v) "Your Say: Assembly powers and responsibilities"; and at what cost. [162423]

Mr. Raynsford: The "Your Say" campaign is aimed at informing the public in the north west, north east and Yorkshire and Humber regions about the Government's proposals for giving the region's voters an opportunity to say if they want to have regional Government.

The Newcastle and Manchester based advertising agency Robson Brown was commissioned to design the three leaflets, "Your Say: A new opportunity" for the North East/North West/Yorkshire and the Humber and "Your Say: Business and Jobs" and "Your Say: Assembly" powers and responsibilities.

Production has been carried out by Robson Brown and the Office of the Deputy Prime Minister's print procurement team.

Distribution has been handled by the relevant Government Offices and the Office of the Deputy Prime Minister's retained distribution house.

The combined design costs of the "Your Say: A new opportunity" leaflets totalled £8,750.

Production costs to date of the "Your Say: A new opportunity leaflets" totals £28,586 for delivery of the following:

North West—171,200 leaflets

Yorkshire and the Humber—171,200 leaflets

North East—139,200 leaflets.

Design and production costs of "Your Say: Business and Jobs" totals £1,780 (5,000 copies per region).

Design and production costs of "Your Say: Assembly powers" and responsibilities totals £1,400 (5,000 copies per region).

Social Housing (Greater London)

Simon Hughes: To ask the Deputy Prime Minister how many new houses have been built in the social rented sector in Greater London in each year since 1997; and what the cost was in each year. [162346]

Keith Hill: The Housing Statistics Annual 2003 gives the number of completions of new dwellings built by Registered Social Landlords and local authorities in London as follows:

	RSL completions	*Local authority completions*	*Total completions*
1997–98	4,329	52	4,381
1998–99	3,198	35	3,233
1999–2000	2,934	0	2,934
2000–01	4,162	158	4,320
2001–02	3,512	27	3,539
2002–03	4,258	71	4,329

Data on the cost of completions is not held centrally and could be provided only at disproportionate cost.

Sunset Clauses

Mr. David Stewart: To ask the Deputy Prime Minister if he will make a statement on his policy on the use of sunset clauses in legislation; and which Acts containing such clauses relevant to his Department were passed in each year since 1997. [149329]

Yvette Cooper: The Office of the Deputy Prime Minister actively promotes the better regulation agenda, part of which is the use of sunset clauses where appropriate. Policy officials are aware of guidance that encourages them to consider time limiting (or "sunsetting") at an early stage of policy development

and gives specific circumstances where this may be appropriate. The form in which particular aspects of policy are embodied in legislation is a matter for careful consideration by Ministers, who are advised in this respect by officials in conjunction with lawyers and Parliamentary Counsel. The use of a sunset clause (as of any other type of clause) would be the result of such consideration.

The Office of the Deputy Prime Minister was established on 29 May 2002, as a result of machinery of government changes. Since then, the Office of the Deputy Prime Minister is aware of just one sunset clause in primary legislation for which it is responsible, namely section 1(7) of the Fire Services Act 2003, which prevents the making of an order (fixing firemen's conditions of service) more than two years after commencement of the Act (on the date of Royal Assent, 13 November 2003) except for an order revoking a previous order.

Telecommunications Masts

Mr. Hoyle: To ask the Deputy Prime Minister what the minimum distance is that a telecommunications mast may be from houses. [161241]

Yvette Cooper: The Stewart Report on Mobile Phones and Health, published in May 2000, did not recommend that the erection of mobile phone masts should be restricted in residential areas and the Office of the Deputy Prime Minister has no plans to introduce such a restriction.

Mr. Hoyle: To ask the Deputy Prime Minister if he will take steps to ensure that mobile telephone operatives consider the case for mast sharing before any application for new masts. [161242]

Yvette Cooper: Planning Policy Guidance Note 8, "Telecommunications" (PPG8), makes clear the expectation that developers should provide evidence to local planning authorities that they have carefully considered the use of existing masts, buildings and other structures before seeking to erect any new mast, regardless of size. The authority may be justified in refusing prior approval or planning permissions if it considers the evidence regarding the consideration of such alternative sites is not satisfactory.

Mr. Spring: To ask the Deputy Prime Minister if he will amend the General Permitted Development Order 1995, section 17 (A), to bring telecommunications masts and base stations erected on land owned by Network Rail into the full local authority planning process. [163037]

Keith Hill: The Office of the Deputy Prime Minister is currently taking forward a wide-ranging review of permitted development rights (PDRs), including those available to railway undertakers. On 10 September 2003 we published a research study on permitted development rights from Nathaniel Lichfield & Partners Ltd. This includes a review of the operation of the PDRs available to railway undertakers.

The Office of the Deputy Prime Minister is considering the Nathaniel Lichfield and Partners' report's recommendations carefully and when we decide which of the suggested reforms should be taken forward, we will undertake a public consultation.

Annabelle Ewing: To ask the Deputy Prime Minister whether the Code of Best Practice on Mobile Phone Network Development issued by his office on 11 November 2002 covers the Tetra project. [161415]

Yvette Cooper: Tetra is the acronym for the TErrestrial Trunked RAdio, which is a standard for digital private mobile radio. Airwave mm O2 is currently rolling out a Tetra system on behalf of the Home Office for police forces nation-wide. Airwave have agreed to work to the guidance contained in the Code Of Best Practice on Mobile Network Development.

Annabelle Ewing: To ask the Deputy Prime Minister what plans he has to amend Planning Policy Guidance Note 8 (revised) (PPG8) in relation to the Tetra project. [161416]

Yvette Cooper: The Office of the Deputy Prime Minister has no plans to change Planning Policy Guidance Note 8 (revised) at present.

Annabelle Ewing: To ask the Deputy Prime Minister what discussions he has had with the Scottish Executive concerning Planning Policy Guidance Note 8 (revised) (PPG8) in relation to the Tetra project. [161417]

Yvette Cooper: The Scottish Executive was consulted prior to the publication of Planning Policy Guidance Note 8 (revised).

TREASURY

Money Laundering

Bob Spink: To ask the Chancellor of the Exchequer what guidance he has published for estate agents on the requirements of the money laundering regulations which comes into force on 1 March; and if he will make a statement. [162457]

Ruth Kelly: The Money Laundering Regulations 2003, which came into force from 1 March 2004, impose high-level objectives to counter money laundering upon those carrying out business in the regulated sector. The Government, in line with the approach taken in the 1993 Money Laundering Regulations, does not issue guidance on the Regulations, instead encouraging industry bodies, regulators and supervisory authorities to provide guidance upon how best to meet the requirements of the Regulations. This allows industry the opportunity to tailor procedures to the differing circumstances and risks specific to individual sectors, thereby encouraging a more efficient, proportionate and flexible way of complying with the regulatory requirements. We are aware that the Royal Institute of Chartered Surveyors (RIGS) and the National Association of Estate Agents (NAEA) have drawn up guidance for members; the RIGS guidance to estate agent members and real estate auctioneers is also available to non-members and the general public on its web site.

Industry guidance can be submitted to Treasury for approval.

Bob Spink: To ask the Chancellor of the Exchequer whether a photcopy of a conveyancing solicitor's or conveyancer's identification documentation will be sufficient to enable estate agents to meet the money laundering regulations. [162458]

Ruth Kelly: The Money Laundering Regulations 2003 require, among other things, that identification procedures are maintained, in certain circumstances, which require the collection of satisfactory evidence of identity for an applicant for business.

We are encouraging, and working with, industry bodies to provide guidance as to what procedures might satisfy this requirement. Ultimately it would be for the courts to decide in individual cases whether identification procedures were sufficient.

Pensioner Population

Simon Hughes: To ask the Chancellor of the Exchequer what the pensioner population is in *(a)* each London borough and *(b)* England. [162407]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Simon Hughes, dated 22 March 2004:

As National Statistician I have been asked to reply to your question concerning the most recent pensioner population for England and each of the London boroughs. (62407)

Attached is a table showing the mid-2002 population estimate of England, the City of London and each of the London boroughs for persons of pensionable age (65 years and over for males and 60 years and over for females).

Population of pensionable age in England and the London boroughs: mid-2002

Area	*Population of pensionable age*[1] *(thousands)*
England	9,100.7
City of London	1.1
Barking and Dagenham	26.8
Barnet	52.1
Bexley	40.2
Brent	36.5
Bromley	57.3
Camden	24.6
Croydon	49.9
Ealing	40.7
Enfield	44.0
Greenwich	31.9
Hackney	22.1
Hammersmith and Fulham	20.6
Haringey	25.0
Harrow	35.1
Havering	45.7
Hillingdon	39.2
Hounslow	28.2
Islington	20 7
Kensington and Chelsea	23.7
Kingston upon Thames	22.2
Lambeth	28.4
Lewisham	31.4
Merton	27.9
Newham	25.5
Redbridge	38.4
Richmond upon Thames	26.6
Southwark	29.3
Sutton	30.0
Tower Hamlets	21.1
Waltham Forest	29.4
Wandsworth	30.6
Westminster	25.5

[1] 65 and over for males; 60 and over for females.

Office for National Statistics, Mid-2002 Population Estimates

Animal Feed

Mrs. Lawrence: To ask the Chancellor of the Exchequer what quantity of *(a)* soya and *(b)* maize gluten was imported for animal feed in each of the last five years; and which companies were the main importers in each case. [162620]

John Healey: HM Customs and Excise are responsible for the collection of data on imports. It is not possible to identify the quantities of imported soya and maize gluten for animal feed from the other items in the commodity code data held.

Birth Defects

Mr. Burstow: To ask the Chancellor of the Exchequer how many birth defects there were in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1997; and if he will make a statement. [162216]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Paul Burstow, dated 22 March 2002:

As National Statistician, I have been asked to reply to your recent question asking for the number of birth defects in *(a)* England, *(b)* each region and *(c)* strategic health authorities since 1997.

The Office for National Statistics (ONS) is responsible for maintaining the National Congenital Anomaly System (NCAS) notifications in England and Wales. These notifications are collected only for live and stillbirths (e.g. terminations are excluded) and are provided by NHS Trusts on a voluntary basis either directly to ONS or via local congenital anomaly registers that exchange data with ONS. In 1997 there were no registers exchanging information with NCAS. By 2001, NCAS received more complete information from four local congenital anomaly registers through multi-source ascertainment.

As a result, numbers of notifications in England and Wales have increased since 1997. These registers cover all births in Wales and 24 per cent. of births in England. For the remaining areas NCAS relies solely on SD56 notification forms and is likely to be less complete. Up to eight malformations are recorded on the system for each baby.

Estimates of the figures requested, covering the period 1997–2001 (latest available year) are shown in the attached table.

Estimated numbers of malformations recorded, 1997–2001, England, Government Office Regions, Strategic Health Authorities

	1997	*1998*	*1999*	*2000*	*2001*
England	6,753	6,516	8,575	9,273	8,027

Cancer

Stephen Hesford: To ask the Chancellor of the Exchequer what the latest death rate figures for cancer are for England; and what they were in 1996–97. [162770]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Stephen Hesford, dated 22 March 2004:

As National Statistician I have been asked to reply to your recent question asking for the latest death rate figures for cancer for England; and what these were in 1996–97. (162770)

The latest year for which data are available is 2002. Figures for cancer are shown in the table below for the calendar years 1996,1997 and 2002.

Age-standardised death rate[1] for cancer[2] by sex in England, 1996,1997 and 2002[3]

Calendar year	*Males*	*Females*
1996	248.4	169.4
1997	240.6	166.7
2002[4]	233.9	161.1

[1] Death rate at all ages per 100,000 population, age-standardised to the European standard population.

[2] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 140–208 for the years 1996 and 1997, and the International Classification of Diseases, Tenth Revision (ICD-10) codes C00-C97 for 2002.

[3] Figures are based on deaths occurring in each calendar year.

[4] The introduction of ICD-10 for coding cause of death in 2001 resulted in the number of deaths coded as cancer at all ages increasing by 2.5% for males and 2.2% for females. For this reason rates are not completely comparable with those for years before this date and the figures should therefore be interpreted with caution. The effect of the change in classification in 2001 on deaths from cancer was published in Health Statistics Quarterly in May 2002.*

* Office for National Statistics. Results of the ICD-10 bridge coding study, England and Wales, 1999. Health Statistics Quarterly 14 (2002), 75–83.

Carers

Simon Hughes: To ask the Chancellor of the Exchequer what estimate he has made of the number of carers aged 65 years and over in Greater London. [162340]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Simon Hughes, dated 22 March 2004:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking what estimate has been made of the number of carers aged 65 years and over in Greater London.

Figures from the Census 2001 National Report for England and Wales indicate that there were 96,132 people aged 65 and over in the London Government Office Region (GOR) providing unpaid care. The London GOR is equivalent to the administrative area of the Greater London Authority covering the 32 London Boroughs and the City of London.

The information below has been extracted from the CD supplement to the 2001 Census National Report for England and Wales, which is available in the House of Commons Library. The table shows the distribution of these carers according to the number of hours of care provided per week.

Number of people aged 65 and over providing unpaid care in the London GOR, 2001

London GOR

	All people Provides care:			
	1–19 hours	*20–49 hours*	*50 or more hours*	*Total*
65 to 74	36,917	6,921	18,625	62,463
75 to 84	14,050	3,082	11,622	28,754
85 to 89	1,573	451	1,920	3,944
90 and over	382	141	448	971
Total	52,922	10,595	32,615	96,132

2003	
Cases Investigated may include more than one category of offence.	
Category of Misuse	Offences Investigated
Misuse of email	107
Unauthorised Access	146
Misuse of Internet	4
Unauthorised disclosure	4
Recreational Browsing	5
Other	62
322 cases resulted in disciplinary action.	

Death Certification

Mr. Burstow: To ask the Chancellor of the Exchequer how the new proposals on death certification will affect the recording of deaths involving MRSA. [162217]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Karen Dunnell to Mr. Paul Burstow, dated 22 March 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question concerning how the new proposals on death certification will affect the recording of deaths involving MRSA. I am replying in his absence.

The proposal to reform the coroner and death certification service is likely to improve information about MRSA infection at or shortly before death in a number of ways:

The emphasis on improved training for doctors in how to complete death certificates and the scrutiny of all certificates by specially trained medical examiners will improve the quality and completeness of information collected.

The ability to link fact and cause of death to laboratory or patient records of infection will make it possible to determine how many people die following a diagnosis of invasive MRSA infection.

Specific research studies would still be needed to determine how much MRSA, or other health care associated infections, contribute to the likelihood of dying amongst patients with the same underlying illness and treatment.

Deaths (Greater London)

Simon Hughes: To ask the Chancellor of the Exchequer how many deaths in people over 60 in each year since 1997 in Greater London were due to *(a)* cancer, *(b)* coronary heart disease and *(c)* falls. [163072]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Simon Hughes, dated 22 March 2004:

As National Statistician I have been asked to reply to your recent question asking how many deaths in people aged over 60 in each year since 1997 in Greater London were due to *(a)* cancer, *(b)* coronary heart disease and *(c)* falls. (163072)

The latest year for which data are available is 2002. Figures for cancer, ischemic (otherwise known as coronary) heart disease and falls in persons aged 60 and over are shown in the attached table for each year from 1997 to 2002.

The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001 and 2002. The introduction of

ICD-10 has meant that the numbers of deaths from cancer in 2001 and 2002 are not completely comparable with those from previous years (see footnotes to table).

Number of deaths from (a) cancer, (b) ischemic heart disease, and (c) falls[1] in persons aged 60 and over, Greater London[2] 1997 to 2002[3]

Calendar year	*(a) Cancer[4]*	*(b) Ischemic heart disease*	*(c) Falls[5]*
1997	12,947	11,536	150
1998	12,889	11,398	167
1999	12,328	10,955	163
2000	12,031	10,207	176
2001[4]	12,257	9,641	139
2002[4]	12,165	9,316	121

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001 and 2002. The codes used are listed below:

Cancer—ICD-9 140–208;/CD-70 C00-C97;

Ischemic heart disease—ICD-9 410–414; ICD-10120–125;

Falls—ICD-9 E880-E888 excluding E887; ICD-10 W00-W19.

[2] Usual residents of London Government Office Region

[3] Figures are based on deaths occurring in each calendar year.

[4] The introduction of ICD-10 for coding cause of death in 2001 resulted in the number of deaths coded as cancer at all ages increasing by 2.5 per cent. for males and 2.2 per cent. for females. For this reason numbers are not completely comparable with those for years before this date. The effect of the introduction of ICD-10 is also known to vary by age and figures at age 60 and over should therefore be interpreted with caution. The effect of the change in classification in 2001 on deaths from cancer is described in a report published in May 2002.*

[5] The data for falls for 1997 to 2000 exclude fractures of unspecified cause (ICD-9 E887), so data for these years are comparable to those for 2001 onwards. The effect of the change in classification in 2001 on deaths from falls is described in an article published in August 2003.**

Departmental Advertising

Mr. George Osborne: To ask the Chancellor of the Exchequer what the total cost is of the advertising campaign for tax credits. [157966]

Dawn Primarolo: The total cost to date of advertising for tax credits in 2003/04 is £10.6 million.

Drug-related Deaths

Simon Hughes: To ask the Chancellor of the Exchequer how many drug-related deaths there were in people aged under *(a)* 21, *(b)* 30 and *(c)* 40 years in (i) Greater London and (ii) each London borough in the last year for which figures are available. [162409]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Simon Hughes, dated 22 March 2004:

As National Statistician I have been asked to reply to your question asking how many drug-related deaths there were in people aged under *(a)* 21, *(b)* 30, *(c)* 40 in (i) Greater London and (ii) each London Borough in the latest year for which figures are available. (162409)

The most recent year for which figures are available is 2002. In Greater London in that year there were 7 deaths related to drug poisoning in persons aged under 21, 69 in persons aged 21–29, and 111 in persons aged 30–39. Numbers of deaths certified as due to drug poisoning for each London Borough are given in the attached table for persons aged under 40. With the exception of Lambeth (7 deaths at ages under 30), there were too few deaths at ages under 30 in all other London Boroughs to release figures without risk of disclosure.

Deaths related to drug poisoning,[1] at ages under 40[2] by London Borough,[3] 2002[4]

Office for National Statistics.

Earnings

Mr. Hancock: To ask the Chancellor of the Exchequer what the average percentage change in *(a)* public sector pay and *(b)* non-manual earnings has been in each year since 1993. [162291]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Mike Hancock, dated 22 March 2004:

The National Statistician has been asked to reply to your recent question for a list of the percentage change in *(a)* public sector pay and *(b)* non-manual earnings has been in each year since 1993. I am replying in his absence. (162291)

I attach a table showing the percentage change in public sector pay and non-manual earnings.

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for NES tables. The NES does not collect data on the self employed and people who do unpaid work.

The NES, carried out in April of each year, is the most comprehensive source of earnings information in Great Britain. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes, but because of its sampling frame, it has difficulty capturing data on people with very low pay. It is therefore likely to under-represent relatively low paid staff earning below the tax threshold.

Estimates for changes in non-manual earnings from 1993 to 2002 are coded from the non- manual classification in the Standard Occupational Classification 1990. Non-manual tables were not produced as part of the 2003 NES. This is because the data have been coded on the Standard Occupational Classification 2000 which does not differentiate between manual and non-manual employees. An alternative to the manual and non-manual split has been derived from the NES, based on the National Statistics Socio-economic Classification (NS-SEC) for the 2003 estimate. However, the two classification methods do produce different results and comparisons between the two should only be used with caution.

Percentage change in (a) public sector pay and (b) non-manual earnings since 1993.

Year	*Public Sector*	*Non-manual*
1993 to 1994	2.5	2.9
1994 to 1995	—	3.1
1995 to 1996	4.2	4.4
1996 to 1997	3.3	4.5
1997 to 1998	3.6	4.5
1998 to 1999	4.0	3.8
1 999 to 2000	3.6	4.5
2000 to 2001	5.3	6.0
2001 to 2002	3.6	4.6
2002 to 2003	3.7	2.1

Notes:
The data used for 2002 to 2003 was derived using the NS-SEC.
Source for earnings data:
New Earnings Survey, April 2003
1. The Inter-Departmental Business Register was used to derive the Public sector.
Comprising:
(a) Central Government.
Government departments and establishments, the National Health Service and various government-financed organisations. (The Armed Forces are not covered by the NES).
(b) Local government.
Local Government authorities (including education authorities), police service and various other organisations.
(c) Public corporations.
Nationalised industries, NHS Trusts, and other publicly-constituted trading organisations.
2. Information is provided for average gross weekly earnings including overtime to and relates full time employees on adult rates whose pay for the survey pay period was unaffected by absence.
3. Data for Public Sector percentage change is unavailable for 1994 -1995 due to a change in 1995 in sectoral coding, it was not possible to calculate the percentage increases for the sectors.

Simon Hughes: To ask the Chancellor of the Exchequer if he will list for *(a)* male, *(b)* female and *(c)* all workers in (i) Greater London and (ii) each London borough the (A) weekly median earnings and (B) distribution of earnings for those earning (1) under the point below which 10 per cent. of earners fall and (2) the point above which 10 per cent. of earners exceed. [162410]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Simon Hughes, dated 22 March 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question which asked for details of earnings in Greater London and each London Borough. I am replying in his absence.

The attached table shows the median and percentile earnings.

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for NES tables. The NES does not collect data on the self employed and people who do unpaid work.

The NES, carried out in April of each year, is the most comprehensive source of earnings information in Great Britain. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes, but because of its sampling frame, it has difficulty capturing data on people with very low pay. It is therefore likely to under-represent relatively low paid staff earning below the tax threshold.

The New Earnings Survey publication criteria ensures that all estimates are undisclosive and of reliable quality. A large number of estimates have been removed from the lists due to the suppression criteria. The information is based on the 2003 NES, the latest survey for which data are available. The area of Greater London is defined by grouping together all the boroughs of London.

[1] Data have been suppressed due to confidentiality or quality

Note:

1. The definition of Greater London is the total of all London Boroughs.
2. Information is provided for average gross weekly earnings including overtime and relates full time employees on adult rates whose pay for the survey pay period was unaffected by absence.
3. The New Earnings Survey release criteria currently require that any estimate: *(a)* of a mean is based on a sample size of at least 30 and that the associated standard error does not exceed 5 per cent. *(b)* of a quantile such as a percentile, quartile or median, or of a percentage, is based on a sample size of at least 10 and that the sample size is either at least 225 or that the relative standard error is less than 20 per cent.
4. Estimates are produced for those people who work in a borough.

Electorate (Lancashire)

Mr. Hoyle: To ask the Chancellor of the Exchequer what the change in the size of the electorate was in each Lancashire constituency in each year since 1997; and what these figures were as a percentage of the total. [162149]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Lindsay Hoyle, dated 22 March 2004:

As National Statistician I have been asked to reply to your question concerning the change in size of parliamentary electorate for each Lancashire parliamentary constituency since 1997. (162149)

Attached is a table showing the total and percentage change of the number of registered parliamentary electors in each Lancashire constituency over the period 16 February 1996 to 1 December 2003. For completeness the Blackburn and Blackpool South constituencies are also shown. The Office for National Statistics did not publish electoral data for parliamentary constituencies for 2000. A new reference date for electoral registers came into effect on 1 December 2001. Previously the reference date was 16 February. Hence two figures are shown for 2001.

It should be noted that these figures represent the number of registered electors. In many cases, larger decreases may be due to 'cleaning' the registers rather than 'real' drops in the number of electors.

Parliamentary electors on the 1996 to 2003 electoral registers: Lancashire

Constituency	*16 February 1996*	*16 February 1997*	*16 February 1998*	*16 February 1999*	*16 February 2001*	*1 December 2001*	*1 December 2002*	*1 December 2003*

Office for National Statistics

Employer Tax Contributions

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what assessment he has made of the effects of harmonising employer support on income tax, National Insurance contributions and VAT. [162226]

Dawn Primarolo: The O'Donnell Review of the Revenue Departments was published on 17 March 2004. The Chancellor accepted the Review recommendations in full.

Labour Statistics

Mr. Drew: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change in the number of full-time jobs in Stroud was from 1997 to 31 December 2003; [162738]

(2) how many people were employed in manufacturing jobs in Stroud in each of the last seven years for which figures are available; and what percentage of the total work force this represented. [162739]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Drew, dated 22 March 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Questions about full time jobs, and manufacturing jobs in Stroud. (162738, 162739)

Please find attached two tables giving the information requested.

Table A shows the number of full-time and part-time jobs in Stroud Parliamentary Constituency in 1997 and 2002, the latest year for which information is available.

Table B shows the number of people employed in manufacturing jobs in the Stroud Parliamentary Constituency, and these numbers as a percentage of the total number of employees, from 1996 to 2002, the latest year for which information is available.

Table A; Full-time and Part-time employees[1] in Stroud Parliamentary Constituency: 1997 and 2002

Number, per cent

	Full Time	Part Time	Total
Number of employees			
1997	23,800	9,900	33,700
2002	23,400	12,000	35,400
Change from 1997 to 2002			
Absolute	-400	2,100	1,700
Percentage	-1.3%	20.6%	5.1%

[1] Employee jobs only, not self-employed jobs

Source:
1997, Annual Employment Survey; 2002, Annual Business Inquiry (ABI)

Table B: Employees[1] in manufacturing in the Stroud Parliamentary Constituency; 1996–2002

	Employees in Manufacturing	*% of all employees*
1996	11,400	33.1
1997	9,200	27.2
1998	10,000	28.2
1999	9,600	26.0
2000	8,800	25.1
2001	6,800	20.1
2002	6,700	18.8

1996–1997, Annual Employment Survey; 1998–2002, Annual Business Inquiry (ABI)

Mr. Drew: To ask the Chancellor of the Exchequer what the level of unemployment was in Stroud in each year since 1997; and what percentage of the workforce this represented. [162740]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. David Drew, dated 22 March 2004:

The National Statistician has been asked to reply to your Parliamentary Question about unemployment in Stroud. I am replying in his absence. (162740)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Stroud Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (ISA) for local areas including parliamentary constituencies.

The attached table gives the annual average number of JSA claimants and the proportion of the resident working age population for the Stroud constituency for each year since 1997.

JSA claimants in the Stroud Constituency annual averages

	Total	*Rate*[1]
1997	1,569	2.6
1998	1,239	2.1
1999	1,204	2.0
2000	1,040	1.7
2001	997	1.7
2002	919	1.5
2003	924	1.5

[1] Proportion of resident working age population of Stroud Constituency calculated using the 2001 resident working age population.

Simon Hughes: To ask the Chancellor of the Exchequer (1) how many *(a)* males and *(b)* females aged (i) 21 to 30, (ii) 31 to 40, (iii) 41 to 50 and (iv) 51 to 60 years in Greater London have been unemployed for (A) less than one month, (B) less than three months, (C) less than six months, (D) six to 12 months and (E) over 12 months; [162360]

(2) how many people aged *(a)* 21 to 30, *(b)* 31 to 40, *(c)* 41 to 50 and *(d)* 51 to 60 years are unemployed. [162361

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply

Letter from Colin Mowl to Simon Hughes, dated 22 March 2004:

The National Statistician has been asked to reply to your Parliamentary Questions about unemployment by age group and duration. I am replying in his absence. (162360, 162361)

The attached table shows unemployment estimates from the Labour Force Survey by gender, age and duration in London and in the UK, for the three month period ending November 2003, the most recent period for which information for these categories is available. The data are not seasonally adjusted.

As with any sample survey, estimates from the LFS are subject to sampling variability.

Persons aged 21–60: duration[1] of unemployment by age

3 months ending November 2003 (not seasonally adjusted) *Thousands*

	UK	*Greater London*			
Age group	*All durations*	*All durations*	*Less than 3 months*	*3 months but less than 6 months*	*6 months but less than 12 months*	*Over 12 months*
Total 21–60	1,042	205	76	43	35	50
21–30	366	77	37	16	12	12
31–40	290	56	16	15	10	15
41–50	215	44	14	*	*	14

Source:

ONS Labour Force Survey[1] Duration of unemployment is defined as the length of time for which a person has been seeking work or the length of time since he or she left their most recent job (whichever is the shorter).

* Sample size too small for reliable estimate. The shortest period available is less than three months.

EU Taxation

Bob Spink: To ask the Chancellor of the Exchequer what the total level of tax raised was per head of population for each current EU country for the last year for which figures are available, taking into account all sources of taxation and National Insurance and equivalent revenue. [162870]

Dawn Primarolo: The OECD publishes figures for "Tax revenue in US dollars per capita" for each of its member countries, in its annual Revenue Statistics publication. The latest available figures are for 2001 (OECD Revenue Statistics 1965–2002, October 2003 edition, p.90, Table 34). A copy of this publication is available in the Library of the House.

Euro

Mr. Drew: To ask the Chancellor of the Exchequer what steps his Department is taking to continue to evaluate its five economic tests for entry to the euro; and what plans he has to publish findings on a regular basis. [162836]

Ruth Kelly: As the Chancellor of the Exchequer announced in his Budget speech, "while the Government does not propose an assessment be initiated at the time of this Budget, the Treasury will again review the situation at Budget time next year and report to the House."

Housing Market

Mr. Rosindell: To ask the Chancellor of the Exchequer what action he intends to take to encourage more first time home buyers into the market. [162468]

Ruth Kelly: The Government announced in the Budget statement its intention to implement a programme of change, as recommended by the final report of the Barker Review "Delivering Stability: Securing our Future Housing Needs" published on 17 March 2004, in order to meet the key objectives of stability and improved housing market affordability.

Inland Revenue

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what efforts are being made to *(a)* enhance the services provided by the Inland Revenue and *(b)* facilitate its closer working with other government departments. [162225]

Dawn Primarolo: In July 2003 the Chancellor announced a major review of the Inland Revenue, HM Customs and Excise and the Treasury, led by Gus O'Donnell, which looked at these issues in detail. The O'Donnell Review delivered its conclusions on 17 March 2004 with recommendations to enhance customer service by integrating the work of the Revenue and Customs into a single, new department.

Pet Passports

Mr. Gray: To ask the Chancellor of the Exchequer what level of VAT is chargeable on *(a)* passports, *(b)* pet passports and *(c)* passports for horses. [161660]

John Healey *[holding answer 16 March 2004]:* British Citizens' passports are issued under statute by the Passport Office. Public bodies are not engaged in business activities when they undertake their statutory duties, rendering these public services free from VAT.

Customs and Excise understand that certificates under the Pet Travel Scheme are issued by veterinary surgeons in the course of vaccinating the animal in question. Veterinary treatment is subject to 17.5 per cent. VAT.

If passports for horses are issued commercially by non-public bodies, they will also be subject to 17.5 per cent. VAT.

Financial Services (VAT)

Mr. Rosindell: To ask the Chancellor of the Exchequer if he will list the types of financial transaction that are subject to VAT. [162452]

John Healey: In general, financial services are exempt from VAT. Group 5 of Schedule 9 to the VAT Act 1994 sets out in detail which supplies of financial services are exempt from VAT.

National Asset Register

Mr. Heath: To ask the Chancellor of the Exchequer on how many occasions the National Asset Register has been published since November 1997. [162865]

Ruth Kelly: The National Asset Register has been published on one occasion since November 1997, in July 2001.

Orphans Fund

Alan Simpson: To ask the Chancellor of the Exchequer what discussions he has had with the Financial Services Industry on the orphans funds held in respect of unclaimed matured policies. [163168]

Ruth Kelly: Ministers and officials regularly meet representatives from the financial services industry and discuss a wide range of issues.

Pensions

Mr. Simon Thomas: To ask the Chancellor of the Exchequer what the average effect would be on an individual pensioner of adopting the harmonised index of consumer prices as a means of calculating inflation in respect of pensions in each year until 2007. [161374]

Malcolm Wicks: The information requested is not currently available.

The effect on pensioners of adopting the harmonised index of consumer prices as a means of calculating inflation in respect of pensions in each year from April 2004 until 2007 would differ depending on the circumstances of each pensioner.

However, we have no plans to change the basis on which we uprate state pensions.

Mr. Simon Thomas: To ask the Chancellor of the Exchequer how many pensioners have been affected by the changes to the way inflation is calculated since the adoption of the harmonised index of consumer prices. [161375]

Malcolm Wicks: I have been asked to reply.

The harmonised index of consumer prices is not used to uprate social security benefits, and there is no requirement to use it to uprate occupational or personal pensions.

Personal Debt

Jim Dowd: To ask the Chancellor of the Exchequer what his estimate is of the current level of debt outstanding on *(a)* credit cards and *(b)* home loans and mortgages in the UK; and what the comparable figures were in each of the past five years. [159725]

Ruth Kelly: This data can be found within table A5 of the Bank of England's 'Monetary and Financial Statistics' publication, available from the Bank of England's website: www.bankofengland.co.uk.

Pre-owned Assets Tax

Mr. Boris Johnson: To ask the Chancellor of the Exchequer what representations he received from tax practitioners during the consultation period on the proposed tax on pre-owned assets. [161237]

Dawn Primarolo: The Government has received over 100 responses from tax practitioners. Following consultation proposals to tackle tax avoidance using trusts were set out in Budget 2004 (paragraphs 5.87 to 5.90).

Procurement (Outsourcing)

Norman Lamb: To ask the Chancellor of the Exchequer, if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centres jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147586]

Ruth Kelly: The Chancellor of the Exchequer's Departments base their procurement decisions on obtaining goods and services that represent the best value for money and are in accordance with their public policy remits, within European legislation and the Government's UK procurement rules. These departments do not currently have outsourced IT or call centre contracts with offshore companies, with the exception of limited technical support provided under very strict security arrangements as part of the Inland Revenue's Self Assessment system. This arrangement will end in July 2004.

Residential Property Purchase

Hywel Williams: To ask the Chancellor of the Exchequer (1) what estimates have been made of the cost of implementing the tax relief proposals on purchasing residential property through *(a)* SIPPS and *(b)* SAPPS in terms of tax forgone for each financial year until 2010; [161364]

(2) what estimates have been made of the number of people taking up proposals announced in the Pre Budget Report to purchase residential property through *(a)* SIPPS and *(b)* SAPPS. [161365]

Ruth Kelly: The majority of pension savers—over 14 million—are members of schemes currently free to invest in residential property. The new rules will provide a level playing field by allowing some specialised pension funds (SIPPS and SAPPS), held by around 200,000 people, to invest in property for the first time. However for the vast majority of these people investing in property will have little or no attraction because all rental income must go into the pension fund and the property must be sold before the pension can be drawn. Neither do the proposed changes present a 40 per cent. tax break, as some have suggested, as any use of the property for personal use will incur a tax charge.

Self-Assessment

Bob Russell: To ask the Chancellor of the Exchequer how many penalty notices were issued by the Inland Revenue to taxpayers for alleged late submission or non-submission of their 2003 self-assessment tax returns by the 31 January 2003 deadline in circumstances where they had been returned by this date; and if he will make a statement. [162324]

Dawn Primarolo: The Inland Revenue does not currently hold figures of the number of Late Filing Penalty Notices issued for self assessment returns for 2002–03 which might have been issued in these circumstances.

Norman Lamb: To ask the Chancellor of the Exchequer (1) if he will make a statement on the implementation by the Inland Revenue of the scheme whereby taxpayers who no longer need to submit a self-assessment return are informed of this; [147642]

(2) what percentage of taxpayers on low incomes have been removed from the self-assessment system since July 2002; and if he will make a statement; [147643]

(3) if he will make a statement on the simplification of the self-assessment tax return. [147644]

Dawn Primarolo: I refer the hon. Member to paragraph 5.102 of Budget 2004 (HC 301). In addition, the Inland Revenue estimates that up to one million people will be taken out of self-assessment altogether over the coming year. Letters will be sent to them automatically explaining that they will no longer be issued with returns.

Population Statistics

Mr. Forth: To ask the Chancellor of the Exchequer how many *(a)* births, *(b)* deaths, *(c)* marriages and *(d)* divorces there were in each year since 1997. [162935]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from John Pullinger to Mr. Eric Forth, dated 22 March 2004:

The National Statistician has been asked to reply to your question concerning the numbers of births, deaths, marriages and divorces for each year since 1997. I am replying in his absence.(162935)

Attached is a table providing the information requested.

	Births	Deaths	Marriages	Numbers divorces
1997	643,095	555,281	272,536	146,689
1998	635,901	555,015	267,303	145,214
1999	621,872	556,118	263,515	144,556
2000	604,441	535,664	267,961	141,135
2001	594,634	530,373	249,227	143,818
2002	596,122	533,527	254,397	147,735

Office for National Statistics

Tax Credits

Peter Bradley: To ask the Chancellor of the Exchequer how many families in The Wrekin are in receipt of *(a)* working tax credit and *(b)* child tax credit; and what the average change in income has been as a result. [162771]

Dawn Primarolo: For the numbers in receipt of child tax credit (CTC) and working tax credit (WTC), I refer my hon. Friend to my answer to my hon. Friend the Member for Burton (Mrs Dean) on 15 March 2004, *Official Report*, column 98W.

It is not possible to estimate the average change in income from the introduction of CTC and WTC for families in The Wrekin. An estimated 3,500 in-work families there were receiving more than the family element of CTC at January 2004, compared with 2,100 receiving Working Families' and Disabled Person's Tax Credits at November 2002; and there was an increase of £180 per year in the child element of CTC from April announced in the November 2003 Pre Budget Report. Out-of-work families with children have also benefited from the increases to the child premia in Income Support and income-based Jobseeker's Allowance from April 2003.

Mr. Hepburn: To ask the Chancellor of the Exchequer (1) how much money has been overpaid to tax credit recipients in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the United Kingdom in (i) 2003 and (ii) 2004 to date; [161887]

(2) how many people in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the United Kingdom were overpaid disabled person's tax credit before its replacement by working tax credit; [161898]

(3) how many people in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the United Kingdom have been overpaid working tax credit; [161899]

(4) how many people in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the United Kingdom receive working tax credit. [161897]

Dawn Primarolo: The number of families with overpayments in 2003–04 cannot be established until awards for that year are finalised.

On overpayments of the Disabled Person's Tax Credit, I refer my hon. Friend to my answer to the hon. Member for Eddisbury (Mr. O'Brien) on 12 November 2003 *Official Report*, column 394W.

The number of families in the United Kingdom and in each region receiving *(a)* child tax credit and *(b)* working tax credit appears in "Child and Working Tax Credit. Quarterly Statistics". The number of families in each local authority and constituency receiving child or working tax credit appears in "Child and Working Tax Credit. Geographical Analyses"; the estimates are based on a sample of cases and are subject to sampling uncertainty. Both publications appear on the Inland Revenue website, at: www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm.

Norman Lamb: To ask the Chancellor of the Exchequer (1) how many awards of child tax credit have been determined to have been wrongly calculated; and of those how many were *(a)* too high and *(b)* too low; [161384]

(2) how many awards of child tax credit have been determined to have been wrongly calculated in *(a)* the North West and *(b)* Lancashire; and of those how many were (i) too high and (ii) too low. [162150]

Dawn Primarolo: Tax credits awards are made on the basis of information captured from claim forms or from claims made online (at www.inlandrevenue.gov.uk/taxcredits). Awards are then adjusted if a change in circumstances or income is reported. They may also be adjusted if any of the information on which the award was based is incorrect. But it is not possible to distinguish between cases where families' circumstances or incomes have changed and those where the original information provided was incorrect or was handled incorrectly.

Working Tax Credit

Mr. Simmonds: To ask the Chancellor of the Exchequer how many fraudulent claims have been made for the childcare element of the working tax credit in each year since 2002. [163145]

Dawn Primarolo: I refer the hon. Member to my answer to the hon. Member for Northavon (Mr. Webb) on 5 February 2004, *Official Report*, columns 1003–04W.

Winter Deaths (Liverpool)

Mrs. Ellman: To ask the Chancellor of the Exchequer how many people have died in the winter months in each of the council wards of Liverpool in each of the last 10 years. [162565]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Louise Ellman, dated 22 March 2004:

As National Statistician I have been asked to reply to your recent question asking how many people have died in the winter months in each of the council wards of Liverpool over each of the last 10 years. (162565)

Figures are presented for the winter months (December to March) in each year from 1993–94 to 2001–02 in the attached table. The latest year for which data are available is 2002. Numbers of deaths occurring in each winter before 1993 are not readily available at ward level and could only be produced at disproportionate cost.

Number of deaths in winter months[1] in each year from 1993–94 to 2001–02 by electoral ward[2] in Liverpool[3]

Electoral ward	*1993–94*	*1994–95*	*1995–96*	*1996–97*	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*

DEFENCE

Afghanistan

Mr. Chidgey: To ask the Secretary of State for Defence what assessment he has made of the initial achievements of *(a)* the Provisional Reconstruction Team in Mazar-e-Sharif and *(b)* the other provisional reconstruction teams. [162966]

Mr. Ingram: In its first eight months the United Kingdom-led Provincial Reconstruction Team (PRT) in Mazar-e Sharif has made good progress against all its objectives. The achievements of other PRTs is a matter for their own Lead Nations but, collectively, they all contribute towards the wider goal of restoring a peaceful, stable and prosperous Afghanistan.

Iraq

Adam Price: To ask the Secretary of State for Defence (1) where and on what date *(a)* Rhadi Nama, *(b)* Ahmed Jabber Karrem, *(c)* Nadhem Abdulla, *(d)* Abd Al Jalba Mouse Ali, *(e)* Hazma Abdul Hussein Al-Askary, *(f)* Waed Jabber Raheem and *(g)* Jasim Yassim Jabbar Al-Shuirillway died; and what the cause of death was in each case; [154352]

(2) where and on what date *(a)* Hussan Said Shaba Al-Bata, *(b)* Said Shabram, *(c)* Waleed Fiaz Mejban, *(d)* Bala Nasheem Mohammed, *(e)* Hassan Abbad Saied, *(f)* Ather Karen Al-Mowafetaia, *(g)* Ali Salaam Ayi Mohammed and *(h)* Dyab Rehman Nasser died; and what the cause of death was in each case. [154357]

Mr. Ingram: The deaths occurred within the United Kingdom Area of Operations, though it is not the purpose of the SIB inquiry to determine the cause of death.

Name	*Date of death*
Rhadi Nama	8 May 2003
Ahmed Jabber Kareem	8 May 2003
Nadhem Abdullah	11 May 2003
Abd Al Jubba Mousa Ali	17 May 2003
Hazma Abdul Hussein Al-Askery	18 May 2003
Waed Jabber Raheem	26 May 2003
Jasim Yassim Jabber Al-Shimillwy	15 June 2003
Hussan Said Shaba Al-Bata	24 October 2003
Said Shabram	24 May 2003
Waleed Fiaz Mezban	2 September 2003
Baha Nasheem Mohammed	15 September 2003
Hassan Abbad Said	2 August 2003
Ather Karen Al-Mowafakia	29 April 2003
Ali Salaam Aziz Mohammed	3 May 2003
Dyab Rahman Nasser	5 May 2003

Chris Rowlands

Mr. Keetch: To ask the Secretary of State for Defence if he will make a statement on the discharge of Chris Rowlands from the Army. [162402]

Mr. Caplin: In accordance with the Data Protection Act 1998, I am unable to make public any personal data relating to Chris Rowlands unless the hon. Member has his explicit consent.

Service Communications

Mr. Soames: To ask the Secretary of State for Defence how many departmental personnel are involved in communications activities for the *(a)* Naval Service, *(b)* Army and *(c)* Royal Air Force. [162960]

Mr. Caplin: Within the Ministry of Defence headquarters' corporate communications organisation there are a number of staff employed primarily on the communications activities of the three single Services. As at 22 March 2004 the number of such personnel (including support staff and photographers) was:

	Number
(a) Royal Navy	[1]19
(b) Army	11
(c) Royal Air Force	13

[1] This includes a team of four Naval photographers who undertake a number of joint service tasks.

Kosovo

Mr. Soames: To ask the Secretary of State for Defence when he last met his European Union counterparts to discuss matters relating to the security situation in *(a)* Kosovo and *(b)* Serbia-Montenegro. [163223]

Mr. Hoon: I regularly meet my European Union counterparts to discuss defence matters, including those relating to the Balkans. In particular, I attended the EU General Affairs and External Relations Council on 17–18 November 2003, at which security issues in the Balkans were discussed.

Mr. Soames: To ask the Secretary of State for Defence what representations he has received from the Government of Serbia-Montenegro regarding Prime Minister Kostunica's proposal for the deployment of Serbian forces to Kosovo. [163224]

Mr. Hoon: I discussed recent events in Kosovo with the Serbia and Montenegro Defence Minister, Boris Tadic. The issue of deploying Serbian troops to Kosovo was not raised.

Mr. Soames: To ask the Secretary of State for Defence what assessment he has made of the extent to which the borders between *(a)* Kosovo and Albania and *(b)* Kosovo and the former Yugoslav Republic of Macedonia are adequately secured; and who controls them. [163225]

Mr. Hoon: Responsibility for border control points in Kosovo is held by the Kosovo Police Service under the authority of the UN Interim Administration Mission In Kosovo (UNMIK). Responsibility for the territorial integrity of Kosovo, including adjacent to the border with Albania and the Former Yugoslav Republic of

Macedonia (FYROM), rests with KFOR. On the Macedonian side of the border, the responsibility for border crossing points rests with by the FYROM Border Police and for the rest of the border with the First Army Brigade. On the Albanian side of the Kosovo—Albanian border, the Albanian Police have responsibility for border control.

We assess that Kosovo's borders with both Albania and FYROM are adequately secured.

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the security situation in the Kosovo towns of *(a)* Mitrovica, *(b)* Orahovac and *(c)* Pristina. [163226]

Mr. Hoon: The security situation in Kosovo, including the towns of Mitrovica, Orahovac and Pristina, is calm following the violent events of last week. NATO, including KFOR forces on the ground, continues to monitor the situation.

Leslie John Douglas

Mr. McNamara: To ask the Secretary of State for Defence what the outcome was of the investigation into the death of Mr. Leslie John Douglas; when a Board of Inquiry was convened; what its recommendations were; and what further action has been taken. [162259]

Mr. Ingram: The Royal Military Police Special Investigation, despite extensive witness interviews and forensic examination, was inconclusive.

A Board of Inquiry (BOI) into Cpl Douglas's death was convened in November 2001. It made the following recommendations on range safety:

- that reminders of key Range Planning and Safety Regulations should be issued periodically to the Chain of Command;
- that Guidance on safe bayonet fitting drills should be reviewed;
- that measures be taken to reinforce the need for completion of all aspects of Stage 4 Transition to Field Firing training, prior to commencing Stage 5 Field Firing.

The following actions have been taken:

- periodic reminders of key Range Planning and Safety Regulations are now issued to the chain of command;
- guidance on safe bayonet fitting was reviewed and amended;
- all training authorities are now reminded periodically of the need to ensure proper progression of training.

Medical Reservists

Miss McIntosh: To ask the Secretary of State for Defence how many medical reservists there were in *(a)* 1997 and *(b)* 2003; and if he will make a statement. [158621]

Mr. Caplin: The following table provides information on the number of medical reservists as at 1 April 1997 and 1 April 2003. Figures for 1997 are not available for the Royal Navy Reserves.

Service	*1997*	*2003*
Territorial Army	4,440	3,680
Royal Navy Reserves	—	156
RauxAF	144	138

Sean Benton

Mr. McNamara: To ask the Secretary of State for Defence what recommendations were made by the Board of Inquiry into the death of Sean Benton concerning security instructions and orders governing armed guard duties at Deepcut barracks; and what action has subsequently been taken on the implementation of each of these recommendations. [162267]

Mr. Ingram: During its investigation the Board of Inquiry (BOI) highlighted a number of concerns, largely relating to security orders and procedures within the Guardroom. Direction was given for the following actions to be taken, and these were implemented by the end of August 1995:

- review all security and guard procedures to ensure that they are relevant and in accordance with the current regulations and instructions;
- review all instructions within the Guardroom, and in particular instructions given to the guard and other duty personnel;
- issue clear orders relating to the issue of weapons and ammunition and the safeguarding of such weapons while they are in an individuals charge;
- review procedures for the posting of relief guards.

In its concluding report, the BOI also made the following recommendations, all of which have been implemented:

- adequate instructions should exist for all sentry posts;
- reliefs should be posted by the Guard Commander, Guard 2IC or Regimental Police Duty staff;
- a standardized Guard Commanders Order to the guard format should be adopted;
- guards should be clearly told that they are not to handover their weapons or ammunition unless specifically ordered to do so by a member of the Regimental Police Staff, Guard Commander or Guard 2IC;
- orders should be clearly displayed in the Guardroom;
- the Guard and Guard Reserve should be paraded as two separate contingents;
- guards should be rotated between posts during their period of duty thereby safeguarding against complacency.

Territorial Army

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what help is given to Territorial Army soldiers who have lost their job owing to service with the military in the last five years; and how many TA personnel have been affected. [161869]

Mr. Caplin: The Ministry of Defence provides detailed advice to reservists on their legal right to reclaim their civilian employment in the UK and how to seek reinstatement, in line with the Reserve Forces (Safeguard of Employment) Act 1985. Each reservist receives a copy of JSP 532 "Guidance for reservists returning to civilian employment following a period of mobilised service". The Supporting Britain's Reservists and Employers (SaBRE) campaign team provides a help line and a website which gives additional information and advice. Also, each Reserve Forces and Cadet Association (RFCA) has an Employer Support Executive who is able to offer advice and assistance to reservists who are experiencing problems returning to their civilian employment. We are also introducing Unit Employer Support Officers to boost further our capability in this area.

In addition, as my right hon. Friend the Secretary of State for Defence announced on 11 December 2003 in the Defence White Paper, we will be examining the effectiveness of the 1985 Act and the other measures that go with it.

There is no requirement for reservists to provide the information requested to the Department. There is, therefore, no comprehensive record of the numbers of reservists who may have lost their civilian jobs. However, indications are that civilian employers have been very supportive of reservists and, of over 9,200 reservists called-out to support Operation TELIC, we are aware of only 15 individuals who have brought, or are seeking to bring, cases to Reinstatement Committees under the 1985 Act (as at 17 March 2004). In addition, two applications were made resulting from the mobilisation of reservists for operations in the Balkans.

There is one small TA unit based in Germany, where the 1985 Act does not apply. Special arrangements have therefore been put in place to offer Full Time Reserve Service appointments to 11 reservists called up for Operation TELIC, who have not been able to return to their original employment. This is intended to provide continuity of employment until they are able to start new jobs. We are very concerned to learn that these members of the TA lost their civilian jobs, and plan to raise this matter with the relevant German authorities.

TREASURY

Small Businesses

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer what changes have been made since 1997 to the tax system to promote enterprise and growth in small businesses; and what assessment he has made of their effectiveness. [163324]

Dawn Primarolo: Changes to taxation since 1997 are set out in the relevant Financial Statement and Budget Reports, which are available in the Library of the House. They include a range of measures to promote investment and productivity, including cuts in corporation tax and income tax rates for the self-employed, improvements to capital allowances for small enterprises, the simplification of the VAT regime, introduction and expansion of the R and D tax credits and support for venture capital.

Biofuels

Richard Ottaway: To ask the Chancellor of the Exchequer when he expects to complete his consultation on biofuels; whom he plans to consult; and how the consultation will be conducted. [163043]

John Healey: The Department for Transport will shortly consult on the Government's draft biofuels directive implementation strategy. This will include options on complementary regulatory measures, including the option of a biofuels obligation for the transport sector.

Furthermore, the Chancellor announced in this year's Budget that the Government will be discussing with stakeholders two separate issues concerning biofuels: *(a)* The implications of input-based taxation on biofuels, and *(b)* the application of enhanced capital allowances to support investment into the most environmentally beneficial biofuels processing plants.

Direct Payment

Malcolm Bruce: To ask the Chancellor of the Exchequer pursuant to the answer from the Under-Secretary of State, Department for Work and Pensions of 27 February 2004, *Official Report*, column 584W, how many *(a)* Post Office card accounts and *(b)* bank or building society accounts have (i) been requested for and (ii) are receiving payments of child benefit, broken down by region. [162736]

Dawn Primarolo *[holding answer 22 March 2004]*: Key figures on the progress of conversion of child benefit customers to direct payment are available in the House of Commons Library, updated every four weeks. They include details of requests for the Post Office card account. With regard to actual payments, as at 16 March 2004 a total of 5,750,105 child benefit customers were being paid into a bank or building society and 233,220 into a Post Office card account. There are a further 127,453 customers who have provided bank or building society details and 91,647 who have provided Post Office account details and they will be paid into their accounts when their current order book expires.

It is not possible to break down the numbers by region.

Community Benefit Society Asset Locks

Mr. Todd: To ask the Chancellor of the Exchequer when he will publish a consultation paper on the introduction of the community benefit society asset locks described in the Co-operatives and Community Benefit Societies Act 2003; and if he will make a statement. [163340]

Ruth Kelly: The Government intends to publish a consultation document on the introduction of the community benefit society asset lock later this year.

Complaints

Rob Marris: To ask the Chancellor of the Exchequer how many complaints there were to *(a)* the Inland Revenue, *(b)* HM Customs and Excise and *(c)* district valuers' offices in each of the last three years. [156868]

Dawn Primarolo: The information requested is published in HM Customs and Excise's and the Inland Revenue's Annual Reports, copies of which are available in the Library of the House.

E-business Strategy

Mr. Heald: To ask the Chancellor of the Exchequer when he expects to produce the e-business strategy for *(a)* HM Customs and Excise and *(b)* the Public Record Office. [162811]

John Healey: HM Customs and Excise has had an e-Business Strategy for several years. It has been updated periodically to reflect changes in thinking and the impacts of external initiatives. A summary of current

plans will be published later in the year. Part *(b)* of the question is the responsibility of the Department for Constitutional Affairs.

Energy Saving Allowance

Mrs. May: To ask the Chancellor of the Exchequer what standards for loft and cavity wall insulation will apply for qualification under the Landlord's Energy Saving Allowance. [162956]

John Healey: The standards for loft insulation will be set out in regulations made under powers to be set out in Finance Bill 2004.

Inland Revenue

Keith Vaz: To ask the Chancellor of the Exchequer when he will announce the name of the next Chairman of the Inland Revenue. [162709]

Dawn Primarolo: Following Sir Nicholas Monatgu's retirement on 19 March 2004, Miss Ann Chant has assumed the role of Acting Chairman of the Inland Revenue.

My right hon. Friend the Chancellor announced in his Budget speech that the Inland Revenue and HM Customs and Excise will be integrated to create a new Department. The advertisement for the post of Chairman of the new Department was posted on the Treasury website on 18 March 2004. An announcement of the successful candidate will be made in due course.

Personal Tax Allowances

Mr. Byers: To ask the Chancellor of the Exchequer what the cost to the Exchequer would be of allowing a married person to transfer their personal tax allowance to their earning spouse if they have *(a)* a child aged between six months and one year and *(b)* a child aged between one year and two years. [162428]

Dawn Primarolo *[holding answer 23 March 2004]*: The cost to the Exchequer through lower income tax of allowing married persons with children to transfer their full personal allowance to their spouse if he or she has a higher gross income for the two options are listed below.

Cost in 2004–05 per annum

	£ million
Option	
a) married and with at least one child aged between 6 months and one year	160
b) married and with at least one child aged between one year and two years	340

Note:
Figures rounded to the nearest £10 million. They exclude any estimate of behavioural response to the tax change.

The change in revenue for other taxes can only be provided at a disproportionate cost.

Tax Avoidance

Mr. McFall: To ask the Chancellor of the Exchequer which companies are known *(a)* to be selling or to have sold versions of the card handling scheme used to reduce VAT bills and *(b)* to be using or to have used the scheme; and how much revenue is involved in each case. [161860]

John Healey: HM Customs and Excise is debarred by statute from disclosing information about the individual affairs of taxpayers. Exemption 15 (Statutory and other restrictions) of the Open Government Code applies. However, Customs are aware of around 78 taxpayers using the card handling scheme, involving around £301 million of VAT revenue. Customs are vigorously tackling these schemes through the courts and have successfully contested a test case in the VAT and Duties Tribunal.

Tax Fraud and Evasion

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer if he will make a statement on the estimated amount of money lost in each of the last five fiscal years to tax fraud and evasion. [162224]

Dawn Primarolo *[holding answer 22 March 2004]*: There is no reliable estimate of the overall "tax gap" for direct taxes. Lord Grabiner in his review of the hidden economy and the OECD's Centre for Tax Policy and Administration have both concluded that it is a concept difficult if not impossible to measure.

Estimates for indirect tax losses can be found in 'Measuring and Tackling Indirect Tax Losses' (December 2003). A copy of this document has been placed in the House of Commons Library.

VAT

Brian Cotter: To ask the Chancellor of the Exchequer how many businesses his Department estimated would be lifted out of the VAT regime at the time of each increase in the annual taxable turnover limit since 1997. [162666]

John Healey: On average, annual increases in the VAT registration threshold keep around 3,000 of the smallest businesses out of the VAT system.

Estimates of the number of businesses kept out by each increase since 1997 are given in the following table:

£000

Date of increase	*New threshold*	*Number of businesses*
December 1997	49,000	200 (part year effect only)
April 1998	50,000	3,000
April 1999	51,000	3,000
April 2000	52,000	3,000
April 2001	54,000	5,000
April 2002	55,000	2,000
April 2003	56,000	2,000
April 2004	58,000	5,000

(Businesses that did not grow in real terms will be reflected in more than one year so individual estimates should not be summed)

Brian Cotter: To ask the Chancellor of the Exchequer how many small businesses have taken up the flat rate VAT scheme in each year since its introduction. [162667]

John Healey: The VAT flat rate scheme for small businesses was introduced on 25 April 2002. There were approximately 8,000 businesses using the scheme at 31 March 2003, and around 15,000 in December 2003.

Mr. Moss: To ask the Chancellor of the Exchequer if he will refund to charitable museums VAT which has been incurred on *(a)* purchases made possible by grant monies from the National Lottery and *(b)* other purchases. [162352]

John Healey: Admission of persons to premises for a charge is a business activity for VAT purposes, so a museum that charges for admissions will normally be able to recover the VAT incurred on its purchases, building maintenance and other costs. Museums that charge admission fees that are exempt from VAT are not able to recover VAT incurred on their purchases.

Under normal VAT rules, VAT incurred on goods and services relating to 'non-business' activities cannot be recovered. Free admission of persons to premises is a non-business activity for VAT purposes, therefore museums which do not charge for admission, cannot recover the VAT they incur on related purchases, irrespective of the source of the funding used to make these purchases.

However, in September 2001, the Government introduced a VAT refund scheme which allows the main national museums and galleries which do not charge admission to recover VAT they incur on their purchases. This scheme was designed to remove an obstacle VAT was creating to the delivery of the Government's 1997 manifesto commitment that there should be free access to the main national museums and galleries.

The Chancellor has also announced in this year's Budget that the commitment to achieve free access has been an outstanding success and that, building on this success and in light of the Goodison Review, the Government will now consider the issue of extending the free access commitment for the main national museums and galleries, and the VAT refund scheme that has helped to deliver it, to university museums in the context of the forthcoming Spending Review.

Working Tax Credit

Mr. Denham: To ask the Chancellor of the Exchequer how many families are receiving the child care element of working tax credit; what the cost has been to date; and what proportion of families with children of eligible age this represents. [161527]

Dawn Primarolo *[holding answer 17 March 2004]:* The number of families benefiting from the childcare element of the Working Tax Credit, and their average help with childcare costs through this element, appear in Table 4.4 of each issue of "Child and Working Tax Credits. Quarterly Statistics."

Each issue of this publication appears on the Inland Revenue web site, at www.inlandrevenue.aov.uk/stats/personal-tax-credits/menu.htm.

The childcare element is available to single parents working for at least 16 hours per week, and to couples both working for at least 16 hours per week or where one works for at least 16 hours per week and the other is incapacitated, or a hospital inpatient or is in prison. The element covers eligible childcare costs incurred on children up to 1 September 2004 following their 15th birthday (16th if disabled).

Child benefit records indicate that at December 2003 there were 6.4 million families with at least one child whose 15th birthday was due to fall after 1 September 2004.

SCOTLAND

Asbestos

Malcolm Bruce: To ask the Secretary of State for Scotland if he will list the buildings occupied by his staff which require *(a)* remedial work on and *(b)* removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159649]

Mrs. McGuire: No buildings occupied by the Scotland Office currently require work related to the removal of asbestos. The costs of any work required in future will be met from within the administration costs for the Office.

Malcolm Bruce: To ask the Secretary of State for Scotland what proportion of buildings occupied by his staff have been surveyed for the purpose of identifying the presence of asbestos prior to the implementation of the Control of Asbestos at Work Regulations 2002. [159658]

Mrs. McGuire: The Scotland Office has been complying with the relevant provisions of the Control of Asbestos at Work Regulations 2002 for buildings occupied by its staff. Final work will be undertaken to check for the presence of asbestos prior to the introduction of Regulation 4 in May 2004.

Common Fisheries Policy

Miss McIntosh: To ask the Secretary of State for Scotland what recent discussions he has had with the First Minister on the effects of reform of the Common Fisheries Policy. [162303]

Mrs. McGuire: My right hon. Friend and the First Minister discuss a wide range of matters.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Scotland what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communications Service staff and *(b)* other staff, broken down by (i) press officers.(ii) special advisers and (iii) others. [158199]

Mrs. McGuire: The Scotland Office spent £180,582 on communications for the period up to the end of February 2004. This expenditure is attributable to press office staff (who are also members the Government Information and Communications Service) and special advisers. Details of the costs of special advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

Mineral Water Industry

Annabelle Ewing: To ask the Secretary of State for Scotland what estimate his Department has made of the number of jobs in Scotland dependent upon the mineral water industry. [162989]

Mrs. McGuire: The Scotland Office has made no such estimation of job numbers dependent upon the mineral water industry.

The most recent Scottish Executive figures illustrate that the wider bottled water and soft drinks industry directly employed 1,933 people in Scotland in 2002.

Scottish Executive

Sir Nicholas Winterton: To ask the Secretary of State for Scotland what the annual change in the block grant paid to the Scottish Executive was in each year since 1999; what percentage of the change for each year resulted from the application of the Barnett Formula; and what percentage of the change for each year resulted from other monies added to or subtracted from the block grant. [149632]

Mrs. McGuire: Information on the block grant to the Scottish Executive is set out in the main and supplementary estimates of the Scotland Office and in Scotland Office departmental reports. Changes to the Scotland DEL are determined in accordance with the Statement of Funding Policy, published by HM Treasury.

EDUCATION AND SKILLS

Capital Modernisation Fund (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many Capital Modernisation Fund computer-learning centres have been established in Crosby. [160446]

Mr. Ivan Lewis: There are three UK online centres in Crosby.

Two of those are Capital Modernisation Fund (CMF) centres and one is a public library. The two CMF Centres "3TC" and Merseyside Third Technology Centre and the public library is Crosby Connect Learning Centre at Crosby Library.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many people in Crosby have received a computer to assist in seeking employment or retraining. [160449]

Mr. Ivan Lewis: At present no centrally funded schemes exist which enable people to acquire free or low price recycled computers. In the past such schemes have been trialled but have proved costly to administer to ensure fair distribution of equipment.

Government funding has been focused instead upon establishing the network of UK online centres. People in Crosby who do not have ICT access and wish to use computers are advised to visit their local UK online centre.

Sure Start

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many Sure Start children's centres have been set up in deprived neighbourhoods since 2003. [161016]

Margaret Hodge: There are currently 67 children's centres in England, all of which are based in disadvantaged areas. We announced 32 on 23 June 2003, 29 on 24 September 2003 and a further six on 18 February 2004. We are currently considering proposals from local authorities for the wider roll out of this programme, and will announce new locations in the near future as further centres are ready for designation. All children's centres will be based in the 20 per cent. most disadvantaged wards in England, or in pockets of disadvantage outside of these wards.

Education (Stroud)

Mr. Drew: To ask the Secretary of State for Education and Skills how many and what percentage of teachers in Stroud have received computer training. [162744]

Mr. Charles Clarke: Statistics on teacher training in ICT are not compiled on a constituency basis, but all teachers are expected to be able to use ICT effectively in the classroom. In-service training was largely addressed by the UK-wide National Lottery-funded New Opportunities Fund (NOF) ICT training, which ran between 1999 and 2003, and to which some 96 per cent. of teachers in England signed up.

Training in the effective use of ICT in teaching is also a mandatory part of Teacher Training Institute courses.

Further training opportunities to address teachers' continuing professional development needs (CPD) in embedding ICT in classroom teaching are now being developed across a range of subjects, and teachers are able to buy into this training using Standards Fund monies.

IT Procurement

Mr. Jenkins: To ask the Secretary of State for Education and Skills what action the Department is taking to improve and increase *(a)* school and *(b)* local education authority IT procurement. [161235]

Mr. Charles Clarke: The Government is making significant investment in ICT in schools and always looks to ensure schools get the best value for money from this investment. Currently through the British Educational Communications and Technology Agency (Becta) we are supporting schools and LEAs by

aggregating procurements through the creation of framework contracts which deliver significant savings in price and considerably reduce the time and effort that would be needed (and duplicated) at local level;

the recent agreement between Becta and Microsoft Ltd in relation to their licensing framework for schools provides significant savings of between 20 per cent. to 37 per cent. for schools in England who choose to license the Microsoft software. The agreement also extends to schools in Northern Ireland, Wales and Scotland;

accrediting suppliers against strict commercial and technical criteria to provide assurance of quality service at affordable cost;

providing procurement advice to schools and LEAs though the Becta Independent Procurement Advisory Service (IPAS) and online advice and support to schools on the total cost of ownership and the issues to be considered beyond just the cost of infrastructure equipment.

Maintained Schools (Languages)

Mr. Brady: To ask the Secretary of State for Education and Skills how many pupils in maintained schools he estimates were studying one or more modern foreign languages at key stage two in each of the last five years. [163133]

Mr. Stephen Twigg: A 2001 study by QCA and the University of Warwick of modern foreign languages in the primary curriculum suggested that one in five primary schools were offering some form of language provision. The Department is currently reviewing this figure, and the number of primary pupils engaged in languages through further research, the findings of which will be available in late spring.

Return-to-work Training (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many women in Crosby have visited an information and communications technology training centre in order to learn skills to return to work. [160387]

Mr. Ivan Lewis: Crosby is served by both UK online centres and learndirect provisions.

An estimated 169 women use UK online centres in Crosby each quarter.

This information is calculated from UK online quarterly management information (quarter ending December 2003) which shows that, on average, each UK online centre has 101 users and that 56 per cent. of UK online users are female.

To date, 555 women have enrolled on a learndirect course from the Crosby constituency.

Schools (West Suffolk)

Mr. Spring: To ask the Secretary of State for Education and Skills (1) how many schools in the west Suffolk constituency have benefited from the Out of School Hours Learning Programme; [163035]

(2) what financial provisions have been made for those schools who wish to continue the after school activities that have come about from the Out of School Hours Learning Programme once funding from the programme ends. [163036]

Mr. Stephen Twigg: Suffolk Local Education Authority has informed my Department that it has distributed £725,186 from the Department's Standards Fund to all schools in Suffolk this year to provide study support opportunities (out of school hours learning) for young people in Suffolk.

Study support includes activities such as sport, the creative arts and cultural activities, as well as after school and breakfast clubs. Suffolk has also received £720,564 from the New Opportunities Fund 'Out of School Hours Learning Programme' of which £219,802 went to schools in West Suffolk. Again, this can be used to provide a range of activities for young people.

School funding plans for next year have been announced, guaranteeing that the standards fund income for all schools will be protected at this year's levels plus inflation proofing at 4 per cent.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Peat

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has *(a)* to re-convene the Peat Working Group and *(b)* to engage the United Kingdom gardening industry in helping the Government to meet its target of 90 per cent. of growing media and soil improvers to be peat free by 2010. [162234]

Mr. Bradshaw: The Department held a seminar involving all stakeholders on 30 April 2003 to examine the current and future development and use of environmentally friendly growing media and how this should be taken forward in the light of the UK Biodiversity Action Plan targets. The seminar's conclusions included establishment of a new Forum to replace the Peat Working Group to assist us in taking an informed view on the achievability of the 90 per cent. peat free target during the next review of the UK Biodiversity Action plan targets due in 2005.

Work on the composition of the new Forum and arrangements for the first meeting have regrettably been delayed. We hope to convene the new Forum as soon as resources and priorities allow. In establishing the new Forum we will seek representation from all the stakeholders including the gardening industry.

Animal Welfare

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 3 March 2004, *Official Report*, column 930W, what action she is taking to reduce the usage of veterinary antibiotics. [160996]

Mr. Bradshaw: The Government recognises that animals do become ill and need to be treated for both animal welfare and consumer safety reasons. Antimicrobials play an important part in maintaining healthy food-producing and companion animals. However, the Government firmly believes that the use of these products should not replace good farm management and animal husbandry systems.

The Government's aim is to reduce the use of antimicrobials on farm as part of an overall strategy of managing the risk to humans from antimicrobial resistance.

In addition to supporting the EU wide ban on antimicrobial growth promoters from 1 January 2006, key elements of this strategy include the collection and publication of information on the quantities of antimicrobials sold each year for veterinary use in the UK and the promotion of optimal and responsible use of antimicrobials in animal rearing. In this context the Government has worked closely with the Responsible Use of Medicines Alliance (RUMA) in drawing up their Codes of Practice on responsible use of veterinary medicines for cattle, sheep, poultry and pig producers.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 3 March 2004, *Official Report*, column 930W, what recent research she has *(a)* commissioned and *(b)* evaluated on the effect on humans of receiving antibiotics through the eating of meat and poultry, with particular reference to hospital superbugs. [160997]

Mr. Bradshaw: Defra's research programme into antimicrobials is designed to take forward the issues identified by the Advisory Committee on the Microbiological Safety of Food (ACMSF) in their 1999 Report on Microbial Antibiotic Resistance in Relation to Food Safety. This concluded that further research was required into the extent to which antibiotic use in animals contributes to the overall problem of antimicrobial resistance in humans.

This programme is therefore investigating whether the administration of antibiotics to animals results in the selection of resistant bacteria that may be transferred to humans in food and cause infections that are difficult to treat. It is focused on bacteria found on farms and in slaughterhouses that can cause human disease, such as Salmonella, Escherischia coli and Campylobacter. It does not include isolates found in hospitals and the evidence does not indicate that food is a major source of resistant organisms in hospitals.

This research will be evaluated as part of a full science review of the programme being arranged for late 2004.

The Veterinary Medicines Directorate carries out extensive surveillance for residues of veterinary medicines (including antimicrobials) in meat and other animal products. Over the five years between 1998 and 2002 (the last year for which figures are available) nearly 60,000 red meat and poultry samples were analysed. Antimicrobial residues above the EU's permitted Maximum Residues Levels were detected in less than 0.2 per cent. of these samples.

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will carry out an assessment to determine whether perturbation in badger populations can be eliminated or substantially reduced by improved badger culling programme design and execution. [157933]

Mr. Bradshaw: Research by the Central Science Laboratory and Oxford University suggests that culling operations may cause some spatial and demographic perturbation of badger populations. The amount of perturbation is a factor of the degree of culling, and the number of badgers surviving it. The more or, conversely, the less effective a badger culling programme is, the less the perturbation effect may be. Given the number of replicates that would be required at varying levels of culling efficiency and badger density, it would be difficult to design a study to quantify accurately the effects on the levels of perturbation that different culling programmes would have.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made with the *(a)* recruitment and *(b)* retention of appropriately skilled staff for carrying out badger culling operations. [157943]

Mr. Bradshaw: Full staff complement in the Wildlife Unit (WLU) would have been achieved during December 2003, however due to the announcement on 4 November 2003 to suspend the reactive culling element of the Randomised Badger Culling Trial (RBCT), three recruited staff were not offered posts.

There are currently 21 occupied field staff posts that are no longer required for delivery of the remaining elements of the RBCT. At present, there is no proposal to make the surplus staff redundant.

The pattern of staff turnover within the WLU is not considered excessive, and retention is not seen as a current issue. The surplus staff as indicated above provides a substantial buffer against possible future loss of expertise.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what natural factors restrain growth in badger populations when *(a)* the size of the population is less than the theoretical carrying capacity of the environment that it occupies and *(b)* there are opportunities for migration; [157953]

(2) pursuant to the answer of 12 February 2004, *Official Report*, column 1559W, what regulatory mechanisms limit the size of wild badger population. [158416]

Mr. Bradshaw: Badger population growth is constrained by reproductive output, mortality and migration. These factors will influence the population growth rate whether the population is below, at, or above the environmental carrying capacity. There is no reason to suspect that opportunities for migration will ever be absent but migration rates do appear to be generally low in badger populations. Reproductive output is probably limited by the number of reproducing sows per social group and the average litter size per sow. Both of these factors appear to be governed by nutrition. Mortality is also largely governed by nutrition, but is also influenced by stochastic events, such as dry summers. However, since all British badger populations studied reproduce well below their theoretical maximum, reproductive output is considered to be the major limiting factor to population growth.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what powers of entry wildlife officers have in order to gain access to badger setts for the purpose of trapping and destroying badgers. [158015]

Mr. Bradshaw: Participation in the trial is voluntary in all the triplet areas. Defra Wildlife Unit staff have no powers of entry to carry out badger culling and are on land with the consent of land-owners.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs which organisation is responsible for issuing licences for the killing of badgers under section 10 of the Protection of Badgers Act 1992. [158342]

Mr. Bradshaw: The Department's National Wildlife Management Team is responsible for issuing these licences.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent badger colonies approaching or exceeding the natural carrying capacity of their immediate environment rely on artificial food sources to sustain population levels. [158357]

Mr. Bradshaw: Research conducted by the Central Science Laboratory (CSL) suggests that badgers are more likely to seek artificial food sources, such as cattle feed, on dry nights when earthworm availability is limited. Potentially, artificial food sources could decrease badger mortality during protracted periods of natural food shortage, thereby bolstering local numbers. Currently, however, there is no information on the extent to which the value of such foods may differ with respect to population size and carrying capacity. The importance of cattle feed in badger diets forms part of an ongoing Defra funded research project being carried out by CSL, which is due to report in December 2005.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the population *(a)* density and *(b)* incidence of TB in badgers is in (i) Scotland and (ii) England. [158358]

Mr. Bradshaw: Population density varies widely on a regional scale throughout Scotland and England. In Scotland, large tracts of the uplands have no badgers, with local pockets of relatively high density. Overall, population density in Scotland is in the region of 0.2 badgers per km2. In England population density also varies in different areas, from very high (up to 30 badgers per km2) to low, with an average in the region of 1 to 2 badgers per km2.

The current incidence of TB in the national badger population is not known.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether perturbation in badger populations results in *(a)* increased contact between disparate social groups and *(b)* greater incidence of fighting between rival males, with more opportunities for infection spread through wounds. [158360]

Mr. Bradshaw: Disruption of social groups is likely to lead to changes in the contact rates of badgers from different social groups. However, there is currently insufficient data to quantify such effects accurately. No analyses have been carried out on the extent of aggressive confrontations, and the potential for disease transmission via bite wounding, in relation to population perturbation.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the effect is of low body weight arising from food shortage on the disease resistance of individual badgers. [158366]

Mr. Bradshaw: Poor nutrition has been linked to disease susceptibility in several studies of animal and human health. Currently, however, no data are available to link low body weight to disease resistance in badgers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the role is of suppurating wounds in TB affected badgers in the spread of *M. bovis* to *(a)* other badgers and *(b)* cattle. [158367]

Mr. Bradshaw: *M. bovis* has been isolated from bite wounds on badgers, although whether these resulted from transmission by biting or haematogenous spread following another portal of entry is still unclear. Infected bite wounds could be sources of infection for other badgers, particularly where mutual grooming occurs. Suppurating wounds are also a potential source of environmental contamination with infectious bacilli. This could pose a risk of infection to cattle if deposited on pasture, stored feed or in troughs.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what is meant by the term 'super-excretor' in respect of a badger infected by TB; and whether badgers so described exhibit atypical behavioural characteristics. [158375]

Mr. Bradshaw: Badgers excreting *M. bovis* are potential sources of infection for other badgers, and cattle. The term 'super-excretor' is used for research purposes to identify a sub-group of infected badgers from which *M. bovis* has been isolated from several different clinical samples. These animals are thought to be in an advanced stage of disease progression, and survival analyses have shown that they exhibit a higher rate of mortality than uninfected animals. Research conducted by the Central Science Laboratory has identified behavioural differences between badgers excreting *M. bovis* and uninfected animals. Badgers excreting *M. bovis* had larger home ranges and were more likely to visit farm buildings.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the typical cost of obtaining market authorisation for an animal vaccine is; how long the authorisation process takes; whether the typical cost can be used as a basis for estimating the cost of a market authorisation for any animal TB vaccine developed; and whether it is possible to use vaccines without their undergoing the full market authorisation process. [158001]

Mr. Bradshaw: Under European legislation marketing authorisations for veterinary medicinal products, including vaccines, may only be granted where scientific assessment of data supplied by the applicant demonstrates that the product meets statutory criteria of safety, quality and efficacy. The fee currently charged by the Veterinary Medicines Directorate (VMD) for processing an application for a UK marketing authorisation is between £1,480 and £21,210, depending on the type of application and the complexity of the assessment required. The fee for a novel veterinary vaccine, such as a TB vaccine, is likely to be at the upper end of this range.

European legislation requires applications for new marketing authorisations for veterinary medicinal products to be processed within 210 "clock" days of submission of a valid application. "Clock days" are calendar days, including weekends and holidays but excluding any period where further information is requested and awaited from the applicant. The time taken for applicants to respond to requests for further information is dependent upon a number of factors including the nature of the information requested and the priorities of the applicant. During such periods the authorisation procedure is frozen. Therefore, typically, the total time taken to determine an application for a marketing authorisation for a novel veterinary vaccine, such as a TB vaccine, could be approximately two years.

European legislation permits provisional marketing authorisations to be granted, in exceptional, objective and verifiable circumstances, without the need for a full data dossier. Such authorisations are only granted where safety has been established and are subject to specific conditions, such as the carrying out of further studies for efficacy.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the regulatory processes which affect the size of wild deer populations are; and whether the Government intervene in the natural regulatory processes. [158002]

Mr. Bradshaw: Deer are affected by the same 'regulatory processes' as other wildlife. The availability of key resources, particularly food, is the single most important determinant of population size. Management by man and incidental mortality (especially road traffic accidents) also play a role in influencing deer numbers.

In England, the Government 'intervenes' in a number of different ways, but most importantly through setting the legal parameters for deer management. Forest Enterprise, the government agency responsible for managing the nation's forest estate, intervenes more directly and is actively involved in managing deer within its forests.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many cats infected with bovine TB have been reported to her Department in each of the last five years. [158007]

Mr. Bradshaw: The information requested is given in the following table.

	Suspect TB cases in cats reported to Defra	*Number of suspect cases confirmed by isolation of M. bovis from clinical or pathological specimens at Veterinary Laboratories Agency*
2003	8	2
2002	9	2
2001	0	0
2000	2	2
1999	Not known	Not known

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether cattle exhibit the same level of discrimination in respect of choice of food contaminated by badger faeces when feeding from cattle troughs as when grazing on grassland. [158008]

Mr. Bradshaw: Work carried out by Bristol University found that cattle generally avoided pasture contaminated with badger faeces, but that high stocking densities resulted in more cattle feeding at contaminated sites. It is likely that cattle would exhibit a similar level of discrimination against food contaminated with faeces, whatever the means of provision, but may not be afforded this choice if food is limited. This may be the case where cattle set-stocking densities are too high at pasture, where cattle are grazed on grassland recently cut for silage or where contaminated feed is present within a feed trough.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs in how many of the Krebs proactive and reactive trial areas there were areas of land within the trial areas, or abutting on them, where wildlife officers were refused entry for the purpose of trapping or destroying badgers. [158016]

Mr. Bradshaw: All 20 proactive and reactive trial areas have within them areas of land where permission to cull has been withheld by the land-owner.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the optimum area in which badger control measures should be taken relative to a TB infected farm. [158018]

Mr. Bradshaw: The Report of the Independent Scientific Review Group chaired by Sir John Krebs recommended the removal of all badgers from all social groups with territories including the breakdown farm (or reactor land). The Independent Scientific Group on Cattle TB (ISG) advised on the practical implementation of this, and the reactive treatment of the Randomised Badger Culling Trial was implemented according to a Standard Operating Procedure ratified by the ISG.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether TB in badgers is a significant population regulatory factor. [158020]

Mr. Bradshaw: Bovine TB does not appear to be a significant population regulatory factor in badgers in Britain. Research by the Central Science Laboratory identified that of 207 marked badgers found dead in the Woodchester Park study area between 1978 and 1993, 65 per cent. had died from road traffic accidents, 9 per cent. had been killed, 7 per cent. died from starvation, 11 per cent. died from unknown causes and 9 per cent. died from TB. Since badger populations in Britain breed at significantly below their maximum potential, even the proportion of total mortality attributable to road traffic accidents is unlikely to affect population regulation.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether material contaminated with the M.bovis bacilli deposited on silage by badgers and used for the feeding of cattle is considered to present a significant risk of infection to cattle. [158022]
